Your feedback:

1. **How well do you think we captured the needs and priorities of *our Community* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

Good to see a strong focus on supporting community sports participation through improved facilities.

2. **How well do you think we captured the needs and priorities of our *Natural Environment* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

3. **How well do you think we captured the needs and priorities of our *Built Environment* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

4. **How well do you think we captured our *Economic Development* needs and priorities in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

5. How well do you think we captured our *Transport* needs and priorities in this section?

Very well

Tell us why, and if there's anything else you would like us to consider

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Support most

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

I am writing to request that the Kaipātiki Local Board prioritizes essential infrastructure upgrades at Stafford Park, which is a vital home for North Shore Baseball. Specifically, I request the acceleration of toilet block, drainage, and lighting works: The current state of these facilities is a barrier to participation. Improved drainage is critical for maximizing field availability, while updated lighting is essential for supporting safe evening training and game sessions. Furthermore, the temporary portable toilet facilities are unpleasant for users of the park. Investing in these upgrades aligns with the Board's objectives to foster diverse participation and maintain high-quality, safe community sporting assets

7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

Supporting community groups to take over management, or even ownership, of such asset via aid to secure funds to accomplish repairs or replacement.

8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

Maintain a matrix of sports facilities versus community sporting group stakeholders.

Submission to the Kaipātiki Local Board – 2026–2029 Local Board Plan

Tēnā koutou,

We respectfully submit this feedback on behalf of the Sikh community of the North Shore.

The Sikh community has been part of New Zealand society for many decades and continues to contribute positively to the social, cultural, and economic wellbeing of our communities. Since 2018, we have operated **Gurdwara Sahib North Shore** at **128 Sunnybrae Road, Glenfield**.

Our Gurdwara is open seven days a week and serves both the Sikh community and the wider public. We provide a range of free services, including:

- Family support and counselling.
- Assistance for seniors and new migrants.
- Employment guidance and CV preparation.
- Punjabi language, music, maths, and English classes.
- A Saturday language school with around 100 registered children.
- Free community meals (Langar) for everyone.
- Food parcels and grocery support for families in need.
- Community health initiatives and medical outreach programmes.

These services benefit hundreds of people and help strengthen community wellbeing, inclusion, and social connection.

However, our current premises face significant parking limitations, which restrict our ability to meet the growing needs of the community. For Sikhs, the Gurdwara is not only a place of worship but also a community hub where people gather for daily prayers, cultural education, family support, weddings, memorial services, and other important life events.

As our community continues to grow, we respectfully request that the Local Board consider supporting the long-term needs of the Sikh community by helping identify suitable land or premises within the North Shore area for a future Sikh community and cultural centre.

We are not seeking funding. Rather, we would welcome the opportunity to discuss a long-term lease or suitable site that would allow us to establish a permanent facility capable of serving future generations and continuing to provide valuable services to the wider community.

Thank you for considering our submission and for supporting the diverse communities of the North Shore.

Submitter details:

Organisation: Northcote Town Centre Inc

Local Board: Kaipātiki

Your feedback:

1. How well do you think we captured the needs and priorities of *our Community* in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

The Community section correctly identifies the importance of safe, connected town centres and the role of diverse cultural programming. We would note that the Northcote precinct is one of the most ethnically diverse commercial centres on the North Shore and that the board's investment in events such as Northcote Cultural Day directly delivers on these objectives. We ask that the board continue to support that programme through Local Board Grant funding.

2. How well do you think we captured the needs and priorities of our *Natural Environment* in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

No specific submission from NTC on this section. We note that the Te Ara Awataha greenway, when complete, will be a significant natural environment asset for the Northcote precinct and we look forward to it being a draw for visitors to the town centre.

3. How well do you think we captured the needs and priorities of our *Built Environment* in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

The section acknowledges that the Northcote regeneration is causing disruption but does not go far enough in committing to specific mitigation for affected businesses. Northcote Town Centre has lost approximately 30% of its business base over the past five years as a direct consequence of the redevelopment. The plan should make explicit commitments to a formal business disruption package, a lighting audit of the precinct, a structured working group with AUDO, and an active approach to activating vacant properties during the regeneration period rather than holding them empty at commercial rents. These are not peripheral concerns -- they go directly to the board's own objective of vibrant, safe town centre hubs. Please refer to our detailed submission for the specific asks under each of these headings.

4. How well do you think we captured our *Economic Development* needs and priorities in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

The section references Northcote's cuisine as a visitor attraction but does not go far enough. Northcote Town Centre has 22 restaurants across 14 distinct cuisines on a single street, including the only Nigerian restaurant in New Zealand. This is a genuine regional asset that deserves to be named explicitly in the final plan, not folded into a general statement about town centres. We are developing a Dining Passport campaign to drive visitation and dwell time and ask for Local Board Grant support for its activation phase. We also ask the board to recognise that BID operational funding during a period of active urban regeneration carries costs that a standard targeted rate does not anticipate, and that supplementary support through AUDO is needed.

5. How well do you think we captured our *Transport* needs and priorities in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

No specific submission from NTC on transport beyond what is noted in our detailed submission regarding pedestrian access and wayfinding during the construction period.

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Support most

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

We support the overall direction of the draft plan and particularly welcome the explicit identification of Northcote as a regeneration priority. Our concern is that several of the commitments are stated at a level of generality that will not translate into action without

more specific advocacy targets and accountable outcomes. The built environment and economic development sections need to go further for Northcote specifically. We have set out six concrete asks in our detailed submission and ask the board to consider each of them as it finalises the plan

- 7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.**

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

The primary factor in Northcote's case is the relationship between the council's role as landlord and its role as a place-maker. Auckland Council owns significant commercial property in the town centre. Decisions about those properties -- rents, vacancy, activation -- are currently treated as property management matters. They should be treated as place-making decisions, because their impact on the surrounding trading precinct is direct and significant. The board should advocate for a policy that requires Auckland Council's property team to consider precinct vitality outcomes alongside commercial returns when making decisions about town centre properties under their control, particularly during the regeneration period.

- 8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?**

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

A standing working group with NTC, AUDO / Auckland Council, with the Local Board taking a seat at the table, would represent a material improvement on the current arrangements. Monthly engagement with AUDO is useful but informal and dependent on individual goodwill. A structured forum with documented outcomes would ensure that business community concerns are consistently heard and responded to as the redevelopment progresses over the coming years.

Submission to the Kaipātiki Local Board

Draft Kaipātiki Local Board Plan 2026

Introduction

Northcote Town Centre Inc is the Business Improvement District operating body for Northcote Town Centre. We represent 56 member businesses across the precinct and are funded through a BID targeted rate administered by Auckland Council. Our draft Strategic Plan 2026-2028, structured around five pillars (Redevelopment Advocacy, Promotion, Member Engagement, Identity, and Infrastructure) is aligned to the same planning period as this Local Board Plan and directly reflects the priorities the board has identified for Northcote. The plan will be put to members for adoption at the AGM in October 2026.

Northcote Town Centre has lost approximately 30% of its business base over the past five years. This is a direct consequence of the redevelopment: buildings have been demolished, land acquired by Auckland Council has removed eligible members from the precinct, and trading conditions during active construction have proven unsustainable for some operators. The board's draft plan is right to identify Northcote as a priority. This submission sets out what that priority needs to look like in practice.

Our submission responds to the Built Environment and Economic Development sections of the draft plan, with observations also relevant to the Community section.

Built Environment

Responding to objective: Our town centres are vibrant, safe hubs that meet the needs of our people.

1. Redevelopment Disruption Requires a Formal Business Disruption Package

The draft plan names the regeneration of Northcote as a key initiative and acknowledges it is causing disruption. Our draft Strategic Plan 2026-2028 proposes a formal committee position on compensation for businesses affected by construction, equivalent to what was offered to businesses affected by the City Rail Link, with a commitment to putting that position to Auckland Council in writing once adopted.

We ask the board to explicitly support this position and to advocate to AUDO and the Governing Body for a formal disruption mitigation framework that applies throughout the remaining construction programme. That framework should include access maintenance, temporary signage directing customers to the town centre from alternative access points, and targeted rate relief where

demonstrable trading loss can be attributed to construction conditions outside a business's control.

The case for this is empirical. Marketview data for the 12 months to July 2025 shows Northcote recorded +10.9% transaction growth, the highest in the Auckland region during a period when the region contracted by 2.2%. That performance reflects the genuine strength of the precinct's offer. It does not mean individual businesses are insulated from the specific, localised impacts of restricted access and reduced visibility during active construction phases. Commercial resilience at the precinct level does not obviate the need for targeted mitigation at the business level.

Our draft Strategic Plan also proposes to escalate formally to the Kaipātiki Local Board if no master developer for the Benchmark Masterplan is confirmed by the end of 2027. We ask the board to note that intention and to be prepared to receive that escalation if it becomes necessary.

2. Lighting Audit: Ambient and Under-Veranda

A well-lit precinct is fundamental to both safety and the perception of vitality, particularly during a period when construction activity reduces natural activation of the street environment. We ask the board to support a formal lighting audit of Northcote Town Centre covering both ambient street lighting and under-veranda lighting.

This is not a new concern. NTC previously funded full replacement of all under-veranda fittings with LED units, a capital investment that remains in place. A dispute is currently unresolved between NTC and Auckland Council's Precinct Property Manager regarding responsibility for ongoing power costs for those canopy lights. Auckland Council's position that this is a BID responsibility is not consistent with standard practice, under which town centre lighting costs are met by the landlord. A formal audit, supported by the Local Board, would establish a clear and agreed baseline for lighting responsibilities and costs across the precinct, and resolve the current ambiguity.

We ask the board to advocate to Auckland Council and AUDO for this audit to be commissioned and funded as part of the regeneration programme.

3. A Permanent AUDO Working Group for Business Engagement

NTC currently meets monthly with AUDO. Those meetings are useful but their continuity is not guaranteed. The May 2026 meeting was cancelled without rescheduling, and engagement depends on individual relationships rather than a formal structure.

As Northcote moves through what will be several more years of active development, the precinct needs a standing, structured working group that brings NTC, AUDO, Kainga Ora, and Auckland Council together on a regular and accountable basis. This is not an additional bureaucratic layer. It is the minimum

coordination structure needed to manage the impact of a multi-year, multi-agency redevelopment on a trading precinct.

We ask the board to advocate for the establishment of a formal working group with a clear mandate, regular meeting schedule, and documented outcomes, and to consider taking a seat at that table as the local democratic voice for the precinct.

4. Vacant Properties: Pop-Up Activation Over Commercial Vacancy

Empty shopfronts are one of the most visible signals of precinct decline. Northcote currently has a number of vacant properties under the control of Auckland Council that are sitting empty while commercial lease terms are negotiated. We understand the fiscal rationale, but the cost of that vacancy to the precinct's perception and trading environment is real and ongoing.

We ask the board to advocate to Auckland Council that vacant town centre properties under their control be made available for short-term pop-up activation at accessible rents during the regeneration period, rather than remaining empty while commercial terms are awaited. Pop-up retail, community activation, and temporary cultural uses all generate foot traffic, signal life in the precinct, and support the surrounding businesses that are paying full rents and absorbing the full impact of the redevelopment.

The board's own objective states that town centres should be vibrant, safe hubs. An empty shopfront is the direct opposite of that. We ask the board to treat this as an advocacy priority, not a commercial matter for Auckland Council's property team to resolve in isolation.

Economic Development

Responding to objectives: Our town centres and business areas provide opportunities for people to work locally; local and international visitors are attracted to our area.

5. BID Operations and AUDO Activation During Regeneration

The BID targeted rate grant for Northcote Town Centre Inc in 2026/27 is \$130,000. That figure is set by the BID levy and is not a discretionary allocation. It reflects what member businesses have agreed to contribute and is the right mechanism for ongoing operational funding in normal trading conditions.

The conditions Northcote is currently operating in are not normal. Managing member communications, maintaining public confidence in the precinct, coordinating with AUDO, Auckland Transport, and Kainga Ora, and running promotional campaigns during active urban regeneration places demands on BID management that a standard operational budget does not anticipate.

NTC actively supports AUDO's activation programme in the town centre. Winter activations and public events tied to construction milestones bring foot traffic into

the precinct during what would otherwise be its most difficult trading periods, and we have committed in our draft Strategic Plan to supporting those activations where they benefit member businesses. We ask the board to advocate for that programme to continue and to be adequately resourced through AUDO for the duration of the regeneration period. BID funding and AUDO activation serve different but complementary purposes: one maintains the organisation and its member relationships, the other generates public engagement with the precinct. Both are needed.

6. Northcote's Dining Offer Is a Regional Economic Development Asset

The draft plan's Economic Development section identifies Northcote's cuisine as a visitor attraction asset. That framing is correct but understates the scale of what is actually here. Our draft Strategic Plan 2026-2028 documents 22 restaurants across 14 distinct cuisines on a single street, including the only Nigerian restaurant in New Zealand. No comparable centre on the North Shore carries that breadth or cultural character.

Our draft Promotion pillar is built around this: the "14 Countries. One Street." Dining Passport campaign, planned for launch in spring 2026, is designed to drive visitation and increase dwell time. Phase 1 is underway. Phase 2 will require a modest activation budget that the BID targeted rate alone will not fully cover.

We ask the board to recognise the Northcote dining precinct as a specific economic development asset in the final Local Board Plan, not as a general statement about town centres but as a named priority, and to consider Local Board Grant support for the Dining Passport activation. A formal application will be submitted through the appropriate process.

Summary of Requests

1. Advocate for a formal business disruption package for Northcote businesses throughout the remaining construction programme, covering access, signage, and targeted rate relief.
2. Support a formal lighting audit of Northcote Town Centre (ambient and under-veranda), commissioned and funded as part of the regeneration programme, and advocate to Auckland Council for resolution of the current canopy lights power cost dispute.
3. Advocate for the establishment of a permanent, structured working group bringing NTC, AUDO / Auckland Council together on a regular and accountable basis, and consider taking a seat at that table.
4. Advocate to Auckland Council that vacant town centre properties under their control be made available for short-term pop-up activation at accessible rents during the regeneration period.
5. Advocate for the AUDO activation programme in Northcote town centre to continue and be adequately resourced for the duration of the regeneration period.

6. Name the Northcote dining precinct as a specific economic development priority in the final Local Board Plan and consider Local Board Grant support for the Dining Passport activation.

We are available to discuss any aspect of this submission with the board at its convenience.

Pest Free Kaipātiki Feedback on Kaipātiki Local Board 2026 Annual Plan

Overall, we strongly support the draft plan. It demonstrates a clear commitment to community-led restoration, biodiversity, climate action and the strong relationship between thriving communities and thriving ecosystems. We particularly appreciate that these themes are consistently woven throughout the plan rather than treated separately.

Measuring success

The plan contains strong aspirations but relatively few measurable outcomes or targets. While this is understandable in a strategic document, there may be value over time in identifying a small number of measurable environmental and community outcomes that demonstrate collective impact.

This aligns closely with discussions PFK has had with the Board about making environmental investment more visible. We previously proposed a Return on Investment study (using a Social Return on Investment approach) to quantify the environmental, social, physical health, mental wellbeing and employment benefits generated through community restoration. While this proposal was not funded, the current citizen science programme is another step towards measuring impact. Following this year's work, PFK would be happy to support the Board in developing meaningful outcome measures for future plans.

Natural environment and climate

We are pleased to see the emphasis on:

- catchment-scale restoration and integrated ecological management
 - daylighting streams and prioritising floodplains
 - shoreline adaptation
 - improving urban tree canopy
 - strong support for biodiversity, climate resilience and community restoration.
- One suggestion would be to explicitly recognise native planting and pest plant control as both climate mitigation and climate adaptation actions. They contribute not only to biodiversity outcomes but also carbon sequestration, flood resilience, erosion control and long-term climate adaptation.

Slips and climate adaptation

The plan identifies coastal inundation, flooding, erosion and slips as key challenges, but does not identify corresponding opportunities.

There is a significant opportunity to recognise ecological restoration as part of Kaipātiki's climate adaptation response. Native vegetation restoration can improve slope stability and

reduce landslide risk while also delivering biodiversity, water quality and community outcomes. PFK would welcome opportunities to partner with the Board on restoration projects and community education focused on slip prevention.

Volunteers

As in previous years, we greatly appreciate the Board's strong recognition of volunteers and community environmental groups. We know the return on investment from volunteer-led restoration is substantial—not only environmentally, but also through long-term behaviour change, community connection and improved wellbeing.

Ecological contract collaboration

We particularly welcome the advocacy statement:

"Advocate for the local board and our volunteer groups to be directly involved in a more collaborative approach of setting and monitoring council-contracted ecological services."

We wonder whether this could be strengthened by wording such as:

"Advocate for the local board and volunteer groups to have direct collaborative involvement in the design, delivery and ongoing monitoring of council-contracted ecological services that operate alongside volunteer restoration efforts."

This would better recognise the expertise of community groups and help improve coordination, reduce duplication and achieve stronger ecological outcomes.

Ecological priorities

If the Board wishes to further reflect PFK's ecological priorities, consideration could be given to explicitly recognising investment in protecting Kaipātiki's highest-value indigenous habitats, many of which occur across both public and private land.

Freshwater biodiversity

The plan appropriately focuses on improving water quality. It could be strengthened by also acknowledging the biodiversity outcomes this delivers, including protection of native fish, tuna, kōura, kākahi, macroinvertebrates and other freshwater species.

Restoration on private land

The plan refers to education and community restoration but says relatively little about supporting restoration on private land.

Given the significant proportion of Kaipātiki's important habitats occurring on private properties, this represents an important opportunity. Through programmes such as PFK's Halo initiatives, the Board is already helping residents become inspired, educated and

supported to actively restore biodiversity on their own land. Greater recognition of this contribution would be valuable.

Citizen science

Would the Board like to acknowledge the citizen science programme it is supporting this year? This is an excellent example of building community capability while improving environmental knowledge and monitoring.

Schools

Schools are largely absent from the plan despite being important long-term partners in environmental education and restoration. Given the Board's existing investment in this work through PFK, consideration could be given to recognising schools as key contributors to future environmental stewardship.

Feedback to the Waitematā Local Board Draft Plan

Quiet Sky Waitematā, 17 July 2026

Thank you very much for the opportunity to provide feedback on your draft plan. Quiet Sky Waitematā submits on two issues which we think need deeper consideration in the WLB Plan.

1. Noise
2. Urban air transport planning and regulation (helicopters now and the future which might include for example air taxis and drone deliveries)

We have provided some suggested wording for each section of the plan for your consideration.

Noise

There is very strong international scientific and policy consensus that environmental noise is a significant public health issue in cities. The World Health Organisation (WHO) considers environmental noise to be **one of the leading environmental health risks**, second only to air pollution in Europe among environmental exposures.

The Waitematā Local Board draft plan mentions noise only in the Built Environment section and notes a challenge only in the central city and Newmarket. The initiative to “Support a noise strategy to reduce impacts of noise on city centre residents”¹ does not seem sufficient to us for such an important issue affecting public wellbeing.

The importance of noise is reflected in plans in many cities around the world. For example, the **London Plan**² requires planning decisions to:

- avoid significant adverse noise impacts on health and quality of life;
- mitigate and minimise existing and potential adverse impacts of noise;
- improve and enhance the acoustic environment and promote appropriate soundscapes (including Quiet Areas and spaces of relative tranquillity).

Quiet Sky Waitemata believes that peace and quiet are taonga, like sections of urban wilderness, and increasingly rare in our residential suburbs. We believe this issue affects people across the Board’s area, not just in the central city. We believe that consideration should be given to preservation of peaceful spaces and minimisation of noise in multiple sections of the Board’s plan, including The Natural Environment, The Built Environment and Transport. This consideration should include policy statements, action plans and advocacy where appropriate.

Urban air transport planning and regulation

A specific example of where better noise management in the city is needed is the case of urban helicopters. Auckland needs better helicopter planning rules now, and a framework for future changes as urban air mobility technology matures rapidly.

¹ It is not clear what strategy this is, who is developing it, what scope it has or how it will influence Council planning decisions.

² [London Plan 2021, Policy D14 Noise](#)

Auckland City's Planning and Policy Committee has declined to make private helicopters in urban residential zones a prohibited activity in recent years. The activity status of helicopters in Auckland's coastal suburbs remains a "non-complying" activity.

This "non-complying activity" status allows prospective helicopter landing and take off resource consent holders to assert the effects will be minor. In some cases, notably a recent one in Westmere, they will be granted. Such a case-by-case approach places an unacceptable and enormous burden on communities to oppose each single application.

In an intensifying city where urban densities are projected to rise, it is becoming essential to protect people from stressful noise, to protect urban amenity, privacy, public safety, and the environment.

Development of urban air mobility (UAM) has considerable momentum, yet international research identifies there is little social license for private helicopter transport between urban residential sites. There is broad public acceptance of helicopters for emergency, rescue and medical reasons. Accordingly, many cities are concentrating helicopter traffic at recognised transport nodes e.g. airports, railway stations, and hospitals, with public heliports known as "vertiports."

Proposed text changes to the Waitemata Local Board Draft Plan

We follow your draft structure and propose the following insertions *in italics*.

The Natural Environment

Introduction

"Waitematā values its natural environment, but it is a vulnerable taonga shaped by its coastal setting, distinctive geology, and highly urbanised landscape. The area has few remnants of native vegetation remaining, so protecting and restoring biodiversity, waterways and the local ngāhere/forest *and reducing noise pollution* are critical to the health and resilience of our communities." (p17).

Challenges

Noise pollution; Increasing background noise levels due to intensification and aerial traffic

Our Plan

Continue to oppose activities that increase urban noise across the city, e.g. helicopters.

Proactively reduce noise by considering noise as a criterion when investing in infrastructure e.g. electric buses, electric tools rather than petrol driven (water blasters, leaf blowers, ...)

Advocacy

Advocate for the next review of Auckland Council's Unitary Plan to strengthen noise considerations as a major issue for public well-being.

The Built environment

Our Plan

“Support a noise strategy to reduce impacts of noise *on all Waitemata residents*”. (p.23)

Advocacy

Advocate for the next review of Auckland Council’s Unitary Plan to include strengthening and clarification of the wording in section E25 (Noise and Vibration), particularly around objectives and policies³.

Transport

Challenges

Traffic noise is the most common cause of complaints about noise in cities⁴. Traffic and associated noise increase with intensification. Helicopters are a significant noise problem in the city and the Gulf islands.

Our Plan

Objective: Consider noise minimisation and reduction a key objective of transport policy decisions and investments.

Initiative: Waitematā Local Board (WLB) to declare support for a Plan Change to make private helicopters in urban residential zones a prohibited activity

Advocacy

Waitematā Local Board to advocate for responsible strategic planning, regulation and dedicated infrastructure for any future urban air mobility in Auckland City. Urban air mobility to be treated as a discretionary class of transport activity, not a permitted residential activity.

³ Examples where wording could be strengthened include E25.3 Policies

(3) Encourage activities to locate in zones where the noise generated is compatible with other activities and, where practicable, adjacent zones. “Encourage” could be strengthened to “Require” for example

(5) Prevent significant noise-generating activities other than roads and railway lines from establishing in or immediately adjoining residential zones.

E25.6.32

This reads: “The take-off or landing of a helicopter on any site except for emergency services must not exceed Ldn 50dB or 85dB LAFmax measured within the boundary or the notional boundary of any adjacent site containing activities sensitive to noise and Ldn 60dBA within the boundary of any other site.”

This has been construed to mean helicopters are Ok in any zone if those noise levels are met. This should be clarified to state that it only defines a noise level, and says nothing about whether such an activity is acceptable in a particular zone.

[REDACTED]

2. Trade competition declaration

Forest & Bird would not gain an advantage in trade competition through this submission.

3. Hearing options

We may wish to be heard in support of this submission

Introduction

Forest & Bird is the largest and longest-serving independent conservation organisation in Aotearoa. Its mission is to be a voice for nature, on land, in fresh water, and at sea, on behalf of its members and supporters. Volunteers in 44 branches throughout Aotearoa carry out community conservation projects and advocate for nature. Forest & Bird has seven branches and two nationally coordinated projects in the Auckland region alone, all of them run entirely by volunteers.

In support of the society's objectives, Forest & Bird is involved in resource management processes at the national, regional and district level. It routinely submits on regional and district plan provisions and some resource consents, and advocates in the Environment Court in relation to biodiversity, landscape and natural character. It is particularly committed to ensuring that the environmental bottom lines established in national policy statements, in order to give substance to the protective element of Part 2 of the Resource Management Act, are given effect to in regional and district plans and achieved through decisions on resource consents.

The North Shore Branch carries out a range of activities, including but not limited to weed control, pest control, restorative planting, education events, content creation and environmental advocacy. The branch covers the North Shore area from the East Coast Bays, south to Devonport, west to Greenhithe, and north to the Weiti River including Okura Bush. Everyone involved in the branch is a volunteer, including the committee, trappers, and supporters.

Our Approach

This submission responds to the Kaipatiki Local Board Plan 2026. Forest & Bird's North Shore Branch is also submitting separately on the draft plans of other local boards within our operating area - namely Devonport-Takapuna, Kaipatiki and Hibiscus and Bays and comparison across boards has been valuable.

We are structuring our submission to include Objectives, Key Initiatives, and Advocacy items, just as they appear in the draft Local Board Plan, along with commentary on some items and localised specifics.

Te hāpori / Community

We agree with the draft objectives and key initiatives in the Community section and would like to add the following key initiatives for consideration:

Objective	Key initiatives
Our communities are resilient with strong connections to their neighbourhoods and natural environment	Provide grants to local groups for projects or actions with a positive impact on community resilience, including those maintaining or creating carbon sinks, or nature-based solutions such as restoring wetlands, creating room for streams to flow naturally, and protecting sand dunes and mangroves. Support community-led food initiatives such as community gardens, education on growing and preparing food, reducing food waste, and sharing produce. Support initiatives that build community networks and connections which help communities respond to emergencies and the impacts of climate change and biodiversity loss.

Objective	Key initiatives
Our parks and open space meet the needs of our changing population	Invest in natural solutions that improve parks and public spaces, including native plantings, large shade trees, rain gardens, swales and daylighted streams, in local parks and open spaces, including wetlands or floodable areas in larger sites.
Council maintenance, projects and community investment decisions maximise net benefit to nature and climate resilience.	Consider and evaluate the environmental and climate impact of all local board projects and improve climate impact statements in council reports to cover net emissions, biodiversity loss, impermeable surfaces and stormwater effects, and scarce resource use and recovery.

Advocacy

We would like to suggest the below additional advocacy points under Community:

- Adopt long-term (50 to 100 year) risk scenario planning for climate change impacts across council asset and infrastructure planning - to Governing Body.
- Fund non-potable water reuse for irrigation and operation of sports, aquatic and recreation facilities - to Watercare.
- Greater public understanding of infrastructure maintenance and fault-reporting policies - to Governing Body, Auckland Transport and Watercare.
- Ensure an adequate level of renewals funding to keep existing community assets well maintained and adapted to be resilient to climate change - to Governing Body.
- Ongoing, multi-year, dedicated grant funding for community environmental and restoration groups, so they can plan and deliver programmes across multiple seasons rather than one funding cycle at a time - to Governing Body.

Commentary

Climate resilience and healthy communities are not separate outcomes. A community's ability to withstand climate impacts depends as much on its social networks, local food security and access to nature-based solutions as it does on physical infrastructure. Supporting kai resilience, through initiatives such as community gardens and food-sharing networks, reduces both the environmental and financial cost of how communities feed themselves, cutting food miles while easing pressure on household budgets.

Embedding climate resilience, restoration that creates carbon sinks, and nature-based solutions within the Community outcome helps ensure these considerations are reflected in the everyday work of community development, rather than being left solely to environmental work programmes.

We agree the draft objectives and key initiatives under Natural Environment and would like to suggest the below for consideration:

Objectives	Key Initiatives
Our native biodiversity and supporting ecological areas (whether on public or private land) are protected, restored and enhanced	Partner with community groups and mana whenua to implement projects focusing on education, planting, weed management, water quality, pest management, and indigenous biodiversity protection and restoration initiatives across public and private land. Identify and prioritise restoration planting opportunities, for community and council projects, that create ecological connections by retiring hard-to-maintain areas within existing parks and reserves. Support responsible cat ownership through desexing and containment encouragement, and work with neighbouring boards on control of feral and stray cats in areas of high biodiversity value. Ensure monitoring and compliance of dog access rules keep high-value conservation areas free of dogs while providing space for responsible pet ownership elsewhere
Streams and wetlands are healthy, restored, and better able to support natural flood processes and native biodiversity	Deliver a local freshwater stream quality programme to identify and mitigate pollution sources and protect coastal waters. Prioritise the restoration of wetlands where they exist or can be re-established. Prioritise ecological maintenance projects that protect and enhance identified potential inanga spawning sites through bank stabilisation, pest plant control, sediment control and pest animal control. Work with Healthy Waters to provide education and support that ensures commercial and industrial sites upgrade their on-site stormwater management to prevent contamination at the source.
We understand climate change risks, take action to reduce climate impacts, and prepare to adapt and respond to future events	Support and engage with communities on shoreline and flood risk adaptation planning related to council assets, favouring nature-based solutions where practicable, in line with the local Shoreline Adaptation Plan Plant more trees for shade in public spaces to mitigate the causes and consequences of climate change. Deliver the Urban Ngahere (Forest) Strategy to increase urban ngahere in parks and open spaces.

Advocacy

We support all the current advocacy points under Natural Environment and would like to suggest the following additional advocacy points:

- Stronger monitoring of activities that cause sediment runoff into streams and harbour margins, and stronger penalties for those who knowingly cause harmful sedimentation - to Governing Body.
- Increased regional funding for biodiversity, air, freshwater and coastal water quality monitoring across the local board area - to Governing Body.
- Reinstatement of general tree protection legislation - to Central Government.
- Ongoing, dedicated grant funding for the community environmental groups already carrying out restoration and pest control work across this board's area - to Governing Body.
- Continued Natural Environment Targeted Rate funding to maintain and grow current investment in pest control, kauri dieback management and biodiversity restoration across Tāmaki Makaurau - to Governing Body.
- That conservation remain the primary purpose for any public conservation land within the board area - to Central Government.
- Raise awareness of and advocate for dark sky areas and reduced light pollution to protect our indigenous seabirds - to Governing Body.

Commentary

Protecting nature is about more than restoring isolated sites, it also requires reducing the pressures that continue to degrade ecosystems. For native biodiversity to thrive and withstand the pressures of climate change, healthy, connected habitats are needed at a landscape scale, supported by partnership with mana whenua and community groups.

Freshwater deserves particular attention. Healthy streams, wetlands and estuaries underpin biodiversity, reduce flood risk and improve the health of the wider catchment, yet they remain vulnerable to sediment, stormwater and other contaminants. Delivering local restoration and catchment programmes in full local plans in full and resourcing the monitoring that keeps consented environmental outcomes in place, is what turns commitment into results.

As the more obvious threats of pest plants and animals become increasingly managed, consideration should be given to threats that remain unaddressed. Responsible pet management, dark sky protection and ecological hygiene measures all protect the gains that years of restoration investment, by community groups, volunteers and Council, are achieving, before other pressures quietly undo them.

Te taiao kua hangaia / Built Environment

We agree with all draft objectives and key initiatives under Built Environment.

Advocacy

We support all the current advocacy points under Built Environment and would like to suggest the following additional advocacy point:

- Funding for construction and demolition waste compliance and education - to Governing Body.
- Increased funding to actively monitor and enforce compliance with green infrastructure and canopy requirements attached to resource consents, so that planting and green space required at the time of consent is not lost - to Governing Body.
- Advocate that infrastructure capacity be confirmed before new housing and town centre development proceeds, and that intensification not be enabled within Significant Ecological Areas - to Governing Body and Central Government.

Commentary

As Auckland continues to grow and intensify, new development needs to protect the qualities that make an area a desirable place to live. Green infrastructure functions as essential infrastructure. Indigenous canopy, rain gardens, swales and other nature-based stormwater measures reduce flooding, improve water quality, support biodiversity and create healthier neighbourhoods. These benefits are only realised if they are designed into development from the outset and Council has the resources to monitor and enforce them once consent is granted.

Te whanaketanga ā ōhanga / Economic Development

We agree with all draft objectives and key initiatives under Economic Development. We support all the current advocacy points under Economic Development and provide the below to consider.

Objectives	Key Initiatives
Sustainable economic activity	Support projects that engage, advise, educate and assist local businesses and residents to minimise waste and build a circular economy.

Advocacy

We support all the current advocacy points under Economic Development. We would like to suggest the following additional advocacy points:

- Funding for the expansion of community recycling and resource recovery facilities serving this local board area - to Governing Body.
- Council procurement policies that favour local and ecologically sustainable suppliers - to Governing Body.

Commentary

A resilient local economy depends on healthy communities and healthy ecosystems. Forest & Bird encourages greater emphasis on the opportunities presented by a circular economy. Community recycling and resource recovery capacity, and support for local businesses minimising waste, add real economic value alongside the environmental benefit, while reducing pressure on natural resources.

Tūnuku/ Transport.

We agree with all draft priorities under Transport and would like to offer the below priorities to integrate into the plan:

Objectives	Priorities
A low-emissions, climate-ready transport system with real travel choices	Prioritise native tree canopy along cycleway and shared path routes with nature sensitive design Prioritise permeable surfacing on new or renewed parking areas.

Advocacy

We support all the current advocacy points under Transport. We would like to suggest the following additional advocacy points:

- Retain the Local Board Transport Capital Fund across the Board's whole area, so the Board can keep delivering local walkway and cycleway connections with native planting components - to Governing Body.
- Deliver projects that align with the Transport Emissions Reduction Pathway (TERP), the key strategy to decarbonise Auckland's transport system - to Auckland Transport.
- Improved cycle and pathway safety, including lighting, physical traffic barriers, accessibility and proactive maintenance to prevent problems - to Auckland Transport.
- More local initiatives to contribute to decarbonisation by encouraging more use of public transport, such as electric on-demand public transport options or better bike storage at transport hubs - to Auckland Transport.
- Improved weed management on motorways and road reserves - to Waka Kotahi (NZTA).
- Long-term planning to provide low-emission infrastructure for e-scooters, e-bikes and electric cars, such as electric vehicle charging stations, in larger development areas - to Governing Body.

Commentary

We support the Board's commitment to active and public transport. Our additions build on this by prioritising native tree canopy along cycleway and shared path routes, and permeable surfacing on new or renewed parking areas.

The Local Government (Auckland Council) (Transport Governance) Amendment Act 2026 gives the Board direct decision-making over local and collector roads, including cycleways and parking. This gives the Board a direct route to deliver street trees and permeable surfacing as part of footpath and cycleway renewals, through its own decision-making.

Conclusion

Forest & Bird appreciates the positive direction reflected throughout this draft plan.

While our recommendations are relatively minor, we hope they help guide continued progress towards thriving communities, thriving nature, and a more climate-resilient future.

Thank you for considering our submission

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

As the regional arts trust for Tāmaki Makaurau, Te Taumata Toi-a-lwi would like to tautoko the Kaipātiki board's priority; Opportunities to celebrate creativity in the arts are available and accessible to all.

Arts, culture, and creativity events and programmes can also support wider board goals, such as making people and communities feel connected, safe and well, reflecting Māori identity and culture and building active partnerships with mana whenua and Māori, and celebrating and supporting diversity.

We would encourage the board, as you work with local arts and culture organisations and practitioners, to explore with them what opportunities there are for toi Māori, and arts, culture and creativity programmes and events to help the board achieve its wider community priorities.

7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

Submission - Kaipatiki Local Board Plan 2026

22 July 2026

From: The Tree Council

1. Introduction

- 1.1. Thank you for the opportunity to present The Tree Council's submission on the proposed **Kaipatiki Local Board Plan 2026**. This submission is made by The Tree Council, an independent, voluntary organisation, a non-profit incorporated charitable society which has been serving the Auckland community since 1986 in the protection of trees and as advocates for the significant benefits and services that our trees and green spaces provide.
- 1.2. Your draft states that this plan focuses on protecting, enhancing, and sustainably managing the local natural environment, including reserves, waterways, biodiversity, green spaces and community-led environmental outcomes. It connects environmental stewardship, sustainability initiatives, and ecological outcomes to local aspirations.
- 1.3. The Tree Council applauds these initiatives and intentions, and provides the following comment and recommendations.

2. Community

- 2.1. Your plan states that you will invest in natural solutions that improve your parks and public spaces, including planting notable trees for

shade, wildflower meadows for increased biodiversity and natural play items such as māra hūpara. We fully support these initiatives.

- 2.2. The growing of fruit in suburban gardens has gone out of fashion in recent years and with intensification the space to do so will soon be unavailable to most people living in Auckland. Therefore having the opportunity to grow fruit in public spaces (parks, reserves, streets) is something that people value highly. Public consultations on the type of trees desired for public planting often results in suggestions for fruit trees. We note that one of your key initiatives is “support community-led low carbon food initiatives that also promote kai (food) sovereignty (people and communities having control over their own food systems)”.
- 2.3. Having public collections of different types of fruit trees would enable educational opportunities to take place that could include for example daily care, pruning, propagation, grafting, cookery, heritage and history etc. This could involve schools as well as public workshops, adoption by community or friends groups. The public collections on public land in local parks and streets could be localised to reflect the fact that some varieties of fruit trees are better suited to grow in specific areas of Auckland.
- 2.4. We urge you to advocate for the growing of fruit trees on local parks and streets in your local board area and to reach out to the public to identify fruit trees on private land that could provide the basis for the collection via propagation &/or transplanting. We note your support for the development of a community-led eco-designed plant nursery on the old Glen Road nursery site at Te Rangi Hiroa Park and this would be the perfect place to propagate fruit trees sourced from your local board area for planting in your local parks. Support for this project can be enhanced by working with NZ Tree Crops Association, The Tree Council and local groups in your area.

3. Natural Environment

- 3.1. We understand that the loss of tree canopy cover from development and changes in land use makes it harder to maintain and increase tree canopy coverage in line with the local board goals to provide shade, support biodiversity and help manage urban stormwater. We support your objective that “Our parks, waterways and forests are protected and enhanced so birds and other native wildlife can thrive” and we recognise that you have a high level of canopy coverage compared to many other local boards. However we are disappointed not to see that

one of your plan objectives is to enhance tree cover within the local board area by implementing actions from the Local Board Urban Ngahere (forest) Strategy Action Plan to enable opportunities to enhance tree cover to be identified and activated. We think this should be linked to the development of the “blue-green network” so that there is a clear guide to how and where this can occur to have the greatest impact.

- 3.2. We are delighted to see recognition of and your support for the important role mana whenua and community groups play in working to enhance biodiversity, control weeds and pests and undertake tree planting - and that you are guided by a Māori world view to protect and care for our natural environment, which we fully support.
- 3.3. We urge you to oppose all consents proposing to remove trees in Significant Ecological Areas and Scheduled Notable Trees on both private and public land, as well as street and park trees, as these are so important to retain for future generations. So few urban trees currently have legal protection it is vital to retain them.
- 3.4. We are delighted to see your emphasis on controlling the spread of kauri dieback in your area. Thank you for taking this issue so seriously. We note that you plan to advocate to the Governing Body regarding kauri dieback hygiene training for contractors and volunteers working off-track in local parks. We'd like to suggest that you contact some of the fantastic community organisations already working in collaboration with the Council's Biosecurity department on doing this kind of training. Both Pest Free Kaipatiki and Kauri Rescue are able to deliver this work alongside Council officers.
- 3.5. As you have kauri in many of your local reserves you should consider getting them urgently tested for kauri dieback (if you haven't already) and if found to be positive then you should consider getting them treated with phosphite to keep them alive. Kauri dieback has an almost 100% mortality rate so all infected trees will die without treatment.
- 3.6. We recommend you work with the Kauri Rescue Trust for the best way to approach this problem. There is an urgency as trees in which the disease has progressed too far will not survive even after treatment, so the earlier this happens the better. Kauri are carbon sinks, we need to keep these trees alive as long as possible. Kauri Rescue has already been working to treat trees in local parks and this work can be expanded with the support of local boards.

4. Advocacy

- 4.1. We support your plan to advocate to the Governing Body for an “increase in, and greater share of, regional funding to support work to

improve the environment in Kaipātiki” and for “ongoing investment in Kaipātiki using funds collected through the Water Quality, Natural Environment and Climate Action Targeted Rates”.

- 4.2. We support your plan to advocate to the Governing Body “for the local board and our volunteer groups to be directly involved in a more collaborative approach of setting and monitoring council-contracted ecological services”.
- 4.3. We are delighted to see your plan to advocate to Central Government “to reinstate legislation that provides general tree protection”. Thank you!
5. In addition we would like to see specific support, including financial support, for the following initiatives to protect and enhance existing tree cover:
 - 5.1. Practical support and (for eg legal) advice for private landowners wishing to provide permanent protection for their trees eg via covenants &/or scheduling to enable protection of existing tree cover on private land to be optimised as most of the mature trees in Auckland are on private land with no legal protection.
 - 5.2. Grants for private landowners to maintain Scheduled Notable Trees on their property.
 - 5.3. Provide permanent and visible physical labels for all Scheduled Notable Trees in the local board area to enable the public to see that this tree is legally protected and tell the stories of our natural heritage.
 - 5.4. Look for opportunities to schedule additional mature trees and encourage Council to undertake Plan Changes to the Unitary Plan to regularly add new trees to Schedule 10 (Notable Trees).
 - 5.5. Look for opportunities to raise awareness of the value of Scheduled Notable Trees by organising events to celebrate them such as guided walks, community picnics, heritage talks.
 - 5.6. We would like to see specific support, including financial support, for mana whenua, local communities and groups undertaking the following types of initiatives within the local board area:
 - 5.6.1. water quality testing
 - 5.6.2. monitoring of beaches
 - 5.6.3. treatment of diseased kauri trees on local parks and private land
 - 5.6.4. monitoring for myrtle rust
 - 5.6.5. weed control
 - 5.6.6. pest control
 - 5.6.7. protection of rare birds eg dotterel
 - 5.6.8. restoration planting

- 5.7. Public education on issues affecting biodiversity such as:
 - 5.7.1. kauri dieback, myrtle rust
 - 5.7.2. weeds
 - 5.7.3. animal and insect pests
 - 5.7.4. other biosecurity threats
 - 5.7.5. control of dogs in sensitive areas
 - 5.7.6. conflicting uses eg vehicles on beaches
 - 5.7.7. rules for marine reserves

Have Your Say on the Draft Kaipātiki Local Board Plan 2026

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Devonport-Takapuna

Your feedback:

- 1. How well do you think we captured the needs and priorities of *our Community* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

The plan captures many key community priorities, particularly around recreation, arts, and community participation. I would also encourage greater focus on transport, safety, environmental sustainability, and support for local families and businesses

- 2. How well do you think we captured the needs and priorities of our *Natural Environment* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

The section captures the main environmental priorities quite well. I would like more focus on protecting native wildlife, improving water quality, expanding green spaces, and setting clear environmental targets so progress can be measured

- 3. How well do you think we captured the needs and priorities of our *Built Environment* in this section?**

Very well

Tell us why, and if there's anything else you would like us to consider

The priorities are clear and reflect the needs of the community. I particularly support the focus on safety, sustainability, and inclusive urban development. Consider adding stronger commitments to affordable housing, public transport, and active transport options such as walking and cycling

4. How well do you think we captured our *Economic Development* needs and priorities in this section?

Very well

Tell us why, and if there's anything else you would like us to consider

It may also be helpful to include support for innovation, digital skills training, and attracting new businesses and investment to the area

5. How well do you think we captured our *Transport* needs and priorities in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

The priorities are generally well captured, particularly around road safety and walking/cycling connections. I would also like to see greater focus on improving public transport services, reducing congestion, and making transport more accessible for all residents

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Support all

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

I support the draft plan as it addresses key community priorities including transport, environmental sustainability, parks, and community wellbeing. I would like to see continued focus on climate action, native biodiversity, and meaningful engagement with Māori communities while ensuring local services remain accessible and affordable for all residents

7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

The local board should consider community demand, accessibility, maintenance costs, safety, environmental sustainability, and long-term value for residents. Facilities that are well used and benefit a wide range of people should be prioritised. Before closing or repurposing

any asset, the board should consult the local community and explore options to improve or share facilities rather than remove them

8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

The board could improve engagement by providing regular updates through email, social media, and local community groups. Consultation information should be simple, easy to understand, and available both online and in person. More community meetings, surveys, and opportunities for residents to give feedback early in the decision-making process would help people feel heard and involved

Your feedback:

1. How well do you think we captured the needs and priorities of *our Community* in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

Dear Kaipātiki Local Board,

I am writing to request that the Kaipātiki Local Board prioritize essential infrastructure upgrades at Stafford Park, the home of North Shore Baseball.

Baseball is experiencing significant growth across the North Shore, with increasing numbers of players of all ages participating each season. As the sport continues to grow, Stafford Park is under increasing pressure to meet the demand for training, games and community events. To ensure the park can continue to support this growth, I ask that the Board prioritize the delivery of the toilet block repairs, drainage, lighting improvements and also consider the addition of a deck attached to the club storage building.

Drainage and Lighting:

The current drainage and lighting at Stafford Park are the biggest constraints on the park's ability to support the growing baseball community.

The playing surface becomes wet and boggy after relatively small amounts of rain, often making the field unplayable and resulting in cancelled training sessions and games. Improved drainage would significantly increase the availability of the field throughout the year, allowing it to recover more quickly after rainfall and providing a more reliable and safer playing surface.

Similarly, the lack of adequate field lighting severely limits when the park can be used. During much of the season, particularly in autumn and winter, evening training sessions are impossible because of the limited daylight hours. Upgraded lighting would allow the field to be used safely year-round, increasing opportunities for training, player development, and competition. As participation continues to grow, maximizing the available hours of field use is becoming increasingly important to accommodate the rising demand for both games and training sessions.

Together, these upgrades would transform Stafford Park into a facility that can support baseball throughout the year, ensuring the club can continue to grow while providing safe, high-quality sporting opportunities for the wider community.

Toilet Facilities:

The current temporary portable toilet facilities are not suitable for a park that serves hundreds of players, families, and community members throughout the season. A repaired or upgraded toilet block would provide a far more welcoming, accessible, and hygienic facility for everyone using Stafford Park and would significantly improve the overall experience for the community.

Community Viewing Deck:

I also encourage the Board to consider the construction of a deck attached to the existing club storage building.

While simple in nature, this addition would have an enormous positive impact on the usability of the grounds. The deck would provide an elevated space where spectators, families, and members of the community could comfortably watch games, creating a more enjoyable and engaging experience for everyone attending Stafford Park.

Just as importantly, it would provide a dedicated gathering space before and after games. North Shore Baseball's adult division has a long-standing tradition of hosting a free barbecue after every game played at Stafford Park. Players from both teams, spectators, volunteers, and members of the community regularly come together to share a meal, meet new people, and strengthen the sense of community that makes grassroots sport so valuable. A deck would provide a natural space for these gatherings, encouraging greater connection between players, families, and supporters.

In the longer term, the club hopes to develop the storage building into a functional clubroom where members of the community can gather and watch games. Constructing a deck would be a practical first step towards that long-term vision while delivering immediate benefits for everyone who uses the park.

These investments would not only improve Stafford Park as a sporting venue but would also strengthen it as a community asset. They align closely with the Kaipātiki Local Board's goals of supporting active recreation, encouraging participation in sport, fostering connected communities, and maintaining high-quality, accessible public facilities.

Thank you for considering this request and for your continued support of community sport. I hope the Board will recognize the importance of these improvements in ensuring Stafford Park can continue to meet the needs of our rapidly growing baseball community for many years to come.

2. How well do you think we captured the needs and priorities of our *Natural Environment* in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

3. How well do you think we captured the needs and priorities of our *Built Environment* in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

4. How well do you think we captured our *Economic Development* needs and priorities in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

5. How well do you think we captured our *Transport* needs and priorities in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Support all

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

- 7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.**

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

The rapid growth of the baseball community.

- 8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?**

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

Organisation: N/A

Local Board: Franklin

Your feedback:

1. **How well do you think we captured the needs and priorities of *our Community* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

2. **How well do you think we captured the needs and priorities of our *Natural Environment* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

3. **How well do you think we captured the needs and priorities of our *Built Environment* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

We think there is an opportunity in attracting visitors to the area through representing what makes Aotearoa unique and special, through iwi led design and placemaking application. There have been previous stunning examples at Onewa, and some underway in Northcote - there continue to be great opportunities in placemaking, parks, playgrounds that could further enhance both residents and visitors connection to place.

4. How well do you think we captured our *Economic Development* needs and priorities in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

The focus on supporting local businesses and engaging residents to support is admirable.

5. How well do you think we captured our *Transport* needs and priorities in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Support most

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

We acknowledge and support the focus on tamariki and rangatahi given the makeup of the māori youth in the area. Thank you for acknowledging and focusing on that, and we would love to support where possible.

7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

Whether the assets are fit for purpose and align with the need of the people who live in the region. Not all asset needs in the 1950s fit modern use needs. Land could be used in a different way if a built asset no longer served.

8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

We would be happy to establish a deeper connection and relationships with the board as we do with other local boards.

Quite well

Tell us why, and if there's anything else you would like us to consider

2. How well do you think we captured the needs and priorities of our *Natural Environment* in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

Environmental protection, and especially the waste collection system, is generally doing well. (It is important to provide thorough education on waste separation.)

3. How well do you think we captured the needs and priorities of our *Built Environment* in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

4. How well do you think we captured our *Economic Development* needs and priorities in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

I hope that production facilities will be attracted to the outskirts to create many jobs for young people.

5. How well do you think we captured our *Transport* needs and priorities in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

This area is generally well-equipped with transportation options available to residents. (Bus)

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Support most

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

I hope that the opinions of each community are carefully listened to and reflected in the policy.

8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

I wish we could hold community meetings frequently to gather opinions in a public hearing style.

Submission to the Kaipātiki Local Board – 2026–2029 Local Board Plan

Tēnā koutou,

We respectfully submit this feedback on behalf of the Sikh community of the North Shore.

The Sikh community has been part of New Zealand society for many decades and continues to contribute positively to the social, cultural, and economic wellbeing of our communities. Since 2018, we have operated **Gurdwara Sahib North Shore** at **128 Sunnybrae Road, Glenfield**.

Our Gurdwara is open seven days a week and serves both the Sikh community and the wider public. We provide a range of free services, including:

- Family support and counselling.
- Assistance for seniors and new migrants.
- Employment guidance and CV preparation.
- Punjabi language, music, maths, and English classes.
- A Saturday language school with around 100 registered children.
- Free community meals (Langar) for everyone.
- Food parcels and grocery support for families in need.
- Community health initiatives and medical outreach programmes.

These services benefit hundreds of people and help strengthen community wellbeing, inclusion, and social connection.

However, our current premises face significant parking limitations, which restrict our ability to meet the growing needs of the community. For Sikhs, the Gurdwara is not only a place of worship but also a community hub where people gather for daily prayers, cultural education, family support, weddings, memorial services, and other important life events.

As our community continues to grow, we respectfully request that the Local Board consider supporting the long-term needs of the Sikh community by helping identify suitable land or premises within the North Shore area for a future Sikh community and cultural centre.

We are not seeking funding. Rather, we would welcome the opportunity to discuss a long-term lease or suitable site that would allow us to establish a permanent facility capable of serving future generations and continuing to provide valuable services to the wider community.

Thank you for considering our submission and for supporting the diverse communities of the North Shore.

Dated: 24/06/2026

Your feedback:

1. **How well do you think we captured the needs and priorities of *our Community* in this section?**

Very well

Tell us why, and if there's anything else you would like us to consider

2. **How well do you think we captured the needs and priorities of our *Natural Environment* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

There is a disconnect between the budget for the environment and the huge budget for maintenance. More money needs to be directed at real environmental gains - removing large pest trees, removing pest plants from roadsides, funding real pest plant and predator action by restoration groups with strong KPIs, stream restoration, the return of strong tree protection. An efficiency lens should be placed on the various contracts applied to green spaces as these are not working efficiently. Our coastlines are filled with pest plants - spend more on restoration of these areas and less on expensive glamour boardwalks.

3. **How well do you think we captured the needs and priorities of our *Built Environment* in this section?**

Very well

Tell us why, and if there's anything else you would like us to consider

4. How well do you think we captured our *Economic Development* needs and priorities in this section?

5. How well do you think we captured our *Transport* needs and priorities in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

You need to more strongly advocate for excellence in public transport. Spend less on glamour walkways when a corolla version would suffice eg Tuff Crater track upgrade was ridiculously over specified.

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Support all

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

All projects should be assessed for their climate effects and their emissions minimised.

7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

All assets should be managed professionally with an ongoing upgrade program.

8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

Quite well

Tell us why, and if there's anything else you would like us to consider

3. **How well do you think we captured the needs and priorities of our *Built Environment* in this section?**

Very well

Tell us why, and if there's anything else you would like us to consider

4. **How well do you think we captured our *Economic Development* needs and priorities in this section?**

Very well

Tell us why, and if there's anything else you would like us to consider

5. How well do you think we captured our *Transport* needs and priorities in this section?

Very well

Tell us why, and if there's anything else you would like us to consider

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Support all

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

Your feedback:

1. **How well do you think we captured the needs and priorities of *our Community* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

Every culture should be celebrated we have such a diverse culture on the shore. Local boards should connect and promote across their platforms.

2. **How well do you think we captured the needs and priorities of our *Natural Environment* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

3. **How well do you think we captured the needs and priorities of our *Built Environment* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

Needs to be more wardens/security to be usable at shopping malls. There have been issues ypuh targetting individual youth.

4. **How well do you think we captured our *Economic Development* needs and priorities in this section?**
-

Not very well

Tell us why, and if there's anything else you would like us to consider

Not enough entry jobs/ opportunities for school leavers/ NEETS to enter workforce or life skills courses. There is no trades academy on the shore to support youth wanting to get into trades. (travel to unitec)

5. How well do you think we captured our *Transport* needs and priorities in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

Same bus stops need to be revisited Archers Road bus stop/island which blocks traffic. Tristram road off ramp is so dangeroud needs to be looked at. Otherwise all is good.

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Support most

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

Your feedback:

1. **How well do you think we captured the needs and priorities of *our Community* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

If they could inform Pasifika and get them involved more. Have a yearly day set where we can celebrate pasefika or different ethnic groups on the north shore or in Kaipatiki. If there are grants available to help with different community groups in the Kaipatiki area.

2. **How well do you think we captured the needs and priorities of our *Natural Environment* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

3. **How well do you think we captured the needs and priorities of our *Built Environment* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

4. **How well do you think we captured our *Economic Development* needs and priorities in this section?**
-

Quite well

Tell us why, and if there's anything else you would like us to consider

Advertise or inform local youth groups on what opportunities are available for them.

5. How well do you think we captured our *Transport* needs and priorities in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

Not sure if this road is within the Kaipatiki area, Roberts Road, Glenfield - If there is a possibility that road can be looked at - traffic.

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Support most

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

Your feedback:

1. **How well do you think we captured the needs and priorities of *our Community* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

We need better, safer playground like the Mangere centre. The playground in Shepards is more suitable for older kids but before it was suitable for smaller younger kids. Lysander needs a upgrade too.

2. **How well do you think we captured the needs and priorities of our *Natural Environment* in this section?**

I don't know

Tell us why, and if there's anything else you would like us to consider

3. **How well do you think we captured the needs and priorities of our *Built Environment* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

4. **How well do you think we captured our *Economic Development* needs and priorities in this section?**
-

Tell us why, and if there's anything else you would like us to consider

5. How well do you think we captured our *Transport* needs and priorities in this section?

I don't know

Tell us why, and if there's anything else you would like us to consider

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

I don't know

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

Your feedback:

- 1. How well do you think we captured the needs and priorities of *our Community* in this section?**

Not very well

Tell us why, and if there's anything else you would like us to consider

Think we need to add lights at the park. Create playgrounds made for all suitable ages.

- 2. How well do you think we captured the needs and priorities of our *Natural Environment* in this section?**

Not very well

Tell us why, and if there's anything else you would like us to consider

Barely any bins locally so it make people litter more often and over population of cars on the side streets.

- 3. How well do you think we captured the needs and priorities of our *Built Environment* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

I think pretty good.

- 4. How well do you think we captured our *Economic Development* needs and priorities in this section?**
-

Not well at all

Tell us why, and if there's anything else you would like us to consider

Work jobs are hiring those who are known instead of experience. (Its who you know not what you know)

5. How well do you think we captured our *Transport* needs and priorities in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

Cost of transport and ubers have gone up, causing more people to struggle to and from work/school- or around.

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Support all

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

Organisation: N/A

Local Board: I don't know

Your feedback:

1. How well do you think we captured the needs and priorities of *our Community* in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

Families that have really big families dont have anywhere to park and bumpy roads in the area that make it unsafe to drive.

2. How well do you think we captured the needs and priorities of our *Natural Environment* in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

Parks in the area isnt too entertaining for the kids and no lights to feel safe.

3. How well do you think we captured the needs and priorities of our *Built Environment* in this section?

I don't know

Tell us why, and if there's anything else you would like us to consider

4. How well do you think we captured our *Economic Development* needs and priorities in this section?

Not well at all

Tell us why, and if there's anything else you would like us to consider

There are pasifika people in the community who struggle to look for jobs. I would consider having more retail/supermarkets to open up for jobs for the experience.

5. How well do you think we captured our *Transport* needs and priorities in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

I feel that there are plenty of helpful vehicles to support everyone. However i would like to consider no fines when parking vehicles on your own property.

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

I don't know

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

Gathering data on what needs changing so that everyone in the communities are on the same page. Have the communities opinion on what they feel needs changing in the future.

8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

Email, wouldnt mind.

Have Your Say on the Draft Kaipātiki Local Board Plan 2026

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

1. How well do you think we captured the needs and priorities of *our Community* in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

Communities is connected but not very much nowadays. Parks have downgraded in entertainment for kids, as well as safety around the parks (no lights). Not enough places for sport facilities.

2. How well do you think we captured the needs and priorities of our *Natural Environment* in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

Theres good facilities that are open for walks in the wilderness. Although there are many bins that have been removed, and not enough environment areas due to too many buildings.

3. How well do you think we captured the needs and priorities of our *Built Environment* in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

Too many houses not enough privacy, not enough spaces for families to play outside. Carparks are small. For island families its key to have big families and its a shame that there

is no room, Some houses arent catering to medical needs of families and are put in a house for the sake of it. Careful evaluation and fast processing of many families happy with a home is much needed more.

4. How well do you think we captured our *Economic Development* needs and priorities in this section?

Not well at all

Tell us why, and if there's anything else you would like us to consider

Not enough jobs. We are living in a world where its not about experience but about connection. Most programs at work and income are good but unnecessary for every week seminars. Not enough opportunities is given to young people especially who have no experience but looking for experience.

5. How well do you think we captured our *Transport* needs and priorities in this section?

Tell us why, and if there's anything else you would like us to consider

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Submitter details:

Organisation: N/A

Local Board: I don't know

Your feedback:

1. How well do you think we captured the needs and priorities of *our Community* in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

The parks in our communities need to be upgraded and cleaned and more fun! Need more lights in the playground and parks and trail walkpaths and railing where the cliffs are. Fix potholes on the streets. More community events. Cleaner toilets.

2. How well do you think we captured the needs and priorities of our *Natural Environment* in this section?

I don't know

Tell us why, and if there's anything else you would like us to consider

Need more bins because of littering. Construction around small areas is disruptive, noise and traffic and affecting natural environment that was there.

3. How well do you think we captured the needs and priorities of our *Built Environment* in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

Our community hall isn't well known and it's very outdated.

- 4. How well do you think we captured our *Economic Development* needs and priorities in this section?**

Not well at all

Tell us why, and if there's anything else you would like us to consider

Young people need jobs but are unable because of job experience.

- 5. How well do you think we captured our *Transport* needs and priorities in this section?**

Not very well

Tell us why, and if there's anything else you would like us to consider

Public transport too expensive and should be free for students.

- 6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?**

I don't know

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

- 7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.**

Organisation: N/A

Local Board: I don't know

Your feedback:

1. **How well do you think we captured the needs and priorities of *our Community* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

2. **How well do you think we captured the needs and priorities of our *Natural Environment* in this section?**

Not very well

Tell us why, and if there's anything else you would like us to consider

The urbanisation of Beach Haven has ruined the environment. Busy roads due to overpopulation affecting the environment. No bins has increased littering.

3. **How well do you think we captured the needs and priorities of our *Built Environment* in this section?**

Not well at all

Tell us why, and if there's anything else you would like us to consider

Build townhouses away from already overpopulated areas of Beach Haven. Traffic caused by the building of these townhouses is crazy.

4. **How well do you think we captured our *Economic Development* needs and priorities in this section?**
-

Not well at all

Tell us why, and if there's anything else you would like us to consider

More social initiatives for young people to steer them away from loitering and vandalising properties.

5. How well do you think we captured our *Transport* needs and priorities in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

The bus stops feel unsafe. Fix the potholes they are everywhere making it dangerous to drive.

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Support most

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

Different community initiatives for teens. Opportunities for youth to have work experience.
Other cultural events.

8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

Not just do things online, its not always as engaging.

Your feedback:

1. **How well do you think we captured the needs and priorities of *our Community* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

Need more Pasifika organisations in the North Shore

2. **How well do you think we captured the needs and priorities of our *Natural Environment* in this section?**

Not very well

Tell us why, and if there's anything else you would like us to consider

Need playgrounds with covers to protect kids from the sun.

3. **How well do you think we captured the needs and priorities of our *Built Environment* in this section?**

Not very well

Tell us why, and if there's anything else you would like us to consider

Theres hardly any places for people to meet for fellowship. Also no programs for our elderly.

4. **How well do you think we captured our *Economic Development* needs and priorities in this section?**
-

Not very well

Tell us why, and if there's anything else you would like us to consider

Winz is the only place to go for help for jobs but there should be a Pasefika group or organisation to help our people.

5. How well do you think we captured our *Transport* needs and priorities in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

Would be nice to have trains too.

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Support all

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

Reduce land rates too expensive we have mortgages to pay.

8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

Hold more pacific group meetings with pacific speakers who can present in their own language. Makes it easier to understand.

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

Local Board: I don't know

Your feedback:

1. **How well do you think we captured the needs and priorities of *our Community* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

Pasifika need to be acknowledged in the plan. Pasifika festival co sponsored by local board. Pasifika strategy needed to support and include them as part of the community.

2. **How well do you think we captured the needs and priorities of our *Natural Environment* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

Need more educational programs about Te Taiao, Native plants. How we can look after our environments in our own backyards.

3. **How well do you think we captured the needs and priorities of our *Built Environment* in this section?**

Not very well

Tell us why, and if there's anything else you would like us to consider

Need better lighting in public spaces. Need more equipment in facilities like projectors, wifi access, screens etc

4. How well do you think we captured our *Economic Development* needs and priorities in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

Need better support programs developing local business for our Maori and Pacific people.

5. How well do you think we captured our *Transport* needs and priorities in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

T3 lane on Onewa Road is a pain during peak can we make it T2?

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Support most

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

Consider the amount of people in an area than invest in the ones with large populations.

8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

Please include community feedback before you produce your draft.

Your feedback:

1. How well do you think we captured the needs and priorities of *our Community* in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

1. Bring all the high school kids to perform the Polyfest items. 2 Need more community engagements. 3. Be great to have the light on at parks till midnight for the kids who go to play because 6pm too early.

2. How well do you think we captured the needs and priorities of our *Natural Environment* in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

1. Waterways need more attention especially Beacroft Park water way. 2. Offer everyone watertanks to capture the excess rainwater.

3. How well do you think we captured the needs and priorities of our *Built Environment* in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

1. More facilities like Share Junction in other parts of the shore. A place for the kids to hangout and play. 2. An umu/hangi place to use because the backyards are too small now!

4. How well do you think we captured our *Economic Development* needs and priorities in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

5. How well do you think we captured our *Transport* needs and priorities in this section?

Tell us why, and if there's anything else you would like us to consider

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Your feedback:

1. **How well do you think we captured the needs and priorities of *our Community* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

Reflect the need of our community and celebrations during language week is lovely to see

2. **How well do you think we captured the needs and priorities of our *Natural Environment* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

Reduce littering, plant more trees, clean our water ways, encourage community led initiatives so everyone can clean and play our role in the community.

3. **How well do you think we captured the needs and priorities of our *Built Environment* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

The local town centre offer everything we need that i rarely need to leave. See a safe hub for the ypuh.

4. How well do you think we captured our *Economic Development* needs and priorities in this section?

Very well

Tell us why, and if there's anything else you would like us to consider

Preparing our young people for the workforce

5. How well do you think we captured our *Transport* needs and priorities in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

Bus and ferry service is very accessible and convenient in our area.

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Support all

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

The safety of our children and families struggling receiving any help so they not affected negatively.

8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

social media or online website thats easily accessible.

5. How well do you think we captured our *Transport* needs and priorities in this section?
-

Tell us why, and if there's anything else you would like us to consider

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

Most important focus areas: Community Build Environment

7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

I'd like to raise an issue about Herbicide pollution in our living area.

This summer after Herbicide spray from our street neighbours. My fruit tree leaves were dropping off, bamboo were turning yellow, and vegetables were dying back in my backyard. After many years of exposure, now the soil is getting compacted, and can't absorb water efficiently. So it doesn't help mitigate the storm drains to handle the heavy rain. The floodwater came when storm drains couldn't handle the epic flow.

History is repeating. The research from the last Kauri dieback shows the line between Herbicide spring and Kauri tree dieback.

"In the 1970s Centennial Park portions of a dead Kauri stem section showed a sudden depression of growth rate from 1956 until the tree was felled in 1966. There were also other different trees dying back in the same area." [1] "It would seem that the pathogenic activity of the fungus is governed by environmental factors, which have still to be elucidated. In the

summer of 1972 - 73, the diseased area of foliage of the kauri on Great Barrier Island had regained its normal green colour." [2]

As we know, the U.S. banned Agent Orange, a type of herbicide in 1971. Therefore strong scientific evidence tells that the natural ecosystem can only be recovered by stopping herbicide spray.

The spray not only damages the surrounding environment, it's also harming human's health. That is adding extra pressure into our public health system. The problem is that people don't realize the sickness is caused by the pesticides contamination exposure.

Attached link is "Protecting our Children on Streets, Roads and all public Places". Writing by Distinguished Professor Bruce Baguley, Auckland Cancer Research Centre.

<https://weedmanagementadvisory.wordpress.com/campaigns/protect-our-children-from-toxic-pesticides/protecting-our-children-on-streets-roads-and-all-public-places/#:~:text=Prof%20Jeroen%20Douwes%20%E2%80%93%20glyphosate,use%20in%20public%20places%20%E2%80%A6>

Nowadays. Over-spray is quite common. People misuse pesticides without knowledge. So pesticides should be banned for domestic use and in public areas.

Your feedback:

1. How well do you think we captured the needs and priorities of *our Community* in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

2. How well do you think we captured the needs and priorities of our *Natural Environment* in this section?

Very well

Tell us why, and if there's anything else you would like us to consider

3. How well do you think we captured the needs and priorities of our *Built Environment* in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

Be great to have a "What it is not" section to give even more clarity

4. How well do you think we captured our *Economic Development* needs and priorities in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

I think we should be using local businesses in the work performed on council assets.

5. How well do you think we captured our *Transport* needs and priorities in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Support all

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

Use of data to support the allocation of resources across the network.

8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

Emails are good, but using social media neighbourly, facebook etc would be good too

Your feedback:

1. How well do you think we captured the needs and priorities of *our Community* in this section?

Quite well

Tell us why, and if there's anything else you would like us to consider

Glenfield tennis club is situated in Elliott Reserve, and we are not consulted when changes(pathway) and more tree planting is carried out. AS our access has now been even more restricted with the latest upgrades

Our original lease back in 1960s gave us park access (via consent process) to access our courts for replacement, light repair/replacement and this has been made more difficult for fute court replacement (lifter/truck access) to the back courts.

I have spoken to Nick Harrison about the issues we have with falling branches onto the back courts and the danger it poses to members and the public who have access to court 6. It appears nothing can be done about trimming these gums hanging over the fence.

2. How well do you think we captured the needs and priorities of our *Natural Environment* in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

Unsuitable trees e.g. liquid ambers are being planted on verges around Glenfield and we all know these drop leaves, undermine footpaths - why are these being approved for planting?

3. How well do you think we captured the needs and priorities of our *Built Environment* in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

Glenfield shopping strips are a sore sight. I know the proposed upgrade and link to the Downing St Reserve (I was involved in this creation when on the board in 1990's) and Bentley Ave corridor will go some way to help Glenfield not look like a poor cousin to Birkenhead.

4. How well do you think we captured our *Economic Development* needs and priorities in this section?

Not very well

Tell us why, and if there's anything else you would like us to consider

In all the town centres in the Kaipatiki area we still look shabby- attracting tourists is surely not happening.as a local I simply do not see- it- we have homeless people outside libraries and in alleyways- we have a long way to go and obviously not the money to tidy up our local areas

5. How well do you think we captured our *Transport* needs and priorities in this section?

Very well

Tell us why, and if there's anything else you would like us to consider

Bus routes are very convenient and regular and provide options for everyone

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Support most

Tell us why and if there's anything else you would like us to consider, including how we could better meet our climate change goals or Māori outcome aspirations.

Reaching climate change goals- seems unachievable. especially as the golf club and surrounding environs option was not a wetland only choice, but bowed to commercial pressure. For me personally a huge disappointment and opportunity lost to be forward thinking in terms of a flood mitigation plan

- 7. To ensure our community facilities network is sustainable over the long term, the local board may need to review how assets are used, including whether some may no longer be fit for purpose.**

What factors do you think the local board should consider when making decisions about the future of local facilities and assets?

It would help here to list what assets you are considering- hard to comment otherwise

- 8. How could the Kaipātiki Local Board improve the way it engages with you about local decisions, projects and priorities?**

For example, how should we keep you informed, involve you in decisions, and make it easy for you to have your say?

I choose to be part of Auckland's Have your say- across the board

Have Your Say on the Draft Kaipātiki Local Board Plan 2026

#3

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Kaipātiki

Your feedback:

1. **How well do you think we captured the needs and priorities of *our Community* in this section?**

Very well

Tell us why, and if there's anything else you would like us to consider

2. **How well do you think we captured the needs and priorities of our *Natural Environment* in this section?**

Quite well

Tell us why, and if there's anything else you would like us to consider

3. **How well do you think we captured the needs and priorities of our *Built Environment* in this section?**

Very well

Tell us why, and if there's anything else you would like us to consider

4. **How well do you think we captured our *Economic Development* needs and priorities in this section?**

Very well

Tell us why, and if there's anything else you would like us to consider

5. How well do you think we captured our *Transport* needs and priorities in this section?

Very well

Tell us why, and if there's anything else you would like us to consider

6. Overall, what is your opinion of the draft Kaipātiki Local Board Plan 2026?

Submission to the Kaipātiki Local Board – 2026–2029 Local Board Plan

Tēnā koutou,

We respectfully submit this feedback on behalf of the Sikh community of the North Shore.

The Sikh community has been part of New Zealand society for many decades and continues to contribute positively to the social, cultural, and economic wellbeing of our communities. Since 2018, we have operated **Gurdwara Sahib North Shore** at **128 Sunnybrae Road, Glenfield**.

Our Gurdwara is open seven days a week and serves both the Sikh community and the wider public. We provide a range of free services, including:

- Family support and counselling.
- Assistance for seniors and new migrants.
- Employment guidance and CV preparation.
- Punjabi language, music, maths, and English classes.
- A Saturday language school with around 100 registered children.
- Free community meals (Langar) for everyone.
- Food parcels and grocery support for families in need.
- Community health initiatives and medical outreach programmes.

These services benefit hundreds of people and help strengthen community wellbeing, inclusion, and social connection.

However, our current premises face significant parking limitations, which restrict our ability to meet the growing needs of the community. For Sikhs, the Gurdwara is not only a place of worship but also a community hub where people gather for daily prayers, cultural education, family support, weddings, memorial services, and other important life events.

As our community continues to grow, we respectfully request that the Local Board consider supporting the long-term needs of the Sikh community by helping identify suitable land or premises within the North Shore area for a future Sikh community and cultural centre.

We are not seeking funding. Rather, we would welcome the opportunity to discuss a long-term lease or suitable site that would allow us to establish a permanent facility capable of serving future generations and continuing to provide valuable services to the wider community.

Thank you for considering our submission and for supporting the diverse communities of the North Shore.
