Myself, friends and family have grown up attending speedway events at ' the springs' it has become part of our culture and heritage as we have supported friends involved in racing and the event as a unique family experience. I would love my grandchildren to be able to carry on enjoying the experience for many years to come.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),Other (please specify):

I have a home in Mt Eden

There are three options to consider

Which option do you prefer? Select one option only.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

This option seems to give the best opportunity for wide use of the facility. It's important for Aucklanders to have a chance to play sports like padel and basketball and the stadium is close to good transport options. Having a health centre and allied health businesses is another step in the patchwork of supporting people to be healthy and have 24 hour care available. There is a history of concerts and sport there so noise and congestion are nothing new but parking will need careful thought and might need to cater for MOTAT parking as well. It seems this option attracts lots of punters and is less expensive for our cash-strapped council. I like the move to supporting

Auckland FC and having football fields/practice areas. The potential for conferences in the basketball courts might also fill a gap, though it could create conflict with regular team schedules. I think all weather areas are important - just adding kikuyu as in Option 2 is not a magic bullet.

While tunnel equipment and engineers are still around for the CRL , an opportunity to connect for this exciting project. Also improve motorway access and parking. Other infrastructure as in sewage needs consideration too. Go for it for the future.

The current set up, including the Speedway is part of what makes Auckland Auckland. It has an Historic reach over many many years. It is Auckland in its essence and provides an area where various sporting events can continue. The venue is known in other parts of the world as the most exciting, audience involved Speedway for car events internationally and annually attracts overseas interest and competitors. To destroy the area and concept that exists by either option 1 or 2 would only provide land to put up something that could go anywhere. It would be like flattening Auckland's historic homes to build modern stuff.

Apart from the obvious, great family entertainment, worldwide recognition, the speedway track belongs to the people of NZ as it has always been intended. Money should never be the deciding factor when this much history is involved. Western Springs Speedway needs to stay where it is. Just leave it alone and let common sense prevail. There is no other place like it and no one has the right to destroy it. Shame on anyone who thinks they have the right to change the venue's use and is not theirs to even consider. Enough.... Some things are sacred and this venue is one of them.

The benefit of option 1 is that there is no cost to the rate/tax payer and I think it is something fresh that Auckland needs. I also think we don't need another big stadium like what is proposed in Option 2 With Eden Park's up the road being upgraded.

Western Springs is a iconic slice of Auckland that has hosted concerts, speedway for as long as I can remember, how about Council leave things as is for a change, and concentrate on keeping Auckland running ie pavements, potholes, rubbish collection all the things we pay our rates for. Why this constant need to change everything (for the worse). Wasting

Rate payers money seems to be the only thing council is good at.

Option 1 is the only realistic option for the Western Springs. It supports the development of football and basketball, which are growing in popularity, as well as other facilities that are badly needed in the area. Unlikely the other options it does not rely on rate payer funds and it facilitates the development of the Western Springs precinct and is aligned with MOTAT''s and the Zoo's focus and outcomes.

I feel the process conducted by the council on it's decision to move speedway to Waikaraka Park was underhanded and deceitful to the Auckland rate payers and the speedway community, and could easily be construed as corruption. I strongly opposed these plans and feel a more robust, transparent and community involved process is required about the future plans of western springs stadium.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1 is exactly what Auckland and the Western Springs needs. The Springs needs to move on from its focus on the noisy and environmentally unfriendly speedway and football and basketball is overtaking rugby.

This option is also self funding and includes cafes and restaurants that are badly needed in the area and it supports MOTAT and the Zoo's focus.

Stop being stuck on the past and focus on making Auckland the city it could be as anticipated by the Peter Gluckman report Reimaging Auckland.

As nearly 100 years as a Speedway facility it has etched its soul into Aucklands culture..It provides a safe family environment without the need for any Police patrols like there is at the football stadiums and concerts. It is a multi generational family audience, many of which can boast continuous patronage for as long as the speedway has operated. Long live Western Springs Speedway.

I believe there has not been a fair study on the popularity of retaining Speedway at Western Springs. I have attended speedway all my life and raced there in the 1980s and worked on cars for many years. Four generations of my family have attended over years and I feel strongly that this institution should be retained. Thanks. PP.

The current home of Auckland FC is not suitable, option 1 provides a new home that can be tailor made for this purpose and serve as the new home of NZ football, replacing the deteriorating North Harbour Stadium. It also functions as a community hub, want we want is somewhere people can go all the time. Most stadiums lay empty 6 days a week, option 1 provides a community hub.

If Auckland had enough money then I would prefer Option 2, however, we don't, and we have other pressing needs for basic infrastructure such as water and transport. Stadium should not be the priority for Auckland now. Option 1 mentions private investment. As seen from PPP projects globally, these arrangements cost more to tax / ratepayers in long-run with very little, if any, benefits to the public. References: https://ppp.worldbank.org/public-private-partnership/applicable-all-sectors/weak-management#:~:text=Of%20a%20sample%20of%20over,renegotiate%20it%20later%20without%20competition.

I attend events at the stadium or its sports fields

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

This was a great venue for Speedway, such a great Saturday event in the City for all us motorsport fans. A great way to watch races, meet with friends and safe for teenagers to have a good night out and be easily dropped off and collected. Moving speedway destroys all of this and there is no longer a safe Saturday night event to attend. Previously we have had some great international racers come down to our events in their off season which added to the success of many past events. It seems that motorsport people are not considered in any of the above options.

We do not need yet another concert venue - we already have Mt Smart, Eden Park, & Spark Arena. There have only been a handful of concerts over the last few years at Western Springs so why not save some money and consolidate the concerts into existing public spaces. Surely the sports

people can also be accommodated elsewhere like Eden Park or other local fields. Sell the land for dense inner-city housing with amazing park like surroundings and all the facilities at the zoo & Motat close by whilst also being easy to comute to work either in the City or close by industrial areas.

The location/setting in the city is historic and it would be a shame to lose this entirely. A smaller scale option suits the area without disrupting it or causing additional issues such as traffic and parking which I foresee with the larger scale Option 1.

It is largely self-funding and provides facilities that are needed in the area and the larger Auckland city area. There is obviously a need for a facility for the Ponsonby Rugby Club, Cox's Bay? or the outer grounds at the Stadium.

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields,Other (please specify):

Mt mother was born in the vicinity so have family connections although I live elsewhere currently.

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 2 embeds facilitates community involvement and participation in the area as opposed to option one which will be privately funded and therefore will expect return on investment at higher cost to the upper echelons of the community and accordingly the facility will cater to rich and famous endeavours.

See attached

Future use of Western Springs Stadium – Written Submission

I have chosen option 3B - "Neither Option 1 or Option 2 – explore other ideas". I have made this decision for a number of reasons as follows:

1. The Auckland Arena Option is not fit for its intended purpose, does not fit within the surrounding landscape and environment, seeks to benefit more so the private operators than the community it is said to serve, and already discriminates against/displaces minority community user group.
    a. A 12,500 seat stadium is far too small to accommodate Auckland FC, or any other larger scale sports match, defeating the purpose of its construction.
    b. Auckland FC for example reached capacity at Go Media Stadium in October 2024 with 24,492 people attending – double the proposed capacity for Auckland Arena.
    c. From the Tātaki Auckland Unlimited website – "An incredible total of 235,316 people attended 13 Auckland FC home games at Go Media Stadium during the 2024/25 A-League regular season". That's an average of 18,000 people per game, or 50% greater than the proposed Auckland Arena capacity (I number expected to rise as Auckland FC popularity increases).
    d. Go Media Stadium or Mt Eden Stadium are the only plausible stadiums capable of hosting such large crowds, and as such should become the home of Auckland FC in the future.
    e. It will destroy the unique natural green amphitheatre landscape feature of Western Springs which is of historic and unique significance to the area. This amphitheatre has seen the largest concert ever played in New Zealand. David Bowie's Serious Moonlight Tour concert at Western Springs Stadium in Auckland on November 26, 1983 drew an estimated 75,000 fans.
    f. It will decrease greenfield and open air space and amenity in the centre of the city, and replace it with concrete, asphalt and buildings. Incidentally increasing stormwater runoff load on the fragile Western Springs drainage, and increasing heat retention (concrete, asphalt), which are areas of concern in the face of climate change impacts in Auckland city.
    g. While marketed as a community centre, Auckland Arena would be a commercial operation that would prioritise profit and repayment of its investment over the needs of the community. It would mean restricted access, steep hireage fees, limited availability and places uncertainty around community event usage.
    h. A 100 year lease to a commercial operation removes democratic community input over the area for the next 100 years.
    i. Inheriting a stadium and facilities at the end of a 100 year lease, once they have been exhausted by a commercial operation seems more a liability than a benefit.

j. Western Springs Speedway, as a minority community user group with 96 years of history, fostering motorsport legends on the global stage such as Shane van Gisbergen, is unjustly being evicted, potentially with the purpose of constructing Auckland Arena, a commercial operation.
k. The Ponsonby Rugby Club, with 150 years of history, fostering players for the highest level of our national sport, the All Blacks, would be displaced for the purpose of constructing the Auckland Arena, a commercial operation.

2. The Western Springs Bowl Option, overall a better option than the Auckland Arena, fails to capitalise on the wider economic and community benefits of existing user relationships.
    a. The Ponsonby Rugby Club has co-existed with speedway at Western Springs since 1997 (27 years), and both user groups have an understanding of the systems to continue the relationship for another 30 years.

3. The current public consultation of the "Future of Western Springs" has arisen after a flawed Auckland Council decision making process which voted to relocate Western Springs Speedway to Waikaraka Park; a decision which has since been shown to be fraudulent, mishandled and lacked consultation and insight into the sport and its compatibility with Waikaraka Park.
    a. The design of Waikaraka Park is simply not fit for purpose for Western Springs Speedway race cars; and the decision to combine both racing styles (potentially dangerous consequences for drivers) highlights the utter lack of insight/understanding shown by the Council in its decision making process as the two forms of racing style are non-compatible.
    b. I point Auckland Council councillors to the Western Springs Speedway Association and their serious and valid arguments/evidence to re-examine their eviction from Western Springs.

4. Another option for the "Future of Western Springs" sees the strengthening of current relationships, and further development of the functionality and historical use of Western Springs for multiple community groups.
    a. I suggest the integration of Western Springs speedway into the "Western Springs Bowl" concept, i.e. include Western Springs speedway as a user group alongside The Ponsonby Rugby Club, a community hub, and a music/festival venue operator.

b. Western Springs Speedway has demonstrated over the last 96 years that it can adapt to the environment and demands around it while remaining at its internationally acclaimed home. It has met noise limits imposed by council for example, has co-existed with The Ponsonby Rugby Club for 27 years, and has worked around dozens of large scale concerts held at Western Springs amphitheatre, including the largest concert in New Zealand played by David Bowie in 1983.
c. Through consultation with Western Springs Speedway Association, and appropriate design, a large stage, upgraded stands and other infrastructure can all be built to achieve a permanent music/ festival venue, community hub, and rugby club, all while allowing Western Springs Speedway run.
    i. The artist rendition provided in the consultation document of the "Western Springs Bowl Option" clearly shows the racetrack just covered in grass, showing just how easy it could be to keep the speedway track there permanently.
    ii. A viewing tower for officials and commentators can be included in the stage design.
    iii. The lights can still be used to watch the racing as well as concerts and rugby.
    iv. The race car entry onto and exit off track can be adjusted to suit, under, around or through buildings/stages.
    v. A carpark is all Western Springs Speedway currently use for a pit area and this can be located and modified to suit also.
d. Western Springs Speedway can continue to contribute financially to the operation of the venue and facilities, while the facility can continue to accommodate the Western Springs Speedway racing community.
e. The number of families that currently attend and enjoy Speedway meets, and the number of people who have attended over the 96 years of history of Speedway at Western Springs, is something that should not be underestimated or overlooked.

It is well needed in Auckland and a good option other than Spark Arena. It would add value to Auckland as an entertainment and sports venue that is more up to date than what we currently have and a good size to boot!

The inclusion of new sports such as paddle tennis or maybe pickleball would provide more useful facilities for the community and the ability to host events in these sports benefitting the whole of Auckland. Mr Smart Stadium and Eden Park already service concerts and the amount of concerts in Auckland do not seem to justify the need for a new concert arena. Sport, Health and Wellbeing are much more important to the community and will be in constant use. It may also encourage people to visit the surrounding attractions before or after activities which would benefit the local economy. Rugby is in the decline in New Zealand with only the emergence of the female game propping up numbers. It is better to embrace new sports relevant and appealing to the present

population rather than reserving a large site for only one sport. Basketball is also flourishing and top class facilities will help support its continued growth.

This has the most potential to be a commercially viable option and meet the needs of more people. It is visionary, it is supported with private funding and will create opportunities for local businesses to leverage activity. It will bring a vibrancy to the area and be complementary to what I hope will be a downtown stadium.

Given its location, with limited parking and constrained public transport, it does not make sense to me, for the demand for Auckland's pool of public sporting infrastructure to be diluted by adding a further facility. Surely improving access to the current facilities ie Eden park and Go Media stadium is better, the creating a further facility (proximate to the venues) that features the same access challenges that already exist.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

There are three options to consider

Which option do you prefer? Select one option only.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

An absolute no brainer. The city gets a state of the art stadium and a community facility at no cost to the ratepayer! A dream scenario. I say get on with it.

I think the historical connections with Western Springs are worth preserving but enhancing to an appropriate level. I like the explanations of Bryan Williams and feel that having private money is not appropriate for this facility.

Land should be for public use as much as possible. I like the idea of the Ponsonby Rugby Club staying on. I have no connection with the rugby club and believe having them involved is a good option.

I prefer option 2 because it keeps ahome for Ponsonby Rugby Club who has over 100 years of existence and the other field for concerts. OPtion 1 could run into problems if and when the Auckland soccer team fails or its supporters run out of money. They have no track record in NZ.

Respectfully just over a year ago Council was promoting demolition of North Harbour Stadium as we had over capacity. We do not need a new stadium for AFC. Western Springs is a natural theater, just enhance and keep the Ponsonby Rugby Club. I believe Speedway should remain there as well. If there is to be a new stadium then put it on the Waterfront with access by road, rail, ferry.

Auckland needs flood protection, not more sports stadiums. Very little has been done to protect Auckland and the council keeps approving development recent flood prone land. Drains are not cleaned as often, so floods recur. There is no parking near the western Springs so more activities will lead to major parking problems and neighbours being forced to live with crowds and invasion of private land for illegal parking. Plant more trees and turn it into a park for everyone. Add parking got the transport museum .

Option A is talking around the fact the Auckland FC will make it there home. I don't trust that their owners will let community events and groups use it without charging so much that it will not viable for many. Already pissed off about the speedway being moved from there and this just seems like more bending over to the rich at the expense of history in the area

Until there is a final understanding for stadiums in the city, this is all premature. The proposals are admirable but in effect take long terms leases for little commercial return. Maybe the parties might up respective offers. Auckland FC at Mt Smart works well. Why change it to a smaller stadium?

Because the speedway has been there for a lot of years and I loved listening to that and the zoo animals when staying at my grandmothers in Smale Street Pt Chevalier. I don't understand the people who moved into the area when they k we the speedway was there., of course there will be noise but the concerts there create a lot of noise and go a lot later than the speedway. I'm 73 years old and the speedway was there long before I was born. I used to have several friends who competed in TQ's and also the motorbikes. Auckland is losing a lot of its iconic events and venues which I feel is sad.

This has been established thank you for new Auckland and New Zealanders for council decades. Why is there has been a changing attitude to an established well attended and Will performance arena for designated purposes is beyond me. If people move into the area they should acknowledge that this is an established purpose for this particular facility. Enhance what is already there rather than just deter to the whims of others.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I don't have a direct connection, but I am interested in how the space is used

There are three options to consider

Which option do you prefer? Select one option only.

Option 3A: Neither Option 1 or Option 2 - keep things as they are and retain current arrangements

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Thank you for the opportunity to provide feedback on the future of the Western Springs Stadium.

I don't live locally but have attended Western Springs as a concert venue on occasions over many years, and brought children, and now grandchildren, to the wider park area.

The decision on speedway moving away from Western Springs should stand, with Waikaraka Park now the home for motor racing enthusiasts.

Options A or Option B will no doubt be attractive venues, but they will undoubtedly draw events from other existing facilities. Auckland will gain little from establishing a new venue and then have under-utilised venues elsewhere that become less viable financially.

From listening to the debate over Western Springs Stadium over the past several years, and now reading the consultation materials, it does not appear as though there is a compelling event or need that demands Auckland Council make a decision at this time.

If Auckland Council retains the Western Springs Stadium in its current form, and in the future a compelling event does arise, the Council will have this area available to develop into what is needed at that time.

I support Auckland Council extending the current arrangements for a further ten years and postpone any significant decision.

I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

There is too much uncertainty with option 1. What happens if they decide to reduce their investment, which is significant.

This proposal would see Ponsonby Rugby Club renew its current lease and explore options to expand its operations across other sports such as basketball, netball and touch. Western Springs Stadium as a premier entertainment venue, while maintaining its status as a renowned music and community sports facility.

Because it will largely remain a public space and won't be able to be sold for infill jouding in the future. This space is our space and should remain that way. If f its private, anything could happen in the future.

We are slowly eroding our history in Auckland. Speedway has been part of my life for over 60 years. I regularly attend the zoo and Motat with school groups as well as my grandson. I have watched many of the concerts there over the years - again going back 50 odd years to the present day. I have attended many of the Ponsonby Rugby club matches and thoroughly enjoyed them. Why does newer always seem better. An upgrade of the current facilities would be awesome and bring back Speedway! I am tired of seeing how greed runs riot over our cultural history!

Auckland needs a multipurpose venue at this capacity. If you look at Auckland FC, the Blues and Warriors plus other sporting teams, the capacity of the stadium would work beautifully. It's also an opportunity to get private investment into a public space which is incredibly attractive. This opportunity doesn't come along often and it will benefit a huge amount of people, plus provides community integration and makes Auckland a desirable place to live. It's a no brainer for the council to make this space available for the Auckland Arena.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

It is an absolute no brainer that the Western Springs Arena should be turned into a cricket ground with a similar regular capacity and style of the other First Class/International Cricket Grounds in NZ, e.g. Bay Oval, Hagley Oval, The Basin Reserve, Seddon Park, University Oval, then the embankment could be opened up for when there is large capacity 20/20 matches etc, it is absolutely absurd the our country's largest city doesn't have an actual decent quality First Class/International level cricket ground, could you imagine this being the case in Sydney/London. Eden Park number two is a joke even for domestic cricket, it's barely even big enough to be a Premier Grade Club Cricket Ground never mind a First Class one, and Eden Park is too big and horrendously shaped for an International Quality Cricket Ground which makes a mockery of the

International game and is an embarrassment to our city and country, the proposal to build a new stadium rectangular stadium at Western Springs is crazy when we already have three average quality under utilised rectangular sports stadiums in Eden Park, Mount Smart and Albany Stadium, so why on earth would we need another one. Not turning Western Springs into a Cricket Ground and not building the recently proposed Waterfront Stadium near Spark Arena will be two of the worst decisions in this city's history, in which there has been lots of unbelievably bad ones. The decisions that get made for this city regarding our sports stadiums etc are an absolute embarrassment and a joke. Just get it right for once ffs.

Western Springs has always been a great concert venue and is accessible from the central city. This would enhance this. Auckland has many other options for sports, including Spark Arena, Mt Smart and North Harbour Stadium. It also looks like better value for less money when we need to spend on other infrastructure.

Great outcome for the ratepayers and broader community of Auckland. We should embrace the private sector model and option otherwise will cripple Auckland in debt, and lack the outcome of best to class infrastructure outcomes. They have a clear vision and purpose and will be driven to deliver and make a great outcome for Auckland that is commercial viable and not be a burden on ratepayers.

Keep the name Western Springs - it is well known and no need to change history. We already have Mt Smart Stadium and Eden Park for events and don't need the extra ratepayers' burden to make another venue, while reducing the viability of the other two stadiums.

Future use of Western Springs Stadium

Because all of Auckland going to Western Spring Park one time or another. It's the Peoples Park and the Communitues Park. It affordable ti everyone not just the elite. Too many people with money are deciding for the general masses. It's corruption in a sense, they pay to get what they want despite anyone else's perspective. They can pay big lawyers, that can get like minded on their page because they have profile. They are influences that doesn't mean they care or it's better, it about placing their name to something with impact and the local communities who truly live with a passion for nature and togetherness are ignored because mire and more nowadays despite numbers do seems to count. Thus is the Oeoples Park and the Peoples Panel should consider this speak for the People

History, the 2 long serving institutions that currently utilize the facility (we are talking 100+ yrs) and what you are providing as replacement facilities for them are very subpar and require more funding then what the current costs of having them are. seems once again a waste of rate payers money. I understand what you are trying to achieve , however it doesnt make sense when the curent revenue out weighs the proposed.

I want a modern stadium facility that is essentially a modern mt smart (20,000) that has the capacity for future growth. This means that is is a premier ground for both rugby and football that also can host entertainment events, I think it should be a traditional 4 sided stadium. Either the outter fields become a large carpark and it is a strictly event venu that is fit for purpose or it is a training/high performance hub also with outter fields. I think the first one makes more sense, and is more similar to that which other facilties and clubs do over seas. Build a training facility elsewhere maybe like colin maiden or cornwall park.

Mt Smart stadium is already at capacity when it hosts Auckland FC and the Warriors, downsizing and moving operations to this space seems counter-intuitive. Conversely, when Eden Park or Mt Smart host music concerts the space just isn't great. Let's have a dedicated music venue and offer a smaller scale sports venue for those events that draw smaller crowds and re-invest in making Mt Smart fit to hold 30,000 people.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

It should be retained as the home of speedway. Rugby & other ball sports have plenty of venues already. Same applies to concerts although have on occasion shared this venue.

Western Springs is the home of speedway in NZ. It will always be that. I find it very hard to believe that speedway is not profitable at western springs but other tracks is not a problem.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Solution needs to be combination of private investment money only + smaller venue (surrounding roads can’t deal with that level of traffic and no train options like Eden park) + more generalised use ie not sport specific

Good to see private investment reducing pressure on tax payers. Great to see more basketball courts, a home for AFC but also the ability to have concerts too. I have assumed that Ponsonby Rugby Club will have options of other premises.

It sounds like it would be a fabulous facility and being funded by private investors makes it a no brainer as far as options are concerned. The Auckland council does not have spare funds to put into another stadium.

Both Western Springs Speedway and Ponsonby Rugby Club have shared the use of the grounds for many years (nearly 100 for speedway) with international concerts and events without any issue. Why do we need to see one specific sport or event favoured when it comes to the upgrades?

Is it not possible to find a solution that seeds Ponsonby Rugby Club retain use of the outer fields, along with western springs speedway continued use of the dirt oval, whilst investing in the infrastructure to include other state of the art events & concerts?

It should remain as a speedway. It has been this for many years. It has been a great venue for concerts and the sports grounds as well.

Insufficient investigation and public preference was not carried out before speedway was moved. Sup[posed progress it not necessarily the way forward - sometime the status quo is the best was to go.

Neighbours should not be complaining of noise as they were aware of the speedway when they purchased their properties.

We have a country with very little history compared to the rest of the world and it makes me extremely sad, annoyed, and very angry that Mayor Brown / council can be so dismissive of an iconic place like Western Springs Speedway

The Council have advised they are spending millions on MOTAT to preserve that, which is great, so why can't the council include in the footprint of MOTAT, Speedway, the Zoo and the Park area as ONE historic place for ALL people to come together and use as they stand today and share the money across Speedway and MOTAT.

I feel that Western Springs Speedway has been neglected over the years by some of the promoters and Auckland Council.

It is part of Auckland’s heritage, a legacy, a family way of life. We have a world class track that deserves to be preserved for the future of open wheel racing where a lot of our current international drives had started their dreams and will continue to produce more world class drivers.

Where is the respect for all the history that has passed thru the gates and on the track at Western Springs?????

I find it sickening to see this beloved iconic place be rumbled for another "Stadium" when we already have plenty in Auckland to hold the crowds for all ball sports, and most of those stadiums rarely have sellout crowds.

Why should the history of Western Springs be shunned in this way for another stadium that will sit idle for weeks on end when Speedway could be brought back to racing every weekend as it has in the pass and been successfully run for most of its history.

Western Springs Speedway has played a HUGE roll in my life, my family's life, and my fathers.

My brother has been involved in the Pits and in field since he was a teenager and now 69 years of age, he Lives and breathes speedway as do I.

Please do the right thing and leave Western Springs Speedway it in home where it has been for 96 years.

No need to change anything and to give Western Springs Speedway a long-term lease. Have seen how this has been mishandled by Councils own agenda. There are plenty of existing venues currently under-used that can cater for other activities. I am tired of Council ignoring history within the city makeup.

Although committed to enhancing Waikaraka Park for speedway, having reviewed the proposed upgrade I believe this still falls short of delivering a venue built for success. For proposal 1 & to be really effective, Western Springs needs to be better aligned to public transport to /from the venue.

I believe the current arrangement including the speedway should remain and include an upgrade of facilities and a closer linkage with MOTAT.

I do not belief option1 Auckland Arena to provide public space what is a private commercial professional sport venture financed by very wealthy individuals. If Council agrees to Option 1

Auckland Arena the ground lease must be on fully commercial terms.

It's a versatile and characterful space, walking distance from the city centre and environs. Creating a soundshell stage and allowing smaller (sports or cultural) events on the fields would be an asset for the city. We have enough sports stadiums across the city. This should be the heart of outdoor music for Tamaki Makaurau, and it complements the indoor original "Auckland Arena" (Vector/Spark was originally called that!!) by allowing a concert scene to grow in the heart of town across sister venues. Mount Smart is horrible for concerts - it's so hard to get home safely. I rarely go to shows there because its such a mission.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I don't have a direct connection, but I am interested in how the space is used

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I do not like the idea of a fully private development in such an iconic place.

I do not see Option 3 A or B as viable, as the council clearly have a policy and to try to reduce expenses.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I attend events at the stadium or its sports fields

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I have enjoyed the raceway with my family since I was a boy and those that attend love it with a passion. It would be a shame to lose that connection with the community.

I support Option 2 because Western Springs is one of Aotearoa's most iconic venues and uniquely suited to live music and festivals. Its natural amphitheatre setting can't be replicated elsewhere in Auckland, and upgrading it with permanent infrastructure would strengthen the local music and events industry. Option 2 also allows Ponsonby Rugby Club to continue using the venue while giving the arts and live events a dedicated space during the summer season. This is a more balanced and culturally valuable outcome than turning the site into another sports stadium, especially when Auckland already has several of those. Western Springs should continue to be a place for music, culture and community, not just more football.

I feel the bowls larger capacity sets a step fowards to Western Springs potential of putting on far bigger events for a larger growth economically and in popularity.

The current use of Western Springs works very well for ordinary people of Auckland. Auckland cannot afford to spend vast amounts of money on another stadium when we have several existing stadiums that are not fully utilised.

Auckland desperately needs a test cricket oval (like Hamilton to Mt Mauganui) and a modern 30,000 seater rectangular stadium - to replace Mt Smart for Auckland FC and or The Warriors. In my opinion Western Springs should be repurposed for one of these two options.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I have enjoyed western springs for speedway and concerts and consider it to be an amazing venue as well as great history of Auckland.

Just as Eden Park is getting more concerts, Western Springs should be able to as well. Residents should remember it was there long before any of them moved into the area.

There are plenty of spaces for football etc so build them new homes or in the case of football why not use the barely used stadium at north harbour. Better public transport and parking for the the crowds they say they have.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1 means giving up control of public facilities to private enterprise. It might save the council money, but the investors will need to recoup their investment somehow, which means higher costs for people who use the facilities. I also don't like to see so much concrete over one of Auckland's largest green spaces.

Option 2 has high costs over and above current usage, for relatively little improvement. Although it is far more aesthetically pleasing than Option 1.

I enjoy events like Pasifika at the park, use the fields, and have gone to the occasional concert. I hope that alternative suggestions can be found that are better than the current options. It would be great if more floodlights could be installed to allow more teams to train in the winter.

I would strongly oppose any use as a speedway. Promoting motorsport is incompatible with a climate conscious city.

I believe the whole of Auckland city will benefit from having a state-of-the-art, multi-purpose venue that combines sport, culture and entertainment close to the city centre. Not just breathing life into the surrounding hospitality industry, but becoming a hub for families and entertainment. A home for Auckland football in the city, will add a hub for the sport comparative to other global cities, encouraging participation from a young age and providing an easier pathway for young players to attend and follow professional athletes.

What is your connection to Western Springs Stadium? (tick one or all that apply)

I don't have a direct connection, but I am interested in how the space is used

There are three options to consider

Which option do you prefer? Select one option only.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I think the capacity needs to be at least 15000 to not underestimate possible growth. But not too big either to keep an atmosphere but having training facilities and a HQ is key for the future of the club

It is critical to ensure that we retain the activities of sport (Ponsonby Rugby Club) and entertainment in the public domain. We simply cannot have facilities of this type lost to public ownership and clubs like Ponsonby, with their huge heritage, forced to abandon their spiritual home with no regard for history and tradition.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

It's not time to lose another cultural hub. I want to keep the Speedway. We've lost Pukekohe, a historical national racetrack that saw many champions race. Locally and internationally. We've got enough ball sports stadiums, I say this as an avid footballer and football fan. Diversity is what we need in this city. Speedway has been a part of Westernsprings culture my entire life. I see no good reason to stamp it out.

Progress needs to be made, however it will not be a great AFC venue, or be considered as a community facility if privately owned by AFC owners. Ponsonby Rugby Club also needs to retain it's home, as it would be devastating if they were removed.

I attend events at the stadium or its sports fields,I work or volunteer at Western Springs Stadium or nearby

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I strongly support Option 3B - to retain Speedway at Western Springs, plus Ponsonby Rugby, music and festival events.

I have agreed with most of Mayor Wayne Brown's initiatives, but I am very disappointed in the undemocratic manner that the future of Speedway in Auckland has been handled. It was regrettable that representatives and supporters of Speedway were not invited to participate earlier, but it is deplorable that they had to protest to have their democratic rights recognized by Mayor Wayne Brown and Auckland Council.

It is an absolute travesty that such collective knowledge and expertise has been quite cynically and deliberately shut out of successive rounds of decision making at this council.

The report tabled, "Western Springs Stadium: Expression of Interest recommendation decision, Report to the Board of Tātaki Auckland Unlimited" is very clearly biased, and does not present a balanced view of the only three options it contains – and Option 3 – 'Do nothing', "does not assume ongoing speedway events at WSS". This should always have been an option, justified by Auckland because of the underhand way they tried to push the relocation of Speedway to Waikaraka Park.

Western Springs is the New Zealand home of open wheel Speedway, and this is where it must remain. On attendance numbers, Mayor Wayne Brown either deliberately presented false numbers, or he is so gullible that he presented attendance numbers given to him without verifying they were correct. Either way he provided false information – Western Springs has attracted a decent number of spectators, even when the Council restricted attendance numbers. Don't mislead ratepayers to push a personal agenda Mayor Wayne Brown – we are not that stupid.

Open wheel speedway in Auckland is an industry in itself. Go any night and see the commitment made by the drivers, team owners, and sponsors. Millions of dollars are collectively invested in every meeting. An Aucklander produces world class speedway chassis which are winning races in many countries. Teams work full-time on their race cars and equipment. Do not strip this away from us.

Waikaraka Park is NOT a replacement for open wheel speedway in Auckland – I won't go int its deficiencies – I expect you have heard them already.

Option 1 – AFC has been flavour of the year, until they dropped out of championship contention. Giving a long-term lease to them has significant risk, and would deprive Aucklands from the use of Western Springs for too long. Let AFC stay at Mt Smart, or let them develop the under-utilised Albany stadium as their home, and keep Western Springs for Speedway, Ponsonby Rugby, and music and cultural events.

Council needs to get real with costs – if Council wants to save real money then stop the 'Green Washing' and immediately stop the wasteful spending on the ridiculous food waste bins. Each year the Food Scrap Bin programme costs more than $36 million, or about $77 per household—despite only 35 percent of Aucklanders actually using them. Each year the Food Scrap Bin programme costs more than $36 million, or about $77 per household—despite only 35 percent of Aucklanders actually using them. The plastic bins were made and shipped from Australia, costing $15 million, or roughly $30 per bin. The pink bin liners are made and shipped from China. The food scraps are collected by trucks and shipped 200km to a processing plant in Reporoa, near Taupo. All the above produces emissions. Of course, Auckland Council harps on that the programme is green, but it seems to lack full accounting—with no full lifecycle emissions audit.

Based on what data is available, the scheme's carbon savings costs about $1,440 per tonne—shocking when compared to just $50 per tonne recently priced by the ETS.

My Vote - Keep Open Wheel Speedway at Western Springs with increased events per year, keep Ponsonby Rugby and invest in some modest clubroom which can be shared/leased for multiple uses, encourage big entertainment to use Western Springs – the natural amphitheater is perfect and has hosted the largest number of spectators for single events.

Thank you.

Option 1 is a waste as there are enough of these types of stadiums in Auckland already and the capacity of the intended stadium is ridiculously small for this city and will make Western Springs a waste of space. Please keep the fantastic concert venue that Western Springs is.

It's the most feasible use for the site and can be multi functional. Auckland also needs a stadium of a smaller size to host events that just look silly when hosted at the major stadiums. With the rise of women's rugby and football, this is also a potential venue for those teams to play as well as a proper home base for Auckland FC

We already have many sporting facilities in Auckland and the natural amphitheatre in Western Springs is ideal for music or cultural performances. We need something that is more in keeping with community use and not just elite sport events or use.

At that time soeexwY spectator was a religion to me. One I shared with my own children as well. Family spectator sport like no other. There is already enough Rugby parks on New Zealand. New Zealand does have other sport other than Rugby, there is no place for dictatorship even in sports.

Furthermore I do not understand how the group of people whom had been put in charge of this facility had no specific relationship to its use (ie. speedway) yes speedway is a sport which could be considered “our” culture, but did not get the true support from said people in charge. That is not how organisation/groups/sports clubs would survive. Auckland city council should be unbiased and supporting all groups/clubs, and not bow to privately funded egotistically centred groups with their own agendas. Especially when it’s for more of something Auckland already has. Where is the diversity????

Options 1 & 2 both include a new "boutique' stadium being built. The last thing Auckland needs is another stadium, one of which is a vanity project. Those being proposed for Auckland FC, when the club is already attracting crowds at the fantastic Mt.Smart Stadium in excess of the numbers for the proposed 'boutique' stadium capacity.

Option 3 , as I understand the wording would exclude Speedway as they are not in the in the current agreement.

Western Springs Stadium as it stands is an amazing stadium concert venue, as has been proven over the years. For example Led Zepplin, Rolling Stones multiple times, David Bowie,

Neil Diamond, ACDC, the list goes on. Yes, it is a bit rustic, but could be improved for considerably less than any of these proposals, with both Ponsonby rugby and Speedway being able to continue to use the venue

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

This options offers residents Western Springs Stadium as both a top-tier concert venue and a local sports hub. It recognises the history of this space, and keeps this space for this use for future generations. The Hollywood Bowl-style setup makes the most of the natural amphitheater, bringing bigger and better live music experiences while upgrading event infrastructure. The Ponsonby Rugby Club gets room to grow, adding more sports to its lineup and locking in a long-term lease

Western Springs has always been a space for the community, home to speedway, gigs, and events that bring people together. I've been to plenty out there and seen how important it is for whānau, for connection, and for creating memories. Speedway especially holds a long, proud history in Tāmaki, it's part of the city's identity and a rare, affordable event that people of all ages look forward to. Now there's pressure from wealthy developers to take over council land and strip another community asset away. We're already losing too many of these spaces. Let's stand up for Western Springs and explore every option to keep it running, it still belongs to us.

Auckland has very few large scale music venues and already struggles to gain the attention of large international artists and festivals. Removing the largest area in Auckland that can host big scale events (which struggle to keep up with demand/capacity already) would be a major blow to the Auckland economy. There are already venues which host sporting events (mt smart, eden park, north harbour stadium). The current amphitheater is in poor state and requires a significant upgrade and refresh to keep these large scale entertainment events happening.

The area of Western Springs is unique and a great attraction to Aucklanders and visitors alike'

Having been involved in the tourist arena for many years the attractions situated here be it the Zoo, Motat, the wonderful park area and walking, running areas around the Springs or the Speedway facility that attracted many visitors to Auckland and has such a long history. The

shows held at the Springs stadium outdoor facility have been a great success and this area should not be removed as a choice of use by the many who are keen to use the facility as is.

Western springs speedway has been a part of Auckland''s landscape for 95 yrs. Been part of our families life for 75 yrs. My Dad, his brother, my brother and I have all raced there. The speedway season is over the summer months, attracts families from all over NZ/Aus/USA.

In all those years attending Western springs speedway I have never seen any violence or disorder. Even with the largest of crowds, everybody in the stadium is there for the entertainment, the thrill of the racing and the camaraderie amongst the families, drivers, volunteers, many who are 3rd or 4th generations. Speedway at the springs is recognised by many overseas drivers as an iconic venue. To travel down under to NZ, summer time and the chance to race at Western springs. First

timers are in awe of the stadium, the crowds and the challenge of the track and the quality of the local drivers and their equipment. To loose the springs as NZ's premier speedway and perhaps oldest would be to me a travesty to the many people who enjoy and participate in the action over the summer months. Ponsonby Rugby club is perhaps one of the greatest clubs in NZ, they along with speedway have worked together over many years to entertain the public at this iconic venue. Rugby is a winter sport, speedway a summer sport, they exist together, get on well and have strong relationship. Consider this choice, do we really need another grand stadium in Auckland and the costs involved. Rugby, Speedway, Pasifica, Laneway. more events like this would contribute to the cost involved in maintaining the stadium.

Option 2 keeps it public, so still a music venue using the natural amphitheatre and still hosting the Ponsonby Rugby club beyond their contract that ends 2027. Wonderful club that's very community minded.

I prefer Option 2 but, for the foreseeable future, our council cannot afford to put money in to this project and the space needs to be upgraded now. The decision NEEDS to be made and immediately actioned.

Therefore I have voted for Option 1. Let's get our city rolling. ...

I have been attending Western Springs Speedway from the early 70's with my parents and have attended every year there on.

It is a very much a family friendly environment and in all my years attending I have not seen the Police presence.

It's also an escape for 4 hours from a busy, hectic life and I can attend knowing I'll be thoroughly distracted and enjoy the competitiveness of the sport.

Please allow Speedway to remain and the Billionaires can develop North Harbour Stadium instead, or Waikaraka.

Thankyou

Colin Boag

I am an avid speedway fan and music fan and have been for the last 65 years. Western Springs has played a significant part in my life. I have a deep understanding of the origin of the history and the actual history of Western Springs itself. To see if fall into the hands of others at the expense of the customary users who , musically. Speedway and rugby is nothing short of criminal in my opinion. The disrespect that the council has shown towards us is disgraceful, disrespectful.What is so wrong with the status quo?

The venue / destination has so many wonderful memories for those of us that have experienced events there.

So many of these I have experienced with my children, and friends and my children look forward to experiencing and sharing those future moments with their friends and family as well.

Some things make a city special and the legacy should be continue to help bring the community together and the voice of a few that bought homes in the area knowing full well what they were buying in to should not be able to out way the voice of so many.

It's seems more community with the rugby club being there and concerts and the like rather than being filled with commercial interests like hospitality. There's enough of that around, semi professional sport and community should reap the benefits.

Western springs is a great and historic music venue with attached sports fields for the local community. Restore speedway to the venue as this I'd the sports spiritual home. Auckland already has a surfeit of sports stadiums.

Why get rid of history it's a place where in New Zealand that other speedway fans and competitors want to come to they all want to race at the Oval known in the speedway community keep the history going we are all part of what makes western springs speedway great from our own backyard the big names have been there Kyle Larson, Scott Dixon, Shane Van Gisbergen and there is so many more that can be named. KEEP WESTERN SPRINGS SPEEDWAY

I have attended speedway for decades. It is a great night out for a family. A unique space like this should be retained for further generations to enjoy. It is iconic. Ponsonby Rugby Club can pay for their own grounds as other clubs have done e.g. College Rifles. Keep the speedway.

I feel the Auckland Arena is un necessary as we have enough sports stadiums they can use especially with Nth Harbour Stadium being under utilised and we already have a indoor stadium in downtown Auckland and Henderson. Also there is already football facilities in St Johns that could be used

Western Springs Speedway is a part of Auckland and always will be. This was gifted from the family with the intention to remain a speedway till the end of time.

Waikaraka park is not a suitable alternative no matter how much upgrading can be done.

New Zealand has had enough losses in the motorsport world, help us grow it not kill it.

Keep Speedway and Rugby at Western Springs. Go build a soccer stadium somewhere else. WS Speedway is one of the best speedways in the world. Waikaraka park isn't big enough to hold a fireworks display and let St Johns through when the crowd get injured unless they reclaim part of the cemetery and soccer fields.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

My 50 year involvement with Western Springs SPEEDWAY, this is an historic, internationally recognized facility with almost 100 years of history. Losing this facility will be devastating to the open wheel speedway community as other venues are totally unsuitable.

Auckland City should be protecting historic sites such as this, promoting and developing them for the enjoyment of Aucklanders in the future. In my 50 year involvement with Speedway, I have always found the fan base and competitors to be the most loyal , law abiding people. It is our Speedway Family. Refer to previous international events held at this facility, The Speedway GP,

motorcycle event held 10 years ago. Massive crowds of international riders and fans that attended, this should be developed.

SAVE WESTERN SPRINGS SPEEDWAY !

Speedway should stay at western springs but without some of the restrictions that are currently on it. They need to be able to run more meetings and more flexibility in time restrictions. This would make it more viable for promotion and more income to council. It has been a fantastic venue for 94 years for families and competitors alike

I would love to see speedway remain where it is. My absolute earliest memories were made watching american drivers come down to take on new zealands best at the international series. Now some of my young families earliest memories have also been made there.

I am a 62 year old female who has been going to Western Springs Speedway from the age of 4. My parents still attend along with my grand children. My son has raced there for 25 years and I am very unhappy at the underhanded way this has been delt with particularly from the mayor who has forbidden anyone to speak in favour of speedway staying. Having just returned from Europe and seeing how they respect their heritage and witnessing the disgraceful underhanded behaviour from council is very unfair.

Simple fact is we do not need it to be redeveloped. Speedway has been there for 96 years why kick them out. People come from all over the world and NZ to participate and to watch the racing/ concerts and even the rugby. For a council to rid the Auckland public of a heritage icon is obscene. There is absolutely nothing wrong with how it has operated for the past 96 years. Also the ludicrous restrictions placed on every hirer is a joke. The council represents the ratepayers not just some company that will probably fold in later years and the ratepayers will have to pick up the shortfall yet again.

Auckland does not need another stadium built for football, they have the use of 2 of those stadiums now an there is no reason as to why that can't continue. There is no reason as to why Speedway can't stay an this venue, it has 96 years of history here, is known all over the world an is made for our particular kind of cars. Speedway needs to be given more meetings here to allow it to generate more income. It has survived along side concerts an ponsonby rugby an there is no reason it can't continue to do so.

I chose option 3B as the AK Council is so corrupt and bent they couldnt stand up straight. They are the head on a giant pimple that we call Auckland ! Speedway belongs at Western Springs , there are plenty of other Stadiums that are not utilised to their full potential ! (Think North Harbour Stadium !!!!!!!!!

Keep it the same why change it, people of all ages use it and love their motorsport. Why should they suffer and lose what is a sense of belonging because others brought in the area and are against it. This has been there for years, if you don't like it why don't they move out of the area.

Speedway has been there way before the residents that are currently there were. Moving it to another venue whether it be Onehunga or the Airport is reprehensible and should be avoided at all costs. Sort out existing Auckland sports stadiums before even considering allowing another white elephant to be built there.

How can the council end speedway because they have a deal on the table? Those for in Council were not even born when it started 96 years ago and they need to leave well enough alone. It's iconic and historic and there isn't any other forms of family entertainment in Auckland that has run longer. I have 3 generations of my family that have raced and loved Western Springs. It is a world class venue and have had many teams competing from Australia and America. Waikaraka Park is no comparison and Auckland really DOES NOT NEED another stadium

Western springs is the home of speedway. There is no better track in Nz for this. Waikaraka is not a speedway track and you will loose slot of drivers if you move speedway to Waikaraka. Western springs is also a perfect concert venue and should be used for this more. Do not get rid of Speedway

the entire process of evicting the speedway which has been loved and adored by aucklanders for almost 100 years has been a mockery of our democratic process. I am extremely disappointed in the manner in which this entire exercise has been carried out.

The public have not once been consulted about whether they wish the speedway to remain. Before the speedway was even considered to be removed the people affected should have been consulted around what they wanted. and then the public should have been given a say in whether the speedway was to go or not. Consolidating both sports at waikaraka park is a mistake. The venue is unsuitable and both sports cannot share the same surface. generally fans of western

springs speedway cars are not fans of stock cars and vice versa hence why they have always been separate.

Give auckland a fair democratic process and explore options for the speedway to remain first. invest into the speedway promotion as TAU and develop the facilities around the speedway into a world class concert venue. the speedway doesnt need to go to achieve this.

Because I have grown up with the speedway there and it holds a special place in my heart. I went with my parents and I have taken my children and want to take my grandchildren. It is a tradition I want to stay and the history is important. Also it is the best place to watch the speedway. It holds so much fun for alot of people myself included.

Retain Western Springs SPEEDWAY. I have been a volunteer with Speedway on the crash crew for the last 25 years, it is an iconic almost 100 year old identity that needs to be retained, Auckland is losing to much of its heritage, this place has motor sport history that needs to be preserved and developed, it is recognized INTERNATIOANALLY in motor sport, don't throw this history away !

RETAIN WESTERN SPRINGS SPEEDWAY !

Western springs speedway is an Icon in sport.

World renowned.....

A world class facility for the use it iis designed for.

Me and my family have Ben going for years to a valued loved sport and stadium.

This holy grail should be a tourist attraction and a museum for motor sport.

There are plenty other venues for football.

Private ownership/lease for a local council owned venue..... ????? Crazy

Keep it speedway.

Option One is effectively selling WS for at least the next 100 years. What happens if the sponsors of Option One pull out of the deal in a few years to come ,as is often the case, when in years to come ,the commercial benefits they had planned on, don't come to fruition?

If you go with Option One, the savings to the Council don't take into account having to fund other facilities for P. Rugby Club to have to relocate e.g. setting up Cox's Park.

Go for Option 2 and allow P.Rugby, who have a historic connection to WS ,to continue and allow a great concert venue to be established outside of the larger Eden Park.

The soccer people already have North Shore Stadium, that I understand they are using now and is apparently underutilised at present.

That sounds like a bit of common sense to me.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

The public transport connections to western springs are not good! Having home games there would alienate AFC supporters from south / south-east auckland who currenty find it easy to get to Mt Smart. In addition, the proposed capacity is too small. Average attendance is well over 15,000 (the max. proposed capacity). Why is 15,000 considered sufficient? Is that so they can fill the stadium and jack up the ticket price?

A stadium connected to auckland rail network and ferries in the CBD is a much better investment for all Aucklanders. I think Anna and Ali want the ground at Western Springs so they can walk there since they won't be getting their chopper pad any more.

I think the Western Springs venue has done very well in the past but Auckland needs another venue besides Mt Eden which is getting old and has lots of problems with parking etc. Building an entirely new stadium near the waterfront which has been suggested is a huge waste of taxpayers money - better to update an existing facility to make it world class.

We have too many stadiums in Auckland and many of them are not fit for purpose. Western springs should be repurposed as a public greenspace like Hagley Park in Christchurch. Sporting and musical activities should be focused on existing stadiums and use these activities to increase their utilisation.

The speedway at Western Springs is an iconic, historic venue that had been artfully designed to fall away fro its former glory and popularity by the Council's management of the operating license, which enforced compromises on its use.

100% of the local residents moved there with full knowledge of the local speedway, which until recent times operated more frequently and for longer sessions. Thee people should not have a power of veto over something that long pre-dates them.

The Speedway could be re constituted and improved by adding a motorsports museum and advanced driver training centre that could be open every day. This would be a major tourist

attraction as well as providing much needed safety tuition on car handling for many city motorists who may not encounter slippery road conditions until they are in a real life emergency situation.

An upgrade to the facility would be beneficial, but not a stadium, the current infrastructure could not handle that many people with MOTAT and the Zoo. However, a Hollywood bowl facility seems appropriate.

Option two sounds more people friendly, accessible and affordable. The people who have proposed this option have "skin" in the option and therefore much more likely to be held acountable.

Speedway speedway speedway. 96years of history and one of the best speedway tracks in the world cannot be obliterated. Any other alternative is a travesty.

Also, my opinion, an extremely badly written questionnaire. Obviously slanted to option 1 where it's someone else's money for the council to whittle away. Shames on Auckland Council. Embarrassed to be part of the "super s ".

Speedway should have never been kicked out in the first place, it is an iconic Auckland sporting event with a long history, not only have you shafted everyone involved in speedway you have also stuffed another iconic Auckland sporting event by moving speedway to waikaraka park. Nothing was wrong with how the 2 operated as it was.

Western Springs has a great history and as it is presents a great place for families to visit. Speedway has always been a great family attraction, as have concerts. Building a high cost premium facility would just take away its unique character, and availability to general public for lower cost events. I say keep it as it is with Ponsonby Rugby Club extensions

Speedway should STAY!

To Whom It May Concern,

I am writing to express my strong opposition to any proposal that would see Speedway removed from its iconic home at Western Springs.

Western Springs Speedway is not just a sporting venue — it's a cultural landmark. It holds a deep place in New Zealand's motorsport heritage, having entertained generations of Kiwis and drawn fans from all over the country. It is one of the few uniquely New Zealand sporting experiences left in Auckland, and its presence enriches the city's character.

Auckland already has amazing attractions like the Zoo, MOTAT, and Kelly Tarlton's. But if we're serious about growing as a destination city, we need variety — and Western Springs Speedway delivers exactly that. It adds excitement and diversity to Auckland's offerings. International visitors don't just want shopping malls and restaurants — they want experiences. Speedway is an adrenaline-filled, family-friendly, and truly local experience that could be even better promoted as a tourism drawcard.

Removing Speedway would not be progress — it would be erasure. It would signal that our city prioritises the preferences of a privileged few over the cultural and community fabric that makes Auckland liveable, vibrant, and real. Decisions like these, when driven by development interests or noise complaints from new residents who knowingly moved near an existing venue, betray the city's working-class roots and public trust.

What's next? Will the Zoo be bulldozed to make way for a carpark and a cluster of fast food chains? Shall we replace MOTAT and the park with a private golf course? Surely not.

Let's preserve what makes Auckland special. Let's invest in venues that connect people, honour our sporting legacy, and inspire the next generation. Western Springs Speedway should not only remain — it should be celebrated.

I support Option one because there will be no initial cost to the ratepayer. Also there will be no blow outs in costs which seems to happen far too often with anything handled by the Auckland City Council

We have three sporting facilities in eden park, mt smart, nth harbour. Mt smart is easily the best football / rugby venue from a spectator perspective and has good travel options. It needs a spruce up. We don’t need a fourth. The location is difficult to get to with limited transport and parking options so a 15000 venue for sport will simply clog up central city area.

Speedway has been there for almost 100 years, and we have more than enough stadiums and sports grounds in New Zealand. Speedway must stay in its historical home. It will never work shifting into waikaraka either. That place is a s_____and doesn't have the capacity for Speedway crowds.

The proposal for this option should retain local connections and opportunities for local sporting groups, as well as providing opportunities for larger events to take place. Whilst costly, it appears to have less impact financially for local people. The prospect of Speedway returning will be well received, I am sure.

I have watched both Speedway and Rugby at the venue for almost 40 years

Both sports attract family audiences who are very much into their sport and it is unbelievable that it is a consideration to remove them at any stage

I get that the Council may be sustaining a loss at the venue however it's a cost attributed to a huge population who are ratepayers living in the city

Leave the place alone

Consultation Response: Western Springs Stadium Redevelopment

Thank you for the opportunity to provide feedback on the proposed redevelopment options for Western Springs Stadium. I would like to express my general support for Proposal 1: Auckland Arena, with some important considerations and suggestions.

Support for Proposal 1: Auckland Arena

I support Proposal 1 as it offers a compelling and ambitious vision for transforming Western Springs into a vibrant, multi-purpose community asset. The mix of high-performance sports

facilities, cultural and entertainment uses, and accessible community infrastructure represents a well-rounded approach that could deliver significant value to Auckland residents.

In particular, the inclusion of training fields, basketball and padel courts, and hospitality areas alongside a major stadium demonstrates a strong commitment to creating a space that caters to both professional and community use. I welcome this integrated approach and the potential benefits it offers across sport, recreation, and the arts.

Suggestions for Strengthening Proposal 1

While I support the direction of Proposal 1, I believe stronger safeguards around the public-private partnership (PPP) model are necessary to ensure that the public interest is protected over the long term. Key aspects to consider include:

- Transparent governance and decision-making processes throughout the lease period.
- Clear performance benchmarks and accountability mechanisms for the private operator.
- Guarantees that community access and affordability will not be compromised.
- Regular public reporting on the project's social, economic, and environmental outcomes.

Given the length of the proposed lease and the scale of private investment, these controls are critical to maintaining community trust and ensuring enduring public benefit.

Incorporating Elements from Proposal 2

One of the standout aspects of Proposal 2 is the emphasis on the natural amphitheatre and the evolution of the venue into a 'Hollywood Bowl'-style setting. I believe this concept has considerable merit and could offer a unique and iconic concert experience for Auckland. I encourage the inclusion of this natural amphitheatre design element within Proposal 1, particularly if it can be harmonised with the proposed stadium and park layout. This would enhance the cultural appeal of the venue while retaining a distinctive connection to the site's existing character.

Additional Considerations

To ensure the long-term success and sustainability of any redevelopment, I would also like to see:

- Better integration with public transport, including planning for increased capacity, accessibility, and safe, efficient movement to and from the site during major events.
- Enhanced provision for green spaces and natural areas, ensuring that development is balanced with environmental stewardship and opportunities for passive recreation, biodiversity, and climate resilience.

Conclusion

In summary, I support Proposal 1, with the following recommendations:

- Introduce robust oversight and public accountability measures in the PPP arrangement.
- Incorporate the natural amphitheatre concept from Proposal 2.
- Improve integration with public transport networks.

- Prioritise the inclusion and preservation of green space and natural elements.

I believe that with these refinements, the redevelopment can become a flagship project that delivers cultural, sporting, and community benefits for generations to come.

I don't think Auckland needs another sport stadium. My smart stadium works very well for transport and it is an excellent venue for viewing sport particularly football . I'm a AFC fan and I'm concerned that the smaller stadium is actually too small (the average crowds to watch all AFC home games this season was 18,000 there were also sellout games at capacity of 25,000) I'm worried that the new stadium will not be able to cater for the total audience most games that AFC play. With limited seating and high demand - I'm very worried that prices to view AFC games will become very expensive and in-affordable for the average AFC fan like me .. this will become an

“elitest” stadium where only wealthy people can view AFC and other sports playing .. it’s not going to be a stadium for all Aucklanders !

I would prefer the council to investigate other options particularly centering arround it traditional use as a concert venue. I believe the revenue could be better than currently stated. If the ongoing cost is a factor - then I suggest returning it and the adjoining western springs park to a pest free reserve / native bush sanctuary for birds similar to what has been done in Wellington city

Auckland FC has made an impressive debut in the 2024–25 A-League Men season, drawing significant attention both on and off the field. The club's home games at Go Media Stadium (Mount Smart Stadium) have averaged 18,101 spectators per match, the highest in the league and more than double the league-wide average of 8,788 . WIKIPEDIA AUCKLAND STADIUMS

Over the course of 13 home matches, Auckland FC attracted a total of 235,581 fans . The highest attendance was recorded during the derby against Wellington Phoenix on 22 February 2025, with 27,009 fans in attendance . Four home games were sellouts, highlighting the strong support from the local community. AUCKLAND STADIUMS

None of the other options mean there will be less noise. Also the size of the facilities being offered is dismal, you can not rely on Eden Park with it's lack of parking.

I attend speedway meetings and want a historic piece of Auckland to remain as it is with 96 more years of speedway to remain here. My vote is important even if council believes their opinion is the only one that counts-it does not. I pay rates, I have a say. Speedway brings families together and provides memories and entertainment...4 generations strong in my family. Council got rid of Pukekohe race track and said no to v8 super cars in Auckland central...speedway must remain.

Auckland already features stadiums for concerts and events, no more are required.

Western springs has been a dedicated open wheel racing venue for many years and should be retained as NZs premier international open wheel speedway. The merger with Waikaraka Park doesn't make sense as the track surface does not work for open wheel racing. This also poses serious issues around the racing schedules of both clubs

I am an 84 year old, my husband was heavily involved with SPEEDWAY for over 60 years.

If it is managed properly, it can be an asset to Auckland, it has a 100 year history that should be retained. It is an asset of Aucklanders, don't give away this to private individuals for their own gain. FOUR generations of my family have been supporting Speedway at Western Springs. KEEP SPEEDWAY AT WESTERN SPRINGS !!!!!!!

Speedway needs to included in the proposal. There has been no thought as to the loss of the associated spending of people that attend as competitors and spectators, for example accommodation for out of towners, and all the speedway car associated businesses. Alot of competitors and spectators, including my family, would most likely not move to Waikaraka park as it is such a below standrd venue.

The rules imposed by council, in recent years, especially the number of meetings allowed, has made promotion very difficult, and hard to make it economic. Given reasonable conditions speedway could thrive at the venue again.

No thought has been given to the long history of speedway at the springs, it is part of our culture! And has been since 1929.

It is a spectacular venue for speedway now, with a bit of spending on improving the track It could be even better and thrive. The alternative at Waikaraka Park is well below the standard for good racing and spectating and would need a significant amount more than the money proposed to upgrade it.

Speedway at Western springs can work with other users, as in the past with concerts. Rugby or another winter sport is a good combination, with speedway being a summer one.

This issue has been handled very poorly, with regards to consultation, and ability for speedway representatives to have their say. I think council has behaved very poorly on this issue, and so do many people I talk to.

Speedway and Western Springs has a set of belies that most families should adhere to. Over 65 years of attending I have only seen two public fights which were quickly settled by the fans. The family that attend all have tradition family values. So it's a great night out.

Over the years we have seen the best of the best race here. For those not involved in the sport you would not be aware that Western Springs is reputed to be the best stadium in the world. Why loose an icon, why loose a place where family values are plan and clear for all to see. Why loose an historic place. Why see a sport die as it will not survive anywhere else.

Speedway must stay at Western Springs.

My family supports option 3B

I have spent my entire life from the age of 6 weeks old attending and being involved with western springs speedway, I am the 3rd generation from my family to do so. Western spring has become a second home for me and my family who spend all winter looking forward to the racing in summer. Removing western spring will not only take it away from me but my family and thousands of others who have grown to love western springs. Taking away western springs will be taking away a huge part of Auckland's history that we will never be able to get back.

I've attended Speedway for the last 25 years, I have so many special memories attending with family. The culture of Speedway is like no other it's the perfect location. I used to live within 10 minutes and now I live an hour away out South and would travel to attend. Speedway needs to stay where the people are. My supporting documentation, is a photo of my late father, it's the memories we have and the times we want to share with our families.

A concert will be more loud than western springs speedway and will definitely complain even more with that amount of noise so that's a stupid option. Just keep it as it is. Stop being money hungry and pretending you are taking the people's concerns to heart cause your clearly not taking those people into consideration who work their, racing etc

My husband has been an avid Speedway enthusiast for years, attending every season without fail. Now, with a child of our own, we continue this cherished tradition. Despite living in South Auckland, we make the journey to Western Springs because it's more than just a race track—it's a place where memories are made, where families bond over shared experiences, and where generations come together to celebrate a beloved sport.

Since its inception in 1929, Western Springs has been the heart of Speedway in Auckland. It's not just a venue; it's a legacy. The roar of the engines, the thrill of the races, and the camaraderie among fans have been woven into the fabric of our city's culture. To many, it's a rite of passage—a

place where parents introduce their children to the excitement of Speedway, continuing a tradition that spans generations.

Relocating the Speedway to Waikaraka Park may offer a new facility, but it cannot replicate the unique atmosphere and history that Western Springs provides. Speedway's soul resides in Western Springs, and its closure would mark the end of an era that has shaped the lives of countless Aucklanders.

I urge you to reconsider this decision and find a way to preserve Western Springs Speedway for future generations. Let us not allow this cherished part of our heritage to become a thing of the past.

Morally and ethically you are being bullies , speedway has run there for nearly 100 years and should not be forced out for something new and shiny. history should be preserved and supported where possible and this is a simple case of that.

Keep Speedway events at this venue as its been a family favorite outing for us for the last 50 years. My Dad took me there back in the 70's and now my children take their children to watch the racing. There is so much enjoyment to be had and really want to keep enjoying this world class racing satium

If he estimated cost to the ratepayer of the existing arrangement if the lease with Ponsonby Rugby Club was extended is $31.1 million spread over a 50-year lease period.

Exactly what is the predicted cost to rate payers for option 1 and 2 then ?

Submission: Support for Retaining Speedway at Western Springs Stadium

I chose to support the continued use of Western Springs Stadium for speedway because it is the most logical, community-supported, and economically sound option available. Speedway has a long and proud history at Western Springs, and it deserves a future that reflects its cultural and sporting significance to Auckland.

To ensure its sustainability, speedway must be granted a long-term lease and commercially viable operating conditions. This would provide the stability needed for investment, planning, and growth—just as other major venues in Auckland have been supported. For example, the Council amended the Unitary Plan to accommodate concerts at Eden Park. Speedway deserves the same consideration and support through appropriate planning changes that reflect its value to the city.

Western Springs is already a proven multi-use venue. Speedway has successfully coexisted with other events, including concerts and rugby, demonstrating that it can be part of a vibrant, shared community space. Rather than displacing speedway, we should be embracing its ability to contribute to a diverse and dynamic event calendar.

It is also important to acknowledge that stakeholders, fans, and the wider public were not properly consulted in earlier stages of this process. This lack of engagement has led to frustration and a sense of disenfranchisement among those who care deeply about the future of speedway in Auckland.

As a ratepayer, I would much rather see my contributions go toward supporting a well-loved, community-driven sport at Western Springs than many of the less impactful expenditures currently undertaken by the Council. The way this issue has been handled has eroded my trust in Council staff and some elected officials. It has felt dismissive of public sentiment and lacking in transparency.

Most Aucklanders I speak with share my view: they want speedway to stay at Western Springs. It’s not just about tradition—it’s about making smart, inclusive decisions that reflect the will of the people and the best use of our city’s resources.

As a loyal family member of Ponsonby Rugby club for over 35years it would be a shame for them to lose their current club rooms after the extensive renovation work completed after the devastating Auckland Floods. Seeing the demise of other rugby clubs in Auckland is sad , don't let a club like Ponsonby lose its place in Tāmaki too. Ponsonby rugby brings together families from all walks of life around the area. Giving families a chance to interact and mingle in a safe community settings. Families that would never have normally socialise together due to socio economic climates. The connections this club unites is unlike any other community centre in the area. Don't let them go to ruin.

I think this is a smart and exciting plan that balances big picture thinking with local needs. Upgrading the venue to host large scale concerts and festivals, with permanent staging and better infrastructure, makes perfect sense. Western Springs has always had a natural amphitheatre feel, and turning it into something like a "Hollywood Bowl" would bring incredible cultural and economic benefits to Auckland. I see this as a well balanced proposal that respects the history and identity of Western Springs while helping it evolve into something even more special for the future. Keeping Ponsonby Rugby Club on site and looking at ways to expand into other sports like basketball, netball, and touch shows that the plan supports everyday Aucklanders too.

Western Springs Speedway and it's near 100 year heritage to remain, enough under utilised stadiums as there is and suddenly all go for soccer? Doesn't take a genius to see hidden/pushed agenda's and the fiasco with moving soccer there. Which can literally nearly go anywhere.

It's frustrating to see how the council has handled the speedway issue — I've lost faith in both the staff and many councillors. Speedway is part of Auckland's heritage and can successfully co-exist with concerts and rugby at Western Springs, just as it has before. The Unitary Plan should be changed to support this, like it was for Eden Park. Ratepayers' money would be better spent backing speedway than on many of the current council priorities.

Speedway has proven it can share Western Springs with other events like rugby and concerts, and it deserves the same planning consideration Eden Park received. Changing the Unitary Plan to support a multi-use model would benefit everyone. Most Aucklanders I know would rather see ratepayer money go toward keeping speedway than many of the current council expenses.

The council's handling of this issue has been disappointing, and I've lost trust in many of the decision-makers involved.

Speedway should remain at Western Springs with a long-term lease and proper support to operate successfully. I'd much rather see ratepayer money used for that than on other less-valued council projects. The public was never properly consulted, and many Aucklanders I talk to want the same thing — a fair, transparent process that protects local culture and events.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

The council should give speedway a long-term lease and create fair commercial conditions for it to operate. This isn't just about motorsport — it's about fairness, community, and smart use of ratepayer money. Speedway can share the stadium with other events, as it has in the past, and deserves the same planning consideration Eden Park received. Most Aucklanders I know agree.

We are in need of a new stadium in Auckland to accommodate for the capacity of growth that sports, particularly football is occurring in Auckland and the neighbouring regions. I also think it would be awesome to have another concert venue with high capacity as trust arena has such an early cut off time.

Speedway has been at the Spring for nearly 100 years. It is the home of speedway. I personally have been to scores of concerts featuring the best international bands and solo acts in the world creating memories that last a lifetime. It’s time council pulled there head out of the sand and listened to the people

I believe in democracy and that the council is there to serve the people and the people do not want the AFC and the billionaires to make the decision for us. The Western Springs Speedway should remain and the AFC should stay where they are. The council is NOT listening to what it's rate payers are wanting yet again.

Auckland arena would allow for development in sports like nothing before seen in New Zealand. This type of space is what you see in all other country's but nothing seems here. It would then be cool to see the nz Football Ferns/All Whites base themselves here and have it as a space that enhances football in nz all aorund

I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I am part of a cultural or community group with an interest in the area

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I don't think the other plans are feasible.

There are too many downsides and too few upsides to those ideas.

Keeping things as they are is currently the best idea.

Our family have been going to Western Springs stadium for 35 plus years. With its natural amphitheater setting and great facilities, family friendly it's a wonderful place to attend. Over these years we have mainly been attending Speedway as competitors and spectators. The history of the place is iconic. Whenever overseas drivers and teams come they are astounded at the facilities and crowds that attend Western Springs stadium. It would be a shame to see this wonderful stadium end after all this time.

I would like to see Western Springs Speedway retained at Western Springs. I have attended Speedway since the 1990's on and off, and took both of my children there to watch from a very young age. There is a special feeling to Western Springs, it is hard to describe, but I have fond memories of seeing familiar faces there, and enjoying the excitement of the racing. I was so saddened by the decision to cease racing there, that I decided not to go to the final meeting, but chose to instead just remember how Speedway used to be, and the fond memories I had of it. Please reinstate Speedway, I would love for my children's children to have the same experiences my children had.

Speedway is something I grew up with since I was a young child as a family tradition. My own children and grandchildren all follow and love speedway and I don't believe the proposed change to Waikaraka park will accommodate the special conditions or its supporters. Speedway has been an iconic sport at western springs for multiple generations and needs to stay that way

Keep speedway at western springs as 96 years of speedway is a great achievement and should be retain there , also keep rugby and concerts there too

The way the Council voted to move speedway and others out of western springs was rushed ,messy ,untidy , and not quite legal. Was very disappointed to see this .

I support Western Springs Speedway being able to continue, in the fantastic facilities they currently have, in the home they've always had. It is a staple and iconic part of Auckland, to lose it would be a travesty for the city and our motorsport. The rugby fields are still in great shape for the Rugby Club, the stadium is unique which could draw concert goers and the race track is built-in and one of the fastest and well-reputed tracks in NZ - it draws in international racers and crowds on the big event nights, which supports Auckland's infrastructure.

Western Springs has been the backbone of entertainment for 100 years and a huge and a very important part of New Zealand Motorsport for many decades. This place has helped grown many of our past and present racing legends as well as seen some of the greatest the world has ever seen. As long as this place stays open it'll draw in crowd numbers and a very high level of motorsport competition and music entertainment. For so many people in Auckland and around the nation have witnessed some truly remarkable events and moments that makes Western Springs stand out on the global stage.

I have been attending speedway and some concerts since 1960. My dad used to race push bike there then many of my family and extended family have been attending or racing at the venue in many of the sections. I have had 4 generations race there. It would be a great shame to see a venue with so much history disappear. Please save our spring as one of the top venues in NZ. Enjoyed by many oversea competitors asxwell.

Thank you for your time.

Western Springs is known all over the world as an iconic speedway. Why are we fighting to save it? It shouldn't have ever come to this. The speedway is historic to Auckland, it would be an absolute disaster to lose it. I along with so many others have wonderful memories of all my evenings spent at the speedway. It would be heartbreaking if I couldn't continue to make more in the years to come.

There are already large stadiums, where would anyone park? There is no train station close by. It works well as it is having various concerts festivals and the speedway, there are only 2 venues in the entire of Auckland to watch speedway and this one is being lost for something Auckland doesn't need in that community.

The speedway has been and will be an integral part of the racing community. Teams come from all over the country to participate.

They are one of the few places in this country where people who love motorsports can attend a safely hosted event. Pukekohe recently had their speedway removed and the community has been affected and disappointed ever since. It certainly does not bring the revenue any more or the passion.

Speedway at Western Springs is an integral part of Auckland's culture. It's tied to that location, and is perfect for that location. Moving Speedway will both reduce the colour and vibrancy of West Auckland and it will harm Speedway in New Zealand permanently.

I am 72 years old. When I was young, going to the speedway at Western Springs was a family outing, and a real treat fir us all. Now I can take my Grandchildren there. It's a real thrill for all generations, to have this place to go. Not only for the public, but for our up and coming young drivers...so they have the chance to become top in their league..Young people today, spend too much time on devices, and you all should be proud of any of these people, young or older, that have found this niche in their lives, and to carry on with tradition in the sport that they love

Not only for the great sport, but also for concerts..My first concert there was Led Zepplin in the 70s, and I have been to many more since then.

This place is an icon, and should remain as it is,and for what is was built for...

SPEEDWAY, AND CONCERTS.

Thank you.

Rather than "change" western springs stadium into something else, allow it to continue with its motorsports heritage, but modify the place to make it useful for other things. Concerts (some of the best ever concerts have been there), sports, etc.

I have been going to Western Springs for the past 63 years. As kids we watched speedway. My mum worked in the canteens. My brother then walked around selling food. As a teenager and young adult we attended many a concert. If people are again st the noise etc they should not buy near .there.

I truly believe that western springs speedway is a huge part of Auckland and New Zealands history i have attended events here since I was a little kid and have loved every moment at the springs most of my found memories are from this venue it's truly not like any other race track we have and it holds a very special place in people's hearts and getting rid of the speedway will make all of the dirt track community extremely heart broken, as we look forward to the speedway meeting at this glorious track.

Speedway has a family focus and should continue at western springs as the vast majority come from the Western/ Northern areas of Auckland.

Western springs should remain a SPEEDWAY, as it always has been, the sport thrives at western springs and has a rich history spoke highly of around the world. The alternative home for speedway being onehunga is a terrible venue for open wheel racing itself and from a spectators perspective. History matters, and speedways history locally and globally is western springs.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I strongly want the speedway to stay, I don’t think a lot of people realise how special and unique it is.

I took my daughter to one of the December meetings thinking it was the last one, telling her that it’s now or never. She had never been, every time I suggested it to her over the years it was a shake of her head and a no.

Well we went that night and it blew her mind, the whole atmosphere was amazing.

We then went every night that we weren't away.

We then went to Bay Park, Kihikihi for the sprint car champs and then down to Ruapuna for speed week.

It would have been so much cheaper to not have taken her to that first race meeting!

I'm not going to knock the other tracks or clubs because they are all passionate about what they're doing for the drivers, fans and community. But they are not a patch on what we have at Western Springs, it' really is something else.

Even listening to Johnathon Allard describing what it looked like when they flew him in for the 50 lap race, there's nothing else like it in the world! And he should know.

The other thing is that Western Springs and Ruapuna are the only true open wheel race tracks.

The others have a mixture of stock cars, saloons etc.

To a lot of people they wouldn't know the difference but to the fans it's like night and day.

At the sprint car champs at Kihikihi we noticed quite a few people leaving after the last stock car race. It's what they had come to see and weren't interested in the sprint cars. They missed out on one of the best races ever.

What I'm trying to say is that like rugby and rugby league they play with the same ball but they are not the same game. One is not better, the players and fans are generally passionate about one and not the other.

It would be like closing Eden Park and telling the Auckland rugby club that they have to go to Mt Smart and work together. Don't think it would ever happen but that's what you're asking of the Speedway.

There was also massive support from the Canterbury speedway saying that Western Springs needs to survive for the good of open wheel racing.

I hope I haven't rambled too much but it's a huge decision you have to make and 96 years should also stand for something.

I have been to may concerts at Western Springs and it is a great venue. Auckland is sadly lacking outdoor concert venues. A bowl would be excellent for other events as well, such as Poly fest.

I feel as though it'd be criminal to move Western Springs Speedway from there, considering it has been there for almost a century. It's got so much history, memories, and means so much to so many families out there who have been going for generations. It has an atmosphere that you cannot beat let alone find anywhere else. It truly is a gem nestled right in the middle of Auckland. It would be cool to see Western Springs used for multiple other uses along side speedway, it really would be an amazing place to hold concerts at again. I do not agree in the slightest with the processes and of how this has been handled. Quite frankly this has made me loose so much trust in Auckland council with how they have gone about this. The fact that the mayor was spreading so many blatant lies and misinformation is down right disgusting and incredibly unprofessional. I am

disappointed at the fact that it has taken Auckland Council this long to take into the consideration of what the people and ratepayers want. It felt like it was only about money and who was going to bid the highest for it which is just wrong on so many levels.

Let speedway hit 100years and then do it, bunch of bullies pulling the pin before they reach it - its not that far away. There should also be a facility for the speedway to move to, you can't just take away a full venue that people use and spend lots of money maintaining cars to do it. Just a shame.

Western Springs Speedway is an integral part of many of the lives of not just the participants but also spectators and fans of the sport. It has and I believe would continue to be a commercially viable option. The venue has been multi use with the space shared with speedway, concerts/music festivals and sports games. The history has been built at the stadium and I believe should continue for further generations to enjoy all it provides.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I have chosen Option 2: Western Springs Bowl because it offers a balanced and forward-looking approach that enhances the venue's potential as both an entertainment destination and a community sports hub. By evolving the existing natural amphitheatre into a Hollywood Bowl-style venue this option attracts cultural and economic benefits through high-profile concerts and festivals. At the same time, it supports grassroots and semi-professional sport by expanding facilities for the Ponsonby Rugby Club. This dual-purpose model maximizes the year-round use of the site and provides lasting value to both the local community and the wider region.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I would like to see speedway reinstated to use Western Springs. My dad has been going for 70 years and introduced me to speedway when he used to take me along as a young boy. I know have the pleasure of taking my elderly dad along to every speedway meeting of the season.

Western Springs Speedway has seen and continues to see some of the best open wheel racers racing every season. Everyone that races at Western Springs, whether they are locals or the unbelievable talented drivers from the U.S.A. or Australia all say that Western Springs is the best track etc in the world. It will simply never be replicated or replaced.

It is something that has been an institution since 1929 and should remain exactly that.

Western Springs should be used for SPEEDWAY

I will not travel 2 hours on a train that often do not run

Current stadium is accessible but road rail or bus.

Cost of travel being in a ful 25000 stadium creates the atmosphere required for a football match.

AFC is not an epl team with 100,000 attendances it should support those that have supported their first year

I believe you may gain northern supporters but lose the grass root southern crowds

The current arrangements don't include speedway anymore so back to the drawing board.

Auckland needs at least 2 speedway venues. Trying to lump SNZ and Stock & saloon car racing together in one venue is akin to mix rugby and soccer together. While possible very less than ideal given the number of weekend race nights available throughout the summer season not including rainouts.

Also western springs venue with its concrete arena attracts the afternoon sun which gives it a warm feel into the evening whereas Waikaraka is a cold damp hole.

We don't have enough courts in Auckland to support the demand across all indoor sports which is impacting our ability to deliver consistent leagues.

Basketball is a growing sport, we have over 100,000 tamariki and rangitahi who want to play basketball and we know it appeals to a wide demographic which means the opportunities for growth are huge.

There is growing demand for basketball which is projected to be the #1 participation sport in NZ high schools by 2026.

It is the #1 recreational activity for tamariki and the #1 consumer sport for rangatahi (16-24).

As identified in the Auckland Council Sport and Recreation Facility Plan there is a current shortfall of 73 courts across the Auckland region.

Playing basketball comes in numerous forms, 3x3, 5x5, informal formal, and provides not only activity for our community but connection and sharing, and support for personal wellbeing.

We use facilities across the wider Auckland area which we share with many community groups so access is limited which means a lot of people are missing out on the opportunity to participate.

I want to keep speedway racing at western springs. You can absolutely look at other uses. but speedway must stay and increase their season to have more races there. The whole way this process and conducted is disgusting and should be an absolute embarrassment to the council people involved. Even your list putting your obvious first choice at the top and splitting option 3 in half with A and B and misleading people with “keeping things as they are” because you have already booted speedway out.

Speedway should be given a 30 plus year lease extension as a minimum and it should have funding increased and the dishonourable and deceptive council staff should be held responsible for their actions. Shame on the Auckland council

Edan

this option is more truly community orientated. we don't need another stadium - to accommodate a proffessional commercial team - with no community roots - at the expense of amateur club that has been part of this community for 150 years.

What's wrong with North harbour ? - let the billionaires develop that - Auckland FC can hsve a home there -

Our family has supported Western Springs speedway for 90 odd years my Father Eric and his brother Jim Wakeling came down the bullet track on a horse and cart and heard a noise on investigating they witnessed the second ever practice of Western Spring speedway . We have 6th generation connection to the iconic venue and have meet a lot of people become lifelong friends .. Jim Wakeling went on to be patron speedway supporters club with Sir Dove myer Robinson our former mayor of Auckland city .Jim Wakeling who owned ambrosia florists supported the b grade solo motorbikes something that's is lacking in the city at the moment With all the boy races that could be encouraged to race and controlled safe for the public environment ..

I have been attending the springs since the age of 1 now 39. It has been huge part of my life with my family and friends. Would love to see it keep being used as a speedway. Even if it was limited events per season.

The track has been around long before people living in the houses moved in. Maybe you can relocate them. Someone into speedway would love to have that at there back door.

We don,t need any more sports stadiums ,upgrade Eden Park with that money and because some wealthy ex sportsperson comes along with a bucket of money it seems some councilers are maybe getting a back hander for the outcome of there decisions ,leave things as they are by listening and doing what the ratepayers and the general public . Why destroy such an ironic facilaty for the satisfaction and greed of such a few .

I think western springs needs to retain its world renowned international speedway venue. This is an internationally acclaimed track (the supporting facilities need an upgrade), that has historical significance. Other sports can still operate alongside, as they do now.

If you get rid of this, why not bowl the museum too?

All the entities with big money can readily creste new facilities elsewhere, the waterfront is but one example.

Auckland needs to stop destroying its own culture and heritage.

Western Springs Speedway is a place of fun, entertainment and excitement.

It is a place that holds history. Having been a spectator myself for 40 years, to which I now bring my own children to, I am an offspring of a speedway fan of 70 years and he is an offspring of a speedway enthusiast.

Save Our Speedway!

Private equity should not get control over council owned property. The current arrangement allows for multiple groups to make use of the space. A private group would prevent groups from effectively using the space and would drive up the operating costs for community groups that would seek to use the space.

I think that it is a very bad idea to have private facilities on a council owned facility. In addition, the speedway should remain there sharing with the sports clubs on the infield. There was poor and ineffective consultation or engagement with the public and wider city around previous decisions. The speedway is a world class draw card for Auckland and the needs of the sport's fan base should be considered rather than just a few noisy petitioners dangling money to effectively steal arguably the most iconic Motorsport venue in NZ. The Council needs to consider speedway as a sport that is part of Auckland also rather than trying to ignore it and accurately engage with the western springs fan base..

I have been going to Speedway events since 1970's as spectator and a keen supporter all the different forms that have raced there over the years.

I moved to the stockcar track when noise controls for Ed the Sprint cars to reduce the number of races they could hold in a night, it isn't the same. It is a different type of culture and racing and the two do not mix well.

I have been attending western springs speedway, concerts, Motat and sports events for over 50 years. This area has significant historical heritage for local IWI and generations of whanau living not only locally but far and wide throughout New Zealand and overseas. Once it's gone we can never replace such a historic site. Let's take a hard look at ourselves and look at other options what fits our next generation of whanau.

I am an Auckland rate payer. I do not believe that this is a project that should be funded by rate payers.

Private investment will mean an asset for the city, which Auckland residents and others will benefit from without requiring rate payer funding.

Creating a home ground for Auckland AFC will be an advantage too. Just as Go Media Stadium is recognised internationally as the Auckland home of the Warriors and Eden Park for the All Blacks.

I have been a avid fan of western springs speedway since my family moved to auckland from christchurch in 1980. As a youngster we would go to Woodford Glen or ruapuna park in christchurch.

My father sponsored a sprint car during the mid 1980's. With this I thoroughly enjoyed bring involved behind the scenes of a driver at the springs. Plus what better way was there for a young 16 year old girl to spend her Saturday nights.

I now have children of my own who have also enjoyed western springs

Speedway.

I can see no genuine reason that Speedway should not stay where it is. The locals are fully aware it id there and if they don't appreciate it, then don't live there. Although I am sure they enjoy the odd concert!

What funding does Speedway actually receive from the council?

Is having it a few Saturdays per year such an issue?

Ponsonby Rugby and Speedway Racing should remain at Western Springs and the existing facilities should continue to be used for concerts and cultural events. In other words, no changes are necessary and none of the longstanding users of this facility need to be evicted.

I am 6 years old. I go to Speedway with my dad because he really loves it, and now I do too. It's something special that we do together.

Speedway is part of our family time, and I want to keep going to Western Springs with my dad like we always have. It's a fun place where we see people my dad knows. I like hearing them talk about Speedway because we all like the same things. That makes it even more fun and special—more than just watching the races.

Even though I'm still young, it fills my bucket with happy memories that I will always remember.

Western Springs has been a big part of many families for a very long time. If Speedway moves somewhere else, it won’t feel the same. Please let it stay where it belongs.

Thank you for listening.

My grandfather took my father,brothers and sisters from Mairangi Bay to Devonport to catch the ferry to Auckland. From there they bussed to Western Springs to watch the speedway. Then bus and ferry back to get home. Seven children is dedicated. My father then took my brother and myself to Western Springs. Then it was my turn with my wife and our three children. Western Springs covers many generations and should continue to do so for many years to come.We have also been to many concerts at Western Springs.

Speedway is a way of life for me and my family. This venue has seen my late father volunteer as St John in field ambulance support as well as seeing family and friends compete. Although Waikaraka Park is available it is a poor cousin and always will be.

It has always been Speedway at Western Springs, and it should stay that way.

For generations, Speedway has been part of our family bonding on weekends during the racing season. I've been watching Speedway for many years, and now it's even more special because I get to share it with my wife and our daughter.

I have friends who used to race at Western Springs, and now their children—and even their grandchildren—are taking part. That's how deep and meaningful this tradition is. It's not just a sport—it's a legacy, passed down from one generation to the next.

I hope this continues, so that one day my daughter can bring her own children to Western Springs and carry on this family tradition.

Speedway doesn't just bring families together—it also connects friends, neighbours, and the wider community. It's a place where people come together to enjoy something they love, and in doing so, create bonds that last a lifetime.

Western Springs is more than just a venue. It is history. And history should remain where it began. If Speedway is moved, it simply won't be the same.

That natural amphitheatre at Western Springs is ideal—not just for Speedway, but for concerts and other events. Why take that away for the benefit of a few wealthy developers?

This place belongs to the people of Auckland. Yes, there are ways to generate profit—but not at the cost of destroying something so meaningful to so many families. Financial gain should never come at the expense of tradition, community, and heritage.

Please protect this history. Keep Speedway at Western Springs, where it belongs.

Rock The Vote NZ firmly endorses Option 3B—keeping Western Springs in full public ownership while inviting limited-scope proposals, foremost the return of Speedway. Tātaki Auckland Unlimited (TAU) itself notes that 3B "allows other proposals to be explored, including the return of speedway"

Independent analysis shows that Option 3B can be explored within the existing $31.1 million long-term maintenance baseline—far less than the up to $107 million of projected cost exposures under Option 2, and without the risk of a 50+25+25-year lease transfer to a private entity as in Option 1.

Why we support Option 3b

We are firm believers in the comeback of speedway. The sport ran for 95 years at Western Springs and, at its peak, attracted more than 100,000 fans over a 12-meet season, based on promoter statistics supplied to the Western Springs Speedway Association (WSSA). To put that into perspective, the latest figures available supplied by Auckland Council and presented by Mayor Wayne Brown show total attendance for the 2023-24 season is barely 12,800. This fall-off is indicative of under-investment and a shortened events calendar more than of any lack of public interest.

Maintaining the status quo, which the Mayor claims loses the city approximately $1 million a year, is therefore not an option; all city facilities should at least break even. Option 3B enables Council to test new revenue sources—primarily reinstating speedway—without relinquishing ownership. If the venue held eight major shows a year that drew a crowd of 20,000 and had tickets averaging $45 (2025 prices), total ticket sales would be around $7 million for the season. By being frugal with their finances, this amount of cash would put Western Springs back towards breaking even or even into profitability, showing that public ownership and purposes for decades can be economically viable.

Figures retrieved from

https://speedcafe.com/speedway-news-2025-western-springs-update-waikaraka-park-wssa-high-court-details-reaction-statement/

Notes on the other options

Option 1 represents a major private investment which locks up to a 100-year ground lease, and this alone is a red flag for us. Rock The Vote NZ is generally in favour of the Council retaining its public assets and relying as little on rates as possible. Option 1 looks to us like a long-term privatisation of Western Springs disguised as a gift. The $300 million investment tagline from the outset sounds like a massive marketing gimmick to us. If the Council pushes ahead with Option 1 as the TAU recommends, we would strongly advise reading any contracts and signatures required with a fine-tooth comb—for example, ensuring the private sector doesn't sell off its assets close to the lease running out to retain more profits. Do not allow the private sector to roll over the community in this endeavour.

We believe that Option 2, while slightly more sensible than Option 1, still has too many issues. It promises a new concert playground that Auckland neither needs nor can afford. It duplicates facilities at Eden Park and North Harbour, siphons ratepayer capital into private hands, and still leaves ratepayers facing up to $107 million in long-term costs. Option 2 formalises the permanent removal of speedway—an activity that operated at Western Springs for nearly a century and helped shape Auckland's cultural and sporting identity. We believe in protecting our heritage as best as possible.

For Option 3, we note the potential confusion created between 3A and 3B; perhaps it should have been Option 3 and 4 rather than 3A and 3B, just for the sake of alleviating confusion. There may be some that think Option 3 represents going back to the original system when in reality it just represents the last few months.

As we said before, we assume Western Springs is currently in the negatives and believe something does need to be done about keeping it at least breakeven; thus, instead of 3A, we have advocated

for 3B to look for new ideas. We endorse the TAU's own note that Option 3B “allows other proposals to be explored, including the return of speedway.”
