   Thank you for taking you time to read this. The golf course is an important part of our community where we can have fun and be safe. It would be unfair for those who play golf there regularly. It is affordable, family friendly and would be a big waste to get rid of the golf course to build a wet land where the amount of mosquitoes in the area will increase and will is unfortunate for the people that lives around yhe golf course. Especially in my case where I live on Benders Avenue where the golf course is right behind our street and all of us residents there are against this idea of putting a big wetland replacing more than half the golf course. If you cannot leave 18 holes for us, then at least leave 12 holes please. Also I would really appreciate if you could leave the eventfinda stadium. It is for the importance of my sport gymnastics. The severe risk NHG Gymnastics face is unacceptable. If NHG Gymnastics and a new Eventfinda building are not included in this plan, Eventfinda will remain in its current location, which is lower than the planned wetland and at high risk of flooding.

   If Eventfinda floods again, it will no longer be insurable and will have to close down. This would leave North Harbour Gymnastics with nowhere to go. By including us in your plan, you can use

soil from the new wetland to build a higher, safer platform for a new, modern Eventfinda Stadium. This secures our home and protects our club from closure. PLEASE CONSIDER.

4. **What type of golf would you most like to see provided at the park?**

   18-hole beginner/intermediate golf course (approx. 54-60 par),12-hole beginner/intermediate golf course (approx. 36-40 par),Driving range,Short-game practice area / putting green

5. **What other type of recreation would you most like to see provided at the park?**

   We would like to see Eventfinda stadium remian as its a useful sport & entertainment facility for North shore. Weather is not always suitable for outdoor activities thats why enclosed areas are more suitable.

   Whilst it would be wonderful to have as a golf course only - I have oftened thought it would also be nice to have dedicated walking paths to be available for walkers including dog walking. however do not think it should add further sports apart from near the Stadium

   The Council can't afford to do it all so recognize it should go to commercial operators. Believe it should go to open market to see what best can be delivered.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   For the change to be valid - the council does actually need to achieve the goal of reducing flood risk in the likes of Porana Road / Silverfield - including keeping clear the stormwater waterways.

   Because this is a unique, public course. If we lose it we'll never have the space back. I do not play golf but I am still able to appreciate how special it is and I see hundreds of people and more using it every day. We shouldn't take the opportunity to play golf at accessible cost away from people who otherwise wouldn't be able to afford it. We are blessed with many parks, beaches, reserves and bush on the North Shore. We are in a lucky position to retain the function of AF Thomas without limiting non-golfers' opportunity for recreation.

   Currently, it is widely believed that the gold course is private and unable to be used by the public as a park. Make this huge space available to the people. Think Large open park-like spaces like those that Europe has within its cities.

   It is abhorrent to think that this is a public space that people believe is inaccessible due to its current use. Even if people were aware that they could use this space, who would want to be in the firing line of golfers

   I'm neither here nor there. Both options have negative impact to current users....

   Council - no fund. Improvements cost to be borne by community.
   Operators - operating for profit, therefore it will become costly to indulge in sport's like golf

1. **How do you or your household currently use the park?**
   I don’t use the park

2. **How often do you use the park?**
   I don’t use the park

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly other recreation uses with limited golf facilities

   Tell us Why
   I support a park that is open to different types of people, with different interests, to use. I love the 'other recreation' option with its mix of nature, organised sports, and free/open space and don't think that golf should be given priority. The community is so diverse - let's give everyone something!

4. **What type of golf would you most like to see provided at the park?**
   Driving range

5. **What other type of recreation would you most like to see provided at the park?**

   Affordability - providing low-cost or free activities,Connectivity - walking and cycling connections through the park that link with the wider community,Equity/Inclusion - a diverse range of experiences the whole community can enjoy,Nature - protecting or enhancing the natural environment for people and wildlife,Resilience - supporting flood protection and climate adaptation

7. **Which Park lease approach would you prefer?**

   Keep all land under Council control

   Tell us Why

   I would prefer an area that everyone can use, without having to pay user or entry fees. I would prefer a longer build/development period and a free, open public space, over a short period that makes the park less accessible for our community.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Whatever happens to the park, I think it's important to make sure the public knows what facilities are available and how they can use them. I am a newer resident in the community and did not know that the park had options for walking/running etc - I thought it was just a golf course! Let's make sure everyone knows what is available to them in their community to make this a success!

   I doing think the golf course's usage justifies its prime location and acreage. Look at how many people are using the nearby netball and basketball facilities, the rugby fields etc. The kids basketball games are only 20 mins long because there's so many players and so few courts etc. meanwhile the golf course sits there comparatively unused. There are other golf courses people can go to play. The urban fringe would be the ideal location surely.

   Takapuna Golf course provides such extraordinary value as an entry level course to get into golf. It is an affordable 18 hole playing course which allows new players to learn the game in a non pressured environment compared to other golf courses in the Auckland region. I believe many of New Zealand's top professional golfers have used Takapuna Golf Course to both practice and learn the game on and this would continue to happen. I am just starting to introduce golf to my 4 year old son and I hope we can use the course together over the next few decades to grow his interest in the sport and enjoy the sport together at an affordable price. Most other courses are out of our price range and I fear that if Takapuna Golf course were to close neither my son or I would play the game again.
   18 holes is a must to get the best out of the course in terms of experiencing and playing golf as that is what the sport is about, "an 18 hole game of golf". However, I believe the current 18 holes could be rearranged to make the best use of space and allow space for other recreational sports in the park and also a wetland area.

   I do not believe the council is capable of setting up suitable areas for recreation and sports in a logical and efficient manner. Nor do I believe that the council are responsible spenders of tax payers dollars. Commercial operators would get more done and we would get better facilities out of the money put in, in shorter timeframes.

   It really depends on the evidence and what the future recreation and leisure need is likely to be - there's unlikely to be another opportunity for this type of reimagining of recreational uses on the north shore so it's important to get it right. Some golf use can be retained if there's a genuine need for it and no other facilities available, but we don't think it needs to be an exclusive use of the space nor preclude other opportunities for other sports and connections with nature, Maori design elements etc. The additional green-blue network will transform the space and unlock future opportunities for connecting with nature, cycling and walking. The remainder of the park needs to reflect community need and balance requirements. We would encourage further examination of the Golf Warehouse proposal which seems to offer things that would attract everyday people such as our family and others living here to visit and enjoy the space.

   Support a partnership model/commercial lease arrangement if it allows for outcomes to be delivered for community benefit in a faster timeframe and less rates funding required. Needs to be carefully considered so some areas of the park are accessible for free or low-cost so everyone can enjoy as a public space - an improvement on status quo (a very low base for access) would be great.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Our household of 5 have lived on North Shore for over 18 years and our children have grown up here. Yet we never venture into this so-called public park except for the edges. Didn't even know it was called A F Thomas Park until this consultation! Whilst the Eventfinda stadium is a regular, almost daily, destination, for basketball (and previously gymnastics/trampoline). Very ocassionally our kids have used the driving range (once or twice a year) - the current design and operation appears very private and not-welcoming for non-golfers. When looking into an opportunity to learn to play golf for women I was directed to the Pupuke course as it's not offered here. We definitely don't think the future use of the space needs to be predetermined by the status quo and vested interests. Fully support the council's decision to expand the blue-green network here and protect people and property and at the same time enable local businesses and homes to remain insurable. We think council should explore further the potential and reimagining of the space in the Golf Warehouse proposal especially the expanded eventfinda stadium to meet the growing need & popularity of basketball and indoor sports. The Golf Warehouse proposal seems really great and we could see ourselves as a family visiting the park a lot more regularly with this type of mix of activities and options available. It could become a destination heart of the North Shore in the same way as the Domain, Western Springs and Cornwall Park is on the other side of the bridge - somewhere to go to on the weekend. Sports is such a great way to keep young people healthy emotionally and physically and basketball has a very low-cost of entry - anyone can play and does! Similarly football, touch rugby, pickleball, tennis and netball. Whilst golf has a long history here, other sports and community uses are increasingly popular and running out of space. We don't normally submit on council proposals,

but this is so important to the future of the area we thought it would be good for you to hear from an everyday Kaipatiki family. We would love to explore and use this park space more as a family into the future. And it was very hard to limit to 5 the important values to guide the design - we also love the idea of more Maori design/heritage and more nature/trees! We would encourage decision-makers to look for win-win options that deliver in a timely way for everyone in the community. Thank you for the opportunity to submit on this consultation.

Your feedback

1. **How do you or your household currently use the park?**
   I don't use the park

2. **How often do you use the park?**
   I don't use the park

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   A balanced mix of golf and other recreation uses

   Tell us Why
   Keen to keep the park as a green space with more of a nature reserve focus rather than a "sports zone". Walking and cycle tracks would be great to enjoy the unique slice of nature. A playground near current club rooms area would be good. Agree with ideas about lifting evenfinda stadium up and away from flood zone. Expanding car parking near club rooms on Northcote Road (chaos when it's a netball night) and eventfinda stadium. A smaller golf course seems acceptable and the right thing to do based on the history of the park.

4. **What type of golf would you most like to see provided at the park?**
   Other, please specify: I don't know enough about golf to answer

5. **What other type of recreation would you most like to see provided at the park?**
   Nature play / playground,Walking / cycling tracks

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Nature - protecting or enhancing the natural environment for people and wildlife,Open space - space for free play and relaxation,Resilience - supporting flood protection and climate adaptation,Safety - providing a safe environment for play, sport, and relaxation

7. **Which Park lease approach would you prefer?**

   Lease some land and keep some under Council control

   Tell us Why

   We lose a community asset if all of the park is leased to a private operator.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   I have some safety concerns about walkers and cyclists with golf balls and archery, they should be addressed and separated as much as possible. Also security concerns with walkways, particularly in the wetlands area, to keep young children safe and fencing should be a priority to prevent drownings. Don't want the area to become unsafe for people walking at night time either so security measures and lighting should be considered.
   No road through the park (risk of people "rat running" to cut through to Northcote Road). No car park at end of Terrylyn Drive, extra parking can be provided either near the current club rooms or near Eventfinda stadium. Scenario One with a few tweaks would be how I envisage the park being used. Can't see the point in a connection to Smales Farm bus station as you can easily get there via Northcote Road.

   The golf course works well as it is - as it makes golf accessible for all, without having to spend large amounts of money or travel outside of Auckland. Event finder is a great facility that supports school and community sport. Losing These types of facilities starts to limit opportunities for active exercise at a time where people are starting be less active.

   Golf courses occupy large areas of prime urban land that could otherwise be used to provide a wider range of sports and recreation opportunities for the broader community. Given that golf participants are generally well-resourced and able to travel, it would be more equitable and efficient to locate golf courses on the outskirts of the city. This would free up valuable inner-city land for multi-use recreational spaces that serve a greater diversity of residents and community needs.

Your feedback

1. **How do you or your household currently use the park?**
   Play sport at Eventfinda Stadium,Attend events at Eventfinda Stadium,Other, please specify: Can not use yhe park as it's single sport only which is a pity.

2. **How often do you use the park?**
   Once or twice a week

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly other recreation uses with limited golf facilities

   Tell us Why
   The park itself is used exclusively by a minor population segment. There are no adequate places for outdoor courts, cycling through parks, jogging etc. As a ratepayer I want to see this area serving a broader population of the north shore.

4. **What type of golf would you most like to see provided at the park?**
   Short-game practice area / putting green,Indoor golf simulators,Mini golf

5. **What other type of recreation would you most like to see provided at the park?**
   BMX pump track / skate park / other wheeled play,Indoor sports courts (e.g. basketball, netball, badminton, gymnastics),Nature play / playground,Outdoor sports courts (e.g. basketball, netball, pickleball),Walking / cycling tracks

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Affordability - providing low-cost or free activities,Connectivity - walking and cycling connections through the park that link with the wider community,Equity/Inclusion - a diverse range of experiences the whole community can enjoy,Organised recreation - space for organised sport or clubs

7. **Which Park lease approach would you prefer?**

   Lease some land and keep some under Council control

   Tell us Why

   Given current economy state it's unlikely the council will have any funding soon enough to progress with development. But it needed to happen yesterday as the north shore community is short of sports facilities.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

7. **Which Park lease approach would you prefer?**
   Lease some land and keep some under Council control

   Tell us Why
   Allowing some of the land to be leased to independent operators will increase the chance that the land will be redeveloped faster.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   It is important that a new stadium is built on land that will not flood.

   EventFinda is always good for basketball either indoor 5x5 or the outdoor 3x3. Its also good for other kids friendly indoor spirt with the likes of gymnastic. Its a shame if Auckland Council will convert this only for golf. EventFinda is an iconic place here in the Shore and my kid grew up in this facility where witness all greayest win of his school team (St Joseph Primary and then to Rosmini College).

1. **How do you or your household currently use the park?**
   I don’t use the park

2. **How often do you use the park?**
   I don’t use the park

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly other recreation uses with limited golf facilities

   Tell us Why
   Golf is a niche interest and doesn't provide space for more general public use. The North Shore - and especially this part of the Shore needs a space for extensive walking in winter when bushwalks are shaded and wet, socializing outdoors, and unstructured play for both children and adults - ie somewhere more akin to Cornwall Park.

4. **What type of golf would you most like to see provided at the park?**
   None of the above

5. **What other type of recreation would you most like to see provided at the park?**
   Nature play / playground,Open space / picnic area,Space to hold events (e.g. community markets, festivals or concerts),Walking / cycling tracks

7. **Which Park lease approach would you prefer?**

   Keep all land under Council control

   Tell us Why

   If leased, the land becomes available only to niche interests. With more and more infill housing, there is an ever-increasing need for free public outdoor recreation.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   I don't think it would require extensive development to be an attractive place to visit. Tree planting, some picnic tables, some paths, some flat open spaces...

   Because it is a convenient place between Northcote and Wairau, and currently walking through is difficult, having more space (with lakes, ponds, outdoor gym, and areas to socialise) could make it a central and pleasant place to go to and through, whereas it is currently difficult.

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   A balanced mix of golf and other recreation uses

   Tell us Why

   As a golf venue for those less wealthy on the North Shore, it is unmatched and central.

   Without the stadium for children's after school activities it would put too much pressure on the remaining venues.
   My older grandson can get to the stadium by public transport to help referee the games, which helps him improve his own game.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   I'm sure we can find a way to operate the golf course and design water features to support overflow needs to provide a way to support both initiatives. It plays an important part of my community as a local - as it provides connection (playing friends, meeting other locals) abs continues to support health and wellbeing and a competitive spirit of a game.

   Tell us Why
   Kaipatiki like others is a rapidly growing and developing community. I feel having large recreation spaces available is beneficial for many. Especially for wellbeing on top of other things. Working a number of jobs alongside young people myself in sport / recreation and education, having large recreation spaces not only offers space for public use, but organisations to operate guided outdoor activities and experience's for our young people that they may not otherwise have the opportunity to experience. Possibly even learning opportunities for schools that are science based around ecological systems and the effects of particular designs of large spaces etc? I have respect for the golfing community that currently uses the most part of the park, but would love to see use opened for a larger range of activities and people to benefit our local community in this possibly rare opportunity.

4. **What type of golf would you most like to see provided at the park?**
   Other, please specify: Possibly a bit biased not being a golf enthusiast, but I think keeping and developing the driving range is a suitable option+ maybe an are for "pitch and putt course".

Just my opinion but would love space for other activities. If space allows for other recreational activities and a 9 hole course, that might be a compromise as well.

5. **What other type of recreation would you most like to see provided at the park?**

   Archery,Nature play / playground,Open space / picnic area,Walking / cycling tracks,Other, please specify: Possibly things such as frisbee golf or orientation. Also maybe a nature walk with native plant life and information boards outlining the design of the landscape and how it's used, etc.

   I would like our Shore Archery Club to remain as is, or keep a reasonable range space for the club activities.

   Here are some key points:

   - We are an active growing target archery club - our membership has grown from approximately 50 in 2019 to over 200 in September 2025

   - We have a member age range of 8 to 84 years and are also a multicultural club

   - We are actively encouraging progress within the sport - with archer and coaching development plans in place

   - We are involved in teaching archery in schools - eg Takapuna Grammar, Rutherford College - with plans to expand to include other schools

   - We offer "Have a Go" and corporate shoots, for community participation

   - We are the only Olympic style target archery club north of the bridge

   - Our outdoor range can be accessed 7 days a week - unlike the other Auckland target clubs

   - We host Auckland-wide and also National competitions, with plans for that to expand

   - We play an active role in supporting Archery NZ's development pathway by identifying, training, and mentoring talented young archers who go on to represent New Zealand in international competitions.
   - Mountain Green Archery Club is already experiencing loss of grounds - Auckland cannot afford to lose a second of three archery ranges

   Despite claiming to have highest membership numbers, golf courses a underutilised compared to any other outdoor activity. At any given moment during workdays you'd struggle to find golfers on the course, and during the busier weekends play is obviously restricted by daylight hours. The area will be much better served by higher density in and outdoor sport facilities, including canopied facilities with lighting.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Having read the consultation document, I find it bewildering that the future and the impact on Eventfinda Stadium are not directly considered in the scope of the document. Eventfinda currently hosts the largest gymnastics club in New Zealand, with 3,000 active members who participate in recreational and competitive training. The consultation document chooses to ignore its needs among the proposed options, while discussing the options for placing Lawn Bawls facilities in the future AF Thomas Park. The Sunnybrae Lawn Bawls club that I'm guessing is proposed to relocate to the Park currently numbers 52 members and its numbers are diminishing. There are 19 lawn bawls clubs around North Shore, making this activity well catered for, especially considering low demand. The archery club membership nearby is even smaller. Surely if the authors were serious about addressing the flooding issue and meeting the needs of the community, allocation of space for gymnastics facilities in the Park would be top priority.

   Both my kids play basketball at NSEC at least once week with additional tournaments and trainings.

   We attend basketball games at NSEC for both the Breakers and Kahu, who my daughter is a volunteer for.
   I myself play golf or go to the driving range at Takapuna once or twice a month, as reasonably inexperienced golfer Takapuna is one of the few courses where you don't feel like you're being judged because you're learning. Geographically it's also only a short drive from my house.

   Other than the current uses of the NSEC aka Eventfinder stadium and the Golf course, I'd be happy if there was some form of walk/bike track. But ultimately the main purposes of basketball and golf are the most important purposes for our family.

   Easier to make any facilities affordable for people to use once they are built. Sponsorship could help with building costs instead of leasing the land.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   A large indoor stadium is a priority because there is no other one in the area and I want to see basketball games and other indoor sports in our local area.

   Having a public golf course on the Shore is hugely inclusive - you shouldn't have to be a member of an expensive golf club to be able to enjoy a round of golf. However, a full 9 hole course should be sufficient, so the other land can be used for other purposes.

4. **What type of golf would you most like to see provided at the park?**

7. **Which Park lease approach would you prefer?**

   Keep all land under Council control

   Tell us Why

   Such an important green space on the North Shore should be council owned so we (the ratepayers) have some say in what it is used for. It would be a great waste if it got privatised and people lost the use of this green space.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Eventfinda Stadium is becoming too small for the amount of use. Some forward thinking and future proofing now would help continue the growth of sport (basketball, gymnastics etc) and allow bigger and better events leading to a better economy in the surrounding areas.

   Indoor court space is at maximum capacity around the North Shore. Any new or extra courts to provide space for our students to play their indoor sports like basketball would solve a lot of issues. Currently the Y7/8 Basketball league is played on one night and teams often have BYE rounds or games at 8.45pm at night to fit it all in.

   The 18 hole course is central and easily accessible on the North Shore.

   This is a fantastic 18 hole Public Course that allows a friendly environment for all ages to learn and play the game of golf at an affordable price.

   For regular players, keeping the course as an 18 hole Public Golf course is key as this allows more players on the course at once. If reduced to 9 holes regular players wanting to play 18 holes will be forced to go elsewhere or just play 9.

   Auckland Council needs to follow Australia's lead and keep the Public Course.
   I suspect wetland areas/ponds could be increased to accommodate heavy rainfall, yet retain 18 holes.

4. **What type of golf would you most like to see provided at the park?**

7. **Which Park lease approach would you prefer?**

   Lease all land to commercial operators

   Tell us Why

   Keen to see quick action on new facilities

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Super keen to see support for basketball facilities extended from eventfinder ...there's a massive growth for the sport and minimal decent facilities on the Shore. Would also love to see a maintained cricket ground and artificial pitch to support the lack of decent available cricket grounds .

   Tell us Why
   I have lived on the North Shore for 30 years since my move to Auckland. In that time I have enjoyed the use of the park as a golfer, walking my dogs in the early morning and recently as an active participant in the bowls club. I am absolutely gutted at the proposal to remove part of the golf course and other recreational facilities because of the poss poor planning of counsel when it continues its quest of infill housing and not upgrading its necessary services.

4. **What type of golf would you most like to see provided at the park?**
   Other, please specify: The current facilities should be left as they are. Counsel needs to find an alternative solution to the problem they have created. The proposal of a wetland is just awful. You are looking to destroy a popular facilities and other well used sporting sites. Once these are gone they can never be replaced. The proposed wetland offers very little in the way of maintenance, it will be a breeding pot for rats and given the basalt rock base, there's every chance that any wetlands will turn out to be a barren wasteland in the dryer months The spoil

that you will remove for the wetland program is to be dumped at the further end resulting in a 4 story pile of unsightly contaminated **********.

5. **What other type of recreation would you most like to see provided at the park?**

   Archery,Indoor sports courts (e.g. basketball, netball, badminton, gymnastics),Lawn bowls,Other, please specify: The proposal of counsel is just a nonsense., The proposal has lurched from stupid to ridiculous and the costings will escalate far past the current estimation.

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Other - please specify: Who in there right mind would walk around a stinking rat infested wetland. Your proposal of maintenance falls well short.

7. **Which Park lease approach would you prefer?**

   Tell us Why

   If counsel retains the land you will push out the current operators, if the facilities are to be retained by the operators you will slam them with rocketing rates to break them. The issue of the flooding is down to poor counsel planning and now you seek to rectify it by removing Some of the most popular and easily accessible sporting pursuits available to the Shore.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Leave it alone and find another solution to the rubbish you have peddled to the rate payers of the Shore. If you are that worried about flooding stop infill housing until such time as you have fixed the infrastructure, alternatively buy the affected houses and turn those into the Wetlands.

   Currently I don't use the park. Nothing there caters to me, my friends, or whanau. None of us play golf - and are all a bit mystified that such a big tract of land is used by one group.

   We can't change everything overnight. Let's do it slowly, do it properly, and make sure the broadest range of communities can use the park.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   Don't let the golfers win. Their are many, many places for them to play in Auckland -- and they are by and large wealthier than the rest of us. They can afford the Green Fees - while most of us just want a place to take the dog for a walk or a court to shoot some hoops.

   Taking away such a key space for sports for the young tamariki of the area would be a terrible idea. Hundreds of families visit, use and play sports here. To add more golf for the few and take away from the many is disgusting.

   Archery offers many benefits, including improved focus, physical fitness, and mental well-being. It also provides a great opportunity to socialise and build a supportive community. I really hope the Northshore Archery Club can continue to operate as usual, as it plays an important role in supporting these positive outcomes for its members.

   I believe that a golf course demands a lot of space, while enjoyable for the community, this same space can be used more effectively for things like lush native bush or wetland. Not only is this proven to have positive impacts of locals health, it will also help protect them from future flooding damage which is more vital than golf.

   I think it is important to have somewhere that people can play golf at a more accessible price, but think a 9-hole course is enough of the area to dedicate to golf. There are so many other options, and this space is big enough to be used in ways to benefit a broader portion of the population.

   Assuming the current golf course is managed by a leased operator, I think they should have the option to continue this. This would allow some development at reduced cost to council, but I think it is important that some areas are kept under council control to ensure access for all.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   The most important thing really has to be flood mitigation. This has to come first. However, this is a hugely valuable piece of land, in terms of its location and its versatility. I have lived in and around this area (Birkenhead and Glenfield) for almost 50 years, and despite using the areas around the park have never once used the golf course and I'm sure many people are the same. I think we have a unique opportunity to ensure we have a park that is open to as many people as possible. We need to invest in such an amazing green space.

Your feedback

1. **How do you or your household currently use the park?**
   Use the golf driving range,Attend events at Eventfinda Stadium

2. **How often do you use the park?**
   Less than once a month

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly other recreation uses with limited golf facilities

   Tell us Why
   The benefit of the flood mitigation needs out weigh the wants of a few because they like a convenient sport location.

4. **What type of golf would you most like to see provided at the park?**
   9-hole traditional golf course (35-36 par),Driving range,Indoor golf simulators,Mini golf

5. **What other type of recreation would you most like to see provided at the park?**
   Indoor sports courts (e.g. basketball, netball, badminton, gymnastics),Off-leash dog exercise area,Outdoor sports courts (e.g. basketball, netball, pickleball),Space to hold events (e.g. community markets, festivals or concerts),Walking / cycling tracks

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**
   Affordability - providing low-cost or free activities,Connectivity - walking and cycling connections through the park that link with the wider community,Equity/Inclusion - a diverse

range of experiences the whole community can enjoy,Heritage - highlighting local Māori culture,Resilience - supporting flood protection and climate adaptation

7. **Which Park lease approach would you prefer?**
   Keep all land under Council control

   Tell us Why
   Flood resilience is the priority

I fully support the Golf Warehouse NZ proposal to redevelop A.F. Thomas Park into a modern, community-focused recreation hub.

This project represents an exciting opportunity to revitalise an underutilised area into a world-class destination for sport, recreation, and community gathering — all privately funded, without additional burden on ratepayers.

The proposed facilities will create genuine benefits for our wider community — including improved access to sport for families, better infrastructure to support Eventfinda Stadium, and new amenities such as mini golf, a tech-enhanced driving range, and youth development programmes through Golf NZ. It's an inclusive and forward-thinking plan that caters to all ages and skill levels.

Importantly, this redevelopment also aligns with environmental and resilience goals — addressing flood mitigation through thoughtful land use and ensuring this space remains both functional and sustainable for future generations.

As a local resident, I strongly believe it's time Auckland Council starts listening to residents and genuinely considering community voices in decision-making. Too often, it feels like our feedback falls on deaf ears, even when we're the ones most impacted by these decisions. This proposal has clear community and economic benefits, and it deserves proper support and serious consideration.

Key reasons for my support:

•100% privately funded development

•Significant community benefit through multi-sport and family-friendly facilities

•Improved flood resilience and smart land use

•Youth and participation pathways through Golf NZ programmes

•A vibrant, inclusive recreation hub for the North Shore
I urge Council to take this opportunity to partner with private enterprise in a way that delivers meaningful, lasting value to our community. This is the type of initiative Auckland needs more of — practical, inclusive, and visionary

   Takapuna golf course is a massive part of the community with lots of people making new friends and having somewhere affordable to play 18 hole golf. It would be such ashame if it went and would ruin alot for people not being able to have their hobby and somewhere to be able to meet friends and enjoy the relaxed environment that it has to offer.

   I am an engineer and there are better ways of managing flood relief rather than sacrificing a 18-hole golf course considering this being the one of the most visited courses in NZ.
   Two of the options suggested are great for retaining the full course, one being using some of the course as temporary holding ponds in the event of flooding and the second directing flood water into the harbor. I have lived and worked overseas and have played at public 18 hole golf courses which include public walks. If the council wants flooding relief, I am sure the council can integrate, flooding relief, public walkways and limited recreational space without sacrificing a unique 18 hole golf course.

Submission on the Future of A.F. Thomas Park and Onewa Domain Integration

Introduction and Context

I am writing as a passionate North Shore resident to offer my feedback on the future use of **A.F. Thomas Park**. First, I want to acknowledge the crucial stormwater project planned for this park. Auckland Council's Healthy Waters division has committed to creating a large flood detention wetland at A.F. Thomas Park. This work – which will reshape most of the park over the next two years is essential for protecting our community from flooding. This will significantly reduce downstream flood risks, helping safeguard over 150 homes and critical facilities like North Shore Hospital, nearby schools, and Eventfinda Stadium from future floods. I fully support this flood resilience project because it will save homes and keep our neighbourhoods safer in heavy rains.

With that major project underway, the question is: **what will we do with the rest of A.F. Thomas Park's land to benefit the community?** Its long-term use is now being decided through this public consultation. This is a once-in-a-generation opportunity to rethink the park's purpose. Whatever specific activities are ultimately chosen it's vital that we **maximize community benefit** on this precious public open space. I believe we can transform A.F. Thomas Park (post-wetland construction) into a vibrant, multi-use park that complements the neighbouring Onewa Domain and serves a wide range of community needs.

Integrating A.F. Thomas Park with Onewa Domain

One key point I urge the Council to consider is the relationship between A.F. Thomas Park and **Onewa Domain**, which is directly across busy Northcote Road. Onewa Domain is already a major sports hub for our area – it hosts netball, cricket, athletics, and rugby facilities in one precinct. As a local parent and sports fan, I've spent countless weekends at Onewa Domain. I've seen **thousands of netball players and their families** streaming across Northcote Road on winter evenings, Saturdays and Sundays to reach the Netball North Harbour courts. Currently, there's only a pedestrian traffic light to stop traffic and allow people to cross. This **at-grade crossing** is not ideal – it creates traffic bottlenecks on Northcote Road and, more importantly, puts pedestrians (many of them children) at risk. The volume of foot traffic on game days is huge, and relying on a stoplight in the middle of a busy arterial road is a safety concern.

My strong recommendation is to construct a **pedestrian overbridge (footbridge)** over Northcote Road to safely link Onewa Domain with A.F. Thomas Park. An elevated, accessible overpass would allow the "**sports side**" and "**park side**" to function as one connected recreational precinct. Families could park once and easily move between the netball courts, rugby fields, and the new park facilities without dodging traffic. Drivers on Northcote Road would no longer be frequently halted by the pedestrian

signal – improving traffic flow and reducing the risk of accidents. This is a win-win for both road safety and convenience.

In fact, an overbridge here could be the **centerpiece of a larger connected pathway**. Imagine crossing Northcote Road on a safe footbridge that lands you in the newly developed A.F. Thomas Park wetlands, and from there a scenic path leads you further east. This path could connect all the way through to **Eventfinda Stadium** and the Smales Farm area. Smales Farm (with its bus station and businesses) is a short walk from A.F. Thomas Park, and linking these areas with a pathway would greatly enhance accessibility. We could even extend the path into a **canopy walk through Smith's Bush**, the beautiful pocket of native forest near Smales Farm. A tree-top or boardwalk trail in Smith's Bush, connected back to the park, would create a unique nature experience for visitors. In short, by integrating bridges and trails, we have the chance to create an **interconnected network of park, sports, and nature** – something truly special for the North Shore. This would turn the whole precinct into a place where people can not only play sport, but also enjoy walks, bike rides, and nature without ever having to drive between these amenities.

Parking and Access Improvements

Another practical issue that needs addressing is parking and internal access between these facilities. Currently, Onewa Domain has a **small, narrow car park** on the netball courts side (off Northcote Road) that is almost always congested and frankly quite dysfunctional. Anyone who has tried to drop off kids for netball will know the tiny lot I'm referring to – it's often gridlocked, with cars awkwardly reversing into traffic. This narrow strip of car park doesn't adequately serve the thousands of users coming to the domain and can even be a hazard. I suggest **removing this particular car park** on the netball side altogether, and instead planning for expanded parking as part of the A.F. Thomas Park redevelopment. The A.F. Thomas Park side has more open space (especially once the wetland earthworks reconfigure the land), so it could host a **larger, well-designed parking area** that serves visitors to both the park and Onewa Domain. With the aforementioned pedestrian overbridge in place, people could park on the A.F. Thomas side and walk straight across to the netball or other sporting matches easily. This would take pressure off the Northcote Road roadside parking and reduce chaotic turn-ins and turn-outs during peak sports times.

In a similar vein, there is a **driveway to the Cricket clubrooms** at Onewa Domain that currently cuts across the fields to access the main road. This separate driveway entrance could be eliminated or rerouted. For example, the cricket club could potentially be accessed through the existing rugby club entrance and car park (which is off Akoranga Drive side, if feasible), rather than having its own separate entrance/exit on Northcote Road. By **consolidating driveways and parking** areas, we can free up more green space and improve safety (fewer cars moving through where people play or walk).

Removing the little netball-side car park and the redundant cricket driveway would open up **significant space on the Onewa Domain side** that could be put to better use for sports facilities or open space.

Enhancing Sports Facilities for Community Needs

Onewa Domain is a cherished sports ground for many codes, and any changes at A.F. Thomas Park should complement and enhance these community facilities. A pressing need right now is **more netball courts**. According to Netball North Harbour's CEO, **Lynette Brady**, the netball centre at Onewa Domain is currently *three courts short* of what's needed to meet existing demand, and looking towards the future they anticipate needing *up to six additional courts* to cater for growth. This shortage of court space is real – if you've ever been there on a Saturday, you'll see every court full with back-to-back games, and still teams are waiting or playing in distant timeslots due to capacity limits. We should take this opportunity to **future-proof the netball facilities**. Once the small car park (and possibly the cricket drive) is removed on the netball side, we could repurpose the land across the area to add a more outdoor netball courts. The bottom line is that netball is incredibly popular for girls and women on the North Shore, and we must accommodate it – **losing any opportunity to add courts would be a mistake** we'd regret in a few years.

Another idea I want to put forward is about the **Takapuna District Cricket Club** which currently occupies part of Onewa Domain. It might be wise to **relocate or reconfigure the cricket facilities** as part of the overall plan. Specifically, we could consider moving the cricket club's base to be closer or combined with the rugby and athletics clubs. Onewa Domain already has rugby fields and an athletics track/field in proximity; if the cricket pitch and clubrooms were integrated into that area (for example, sharing an upgraded multi-sport clubhouse with rugby/athletics), it would consolidate the sports footprint. This would free up the **currently separate cricket area**, which could then perhaps be used to install those extra netball courts or additional multi-use turf. Merging cricket with rugby/athletics makes sense because it fosters a **"sports hub" approach** – shared facilities, less duplication (one clubhouse with shared changing rooms, fit for needs etc.), and the sports have complementary seasons (winter vs summer). I believe the cricket club and its members would have valuable thoughts on this, and any change would need their input, but from a land-use perspective it seems very sensible. It's about unlocking space and efficiency while still supporting all the sports.

On the topic of sports facilities, I'd like to address a **bigger-picture vision**: the idea of creating a **small stadium or arena** at Onewa Domain for hosting events like North Harbour rugby games. Right now, major rugby matches (NPC or any higher-level games) are played at the North Harbour Stadium in Albany. However, there's discussion underway about the future of that Albany stadium. Auckland Council is even

considering deconstructing North Harbour Stadium (which has been underutilized and costly to maintain) and possibly **selling off that land for redevelopment**. If that happens – essentially if the "big" stadium on the Shore is removed – we will need a new home for North Harbour Rugby and other events. **Onewa Domain's Number One field** could be that home. I envisage a boutique, community-oriented stadium built around the existing main field at Onewa. It wouldn't need to be huge (certainly nothing like Albany's 22,000-seat capacity), but a modest grandstand and improved facilities could allow a few thousand fans to watch North Harbour games in a more intimate, accessible setting. Funding for this could potentially come from the scenario above – the proceeds of selling the Albany stadium land or reallocating those resources to local facilities. In fact, the Council's own consultation on North Harbour Stadium's future suggests that *reinvesting in community sports facilities* on the Shore is a likely outcome of downsizing the big stadium. I strongly support the idea that if Albany's stadium is removed or sold, **the North Shore should get that value back in the form of upgraded local venues**. A redeveloped Onewa Domain arena, co-located with netball, rugby, athletics, etc., would create an amazing central sports hub for our community. It would breathe new life into the domain, especially if it's designed as a multi-purpose venue (e.g. usable for school athletics meets, community events, maybe concerts or festivals, in addition to rugby). This kind of multi-use upgrade could be transformational for local sport and recreation. Does Auckland still need a test cricket venue?

Creating a Connected, Vibrant Precinct

My vision – which I know is shared by many locals – is for the A.F. Thomas Park redevelopment and Onewa Domain to together form a **cohesive, vibrant recreational precinct**. We've already discussed the physical connections (overbridges and paths) and the sports facilities. Equally important is making the precinct a place where **everyone in the community wants to visit**, not just those involved in organized sport. The new A.F. Thomas Park, aside from its wetland function, will have plenty of open space available for recreation when it's not flooded. We should be imaginative and inclusive in planning what can go on that land. **Think of it as a blank canvas** to provide recreational opportunities that complement the structured sports next door. For example, here are a few ideas for attractions and activities that could be introduced:

- **Off-Leash Dog Park:** An area dedicated to dog exercise and socialization. Dog parks are hugely popular with residents, and currently there isn't an abundance of safe off-leash areas in our part of the Shore. This would draw dog owners daily, making the park lively even on weekdays. Hopefully this keeps the dogs off the sports fields at Onewa Domain, a constant issue.
- **Frisbee Golf Course:** A disc golf course weaving through the park would be a low-cost, low-impact addition that offers fun for all ages. Disc golf (also known

as frisbee golf) is growing in popularity, and it encourages people to enjoy the park's open areas in a casual, family-friendly way.

- **Botanical Gardens or Nature Trail:** Given the wetlands and proximity to Smith's Bush, we could create a small botanical garden section or at least well-landscaped walking trails with native plantings. Perhaps even a **canopy walkway** or elevated boardwalk through parts of Smith's Bush could be developed in partnership with conservation groups. This would provide an educational aspect (people learning about native flora and fauna) and a tranquil space for those who want a peaceful stroll. It could become a real point of pride for the area, as an attraction in its own right.

These are just a few possibilities – the key idea is to **broaden the park's appeal** beyond the traditional uses. A.F. Thomas Park can offer something for everyone: sports fields and courts for athletes, play areas for kids, dog areas for pet lovers, walking/cycling paths for commuters and exercisers, and green refuge for nature enthusiasts. On the North Shore we are blessed with beaches and bush, but we don't really have a large, central multi-purpose park of this kind. This project could change that. I'd love to see our community get a **destination park** that combines environmental restoration (the wetland), active recreation, and community gathering spaces. Done right, it will be a park people visit from all over the Shore – not just for a specific game or event, but to spend an afternoon picnicking, exploring, and having fun. It can truly be something special that we all cherish.

Engage Local Stakeholders and Conclusion

Finally, I want to emphasise the importance of **consulting local stakeholders** in this process. I've shared my personal ideas, but there are experts and user groups who should absolutely have direct input. In particular, I encourage the Council and Local Board to speak with **Lynette Brady of Netball North Harbour** to understand the netball community's needs – she can provide data on participation growth, court usage, and what they require to thrive (be it more courts, better facilities, or safer access). The **Takapuna District Cricket Club** should also be closely involved in any discussion of relocating or merging facilities; their perspective on how any changes might affect cricket will be vital to ensure that sport remains healthy on the Shore. Likewise, the rugby and athletics clubs based at Onewa Domain, and even groups like the **North Harbour Rugby Union**, North Harbour Basketball (who use Eventfinda Stadium), and the **Awataha Marae** nearby, all have a stake in how this precinct develops. The good news is that many of these conversations are already happening – I've read that stakeholders like Eventfinda Stadium and various sports organizations have been engaged in brainstorming ideas for A.F. Thomas Park's future. Let's keep that collaborative spirit going. By working together with the people who use these facilities, we can ensure the final plan is well-rounded and enjoys broad support.

In conclusion, I want to voice my **strong support for an ambitious, community-centred redevelopment** of A.F. Thomas Park in conjunction with improvements to Onewa Domain. This is a rare chance to solve long-standing issues (like flooding and the dangerous road crossing) and to create new value for the community. I've lived in this area for many years, and I care deeply about its future. I can genuinely say this consultation has sparked hope and excitement – the ideas on the table could genuinely enhance our quality of life. We have the opportunity to create a **resilient, welcoming and multi-faceted open space** that serves current and future generations. I urge the Council to be bold and think holistically: invest in the connections (like the overpass and pathways), invest in the sports and recreation facilities (netball courts, small stadium, etc.), and invest in the little touches that make parks enjoyable (like dog areas and gardens). A.F. Thomas Park and Onewa Domain, together, can become the crown jewel of the North Shore's park network – a place where sport, nature, and community spirit come together.

Thank you for considering my submission. I am a proud local, and I'm excited to continue being involved as this project moves forward. Let's make this precinct something truly special that we can all be proud of.

Sincerely,
[redacted] – A local resident who cares about the North Shore community and its parks.

   From my research, there are approximately 230 rugby union fields across the region; 400+ football fields and somewhere between 150-200 cricket wickets.

   There are just two public golf courses, and both are under threat.

   The inequities are clear and apparent.

   Not only does public golf lack clear facilities, the golf operator at Takapuna pays commercial rent and a considerable sum each year to maintain public land. On the other hand, just across the road, both Takapuna Cricket Club and Takapuna Rugby pay $1 peppercorn rental AND have their “course” prepared at the cost of the ratepayer, not at the cost of the lessee.

   There is literally nowhere for junior or novice golfers to play. They cannot join a local club as all are full. Moreover, they cannot pay green fees at local clubs, because there is no room anywhere (they are all full, particularly Waitemata), and junior or novice players find such courses intimidating. Golf at Takapuna is perfect for people starting out in the game.

The Takapuna Golf Course has shown consistent numbers and demand for more than 20+ years; it would therefore be remiss of council to decide that won't be able to continue for the next 20 years. Indeed, demand is likely to only increase, not lessen.
Council has not had to fund public golf at A F Thomas Park for 20 years – the model has shown it can work. If you give the current lessee a further 30 years (10x10x10) it can be self-funded over the term of the lease, in the same way it has already.

4. **What type of golf would you most like to see provided at the park?**
   18-hole beginner/intermediate golf course (approx. 54-60 par),12-hole beginner/intermediate golf course (approx. 36-40 par),Driving range,Short-game practice area / putting green

7. **Which Park lease approach would you prefer?**
   Lease all land to commercial operators

   Tell us Why
   I cannot think of any reason why the current operators cannot be given further lease terms. They have been an excellent tenant, and turned the golf course around from it previously being a swamp or bog. They have invested millions of dollars and provided a facility for the public at an affordable rate, and with a community attitude. I am very much against large-scale businesses such as the Golf Warehouse making a commercial profit for their desired expanding empire on public land. That should not happen. Leases should be offered to those with a proven track record of delivering a facility for the public and for the community, and Takapuna Golf offers this.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   I simply want to reiterate the points I made at the start of this submission.

   There are hundreds of rugby fields, football fields and cricket wickets across the region.

   There are just two public golf courses.

   Takapuna Golf caters for 100,000 users per annum. These people are displaced if public golf does not continue at the park.

   There are patent sporting inequities that would worsen if public golf did not continue at the park.

   There is literally nowhere for junior or novice golfers to play. They cannot join a local club as all are full. Moreover, they cannot pay green fees at local clubs, because there is no room

anywhere (they are all full, particularly Waitemata), and junior or novice players find such courses intimidating. Golf at Takapuna is perfect for people starting out in the game.

The Takapuna Golf Course has shown consistent numbers and demand for more than 20+ years; it would therefore be remiss of council to decide that won't be able to continue for the next 20 years. Indeed, demand is likely to only increase, not lessen.

   Golf is limited and takes up a lot of land. Better to balance things.

4. **What type of golf would you most like to see provided at the park?**
   9-hole traditional golf course (35-36 par)

5. **What other type of recreation would you most like to see provided at the park?**
   Indoor sports courts (e.g. basketball, netball, badminton, gymnastics),Nature play / playground,Open space / picnic area,Outdoor sports courts (e.g. basketball, netball, pickleball)

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**
   Nature - protecting or enhancing the natural environment for people and wildlife,Open space - space for free play and relaxation

7. **Which Park lease approach would you prefer?**

Lease some land and keep some under Council control

Tell us Why
In theory leasing some land sounds acceptable and a way forward in terms of funding. Would want assurance that this isn't going to limit access to other areas etc.

2. **How often do you use the park?**
   Once or twice a week

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly golf with limited other recreation uses

   Tell us Why
   It is the only public golf course on the North Shore. It is a place we have enjoyed as a family and it would be a shame to see it go.

4. **What type of golf would you most like to see provided at the park?**
   18-hole beginner/intermediate golf course (approx. 54-60 par)

5. **What other type of recreation would you most like to see provided at the park?**
   None of the above

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

Your feedback

1. **How do you or your household currently use the park?**
   Walk / run in or around the park,Play golf at the golf course,Use the golf driving range

2. **How often do you use the park?**
   Other, please specify: The golf course I use probably once a month. The driving range I would use weekly to every 10 days

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly golf with limited other recreation uses

   Tell us Why

   It's an 18 hole public golf course on the North Shore that also provides great park like surroundings with trees of significant variety.

   The talk of the flooding in the Milford area is nothing new with Nile Road constantly being under water well before the big flood of 2023.

   The death of an individual on the stormwater system off Wairu Road was likely caused by doing something unsafe in a canoe/kayak and this shouldn't influence the outcome of the golf course and its other facilities.
   If any storm water retention has to be constructed I personally believe that it can be done in a way to maintain the golf course and the entire park with the stormwater also incorporated.

4. **What type of golf would you most like to see provided at the park?**

   18-hole beginner/intermediate golf course (approx. 54-60 par),Driving range,Short-game practice area / putting green,Other, please specify: I would be very disappointed not to have the 70-72 par, otherwise 54-60 would have to be the minimum

5. **What other type of recreation would you most like to see provided at the park?**

   None of the above

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Affordability - providing low-cost or free activities,Nature - protecting or enhancing the natural environment for people and wildlife,Safety - providing a safe environment for play, sport, and relaxation

7. **Which Park lease approach would you prefer?**

   Lease some land and keep some under Council control

   Tell us Why

   What we currently have has worked well, though open to consultation

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Personally I would like to see a full 18 hole 70-72 par golf course remain.

   I am certain that any stormwater retention can be incorporated within the existing course and meet the needs of flood water.
   The idea of BMX tracks and archery all sound good but the golf course has been and is regknow and well received by non locals and international tourist

   Keep all land under Council control

   Tell us Why

   Council land provides much needed community spaces and facilities, we don't need more private construction and developments that either fall over or big buildings that sit empty due to overseas owners not caring about the community they build in. We need places for families to enjoy, indoor facilities for events, sports and things to encourage an engaged community.

7. **Which Park lease approach would you prefer?**
   Lease some land and keep some under Council control

   Tell us Why
   Leasing some of the land will give the opportunity for private operators to develop new activities more quickly than Council can provide. However some (most) of the land should remain in Council control and provide free public access.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   Essential to retain public access as well as protecting existing users.

   Tell us Why
   I think golf is really limited to a small and older audience and there is already a huge golf course near Devonport. The park should cater to a much broader audience for the area and it certainly shouldn't lose the gymnastics centre, which has supported decades of youth growing up healthy in the area.

   Tell us Why

   believe this land should become a place for everyone, not just a small group of golfers. This is one of the last big open green spaces in one of Auckland's busiest, fastest-growing areas, and it feels like such a wasted opportunity that most people can't enjoy it. Every time I pass the site, I see a huge, beautiful, green landscape—but almost nobody is actually allowed to be in it. It feels closed off, exclusive, and out of reach.

   The North Shore is changing. Families are living in apartments, young people are growing up without backyards, new migrants are arriving and looking for places to gather and belong. We need spaces that feel welcoming, inclusive, and alive—places where children can play, where neighbours can meet, where older people can walk safely, and where the community can connect with nature.

   Keeping a small amount of golf is fine, but this land should no longer be dominated by a single activity that most people will never use. Apark filled with walking and cycling paths, playgrounds, community gardens, open lawns, sports courts, trees and wetlands would bring

life, joy and connection to thousands of people every single day. It would become a heart for the community, not a fenced-off space reserved for a few.
I want this space to reflect the future of Auckland—open, fair, welcoming, and shared by all.

4. **What type of golf would you most like to see provided at the park?**

5. **What other type of recreation would you most like to see provided at the park?**
   Nature play / playground,Off-leash dog exercise area,Open space / picnic area,Space to hold events (e.g. community markets, festivals or concerts),Walking / cycling tracks

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**
   Equity/Inclusion - a diverse range of experiences the whole community can enjoy,Nature - protecting or enhancing the natural environment for people and wildlife,Open space - space for free play and relaxation,Productive land use - using parts of the park for food growing or other resources,Resilience - supporting flood protection and climate adaptation

7. **Which Park lease approach would you prefer?**
   Lease some land and keep some under Council control

   Tell us Why

   I believe this option gives the community the best of both worlds. We keep the heart of the park public, open, and controlled by the Council—so it remains a space for everyone, not just for profit. At the same time, leasing some parts allows the Council to partner with operators who can run specialised facilities, maintain high-quality amenities, and bring in steady revenue without sacrificing public ownership of the whole site.

   This land is too important to hand over fully to commercial interests, but it is also too valuable to be locked into a single use. A balanced approach means the park can evolve, stay financially sustainable, and serve many different groups—families, youth, cyclists, walkers, and golfers—while keeping its core purpose rooted in community benefit.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   A.F. Thomas Park has the potential to become one of the most loved and inclusive green spaces on the North Shore. As our communities grow and more people live in apartments or townhouses, accessible public spaces become essential for wellbeing, connection, and a sense of belonging. I would love to see the park transformed into a place that feels alive every day—full of families, young people, seniors, dog walkers, cyclists, and neighbours simply enjoying being outdoors.

   More walking and cycling paths, shaded seating, playgrounds, courts, open lawns and naturalised areas would create a park that reflects the way people actually live today. Spaces

that encourage community gathering—picnic areas, social sports areas, safe lighting and intuitive design—would help this park become a true community anchor rather than just an open field.

I hope the redevelopment prioritises inclusivity, safety, and year-round usability. A.F. Thomas Park has an opportunity to be a vibrant, uplifting green heart for the neighbourhood, and I fully support changes that make it a space for everyone.

   Tell us Why

   It's important that people have space to enjoy their game. It's so popular for a reason. People need that game. There's lots of parks, but not many golf courses.
   Eventfinda is an important home for school kids to play NZ's fastest growing sport and it would be a huge shame to lose that venue. It should be reopened to host more events like concerts again. Council really stuffed up by ceasing concerts there.

4. **What type of golf would you most like to see provided at the park?**
   18-hole beginner/intermediate golf course (approx. 54-60 par)

5. **What other type of recreation would you most like to see provided at the park?**
   BMX pump track / skate park / other wheeled play,Indoor sports courts (e.g. basketball, netball, badminton, gymnastics),Nature play / playground,Open space / picnic area,Outdoor sports courts (e.g. basketball, netball, pickleball)

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Organised recreation - space for organised sport or clubs

7. **Which Park lease approach would you prefer?**

   Keep all land under Council control

   Tell us Why

   Commercial operators will always stuff it up somehow.

   I hope that the park remains a golfing location. This is one of the few affordable golfing locations in Auckland regarding the course and the driving range. From what I see, the location is not underutilized at all, with a large number of people consistently enjoying the grounds.

   It is important that an affordable golf option is available to the public for casual players.

   Retain the park as a golf course as there are many other recreational areas for other activities on the North Shore. Minimal infrastructure change
   The council receives revenue from the golf course rates plus lease

   This is a highly central location that could support a wide range of recreational facilities. With the nearby netball centre and Eventfinda Stadium already at capacity, and cricket, athletics, and rugby clubs close by, it seems logical to consider a combination of recreational uses. Golf is valuable, but it occupies a large amount of space for an activity enjoyed by relatively few people.

   we need it - Auckland is being taken over by housing, Council NOT taking THAT into account - looking at existing drainage, STOP building multi complex housing when there is no infrastructure to cope - schools, storm water, parking etc, etc. THIS is the major contributor.

4. **What type of golf would you most like to see provided at the park?**
   12-hole beginner/intermediate golf course (approx. 36-40 par)

5. **What other type of recreation would you most like to see provided at the park?**

   After school activities at Eventfinda are incredibly important to our school communities for creating a sense of pride in playing sport for your own school.
   It would be a huge pity if this was lost simply to provide a bigger golf course to the minority that use them.

   Tell us Why

   There are a wide range of golf courses in this general area already but there is not the sports facilities we need for the kids to do gymnastcs and play basketball. The basketball community is HUGE and growing each day - we have outgrown these facilities which are tired and in bad need of repair. If we do not have suitable facilities on the Shore our kids will be forced to join other clubs perhaps in different parts of Auckland.

   Given there is another Golf course no more than 10 mins away from this one, a reduced golf course seems ok, and allowing more space for other sports. EXTENDING EVENTFINDER STADIUM would be ideal as there aren't enough larger 9+ court gyms in Auckland, with the only really being Bruce Pullman in takanini.

   My son and daughter did gymnastics at North Harbour stadium for years and my daughter (then aged 6) was present in a holiday programme the day it flooded. I managed to pick her up early enough but other children had to be carried out of the building to their parents. The gymnastics club has been a mainstay of the community for a very long time and the only other options are some distance away in Albany. There are precious few public facilities in the Takapuna/Glenfield area and they aren't well sized for the huge population they serve. I'd hate to see North Harbour Stadium offloaded in favour of golf - while I understand that the course has a long proud history and this area desperately needs to retain its green spaces, the course could still exist on a smaller footprint as 9 holes, and there are very many more options for golf around the area than there are for basketball and gymnastics! I also want to see the flood mitigations made to this area. I'd like to see much more future proofing and beautiful designs that will stand the test of time.

   Huge cost to council in managing/oversight of a number of operations, when operators e.g. a gymnastic club can manage the leased facility well by themselves.

   Think big! Think of young people, families, and what the wider community and population needs. Don't be influenced by the pressure and scare-mongering of one financially and socially privileged, vocal older group.

   Having space for indoor sport is fantastic especially in winter and is an easier more accessible space for families as golf is an expensive sport not many children have the means to play or get involved in regularly. Having a walking track and more basketball facilities since basketball is such a growing sport in nz would be great. Maybe the kids wouldn't have to split their games across three separate venues!!

2. **How often do you use the park?**
   Once or twice a month

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   A balanced mix of golf and other recreation uses

   Tell us Why
   It seems that a 9 hole golf course, wetland and new indoor stadium would be a great mixed use plan for the area.

4. **What type of golf would you most like to see provided at the park?**
   12-hole beginner/intermediate golf course (approx. 36-40 par),9-hole traditional golf course (35-36 par)

5. **What other type of recreation would you most like to see provided at the park?**
   Indoor sports courts (e.g. basketball, netball, badminton, gymnastics),Outdoor sports courts (e.g. basketball, netball, pickleball)

   Organised recreation - space for organised sport or clubs,Resilience - supporting flood protection and climate adaptation

7. **Which Park lease approach would you prefer?**
   Lease all land to commercial operators

   Tell us Why
   I think having high quality facilities available faster is the most appealing option

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   I just really want the home of basketball on the north shore to live on!

2. **How often do you use the park?**
   Once or twice a week

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly golf with limited other recreation uses

   Tell us Why
   Golf is a very popular sport available to a wide range of ages. The price to play/practice is prohibitive for beginners and younger people at most area golf clubs on the north shore. This course is the only place where beginners can go develop within the sport. So keeping it primarily golf, but creating spaces for more accessiblity to indoor sports like basketball, which is very under resourced facility wise, would be the best use for this space.

4. **What type of golf would you most like to see provided at the park?**
   18-hole beginner/intermediate golf course (approx. 54-60 par),Other, please specify: A facility like Top Golf would be a good driving range option.

5. **What other type of recreation would you most like to see provided at the park?**
   Indoor sports courts (e.g. basketball, netball, badminton, gymnastics),Outdoor sports courts (e.g. basketball, netball, pickleball)

7. **Which Park lease approach would you prefer?**

   Lease some land and keep some under Council control

   Tell us Why

   Going commercial would take away any community say. Council is not equipped to appropriately fund most of it's responsibilities and our callous mayor will exacerbate that problem. So a combination where Council has approval rights would be ideal.

   Indoor sports are poorly catered for in Auckland, with many suboptimal facilities needing to be used to accommodate games, including courts that are not full size, old and in poor condition, and games are forced to be played in times that are inappropriate for some younger ages. It is vital that indoor sports continue to be provided for in the park, preferably with expanded capacity.

   I think it is really important to have an indoor facilities like that because schools aren't always able to offer a place for kids to play games and by having the gym it means 1000s of people are able to stay fit and healthy. And this is the worst time to get rid of it as the participation rates of people in sport are going down so we should be doing everything we can to help increase it.

   The golf course is an integrated part of the community and would be a shame to lose it. Eventfinda is the best for-purpose stadium in easy driving distance for North Shore residents. I'm sure stats on the number of users per week would support the need for facilities of that nature to remain available to the community.

   Tell us Why

   It's important that the community is able to adapt with flexible decision making in the future, so having a mix of council owned land and leased land means we can get the critical regular use facilities sorted quicker without unnecessary disruption to sports offerings.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   I hope we can keep future generations the priority here. Disabling sporting amenities that are used by schools across the North Shore will disincentivise parents from signing kids up to participate.

   Keep eventfinder. It’s used by so many kids for Basketball. Also great to have some sort of indoor venue for other things ie music and sports. 9 hole golf and use some land for kids stuff ie skate/bike outdoor bball,. Have overseas designs for the area re skate/bike outdoor bball. We suck at it in NZ and just waste money on bad skateparks and bike tracks. The bowling club and youth building next to it never get used.

2. **How often do you use the park?**
   I don't use the park

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly other recreation uses with limited golf facilities

   Tell us Why
   I would see this a great opportunity for North Shore to establish a park for the wider community not just golf users. North shore has 3 other golf courses available to use for golf enthusiasts. This is the list of the other three courses: Waitemata Golf Club, Pupuke Golf Course, North Shore Golf Club. However there is no main park that people leaving or visiting North Shore can use. Auckland City has many parks that can be used by the wider community, but nothing in North Shore. This park should be used for walking, basketball courts (minimum 2), small skate park, Pickleball (minimum 2)

4. **What type of golf would you most like to see provided at the park?**
   None of the above

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   A balanced mix of golf and other recreation uses

   Tell us Why
   I prefer a balanced mix because it allows indoor sport facilities like Eventfinda Stadium to be upgraded and protected from future flooding, while still keeping golf available for those in the community who value it. This option provides space for both high-demand indoor sports and continued golf use, creating a fair and flexible recreation area that benefits the widest range of people.

   Connectivity - walking and cycling connections through the park that link with the wider community,Heritage - highlighting local Māori culture,Nature - protecting or enhancing the natural environment for people and wildlife,Organised recreation - space for organised sport or clubs,Resilience - supporting flood protection and climate adaptation

7. **Which Park lease approach would you prefer?**

   Lease some land and keep some under Council control

   Tell us Why

   I prefer a mix of council-controlled land and leased areas because it provides the best balance between community access and the ability to deliver high-quality recreation facilities sooner. Indoor sports like basketball and gymnastics urgently need modern, flood-resilient facilities, and leasing part of the land can enable faster investment without relying solely on council funding. At the same time, keeping some land under council control protects open access for the wider community and ensures activities like golf remain affordable and inclusive. This approach supports both community use and timely delivery of improved facilities.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   I would like to see future planning prioritise flood-resilient indoor sport facilities, as they serve a wide range of users year-round, especially young people. At the same time, it's important that the park continues to offer open spaces and recreational options like golf for the wider community. A well-designed mix will create a safer, more versatile park that benefits everyone.

   Tell us Why

   I am in my 65th year with Harbour Basketball having been involved since 1965 originally as a player, an administrator, and now as a referee.

   Weekly I referee up to 7 days from Primary School to adults, and so I see and meet almost all players, parents, grandparents, and administrators, plus I meet many spectators likewise, etc.

   But unfortunately there are just nowhere near enough facilities to cater for basketball, including spectator seating, being the biggest sport in NZ schools now, plus the second largest sport in the world after soccer.

   So the time is nigh for the council to take this situation SERIOUSLY as basketball is an all year-round indoor sport, in a safe environment where parents really enjoy taking their children too so much, and where the children and adult players get so, so much out of playing basketball.

   Currently our junior primary and intermediate school game length times have to be reduced to fit in the growing number of teams, but this cannot continue, and we MUST have more facilities.

Therefore, to reiterate, I strongly insist that the Council look SERIOUSLY to provide many more facilities to cater for the growth of basketball.

Thank you.

   The golf course and range should be public and be be maintained by Council contractors. The pro shop and cafe could be leased.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   The golf course should be of a standard to meet NZ Golf's affiliation criteria and to be part of NZ's Dot Golf handicapping system. Cycle/walking tracks could be incorporated into the wetlands area.

   Tell us Why
   Golf needs more space than it justifies for the small community that uses it, compared to indoor court sports and to other recreational uses of large city greenspace. This is one of the biggest greenspaces available in the North Shore and one of the most accessible for a lot of the people. Wasting huge tracts of it on a golf course is short-sighted and panders to a limited part of the population.

7. **Which Park lease approach would you prefer?**

   Keep all land under Council control

   Tell us Why

   Nobody profits off generosity and nor should they need to. Using the park for recreation doesn't need to be expensive. If it takes time to pay for accruing community-centred facilities that the community uses and wants, so be it. Better than being trapped in a commercially-controlled waste of time that nobody cares for.

   As it is leased to Takapuna Golf Course the Council benefit from revenue by rental income and pay very little or no expenses for maintenance costs as these are borne by the TGC.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   Wairau in Maori means many waters. The Wairau valley should have always been left free to run its natural course unimpeded by man made structures. The Fred Thomas land was designated a golf course. It should remain so in perpetuity. The number of golfers would far out way the number of recreational users per year This community facility conversion to some other recreation would be detrimental for the game of golf and to the actual ground. There are many other parks on the North Shore with wide ranges of activity facilities. TGC is the only true public course. Others have a membership structure and several have no room left available for junior membership. Anyone can play at any other golf course at a price and time availability. For many people unaffordable on a regular basis and prohibitive for juniors. Takapuna is available for all ages at a reasonable cost. My 7 year old grandson first picked up a club aged 2 1/2 years. He practices on our lawn and goes regularly to the driving range. His wish is to become proficient to enjoy the game. I hope he can continue to his 90s like another I know. I have no idea why the Council want wetlands when you're trying to eliminate the water problem. Wetlands are likely to create more problems allowing algae growth, midges, mosquitoes, rats, sediment accumulation and weeds, both which can block inlets and outlets and oxygen depletion would require more oxygenation. All this adds to Council costs and resources. Any underlying basalt rock is surely a concern for the cost of the project. And where would it go? I suggest the Council and local community board support the TGC proposal for a series of low detention basins to accommodate water when required as other golf courses around the world have adopted. Surely this is the most cost effective and least disruptive option.

   Having an 18 hole golf course available for public use in the middle of the city at a reasonable price is a great bonus for Tamaki Makaurau. With the cost of living rising, golf membership and green fee's at many courses in the Greater Auckland region is beginning to be out of reach for the average Aucklander. I would love to see this park remain as an 18 hole golf course.

   RE: This means a traditional 18-hole course (70-72 par) is unlikely to fit but other golf options could be provided in the space available.
   I believe you could still design a 18 hole course as well as catering for the storm water overflow and wetland areas.

   I am writing to request that the basketball and gym facilities be incorporated in the redesigned park. My 8 year old daughter plays basketball, and the Eventfinda courts are our preferred option of all of the courts her team plays at - wonderful viewing platforms, space for the small siblings to zoom and very accessible. Both of my daughters also loved the NHG gym as preschoolers. Being able to watch the city basketball games as a family has also been wonderful for us.
   These facilities are part of why we enjoy living in the area and would be missed by many families we know for these reasons.

Your feedback

1. **How do you or your household currently use the park?**
   Play golf at the golf course

2. **How often do you use the park?**
   Less than once a month

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly golf with limited other recreation uses

   Tell us Why
   There's literally a massive rugby and cricket field with adjoining netball courts next to the park in northcote road. Why would there need to be more park area? Furthermore in the wairau side, mcfetridge park is walking distance. Just leave the golf course as an 18 hole course and fix drainage where required.

4. **What type of golf would you most like to see provided at the park?**
   18-hole beginner/intermediate golf course (approx. 54-60 par),Driving range

5. **What other type of recreation would you most like to see provided at the park?**
   None of the above

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**
   Nature - protecting or enhancing the natural environment for people and wildlife

7. **Which Park lease approach would you prefer?**
   Keep all land under Council control

   Tell us Why
   Clearly the current arrangement with an 18 hole golf course works. Cutting that back or selling off will have unknown results. Why change a working model?

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   Just leave it as an 18 hole course with changes as per the golf courses suggestions.

1. **How do you or your household currently use the park?**
   Play golf at the golf course,Use the golf driving range

2. **How often do you use the park?**
   Once or twice a week

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Other

   Tell us Why

   Maintain the current 18 hole golf course.

   1. The course offers and extremely good design for all levels of golfers.

   2. There is no other council run golf course on the North Shore

   3. Pricing allows for low socio-economic groups to afford to play

   4. Current quantity of players ie. numbers is extremely high - the course is well patronised

4. **What type of golf would you most like to see provided at the park?**
   Other, please specify: .None, maintain the current 18 hold golf course layout- clear and brilliant design offering golf to all. The course currently and in effect offers a wetland as in inclement weather it is the only course playable. It drains very effciently anyway with no other effect

5. **What other type of recreation would you most like to see provided at the park?**

   Archery,Lawn bowls,Nature play / playground,Open space / picnic area,Outdoor sports courts (e.g. basketball, netball, pickleball),Space to hold events (e.g. community markets, festivals or concerts),Other, please specify: . Utilize unused space that currently exists to offers options ticked

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Affordability - providing low-cost or free activities,Nature - protecting or enhancing the natural environment for people and wildlife,Open space - space for free play and relaxation,Resilience - supporting flood protection and climate adaptation,Safety - providing a safe environment for play, sport, and relaxation,Other - please specify: Current golf course offers all this and oculd be further adapted to capture stormwater/excess rainfall thereby reducing flooding in local area

7. **Which Park lease approach would you prefer?**

   Other

   Tell us Why

   Maintain current 18 hold golf course layout - Council could be operator. Current layout is excellent. The course could be adapted by widening existing streams and ponds/lakes and creating additional water hazards which could accommodate Wairau Valley etc flooding alleviating requirements

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   It is ironic with water surrounding Auckland there is thought about creating more water (wetland) within the land mass
   Direct excess water to the sea through channels

   Public golf options in Ak are very limited .

   Golf balances the other sporting recreation in this location.
   Golf land can act as a form of swale and also be used to assist stormwater soakage and detention - as multiple use

4. **What type of golf would you most like to see provided at the park?**
   12-hole beginner/intermediate golf course (approx. 36-40 par),9-hole traditional golf course (35-36 par),Driving range,Short-game practice area / putting green

   Affordability - providing low-cost or free activities,Connectivity - walking and cycling connections through the park that link with the wider community,Open space - space for free play and relaxation

7. **Which Park lease approach would you prefer?**

   Lease all land to commercial operators

   Tell us Why

   Council has a poor record of managing and maintaining reserve land.
   The Golf lease for over more than 40 years has maintained the area and serviced the public well.
   A continued lease of the land for Golf facilities is the best answer.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   The land being taken for the detention ponds is very unlikely to service the needs downstream and will be a nightmare for Council to retain and maintain in a safe and environmentally compliant manner.

   There is a fundamental issue with the Milford outflow and its unfortunate Healthy Waters have not consulted on the broader range of options ahead of making this decision to use AF Thomas as the holding detention lagoon. Better big picture master planning for the whole area including re zoning of the park and surrounding neighborhoods should have been options to explore and consult on more widely.
   This is a very short term , narrow minded decision with little appreciation of what's next.

   I think it is important that this space be utilised to protect the community from flooding events, but there is still opportunity for recreational uses with both a smaller golf facility, along with the Eventfinda Stadium. The North Shore has limited stadiums and it would be a shame to lose this venue.

   My Daughter and Son and their friends enjoy paying basketball at event finder stadium. My daughter also does gymnastics at event finder. I believe basketball is growing and we are concerned that if another weather event were to happen and the existing stadium damaged then oppuruntinities for our children would be closed. This would have a significant impact. We currently have a very strong sporting quite availble to us on the north shore which bring tremendous pride to the community and our youth. Please expand this capability so that future generations are not constrained by limited facilities.

   The Development of enhanced faciliites would provide the community with an oppurtunity that other communities are jealous of.
   Already Netball struggles with the parking at the outdoor venue. This could be an amazing oppurtunity to truly develop a massive multisport complex for netball basketball even badminton volleyball. with fantastic parking (the building could be built above a carpark to provide flood protection).

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   While funding may not be available now planning for the future should be undertaken so that resources are not squandered on short term gain but rather on a future starte that the community would be immensely proud of and provide lasting benefits to the community.

Your feedback

1. **How do you or your household currently use the park?**
   Play sport at Eventfinda Stadium,Attend events at Eventfinda Stadium

2. **How often do you use the park?**
   Once or twice a week

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   A balanced mix of golf and other recreation uses

   Tell us Why
   It would be nice to have a large recreational space to play, have bbqs etc And also to keep the sports arena that we have, we have been using the gymnastics facilities for 4 years and don't want to have to move to another facility, especially with it being so close

4. **What type of golf would you most like to see provided at the park?**
   Other, please specify: I actually don't care about the golf, but I think access to a course should still be provided as it is a public course, which makes it more accessible

5. **What other type of recreation would you most like to see provided at the park?**
   BMX pump track / skate park / other wheeled play,Indoor sports courts (e.g. basketball, netball, badminton, gymnastics),Nature play / playground,Outdoor sports courts (e.g. basketball, netball, pickleball),Space to hold events (e.g. community markets, festivals or concerts)

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Affordability - providing low-cost or free activities,Nature - protecting or enhancing the natural environment for people and wildlife,Productive land use - using parts of the park for food growing or other resources,Resilience - supporting flood protection and climate adaptation,Safety - providing a safe environment for play, sport, and relaxation

7. **Which Park lease approach would you prefer?**

   Keep all land under Council control

   Tell us Why

   I know it will take longer for funding but I think it's in everyone's best interest if it is kept under council control, that way we all have a say in what happens to it

   I think having a more diverse sport community in the local area will help form a better community and future growth for the area bringing in new players for other sports and giving locals something new to join in with considering the venue is only used for golf with limited space for others it doesn't really build a community. With future storm water plans in place it would be great to see some water spaces added for walking and for water based sports such as canoe polo as it would give that group the ability to host world league games brining in international players into the area and venue where they could spend time and money at the other sports while in the country because of this sport

   I think it is critical to provide the community with sporting and outdoor facilities. This is an area that has experienced dramatic intensification over the past few years, with many people not having a garden or area of any description to play in. Community sports, parklands and events is an important aspect of this community.

   Tell us Why

   We have sold off so much of our community land to private enterprises. Ensuring at least some of it is held within Council ensures ownership continues. The key to success is in the Council managing these resources effectively.

   As density increases, the need for public recreation spaces that can be enjoyed by ALL local residents is the most important thing. Golf is awesome but not a priority given the number of other golf courses available in Auckland. It's also not the most inclusive use of the space for all residents.

4. **What type of golf would you most like to see provided at the park?**
   Pitch and putt golf course

5. **What other type of recreation would you most like to see provided at the park?**

   Tell us Why

   It feels like the best approach to protect future development in the interest of residents.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Absolute priority should be spongey flooding protection. Where there IS hard packed built spaces, I'd love to see a similar approach to wynyard quarter's development with innovative water management solutions and rain gardens.

   After living in the area for 10 years and using many of the park's facilities, the glaring thing that is missing is a walkable/runnable/cyclable track around the perimeter of the park, linking Northcote Rd, Jessmae Place, Terrylyn Drive and the Event Centre (and including the motorway side to make a long circuit).

   Many children including ours have walked through the Northcote Road carpark from Jessmae Place to get to Takapuna Normal Intermediate School. Intermediate children would benefit after school if there was a path to the Events centre. Older kids from the Westlake High Schools and Carmel College walk through the Event Centre carpark every morning and afternoon. We have never been able to understand why there were not paths to help encourage walking and biking to these schools.
   The Shore is desperately short of flat safe paths for running and riding bikes. We see people every day taking children 'around the lake' or down Akoranga Drive/Esmonde Rd which is great for more confident kids but includes many intersections and busy traffic. A long flat path would be a big asset and heavily used.

   Please make an allocated space for event fina statidum for gymnastics and basketball. for basketball, Over 4,500 registered players from the Shore participate in Basketball every week, and there are 7,500 basketball members. For gymnastics, North Harbour Gymnastics sees well over 1,000 shore kids every week, and there are 2,500 gymnastic memebers. and there are at least 400,000 visits to the eventfinda stadium each year. i swear to god if you council members dont make a ********** allocated space for this stadium, you lot are probably the worst ********** council ever.

   Lease all land to commercial operators

Tell us Why

It maintains its function as a public golf course, offers numerous benefits to the general public at a low cost, maximizes land use, and continues to provide stable revenue to the city hall. Furthermore, it significantly contributes to the local economy through job creation and investment. Therefore, I believe it is appropriate to maintain the current operating rights in the hands of a private operator.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

Thomas Park has been used as a golf course for over 100 years. Its flat, accessible green space in the heart of the city offers ideal conditions for a golf course.

It is a valuable asset, enjoyed by many people all day, every day, year-round.

Efficient use of the park provides significant revenue to the city and contributes to the national economy.
Golf is more than just a sport; it has a positive impact on both physical and mental health.

   Tell us Why
   Golf courses are an important for a community. As populations grow and land becomes scarce, it is easy to look at golf courses as a solution to increase available land for development. Golf is a game that all ages can play together. It is good for health, mental wellbeing and a great way to meet new people

   Nature - protecting or enhancing the natural environment for people and wildlife

7. **Which Park lease approach would you prefer?**
   Keep all land under Council control

   Tell us Why
   Leasing to independent contractors does not mean a better value product. Councils are held accountable to the people who elected them into office. If they don't deliver what the people want, they are voted out. Long term leases only increase the costs to the community to access the facilities

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   Keep it the way it is. It is a golf course designed for the community. The flood zone, has always been there. Better planning would have mitigated the recent flooding. When you increase the number of houses and increase more paved, concrete surfaces, the water does not have the ability to seep back into the earth. The flooding is a man made problem. Instead of getting of the golf course, introduce more water features. (Man made lakes etc)When it rains the golf course can take all the extra water.

   I think keeping the existing golf course is important not just to me but the wider North Shore community as well, but the need to future proof Wairau valley from flooding has to be taken in to account, so a compromise has to be made, a mixed balanced recreational space seems the obvious answer.

   Having used the archery club in the past they could defiantly benefit from better drainage on their land.
   Nothing changes by staying the same and this proposal will mark a significant upgrade to the North Shore and all the recreation taking place on that sight.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Yes, the Council and Watercare (or whatever they are called) have been negligent in the rea of keeping stormwater drains clear...so allowing g the current Golf Course people to build some holding ponds as back up will need to be managed by them, not Council.
   This is not a once in a lifetime deal....it needs to be methodical and logical! Do not allow mature trees to be chopped and birdlife - green areas lost because you think there maybe a flood??

   I believe that the area should be opened up to as wide a section of the public as possible. I have lived in the area for 66 years and have always believed that the Park was off limits to the public, reserved only for those who play golf. This opinion is shared by most other people I know. As a result I only know one person who has used it - he played golf many years ago. It is time now. The area deserves wider attention and use.

   Protecting the environment is crucial in order for future generations to be able to enjoy the park. Green spaces are in short supply while the population is increasing, so their need is going to continue to increase. Thus we need to safeguard as many green spaces as possible and keep them within Council control so there use is free or affordable to as many citizens as possible now and in the future. This is a rare opportunity to enact many of the key objectives of Council and enhance community connection, engagement and environmental protection for generations to come.

It would be incredible to keep the North Shore Archery location as

- it's a type of recreational sport that caters to all ages (The club has a total of 200 members, aging between 9 -71 years old).

- it's a low impact sport, which caters also to all levels of fitness,

- a sport that can be done as an individual or as a team.
The club welcome both people who would like to learn archery, beginners, and professionals around New Zealand. We host weekly coaching courses for all levels as well. and importantly the club hosts both minor and major competitions throughout the year.

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly golf with limited other recreation uses

   Tell us Why
   It has been a golf course for many years. It was saved by Mayor Thomas when it was proposed to be developed as commercial property many years ago and has been a council owned public golf course open to all ever since. It is accessible and heavily used by people of all ages and from all walks of life . There is no other accessible public course on the North Shore

4. **What type of golf would you most like to see provided at the park?**
   9-hole traditional golf course (35-36 par),Other, please specify: 18 hole traditional golf course as we have at present preferred. Failing that 9 hole traditional golf course

5. **What other type of recreation would you most like to see provided at the park?**
   None of the above

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly other recreation uses with limited golf facilities

   Tell us Why
   There are so many sport shortages in Auckland, I think this park should be based on the sports facing the biggest shortages for the North Shore rather than a commercial lease. Also, eventfinda stadium is key - NHG is the only gymnastics on the North Shore.

4. **What type of golf would you most like to see provided at the park?**

7. **Which Park lease approach would you prefer?**

   Lease all land to commercial operators

   Tell us Why

   To create world class facilities this can be more readily done using commercial backing. I don't mind council keeping a vision for the facilities, but it should not be up to council to fund these.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Please keep golf as a main focus for this area. The course has been around for my whole life and was one of the main reasons I fell in love with the game and try to keep healthy because of it. Now I play there with family. There are not many courses in Auckland that joe public has the ability to get on the course any day of the week and it is a very affordable facility to use. The course and driving range seem to be very popular whenever I am driving past. It would be a shame to lose such an amazing facility because of decisions made by near sighted councilors and engineers who have been a big part in causing this drainage issue with the housing intensification and concretization of our lovely north shore.

   Tell us Why
   Mixing the use breaks the deed of gift for the land. As I understand it, AF Thomas gifted it to the people of Auckland for the primary purpose of playing golf. If that is no longer the primary purpose, then the land should probably be returned to his descendants, to use as they see fit - not used arbitrarily for whatever the council sees fit.

   There are few public courses in Auckland suitable for a casual round of golf with many club courses offering limited access. It's a great place to learn the game or to catch up with a group of friends that may not be able to keep up with the pace at a club.
   The north shore is blessed with many other spaces for other recreational activities.

   Golf has been the main stay of the property my entire adult life and provides the only true public access to the game on the North Shore and at at relativejy cheap price. It has been providing that sporting opportunity, in most cases, for far longer than the properties and facilities it is now proposed it be shut down , in order for those subsequent properties and facilities to be protecetd

   The best use for the A F Thomas park is and continues to be as a hugely popular and suceesful public golf course. There is undoubtly a feeling the community that the Council is simply ignoring the local community wishes. Handling once in 100 yeqr water flows could easily be built into golf course re design if an object review was ever actually underyaken. As with all significabt public facilities once theyre taken away they can never be replaced. The North shore does need a new Wetland --- AKA a swamp, and coupled with the admitted inability to fund any replacement facilities, a Jewell in the North Shore recreational crown will be lost forever

   In order for there to be mostly golf the full area must be leased, however if no golf then no lease

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   The park should remain golf only and should have par 4 par 5s. Not par 3 only. This would miss a lot of the golf game. Playing fields would be a waste there are some across the road.

   I don't play golf, but a lot of my friends and family do at Takapuna. I have walked around with them when they're playing and it's a great social recreation facility. It's fantastic having a public golf course for the community on our doorstep.

4. **What type of golf would you most like to see provided at the park?**
   Other, please specify: Because I don't play golf at the moment, it's difficult for me to answer this question. I just want to see affordable public golf maintained for the community, with as many holes as possible.

   Access to an affordable 18hole golf course is critical to the local community and if this is lost,will never be replaced.with ever increasing costs to participate in activities,its vital to keep what we have,with an understanding some adjustments are required for flood protection.allowing outside private investment will be required to make best use of the area so all need to be open minded about options

   I fail to see how an already inundated park can create a water soak in the event of another similar 50-100year event like the recent floods at best a few companies will capitalise in tax payer funding the redevelopment of the park and at best the proposal will lower flood levels by an insignificant margin

   This wet land flood protection will not solve the flooding and the only way to fix this, make the cannel to Milford larger. Council has a hidden agender to get rid of golf in the park this wet land plan is the excuse they need. They are happy to spend millions on something that won't work. Leave the park as it is.

   Lease some land and keep some under Council control

   Tell us Why
   You need the council to provide facilities that aren't just about profitability but community

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**
   There are so little indoor spaces for events and indoor sports in the area. Please keep it.

1. **How do you or your household currently use the park?**
   Walk / run in or around the park,Play golf at the golf course,Use the golf driving range,Attend events at Eventfinda Stadium

2. **How often do you use the park?**
   Once or twice a week

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly golf with limited other recreation uses

   Tell us Why
   The golf course is popular with friends and family. It is a great facility to have on the North Shore and an affordable place to learn and play golf. The social aspect of this is very important for mental health amongst my friends and family.

4. **What type of golf would you most like to see provided at the park?**
   9-hole traditional golf course (35-36 par),Driving range,Mini golf

5. **What other type of recreation would you most like to see provided at the park?**
   Archery,Lawn bowls,Off-leash dog exercise area

6. **Whether you currently use the park or not, what do you value most when thinking about the park's future?**

   Affordability - providing low-cost or free activities,Connectivity - walking and cycling connections through the park that link with the wider community,Organised recreation - space for organised sport or clubs,Other - please specify: Social connection through playing golf

7. **Which Park lease approach would you prefer?**

   Lease some land and keep some under Council control

   Tell us Why

   The golf course and facilities attached are currently providing a service and opportunity for people to connect with one another and learn a new sport. It is also providing a revenue stream for the council to assist with the upkeep of the council owned wetland and flood protection maintenance

2. **How often do you use the park?**
   Once or twice a week

3. **What mix of recreation uses would you like the park to provide once redeveloped?**
   Mostly other recreation uses with limited golf facilities

   Tell us Why
   I coach my sons school basketball team, and already there aren't enough courts to play on, it would be great if eventfinda stadium had more courts and kept the courts as I'm unsure where we would play if the courts were not there! It's so handy to get to as it's the closest for all the schools around the area.

4. **What type of golf would you most like to see provided at the park?**
   None of the above

   The current gold course uses up a lot of space but doesn't allow the number of concurrent users to enjoy the park, given the vast size of it compared to other parks.

4. **What type of golf would you most like to see provided at the park?**
   Other, please specify: Not too fussed, so long as there is room for non-golf activity, especially around the perimeter.

5. **What other type of recreation would you most like to see provided at the park?**
   BMX pump track / skate park / other wheeled play,Nature play / playground,Walking / cycling tracks,Other, please specify: all-weather perimeter track for running, hand-cycles and wheelchairs. /

7. **Which Park lease approach would you prefer?**

   Keep all land under Council control

   Tell us Why

   I object to having to pay to access council-owned land. The access I want is to run, and perhaps occasionally walk or cycle, in an area that is flatter that almost any other non-playing field reserve on the Shore. Also, I don't think commercial operators will have the best interests in mind for the the wildlife that will hopefully establish itself in the wetland part of the reserve.

   Mostly golf with limited other recreation uses

   Tell us Why
   This is a well established golf course.One of only a few actually economical to play on in Auckland without membership.Auckland council has destroyed this course because of all the infill housing using reduced permeable surfaces resulting in drastic flooding.It is not due to climate change it is due to poor planning and infrastructure.More intense housing without additional stormwater provision and you're pretending to be surprised! Get a refund on your planning degree.This is not rocket science.There is plenty of avenues to channel stormwater alongside of motorway and exit into Shelly Bay/bayswater.YOUMUPPETS!

4. **What type of golf would you most like to see provided at the park?**

7. **Which Park lease approach would you prefer?**

   Lease some land and keep some under Council control

   Tell us Why

   You already have a great park.Get some proper engineers to fix the stormwater flow made worse by your poor housing intensification execution.

8. **Do you have any other feedback about the future recreational use of AF Thomas Park?**

   Keep the golf course,channel the stormwater alongside the motorway to tuff crater as a catchment area and install water processing micro plants alongside it.Pump stations on east side of smiths bush.Storage ponds there and tuff crater, utilise shoal bay as a large scale catchment area for treated storm water.
