Organisation: Te Taumata Toi-a-Iwi Arts Regional Trust

Local Board: Regional Organisation

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Tell us why

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   Tell us why

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   Tell us why

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

As the regional arts trust for Tāmaki Makaurau, Te Taumata Toi-a-Iwi appreciates the investment by the Puketāpapa board in supporting local arts, culture and creativity events and programmes through Creative Puketāpapa, and through support for public arts, the Arts House Trust and CultureFest.

It would be good to see this commitment reflected in the local plan.

We would encourage the board to find opportunities to collaborate further with your local arts and culture organisations and practitioners to explore the potential for further development that can support the board in the achievement of goals such as reflecting te ao Māori in your parks, facilities and programmes, activating your parks and other public spaces, drawing people to your town centres and engaging the community in your Natural Environment goals.

Submission - Puketāpapa Local Board Plan 2026

by The Tree Council
22 July 2026

From: The Tree Council
[redacted]

Thank you for the opportunity to present The Tree Council's submission on the proposed **Puketāpapa Local Board Plan 2026.**

This submission is made by The Tree Council, an independent, voluntary organisation, a non-profit incorporated charitable society which has been serving the Auckland community since 1986 in the protection of trees and as advocates for the significant benefits and services that our trees and green spaces provide.

Community

The Tree Council comment:

- We applaud the community-led recovery action plan – 'Recovery and Resilience in Roskill: Building Back Better Together', and intention to deliver projects with Te Ao Māori values.
- We watch with anticipation for the plans for Monte Cecelia Park, the Fickling Centre and new neighbourhood park at Howell Crescent to develop, and urge the board to protect notable and heritage trees and encourage succession plantings in these places.

Natural Environment:

The Tree Council comment:

- We agree that well-established community-led and mana whenua environmental and climate groups are the foundation for further environmental project work in your rohe, and applaud your ongoing support of these groups.
- We applaud your intent to invest in your parks and coastal forest, your awa and the Manukau Harbour so that water quality, biodiversity and trees are protected.
- We are delighted to read that you intend to refresh and update the Puketāpapa Urban Ngahere Action Plan 2021, to provide direction on the priority areas of the new tree planting.

● We urge you to oppose all consents proposing to remove trees in Significant Ecological Areas and Scheduled Notable Trees on both private and public land as these are so important to retain for future generations.

● If you have kauri in any of your local reserves you should consider getting them urgently tested for kauri dieback and if found to be positive then you should consider getting them treated with phosphite to keep them alive. Kauri dieback has an almost 100% mortality rate so all
infected trees will die without treatment. We recommend you work with the Kauri Rescue Trust for the best way to approach this problem. There is an urgency as trees in which the disease has progressed too far will not survive even after treatment, so the earlier this happens the better. Kauri are carbon sinks, we need to keep these trees alive as long as possible.

In addition we would like to see specific support, including financial support, for the following initiatives to protect and enhance existing tree cover:
● Practical support and (for eg legal) advice for private landowners wishing to provide permanent protection for their trees eg via covenants &/or scheduling to enable protection of existing tree cover on private land to be optimised as most of the mature trees in Auckland are on private land with no legal protection.
● Grants for private landowners to maintain Scheduled Notable Trees on their property
● Provide permanent and visible physical labels for all Scheduled Notable Trees in the local board area to enable the public to see that this tree is legally protected and tell the stories of our natural heritage.
● Look for opportunities to schedule additional mature trees and encourage Council to undertake Plan Changes to the Unitary Plan to regularly add new trees to Schedule 10 (Notable Trees).
● Look for opportunities to raise awareness of the value of Scheduled Notable Trees by organising events to celebrate them such as guided walks, community picnics, heritage talks.
● Look for opportunities for the planting of fruit trees on local parks and streets in your local board area.

● We would like to see specific support, including financial support, for mana whenua,

local communities and groups undertaking the following types of initiatives within the local board area:
○ water quality testing
○ monitoring of beaches
○ treatment of diseased kauri trees on local parks and private land
○ monitoring for myrtle rust
○ weed control
○ pest control
○ protection of local birds
○ restoration planting

● Public education on issues affecting biodiversity such as:
○ kauri dieback, myrtle rust
○ weeds
○ animal and insect pests
○ other biosecurity threats
○ control of dogs in sensitive areas
○ conflicting uses eg vehicles on beaches
○ rules for marine reserves

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   Tell us why

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

It appears well thought out and balanced – and a lot of work has already been put into this - so all good.

We do particularly like the proposed focus on partnerships to open up and improve community facilities

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Not at all

   Tell us why

   The plan is short on specifics and appears to be council 'throwing some money' at local boards to show local engagement

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I do not support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I do not support

   Tell us why

   We have enough open spaces. What we lack is sensible 'back to basics' approaches to infrastructure such as roading. The incessant drive to have bus lanes everywhere and speed humps just makes things worse not better

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I do not support

   Tell us why

   That issue can be better managed by council

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

   it is probably more cost effective to do away entirely with this initiative. I cant see what value it adds. The savings could then be passed on to the ratepayers

Have Your Say on the Draft Puketāpapa Local Board Plan 2026

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

   Tell us why

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

While the transport area sets a goal around expanding cycling options, I think this could be better reflected in the three year priorities, as our area is particularly in need of protected and safe cycling connections, especially into the city centre.

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   Targets the key points especially climate change and that new housing developments ruining the sort of environment of the places

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   The current community spaces such as the libraries are used quite heavily by the community so purchasing more areas for the community to use will be benefical

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

I don’t mind either way

Tell us why

Flooding does play a huge impact in Auckland such as in 2022 with the floods impacting the start of school, this would be beneficial as it would reduce the barrier for people to get where they need to go even during extreme weather events

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

No

   Tell us why

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   My kids play Baseball in the area. Their home ground is war Memorial park. In the last year the club has expanded at the junior levels and needs more space to play the games.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

Tell us why

It's pretty obvious , the more housing that goes in the less grass is available for water to drain away.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

As mentioned above my kids play baseball for central city at war Memorial park. What would be really great is to see multiple grass in fields, on the 90ft diamonds much like unsworth heights and Scott's point in particular. This would greatly improve safety of the players and allow more game time . Notably this would, for obvious reasons would require less water, and only the outfield would need mowing. In the last year the club has grown 2 fold especially in the junior grades(the most growth In the whole country for baseball). I ask that the board approach the president and committee with open minds and ideas and get to hear the needs not wants ,the NEEDS.

Local Board: I don't know

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Very well

   Tell us why

   I think I particularly liked the making people of all different cultures made feel like they belong here espiecially minorites as Mt Roskill is very diverse

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   Yes because its supporting our communites events

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

Tell us why

I support because New Zealand sometimes has very rainy weather conditions and its important that the community with floods as it can be quite a large financial cost for people espiecially in Mt Roskill

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

Local Board: Māngere-Ōtāhuhu

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   I think the range of goals for our area (community, transport, environment, etc) covers everything for our community. However, I feel like for the transport section, more could be planned for it, like including a plan for public transport.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I don't mind either way

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   I think it's a great idea to have more open spaces and community facilities in our area as they bring people together. I support the idea, but I feel like younger people tend not to use open spaces as much. So we would need to find a way to appeal to them.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

   Tell us why

   I support the idea, but I'm wary that a lot of the funding will go to planning rather than execution.

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

   I want more focus on public transport for our area, making routes more efficient, etc

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Very well

   Tell us why

   Accessibility and narual environments are priotritsed.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   Natural places are intergral to the mental health of the community. There are more trees and park like spaces in weatlhier areas, which is wrong. It also seems that housing intensification is happening more in lower socioeconimic areas, which is also wrong.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

I support

Tell us why

The best way to manage flooding is to plant morre trees. I see many spacers arounbd auckland that could be used for planting trees, but instead its just grassed over and needs to be maintained.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

We need more accessability in our current homes and buildings and we need it now, not in the future. People with disabilities are not included in new housing developments, all of them are multi storey with narrow dorrways and hallways that do not accomodate wheelchairs.

It it so much extra work to have to cheach out plces prior to making an excursion to make sure it is accessible, toilets are nearby, available parking etc.

Local Board: Maungakiekie-Tāmaki

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   I feel like it is inclusive for all people in the community helping them to all increase their social circles.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   I think that the more location for community events increases the amount of events we have. This will have a positive impact on people feeling included and safe within the community. It's a space for everyone to not only speak up but express their true selves.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

   Tell us why

   We are so close to the creek we definitely need support to help with flood resilience whether that be just volunteering or getting funding for water projects. I think it's a necessary move to support all in the community.

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

   Nothing right now.

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   I don't know

   Tell us why

   There is a lot of stuff in the draft plan and I'm only interested in my local places.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I do not support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I do not support

   Tell us why

   We have enough places already. Maybe stop letting people build 5-6 houses on single sections

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

Tell us why

The recent floods were devastating and we should do whatever we can to prevent that happening again.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

There is no need to make the Monte Cecilia road a one-way loop. It is fine as it is. The car park can be a loop if you're desperate to change it. Anything more would be an expensive waste of money.

Also, leave the Liston Village alone - it's not doing any harm and the park is plenty big enough as it is. It was already a total waste of money to knock down the houses that used to be along the entry road way opposite the Liston Village.

I support a dog off-leash space. Perhaps in Monte Cecilia fencing off part of the grass bowl or even the grassed area where the Catholic School used to be.

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   Mt Roskill South is acknowledged as a higher need area, but it does not have a 'town centre'. While the Margaret Griffen Park is an asset, the park facilities are focussed on sport. In summer the playground is a place people gather, but in winter, there is nowhere that is easily reached without a car. The Mt Roskill library is some distance away (Blockhouse Bay Library is actually closer).

   In the 3 1/2 years I have lived in the area, streets have become noticeably harder to navigate due to townhouses with insufficient car parking. Cars line both sides of narrow streets and sometimes footpaths as well. We need to advocate for new builds to provide for a realistic number of vehicles per unit. Ideally public transport would be the solution, but you would struggle to get a bus down most of these streets.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Not very well

   Tell us why

   I think the plan is generic, it has very few tangible projects included in it and so is hard to say it represents the priorities of the entire, diverse community.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I don't mind either way

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   Most of the new housing development, and the incredible amount of infill housing, does not have outdoor space for individual houses. Makes public outdoor space much more important. Shame though that rate payers have to fund this, rather than the property developers.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

   Tell us why

   Besides climate resilience, if done well, will improve the overall natural environment of the area.

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

   Transport - I think you should be looking at making the more narrow streets parking on one side only - eg Griffen Park Rd, it's being used by buses and trucks much more now the roundabout on Hillsborough Rd is there, and it's not wide enough. I'm sure there are other roads in the area that the same could be said for.

   Parks - treasure the resources we already have as well as developing new ones. For example, Griffen Park. It is not as enjoyable a local space because of the freedom camping, full of campervans, people washing themselves and their dishes by the toilet block and leaving rubbish behind.

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   Less and less people have their own garden area today. Community areas need to be provided for kids /adults to go

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

I support

Tell us why

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

I strongly think Plaza Drive in Three Kings should a a footpath on one side at least for it full length. Taurangi park is now up and running and is very popular. More housing is being built in the old quarry. Yet you can't walk from there to the Three Kings Mall without walking on the road or through carparks or going all round the Fickling Center.

A footpath is required before someone is hit by a car.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   there is a lack of open spaces while housing density is increasing

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

Tell us why

Clean water encourages wild life and allows kids to swim etc

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

. My main concern is regards the built proposals. There is increasing density of housing with little open space. Way to many houses and apartments are built with no exposed ground no where to play on, and no where for rain water to drain to. We see increasing flooding. I believe we are allowing way to many apartments on a section and that those apartments are not being built for familiies to live in but rather for people to rent out. This results in multiple couples or individuals living in an apartment . This means there may be 5 cars associated with a single unit. Times 5 for the number of units and there is 20-25 cars where once there may have been 2.

I look at apartment in other cities where there is always an allowance for green space for the inhabitants. I think this is a major issue. The current settings allow for ghettos

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Very well

   Tell us why

   It seems very comprehensive, covering areas that affect everyone from every walk of life.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   We live in an increasingly urban environment that seems to encourage placing more emphasis on privacy and being self-contained. We need to see ourselves more like a village with shared interests and these spaces will encourage residents to get to know one another better - so important in a multi-cultural setting.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

   Tell us why

   Better to have prevention in place rather than have to do damage control which can often be more costly, more disruptive and involve more resources in the long run.

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

   There is an ongoing problem with homeowners or those living in rental properties not mowing their berms or removing invasive weeds. Can there be a more deliberate, consistent outreach to communicate the importance of this? Invasive weeds in particular have the potential to infiltrate our vulnerable natural reserves particularly in coastal areas. Could there also be a concerted effort to discourage littering by placing more bins in parks and at bus stops?

   I support

   Tell us why

   The community needs more activity where people/groups can come together. Bonus if they are free activities, especially in this economic climate - lots of families are struggling with just the basics even. The benefits for physical well-being and mental health are so huge. I started going to a free zumba class last year at my local community hub. It's great to meet other people in my community, exercise and have fun together, and absolutely boosts my mood every week. I wish there were more activities like this. It is so good to see the community centre's buzzing with activity.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

   Tell us why

   Reduce devastation to impacted families can only be good.

   Supports connectivity and inclusiveness

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

Tell us why

Supports future-proofing our infrastructure

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

I am writing to express my overall support for the Draft Puketāpapa Local Board Plan 2026–2028. The document accurately identifies the key pressures facing our community, including rapid population growth , recent severe weather impacts , and cost-of-living challenges. I endorse the board's strategy to focus on strategic, value-for-money investments that build long-term community resilience.

Furthermore, I particularly welcome the plan's focus on local economic development. Investing in local business growth and ensuring our small businesses have the necessary support to thrive, connect, and adopt environmentally friendly practices is vital for maintaining a strong, self-sustaining local economy.

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   In particular I support the aim for a good public transport service. I would like more frequent services so that every bus route is 15 minutes frequency.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   I very much support community facilities to grow community engagement and to provide resources and facilities to everyone

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

I support

Tell us why

Flood resilience is most important to prevent flooding disasters and also to enhance the natural environment

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

As well as green space for people there should be adequate public green space for people to exercise their off leash dog

Have Your Say on the Draft Puketāpapa Local Board Plan 2026

#21

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Not very well

   Tell us why

   See attached feedback document. There are some ideas in the plan that make obvious sense, but not everything has hit the mark in my opinion. The questions #2 and #3 below are outliers that don't appear to feature in the report but are big investments with lack of transparency. For this reason, I've scored 'not very well'.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I do not support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I do not support

   Tell us why

   More transparency and details needed and consultation with community before this goes ahead. This seems like big capex, yet the question above has been framed as a sideline pitch 'just for feedback'. I can't support something I don't have details on.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

   Tell us why

   It's a no brainer. The flood devastation and impacts need anything and everything possible to get ahead, plan for future and mitigate known risks.

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

   See attached feedback document

Feedback on the Puketāpapa Draft Local Board Plan 2026

[redacted]

Date: 2 July 2026

Opening Note

I have briefly read the Puketāpapa Draft Local Board Plan 2026. Where I have not opposed something explicitly in my feedback, that means I don't have a view either way, or, generally support what's proposed. The overall feedback below has been written alongside reading the plan, and generally represents thoughts, ideas and pain points that I didn't see reflected in the plan itself. It is written exactly as I would say it. If there are future or current plans in place, that's great. If not, I'd kindly request that my feedback be taken on board as part of the final preparation of the plan.

Community

- **Supporting our houseless whānau**. While the local board has said previously this is not within their scope, which I don't agree with as the people of your local community are your scope - there is no reference whatsoever in the plan under Communities of greatest need. Homeless people are the people, ***without a doubt***, of greatest need. At the very least, I would expect to see our Puketāpapa Local Board prioritising the advocacy of real, wraparound support for our houseless whānau Auckland wide – especially considering the harmful Move On orders that are being proposed. We talk a lot about thinking globally, acting locally, yet I don't see this represented in the plan.
- **Civic participation**. I would like to see the Local Board taking a more active role in encouraging all parts of our community to take part in civic participation. Last local elections were another disappointing turnout. We cannot let 3 years go by without taking some proactive action and steps to prime our communities to give feedback and make their voices heard, including this process of sharing feedback on the draft plan.
- **Being more visible and relatable.** The local board need to get a better social media game happening. Get a communications strategy in place and start promoting your channels. I didn't realise until a day ago that there was a Puketāpapa Local Board Facebook page. Other things the local board need to consider are:
    - Better, more relatable and more consistent usage of social media content to help update communities on what's happening.
    - Get on Instagram and TikTok if you want to engage and reach youth.
    - Do more videos, preferably not overly rehearsed, so people can better connect with you. Get creative. Get current. Maybe get a comms advisor.
    - Do a mass invitation to get people following the local board FB, IG and tiktok pages
    - There is reference to using Notice Boards more, but to be honest, hardly anyone I know even bothers with these, they're so old school and located in places that people overlook (e.g. Somerset Road). You can definitely use them, but don't expect these to be a hit with the masses or guarantee reach.
    - Continue using static banners/large signs about upcoming events – these are effective in my opinion if strategically positioned.

- **Taking pride in our hood.** There appears to be a lack of rubbish bins in some public spaces which results in rubbish accumulating on the footpath, road, car parks. If there is known rubbish, is the answer to reinstall rubbish bins, or have more regular rubbish collection and clean-ups?
- **Get rid of addictive stores.** Do not let more alcohol or vape stores in our community and actively reduce the number of vape and alcohol stores too. Potentially implement limits on alcohol and cigarette purchase from supermarkets.
- **Illegal dumping on Somerset.** This problem remains unresolved despite attempts that didn't achieve anything. It's a real embarrassment to see dumping every week, right alongside our school campus, and where a lot of traffic passes – commuters or visitors to the school. Surely the board can come up with a long term, proper solution to this? If it means daily monitoring and clean-up, so be it.
- **Health and community**. Offering some free community, low impact exercise classes at community halls, schools or leisure centres would be a great way to engage people, encourage people to meet their community, and get a bit of exercise in. It needs to be free, but the board should fund the venue and facilitator. Cost should not be a barrier for people coming together.
- **Career and job support**. If not already in place, provide free CV writing, cover letter preparation, career advice and job search support classes at the Library, community halls or schools. Targeted for school leavers and people who are trying to find work, but have been unsuccessful – and for anyone who might need to refresh their CV.
- **Budget advice and support options**. Unsure if this is already a service offered at the Library, but in the cost-of-living crisis we're in, it would be helpful to offer some free budget advice and support options, including what financial, accommodation or food support options are available. While MSD is the place to go if needing financial support, having someone to support the preliminary process and application can go a long way for people already stressed to the max.
- **Food parcels**. There don't appear to be any food parcel supports within Mt Roskill, and if there are, it is not widely known or available. Is this happening, and if so, what is the communication approach so people who need it, can access it?
- **Pātaka kai**. Sadly, every time I drive past the pātaka kai on Denbigh Ave, it's empty. This signals either (or both) a great need, or people simply can't afford to donate. What is the local board's solution to this problem?
- **Community māra**. I understand that this very important and beneficial initiative is not going to continue receiving the support and funding from the local board. As stated above, people are struggling to put kai on the table. If we don't have options that allow people to grow kai, they are then forced to buy it. We must continue to fund the existing community māra, including the personnel who keep it running, and identify other areas where more māra can be established. Volunteers can only do so much to keep these spaces thriving – by funding a person to manage the upkeep, tend to the veges and ensure there is an abundant supply to share within the community, it will be a small investment that will yield in multiples. Also, gardening is incredibly therapeutic and good for you – this is an initiative that provides more benefits than the harvest alone.
- **Social supermarket.** This seems like an excellent option for Puketāpapa. We already have many local businesses that produce a lot of food supplies, including the Wesley market suppliers. How could Puketāpapa develop a social supermarket (like the newly established one in Hamilton)? How could this be replicated for Mt Roskill? Not only would

this lessen the stress on struggling families but would create a community space and some employment opportunities.

- **Sport and recreation**. The plan references to "continue to implement the Puketāpapa Sports and Active Recreation Facilities Plan". What exactly does this look like in reality? What is the forecast? What are the priorities? Does it include:
    - Better lighting and more bleachers at Fearon Park for both fields?
    - Extending toilets and changing rooms at Fearon Park for sport club usage?
    - Establishing a home clubroom and field for Puketāpapa Roskill Sports Club?

Natural Environment

- **Community garden spaces.** As mentioned in the Community feedback, we need to fund people to manage these spaces. The benefits will far outweigh the opex. If we want a connected, healthy community that respects whenua, this is one sure way to achieve it.
- **Berms**. Is the mowing of berms a local council job? We see many overgrown berms and alongside the fenceline alongside golf course on Hillsborough Road.
- **Coastal cleanup.** I assume there is local school engagement, and a regular cycle of schools from all ages, actively participating in coastal and environment clean-ups? If not, it seems that this would make incredible sense – it will ensure our taiao is regularly tended to, and our tamariki will learn to be kaitiaki, meaning our next generation will have the values of caring for whenua.
- **Concrete heavy**. When there is too much concrete, this affects the soils natural ability to process rain and adapt to the conditions. Where in the housing and development plans has there been assessment of balancing concrete and exposed land remaining?
- **Flood risk**. This is not climate driven alone - bad infrastructure and continued development on top of whenua, plus the weather is what causes it.

Built Environment

- **Maintaining natural balance**. As mentioned above, if we cover all soil with concrete, we destroy the lands natural ability to handle the conditions. We have to build upwards, not outwards.
- **Right size homes.** Homes have to be built big enough to cater to family sizes.
- **Right locations for new builds.** Why are housing developments even being considered in flood prone areas? Irrespective of storm water upgrades - this seems incredibly irresponsible.
- **Right spend**. Beautification of the White Swan Transpower station doesn't seem like a priority to me. It's a power station, it's not an attraction, no one visits it, it can be plain and boring, no problem.
- **Community hall proposal**. I note the online questionnaire #2 mentions that the Local Board are looking to open a community hall for wider community use, yet this is not explicitly mentioned in the draft plan. Why is that? There is also no online feedback box to share thoughts on this question. I think the community should understand the investment in building a new community hall and whether there is a good return on investment, and whether those funds are best spent on that project. Seems this idea has

been slipped in but not called out expressly in the plan (unless I've missed that connection).

- **Purchasing open spaces**. Similar to the above point, the online questionnaire #3 mentions that the Local Board are considering allocating more of its budget to buying open spaces and facilities to cater our growing population, however I didn't see this referenced within the draft plan? How come? I am unable to support a proposal that I have no details on. Recommend the Local Board share more information about questions #2 and #3 with the community to enable more informed feedback to be provided.

Economic Development

- **Event broker.** What does funding an arts and events broker mean? What's the arts and events broker for? Is this someone local? Who has been identified?
- **Compensating businesses**. So many businesses have suffered lost revenue due to major disruptions causes by infrastructure works. Those businesses should be compensated, if they haven't already.
- **Local employment opportunities.** There is no clear mention of employment opportunities - how can this be incorporated into the local board objectives? We need local jobs and career pathways for youth / school leavers.
- **Invest locally not globally**. Stop building big corporations like McDonalds. Create space and invest in local businesses.

Transport

- **Roadworks and traffic congestion**. It's terrible around Mt Roskill. Congestion is exacerbated by roadworks - this will only get worse as housing developments start - what are the plans to stagger and carefully and thoughtfully reroute traffic when housing builds start?
- **Roadworks forecast.** What is the forecast? When will they stop? As a community, we need better visibility of planned roadworks.
- **Responsive traffic lights and dynamic lanes.** I thought this was already a thing? This is a no brainer and fully support. Not informed enough and unsure about the dynamic lanes option but definitely worth exploring and testing if our roads can cater to this – the peak flow times often coincide with bus lanes being operational too, which reduces lane dynamics completely.
- **Hillsborough Road.** There are some specific sections that need some careful thought for improvements:
    - U go entry and exit from Hillsborough Rd design is not smart, it makes drivers entering from Hillsborough have to slow to a snails pace because of the embedded curb, and makes the entry and exit points on Hillsborough too narrow.
    - What road safety improvements are planned for Hillsborough? There is a common crash site outside 448 Hillsborough Road.
    - Hillsborough towards southwestern motorway (from Mt Albert Road just past Herd Rd) needs to be clearly 2 lanes, widen the left lane so people don't unnecessarily merge.

    - Hillsborough towards southwestern motorway (down hill just after LittlejohnSt) - the inside lane splits into two, but drivers always cut in from the outside lane which creates risk of collision.
- **Dominion Road.** There are some specific sections that need some careful thought for improvements:
    - Denbigh Ave/Dominion Road roundabout. This has got to be the most frustrating section of our regular travel route. The lanes are not wide enough, the corners project too far inward making it dangerous for drivers turning left in a west direction from Dominion Road onto Denbigh Ave. This has been a problem for years. The corners need to be shaved back to allow enough room for two vehicles to sit comfortably without the risk of the inside car side swiping the outside car.
    - Southwestern motorway exit turning left onto Dominion Road always sees drivers wanting to get into inside lane, push in or hold up traffic behind them - it should be left lane only unless clear to move safely and quickly into the inside lane.
- **Rail network.** Definitely support rail options, as only buses are available - the question will be how accessible will rail be to Roskill people, where will the station be located, will this generate options for local businesses.
- **Skinny, narrow streets.** In particular, Griffen Park Road and Oriana Ave. Over the years, these two streets have become cluttered with parked cars on both sides, likely due to new builds, with no space for two-way traffic anymore. It's a shambles, a major hazard for both drivers, pedestrians and pets. While putting yellow lines along one side might solve the problem, it'll likely create another with people needing to park their cars on another street.
- **Cluster outside Melba on Hillsborough.** Since the introduction of the roundabout and traffic lights, and now the re-opening of U go, which to be honest remove any form of traffic flow now (terrible planning), we now have cars parked incredibly close to the traffic lights on both sides which creates backlog and risk with cars manoeuvring in and out of carparks. There are far too many hazards in one small stretch of road. There needs to be yellow lines along Hillsborough Road for at least 100-200m to ensure there is clearance with no obstruction for vehicles coming out of the roundabout and through the traffic lights.
- **Roundabout size.** The roundabout diameter at both Lynfield shopping centre and Hillborough Road/Griffen Park just seem way too big. Is it that necessary to have these enormous sized roundabouts?

   I support

   Tell us why

   Housing intensification will increase demands on current green spaces.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

   Tell us why

This will protect infrastructure and lower insurance premiums.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

I think working on an east-west public link is crucial as Mt Roskill is "wider" then it is long. The removal of power lines is also another way of resilience into Mt Roskill's infrastructure. We need to actively work towards ensuring that we aren't constantly building back better. Where we can we need bulk planting of native grasses and trees. Grants should be made available to local schools to encourage planting as they don't face the same design constraints as council land.

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Not very well

   Tell us why

   I believe that the plan fails to recognise food insecurity and the lack of all weather community sports facilities in Puketāpapa. As the repot outlines, Wesley and Roskill South / Waikōwhai are all areas facing material hardship, yet food is not mentioned at all in the report. Food security should be at the heart of community wellbeing.

   Secondly, while weather issues are mentioned, its not connected to sport and wellbeing. There is a real lack of all whether sports fields in Puketāpapa. Winter sports are heavily affected. For example, Keith Hay Park is home to Auckland United Football club with nearly 2000 members. This makes it one of the largets sports clubs in the country, and one that serves a population facing hardship. Physical exercise is incredably important for community wellbeing, but the feilds at keith hay are regularly closed in winter meaning that people young and old miss out on regular sporting and social activity. All weather turf fields would go a long way to solving that. Yet there is no mention of this or similar within the plan. I do though applaude the move to support expansion of the Cameron pools.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

   The plan does lack specific actions. Whilst I appriciate that wellbeing is holistic and support the indicated support for community-led inititives, there is a lot of "we will assess/review/identify/advocate" terminology within the report - much of it related to plans or stratagies - and not a lot of actual commitment to actions or construction of community facilities. This already large and increasingly fast growing community is short of community focused facilities and spaces. This infrustructure needs to continue to grow with the population.

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Very well

   Tell us why

   Looking forward for additional indoor court space and swimming facilities for our community. There is a real shortage of space to play indoor sports and with growing population I have concerns this is will only get worse.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   Huge demand and limited spaces in our area.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

I support

Tell us why

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

More indoor courts to cater for growing population in our area. New housing should also have sufficient parking so the roads aren't clogged up with off street parking.

Submitter details:

Organisation: N/A

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Very well

   Tell us why

   The draft plan covers many important priorities for the community, including safer neighbourhoods, parks, community facilities, environmental protection, and support for local businesses. I would also like to see a stronger focus on affordable housing, better public transport, more support for families with young children, access to education and employment opportunities, and services that help migrants and culturally diverse communities feel included. These areas would make Puketāpapa an even better place to live.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   I support investing more in open spaces and community facilities because our population is growing. Parks, playgrounds, libraries, sports facilities, and community centres improve

people's health, wellbeing, and quality of life. They also provide safe places for children, families, older people, and people from different cultures to come together. I hope these investments are spread fairly across the community and are well maintained for future generations.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I don’t know

   Tell us why

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   I think the six aspects that the draft covers is quite revelant to me as a member of the youth in our community, so I think it reflects the priorities of the youth quite well.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   I think the growing population of our community is a major issue that the local board should aim to fix. As the population grows, more people would require more resources to thrive in our community, so I think it is a wise decision for our local board to invest more of its budget towards purchasing open spaces and community facilities.

4. The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?

I support

Tell us why

I think flooding is another important problem that affects me and my communuty. If the local board is able to provide more support towards flood resistance, it would provide my community with more opportunities to be able to thrive, which they would not have been able to do if these resources were not allocated towards flood resistance.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

No, I think the plan considers the main problems our community is facing and offers solutions that are refelective of our needs as a community.

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   I come from a larger family myself so I understand how people that do might feel and seeing them being supported is really nice

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

Tell us why

I think having clean water is very important for everyone so yes I support

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

No I think they covered it very well

Have Your Say on the Draft Puketāpapa Local Board Plan 2026

Organisation: N/A

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Very well

   Tell us why

   It highlights the primary problems that the community as a whole are facing.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I don't mind either way

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   Having large open spaces for the community to utilize, would open up opportunities for many different groups and individuals.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

Tell us why

Flooding always ends up damaging infrastructure whether noticeable or not, deteriorating the structures within the community.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

I agree with every point.

Submitter details:

Organisation: N/A

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Not very well

   Tell us why

   The plan recognizes the importance of community- led initiatives, strong neighbourhood connections and supporting diverse communities but not enough investment in the community providers and people doing the mahi have trusted relationships with community and are creating the spaces for community connection, supporting diverse communities and scaffolding local community members to run community led initiatives and so on

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I do not support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I do not support

   Tell us why

   A building alone does not create a thriving community. I support greater access to community facilities; however investment must also recognize the organisations that activate these spaces. Buildings alone do no create connected communities it is people, relationships and

trusted community providers that do. There are locals that need the investment as they are already doing the work. They have the connections and relationships plus man power and professional backgrounds to do it. We need the investment in our local people and local organisations to reach further. I encourage the board to explore community facility partnerships where grassroot organisations are supported to activate spaces based on community needs. Recognising the community organisations and grassroots charitable trusts in our community as infrastructure. They are the bridge. A community partnership fund or community activation fund to support our people to deliver programmes

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

   Tell us why

   This mahi is important

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I don't mind either way

Tell us why

This doesn’t really concern me specifically to be honest

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

N/A

Have Your Say on the Draft Puketāpapa Local Board Plan 2026

#89

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Very well

   Tell us why

   Overall, I think the draft Puketāpapa Local Board Plan 2026 reflects many of the priorities of the community. I support the focus on creating safe and connected neighbourhoods, improving parks and public spaces, protecting the environment, and making walking, cycling and public transport safer and more accessible. These are important issues for a growing and diverse community like Puketāpapa. I also appreciate the emphasis on supporting local businesses and creating opportunities for young people.

   However, I think the plan could place greater emphasis on improving road maintenance, reducing traffic congestion, increasing community safety, and ensuring there are enough recreational and sporting facilities to keep up with population growth. Continued investment in libraries, youth spaces and community programmes is also important.

   Overall, the plan reflects the community's priorities well, but there is still room to strengthen its focus on transport, infrastructure and facilities for a growing population.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   Yes, I support this proposal. As Puketāpapa's population continues to grow, investing in additional open spaces and community facilities is important to ensure there are enough parks, recreational areas, and shared spaces for everyone. These investments can improve community wellbeing, encourage active lifestyles, and provide places for people of all ages to connect. It will also be important to prioritise areas with the greatest need and ensure the investments provide good value for the community.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

   Tell us why

   Yes, I support this proposal. Increasing funding for Making Space for Water projects is a worthwhile investment to improve flood resilience and protect homes, businesses, parks, and infrastructure from the impacts of more frequent and severe weather events. Investing in flood management now can reduce future repair costs and improve community safety. It is also important that these projects are designed with input from local residents and consider environmental benefits, such as improving waterways and green spaces where possible.

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

   No

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   I felt the Puketapapa Local Board Plan showed some priorities for the community and some great ideas for what could be done to improve it, however, I would've put very well if there was more idea on what these improvements could do for the community compared to what is currently being done.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I don't know

   Tell us why

   Giving more space for the growing population would help people without places to go to have a space, however a big problem with the growing population is the lack of affordable housing and just there being housing in general. Although I think open spaces would be helpful, wherever it would be build could also be used for housing. The more housing opportunities we

have the less the demand will be, giving the chance for living spaces to become more affordable for the community.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

   Tell us why

   Flood resilience will always be good anywhere, especially in this area where there was a very bad flood a few years back due to there being not enough resilience.

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

   Comparisons to how funding has been used previously, how it's been used last, and how it's going to be used could serve as a better image for what any plans moving forward could change and specifically target.

Have Your Say on the Draft Puketāpapa Local Board Plan 2026

Organisation: N/A

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   Prioritisation of issues such as the cost of living, transport, and employment, all speak to the issues students and youth in mt roskill are suffering from. These are issues that are key to preventing us from e.g commuting to uni or jobs.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I don't mind either way

   Tell us why

   I believe this is something crucial, especially for youth within a growing population. Youth in mt roskill have expressed concerns around feeling isolated and disconnected thus having more funding put into community spaces would not just help everyone but specifically yourh with connecting and overall this would strengthen the sense of community we have. Spaces

like the Fickling centre and the Wesley community centre aleeady prove how these community strengthen and encourage community culture, connection, and diversity.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

   Tell us why

   Mt Roskill was one of the worst places to be impacted by the severe weather events during 2023 and onwards. The support regarding such has been minimal when looking at the mere amount of people impacted and the scale of those impacted. With climate change, youth know for a fact these events will only become more prevalent.

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

   I think it is crucial the board recognises and gives serious weight to Maori voices and experiences whether that be through consultation or integration of tikanga values in the way in which the board operates.

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   The presentation of the reflection about the priorities for our community showed the good priorities as it gave a chance for everyone to be included and supported through their help, this is shown when they included about supporting small local businesses and people who suffered through the flood and etc. This made me feel more safer in my community since they significantly and consistently shows how they support not only big businesses and upper class but also small business and lower class as its all equal.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   I support more of these options and it will give us more options and way t connect to our community to make us feel more welcomed and safer as the space is all for us.

4. The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?

I support

Tell us why

I support as it helps everyone who suffers from flooding to live their life safely and happily.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

No thank you.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

Yes

We need to be ensuring that volunteers are able to be getting the correct amount of Putea to support their mahi .

Harm reduction when it comes to Drugs and alcohol . The fact that K.O has run out of money mid build , after dismantling communities is criminal . Selling To private developers who are probs off shore and then selling the homes for 800k up is absolutely discusting . Our family Homesteads used to be there .

Where was the pre planning for all this . Why were all the plumbing and drains fixed before these builds . This is not Chicago.

Why are we getting priced out of streets we , were born and raised on . ?

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

Whilst investment in additional facilities and venues is essential, it must not come at the expense of existing community-directed suppport programmes. Sustained funding and grants are important to ensure initiatives which foster social cohesion, strengthen the sense of safey and build belonging remain protected and adequately resourced. Maintaining these programmes alongside infrastructure growth is key to supporting resilient and connected communities.

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   I think prioritising community development and space as well as the environment and flood protection meet the needs of the community well. Puketapapa has been expanding and growing in population due to its accessibility to the city centre and a lot of housing development have occurred and I think creating more spaces where communities can connect and interact are increasingly necessary. Puketapapa has also been severely impacted my recent flooding such as the 2023 floods where I know a lot of people in the communities had their homes affected. We also have lots of amazing parks and streams such as Oakly creek and protecting these areas, creating more greenspaces and focusing on flooding resilience should be a priority for the community.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

I think that creating more community spaces helps foster a good community and a culture of connection that is so important. Collaborating with organisations, schools and community groups to establish these spaces is super important because it takes into account community voice and their needs as well as allows stakeholders to shape the communities that they are living in.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

   Tell us why

   Puketapapa has been severely impacted by floods and in the current environmental situation where flooding is expected to become more frequent and severe, flood resilience and ensuring the health of these catchments is incredibly important

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

Submitter details:

Organisation: N/A

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Not very well

   Tell us why

   There are comments like "advocate" and "support" but no comments on how this will be achieved. We can all advocate and support anything on a wish list, but how we achieve it is a different story - comments like "by way of...." and a brief on what the board proposes to do would have been very helpful

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I don't mind either way

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I do not support

   Tell us why

   The needs to be a clear plan on how these open spaces will be utilitised and how it will assist in growing the community - is the proposal looking at a physical increase in population or more of the population that is here using the open spaces.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

   Tell us why

   This is paramount - Roskill residents have been inundated with intensification the lack of infrastructure to cope with this has lead to the issues of constant flooding in Roskill. The Whau catchment which crosses across two boards is one that needs attention at the earliest. The 2023 floods and the constant threat the Whau poses each time it rains has required too much community effort when it should have been on the top of the to do list of local govt, local boards. As a community we are feeling drained by the lack of progress - there needs to be way more reaction and urgency.

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

   Overall it sounds good on paper. Advocacy and support for issues sounds great but I dont see clear initiatives on how the advocacy and support will be achieved. Fully support the awa and consulting with local iwi, but more consideration with local community about their concerns is required.

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Not very well

   Tell us why

   Increasing and spreading awareness about Māori culture is really good, but they should also focus on showcasing other cultures too, especially smaller cultures, as, according to Auckland, about 50% of Puketepapa is not Māori (Pakeha/foreigner), so we should also prioritise them and Māori culture together.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   We need bigger halls and a community that can accommodate a lot of people and be used for events. The nearest big community hall is the Mt Eden War Memorial Hall. The rest of Puketepapa (mainly Mount Roskill, Lynfield and the Waikowhai side) needs more infrastructure like community halls for big(like 400 ppl +) and small events (like birthday

parties where people don't have space in their house), places for classes and dance studios will definitely make Puketepapa a better place. In the Lynfield/Mt Roskill and waikowhai there are a lot of reserves but not a lot of playgrounds. The only playgrounds near me are either griffen park of lynfield reserve. Would love to see more playgrounds. Also, Wattle bay in lynfield has its tracks closed for repairs for a very long time would love to see if get fixed.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I don’t mind either way

   Tell us why

   I live on a hill and never experienced any flooding.

Submitter details:

Organisation: N/A

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Not very well

   Tell us why

   First of all, the suburb of Mt Roskill is full of hoodrats and wannabe gangsters. You can say all you want online and make a whole plan but if those people don't contribute then there is really nothing we can do. Second of all, Mt Roskill is a very diverse community with means there are a lot of different opinions and views that may impact our vision of a "united community". Can some groups really be united? I do not think it is possible.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I do not support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I do not support

   Tell us why

   How many people of our "growing population" are New Zealanders moving into Mt Roskill or people immigrating from overseas and deciding to settle in Mt Roskill. If more are the latter, it's not our business to create community spaces to facilitate their needs. If you chose to

come here, that's your responsibility. We shouldn't contribute or provide tax-payer funding towards these people when it's there choice to come here. Also, how many people who will use these community spaces actually contribute to our economy and community? How many of them are on the dole?

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I don’t mind either way

   Tell us why

   How often do floods happen? Major, damaging floods are a rare occurence in Mt Roskill, it does not seem like a responsible decision to put money towards something so unlikely when it could be utilised for something the entire community benefits from, for example infrastructure, better school uniforms etc.

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

   Put the money towards something useful. Not for immigration, floods (cause they hardly happen), and maybe towards reducing drugs in the area, reducing the amount of school slackers and people on the dole and stop being so lenient.

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   Priority for our community in Three Kings are Playgrounds, clean safe space for kids. Positive environment and well thought out urban design. This would cater for all needs from both diversity and socio - economic scale of earnings.

   The Fickling Centre and surrounding area needs improvement by way of security, lighting, building structure , sense of well being and space. Urban design along with cctv / security.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I don't mind either way

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   Open space and community facilities are great , there is a purpose to have such facilities for all ethnic backgrounds and families. New facilities do need to have a sense of respect for all

parties that use them. The new plaza beside the City Fitness gym carpark looks great , as along as the drug users and homeless do not take over.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

   Tell us why

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

   Having clean, tidy, safe outdoor spaces is key for families and a growing community. There needs to be careful consideration regarding the design of the Three Kings / Fickling centre plan with thought for security, lighting, design , function and space. Very exciting times.

   I would like to see the green space ?460? Hillsborough Rd near the KFC be made into a park or community space. There has been an explosion of housing, we now need more green space and community facilities.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

   Tell us why

   Personally I think the problem is accelerated by all the housing. In the past properties in Lynfield had gardens and lawns- areas around houses that absorbed water. Now developers are building on every inch of land, consequently when we have heavy rain there is no land to absorb the rain- developers are cutting trees and eradicating gardens which means the rain has no where to go. I know you have engineers and planners etc- all my interactions with council and local board members have been positive, I don't mean to criticise, because all the people in council are working hard, doing their best, but I can see neighbours properties and see the evidence for myself- THIS ISNT WORKING! The rain runs into the next property. Fact- grass, gardens, trees absorb rain. If developers pull out all the green space on a property the rain has no where to go- i have seen it happen. I can only go my my experience.

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

   Plan A seems to be the best option for our area. May I take this opportunity to thank you for all your hard work. I know it must be incredibly difficult working in an area that has many moving parts- thank you for your service and dedication to making the best decisions for positive outcomes for our local communities.

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Not very well

   Tell us why

   I believe one of the biggest missed opportunities in our area is the lack of parking around Monte Cecilia Park and Pah Homestead. This park is home to one of Auckland's most visited community destinations. Hill House Café attracts thousands of visitors every week, bringing people from all over Auckland to enjoy the park, the Arts House Trust, the galleries and the beautiful grounds. It has become a source of pride for local residents and a significant contributor to the area's vibrancy.

   Unfortunately, the current parking provision simply doesn't reflect the popularity of the destination. On weekends and during events, parking is often completely full, forcing visitors to park in surrounding residential streets or choose not to visit at all.

   I believe increasing parking capacity should be a priority for the Local Board. One opportunity worth considering is the old, unused building within Monte Cecilia Park that has become a target for squatters and anti-social behaviour. Rather than leaving it to deteriorate further, this site could be redeveloped into additional public parking with attractive landscaping and seating areas overlooking the Manukau Harbour.

   This would:

   * Improve access for visitors to Monte Cecilia Park, Pah Homestead and the café.

   * Reduce congestion on surrounding residential streets.

* Replace an underutilised and deteriorating building with a safe, welcoming public space.

* Create another beautiful viewpoint where locals and visitors can enjoy the harbour.

Our area has incredible potential. Sometimes relatively practical improvements such as better parking, safer public spaces and making the most of existing assets can have a much greater positive impact than new projects. I would encourage the Local Board to make improving access and visitor infrastructure around Monte Cecilia Park a priority for the future.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I do not support

   Tell us why

   I don't believe the priority should be purchasing more open spaces or community facilities when we already have fantastic assets that are not being fully utilised.

   You should focus on improving the parks and facilities we already have. A perfect example is Monte Cecilia Park, which attracts thousands of visitors every week but suffers from a severe lack of parking. This impacts not only park users but also local residents and surrounding businesses.

   Rather than buying more land, investment should go towards practical improvements such as additional car parks, better access, improved landscaping and making existing facilities more welcoming and functional.

   I would also like to see the old, derelict building within Monte Cecilia Park addressed. It has become an eyesore and has reportedly attracted anti-social behaviour. Redeveloping this site into additional parking, together with seating areas overlooking the Manukau Harbour, would significantly improve the park and create a far better experience for the community.

   We don't need more parks—we need to invest properly in the excellent parks and community spaces we already have. Practical improvements that make them safer, more accessible and easier to enjoy should take priority over acquiring additional land.

4. The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?

I support

Tell us why

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

The Local Board Plan should focus on making everyday life easier for the people who already live here. As Auckland becomes more densely populated and homes continue to get smaller, high-quality community spaces become increasingly important. Places like Monte Cecilia Park and Hill House Café have become genuine community hubs where people meet friends, families gather, children play and visitors experience what makes Puketāpapa special.

These places only work if they are accessible. The lack of parking around Monte Cecilia Park is already becoming a significant issue, and I believe improving access should be a much higher priority than creating additional facilities elsewhere.

The Local Board should also ensure that existing public assets are maintained to a high standard. The old derelict building within Monte Cecilia Park should be redeveloped rather than left to deteriorate. It presents an opportunity to create additional parking, improve safety and establish a beautiful public viewing area overlooking the Manukau Harbour.

Finally, I encourage the Board to continue supporting successful community destinations rather than taking them for granted. We have seen what happens when well-loved heritage sites lose their vibrancy—they become underused and difficult to sustain. Hill House Café has brought thousands of people back into Monte Cecilia Park every week and has helped transform it into one of Auckland's great community destinations. The Local Board should ensure the infrastructure, parking and public spaces keep pace with that success so future generations can continue to enjoy it.

   Need to lease Herd road RR land and extend Monte Cecilia park

4. The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?

I support

Tell us why

The Govt land on Herd road will never be used for rail as it is too steep a gradient and would need to intersect Queenstown road so far too expensive to do.

This wasteland has a stream starting from Monte Cecilia with 2 waterfalls and glow worms among native bush. If it was developed as a park with more native bush planting it would alleviate the flooding at the bottom of Queenstown road.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

Do something with the old derelict vandalised school building in Monte Cecilia park.

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   We need to actually come up with a plan for our parks and facilities.

   What is the future of May Road war memorial.

   We need to stop the baseball club at May Rd from putting their fence barrier 🚧 up on May Rd park in the summer season. It reduces the public access to the sport fields in the summer.

Local Community who come down and use park in summer time have reduced field space.

Also in the grand design could take out Kainga ora houses on side road and create another car park or access.

Also Keith Hay park the area down the far side next to motorway could be used as multi sport fields so people can come down and play.

And at Keith Hay park the field closest to waikowhai intermediate should be a multi sport field where you can play touch rugby, tag, or kick a ball around.

You don't want cricket and soccer taking up all of Keith Hay park.

4. The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?

I do not support

Tell us why

No I do not support, better to use money on clearing the creek, keeping it clear to water flows through.

Also better on putting money into a indoor sports facility at a Park in Mt Roskill.

Also the local kids want somewhere where they can play.

They want somewhere where they can do bbs and swim, they are not allowed to do bombs at Cameron pools

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

It does not reflect the community.

Need food gardens, plant fruit trees where kids can go pick fruit.

Plant veges, food so expensive now

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Very well

   Tell us why

   More transport choices including more public transport, focus on climate and the environment - all important and recognised.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I don't mind either way

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I don't mind either way

   Tell us why

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

Tell us why

Flood resilience is really important for our area as many homes were hit hard by flood in 2023 and later years, too.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   Helping our community with facilities

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   It needs to start otherwise we won't have facilities, green space for our population growth.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

Tell us why

It is needed with unpredictable weather

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

Look at current facilities, they need to be better for our communities like the pools.

We don’t have a facility that helps performing arts.

Monte Cecilia Park needs to be for everyone, when will be able to use the park without fear.

Old school hall needs to be removed.

Our parks need to be for our communities not just clubs.

More needs to happen for people who break council bylaws. Eg dumping, dogs of leash in on leash areas.

Rates need to be affordable. They are too high for lower income families.

More local jobs would help local community.

Support local businesses. We need a business association.

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Very well

   Tell us why

   The focus on community, built environment and natural environment are what we need in Auckland right now. We need to feel more connected (less divided) and be taking positive actions to improve our natural environment, especially as housing intensifies.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   Again with intensification of housing, we need more shared public spaces for people to connect with nature, to play and partake in other recreational activities.

4. The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?

I support

Tell us why

We keep concreting all our permeable surfaces and wonder why Auckland floods at the slightest downpour. I fully support any initiative which helps allow nature to deal with extra water.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

I commend the Puketapapa local board plan for it's focus on working with mana whenua, acknowledging our wonderful diverse community and hope they continue to incorporate the voice of youth so they feel empowered to shape our community.

   Quite well

   Tell us why

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I don't mind either way

   Tell us why

   In the main I would support this but each case likely specific value (or not) and that is best determined by the board

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

Tell us why

The previous changes to the waterways have been a spectacular success both in controlling flooding and in creating spaces for people to enjoy a more natural environment. More of this would be great.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

Regarding transport. I believe Mt Albert Rd needs a proper *protected* cycle lane as it is a key ridgeline route for cycle transport.

In particular the intersection at Sandringham Rd is very dangerous, largely because cars frequently park on the cycle lane (on the dotted yellow line) and on the footpath. This occurs every lunchtime and dinner time as customers of the food stores there park illegally because it's convenient for them. AT does not have the manpower to enforce parking laws so I believe the only solution is to alter the built environment to prevent illegal parking and protect pedestrians and cyclists.

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Very well

   Tell us why

   Because everyone in the community can benefit from something.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   We dont have many options to pick from in the area, so purchasing more sites will be beneficial.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

Tell us why

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

It would be good to have the basketball court at Wesley covered so it can used as a multi purpose site for the market and events. This will benefit the market vendors and also allow the basketball programme to utilise the outdoor space.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

I would support improving public transport rather than adding more car parks, as car parks just encourage more driving. We should create spaces that guide people into using active modes. We could improve public transport by adding bus lanes, increasing bus lane hours, and increasing frequency and reliability. We should also focus on cycling and walking improvments before driving ones as there is more low-hanging fruit there

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

I have a few points relating to the transport section:

1) In the Challenges section, it is stated that there is not a frequent east-west public transport route in the area. The frequent 66, 67 and 68 crosstown bus routes all run through the local board.

2) Improving the efficiency of key roads in the area like Dominion Road and Mt Albert Road is worthwhile. The best way to do this is through improved bus lanes or other special vehicles lanes, and cycling infrastructure.

3) Advocacy for the Avondale-Southdown route is mentioned a few times in the plan. I'm not convinced that this is a good idea. This is a massively expensive transport project which has not proved that it has sufficient benefits. I would support advocacy for a lower isthmus crosstown rapid transit route of some kind (possibly even using the Avondale-Southdown designation), but heavy rail for this corridor would be very difficult to justify. Work to keep the designation alive may still be useful, although I doubt the section through Onehunga is feasible.

4) "Advocate to the Governing Body to increase the parking standards set out in the Unitary Plan.". If this is a reference to parking minimums, I do not support this. Parking minimums drive up the costs of new housing and lock in car dependency by assuming everyone wants a car park at their home. Developers can still choose to provide car parks if they think there is demand for it.

Zoning doesn't come up too much in the plan, but I would also like to see advocacy to remove the special character zones along Dominion Rd within the local board boundary. They constrain housing options in the best located parts of Auckland.

I am concerned that areas, such as the streets around Molley Green Park are becoming gentrified as KO sell the land from state homes to private buyers. Is their anyway our local board can stop the sale of KO land to private buyers, ensuring belonging and community for those who have living in this area for many years?

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Tell us why

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   population growth drives the need. As purchasing new open space and building new is very expensive, consider options for sharing space with existing groups who own their own facilities as well

   Developing existing parks with paths, play space and facilities, can be as good as providing new space.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

I support

Tell us why

flooding driven by climate change needs to be taken seriously.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

Important focus areas: Natural Environment,Transport

Most Important Focus Area: Natural environment

Why is it Important: I'm concerned about climate change and effects such as flooding, also protecting nature

Second Focus Area: transport

Why is it Important: Good transport sustains a better environment, economic success and a good life. We experience severe congestion along Donovan and Hillsborough Road at peak times, especially from 3pm-7pm. This is a problem right from Green Bay. However, Lynfield residents have noticed a greater problem since the roundabout at the intersection of commodore drive was installed. Please look into how traffic flow can be improved here and also advocate for the promotion and facilitation of carpooling for those commuters using this route. I am also unclear about the second objective. Should "seek" be "improve"? Thirdly, clarify if the plan seeking passenger transport on the Avondale Southdown line, as I understand it to be for freight only at present.

Other Feedback: This submission in in addition to a manual /paper one I have submitted. Please consider both.

The Economic section of the plan could be improved to add clarity. I support all the current recommendations, but the challenges section especially point 2 is weak For example the local Puketapapa board area does have a large area of business land at Stoddard and May Roads. The plan should be clearer that the need is for more employment, as adding more "business" land (which covers very sort of zoning) does not necessarily lead to more jobs, e.g. when large tracts are used up on storage facilities. Is the need rather for more retail land or business services? I suggest supporting research into this topic to seek recommendations for supporting more employment as part of the local economic development plan. Then you can advocate for increases in specific types of business land. I also support research (by Council as a whole) into the impact of public parking reduction on small retail businesses. These currently have no compensation under the Public Works Act to tide them over major disruptions. We need retail to support centres and give them liveliness for our communities but there is severe competition in this area from online retail in addition to contracting incomes. So it is doubly important not to kill off small retailers in our centres while trying to support them with centre improvements- the balance needs to be right.

   a new community facilities for events - we have a growing population another option = need extension of Mt Roskill War Memorial hall

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

Tell us why

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

- security/safety is paramount. Our community keen to live in save community environment safety for people to walk in their own neighbourhood, safety for businesses.

- We need better system for first home byers to afford buying new home - i.e rent to buy scheme.

- street crowded parking - created by 3 stories build behind existing properties, Labour and National are great on this policy = difficult for rubbish collection. its a fire hazard/risk

One vital burial (sorry can't read those 2 words)the rest caught fire - can the board look at this.

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   Im not sure of the priorities of my community because there is a lot of good stuff happening already. As a muscian I would like to see more arts and music pushed here.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   Yes I support. The local board needs to partner!

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I don't mind either way

Tell us why

I dont really mind, the community just needs to know what the flood areas are. I also support the outreach team in Wesley, they work at the school and help people.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   hosting big events, making free donations

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   this can help those people who really need help.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

Tell us why

Because the percentage of flooding in NZ has increased significantly which means the government need more focus on preventing flooding.

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Not very well

   Tell us why

   I personally think the Local Board should focus more on our youth and the amazing work they do at our local centres.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I don't mind either way

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I don't mind either way

   Tell us why

   Yes, partnership with community groups and schools is good, but still a bit 50/50 on growing the population, it is too crowded. I like the old Roskill, communities had green space at the back of their homes.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I do not support

   Tell us why

   Too much time and money will be spent on this

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

   Look after our community, people and invest into our health and wellbeing.

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   It's great the LB has a relationship with the community and organisations. We have so many groups doing so much work for Roskill. Its good LB is focusing on investing more of its budget to organisations doing all the mahi.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I don’t mind either way

Tell us why

I would like to see this funding go to mental health and youth programmes.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

We dont know what the next 3-5 years look like, but people are more fearful that our communities will be affected by what is happening overseas. If there is way to support and connect our communities.

Local Board: Puketāpapa

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   Commitment to our natural environment, maybe look into support volunteers. They do too much.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   Strengthen community connections

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

Tell us why

I support it because our families who are vulnerable need support, community education and a neighbourhood network.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   a growing population requires community infrastructure and support to become embedded in a community and to foster healthy relationships between existing residents. A new and recent migrants (i.e. ways to reinforce and strengthen the social contact for a given area). For new migrants and families, some of who may be out of work it is important to have spaces to support these families and individuals integrating into a new community. It's also incredibly important for social cohesion that these places are public and easily accessible. Seems to be an easy way to curb antisocial behavior and crime

Submitter details:

Organisation: N/A

Local Board: Waitākere Ranges

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Not very well

   Tell us why

   It's needs some clarity over how everything will work like easier ways to understand how everything will work so it's better for people to understand what the board are doing. In terms of priority it's to be more known of what everyone is getting in terms of what the board offers so it's hard to understand what people get from the plan.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I don't mind either way

   Tell us why

   It Isn't the biggest priority as there's bigger problems that could be present.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I don't mind either way

   Tell us why

   It should be a priority as it can be dangerously for the infrastructure with floods that are common.

5. **Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?**

   I feel like if more infrastructure and just keep having ideas on improving already existing infrastructure will help people as when better is being provided, the way of life would be better and a lot of the minor problems will be removed when we remove such a major one which is improving infrastructure and building new infrastructure.

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

   Tell us why

I have whanau living in the Te Auaunga catchment who were flood affected by the early 2023 events but continue to be flood affected since. Better flood resilience is therefore the number one issue for our whanau.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

The draft plan short version states:

"We reduce the damaging effects of extreme weather events by focussing on catchment-scale interventions "

We are confused about how this is implemented. Up until now we thought this was a "Healthy Waters" responsibility. Now we see the local board involved. Who does this? Where do we submit our inputs? Healthy Waters? Local Board? Both? We have seen enough of Auckland Council confused responsibilities that we want more clarity on this.

Tell us why

Also drains need cleaning. Give locals tools and an incentive to clean street drains from leaves and rubbish. Provider bags and gloves and grabbing stick and rewards system.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

Don’t blame it on the rain, clean the drain

I pick up at least two rubbish bags full of rubbish and leaves etc in my street . It is unsightly and dangerous. Promote zone cleaning teams and rewards for helping. And more social contact for residents. Plenty of lonely people out there. Organise more group walks and street starting points for evening walk in summer (safety and fitness and health walks)

   I support

   Tell us why

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

I support these plans. Our area has been subject to a lot of intensification due to unitary plan, but amenities and facilities have not kept up. I now live on Boundary Road, which has seen traffic volumes increase 30% over the years, and parking needs intensify, but Auckland Transport has not made the road any safer. Also, our area is severely impacted by flooding, and the more work that can be done the better for resilience.

As per the Transport goals set in the Puketapapa draft summary, for "Improved transport network, that considers the planned growth in Puketāpapa, and Better use of the road corridor", I attach a supplementary document for the consideration of an improved clearway for Boundary Road, Blockhouse Bay.

Request for a consistent clearway on Boundary Road, Blockhouse Bay

[redacted]

Prepared for: Auckland Transport and local board

Date: July 2026

1. Executive summary

Boundary Road (Blockhouse Bay) carries Auckland Transport's frequent Route 24B service in both directions along a narrow (approx. 9.3 m), undulating corridor between Maioro Street and White Swan Road. AT's own traffic counts show the corridor now carries 8,150–9,350 vehicles per weekday (May 2026), with sections having roughly doubled in volume since 2009. Unrestricted parking on both sides — intensifying as the corridor's THAB and Mixed Housing Urban zoning is taken up — leaves too little width for a bus and an oncoming car to pass, so one has to give way. The road also has parking pressures due to a government laboratory, Chorus fibre exchange, major high school (Lynfield College), three early childhood centres and a rest home, and a frequent bus service (24B) all in a 600m stretch of road between White Swan Road and Whitney Street.

AT's own signs dataset shows the existing clearways are fragmented: they all operate Mon–Fri with the same hours, but coverage switches sides and has gaps within about 600 m — while roughly 700 m of the corridor toward Maioro Street has no clearway at all but has similar issues relating to road width. The inconsistent layout is hard to follow, so residents and students breach the rules, generating recurring complaints and enforcement costs.

This request seeks one continuous, consistently signed weekday daytime clearway (indicatively 7:00am–6:00pm, Monday–Friday) on one or both sides of Boundary Road between Maioro Street and White Swan Road, replacing the current patchwork. It directly advances AT's bus priority, Vision Zero and network optimisation objectives at low capital cost, using only signage, road marking and enforcement of an existing regulatory tool.

2. The corridor at a glance

Corridor	Boundary Rd, Blockhouse Bay — Maioro St to White Swan Rd (approx. 1.8 km)
Carriageway width	Approx. 9.3 m kerb-to-kerb
Bus service	Route 24B (frequent service, Sandringham Rd corridor), both directions
Scheduled weekday bus movements	121 bus movements per weekday along the corridor
Bus peak intensity	Up to 13 buses/hour (07:00–08:00); 8–9 buses/hour 15:00–18:00
Traffic volume (latest AT counts)	8,150–9,350 vehicles per day (5-day ADT, May 2026); peak hours of ~950–1,040 vehicles
Traffic growth	Volumes near White Swan Rd roughly doubled from ~3,500 vpd (2009) to sections carrying 8,000–9,300+ vpd today
Sensitive land uses	Lynfield College, three ECE centres (Magic Kingdom, Lynfield Community Childcare, The Wishing Tree), a rest home, AsureQuality laboratory
Zoning	Terrace Housing & Apartment Buildings (THAB) and Mixed Housing Urban under the Auckland Unitary Plan and PC120

3. Problem definition

3.1 Bus reliability on a frequent route

Route 24B operates along Boundary Road all day in both directions — 121 scheduled movements each weekday. With vehicles parked on both sides, buses must repeatedly pull out, wait, and thread through single-lane gaps. Each conflict adds delay and variability that compounds along the route, undermining timetable adherence for the entire Sandringham Road corridor. Delay incurred on this 1.8 km stretch is carried by every passenger from New Lynn and Blockhouse Bay and into the city centre.

3.2 Limited carriageway width

The carriageway is approximately 9.3 m wide. With cars parked on both sides, roughly 5.4 m is left for moving traffic. A bus is about 2.55 m wide (over 3 m with mirrors), so at 9.3 m, if a bus and a car needed to go past each other where cars are parked on both sides, one would have to give way. This happens repeatedly along the corridor, on an undulating road with restricted forward visibility.

3.3 Safety risk concentrated around children and older residents

The corridor hosts Lynfield College, three early childhood centres (Magic Kingdom, Lynfield Community Childcare, The Wishing Tree) and a rest home. Children and retirees cross Boundary Road throughout the day, frequently emerging from between parked vehicles. Bus frequency, general traffic peaks and pedestrian exposure all coincide: AT's counts put the corridor's AM traffic peak at 08:00–08:15 — exactly school and ECE drop-off — and the 2024–2026 counts record PM peaks at 14:45–15:00 on two sections, i.e. the school pick-up hour itself.

3.4 Unclear priority and driver conflict

Where parking narrows the carriageway to one usable lane, New Zealand road rules provide no formal priority — drivers must negotiate informally. At 9,000+ vehicles per day plus a bus every 4–5 minutes in the peak, this is constantly producing give way problems for drivers, especially bus drivers.

3.5 Inconsistent existing controls drive non-compliance

The existing restrictions are fragmented in every dimension — timing, days, extent and side of road (see Section 4.3). The rules are not self-explaining, so they are routinely breached, generating complaints to Auckland Transport and enforcement cost without corridor-wide benefit.

3.6 The problem is growing

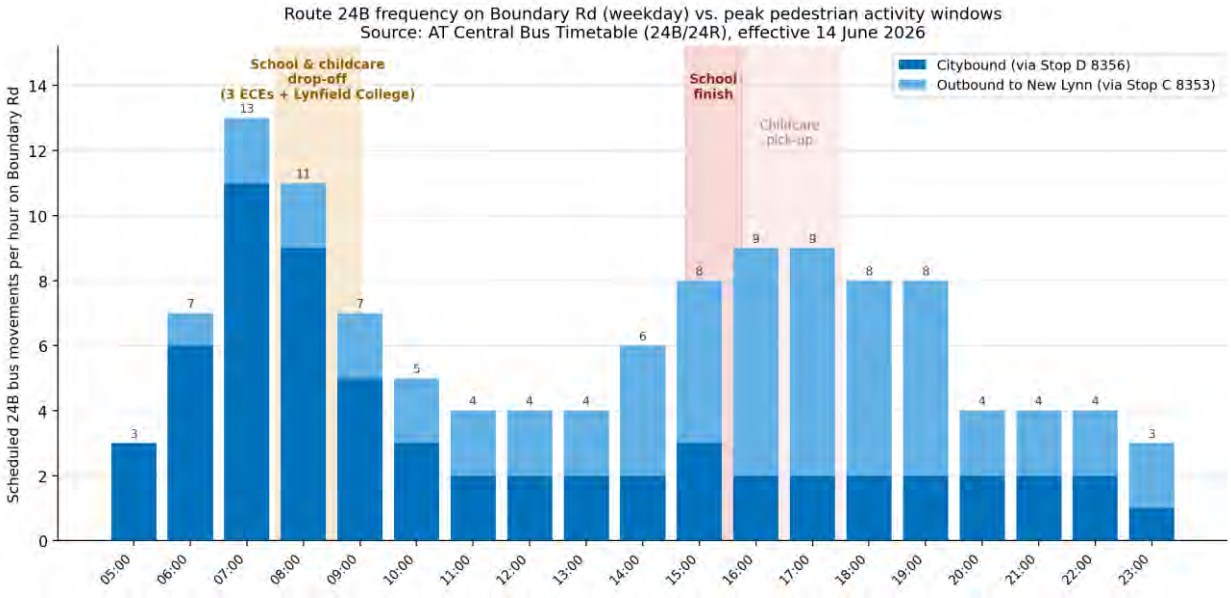

The corridor is zoned Terrace Housing & Apartment Buildings and Mixed Housing Urban under the Auckland Unitary Plan and Plan Change 120. AT's counts already show traffic on sections of Boundary Road roughly doubling since 2009. Infill development is lifting household counts — and

with them, on-street parking demand — on a carriageway that cannot absorb it. Without intervention, this problem will degrade safety and cause further congestion on this road.

4. Evidence

4.1 Bus service frequency vs. pedestrian exposure

The figure below shows every scheduled weekday 24B movement along the Boundary Road stretch from the current AT timetable (effective 14 June 2026), using Blockhouse Bay Stop D (8356) for citybound trips and Stop C (8353) for outbound trips. Shaded bands mark peak school and ECE timings.

- AM peak: up to 13 buses/hour between 07:00 and 08:00 — one roughly every 4–5 minutes — directly overlapping school and ECE drop-off.
- PM peak: 8–9 buses/hour between 15:00 and 18:00, coinciding with Lynfield College dismissal and childcare pick-up.
- Even in the inter-peak, 4–5 buses/hour operate — a frequency AT elsewhere supports with bus priority measures.

4.2 Traffic volumes: heavily trafficked and growing

Auckland Transport's published traffic count data (Traffic Counts, July 2012 – June 2026, plus the pre-2012 dataset) includes the following counts for Boundary Rd (Blockhouse Bay).

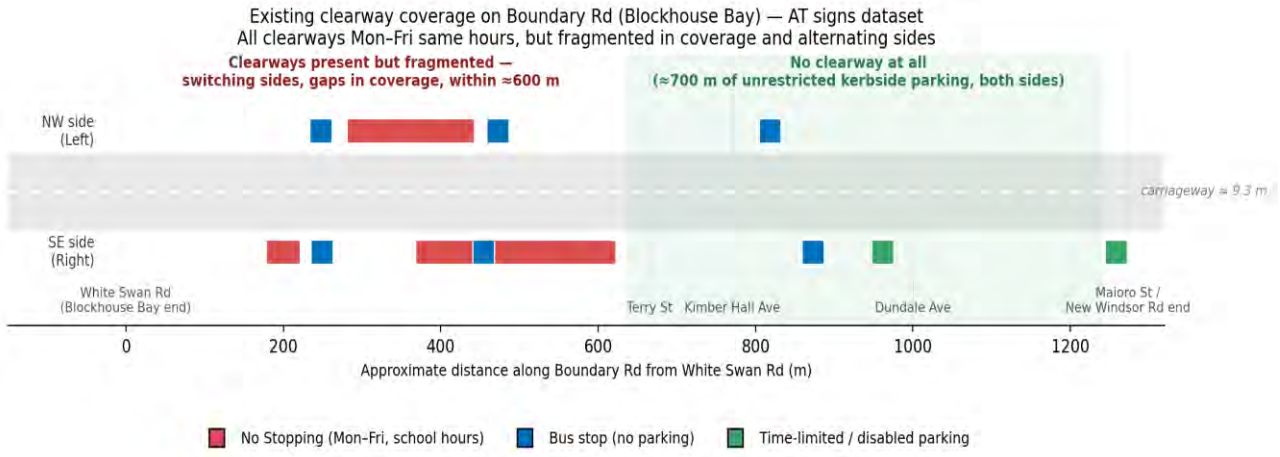

Count section	Count date	5-day ADT (vpd)	AM peak (veh/hr)	PM peak (veh/hr)
Terry St – White Swan Rd	Jul 2009	3,530	–	–
Terry St – White Swan Rd	Feb 2015	4,682	610 (08:00)	423 (17:00)
Terry St – White Swan Rd	May 2018	4,878	665	445
Terry St – White Swan Rd	Jul 2019	4,686	732	412
Dundale Ave – Landseer Pl	Aug 2024	8,623	942 (08:15)	856 (15:00)
Landseer Pl – Dundee Pl	May 2026	8,155	904 (08:15)	834 (14:45)
Kimber Hall Ave – Terry St	May 2026	9,349	949 (08:00)	1,039 (16:45)

- The most recent counts (May 2026) record 8,155–9,349 vehicles per day — volumes typical of a busy collector road — on a 9.4 m carriageway also carrying a frequent bus route.
- Volumes on the corridor have roughly doubled relative to the ~3,500–4,900 vpd recorded near White Swan Rd between 2009 and 2019, consistent with intensification under the Unitary Plan.
- AM peak hours fall at 08:00–08:15 (school drop-off) and PM peaks on two recent counts fall at 14:45–15:00 (school pick-up) — general traffic, buses and child pedestrians all peak together.

Source: AT Traffic Count Data (at.govt.nz/about-us/reports-publications/traffic-counts). 5-day ADT figures rounded to whole vehicles.

4.3 Existing signage: fragmented coverage, alternating sides, then nothing

AT's signs dataset for Boundary Rd (Blockhouse Bay) shows every parking-control sign on the corridor. Plotted along the road, the inconsistency is clear:

- The clearways all operate Mon–Fri with the same hours, but coverage is fragmented within about 600 m of the White Swan Rd end — switching between the NW and SE sides of the road with gaps in between.
- There is no evident pattern to which side is restricted at any given point.
- North of roughly Terry St toward Maioro St — the section serving Dundale Ave, Landseer Pl and the New Windsor Rd end — there is no clearway-type restriction at all, despite this being where the highest traffic volumes (8,600–9,300+ vpd) are now recorded.

Drivers cannot reasonably be expected to learn this layout. The non-compliance and complaints follow from the layout itself, and are best resolved by making the rule consistent rather than by more enforcement.

Source: Auckland Transport signs dataset, filtered to road name "BOUNDARY RD (BLOCKHOUSE BAY)".

4.4 Photo evidence of the give way problem

As a local resident, I have been using my vehicle dashcam to capture many instances of the narrow road corridor problem in areas with and without a clearway. Here are some examples. I have plenty more including video footage I am able to share.

5. Strategic alignment

- Vision Zero for Tāmaki Makaurau: eliminating conflict points and restoring sightlines outside a school, three ECEs and a rest home targets the highest-consequence pedestrian risk.
- Frequent Transit Network reliability: Route 24B is a frequent service; clearways are AT's standard, lowest-cost bus priority instrument for exactly this failure mode.
- Auckland Plan / Unitary Plan intensification: PC120-enabled growth is predicated on quality public transport. Allowing kerbside parking to erode the very service that justifies THAB zoning is internally inconsistent policy.
- Room to Move (parking strategy): AT's strategy explicitly prioritises movement of people over storage of vehicles on the frequent network.
- Reduced enforcement burden: one consistent rule replaces a patchwork that currently generates complaints and repeat call-outs.

6. Recommended option: continuous weekday daytime clearway

I appreciate AT will have experts that can suggest better options for Boundary Road, if I were to make a suggestion based on the data above, I would introduce a consistent clearway on one side of the road for the full road corridor that operates during the weekday. This ensures resident parking, while also ensuring the bus service and safety needs are met.

- **Extent:** both sides of Boundary Road, Maioro Street to White Swan Road (approx. 1.8 km).
- **Hours:** weekdays, indicatively **7:00am–6:00pm**, capturing both bus peaks and all school/ECE windows in a single memorable rule.

8. Benefits

- **Reliability:** removes the dominant source of delay and variability for 121 daily bus movements; benefits every passenger along the full 24B route.
- **Safety:** restores sightlines where children and older pedestrians cross; removes give-way standoffs on a 9.3 m road now carrying 9,000+ vehicles per day.
- **Compliance**: a single self-explaining rule is easier to obey and cheaper to enforce than the current fragmented layout, reducing complaint volumes to AT.
- **Growth-readiness:** protects corridor function as PC120 intensification proceeds, defending the public transport proposition that underpins the zoning.
- **Value for money:** signage and marking only — no civil works — leveraging an existing regulatory instrument. Among the cheapest bus priority interventions available to AT.

9. Risks and mitigations

- **Resident parking displacement:** I appreciate not all residents will be happy with this, though note that when the laboratory resource consent was occurring, residents were very vocal at how much on street parking was being taken up by employees of the lab, and many were advocating for a clearway then too.
- **Initial non-compliance:** launch with a /warning period and targeted enforcement; the consistency of the new rule is itself the primary mitigation.

Appendices: (A) AT Central Bus Timetable — Wesley, Blockhouse Bay, Ōwairaka, Sandringham Rd (24B/24R), effective 14 June 2026; frequency counts tabulated from Blockhouse Bay Stops D (8356) and C (8353). (B) AT Traffic Count Data, filtered to Boundary Rd (Blockhouse Bay). (C) AT signs dataset extract and interactive signage map (OpenStreetMap base).

Have Your Say on the Draft Puketāpapa Local Board Plan 2026

Organisation: N/A

Local Board: Whau

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   I think a loudspeaker is needed for people who are talking.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I don’t know

   Tell us why

   I don't know the estimated budget amount.

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

   I support

Tell us why

Having control over flooding is essential for the benefit of people and the protection of the environment.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

Thank you

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   because flooding is a big issue so having support around it will help out many families in the communities. increase in employment will also benefit because it will increase countries productivity

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I don't mind either way

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I don't mind either way

   Tell us why

   because it will help bring together people within communities and allow them to connect

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

I support

Tell us why

to prevent flood damage will help families that are usually affected as they will have the extra support and decrease in water damage

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

Have Your Say on the Draft Puketāpapa Local Board Plan 2026

Local Board: Whau

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Not very well

   Tell us why

   It is mainly focusing on one specific minority whereas the local board should focus on all the minorities in the community respectively and the transportation needs more work .

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I don’t mind either way

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   I think to accommodate the growing population in the area it's better to invest on purchasing open spaces and community facilities

4. **The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?**

I support

Tell us why

Because the construction of canals can be better to be resilient against flood conditions, while also reducing the chances of people getting hurt and accidents happening.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

no

Have Your Say on the Draft Puketāpapa Local Board Plan 2026

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   I don't know

   Tell us why

   N/A

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   I think community facilities would be beneficial for getting individuals to interact in a group environment and with one another, this could be beneficial to boost the community and morale.

4. The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?

I support

Tell us why

When it rains it floods. If there is better drainage people who are affected by flooding will bot be affected as much.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

No

Your feedback:

1. **Overall, how well does the draft Puketāpapa Local Board Plan 2026 reflect the priorities of your community?**

   Quite well

   Tell us why

   I feel that I agree with majority, but some things like community and safety should be improved.

2. **The Local Board is increasing focus on partnerships with community groups, schools and other organisations to improve facilities, such as opening up a community hall for wider community use. Do you support this?**

   I support

3. **The Local Board is considering investing more of its budget towards purchasing open spaces and community facilities for our growing population. Do you support this?**

   I support

   Tell us why

   This is good because this creates connection and empowerment in our community however I really would emphasise that safety should be increased and celebration of diversity within our community as well.

4. The Local Board is proposing to advocate for more funding for Making Space for Water projects in the Te Auaunga and Upper Whau catchments, to support better flood resilience in the area. Do you support this?

I support

Tell us why

Yes I 100% support this as we know every time it rains really heavily it starts to flood. So providing more funding for flood resilience projects will definitely help and support the community during times of needs when it is flooding. I would also perhaps add more area that water projects could support with e.g. main roads especially in my experience Tiverton Road as it floods a lot over there.

5. Do you have any other feedback on the draft Puketāpapa Local Board Plan 2026?

Just that safety needs to be increased e.g. Improving safety for people travelling within the community,

More lighting in areas where people walk, at bus stops, around sports facilities, and in school zones

Additional CCTV cameras, safety hubs, and benches,

Areas such as Dominion Road.

also public transport needs to be improved a lot with buses coming regularly and not being cancelled.

Explore ways to balance community environment and activities to improve quality of life and health while reducing property taxes. High property taxes increase the financial burden of living expenses.

Tell us why

Flooding is top of mind for those looking at property in puketapapa. As real estate agents we see this as a major concern for community here and talk with those affected frequently.
