Te Kotahi a Tāmaki – Marae Collective

Submission from the TKAT - Marae Collective on the Draft Local Board Plans 2026–2029

Purpose

This submission reflects the aspirations and priorities shared by marae representatives across two regional hui facilitated by Auckland Council on 31 March 2026 and 6th July 2026 as part of the development of the Draft Local Board Plans 2026–2029 through community partnership agreement.

The first hui, held on 31 March 2026, focused on understanding the aspirations, challenges and support needs of marae across Tāmaki Makaurau. The second hui, held during the Draft Local Board Plans consultation on 6th July 2026, provided an opportunity for marae to review the draft plans, discuss local priorities and identify opportunities to strengthen partnerships between marae, local boards and Auckland Council.

Together, these discussions highlighted a shared vision for stronger partnerships, meaningful engagement, investment in marae capability, and greater recognition of marae as trusted community leaders and connectors.

Marae play a vital role in supporting whānau, preserving te ao Māori, strengthening communities and responding to local needs. They provide cultural leadership, social support, emergency response, and opportunities for whānau to connect, learn and thrive.

We welcome the opportunity to contribute to the Draft Local Board Plans and encourage all 21 Local Boards to continue strengthening their partnerships with marae over the next three years.

Our Recommendations

1. Build enduring partnerships with marae

We encourage all Local Boards to move beyond one-off consultation and establish ongoing relationships with marae throughout the work programme. Early and meaningful engagement enables better decision-making and ensures Māori voices help shape local priorities from the outset.

We also encourage more opportunities for elected members to meet directly with marae through regular hui, site visits and community-led conversations.

2. Recognise marae as trusted community partners

Whānau who may experience barriers to participation, and communities who are less likely to engage through formal consultation.

Local Boards should continue working alongside marae to reach these communities and support more inclusive engagement across Tāmaki Makaurau.

3. Invest in strong, sustainable marae

Marae require ongoing investment to continue delivering for their communities.

We encourage Local Boards to advocate for initiatives that strengthen:

- governance capability
- operational sustainability
- legal and compliance knowledge
- tikanga leadership
- community engagement capability
- emergency preparedness and resilience.

Clearer information about Council funding opportunities, criteria and application timeframes would also help marae plan more effectively.

4. Support rangatahi and whānau wellbeing

Rangatahi should remain a key priority across all Local Board Plans.

We encourage Local Boards to support initiatives that:

- strengthen cultural identity and belonging
- improve access to sport, recreation and wellbeing programmes
- provide wraparound support for tamariki and rangatahi
- create more opportunities for rangatahi leadership and participation in local decision-making.

5. Strengthen Te Tiriti partnerships

We acknowledge the distinct roles of both mana whenua and mātāwaka and encourage Local Boards to continue honouring Te Tiriti o Waitangi through meaningful partnership, early engagement and opportunities to contribute to decision-making where appropriate.

Planning processes should also recognise that whakapapa and iwi relationships extend beyond Local Board boundaries, allowing marae and iwi to contribute to multiple Local Board Plans where relevant.

6. Encourage collaboration across Tāmaki Makaurau

There is significant value in creating opportunities for marae to connect with one another, local boards and Council staff.

Regional hui, expos and networking opportunities would support collaboration, knowledge sharing and stronger relationships between Māori organisations and Auckland Council.

Summay

The Marae Collective welcomes the positive relationships that continue to develop with Auckland Council and Local Boards.

We look forward to working in partnership to ensure Local Board Plans deliver meaningful outcomes for Māori communities and reflect the aspirations of whānau across Tāmaki Makaurau.

By investing in long-term relationships, recognising marae as trusted community partners and engaging early in decision-making, Local Boards can strengthen outcomes not only for Māori, but for the wider communities they serve.

Organisation: Te Taumata Toi-a-Iwi, Auckland regional arts trust

Local Board: Regional Organisation

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   As the regional arts trust for Tāmaki Makaurau, Te Taumata Toi-a-Iwi recognises the Henderson - Massey board's support for local arts, culture and heritage through its support for the Corban Estate Arts Centre, the Creative Henderson-Massey initiative and the Arts Broker service.

   We would suggest this commitment is reflected more strongly in the board plan to recognise the importance of toi Māori, and arts, culture and creativity events and programmes in helping communities celebrate diversity, involve young and old in the community, and make community places and open spaces welcoming and safe for everyone.

   Investment in arts and culture can also support other board goals, such as supporting town centres to thrive and adapt to growth and making the board's urban villages and neighbourhoods attractive. Arts, culture, and creativity events and programmes encourage people to visit their local centres, bring diverse local communities together, and build social connections.

   We look forward to seeing continued collaboration between the board and your local arts and culture organisations and practitioners to explore opportunities for further development.

   Our submission on the draft Henderson-Massey Local Board Plan centres on outdoor access and connectivity within and through the local board area.

In particular we are involved in key community-led projects that have specific access and connectivity objectives – and we support their inclusion in the Local Board plan.

The Commission supports Revive Rathgar: Revive Rathgar is a group of organisations, schools, community facilities and individuals who have come together to enhance local identity and support a safe, attractive neighbourhood in the Rathgar Road area.

The Commission has been assisting the local community to identify walking access connections that are key to community identity and connectivity.

Following multiple hui, discussions and planning sessions, the community developed a series of actions that they feel are vital to the outcomes of the plan's Built Environment objective - Urban villages and neighbourhoods are attractive, vibrant, with their own local identity

Here are the actions the Rathgar community are asking for:

- Local board support for student-led murals – to enhance alleyway environments and reconnect schools and early childhood centres.

- Achieving the direct wish of community for a pedestrian crossing on Larnoch Road near Roseridge Rest Home - to reconnect residents with their local shops.

- Improved lighting and maintenance for local alleyways to promote them as safe and efficient walking connections for all ages – starting with Pinedale Place (2 alleyways) and Kingdale Road to Kingdale Reserve alleyway.

We propose that these initiatives are specifically included in the Local Board Plan.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

I don't know

Tell us why

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

The Commission endorses the Transport priorities listed in the draft Local Board Plan for a well-connected walking and cycling network across Henderson-Massey:

- Use the ‘blue-green’ network to expand our network of local paths
- Improve walking paths to Henderson town centre from the City Rail Link platforms
- Complete the Wai Horotiu Henderson cycleway and bridge
- Make it easier for people to get to and from public transport , focusing on the “first and last leg” of that journey.
- Continue the funding partnership with the government to complete Te Whau Pathway.

6. We have limited resources. What should we focus on most?

We have recently recognised Te Whau Pathway and Environment Trust for their mahi in completing a major portion of Te Whau Pathway, and we endorse the Local Board continuing to partner with government to complete the pathway as a key priority investment for the future.
With a walking catchment of 100,000 people - including 35 schools with a total of around 17,000 students - the pathway is a critical community connector to the natural environment, designed to embed active recreation and wellbeing in growing a healthy future for West Auckland.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

The Tree Council
Tiakina Rākau • est 1986

Submission - Henderson Massey Local Board Plan 2026

15 July 2026

From: The Tree Council
[redacted]
info@thetreecouncil.org.nz

1. Introduction

1.1. Thank you for the opportunity to present The Tree Council's submission on the proposed **Henderson Massey Local Board Plan 2026.** This submission is made by The Tree Council, an independent, voluntary organisation, a non-profit incorporated charitable society which has been serving the Auckland community since 1986 in the protection of trees and as advocates for the significant benefits and services that our trees and green spaces provide.

1.2. Your draft states that this plan sets direction to protect, restore and improve our natural environment so that ecosystems can thrive and adapt to a changing climate and environmental pressures. You state that the local board will support ways to achieve positive outcomes for the environment that restore ecosystems, improve water quality and support climate adaptation.

1.3. The Tree Council applauds these initiatives and intentions, and provides the following comment and recommendations.

2. Maori Outcomes

2.1. We commend you for your support for establishing a marae at Te Henga for Te Kawerau ā Maki. However we would like to see a

commitment to providing some funding towards achieving this outcome. The iwi is on a timetable to get the work done now having obtained the relevant consents and cannot do so without funding. All parts of Auckland Council, including your local board, should be contributing towards this funding. We would like to see you advocating to the Governing Body for regional funding of the marae.

3. Natural Environment

3.1. We understand that the loss of tree canopy cover from development and changes in land use makes it harder to maintain and increase tree canopy coverage in line with the local board goals to provide shade, support biodiversity and help manage urban stormwater. We support your objective that “the mauri of the ngahere flourishes”. However we are disappointed not to see that one of your plan objectives is to enhance tree cover within the local board area by implementing actions from the Local Board Urban Ngahere (forest) Strategy to enable opportunities to enhance tree cover to be identified and activated. We think this should be linked to the development of the “blue-green network” so that there is a clear guide to how and where this can occur to have the greatest impact.

3.2. We are delighted to see recognition of and your support for the important role mana whenua and community groups play in working to enhance biodiversity and undertake tree planting.

3.3. We urge you to oppose all consents proposing to remove trees in Significant Ecological Areas and Scheduled Notable Trees on both private and public land, as well as street and park trees, as these are so important to retain for future generations. So few urban trees currently have legal protection it is vital to retain them.

3.4. As you have kauri in some of your local reserves you should consider getting them urgently tested for kauri dieback and if found to be positive then you should consider getting them treated with phosphite to keep them alive. Kauri dieback has an almost 100% mortality rate so all infected trees will die without treatment.

3.5. We recommend you work with the Kauri Rescue Trust for the best way to approach this problem. There is an urgency as trees in which the disease has progressed too far will not survive even after treatment, so the earlier this happens the better. Kauri are carbon sinks, we need to keep these trees alive as long as possible. Kauri Rescue has already been working to treat trees in local parks and this work can be expanded with the support of local boards.

3.6. The growing of fruit in suburban gardens has gone out of fashion in recent years and with intensification the space to do so will soon be unavailable to most people living in Auckland. Therefore having the opportunity to grow fruit in public spaces (parks, reserves, streets) is

something that people value highly. Public consultations on the type of trees desired for public planting often results in suggestions for fruit trees.

3.7. Having public collections of different types of fruit trees would enable educational opportunities to take place that could include for example daily care, pruning, propagation, grafting, cookery, heritage and history etc. This could involve schools as well as public workshops, adoption by community or friends groups.

3.8. The public collections on public land in local parks and streets could be localised to reflect the fact that some varieties of fruit trees are better suited to grow in specific areas of Auckland.

3.9. We urge you to advocate for the growing of fruit trees on local parks and streets in your local board area and to reach out to the public to identify fruit trees on private land that could provide the basis for the collection via propagation &/or transplanting. We note your support for the development of a community-led eco-designed plant nursery on the old Glen Road nursery site at Te Rangi Hiroa Park and this would be the perfect place to propagate fruit trees sourced from your local board area for planting in your local parks.

3.10. Support for this project can be enhanced by working with NZ Tree Crops Association, The Tree Council and local groups in your area.

4. Advocacy

4.1. We support your plan to advocate to the Governing Body for “reuse of flood-affected land as green space and absorb carbon dioxide as ‘carbon sinks’, like forests and wetlands”. This should be linked to the Urban Ngahere Strategy Action Plan for enhancing tree canopy cover in your local board area.

4.2. We support your plan to advocate to the Governing Body for “investment in a 30-year ‘blue-green’ network programme as part of the council’s ‘ Making Space for Water’ strategy to restore natural waterways, manage floods and improve water quality”. This should be linked to the Urban Ngahere Strategy Action Plan for enhancing tree canopy cover in your local board area.

5. <u>In addition</u> we would like to see specific support, including financial support, for the following initiatives to protect and enhance existing tree cover:

5.1. Practical support and (for eg legal) advice for private landowners wishing to provide permanent protection for their trees eg via covenants &/or scheduling to enable protection of existing tree cover on private land to be optimised as most of the mature trees in Auckland are on private land with no legal protection.

5.2. Grants for private landowners to maintain Scheduled Notable Trees on their property.

5.3. Provide permanent and visible physical labels for all Scheduled Notable Trees in the local board area to enable the public to see that this tree is legally protected and tell the stories of our natural heritage.

5.4. Look for opportunities to schedule additional mature trees and encourage Council to undertake Plan Changes to the Unitary Plan to regularly add new trees to Schedule 10 (Notable Trees).

5.5. Look for opportunities to raise awareness of the value of Scheduled Notable Trees by organising events to celebrate them such as guided walks, community picnics, heritage talks.

5.6. We would like to see specific support, including financial support, for mana whenua, local communities and groups undertaking the following types of initiatives within the local board area:
- 5.6.1. water quality testing
- 5.6.2. monitoring of beaches
- 5.6.3. treatment of diseased kauri trees on local parks and private land
- 5.6.4. monitoring for myrtle rust
- 5.6.5. weed control
- 5.6.6. pest control
- 5.6.7. protection of rare birds eg dotterel
- 5.6.8. restoration planting

5.7. Public education on issues affecting biodiversity such as:
- 5.7.1. kauri dieback, myrtle rust
- 5.7.2. weeds
- 5.7.3. animal and insect pests
- 5.7.4. other biosecurity threats
- 5.7.5. control of dogs in sensitive areas
- 5.7.6. conflicting uses eg vehicles on beaches
- 5.7.7. rules for marine reserves

Organisation: The Whau River Catchment Trust

Local Board: Henderson-Massey

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   Strengthen Catchment-Based Environmental Management for the Whau River Estuary (Te Atatū South).

   The Whau River Catchment Trust supports the environmental aspirations of the Draft Henderson-Massey Local Board Plan 2026 and encourages the Board to adopt a stronger, integrated catchment management approach to protect and restore the area's streams, wetlands, harbour/estuary margins, and native biodiversity.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   The Whau River Catchment Trust strongly supports the Natural Environment objectives and the emphasis on kaitiakitanga, healthy waterways, biodiversity protection, climate resilience, and pollution reduction. These priorities reflect many of the environmental aspirations of local communities and recognise the importance of restoring and protecting natural ecosystems for future generations.

We support the proposed focus on habitat restoration, community stewardship, and environmental sustainability. To maximise the effectiveness of these initiatives, we encourage the Local Board to adopt a stronger catchment-based approach that recognises waterways, wetlands, forests, and coastal environments as interconnected systems.

In particular, we would like to see:

Increased investment in riparian restoration, wetland enhancement, and stream naturalisation projects.

Expanded animal pest control and invasive plant management programmes across both public and private land.

Greater support for community-led restoration projects that deliver measurable improvements in water quality, biodiversity, and climate resilience.

Ongoing environmental education and citizen science programmes that empower residents, schools, and community groups to participate in environmental stewardship.

Improved water quality and ecological monitoring to track environmental outcomes and identify pollution sources.

Development of an integrated Whau River Catchment Management Plan to coordinate restoration, flood resilience, biodiversity enhancement, and community engagement across the entire catchment.

We also encourage greater collaboration with mana whenua, environmental organisations, and local community groups to ensure environmental initiatives are informed by local knowledge and deliver long-term benefits.

Overall, we believe the proposed actions provide a strong foundation for meeting community needs in this area, and that further investment in catchment-wide restoration and community partnerships would strengthen outcomes for biodiversity, water quality, climate resilience, and the long-term health of the Whau River and its tributaries.

Built environment

3. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

The Whau River Catchment Trust supports the proposed actions outlined in the draft Plan, particularly the focus on environmental restoration, climate resilience, healthy waterways, and partnerships with community organisations. These initiatives align well with community aspirations for a healthier environment and a more resilient Whau River estuary.

We are encouraged by the continued investment in environmental programmes and flood resilience projects. However, we believe greater impact could be achieved through a more coordinated, catchment-based approach to managing the Whau River and its tributaries. This should include increased support for community-led freshwater restoration, riparian planting, stream health monitoring, pest plant and animal control, environmental education, and citizen science programmes.

We also encourage the Local Board to support the development of an integrated Whau River Catchment Management Plan that brings together Auckland Council, mana whenua, community organisations, landowners, and residents to deliver long-term environmental outcomes across the entire catchment.

Strengthening these initiatives will help improve water quality, biodiversity, climate resilience, and community stewardship while recognising the Whau River as one of the area's most important ecological, recreational, and cultural assets.

6. We have limited resources. What should we focus on most?

Strengthen Catchment-Based Environmental Management for the Whau River Estuary (Te Atatū South). The Whau River Catchment Trust supports the environmental aspirations of the Draft Henderson-Massey Local Board Plan 2026 and encourages the Board to adopt a stronger, integrated catchment management approach to protect and restore the area's streams, wetlands, harbour/estuary margins, and native biodiversity.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Recognising waterways, wetlands, forests, coastal margins, and urban development as interconnected systems and support planning and investment at a catchment scale rather than through isolated projects.

A catchment-based approach would:

- Improve water quality outcomes.
- Enhance biodiversity and ecological connectivity.
- Build resilience to flooding and climate change.
- Deliver greater value from environmental investment.
- Encourage community stewardship and participation.

THE WHAU RIVER CATCHMENT TRUST

The environmental umbrella body for the Whau River catchment

Working together for healthier streams and river through community participation and kaitiakitanga

Submission on the Draft Henderson-Massey Local Board Plan 2026

Strengthen Catchment-Based Environmental Management for the Whau River Estuary (Te Atatū South).

The Whau River Catchment Trust supports the environmental aspirations of the Draft Henderson-Massey Local Board Plan 2026 and encourages the Board to adopt a stronger, integrated catchment management approach to protect and restore the area's streams, wetlands, harbour/estuary margins, and native biodiversity.

We would request that the Henderson-Massey Local Board consider:

1. A Catchment-Based Approach

Recognising waterways, wetlands, forests, coastal margins, and urban development as interconnected systems and support planning and investment at a catchment scale rather than through isolated projects.

A catchment-based approach would:

- Improve water quality outcomes.
- Enhance biodiversity and ecological connectivity.
- Build resilience to flooding and climate change.
- Deliver greater value from environmental investment.
- Encourage community stewardship and participation.

2. Increase Funding for Animal and Plant Pest Control

We recommend increased investment in:

- Possum control.
- Rat and mustelid control.
- Invasive weed management.
- Protection of remnant native bush areas.
- Ecological restoration of coastal estuary esplanade reserves, stream corridors and parks.

Pest plants and pest animals remain one of the most significant threats to biodiversity across West Auckland. Increased and sustained funding is required to protect previous restoration investments and enable long-term ecological recovery.

3. Prepare an Integrated Catchment Management Plan

Develop a comprehensive Catchment Management Plan for the waterways and receiving environments within Henderson-Massey Local Board area that:

- Identifies restoration priorities.
- Coordinates flood resilience initiatives.
- Supports freshwater and coastal improvement programmes.
- Guides biodiversity enhancement projects.
- Aligns community, council and agency investment.
- Establishes measurable environmental outcomes.

Such a plan would provide a strategic framework for environmental management over the next decade and beyond.

4. Strengthen Partnerships with Environmental Organisations

The Local Board should continue to work closely with community-led environmental organisations, restoration groups, schools, mana whenua and volunteers.

Community organisations can provide:

- On-the-ground restoration expertise.
- Volunteer mobilisation.
- Environmental education.
- Citizen science monitoring.
- Long-term environmental stewardship.

These partnerships deliver significant value and should be supported through multi-year funding and formal collaboration arrangements.

5. Support Climate Resilience Through Nature-Based Solutions

Prioritise projects that:

- Restore wetlands.
- Naturalise streams.
- Increase native tree cover.
- Improve riparian planting.
- Improve coastal esplanades e.g. the Whau River Estuary (Te Atatū South).
- Reduce sediment and stormwater impacts.
- Enhance flood storage and resilience.

Nature-based solutions provide environmental, social and economic benefits while helping communities adapt to increasing climate-related pressures.

Collaboration with the Whau River Catchment Trust

The Whau River Catchment Trust seeks an ongoing collaborative relationship with the Henderson-Massey Local Board on projects affecting shared waterways, harbour environments, biodiversity corridors and ecological restoration initiatives. Particularly around the Whau River Estuary (Te Atatū South).

We would like the Board to:

- Engage with **The Whau River Catchment Trust** during environmental planning processes.
- Include community environmental organisations in programme design and delivery.
- Support collaborative catchment restoration initiatives that cross local board boundaries.
- Recognise that healthy waterways require coordinated action across the entire catchment and estuary ecosystems.

Conclusion

The Whau River Catchment Trust supports the Draft Henderson-Massey Local Board Plan 2026 and encourages the Board to strengthen its environmental priorities through:

- Increased funding for pest plant and animal control.
- A comprehensive catchment-based management approach.
- Development of an integrated catchment management plan.
- Greater investment in ecological restoration and climate resilience.
- Strong partnerships with community environmental organisations.

These actions will help protect biodiversity, improve water quality, increase flood resilience, and create healthier communities and ecosystems across Henderson-Massey and the Whau River estuary catchment.

Organisation: Tuia Waitākere

Local Board: Regional Organisation

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   We strongly support the focus on belonging, community-led initiatives, mana whenua and mātāwaka relationships, Pacific aspirations, play, rangatahi and accessible places. This aligns closely with our strategic focus on community-led design, partnership, equity and supporting healthy, active lives through schools, clubs, marae, churches and community spaces.

   Also, love the addition of the pool, however would also like to see some more shorter term timelines entered in around this, as this has been on the '10 year plan' for almost 15 years. How do we ensure this is moved at pace?

   We would like the plan to be more explicit about investing in the local organisations that already hold trusted relationships and can backbone long-term community wellbeing, not just deliver activities.

   A great example are the goals of 'developing cultural play programmes' and ' developing community led play projects' – Tuia Waitākere have been undertaking this mahi for around 5 years, and have invested significant time and resource into 'Neighbourhood Play Systems' and 'State of Play' reports that are community voice designed in both Rānui and Henderson. A closer partnership here would see HMLB already ahead of the curve on these goals! A great opportunity for the HMLB

Community objectives

2. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

We support the emphasis on kaitiakitanga, mātauranga Māori, awa restoration, climate resilience, pollution reduction and community-led environmental action. This aligns with our focus on wellbeing being connected to whānau, culture, natural environments and the places where people live, move and gather.

We would encourage stronger links between environmental outcomes and everyday wellbeing, including safe play, active transport, access to green space and community connection. Volunteer action also needs sustained coordination and resourcing.

Built environment

3. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

We agree that accessible, sustainable and well-designed community places are central to collective wellbeing. The focus on mana whenua involvement, town centres, neighbourhood identity, paths, play spaces and safety aligns with our strategic outcome that physical and built environments should enable healthy and active lives.

We would like to see stronger acknowledgement of sport, recreation, play and community facility gaps, including the need for investment in the north-west aquatic facility and spaces that support equitable access for tamariki, rangatahi, whānau and older adults.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

We support the focus on local employment, rangatahi Māori pathways, town centre vitality, creative industries and local procurement. These are important contributors to wellbeing,

especially where they build local leadership, confidence, capability and connection for communities experiencing inequities.

We would encourage prosperity to be framed more broadly than economic activity alone. For us, prosperity also includes belonging, cultural identity, access to opportunities, whānau wellbeing and the ability for local people to shape their own future.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

We support safer streets, better public transport, walking and cycling connections, first-and-last-leg access and reduced reliance on cars. This aligns with our focus on active travel, equity, climate resilience and built environments that make healthy, active choices easier for more people.

We would like stronger prioritisation of routes that connect people to schools, parks, clubs, community facilities, public transport hubs and town centres, particularly in communities where cost, safety and access are barriers to participation.

Also, there is growing evidence of play based activities leading to creation of safe and inviting spaces for people to practice walking and active transport. To this end we would like to see reference to thinking differently about existing travel routes to encourage health promoting behaviour change around active transport, which has the potential to save significant cost in/on infrastructure upgrades to encourage active transport options.

6. We have limited resources. What should we focus on most?

Focus resources where they will shift the dial most, communities experiencing the greatest inequities, Māori and Pacific aspirations, tamariki and rangatahi, safe and accessible community spaces, active transport connections, climate resilience and support for trusted community organisations that can lead locally.
Also, partner, partner, partner! As an organisation doing mahi across HMLB for 35 years, based around community wellbeing outcomes, we could do so much more together, we just want to be able to have the conversation.
We also support partnering across local boards, mana whenua, council teams and community organisations so limited resources are pooled around shared outcomes rather than spread too thinly across disconnected activity.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Overall, we support the direction of the draft plan. It aligns strongly with our 20-year impact strategy, particularly around equity, Te Tiriti, mātauranga Māori, community-led design, systems change, local leadership, active places and long-term wellbeing outcomes for West Auckland.

As the plan moves into delivery, we would value seeing the measures of impact, especially where stronger partnership mechanisms with local organisations, and a focus on investment decisions that enable sustained, community-shaped outcomes rather than short-term activity alone may sit.

As a community development organisation that has been embedded in West Auckland, and based physically in the HMLB for more than 35 years, we deeply value the long standing positive relationship we have built with Henderson-Massey Local Board over many years. Looking ahead, we see an even greater opportunity for us to work together as genuine partners, aligned around shared outcomes and a common aspiration for thriving, connected and resilient communities.

While many people have historically known us as Sport Waitākere, our transition to Tuia Waitākere better reflects the breadth of our work across wellbeing, community development, sport, recreation, play, arts and culture. It also reflects the way we increasingly work, in bringing people, organisations and communities together around long-term impact.

We would welcome the opportunity to continue strengthening our relationship with HMLB, moving beyond simply being someone the HMLB calls on from time to time, to a space where we are invested in to drive the outcomes our communities care most about. We believe there is significant potential for us to collectively leverage our respective strengths, insights and connections to create lasting change for the people and places of Henderson-Massey, and we are excited about what that future could look like together, which is the approach we have in both Whau and the Waitakere Ranges local board, and which is working exceptionally well.

The HMLB is a critical space for us, and we'd love the opportunity to make the outcomes we all strive to achieve amplify!

West Auckland Deaf Community Submission

Draft Local Board Plans

This submission is based on feedback shared by members of the West Auckland Deaf community during a community engagement session.

Accessibility and Inclusion

- Deaf people want better access to community events, services, and information.
- Providing an interpreter is important, but it does not always mean Deaf people feel fully included. Information and communication should be accessible from the beginning.
- New Zealand Sign Language (NZSL) should be more visible across West Auckland through signs, public information, events, and promotional material.
- The history and contribution of the Deaf community in West Auckland, including the former Kelston School for the Deaf and Lopdell House, should be recognised and promoted.

Transport

- Public transport needs to be more accessible for Deaf people.
- Emergency announcements should always include visual information, not only spoken announcements.
- Participants raised concerns about train station closures and limited transport options.
- Smaller buses may be more suitable for some West Auckland communities.
- More walking and cycling paths are needed, and existing pathways should be completed to better connect communities.

Housing and Urban Development

- New housing developments should include enough parking to reduce congestion on local streets.
- New developments should include safe and accessible walkways between neighbourhoods.
- Community feedback should be considered more carefully during planning decisions.

Community Participation

- Deaf people often miss community events because NZSL interpreters are not provided.

- Community organisations need easier access to funding for NZSL interpreters and accessibility support.
- Funding application processes should be simpler and easier to access.

Children and Families

- Deaf children often miss out on holiday programmes, sports, and community activities because they are not accessible.
- More inclusive programmes are needed so Deaf children can participate equally.
- Road safety around schools is also an important concern.

Safety

- More visual emergency information is needed in public places, public transport, beaches, and other public spaces.
- Better signage and public safety information would benefit Deaf people.

Deaf Community

- Deaf people have their own language, culture, and identity, which should be recognised and respected.
- As technology changes, many voice-only systems create new barriers for Deaf people.
- Future technology and public services should be designed with Deaf accessibility in mind from the beginning.

Communication and Engagement

- Participants valued the opportunity to meet directly with Local Board members.
- Regular engagement with the Deaf community is important, rather than one-off consultations.
- The option to provide feedback in NZSL through video is welcomed and should continue.

Recommendations

We recommend that the Local Boards:

- Improve accessibility and inclusion for Deaf people in all community activities.
- Increase the visibility and promotion of NZSL throughout West Auckland.
- Improve accessible public transport, emergency information, and walking and cycling connections.
- Support funding for NZSL interpreters at community events and activities.
- Make community programmes more accessible for Deaf children, young people, adults, and older people.

- Continue regular engagement with the Deaf community and involve Deaf people in future planning and decision-making.

Deaf Community Engagement Role

We recommend creating a part-time or full-time Deaf Community Engagement role within the West Auckland Local Boards.

This person would:

- Build strong relationships with the Deaf community.
- Encourage Deaf people to take part in community events and local decision-making.
- Improve communication between the Local Board and the Deaf community.
- Promote New Zealand Sign Language (NZSL) and Deaf awareness across West Auckland.
- Help make meetings, information, and events more accessible.

Regular Deaf Community Meetings

We recommend holding **regular Deaf community meetings** (for example, every 3–6 months) so the Local Board can continue listening to Deaf people's views, provide updates, and work together on local issues.

A small koha or e-gift voucher should be provided to participants to recognise their time and help cover travel or petrol costs. With the cost of living continuing to increase, this will help remove barriers to participation.

Where possible, engagement should be Deaf-led and held in NZSL. Many Deaf people are more comfortable sharing their ideas and experiences in Deaf-led NZSL spaces, where they can communicate directly in their own language and culture. This helps build trust, encourages participation, and leads to better community engagement.

Conclusion

The West Auckland Deaf community wants to work in partnership with the Local Boards to create a more inclusive and accessible community. We hope our feedback will help improve future planning so Deaf people of all ages can fully participate in community life.

Thank you for considering our submission.

We look forward to continuing to work together to make West Auckland a place where Deaf people feel welcomed, included, and connected.

Youth Engagement Insights | Summer 2026

Introduction

Between February and April, we engaged **110 young people** across West Auckland through a series of youth activations at **New Lynn Memorial Square, Railside Avenue (Henderson), and Parrs Park**. This engagement was supported by the Henderson-Massey, Waitākere Ranges, and Whau Local Boards as part of their local board planning process.

Our approach centred on **low-barrier, youth-friendly activations** that prioritised whakawhanaungatanga, creating safe and welcoming environments where rangatahi could share their perspectives openly. Young people were invited to reflect on:

- the issues and concerns they are experiencing,
- what improvements they would like to see in their communities, and
- what they want more of in their day-to-day lives.

Where relevant, responses were designed to allow multiple selections (e.g. local board areas), recognising the fluid way young people move across communities for school, social connection, and activities.

Short video

To complement the findings in this report, we have created a short video capturing the voice, energy, and perspectives of some of the young people we engaged with at one of our Whau activations.

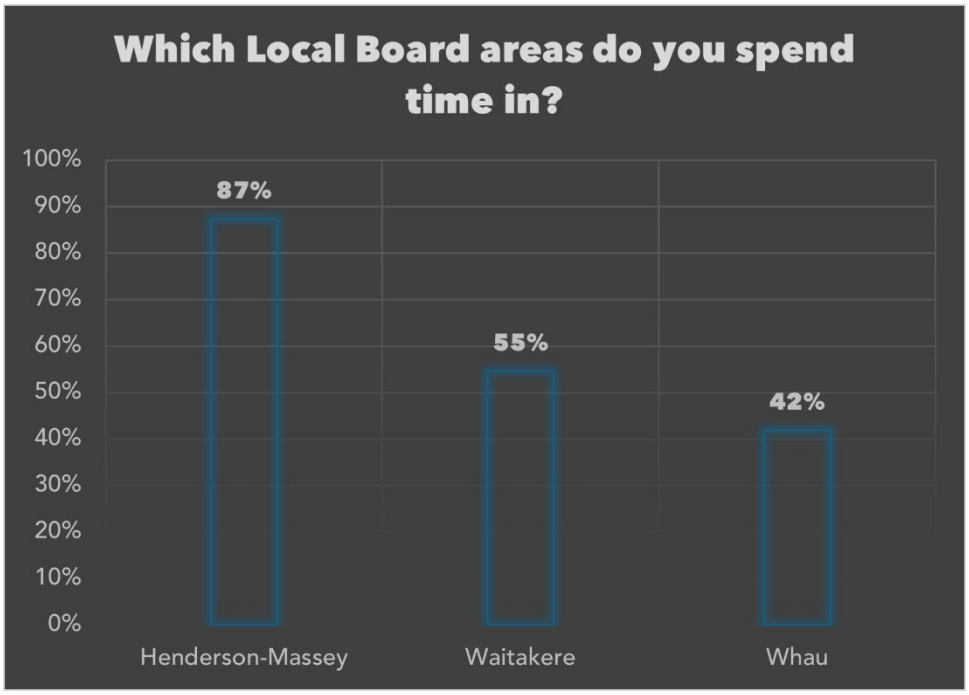

The video brings the data to life—highlighting the environments, conversations, and real experiences behind the insights shared. It reflects the strong desire among rangatahi for safer spaces, more opportunities, and greater connection within their communities.

NB: This video is for reporting purposes only and is not for public distribution.

🔗 Watch the video here: **https://youtu.be/b3_HRxNdq5w**

Commentary & Findings

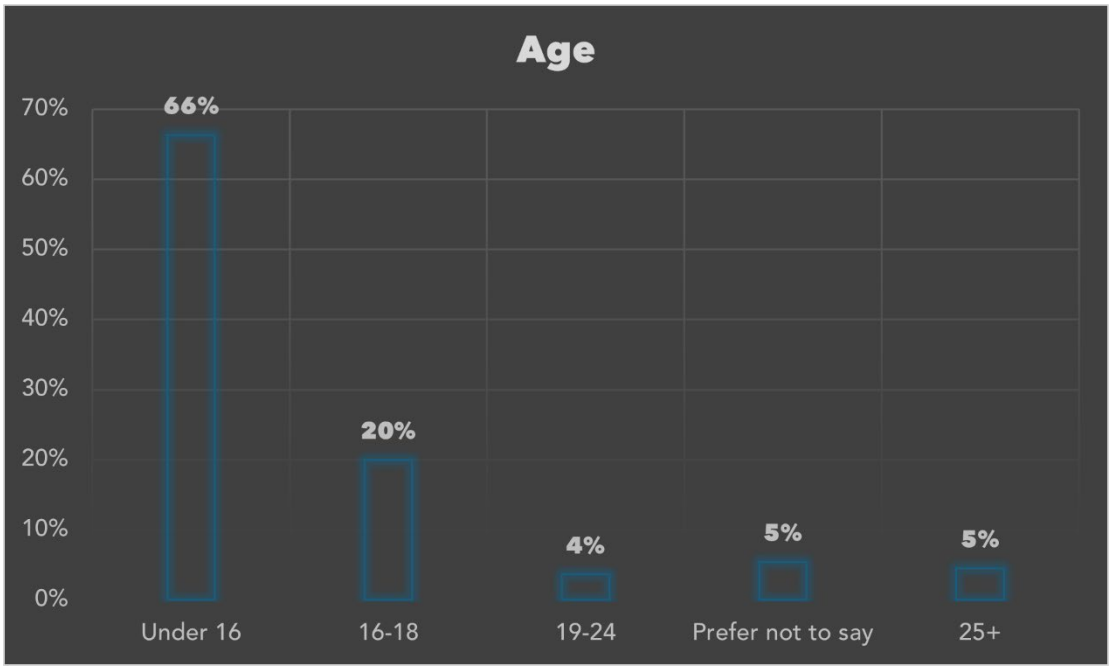

Local Board Areas (Movement & Reach)

- **Henderson-Massey (87%)** is the dominant area, reflecting a higher turnout at Railside Avenue Activations.
- **32%** of respondents said they spend time in more than one of the three local board areas. This reflects strong local pull factors between local board areas.

Insight:
Young people are highly mobile across local board boundaries. Planning and investment should consider **West Auckland as an interconnected ecosystem**. Services and programmes that collaborate across boards will better match how rangatahi actually live.

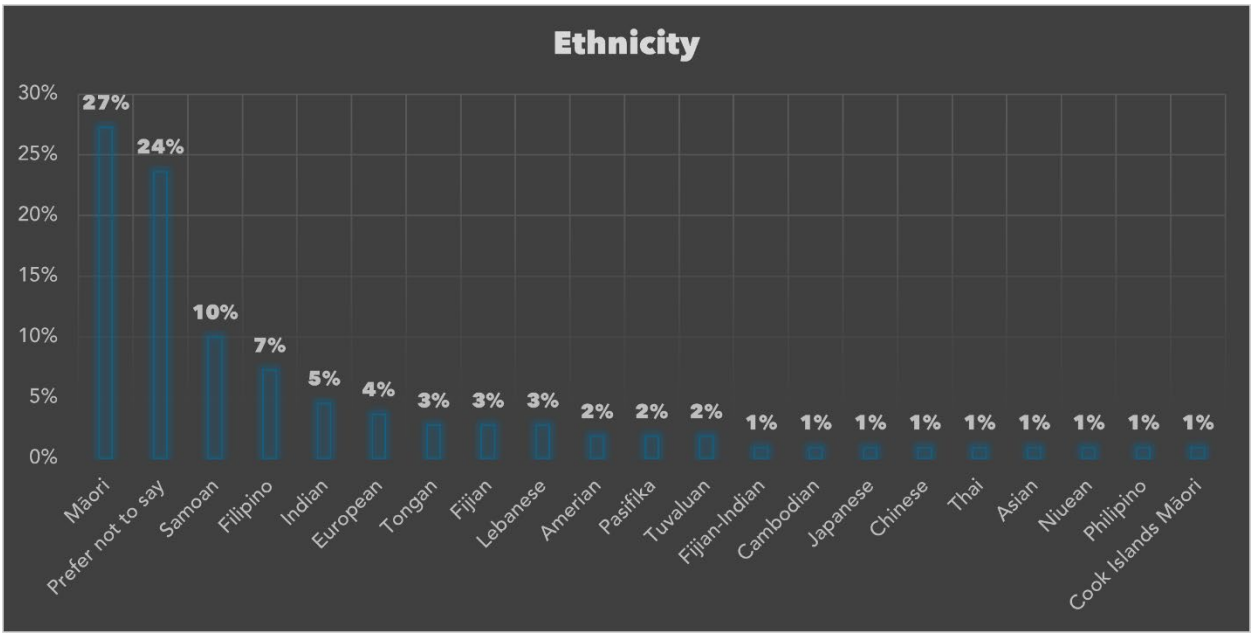

Age Profile

- **66% under 16**, **20% aged 16-18**
- Very small representation of 19+ age groups

Insight:
This engagement strongly reflects **early to mid-adolescence voices**, which is valuable for early intervention and prevention. However, it suggests a gap in engagement with **older youth (18-24)**, who may require different outreach strategies (e.g. employment pathways, tertiary spaces, digital engagement).

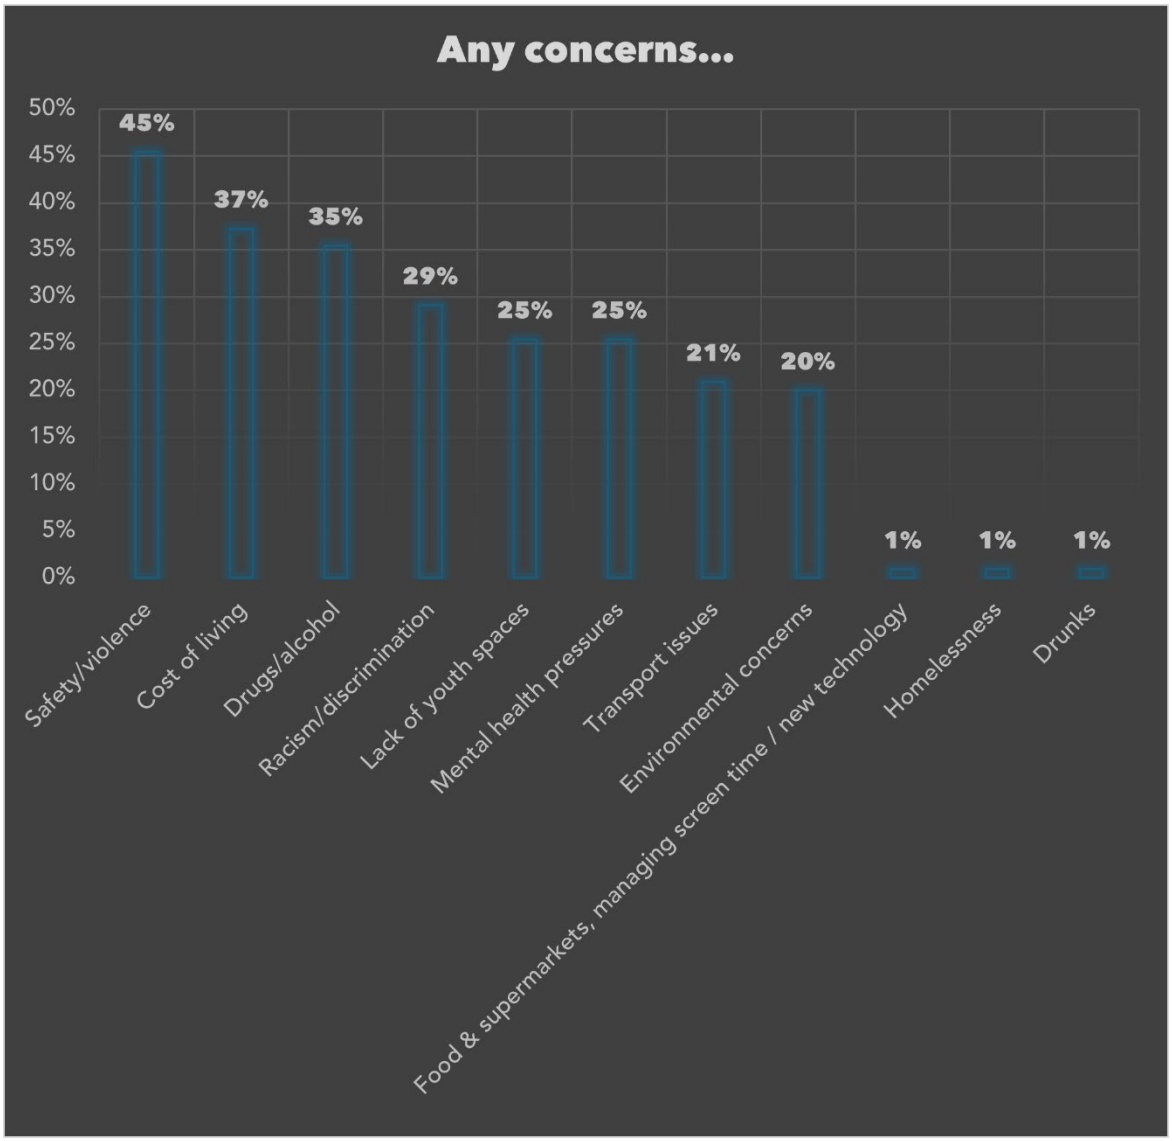

Ethnicity

- Strong representation of **Māori (27%)** and **Pacific communities (Samoan 10%, Tongan, Fijian, etc.)**
- Notable diversity across many smaller groups
- **24% preferred not to say**

Insight:
The data reflects the **super-diverse reality of West Auckland**, with a strong Māori and Pacific presence. The high "prefer not to say" response reinforces the importance of **trust-based, mana-enhancing engagement approaches**—young people are sceptical of how ethnicity-based narratives might be crafted from data they share in public spaces like activations.

Key Concerns

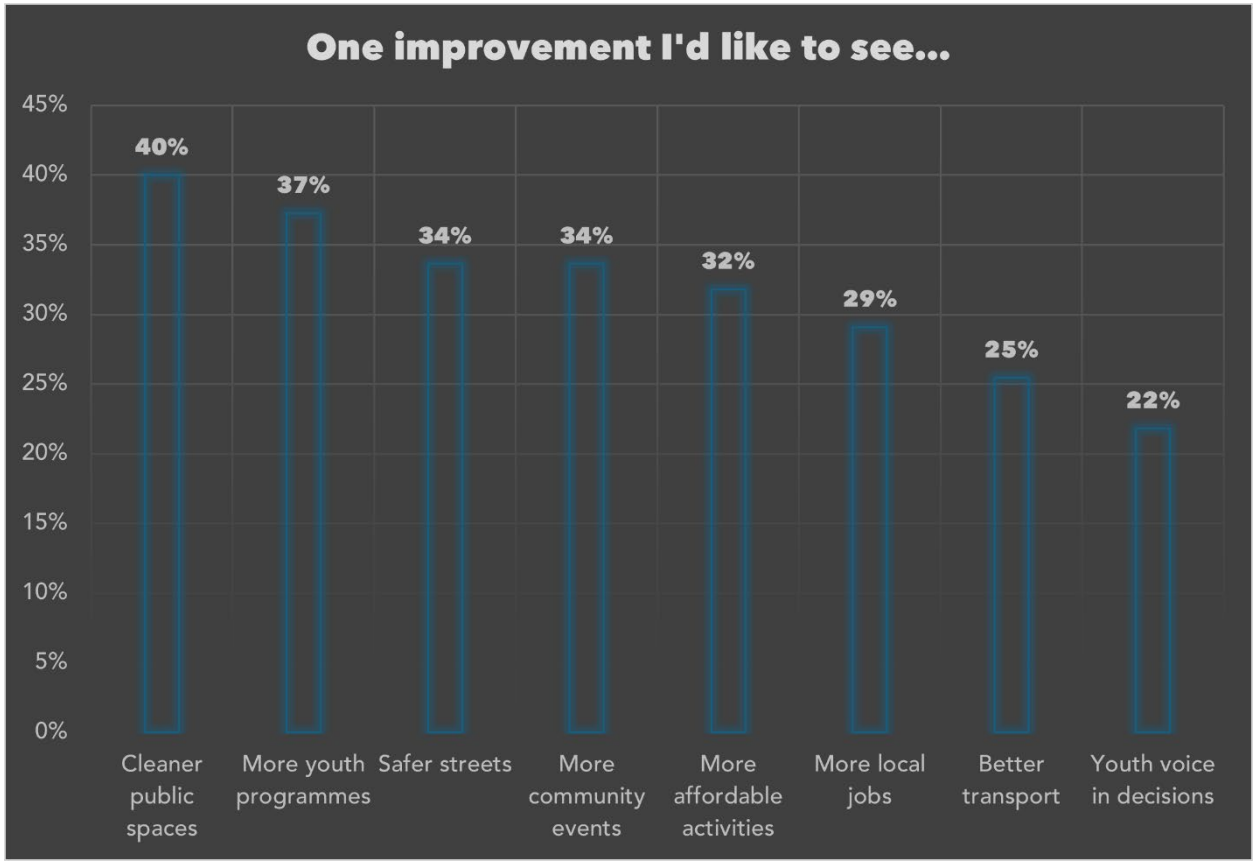

Top concerns identified:

1. **Safety/violence (45%)**
2. **Cost of living (37%)**
3. **Drugs/alcohol (35%)**
4. **Racism/discrimination (29%)**
5. **Lack of youth spaces & mental health pressures (25%)**

Insight:

- Safety is the most dominant concern, signalling that **physical and emotional safety in public spaces is not guaranteed for many rangatahi**.
- Cost of living appearing this high suggests young people are **acutely aware of household stress and economic pressure**.
- Social issues (racism, drugs, mental health) are interconnected, pointing to a need for **holistic, community-wide responses rather than isolated interventions**.

Improvements Young People Want

Top priorities:

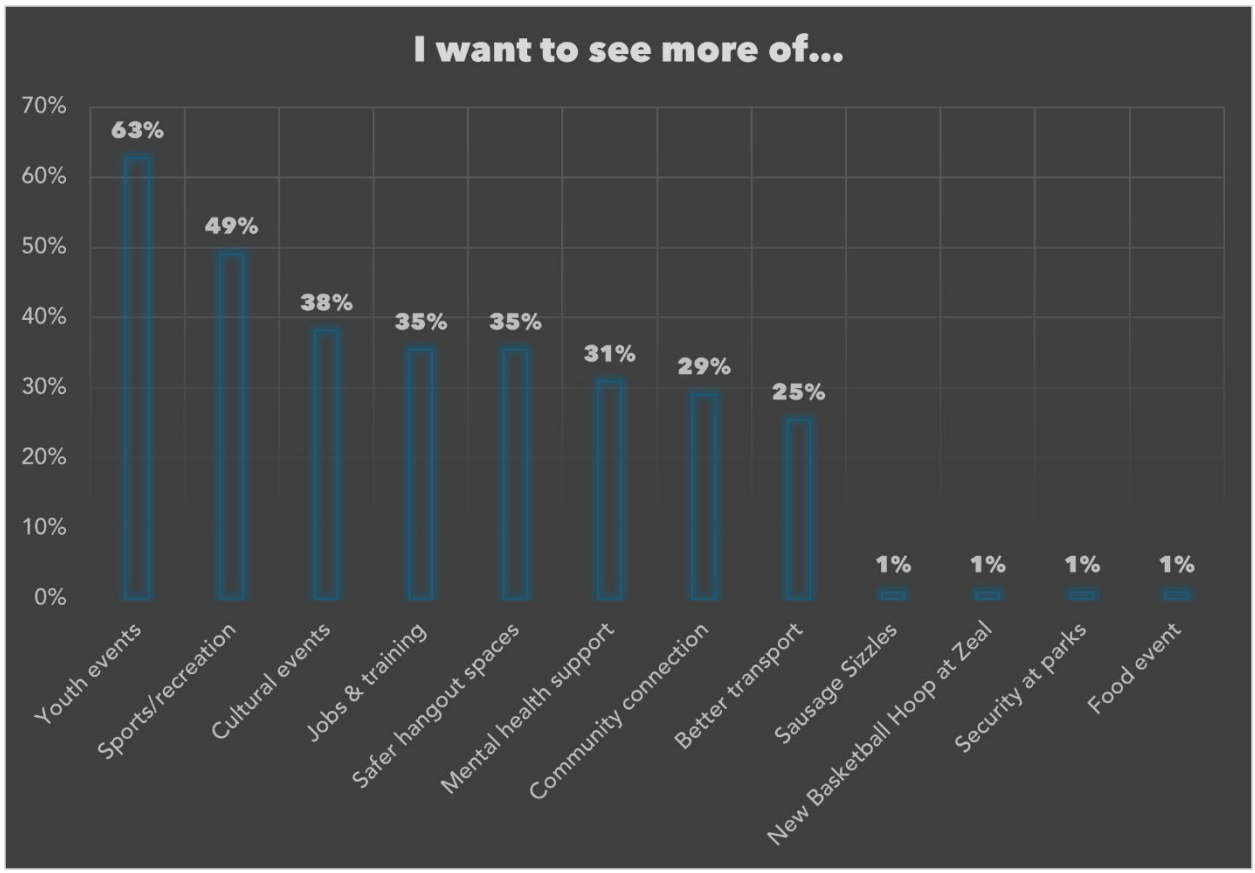

- **Cleaner public spaces (40%)**
- **More youth programmes (37%)**
- **Safer streets (34%)**
- **More community events (34%)**
- **More affordable activities (32%)**

Insight:
Young people are asking for **visible, practical improvements**:

- Environments that feel safe and cared for
- More structured opportunities to engage positively
- Affordable access to activities

This reinforces that **activation + environment + accessibility** must work together.

What Young People Want More Of

Top responses:

- **Youth events (63%)**
- **Sports/recreation (49%)**
- **Cultural events (38%)**
- **Jobs & training (35%)**
- **Safer hangout spaces (35%)**

Insight:
There is a clear call for:

- **More things to do**
- **More places to belong**
- **More pathways into the future (jobs/training)**

Notably, **events and activation rank highest**, showing that well-designed, youth-led experiences are a powerful engagement tool—but they must connect into **ongoing opportunities and spaces** to sustain impact.

Overall Themes (Synthesis)

Across all graphs, three consistent themes emerge:

1. Safety + Belonging

Young people want to feel safe in public spaces and have places where they belong. Safety concerns are not abstract—they are lived realities.

2. Access + Affordability

Cost is a real barrier. There is strong demand for **free or low-cost programmes, events, and activities**.

3. Connection + Opportunity

Rangatahi are seeking:

- connection (events, culture, community),
- expression (youth spaces),
- and future pathways (jobs, training).

Implications for Local Boards

- Invest in **youth activation as both engagement and prevention**
- Prioritise **safe, well-maintained, youth-friendly public spaces**
- Support **cross-board collaboration** to reflect real movement patterns
- Increase **accessible programmes and events**, particularly low-cost/free
- Strengthen **pathways into employment and skills development**
- Continue to resource **mana-enhancing, relationship-based engagement approaches**

Other observations

- Notably, around 1 in 5 rangatahi showed consistently high engagement across all response areas, indicating a group who are both highly motivated to participate and experiencing layered challenges—representing a key cohort for deeper engagement, co-design, and leadership opportunities.
- Responses showed a strong alignment between identified concerns and desired improvements, indicating that rangatahi have a clear understanding of both the challenges they face and the types of solutions that would make a meaningful difference.
- Mental health support was frequently selected alongside connection-based responses, reinforcing that rangatahi view wellbeing as strongly linked to belonging, safe environments, and opportunities to engage.
- The concept of 'youth spaces' extended beyond physical locations, encompassing safety, belonging, structured activities, and opportunities for connection.
- Transport emerged as an enabling factor, frequently selected alongside participation-based opportunities, suggesting it acts as a key barrier to access rather than a standalone concern.
- Cost of living pressures were identified even among younger respondents, indicating that economic stress is being felt at a household level and shaping young people's experiences.
- Qualitative responses highlighted concerns about safety in public spaces, including exposure to antisocial behaviour and a desire for increased visible safety measures.
- Interest in jobs and training opportunities signals a strong aspiration among rangatahi for pathways into employment and independence.
- Open-ended responses ranged from practical, place-based suggestions to broader social concerns, reflecting both immediate lived experience and wider awareness of community issues.
- A subset of respondents indicated multiple overlapping concerns, highlighting the importance of integrated, holistic responses to support young people experiencing more complex challenges.

Overall, the data shows that rangatahi are not only highly aware of the challenges in their communities, but are also clear and consistent in the solutions they are seeking—centred on safety, connection, opportunity, and access.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

   More priority needs to be made on sourcing partnership funding for other environmental projects outside the Te Atatu Peninsula space with the focus continually on Harbourview Orangahina, when there are further gems in the Henderson Massey area that deserve environmental attention, such as Sunhill Scenic Reserve, which is a significant ecological area and a site that is well used by the community.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

Tell us why

There is more need to focus on the Henderson CBD which is slowly dying, and the unsocialable behaviours are increasing. The board need to advocate with Auckland Council governing body and local authorities such as NZ Police to make this a place that could be a thriving centre of growth, but is sadly not heading in that direction.

Opportunity and prosperity objectives

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I agree that a "one size fits all" approach does not work across Henderson-Massey. Tailoring services and initiatives to reflect the diversity of local communities is important - and helps achieve equitable outcomes for all people.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   I don't know

   Tell us why

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   I don't know

   Tell us why

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

I encourage the local board to prioritise local businesses and suppliers in local board-funded projects where possible. This can help strengthen the local economy, particularly during challenging economic conditions. The creative industries are also an area that I believe many rangatahi are interested in working in, and with such a high-number of rangatahi in our local board, it would be great to see us grow as a regional centre for this - but I also encourage thinking about securing pathways into jobs there for our youth particularly.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

Given the ongoing challenges with the bus network, I encourage advocacy to ensure the West Harbour ferry is included in fare caps or other affordability initiatives. While it may not need to align exactly with current fare cap levels ($50), the ferry is often excluded from cost-saving measures despite being one of the quickest and most reliable ways for many residents in Massey East to access the CBD for work - as an alternative to catching three buses. There is always free parking when using the service but it is $20 a day. Integrating this service into any affordability measures would be helpful.

6. We have limited resources. What should we focus on most?

I support the intention to work more closely with neighbouring Whau and Waitākere Ranges Local Boards. Greater coordination across West Auckland will help maximise the impact of limited resources and deliver better outcomes for the wider community.
In a time of significant financial pressure for many households, I particularly support the focus on fostering a sense of belonging and celebrating diversity. Especially given how amazingly diverse we are in the HMLB area. Evidence shows these are critical foundations for maintaining social cohesion and community resilience. I also support community-led initiatives wherever practical, providing the initial resource and capability building can pay off ten fold in the long run as investment can reduce over time once things are up and running.
The planned North West busway will be a major step forward; however, it will be essential to ensure people can easily access these hubs. This includes considering adequate park-and-ride provision, as well as frequent, reliable feeder or loop services connecting surrounding neighbourhoods.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

I strongly support the three identified considerations (Māori, climate, equity). These feel right to be woven throughout everything the LB does.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Tanga ta whenua are the original people and have a close connection to community, Manaki tanga and nature. Other than Maori, Pacific people there are other cultures now making up our demographic. Involving all in Pacific related events encourges connection to the wider community.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   We must involve all the community on contributing to the local environment. Without connection and involvement, we become disconnected and unhealthy

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

Tell us why

We need town centres that people want to visit and feel a sense of community belonging

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Henderson is the heart of West Auckland. If there is a lack of growth and belonging we have people not appreciating the advantages that surround them.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Public transport 100% but also safe paths connecting to parks and reserves.

6. We have limited resources. What should we focus on most?

I think a path under the bridge in Henderson from Corbans side to the West Wave side will connect a safe under crossing for path users. Encouraging more use and love of the path all the way to the city.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Keep up the paths, connect the people to nature. connect the people with ethnic appreciation with more free events.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   I don't know

   Tell us why

   he objectives are positive and reflect values that are already broadly supported across our communities. However, at the moment they read as high-level aspirations rather than clear commitments.

   What would strengthen this section is more clarity on how these outcomes will be delivered in practice. For example:

   – What specific initiatives, programmes, or partnerships are being proposed?

   – Are there plans for community-led events, cultural programmes, or targeted support for groups such as Pacific communities or rangatahi?

   – How will success be measured, and what will be done differently from what already exists today?

   Providing more detail on the "how" would make it easier to understand the impact of these objectives and how they will be experienced by the community on the ground.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

Somewhat disagree

Tell us why

This sounds like - We want good environmental outcomes" (but no path to get there)The objectives are positive and align with important environmental outcomes. However, they are currently quite high-level and it is unclear what specific actions will be taken to achieve them.

It would be helpful to understand what programmes, initiatives, or investments are planned (e.g. community planting, pollution reduction initiatives, education campaigns, or infrastructure improvements), and how progress will be measured.

Greater clarity on delivery would make it easier to understand the real impact for the community.

re there specific clean-up programmes?

Are there community planting initiatives or funding?

Are there education campaigns (schools, households)?

Are there actual pollution enforcement actions?

Are there infrastructure upgrades (stormwater, waste, etc.)?

Built environment

3. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat disagree

Tell us why

this section would benefit from clearer alignment to delivery, timeframes, and investment.

Given these are effectively capital and place-based outcomes, it is unclear what specific changes are expected over the next three years, and which projects or initiatives will contribute to achieving them.

It would be helpful to distinguish between existing projects already underway and any new investments being proposed, including how funding is allocated across both.

In addition, further clarity is needed on the specific problems these investments are intended to address, and how success will be measured in practice.

Without this, it is difficult to understand what will materially change for communities on the ground. would like to know - Outcomes (what do we want)

Actions (what you'll do)

Investment (where money goes)

Impact (what actually changes)

Are we fixing safety?

Improving access?

Supporting businesses?

Managing growth?

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat disagree

Tell us why

it would be helpful to better understand how this will be enabled in practice.

In particular, the aspiration to grow the creative sector would benefit from more clarity on what specific industries are being targeted, where this growth is expected to occur, and what supporting actions or investments are planned (e.g. spaces, business support, partnerships, or skills development).

Further detail on how local economic benefits will be realised for businesses and residents, and what is new versus already underway, would strengthen this section and make the outcomes more tangible.

Are we supporting local businesses?

Creating jobs?

Enabling small business growth?

Or just assuming growth will happen?

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly disagree

Tell us why

there are some practical constraints that would benefit from further consideration.

In many parts of Henderson-Massey, recent housing developments have increased on-street parking demand due to limited off-street provision. As a result, road space is already constrained, and the introduction of additional cycling infrastructure may create trade-offs that need to be clearly addressed.

In addition, the local topography and layout of some areas may limit the practical uptake of cycling compared to flatter parts such as Te Atatū Peninsula or sections of Lincoln Road.

It would be helpful to understand the data and evidence used to prioritise cycling investment in the area, including how demand has been assessed and how it compares to other transport needs.

Greater clarity on how these factors have been considered would strengthen confidence that investment is aligned to actual local conditions and usage.

“what problem are we solving” with these captial investments

6. We have limited resources. What should we focus on most?

With limited resources, priority should be given to addressing existing, high-impact issues that directly affect daily life for residents across Henderson-Massey.
This includes improving safety in high-risk areas, ensuring reliable and well-integrated public transport, and responding to growing pressures on road space and on-street parking resulting from increased housing density.
Across the draft, many of the objectives are positive but expressed at a high level. Greater focus on clearly defined, place-based priorities, supported by evidence on where the need and demand are highest, would help ensure investment is targeted effectively.
It would also be important to distinguish between projects already underway and new initiatives, and to clarify what measurable outcomes are expected over the next three years.
Taking a more problem-led and prioritised approach will help ensure limited resources deliver tangible and meaningful improvements for the community- One area that appears underrepresented across the draft is provision of recreational facilities for young people and young adults.
While there is a focus on community spaces and wellbeing, there is limited reference to increasing practical, accessible facilities such as basketball courts, volleyball courts, or multi-use recreational spaces within existing parks.
Given the distribution of parks across Henderson-Massey, there is an opportunity to better utilise these spaces to support more active use, particularly for teenagers and young adults who may have fewer dedicated facilities available.
Investing in relatively simple, high-use infrastructure like courts could deliver strong community outcomes in terms of physical activity, social connection, and overall wellbeing.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Overall, the draft sets out a positive direction and reflects many important outcomes for the Henderson-Massey community.

A consistent theme across the plan, however, is that many of the objectives are expressed at a high level, with limited clarity on what will be delivered in practice, what is new versus already underway, and what tangible changes can be expected over the next three years.

Strengthening the link between outcomes, specific actions, and investment would make the plan more meaningful and easier to understand from a community perspective. In particular, clearer prioritisation based on local conditions, demand, and existing constraints (such as transport access, safety, and pressure on shared spaces) would help ensure resources are directed where they have the greatest impact.

There is also an opportunity to further consider practical, community-level needs, such as increased recreational facilities for young people and more targeted, place-based interventions that reflect the diversity of different suburbs within Henderson-Massey.

Overall, greater specificity, prioritisation, and transparency would strengthen confidence that the plan will translate into visible and meaningful outcomes for the community.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Disagree

   Tell us why

   There are no real proposals? No actual labs of action? Just bullet point buzz words

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

   If you continue to allow infill housing/ townhouses especially on Te Atatu Peninsula it is going to worsen the environment- the water systems cannot handle it

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly disagree

   Tell us why

Just last week in Te Atatu Peninsula shops, a woman was trying to walk home from the gym and was harasses by 4 men. It's not a safe environment. Put up more cameras. Don't turn the shops into apartments! This place is full!

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

Westgate development is helping. Need to put housing up there where there is actually room.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

The new bike track is great. I don't think the streets are safe though. Because of the infill housing with no parking everyone parks on the streets effectively turning them into one way roads with poor visibility. Such bad planning

6. We have limited resources. What should we focus on most?

Just stop more housing developments in Te Atatu Peninsula- fix our water systems. In the last year the pressure has dropped considerably.
No one cares about bike paths. Don't waste money on that for the 0.001% of people who use them. People have to drop kids off etc so biking to work is not an option. I never see anyone using these in peak traffic times .fizz light phasing to suit throughout the day. Have better public transport.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

STOP HOUSING DEVELOPMENTS ON TE ATATU PENINIT IS RUINING THIS PLACE. We do not have the infrastructure to support so many people and the slum housing is causing social issues.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Disagree

   Tell us why

   I have read the plan and don't see what initiatives you plan for seniors...we just seem to be joined in with youth. What exactly are you proposing for engagement with seniors?

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

   there seems to be an excess concentration of proposed plans in this area. I am not sure if this planned over 3 years or 10 years?

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

It seems like proposals for community spaces might not suit everybody. I would like to see some detail around what exactly is planned for community spaces. It's important that all groups are catered for and not just a few.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat disagree

Tell us why

I think there is not enough detail in the proposal to determine whether the focus is going to be on all of the community.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat disagree

Tell us why

Our roads are now a diabolical mess the T2 lanes need to be removed as no one uses them during peak times, congestion is horrendous in Te Atatu South. You won't be able to fill buses with seniors as the bus stops are too far from their homes unless they live on the main road.

6. We have limited resources. What should we focus on most?

Return the roads to double lane access at all times..
The Whau Pathway needs to be pushed forward. Focusing on Henderson Creek is only supports half of the community.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

There doesn't seem to be much planned for Te Atatu South and there are is little access to buses apart from the main road so driving is the only option. I woukd like to use the Whau Pathway which has stopped at Roberts Road. There is a link at Mcleod Park but no plans to link it up. It's more viable than Henderson Creek as cyclists from the motorway.

   Somewhat agree

   Tell us why

   Easier said than done, but by integrating transport and economic development, the community as a whole can move forward

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   My concern arises from the continuing growth of high density housing on every scrap of vacant land. Not a problem in itself, but it brings with it at least one, usually two cars per dwelling, many of which now park on the road. This is a huge traffic hazard, especially near parks and schools.

6. **We have limited resources. What should we focus on most?**

   Liaising with all community groups, as well as higher levels of government. It is important not to duplicate projects, and also to benefit from central government initiatives (if they have any !)

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   I am impressed by the commitment and vision shown in the plan.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   think we should be focusing on outcomes for Māori and Pacifica peoples in our communities. I think any investment in Māori and Pacifica youth is a priority, creating spaces and engagement to help foster belonging will ensure good longterm outcomes.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   We're not going to fix the problems of the world, but we can help to make our community more resilient. Keeping our waterways clean should be a priority.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

Tell us why

I think this speaks to youth, creating space where they can thrive, express themselves and take ownership is important. How this is actually implemented should come from youth. It should be something that caters to a diverse range of peoples.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Like, make things good so someone can set up a shop or a factory or whatever, but it doesn't need to be a focus. I feel like that's a government thing, and they need sot put support in place to help businesses. Local board should be focused on the things the private sector won't be involved in.

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Safety of course, an accessibility. I'd be interested if there was scope for new or changed bus services to get people to the rail stations when the CRL opens. Some places are so close but so far from being able to use it efficiently, it's a great resource that should be maximised.

6. **We have limited resources. What should we focus on most?**

   Youth and environment. Things that corporations won't care about, things that will have positive long term outcomes. Invest in the future.

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   I'm newly moved here and anticipate being her a long time, I look forward to engaging more in the coming years.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Disagree

   Tell us why

   "Diversity is celebrated and valued" superseded the "ensure Māori aspirations and priorities inform and guide local decision-making.", hopefully co-governance is over, we define by law what "respecting The Treaty" exactly means, otherwise people are equal in front of the law, no need to give Maory or Pasifika or Chinese or Indiens ow qhoever special treatment, how about allowin ""China Town" then? How are you going support young and old? Free education / free healthcare - no, so ?? Prepared for "rapid urban change" - literally a "BS" statement, I rettain "resilient to the effects of changing climate"... as that is investing in the drainage and storm water infrastructure - so you had 6 points and barely one actually means something.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

   Sounds great except "kaitiakitanga, ngāhere" and all the Maory nonsense. We all speak English, likely observe our own culture and customs in private at home - I'm really not interested to deal with the Mari nonsense. We develop infrastructure, hopefully not losing

strategic assets to private (including Maori) or foreign ownersip, we all contribute, we all benefit, no Maori nor woke nonsense.

Built environment

3. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Sounds great, development that preserves local identity and character, Maori village or area? - great, more than happy to interact. "Community places and spaces are more accessible" public transport must be developed just without "woke anti car attitude", no bike lanes, just make bus lanes and nice wide roads.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

"Henderson-Massey grows as a key regional centre for the creative industries." How about "industries"? Or you project heavy job loss to automation and outsourcing so we all get into painting, book writing etc.?? Business must thrive or we are "screwed".

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

"Well planned roading and public transport" - GREAT - but depends how is planned.

"Safe streets around schools, neighbourhoods and public transport hubs" OK as long as @AT or hopefully now the Council prioritizes flow over bumpers and we drop these silly 30 and 40 kmh "city center limits", nice wide roads are OK with 50 kmh, OK places like Ponsonby Road might need 40 kmh because going 50 near the parked cars and people jumping btw. them can be dangerous indeed. Should be possible to bring a Lamborghini into CBD and drive 50 kmh, CBD is for the ritch too, we want business, don't we?

"A well-connected walking and cycling network across Henderson-Massey" - OK, good wide, safe pedestrian walkways but NO bike lanes - do nice wide roads instrad, stop "killing" nice 4 lane roads with bike lanes. OK, bus lanes are great so busses beat peak hour, bikes can mostly

use bus lanes. Also, avoid road complexity, high cost roads with all sorts of colors and painted indicators, variable speed indicators, just keep it simple, simple rules are easy to observe.

6. **We have limited resources. What should we focus on most?**

   Infrastructure, drainage / storm water, catchments (climate reziliency e.g. so homes are less likely to be flooded), then of course, nice wide roads, public transport, don't waste money on bike lanes. Public lighting maintained, maybe sligthly extended but don't waste money on CCTV, traffic cameras, speed cameras, differential speed enforcing etc, Police should be able to maintain law and order and sample sppeed checking should be enough.

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I strong support local board initiatives to improve biodiversity and protect waterways and areas of existing native bush. I believe that even more could be done in this area - for example there are large areas of grassed reserve around Henderson that do not serve a recreation function that could be planted with native vegetation.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

I agree. I would like to see more funding put forward for town centre upgrades and placemaking initiatives. For example, Railside Avenue in Henderson needs an upgrade to better prioritise pedestrians and provide a more attractive bus interchange.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

I strong agree, particularly with focusing on walking and public transport, given the Henderson Massey area is currently well served by these modes, and should keep doing more to encourage these movements. I would like to see greater use of pop-up cycle lanes on main roads to encourage cycling and to provide safer access to railway stations. I would also like to see the existing twin stream trails expanded, such as providing a continuous pathway along the Waikumete Stream.

6. We have limited resources. What should we focus on most?

Native planting / street tree planting, park upgrades, creating new walking and cycling facilities within the area to improve accessibility.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Have Your Say on the Draft Henderson-Massey Local Board Plan 2026

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I think the intergenerational relationships need a lot of focus, they build a stronger community.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Agree and this needs to be walkable, focus on walkable cities and third places.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

I want to see more markets, bring back the markets that have shut, with affordable stall prices. Make it available for everyone to be able to sell stuff and make some extra money, build businesses. Allow kids to have stalls too. Waitakere College students business enterprise classes have market days with so much creativity and hard work, they're building businesses that should be supported by the community, not just at school market days. Find ways that the community can give them a headstart.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Yes safe streets, easy public transport, safe buses for the drivers, those guys are not safe at work.

6. We have limited resources. What should we focus on most?

Focus on building things that will allow our community to empower ourselves, things that we can take and run with. Give us the means to build and go from there, make it cheaper for us to get involved, and remove friction. Create ways for us to connect with eachother so we can help and see where suppoort is needed, give opportunities to connect the community. The activities are great, but are often focused at young families, provide activities to draw out the working professionals and young people, so we can have their input in the community too and their presence may help build solutions for the other issues like low employment.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

It was really well rounded with a lot of potential. I don't see a lot of action items though. Maybe part of you planning needs to bring the community and creative together to come up with innovative actions that can help meet these goals. Encourage people to submit ideas, talk to the high school students, they have so much important input and this is their future we're building.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   Every community needs places to meet, safe places to explore, tidy well kept public spaces. Our council should be up keeping all public spaces so they don't look like forgotten areas. This area has a lot of community parks that are neglected & buildings are in states of disrepair.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

   Our waterways are congested with rubbish. More needs to be done to enhance our natural environment. A lot of $ has been spent on bike tracks but even these are not being maintained. We have to be able to maintain our waterways, protect bush land & look after what has already been there for years.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   It is pointless creating new spaces if everything around it is neglected. A lot of the community facilities are showing signs of neglect. I understand there is limited money but surely the upkeep of what is already available would be cheaper than building. Shabby, rundown community places do not enhance our area.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Reliable public transport is essential. Roading that works for keeping traffic moving. We are placing speed bumps, pedestrian crossings with no research into how it is impacting traffic flow. Money could be saved in looking on impact before changes happen. Change for change sake doesn't always have good outcomes.

6. **We have limited resources. What should we focus on most?**

   Fixing resources we already have & focus on cleaning the streets, parks, rubbish removal. That is councils main job.

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   - Diversity is celebrated and valued through annual Diwali and other cultural celebrations that bring people together.

   - Te Atatu South space needs more cafes and restaurants, which will help locals to spend locally.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

   - Increase kerbside and streetscape planting programmes, particularly with native species, to strengthen urban biodiversity and support birds, bees, and other pollinators.

   - This will also provide natural shading and cooling, helping to mitigate urban heat during summer and creating more comfortable, human-friendly public spaces.

- Expanding green corridors along streets will contribute to habitat connectivity, improve air quality, and enhance the overall resilience and liveability of the local environment.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

Strongly disagree

Tell us why

- Prioritise town centre revitalisation and activation strategies, including events, markets like Catilina Bay farmers market.

- Improve urban design, safety, and streetscape quality to encourage more frequent use

- Support local businesses and hospitality offerings to create a stronger destination appeal

- Develop a clearer identity for Henderson Town Centre tied to the local community and culture

- Increase connectivity and accessibility to attract more visitors from the surrounding neighbourhoods

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

Strongly disagree

Tell us why

- Have only seen new townhouses being built, which is not a true reflection of Opportunity and prosperity.

- Insufficient destinations or reasons to attract people to spend locally

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

Somewhat agree

Tell us why

Need signalisation and a proper bus stop at the Edmonton/ Strid road intersection.

Buses need to be on time, every time, for people to make the most of the WX1 link

6. **We have limited resources. What should we focus on most?**

   Henderson town centre should be the primary focus, as it directly influences:
   Local economic growth
   Community safety and activation
   Public transport usage

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   Honestly I can't handle all the detail of the plan but particularly like the attempts to give mana whenua their voice.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Agree, particularly around public transport. Personally find it too tiring and time-consuming to use buses most places as it require two or three changes for even short trips that often do not link up well timewise. A 5 minute car trip from Massey East to Don Buck Rd would take 45 min by bus.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

Tell us why

Sorry but the page numbers don't seem to me to connect with the document. I am extremely concerned about food security in Auckland, with our beautiful fertile soils being built over, fueling overconsumption, leading to further degradation of the earth, and with housing intensification not taking into account the needs of people (eg children's need for active play in a safe environment, hard surfaces and buildings taking up whole sections that increases Auckland's flood proneness, and does not allow people to compost foodscraps in situ- reduces carbon emissions when not transported).

Please include food security in the plan.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

Like this:Work with Council departments and organisations such as Ecomatters

Environment Trust to support local businesses to reduce waste and

emissions in order to compete in increasingly sustainability focused markets

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

6. We have limited resources. What should we focus on most?

Climate change is here. We need to do what we can asap. More connected cycleways-great. Planning and mitigation for storm events. Advocacy for better connected public transport so it feels possible to use, especially for those of us with health issues. Mitigation of soil loss for growing food. Please don't keep building more playgrounds. Can existing ones be refurbished? Would like to see more trees planted in parks instead and protected from weedeaters!, and more natural play encouraged eg. stepping stones, logs etc...
Development of plan to assist local people who are homeless rather than pushing them to move elsewhere.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Ngā mihi nui for doing this work.

Have Your Say on the Draft Henderson-Massey Local Board Plan 2026

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly disagree

   Tell us why

   My Rates are through the roof. What is the Council doing to support Conservative NZ voices?

   Stop with the the DEI woke agenda. Stick to your core objectives set by new Govt guidelines

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly disagree

   Tell us why

   Use science based strategy not feelings based race inspired made up thinking that we pay for and get very few tangible results

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly disagree

Tell us why

Let commercial drivers determine needs. Don't promote woke agendas using my Rates to create an imagined utopia where certain Cult like cultures are held on a pedestal.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

No Race based hen picking of funding and privilege. Equality for all

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat disagree

Tell us why

Dont kill off independence by killing the Motorcar. Cycleways are a huge cost that provides a lifestyle for 1 in a 1000. Tax the Users of them, not me

6. We have limited resources. What should we focus on most?

The very basics - Roads, three waters, town planning (without the frills)

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   I would love to to see mention of Rainbow communities in the local board plan. There are lots of Rainbow identified whānau living in the west, and there is very little to reflect us or connect us.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

I would love to see the Massey town centre given some love, it's hard to get in and out of the carpark. We wish there were more cafes and places we could spend time in as a family, as well as a good playground for the kids around the community centre.

We also would love for the Zita Maria park to be worked on. It was scheduled to be upgraded but it never happened. At the moment it is the closest green space to us but we cannot get to the playground as the fields are water logged and when we walk through it there's water up to our shins. It would make a big difference to our life if the playground was renovated, the drainage issues sorted and a path was created through the park that joined up all the streets backing onto it. In our cul de sac is one of those streets. There are so many kids that play outside in the evening after dinner, they all know my daughters name even though she is only 2. There's no where for them to go so they just ride their bikes around in a circle and have to rush out the way of oncoming traffic.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

I particularly like the mention of solving the high density housing issues around parking and congestion.

6. We have limited resources. What should we focus on most?

Massey. It's overdue support and resource to make it a vibrant place for our tamariki to grow up in

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Disagree

   Tell us why

   There shouldn't be any race-based decision made by any specific non-elected group.

   Peel it all back and focus on what is needed for Rapid Urban growth which you are failing on.

   Water, Roads and access to green spaces

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly disagree

   Tell us why

   Paying for someone to play Music song to trees is not what our community needs. You forget that those communities are paying for this out of their pockets.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

Strongly disagree

Tell us why

Henderson isn't an urban Village we all go to now to Westgate because of Council Lead initiatives.

You have failed to provide access to green spaces unless you drive there you had a 10 year plan to build a walking/cycling bridge to Birdward Pony club my sons were 8 then now they are 18.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

Somewhat disagree

Tell us why

These creative industries are subsidised by rate payers if so then where is the return back to Henderson Massey?

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

Somewhat disagree

Tell us why

You do not understand cycling and keep hiring engineering consultants who know nothing about it.

Shared Paths with driveways, rubbish bins and bumps is worse for cyclists than the road.

People on electric scooters with full-face helmets are clueless as to the damage and death they can cause at 50 km/h to a cyclist, let alone a pedestrian.

You have also unleashed road users onto cycleways on their Ebikes who ride like they drive.

Raised intersections, speed bumps those stupid bumps in Henderson dont protect anyway. Police do, Camera do better driving habits do.

6. **We have limited resources. What should we focus on most?**

Water Roads and access to green spaces

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Get business to drive business. An example that the square at the mall should have been funded by business.

That new cycleway way to nowhere also should have been funded by business.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Overwhelming support for support of local Maori and pasifika needs and recognition including honouring the treaty of Waitangi to the full . Maori Mana Whenua , Matawaka are represented and their voice and aspirations are fully heard . Unfortunately this can be to the detriment of other ethnic groups . Our population is diverse and all voices should be heard.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Whilst out walking it is obvious that real efforts and Great results are being achieved to protect and sustain our natural environment with clear signage of what projects are happening . Sources of pollution are being effectively targeted- The twin streams project is an example . It would be wonderful in the future if all streams and rivers in the ward were once again swimmable.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly disagree

   Tell us why

   The central business district in Henderson in places is a ghetto . It is no longer vibrant or attractive to shop or congregate in Henderson Central business District. A ward and private enterprise partnership needs to be established to reinvigorate the area.

   I see there is more police and security in the area but more needs to be done to make parts of the ward in general feel safe and attractive to visit.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

   Many parts of the ward feel run down and ghettoised . Farvmore needs to be done in terms of economic growth and prosperity in the ward by encouraging more businesses to set up in the ward who will be employed and will want to take more responsibility and pride in working, shopping and connecting socially in the ward.

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   The Te Atatu Peninsula walkway and coastal walkway from Te Atatu South to New Lynn needs to be completed with urgency .

   The train network needs to run all 52 weeks of the year . Far to often the train network is not going ,

   It always seems to be closed during the Christmas / New Year - January period when families want to use it to travel .

6. **We have limited resources. What should we focus on most?**

   The core council responsibilities, roading , libraries parks and recreation. Please advocate for West Auckland and the ward in particular with council to gain more of a share of the overall

funds available. Far too often West Auckland residents are short changed not by the ward but by Council itself . We should not be regarded as a poor cousin to the rest of the city .

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

I enjoy the walking tracks in our ward and use them regularly. Please continue to invite All people to have a say and feel involved in the community. Far too often people still say to a person taking an interest in local body activities to “Get a live” and other derogatory terms , whilst this attitude is out in our community , it should not be encouraged by ward members , it is not a ‘closed shop’. Far too often there are zero audience members at ward council meetings

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly disagree

   Tell us why

   Concern 1: Not enough street lights in key foot traffic areas like Newham Place which connects Bruce Mclaren Road to Sunnyvale Train station and Oratia Path. This road is heavily used by Bruce Mclaren intermediate school students and during winters the street lights on

this road become helpless and hopeless given the geography of this street. The existing lights are installed at a very lower height than normal street lamps which does not spread the brightness to a large area causing low visibility for the road users. The street is mostly steep and just a handful of street lights do not light this steep street. The brightness from the lights do not reach far enough when the height of the lamps are short. Too many accidents have occured in the recent times where pedestrians were also involved as the vehicles could not see them crossing the roads. Both geography and lack of brightness are the key factors to the accidents on this road. Unfortunately, we cannot fix the geography, it would be great if we could fix the lightings to make the street more user-friendly. I will attach the picture of the street during peak darkness days in the winter where you cannot see a single pedestrian walking on the street. The picture has pedestrians but they are not visible due to the darkness and low visibility.

Concern 2: No toilet facilities in the San Bernardino Reserve as it is a major community get-together hotspot for mostly elderly who use this space for light exercises and stretching. This particular area is much isolated from other areas in terms of having a toilet facility. Most of them are concentrated either on the north-east and south-east part of the local board rohe. With growing population and housing in this area, a toilet facility will encourage elderly people to use this reserve confidently without worrying about their health.

Opportunity and prosperity objectives

Not enough street lights in key foot traffic areas like Newham Place which connects Bruce Mclaren Road to Sunnyvale Train station and Oratia Path. This road is heavily used by Bruce Mclaren intermediate school students and during winters the street lights on this road become helpless and hopeless given the geography of this street. The existing lights are installed at a very lower height than normal street lamps which does not spread the brightness to a large area causing low visibility for the road users. The street is mostly steep and just a handful of street lights do not light this steep street. The brightness from the lights do not reach far enough when the height of the lamps are short. Too many accidents have occured in the recent times where pedestrians were also involved as the vehicles could not see them crossing the roads. Both geography and lack of brightness are the key factors to the accidents on this road. Unfortunately, we cannot fix the geography, it would be great if we

could fix the lightings to make the street more user-friendly. I will attach the picture of the street during peak darkness days in the winter where you cannot see a single pedestrian walking on the street. The picture has pedestrians but they are not visible due to the darkness and low visibility.

This street has also got significant housing growth in the recent years leading to population growth resulting in usage of the road.

6. **We have limited resources. What should we focus on most?**

Street lights for making roads safer for the pedestrians and toilet facilities in the newer housing areas like San Bernardino Reserve. Growing population expects these two things from the local board to make their neighborhood more user-friendly and encourage a sense of belongingness.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Disagree

   Tell us why

   Māori & Pacific Islanders are not the majority race in NZ. I don't think it's reasonable to have their culture forced on majority & older cultures & races at every turn. It's time to call increasing proliferation in media, (this form), and public signage to a halt.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Anything that help to keep the environment clean, healthy & green and safe for people is very good

   Tell us why

   Not so much unending roadworks

6. **We have limited resources. What should we focus on most?**

   Keeping communities clean, green & healthy and safe against global warming.

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   Would be very keen to have the noisy hoons disturbing residential areas with their loud vehicle engines, screeching wheelies & music to be effectively stopped with some strong & very effective legal restrictions and effective penalties. More community or police presence to monitor this nuisance in residential areas. Especially in Royal Road, Benchmark Road,, Massey East.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   West Auckland should represent the people who live in it. He tangata, he tanagta, he tanagta. With such a diverse community, showing it through infrastructure, events, artwork etc. is the best way to bring the Henderson Massey community together. We have issues in our community and that shouldn't be ignored, that's why it's important for connection between people's.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   We should continue to reduce emissions by investing in active modes and safe access to public transport. There needs to be more trees and narrower roads to improve air quality. More trails and parks.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   More funding to open spaces and safer spaces including more community engagement around social infrastructure such as urban parks and wider footpaths and trees are also necessary.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Better infrastructure improves economic outcomes. More public transport and open spaces for people to meet.

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   More cycle lanes and pedestrian improvements are needed to reduce heavy congestion during school times. We should lead the nation to a greener and brighter future. Better and safer public transport connections is key. All bus stops should have a safe crossing and a shelter.

6. **We have limited resources. What should we focus on most?**

   Transport and infrastructure particularly for safely moving around Henderson Massey. This benefits young and old.

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   Continue with pedestrian safety, bus stop improvements and intersection safety upgrades. More crossings for elderly and children. Get more students cycling to school safely. Push forward the Lincoln Road upgrade and Henderson cycle lane upgrades.

   Hi there,
   I was wondering if the council has any plans to install a basketball half-court or full court at McLeod Park in Te Atatū South.
   There are plenty of families and young people in the area, and I think a basketball court would be a great addition to the park. It would give kids, teenagers, and adults another way to stay active and make better use of the space.
   I know a lot of locals would really appreciate having somewhere nearby to play basketball. I hope the council would consider it as part of any future park upgrades.
   Thanks for your time!

   I would like to raise a concern about vegetation maintenance in residential areas of Westgate. Many plants and shrubs along the roadside have grown very tall and overgrown. When drivers are turning from side streets onto main roads, these plants often block visibility, making it difficult to see approaching vehicles. This creates a significant safety risk for both drivers and pedestrians. I would appreciate more regular maintenance and trimming of roadside vegetation to improve visibility and road safety in the area.

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly disagree

   Tell us why

   The community's public areas are too cramped, resulting in insufficient activity space per person; at the same time, the construction of infrastructure such as roads cannot keep up

with the pace of urban/community development and population growth, affecting travel and commuting experiences.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat disagree

Tell us why

The road planning is highly irrational and updates are slow, resulting in a poor experience for shops and customers.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly disagree

Tell us why

Public transportation efficiency has not improved. During rush hour, the lack of dedicated public transport lines leads to traffic congestion with private cars, severely impacting commuting efficiency. The roads around Costco are narrow and congested, and the increasing commercial activity is clearly creating significant traffic pressure.

6. We have limited resources. What should we focus on most?

Road planning priority

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly disagree

   Tell us why

   Road planning in our area is too narrow, and the separation of pedestrians and vehicles around local shops is poorly designed. Footpaths are inadequate and often too close to traffic, creating safety risks for pedestrians, especially near retail areas where foot traffic is high. Public transport provision also needs improvement — services are infrequent and don't adequately connect residents to key destinations. I would like to see better road design standards and clearer pedestrian/vehicle separation prioritized in this plan.

   There is also significant congestion at the motorway interchange. I would like the council to consider opening a new motorway access point near Costco, which would benefit residents on both sides of the area as well as customers visiting the surrounding retail precinct.

6. **We have limited resources. What should we focus on most?**

   Westgate Road planning

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Disagree

   Tell us why

   No mention of Deaf and disabled people in the community - value barrier-free access to all parts of community. Majority of Deaf people in West Auckland.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

   nothing mentions environmental protection on safety & health for people to access / use / eat / drink. what's happen to eco-city concept in the past??

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

Increase built place to be more vibe through mixing more residential places to shopping areas & transport areas e.g. Glen Eden & Henderson (already dead towns).

More visual access; providing more equity to allow more deaf & disabled people & older people to take part in community events.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat disagree

Tell us why

key regional centre for creative & well-being / health-focused industries.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat disagree

Tell us why

more accessible & connected for people to walk & cycle around - allow green belt between road / buildings - avoid car congestion in local roads - need to balance green belt & buildings. for people to walk & cycle - you see in Point Chevalier Road to the beach - lovely space to walk around for all uses of paths/roads.

Te Whau Pathway: Please hurry up improving the last section near Tirimoana Road after Roberts Park to New Lynn. We need to walk directly from motorway to New Lynn via

6. We have limited resources. What should we focus on most?

Built areas - mixed proportion of residents in shopping areas for immediate 'vibe' effects in Henderson (feel like a dead shopping area). All accessible & connected via Henderson. and completion of Te Whau pathway.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly disagree

   Tell us why

   I have yet to seen any initiatives from the local board beyond movie night and painting the road blue in Henderson CBD in the past 5 years. I have not seen any special events for Maori, the Pacific Community, and especially the youth of my area including myself.

   I do not think the board has prepared for rapid urban change either.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I agree with this initiative, but the board has not made efforts to remove slash and excess debris from Henderson Estuaries after the 2023 flood nor made community clean up efforts of the environment which are low cost yet highly effective methods of raising awareness of the environment and making tangible effort.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   The local board failed to assist my incorporated society in finding alternative community buildings or securing funding to do remedial works on the existing structure contradicting this focus.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly disagree

   Tell us why

   The council sold the film studio in Henderson severing the ability for the community to vote, decide and build the film studio for the communities future benefit.

   Public ownership would give more say into how films are conducted, where money is spent, and what actually benefits the community rather than for-profit organisations.

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

   The paths need to be widened around Henderson, they are too narrow especially the paths from Pakn'Save Alderman Dr to the Pools for old people and mobility impaired who use walking sticks, wheelchairs, walkers, and the likes. We also need advocacy for a safer and more improved birdwood rd, why is it becoming infilled with new housing if they still utilises one lane roads and the road crumbles during heavy rain. Why is rural infrastructure still existent while the board knowingly consents for more housing designed for an urban environment around birdwood rd. Donbuck Rd needs a double lane extension (ideally a bus lane) to help traffic flows and public transport efficencies. The 12 bus route bottlenecks at Don Buck/Westgate.

6. **We have limited resources. What should we focus on most?**

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   Don't consent on housing that isn't connected to sewage and is forced to use holding tanks like you did for The Red Hills project near Donbuck, and please ensure rural roading like birdwood rd is replaced with modern urban style roading that can cope with additional traffic. The deadtoll on that road is shocking. Or we will all suffer from local board incompetency.

   You signed for these, you agreed to these plans, therefore you should focus on doing what is right for all.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   We have had a lot of the medium density intensification in our area and I am deeply concerned at the low level of people and community design done in these developments. eg in Ranui small units crammed around a carpark for families to live in.

   I have been part of the creating and living in an Intentional Community called Earthsong Eco-Neighbourhood since 2000 and support better Human and community sized development for all. I am hoping that our local board, council planning committee and parliament can ensure that spec builders and developers are governed better to be part of making better quality buildings, developments, and communities that are better environmentally sustainable in Henderson Massey Local Board and all of West Auckland.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

I work connecting neighbours to their Awa, in West Auckland, improving its health and providing better diverse habitat for plants and animals. Neighbours come together to be better connected to each other around doing this mahi.

Built environment

3. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   These outcomes are collectively important because they foster an inclusive, well-connected West Auckland where diverse communities—including Pacific peoples and Māori through strong mana whenua relationships—feel valued, empowered, and supported. Together, they build a resilient and adaptable region with accessible spaces and local decision-making that caters to every generation.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   These outcomes are collectively important because they empower local communities to actively practise kaitiakitanga, protecting and restoring the mauri of Henderson-Massey's natural habitats. Together, they ensure local waterways, harbors, and ngāhere flourish while building a sustainable, climate-resilient community for future generations.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   These outcomes are collectively important for Henderson-Massey because they transform local town centres and urban villages into vibrant, welcoming spaces that reflect the unique identity of our neighbourhoods. By prioritising accessible and sustainable spaces, they bring people together, support local businesses through ongoing growth, and enhance overall community wellbeing.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   These outcomes are essential for Henderson-Massey because well-planned local economic growth and a thriving creative industry drive community prosperity, securing our area's future as a dynamic and vibrant regional centre.

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   These outcomes are essential for local families because safe, well-connected transport and street networks allow children and parents to walk, cycle, or commute with complete confidence and peace of mind. By reducing traffic danger and making public transport more reliable, they create healthier, more accessible neighbourhoods where families can easily connect with schools, parks, and everyday services.

6. **We have limited resources. What should we focus on most?**

   With limited resources, the Henderson-Massey Local Board should prioritize empowering youth through safe school routes and accessible community spaces, alongside deepening authentic partnerships with Māori and Pacific whānau to drive local decision-making. Focusing on these areas delivers the greatest impact by nurturing the next generation, building resilient community support networks, and ensuring our most vulnerable communities are directly supported.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   It would be great to have at least one fully fenced playground in the area particularly for children who are runners and like to abscond. This would be helpful and inclusive especially for children on the autism spectrum as well as for their families. Through attending local autism support groups in the area it is quite apparent there are many children on the spectrum who are local to Massey, Henderson and surrounding areas.

   Tell us why

   Makes sense. Good relationships and partnership with Manu Whenua is important. We should be mindful of the fact that diversity is changing, expanding to more than just Maori and Pacific peoples.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   No surprises here. Very aspirational but I wonder how the Board plans to measure success against these gaols.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

Tell us why

Community space should work for the community. They should be enjoyable to use.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Good PR talk.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

As very generic and high level priorities these make perfect sense. Its so generic that you can't object really as everyone wants safe neighbourhoods, well planned roading and transport and pathways and cycle ways that make sense.

6. We have limited resources. What should we focus on most?

The Environment. This never gets enough support and often left to the work of volunteers. Council does the bare minimum and do little to enhance, protect and regenerate our environment.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

It all sounds very good and honestly it doesn't include anything I wouldn't expect. It lacks detail with no info on how the Board will monitor progress.success against this goals/priorities for the next 3 years.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Hi

I am a resident in West Auckland writing to highlight the serious and ongoing parking crisis affecting our streets.

Grok helped write this for me.

Intensive housing developments in the area have been built with little or no on-site parking. This has forced large numbers of cars onto the surrounding residential streets, causing congestion, safety hazards, blocked driveways, and a significant loss of amenity for existing residents.

The streets now look completely different — instead of neat residential neighbourhoods, we have cars parked nose-to-tail along both sides, which has arguably ruined the aesthetic and character of the whole area.

This issue was directly caused by central government's policy (the NPS-UD) that removed minimum parking requirements from developers. People say existing homeowners and residents did not create this situation and should not have to suffer the consequences.

My proposal is that central government must take full responsibility for fixing the current situation they created. My proposal says they should be required to purchase the closest

residential property (or properties) to each affected development, demolish the house(s), and convert the land into dedicated car parking for the residents impacted by that development. Priority should be given to the nearest house so the car park effectively becomes an extension of the development site. Also trees or other obscuring objects should be arranged so such “car lots” aren’t visible from the road.

I urge the Local Board to lobby central government strongly and persistently to implement this remedial action as a matter of urgency and fairness.

Thank you for considering my submission.

Mark Brownlee

106 Roberts Road

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   It is important that Te Kawerau a Maki aspirations, knowledge and position as mana whenua and kaitiaki of Henderson-Massey is recognised and valued in the plan.

   With regards to review of local events I believe it is important to develop local capacity to plan and deliver events - events that truly reflect the local people and place. It would be great to see our local board advocate to council for the events they deliver to prioritise local deliverers rather than the current one size fits all model that means local organisations/businesses are not benefitting from events held here.

   With regard to supporting rangatahi to be community leaders you might consider a Youth Council and.

   Regarding the mātāwaka marae at Ōrangihina, Te Atatū Peninsula I would respectfully suggest you ensure the aspirations of the community for a marae that provide a place for all, a place of reflection and learning are foremost in your dealings with the competing interests of marae commitees.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   IIt is great to see you recognise the importance of Harbourview Ōrangihina, this is a unique place and of vital ecological, cultural and historic importance. The local board should strongly advocate for its continued progress to restoration and ensure that the shell banks are protected from planned Watercare actions.

   In terms of encouraging sustainable lifestyles it is opportune to look at what temporary land use from flood impacted areas can be utilised for wetlands and community gardens and food forests.

   Ensure any activities delivered by council and local board align with these objectives- e.g The regular event at ~Orangihina that brings in 20+ diesel vehicles to sell unsustainable goods as a 'market' is not a good look!

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   In terms of adding local identity to neighbourhoods you have the momentum to work with the students along Rathgar Road to design and create artworks in the alleyways to make them more welcoming and showcasing the diverse neighbourhood.

   For our town centres to thrive it is important that they are places for people - create places to linger, that can be easily accessed on foot, bike or by PT.

   Advocate that for the intensification we are seeing in Henderson-Massey there needs to be a similar growth in facilities to meet the needs of the people.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Advocate that local events are delivered by local groups.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Strongly support Te Whau pathway completion as major lead in connecting people and place, it provides a transport link to Bus and Train transit, it connects people to the environment and reduces dependancy on private car.

Advocate that the Te Ara Hauāuru reallocates lanes on the motorway for PT- this would mean a much quicker completion, reduces emissions, reduces costs and damage to the environment.

Advocate for bus priority on Lincoln and Te Ataū Road -without it the Te Ara Hauāuru busway will be limited in its impact

6. We have limited resources. What should we focus on most?

Reducing costs by truly being sustainable in what we deliver.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   I said I agree but not strongly is because I don't think that the community is quite ready for a rapid change in the community and could be more prepared for changes, and I think that the Pacific community can still feel cornered and their opinions can be watered down. We need more Pacific people in boards to represent that community.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Although the community is quite clean, there is still a lot of rubbish polluting the local area and we could do a better job in keep the community clean and keeping it clean.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

Tell us why

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Having better transport and better access could lead to less car and road use reducing the air pollution and need for fuel and can be more dependent on the public transport.

6. **We have limited resources. What should we focus on most?**

   Keeping the area clean, helping the community rather than building something that could not be used by everyone

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

Have Your Say on the Draft Henderson-Massey Local Board Plan 2026

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Disagree

   Tell us why

   More work needs to be done on noise control on residential roads in Massey East from loud car engines and loud music played from cars after hours. The noise is not only disturbing for people but is bad for structures of buildings when the reverberation is so loud it shakes the fittings in buildings.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   More could be done by putting clear signage in parks and near waterways to prevent rubbish dumping.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

Tell us why

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   I don't know

   Tell us why

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

6. **We have limited resources. What should we focus on most?**

   Better & stronger control of roads with respect to not only road rules but air and noise control.

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   Keep supporting the public libraries.

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Disagree

   Tell us why

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   There are too many Maori terms, making it difficult to understand the plan, and it appears that most of the projects are for the Maori.

   There is no information regarding plans for other ethnic groups.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   I don't know

   Tell us why

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   I don't know

   Tell us why

   The problem seems to be that traffic lights are absent where they are needed, and present where they are unnecessary.

   For example, the road in Ratanui is rarely used by pedestrians, so a crosswalk would suffice; however, since there is a traffic light there as well, people press the button and simply cross if no cars are coming.

   The pedestrians crossing near the Henderson train station is also used by so many people that it causes traffic jams.

6. **We have limited resources. What should we focus on most?**

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   It would be good to have materials translated into a wider variety of languages.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   I don't know

   Tell us why

   Neither agree no disagree. I feel like there are areas where you do meet the communities need, but there also aren't, like community places and open spaces for everyone. A lot of people think that us as youth are only going to cause trouble, the constant looks and sidewards glances making us feel unwelcomed.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Tell us why

   Neither agree not disagree. Our waterways and forests are not 'flourishing' they are constantly being polluted by rubbish, trolleys, cones, tyres and even sewerage. This also affects our wildlife and other plants aswell.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

Tell us why

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat disagree

Tell us why

Economic growth is not well planned, students earn less than minimum wage, and still have to pay for gas and other needs as well as inflation kicking our asses.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

There is so much that could be improved, such as more bus stops, with shelters and also creating more accessible pathways.

6. We have limited resources. What should we focus on most?

Pathways, street lights, public bus stops, and better environmental health.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Prioritise actually necessary things that could benefit our community and youth. We need the support and could really benefit from it.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   I think community is the most important thing - it's what drives change so making change that brings people together, and creating new relationships between mana whenua, Pacific, literally everyone is important. The reason why I said agree only is because I don't know enough about all the objectives :)

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I care about the natural environment more than anything and I believe changes need to be made to protect our environment before its too late. Local change leads to national change and so on. Anything small we can do is enough for the environment.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

Strongly agree

Tell us why

In order for community to thrive there needs to be a place for it. In movies and TV shows you see thriving communities and town centres but real life doesn't really reflect that - but it could!

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

Strongly agree

Tell us why

Especially the creative industry stuff! I think it's very important that everyone sets opportunities to create or just try - Auckland/ West Auckland could be holding the worlds best new artist but they have nowhere to start.

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

Strongly agree

Tell us why

Sometimes it's hard not to feel unsafe around west Auckland so its definitely important to implement safer transport. Also Auckland Transport is soooo unreliable sometimes it gets incredibly annoying, especially when I rely on it almost everyday just for buses to not come.

6. **We have limited resources. What should we focus on most?**

ENVIRONMENT! If we protect it, it'll protect us back :)

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

No :) Thanks for this opportunity

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Diversity is important and a taonga to protect. We need more initiatives that build and strengthen cultural connection, but also cultural inclusion. It is important to address the overwhelming discrimination within New Zealand's innate community, and be more supportive of each individual as a whole, no matter the difference.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Kaitiakitanga is important to our land and tangata.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

Tell us why

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Arts already plays a major role in NZ's total economic growth.

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Less carbon emmission.

6. **We have limited resources. What should we focus on most?**

   Community - impacts most people. Opportunity and prosperity - builds economic growth and holistic mindsets/ characters.

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   Target youth positively.

   Ignoring our natural environment has led to detrimental outcomes ! I would advocate for a kaitiaki type system for our local parks - one kaitiaki per certain amount of parks or 1 per suburb - they would visit that park on a schedule and advocate for those parks by way of ... are the trees needing pruning .... does the park need more riparian planting... is the playground needing more bark ... they would meet with the locals using the park to see how it could be improved - they would have weed eaters and other tools at their disposal to attend to minor work that needs doing - if there was dumping in the park they would arrange for it to be removed and if there was regular dumping come up with a plan.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   We need connected communities so that people in the community develop relationships and connections to ensure they feel part of daily community life, leading to feelings of safety and security.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Henderson Massey has a great reputation for creative industry so capitalising on that is sensible. Could we look at expanding our creative opportunity to young primary school children in their schools eg art after school programmes in our low socio economic schools. We are heavily reliant on school teachers to provide all aspects of education including sport art etc however as the curriculum has been recently amended there is less time available for artistic endeavours and for families in low socio economic conditions finances may not be available for art classes. By providing these in school eg administered by Corban Estate Art Centre at the school so that children can stay in their environment it would help engage a generation of tamariki with art and the positive outcomes of that would be felt by the community and families!

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   I do agree with all the statements - I have found in Massey in particular that as you age the hills make cycling and uphill walking less attractive - I don't know how you can mitigate the natural environment - we also don't walk in our local area because there are so many loose dogs - we have been attacked in the past.

6. **We have limited resources. What should we focus on most?**

   Focus on providing activities and opportunities for families and the community to get together which encourages community cohesion - family finances are tight and although families and the community may not be able to afford "luxuries" like going to movies etc it is fabulous that

they can still attend one of the free movies in parks etc so that their children don't miss out on experiences.

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Disagree

   Tell us why

   West Auckland is very diverse, and there are communities that contribute strongly to the area, not just Pacific, sometimes even stronger

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Rubbish provision in local parks needs to be reasonable, practical, and aligned with actual usage. Reducing the number of rubbish bins does not reduce the amount of rubbish generated. Instead, it often results in litter being left in grassed areas, bushes, and around sports fields, where it is less visible but still creates environmental, maintenance, and public amenity issues.

   Te Atatū South Park is a good example. Despite being a large park that experiences significant foot traffic and hosts numerous sports games and community activities, there are only two rubbish bins available. This is clearly insufficient for the scale of use. In addition, some bins are located in areas that are not easily visible or convenient for park users, reducing their

effectiveness. As a result, rubbish is frequently left on the grass, around playing fields, and in surrounding vegetation. A lack of adequate rubbish facilities does not eliminate waste—it simply shifts the problem elsewhere and increases the cost and effort required to keep the park clean.

Built environment

3. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat disagree

Tell us why

West Auckland is growing rapidly, with increasing intensification bringing more residents into existing neighbourhoods. While growth is important, it must be supported by practical infrastructure, including sufficient parking. The current shortage of parking causes unnecessary stress, inconvenience, and tension within communities. Planning decisions should acknowledge the realities of daily life and ensure that infrastructure keeps pace with population growth.

The lack of adequate parking provision does not align with the objective of making community places and spaces more accessible and enhancing collective wellbeing. Nor does it support thriving town centres that can adapt to growth, or attractive and vibrant neighbourhoods that people enjoy living in and visiting. As Auckland continues to intensify, insufficient parking can reduce accessibility, shift parking pressures into surrounding streets and public spaces, and create avoidable frustration for residents and visitors alike.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat disagree

Tell us why

West Auckland is growing rapidly, with increasing intensification bringing more residents into existing neighbourhoods. While growth is important, it must be supported by practical infrastructure, including sufficient parking. The current shortage of parking causes unnecessary stress, inconvenience, and tension within communities. Planning decisions

should acknowledge the realities of daily life and ensure that infrastructure keeps pace with population growth.

The lack of adequate parking provision does not align with the objective of making community places and spaces more accessible and enhancing collective wellbeing. Nor does it support thriving town centres that can adapt to growth, or attractive and vibrant neighbourhoods that people enjoy living in and visiting. As Auckland continues to intensify, insufficient parking can reduce accessibility, shift parking pressures into surrounding streets and public spaces, and create avoidable frustration for residents and visitors alike.

6. We have limited resources. What should we focus on most?

Given the current cost-of-living pressures facing many households, investment decisions should prioritise essential services and infrastructure that directly support residents' day-to-day needs and wellbeing. Core services such as transport, parking, parks maintenance, waste management, public safety, and community facilities should take precedence over projects that are desirable but not immediately necessary.
While long-term improvements and amenity upgrades have their place, it is important to focus limited resources on delivering practical outcomes that people rely on every day. Many Aucklanders are already facing financial pressures and expect rates-funded services to provide tangible value. Prioritising key services first will help ensure communities remain functional, accessible, and well maintained, while less critical initiatives can be considered as funding and economic conditions improve.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

The draft Plan would benefit from a stronger focus on the practical issues that affect residents' day-to-day quality of life. While long-term aspirations are important, greater emphasis should be placed on delivering and maintaining core services and infrastructure, including park maintenance, rubbish collection, community safety, vandalism prevention, parking, and other essential services that people rely on every day.

As the Henderson-Massey area continues to grow and intensify, it is important that infrastructure and public services keep pace with population growth. Residents need accessible parks, sufficient rubbish facilities, adequate parking, safe streets, and well-maintained public spaces. Inadequate provision of these services creates unnecessary frustration and can reduce people's ability to fully enjoy and access their local area.

The Plan should also place greater emphasis on addressing vandalism, graffiti, and deliberate damage to community assets. Parks, playgrounds, sports facilities, and public spaces should be safe, clean, and welcoming. Prompt action to prevent and respond to vandalism will help protect public investment, improve community wellbeing, and encourage greater use of local facilities.

Given the current cost-of-living pressures facing many households, investment decisions should prioritise essential services and infrastructure that deliver clear and tangible benefits

to residents. While amenity improvements and new initiatives may be desirable, the focus should first be on maintaining and improving the core services that communities depend on every day. Nice-to-have projects can wait; ensuring that neighbourhoods are safe, accessible, clean, and well-functioning should come first.

The Plan should also recognise the cumulative impacts of intensification on established neighbourhoods, including increased demand on parks, public facilities, transport infrastructure, and parking. Growth should be accompanied by practical investment that supports both new and existing residents and maintains the quality of life that makes Henderson-Massey an attractive place to live.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I think the objectives are sound, however, living in West Auckland we are seeing an increasing number of immigrant families and I think work needs to be done to somehow integrate these people into our communities, I don't see this happening. I agree that strong relationships with mana whenua are important as are members of our Pasifika community. Community houses and community based organisations play an important role and need to be well funded to continue their valuable work.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I agree in principle. We need more education of our rubbish collection service, what should go in which bins, food scraps and the benefit of these. We're also seeing a lot of rubbish dumping. Protecting our natural environment is vital and needs to be well funded, volunteers are doing excellent work but we also need more council support.

Built environment

3. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Agree in principle. Not happy about poor urban planning, ugly townhouse development with no green space or trees. These houses are often 1 room wide and 3 stories high, unsuitable for older people of young families, lack of parking means cars are parked over the footpaths. Can see these development becoming slums in time. Green spaces, trees and playgrounds need to be incorporated alongside all new housing developments with better planning and design.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Local businesses are vital however, difficult to develop in current economic climate. Young people need local employment opportunities. Opportunity to further develop and support creative industry in the West through Corban Arts Centre.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Good public transport is essential. Would like to see park and ride available with development of western busway, Need good and affordable bus and train services and more cycling networks. Concerned about so many young children riding bikes with no road sense, no helmets and speeding cars in our Ranui neighbourhood.

6. We have limited resources. What should we focus on most?

Difficult as all are important. I see strong communities as key to health and welfare plus the importance and support for our natural environment.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Overall, feel our Massey/Henderson local board has achieved a good plan, they will need good support from national and local government in order to carry it out.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   I don't know

   Tell us why

   I feel that not enough is done to preserve mature trees when terraced houses are built. It takes decades to get trees to grow to a reasonable height to provide shade, clean the air we

breathe and so on. Also the new built do not give adresse to enough sunlight for the suburbs to remain attractive.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

I don't know

Tell us why

I think the priority should be on reopening the waitakere ranges more. Community level enjoyment of green areas is essential to community well being.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

I don't know

Tell us why

As long as travel by car is not impended. Not everyone is young enough and able to walk long distances, use a scooter, or bike.

6. We have limited resources. What should we focus on most?

Make our area as green as possible including reopening more tracks in the Waitakere and making sure the newly built areas retain mature trees and provide sunlight to all units. Each inhabitant should see the sun for most of the days, be able to see trees and the blue sky from their windows, and be within 300 m of a shared green space.

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

6. **We have limited resources. What should we focus on most?**

   Invest jn Pasefika hub - an intergenerational hub

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   Bins are too small..our community is living in intergenerational arrangements, more than 6-9people per household, so the current bins only fit one rubbish bag and rest are piling up on top of the bin. Dogs eating rubbish causing rubbish on the street. Youth engagement/transition pathway is also missing fron the plan. Women are not being acknowledged in their leadership in the plan. Need to see an investment in women.

Submitter details:

Organisation: N/A

Local Board: Henderson-Massey

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I strongly agree with the objectives, a great list. I would place mana whenua first in the list. The goals are great, but I would like to see some deliverables with them!

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   I agree with the idea of community leadership, but unfortunately the small efforts that our community can achieve are dwarfed by larger problems that require a more structural approach. For example, community groups weed and plant to protect the awa, but then continued sewerage overflows ruin any water quality outcomes we may possibly achieve. The solution needs to start higher up, at the level of Council/HW/Watercare being responsible for running the network to specific benchmarks. I think it's outrageous that there are actually no goals around having clean water. Dirty water is just an accepted feature of living in this city. That has to change at Council - then community groups can do their work.

Other problems similarly need a larger approach - transport, pest control, energy resilience, flooding - very little that community groups can do here. So let's not pass the buck, this is a job for paid staff, not volunteers!

The planned stormwater system upgrades in Te Atatu Peninsula are a case in point. Council and local board profess to support a sponge city approach, but the actual planned upgrade is simply bigger concrete pipes that will allow more contaminants to enter the rivers and harbour. No amount of planting, weeding, monitoring and kaitiakitanga of the peninsula will be able to counteract that. Healthy waters needs to be held responsible to deliver on the sponge city vision, protect what little natural environment remains, and restore more area to active green space full of biodiversity. The current plan is to put an existing, living stream into a concrete pipe - this is unconscionable.

So I would ask Council to listen to community groups, but support and empower their work by making the right structural decisions at the higher levels, so community groups don't run themselves ragged trying to salvage what is left. Thank you!

Built environment

3. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

The goals are great, but the outcomes we currently live with are not, so it's hard to square that circle. With its limited budget, what can the local board realistically achieve for our local centres? I would love to see a renewed revitalisation effort in Te Atatu South, which has stalled.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Yes that would be great! More opportunities for young people are key.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Strongly agree, we need to reduce the use of private cars and offer real alternatives to get places across HM. Traffic is now so bad even on weekends that families are seriously hampered enjoying their lives.

What is the plan with the Northwestern busway? Bus priority on the motorway should be enabled on existing roadspace right now - please do not build a giant flyover across the Te Atatu interchange.

6. We have limited resources. What should we focus on most?

1) Public transport - more bus priority on the motorway and feeder roads, so that taking the bus becomes the better option.
2) Restoring nature - the West has seen radical intensification,a nd we have lost tree cover and green space. We must protect what is left, restore biodiversity, and protect from flooding, with modern sponge city initiatives.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Thank you for your work, I recognise it's not easy with the very limited resources allocated to local boards and the huge need in every area of Auckland. Please continue fighting the good fight for our area - we have taken a lot of intensification and have not really seen any beenefits in returns. Clean water, thriving green spaces, active community spaces and groups are what makes the place liveable. Ngaa mihi!

Submitter details:

Organisation: N/A

Local Board: Henderson-Massey

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   - I support anything that enhances Westie pride! I support the focus on Pacifica, Māori, young and old accessibility, climate resilience and thriving community spaces.

   - I am disappointed to see a lack of focus on Rānui, Massey and Swanson, and want these town centres to be just as thriving and prioritised as Henderson and Te Atatū Peninsula.

   - I want to see more tangible targets in this plan - for example: an increase in the number of Māori place name restoration with storytelling opportunities attached, the number of sports fields and playgrounds made climate resilient, and number of local art projects supported.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   - I support this and urge the Local Board to go further. It is disappointing to see cuts towards the conversations of our blue and green spaces. It's great to see Twin Stream prioritised

- More funding to local groups who are already doing restoration and minimisation work.

- More tree cover, especially around cycle and walking paths, and street footpaths.

Built environment

3. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

- More focus on Massey, Rānui and Swanson who are missed on this plan.

- Making Lincoln Road a more pedestrian-friendly place through larger, protected footpaths, protected cycleways, tree planting and greenary to keep it shaded and cover from weather elements, more art and murals, and a tram that connects the bus station to Henderson. Getting people out of their cars means they will go to the local businesses, and there are already many day cares and schools around that could use improved child safety by having less cars and more walking options! Lincoln road could be a beautiful 'greenway' running down the heart of our local area, connecting all the surrounding suburbs.

- we have a very high unemployment rate of people not in education. A target should be decreasing this number and increasing the number of local jobs to our area.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

- I agree with this but I do not think the economic growth has been well planned and supported. We have see a lot of housing intensification without the infrastructure and economic growth that needs to accompany it.

- We need more jobs out West

- Better public transport options for people to commute to where they work elsewhere in the city

- We need prioritisation of our less-wealthy neighbourhoods, instead of continuing to give the wealthier neighbourhoods, like TAP, all the support at the expense of quickly growing suburbs, such as Massey and Rānui.

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   - I agree with all of this but want to see tangible outcomes, not just vibes.

   - Te Whau path needs to be prioritised, with protective tree planting around it, and connections into the nearby schools, bus hubs and local shops. Completing Te Whau is an easy win that would make a huge difference.

   - Lincoln Road had huge potential but currently is car-centric and a hostile place for walkers and cyclists.

   - Advocate to AT for more reliable buses and trains. Give people more options to park their cars at bus and train stations to encourage use, and ensure they can park for free to not add to people's increasing costs.

   - While the NZTA is leading the Northern Busway protect, I believe this local board should advocate for the busway to use the road already existing, and instead use that $5b on measures that get people onto those buses, such as carparking options and free fares.

   - More cut-throughs to make it easier for people to access bus routes, shops and schools.

6. **We have limited resources. What should we focus on most?**

   Transport solutions and environmental protection.

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   There is a lack of energy discussion in this plan, which is a big gap. The local board should be working to improve our energy resilience. The LB can support our transition to renewables, exploring council-funded programmes to support solar panel purchase, participate in local energy trading and installing solar on council buildings.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I think the objectives repond well to the community context provided in the plan. I especially support the objective that "Communities are prepared for rapid urban change and supported to be resilient to the effects of a changing climate". As well as reviewing and regularly updating the emergency readiness and response plan and the local climate action plan, I would also like to see continued emphasis on progressing actions outlined in those plans (as per the objective in the Natural Environment section of the board's draft plan "Our communities are resilient to climate change and know about ways to incorporate sustainability into their daily lives".)

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I especially support the objective "Our communities are resilient to climate change and know about ways to incorporate sustainability into their daily lives" and the action to "Support community-led initiatives and projects that encourage sustainable lifestyles, reduce waste

and strengthen climate resilience". In addition to environmental outcomes, climate actions often have multiple benefits for our community including health and financial co-benefits. For example, as well as reducing emissions, cycling instead of driving a fossil fuelled vehicle can improve health and reduce household costs.

Built environment

3. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

I've interpreted objective to make community places more sustainable as referring to all facets of sustainability, including environmental sustainability. There are lots of opportunities to install solar on our facilities and I support initiatives like the West Wave refit that will reduce both climate emissions and operating costs. I strongly support the intent to progress neighbourhood transport initiatives that enable safety and better walking and cycling connections. I also support initiatives that enable our community to use this safer infrastructure such as the Henderson Bike Hub that removes barriers to cycling by helping community members to access and maintain a bike in a safe to ride condition.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

I strongly support all objectives and especially the objective to support local businesses and suppliers. There are sustainable business opportunities that can help businesses reduce climate emissions (climate pollution) and improve their bottom line. Blue Star Group is a shining local example of this and I would like to see sustainable business practices encouraged in the board area.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

I strongly support the objectives, especially the objective of "A well-connected walking and cycling network across Henderson-Massey". I also support initiatives that enable our community to use this infrastructure such as the Henderson Bike Hub that removes barriers

to cycling by helping community members to access and maintain a bike in a safe to ride condition.

6. **We have limited resources. What should we focus on most?**

   I strongly support the objectives in the plan that enable climate action as they can achieve multiple community co-benefits. For example better walking and cycling connections can help people get to more places without having to use a fossil fuelled car, which reduces emissions, improves health, and has tangible cost savings for households. Local energy generation, switching from non-renewable to renewable energy sources, and home energy efficiency can reduce emissions, improve health and result in tangible cost savings. Local food production can can enable resilience, improve nutrition and reduce living costs.

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   I agree with all of the community objectives in the 3 year plan. I would like to see more of a focus on the aged (not ageing) population and better access by mobility scooter, walking to Henderson Square, main street, library, pool. Interlinking pathways/accesses need to be wide, safe and easily navigated. Walking the main street of Henderson centre could be made more pleasant. There is an increasing aged population that could bring more economic support and activity to Henderson centre. The main street and access to the centre is dismal, windy and too difficult to navigate for people with any kind of diminished function (not necessarily elderly!). The shops are depressing. In my lay person's view, there is an opportunity for bringing people into the heart of Henderson that hasn't been included in any kind of urban plan.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

The natural environment is critical to everyone's wellbeing. It is important that the people making policy and decisions about funding (ie. politicians and Council staff) actually experience residing even temporarily in areas where new housing is built that is entirely inappropriate (due to flooding potential etc). It is vital that property developer's plans are scrutinised by a team, not an individual, and that urban designers are heard and allowed to make decisions that are maintained into the future.

Built environment

3. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

I would like to see more of a focus on the aged (not ageing) population and better access by mobility scooter, walking to Henderson Square, main street, library, pool. Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

The policies sound good and appropriate. I would like to see the plan for ensuring it happens!

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

6. We have limited resources. What should we focus on most?

My suggestion is to focus on completing projects that are in progress rather than dreaming up new policies or objectives and spending time and resources researching those. Look for the source of the objectives. For instance,

1) improving economic opportunities for everyone will also improve safety, add more financial activity to the region which will enable other projects to be completed.
2) creating options for people to move around the region freely will also enable more people to work (including volunteer work) and spend money. People-activity will improve attitudes and function for everyone, leading to improved wellbeing for everyone... which in turn, leads to improved economics etc.
3) make it a level playing field so everyone feels valued, vital and receiving (whatever that might look like). This will require a deliberate strategy to develop community cohesion, an identity.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

No

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Excellent focus on diverse communities, with particular mention of mana whenua and Pacific communities.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Climate change resilience is very important to me. Taking care of our environment is vital in this. Re pollution, it would be good to get to the bottom (pardon the pun) of the regular sewage overflows near Taipari Strand, Te Atatū Peninsula.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

Tell us why

Town centres are vital for our city's resilience. The more people who can safely walk or cycle to local town centres or local shops for their daily needs, the less the traffic congestion and associated pollution, and the stronger our communities will be. I'm very happy to see mention of the Te Atatu Town centres master plan, which has been in the pipeline for many years.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

See my answer for number 3. Also, I think a focus on our creative industries is something unique about west Auckland, something we can be really proud of. It should also be able to provide employment for young people. This may necessitate rigorous advocacy at a governmental level to ensure our film industry is well supported,

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Particularly pleased to see mention of Wai Horotiu. This is a glaring gap in the otherwise really good network of paths, the sooner this gap can be plugged the better. Also pushing Te Whau pathway forward, it really is a shining light in our rohe, and in my opinion should qualify for some tourism funding. Building walking and cycling links to stations (and bus routes, inc the new busway) is vital; the first and last leg for many people are not perceived as safe or convenient. Gaps destroy a network. Safety must be a priority when building infrastructure. Separating walking from cycling where possible and both of those modes from vehicles should be a priority. Especially around the motorway network; where walking and cycling goes near off-ramps and on-ramps, they should be grade separated. I've seen too many near misses (between cycles and cars) at Te Atatu on-ramp. The old Waitakere City Council started some really excellent local walking and cycling links, and I'm pleased that HMLB is pursuing the same. When paths and links are being designed, please focus on accessibility; there is some older infrastructure that is not accessible for wheelchair and mobility users (eg Hilwell Drive has no accessible access to Paremuka Lakeside park). Design for wheelchairs, adaptive bikes and large pushchairs, please! Re accessibility; lift size at stations is really important - even the new lifts at Henderson station aren't big enough for a cargo bike or an adaptive tricycle. This will be really important when our at-grade rail crossings are closed or replaced. I know an upgrade to the northern section of Henderson Creek path is in the pipeline - should this be mentioned specifically here? This will be very welcome for bigger volumes of foot and wheel traffic, and for anyone using the path at night.

6. **We have limited resources. What should we focus on most?**

   Walking and cycling links to town centres and transport hubs, climate resilience and support of town centre upgrades and revitalisation. Local is vital!

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   Great work, I feel very lucky to be in HMLB area with a really good, dedicated and caring local board.

Local Board: Henderson-Massey

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I support these proposals because they promote inclusion, celebrate diversity, strengthen partnerships with Māori and Pacific communities, and encourage participation from people of all ages. I also agree with preparing communities for urban growth and climate change while ensuring community spaces remain accessible and welcoming for everyone.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I support these priorities because protecting our environment benefits everyone. Caring for waterways, forests, and biodiversity helps preserve these places for future generations. I also support helping communities become more resilient to climate change, encouraging sustainable everyday practices, and reducing pollution to create a healthier environment.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   I support creating accessible, sustainable, and vibrant communities. However, I am concerned that some new developments are replacing open spaces and car parks, making town centres feel more crowded and less spacious than they used to. I think it's important to balance growth with preserving open areas, adequate parking, and the unique character of our neighbourhoods.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I support planned economic growth that creates local jobs, helps businesses succeed, and benefits the community. I also support encouraging creative industries, as long as growth continues to meet the needs of local residents and is balanced with infrastructure and community wellbeing.

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I support improving walking and cycling networks, public transport, and road safety. Safe streets and well-planned transport make it easier for people to travel, especially around schools and busy community areas.

6. **We have limited resources. What should we focus on most?**

   Priorities would be creating more local jobs, improving road and public transport infrastructure, keeping streets safe around schools and neighbourhoods, and protecting open spaces and adequate parking as the area grows. I also think investment should support local businesses so residents can work closer to home and the community can continue to thrive.

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

Overall, I support the vision of creating a safe, inclusive, and thriving community. As Henderson-Massey continues to grow, I encourage the Local Board to ensure infrastructure keeps pace with development. It is important to protect open spaces, maintain adequate parking, improve roads and public transport, and create more local employment opportunities. I also hope the Board continues to listen to residents and balances growth with preserving the character and liveability of our neighbourhoods.

Local Board: Henderson-Massey

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   I like the proposed actions around parks being open and accessible - I would make the addition to focus on safety, especially towards the evenings. This includes making sure parks are well-lit and well-equipped with CCTV, emergency phones, and whatever else will help make parks safer for all ages.

   I also like this goal: "Look for opportunities to empower rangatahi as future community

   leaders to take part in local decision-making ". I would be interested to see how this is applied and executed. My current suggestion is to invest in the youth council of the Henderson-Massey area, bring together more youth in safe spaces to be involved in democracy and leadership, and offer them spaces where their voices are valued. This could include having after-school meet-ups with the local council, for example.

   I also appreciate the goal of having communities better understand urban development processes and how to engage with council on these issues. I would add maybe more promotion of the filing of local issues (e.g. filing an enquiry about an area that is flood prone). This is something I have only recently done for the first time and appreciate Auckland Council's prompt and clear response. I hope more people could be aware of this tool, especially youth,

Community objectives

2. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

I like the nature-focused goals here, and appreciate the planned integration with wetlands and natural flood prevention. I also appreciate the target on preventing further contamination from sites of pollution.

With this goal: "Continue to develop a community -led eco -designed plant nursery

on the old Glen Road nursery site at Te Rangi Hiroa Park" I would add or have within this a community garden/plant pantry, if this is not already a part of the nursery. After viewing the Whau Local Board plan, I think building food/plants for the community could be a great way to promote healthy living, food resilience, and nature.

Built environment

3. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

I like the sound of an updated Henderson Town Centre, but it must be carefully thought out to consider the dual uses of cars and pedestrians. Previous infrastructure around Westcity mall with planters and redirected traffic was not appreciated by local people and should be carefully constructed based on need and purpose.

I also appreciate this goal: "Identify and progress neighbourhood transport initiatives that improve safety, such as walking and cycling paths and speed calming measures" and would add, if it is within the scope of Auckland Council, to advocate for more transport within the Henderson-Massey area with busses. As a university student, a direct-to-city/university bus from Henderson station would be particularly beneficial.

I would also add that high-density areas around the new Edmonton Rise development need to be carefully restructured. This area is already busy as it is near schools, the motorway onramp, the mall, West Wave, the park, PaknSave, and more. The roundabouts in these areas will only get busier, and the street leading up to the motorway onramp also will get more congested when people move into this housing and the traffic lights/cross walk starts functioning. I am worried about traffic, safety, and ease of access in this area.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   I like the economic focus on the creative hub of Henderson an the goal of "Work with Auckland Council Economic Development Office to develop Te Puna Creative Innovation Quarter."

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   I very much agree with the following goal: "Improve walking paths to Henderson town centre from the City Rail Link platforms." Doing this will support students, shoppers, work-goers etc. I might add that some focus could be extended out to Swanson, Ranui, and Sturges Rd as these stations are unconnected to the other line that continues to connect up to Grafton (which is a frequented stop as a uni-goer).

   A big yes to this goal as well: "Make it easier for people to get to and from public transport , focusing on the "first and last leg" of that journey. Improve of public transport journeys." My current journey is a 143, train to Grafton, and 70/75/321 to university campus. During train shutdowns this is tricky to manage. With the CRL opening it will also impact my ability to arrive at Grafton. I have also noticed (as well as family noticing) a lack of communication about busses that are not arriving at Henderson even though they are listed on the app/at the station itself. Communication is key and needs to be improved.

   I also heavily agree with this goal: "Develop a response programme for storm -related road risks." Unprecented weather events are becoming more frequent and need to be addressed. Surface road flooding that can be a major issues for cars and pedestrians are not adequately marked or cordoned off during wet-weather events. Possibly signs/measures should be taken to help road users notice, identify, or avoid these areas altogether.

6. **We have limited resources. What should we focus on most?**

   I think Transport and Urban Development with new high-density housing should be top priorities, alongside boosting flood resilience and resistance. These will have the best and longest high-term impacts across all sectors and will help improve the quality of life for those in the Henderson-Massey area. This, alongside investment in young people and businesses will help our area thrive.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Please continue to focus on transport and connecting up the West, center, and other parts of Auckland. The CRL is an awesome step forward, but I would like to see more support for less accessible areas and for the "legs" of journeys as mentioned in a previous goal.

I enjoy living in the Henderson area because I feel safe, public transport is generally reliable, and there are things to do, see, and enjoy. I would hope to see Henderson mall (WestCity) continue to thrive as an economic hub, alongside the Town Centre. I would also like to see safety improvements at Henderson Station the bus station in particular. I think Henderson Staation as the capacity to be transformed into a larger hub, such as New Lynn, with added bus routes connecting us up to more places. Currently, however, the area does not feel safe or well-protected, especially with the constant presence of preachers, as well as drug users late at night. Security, lighting, shelter, CCTV, and more can help with this.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   It allows community to bond and truly get close to each other. Allowing community to strengthen and to form better environments for each other.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   The environment is a strong aspect of life. Thus, we should find ways to refresh and nourish it.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

Allow more accessibility for everyone not just those able to get around.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   It's always good to support locals etc, but there are more pressing issues.

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Transport is terrible bad right now, connections, fees. The objectives relieve the pressure of getting places.

6. **We have limited resources. What should we focus on most?**

   Transport

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   Cool to see that you guys are targeting certain parks already.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   When we celebrate our diversity and provide open spaces for the community we can strengthen the connectedness of our communities. We can do this by holding cultural festivals and making more free open public spaces.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   It is important to take part in restoring our environments to prevent or minimise/ reverse the affects of climate change.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

Tell us why

Free community spaces will encourage more people to meet together in-person and strengthen and build new relationships.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

We can improve in an economic aspects by supporting local business and buy products made in NZ.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

We can improve our transport by investing in faster and more efficient pathways, interconnected walkways and better planned roads to reduce traffic.

6. We have limited resources. What should we focus on most?

Opportunity and prosperity objectives

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   New Zealand is a diverse nation therefore it must be celebrated. Creating accessibility for open spaces would be great so everyone in the community can be included.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Having kaitiakitanga as the main value for natural environment objectives would uphold Te Ao Māori values and help the environment.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

I think that change is always inevitable. But accessibility should be the main priority, to create stronger communities.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

The way to combat economic issues would be well planned out initiatives. Also local economic growth will affect me and my family, who have been living here for 20+ years.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

We need school roads to be safer and infrastructure sooner rather than later. Also well planned roads so I can drive efficiently.

6. We have limited resources. What should we focus on most?

Economic growth (or transport which could fall within that category)

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Movie night in the park pls!

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   I think its good that everyone is included and represented appropriately in their communities, as it is one of if not the most major factors in building individual & community identity. Both culturally and by age/ generation.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   I think communities do have a good way of protecting the environment, and do know relevant information for it, however there is room for improvement.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

Tell us why

There are communities which have a clear identity and others that don't. Even in the ones that do, there will always be people who don't feel it represents them individually. There could be other things set in place to improve this reflection.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

I don't know

Tell us why

I don't know.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

It's important to make convenient ways of transport for everyone in the community, as it benefits everyone for time, energy, and also is an incentive for people to use public transport and get to their homes.

6. We have limited resources. What should we focus on most?

TRANSPORT!!! Benefits the most, for the most.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

No

Have Your Say on the Draft Henderson-Massey Local Board Plan 2026

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   I am not Pacifica or Māori myself so I cannot speak on their experiences nor am I well knowledged about their situations. However I can acknowledge the spaces and communities where I do fit and appreciate them. It's important for people to feel safe.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Could definitely be improved.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

There are multiple community buildings and spaces that I enjoy.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

   It's quite difficult for the youth to find and obtain job opportunities and experiences.

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

   While I appreciate the numerous forms of public transport, there are many times when they consistently don't show up at its scheduled time. There are also some areas where I feel could use more bus stops.

6. **We have limited resources. What should we focus on most?**

   Job opportunities and road works.

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   I believe that the community needs in these areas are well tended to however, I feel that we could do more within the youthful communities. But I feel that our diversity within our communities are well represented and are inclusive.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   I believe that our local board objectives in this area is well established and confronting keeping our natural environment sustained using Māori values of kaitiakitanga.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

Tell us why

I believe that this should be a normal in general.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Very confronting. Well established system to the community's economical status.

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I feel like this is a great way of tending to this area. Transport in this society is significant and should be accessible to all.

6. **We have limited resources. What should we focus on most?**

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   Our land is very important and I mihi Māori have the most important say as it our land so we deserve input.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   The land is dying and as the people destroying the environment, it is our job to do our part in protecting the environment,

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Supporting small or struggling communities will bring communities together to stuff.

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   As someone who uses public transport all the time it is important all the equipment are up to par. It is nice and roads are nice as safe more people would go out.

6. **We have limited resources. What should we focus on most?**

   Focus on helping our environment

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   No

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I think this is a great way to ensure that the wider community is included, supported, and protected. I love how we are accepting of different cultures and empowering them while acknowledging your most significant contributor to West Auckland. Being informed by things like climate is essential knowing it can affect our daily lives alot as well.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I think this is great because this touches the lives of every living being around this community/ environment, so ensuring our surrounding/ environment is healthy, we too can thrive, Also knowing people live closer to waters or anywhere risky can be protected by this when climate becomes extreme.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I like how more to almost all are able to access things now that makes everyone get a sense of belonging and acceptance. Its just townhouses may cover entire city we must ensure there are other styles.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I appreciate how the money that are possibly collected from our taxes are being used for purposes that are sustainable to everyone and the environment, rather than things that make negative impact. I hope there will be more job opportunities.

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   The accessibility of transportation is important and has been effective for safe and positive experiences. I hope though they can control those who aren't necessarily paying and/or can harm others inside the trains/ buses to ensure safety of everyone including those who work in this industry.

6. **We have limited resources. What should we focus on most?**

   More affordable transportation for those who have to use it daily+ students. Focus on students.

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   No

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   These objectives is really helpful as it strengthens the idea of community having a connections with each other. And by this way, everyone would feel a sense of belonging and feel welcome in the environment they are in.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I strongly agree because I believe that this would really protect our environment. Protecting the environment would do with the concerns of some people.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

Tell us why

I strongly agree since this is a good opportunity and it encourages people more in their every day lives knowing that government is listening on their opinions and concerns.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

This is a great proposal as it really shows they have a plans to improve the economy and they do really care about us

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

I like it because it makes peoples lives easier, especially those who's using transportation. People will also feel more safe.

6. We have limited resources. What should we focus on most?

Have no idea.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Not much,

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Tell us why

   Why should the interests of the Maori be taken into account?

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

6. **We have limited resources. What should we focus on most?**

   We should base our efforts on the economy; only with a strong economy can we attract more funds. With economic strength, we can achieve other goals. Otherwise, it's all just empty talk.

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   I believe the three-year election cycle should be changed to five years. This is because when a ruling party comes to power, the first year is spent revising the policies and goals of the previous administration. The second year involves some practical work, and the third year is spent campaigning and re-election. The actual time for getting things done is only one year.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   To build a harmonious society, everyone should contribute and work together to ensure New Zealand's long-lasting prosperity.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Environmental governance is everyone's responsibility; the environment is a fundamental condition for human (and other living things) survival.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   To meet people's needs, provide them with the conditions to contribute to society, and promote social development.

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Guaranteed employment and good travel conditions

6. **We have limited resources. What should we focus on most?**

   It is recommended that the length of no-parking yellow lines at intersections be increased, or that parking be prohibited on only one side, to avoid two-way traffic congestion. For example, at the Matuhi Rise intersection, the no-parking yellow line is short, causing frequent traffic jams during rush hour.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Reason: Supporting multiculturalism allows all residents to participate in various community activities.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Reasons: Protecting rivers and forests is very important; supporting environmental education and emphasizing pollution control are crucial.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

Reason: Community development is the better approach; proper planning for community development is key.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

I agree, because the economy also needs planning, and creative industries are essential for driving community economic development.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

I agree that the Xuyao development plan is good and will benefit the residents.

6. We have limited resources. What should we focus on most?

Prioritize community safety and transportation convenience

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

The western district lacks a large community activity center and hopes to build one to benefit residents.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Reason: To support multiculturalism and enable everyone to participate in community activities.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Reason: Protecting rivers and forests is important; supporting environmental education is crucial.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

Reason: To protect rivers and forests, and support environmental protection. Development is the only way forward.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

I agree, because the plan supports the economy, and the creative industries can revitalize local development, which hopefully will benefit residents.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

I agree, because development requires planning. Creative industries can boost the local economy and benefit residents.

6. We have limited resources. What should we focus on most?

Prioritize street safety and traffic convenience

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

The hope is to build a large community activity center to provide residents of the western district with a good place for activities.

   Strongly agree

   Tell us why

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   we have heaps of polluted waterways that need urgent care. all streams around west auckland are not healthy.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

Kids are no longer playing safely outside their homes because all the townhomes are so congested and the roads smaller as the townhouses have no offstreet parking making the side streets more congested.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Tell us why

so many small businesses are not surviving and it doesn't make the suburbs look appealing or homely for the locals there

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

wider footpaths for walkers, cyclists, runners

6. We have limited resources. What should we focus on most?

Focus area 1. Community

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   I don't know

   Tell us why

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   I don't know

   Tell us why

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

   are accessible, the roads are always clogged and its getting harder and harder to get around, people are becoming more violent, no patients (sic), no respect

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly disagree

   Tell us why

   it's over populated. all these box houses going up everywhere, so they park on the streets, making it hard for cars to navigate, causing friction, road rage and "yes" physical altercations

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   I don't feel safe when I'm out on the roads, footpath, anywhere. To me the streets/roads/township/public transport aren't safe. You never see police walking around, there's security guards everywhere.

6. **We have limited resources. What should we focus on most?**

   More policing, safer streets/roads

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   there needs to be signs to tell people to keep either left or right on the new walk and cycle path. People walking dogs, children, adults walking across, you can't get past on your e-bike. You ring your bell to say "Hi I'm behind you and I'd like t get past and get verbal abuse, to the point where it like we're here walking and you shouldn't be riding on this pathway. It's very off putting and everytime I use it now I feel terribly on edge

Local Board: Henderson-Massey

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

Tell us why

****priority is everyone (regardless of background, ethnicity, socio-economic status) need to respect/adhere to recognised common New Zealand values

** equality of opportunity, rather than equality of outcomes!

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

Strongly agree

Tell us why

Based off the most recent Auckland floods we need to building resilient communities/ improve environmental sustainability practices; the Auckland floods had such a huge impact on our West Auckland community

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

Strongly agree

Tell us why

"Beautifying" improving the physical aspects or facade of our local towns give our people a sense of "civic pride". Involve the local people in local initiatives (as applicable) so as to foster a sense of ownership + increased stewardship

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Think local, act local from the grassroots perspective. We need more local businesses and opportunities for "local" entrepreneurship. What about opportunities for local targeted internships?

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   we all experience the "nightmareish" traffic and somewhat poor public transport (infrequent, unsafe, limited routes). We do need incentives to get locals to hop on public transport. Safety is also a major issue. Fix safety concerns & you will see more locals on bikes, buses etc.

6. **We have limited resources. What should we focus on most?**

   1. Safety: safer streets, public transport, walkways
   2. Economic/ entrepreneurship opportunities

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

Have Your Say on the Draft Henderson-Massey Local Board Plan 2026

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   You need to involve all ages, cultures genders & communities

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Our environment belongs to all not just some and it should be looked after for the upcoming and future generations of the now & future

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

Before they keep building they need to look at the old infrastructures roading, water etc.

Why build more without looking at what is it going to do to all the above

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

All areas are growing in all ways but unless the infrastructures (sic) that were put in way back are sorted & families have growth then these won't exist

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

Yes the walks are awesome but you just have to look at all the streets on the peninsula how because of all the apartment builds without parking has made the streets so hard for people to go up and down.

6. We have limited resources. What should we focus on most?

The children & elderly - the children need good schools, housing etc. & some eldelry (sic) need a warm place, healthcare etc.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Being part of the peninsula/North community for nearly 47 years I have seen lots of changes with the housing builds, community centre, and I'm proud to live in the peninsula & see all the great things getting down but one of the things I have followed has still never been done & that's the marae that was started by Jack & Mihi Te Huia & now Dave Tanenui and this goes on & on & has never been done. Its been approved, land has been given but always an excuse at the end of each stage, must be close to 30 years or more. Hopefully I will see it in my lifetime but I doubt it. Also the old Tavern land needs something on it that the community can enjoy e.g. pool -

   Support all

   Tell us why

   I've always felt Westcity/ Henderson has no identity that stands out. We need to create a place that is a destination. This will bring people to the place and we can be proud of. Let's make it a place that is known for our art, murals, street art throughout Westcity, give artists the platform to do their work and make Henderson known to be unique. We have Corbin's estate let's build on that. Every year have a street art competition, encourage sponsors, street performers. The place is dying, let's bring life back.

Can we just make a covered overhead bridge that links the train station and the mall. I've been overseas some train stations are linked to the mall.

Just find it odd that you have to cross a busy road through a carpark to go do some shopping.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

Tell us why

Most Important Focus Area: Community

Reason: Stronge communities help individuals, families and society as a whole to thrive. As a sense of belonging

As support system

As improvement in wellbeing

As encouragement in participation

As support children and families

Being inclusive and diverse

Building resilience

It brings unity

Safe and healthy community

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

Tell us why

Second Most Important Focus Area: Natural Environment

Reason: It is very important for future generations mainly

Teaching responsibility to value and protect the world mother Earth around them

Protecting forests, oceans to help reduce the impacts of climate change.

Healthy ecosystem supports natural environment to keep nature in balance

Support life quality, good health, good future

Built environment

I do have some concerns re the rapid building program being undertaken in the area in which I live.

I live by Don Buck Road, and already with the few housing blocks being built Don Buck Road is becoming a total traffic nightmare. From about

2 in the afternoon the road is a fully congested.

With all the schools in this road and the huge release of children from school,at some time in the not too distant future someone is going to be badly injured. Or worse. These young children have no concept of the danger YOU are creating

Did anyone sit down and plan the gigantic rebuild??? Why not do a rebuild in a completely new area. There is plenty of land out west just waiting for development.

Sadly Auckland is no longer the place I want to live. Just as soon as house prices steady I will be off.

Why on earth this government decided to push our council into this I have no idea. Or could it just be "Greed"

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

Tell us why

I am a local resident living near Heversham Green in Glendene. It is the nearest park for many families in our neighbourhood; however, there are currently no playground facilities or activities available for children.

I would like to request that Auckland Council and the Henderson-Massey Local Board consider adding suitable children's play or recreational facilities at Heversham Green. These could include swings, a slide, climbing equipment, a small play area, seating for families, or organised community activities for children.

Having some facilities at this park would encourage local families to use the area, give children a safe place to play and help create greater connection within the neighbourhood.

Could you please advise whether this request can be assessed and included in future planning or funding for parks in the Henderson-Massey area? I would also appreciate it if this request could be forwarded to the appropriate Parks and Community Facilities team and the Henderson-Massey Local Board.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I believe community is very important and as we are multicultured and from all walks of life, any opportunity to unite should be supported by the local board

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Our eco system is very important. I think the local board needs to take more interest in this and also to support volunteers who make efforts to take care of our eco-system. Also more community gardens and workshops to help our community to be more self-sufficient

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

Tell us why

Buildings yes. Are so-so important to me. This library is very usefule for our community. I hope that a local swimming pools will be built in our growing area soon

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Looks good but still waiting for a pool though

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Yes more safer routes and bus stops

6. **We have limited resources. What should we focus on most?**

   Eco system and swimming pool. Also an indoor basketball court

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   Be more involved in voluntary groups who give up their time to take care of our community. Even a reply to an email is hard to get in my expereince

Submitter details:

Organisation: N/A

Local Board: Upper Harbour

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   Some playgrounds are underutilised because they have not been well planned for those who would otherwise be using them. Eg. Tornado Reserve on Westpark Drive has its main structure for age 6+ and even then is difficult / unpleasant to use. In respect of climate change, more education and action on helping to slow it/ reduce its effects would be positive. There are some very good community events but sometimes attendance and involvement seem lower/less than expected. Perhaps more variety of advertising would help

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Greater involvement for parts of the community could be encouraged / secured (eg schools, active retirees) to help maintain the natural environment. They need to be aware of the need/opportunities. Their involvement/assistance should be recognised appropriately

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Te Manawa hub is a treasure. Parking around there could be improved. Northwest has lost some quality stores which can have a detrimental effect on other stores and businesses as the shopping centre as a whole is less appealing

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Shopping local' both in terms of goods and services could be encouraged more. Some more dining and entertainment options would be welcome

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Traffic around Northwest/Westgate lifestyle centre has improved but could still be improved. Changing some of the car parking spaces around Northwest to paid ones seems shortsighted. Particularly when parking for Te Manawa hub is in high demanrd

6. **We have limited resources. What should we focus on most?**

   That's difficult! Each one feeds into the others

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   More streetlighting where needed. Better footpaths in places where they are damaged. Parking on the berms of local reserves (eg on Marina View Drive) should be discouraged for environmental, safety and aesthetic reasons

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   I agree with the direction of the plan, but I want to see a much stronger focus on active transport. Walking, cycling and shared paths are essential for creating connected, healthy and resilient communities. The plan should prioritise completing and linking local paths, accelerating safe cycling infrastructure, and ensuring every neighbourhood has practical alternatives to driving. A connected active-transport network is one of the most effective ways to support climate goals, improve safety, and strengthen community wellbeing, and I'd like to see this reflected more clearly in the final plan.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   I agree with the overall direction, but I would like to see a stronger focus on creating usable public spaces within areas designed to manage flooding. Projects like the Oakley Creek pathway show how shared paths, playgrounds and green spaces can be integrated with

stormwater catchments to create places that are both functional and enjoyable. Designing flood-resilient parks, shared paths and community spaces that double as safe overflow areas would support climate adaptation while also giving residents more places to walk, cycle, play and connect. This approach would help build connected communities and make better use of land already affected by stormwater challenges.

Built environment

3. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

I agree. Our town centres absolutely need redevelopment, and Glen Eden is a good example of where change is overdue. The current layout is still heavily oriented around cars, which makes it difficult and unsafe for pedestrians and cyclists to move through the area or spend time there. A more people-focused design — wider footpaths, safer crossings, protected cycleways, and better public spaces — would help Glen Eden become a vibrant, welcoming centre where locals actually want to walk, shop and connect. Prioritising pedestrian and cycling access is essential if we want our neighbourhoods to thrive.

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

I strongly agree. Supporting well-planned economic growth and strengthening local prosperity are essential for the future of Henderson-Massey. Growing the area as a regional centre for creative industries is an exciting direction that can bring new jobs, innovation and community vibrancy. These priorities will help build a thriving local economy where people can work, create and connect close to home.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Strongly agree. Safe, separated paths are essential so kids can confidently cycle or scooter to school, and so commuters have real options to bike to work or reach train stations without relying on cars. Completing Te Whau Pathway must be a priority — it's a critical east-west connection that will transform how people move across the area. West Auckland has carried

much of the burden of Auckland's housing intensification, so delivering high-quality active-transport infrastructure is not optional; it's overdue. A connected, safe walking and cycling network is one of the most effective ways to support growing communities and reduce pressure on roads.

6. **We have limited resources. What should we focus on most?**

Te Whau Pathway should be the top priority, along with safe and direct walking and cycling connections to train stations. These projects deliver the greatest long-term benefit for the community by improving access, reducing congestion, and supporting the growing population in west Auckland. High-quality active-transport links are essential if we want connected neighbourhoods and realistic alternatives to driving.

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

West Auckland deserves significantly more funding, especially given the scale of housing intensification it has absorbed over the past decade. Our communities have grown rapidly, but investment in transport, parks, shared paths and public facilities has not kept pace. To ensure liveability and long-term resilience, the west now needs a fair share of infrastructure funding that reflects the population growth already delivered. Prioritising projects like Te Whau Pathway, active-transport connections, and upgraded public spaces is essential if West Auckland is to thrive.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly disagree

   Tell us why

   - we are heavily multicultural. yet every other culture except pasifika and maori are shoved into one bullet point. inclusion isnt enough. the diverse culture should be given a chance to celebrate.

   - nothing mentioned about support in financial knowledge, online awareness, spotting ai, awareness on how to spot scams. these are things that will affect people's bottom line.

   - these are very vague. most equate to "be better". nothing SMART about that.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   -adjacent to this should be improving transportation as thats one major contributor to pollution.

   - incentivise people to innovate how to improve the environment.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly disagree

   Tell us why

   - goals are very vague

   - need strong support and infra for small and micro business in all town centres. sure Henderson is cool but what about the smaller centres.

   - stronger support and incentives for small to micro entrepreneurship. like dedicated govt led showcasing of local businesses and actually teaching people to create more value.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

   -infra support for small to micro local businesses. dedicated spaces.

   -knowledge support for same busknesses. seminars coaching etc.

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly disagree

   Tell us why

   -well planned is good and all. need to prioritise backup plans for faults and breakdowns plus systems to make sure buses get to their stop on time. check what other more efficient transport networks do.

   - currently no one trusts public transport to get them to place on time.1[11]

6. **We have limited resources. What should we focus on most?**

   -empowering people with knowledge and infrastructure so the local economy gets better. so you can have more resources in future.
   - leveraging the community to do this as well so tou dont have to hold peoples hand. we walk together.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

- specifics would be awesome. a lot of vagueness in the goals which are not SMART.

perhaps training on what SMART goals are.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   Events like polyfest highlight cultural diversity - an important aspect. the board from what I hear has a strong connection with Te Kawerau a Maki and works alongisde them alot. I think this is really cool and important to hear voices and perspectives from the iwi.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   I think the board definitely advocates for sustainability practices and encourages residents to care about the environment/ have the sense of kaitiakitanga, however I feel like there is opportunity for much more movement. I feel as (many people, myself included), are un-educated on issues such as recycling right, how to live more sustainable, conserve water etc. I believe there is possibility to educate our community more weather that's through social media posts, billboards, newsletters etc. There could be more awareness through initiating community projects and informing people when, where, why etc. Getting the message out is basically what I'm trying to say.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Definitely many thriving suburbs/ communitys within our board.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Not enough info to have an opinion

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Transport services is good but not always reliable.

6. **We have limited resources. What should we focus on most?**

   Environment! That's where change is most important for our future.

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   No, thank you :)

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   I think any way to try and better our community is good. Especially widening our diversity and focusing on our youth. Making connections with our Pacifica and Māori communities.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   Again anything to look after. But the topic of our environment being looked after isn't correct. We are constantly going through polluted waters and there has been little to no change.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

I think there could be a lot more accessible places. Villages and neighbourhoods shouldn't be attractive, they need to be looked after. Footpaths, crossings.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat disagree

   Tell us why

   Bus stops are unsafe, need more safety. My bus was removed and has changed my route.

6. **We have limited resources. What should we focus on most?**

   Community.

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   Let the people know!! Advertise more.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   I agree because the plan focuses on the diverse community living in our communities. It also incorporates and accounts for the youth and elderly in our community.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   I don't know

   Tell us why

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   More Pasifika, Māori based opportunities for housing and more.

Opportunity and prosperity objectives

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   I don't know

   Tell us why

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   I agree with this plan because of the improved transport systems because of the fact that transport is very messy especially for train times and buses. Very limited options when trains or buses are cancelled.

6. **We have limited resources. What should we focus on most?**

   Transport and road safety as well as housing/

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   Nope!

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Play and open spaces are integral to quality of life and are important spaces for all our communities.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

   Many of the important natural assets in the west are centered around water. We need to raise awareness of the pressures on our waterways and natural environments, investing is these areas is imperative for future generations.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

Tell us why

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Strongly agree

Tell us why

Te Whau Pathway is an amazing example of infrastructure done well. It has longevity, is future proofed and provides connectivity to the environment, to neighborhoods and to each other.

We need to make safe the connections through local streets to shared paths like Te Whau Pathway.

6. We have limited resources. What should we focus on most?

Natural environment and alternative safe off-road transport options.

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   The propose is not good enough (in my opinion). I think there should be more safety guarantee, especially for women, tens and kids. Henderson at night or evening often make me feel unsafe since there are not many safe guard? And some random man look scary for me.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   I think it is need to be more strict because I still see many rubbish around the area

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

4. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Strongly agree

   Tell us why

Transport priorities

5. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   I feel somehow frustrating about the schedule of public transport. Often unavailable on important occasion and often delay, which is really annoying.

6. **We have limited resources. What should we focus on most?**

   Environment, safety and transportation.

7. **Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?**

   It is quite important since most of the shops and restaurants are in the centre. I think we do need some more small restaurant or minishop, convenient store around the area.

Your feedback:

Community objectives

1. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Agree

   Tell us why

   I agree with the focus areas proposed to meet the communities as it focuses on the areas needed for our communities. With these high level objectives I feel it contains every necessary needs and is inclusive of not just the board but the people also.

Community objectives

2. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

   Tell us why

   I think this is an effective way in confronting environmental issues. Particularly, because it includes the Māori values we should obtain on a day to day basis.

Built environment

3. **What do you think of the ways we propose to meet the community's needs in this area of focus?**

   Somewhat agree

Tell us why

I feel like this is how it should be in general, that built in environments should also be that safe environment of every individual (what is expected).

Opportunity and prosperity objectives

4. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

Well organised economical systems are also an essential to everyones needs, in which I believe is significant.

Transport priorities

5. What do you think of the ways we propose to meet the community's needs in this area of focus?

Somewhat agree

Tell us why

This what creates our safe environments, not just built in but through our transport as well.

6. We have limited resources. What should we focus on most?

7. Do you have any other feedback you would like on the draft Henderson-Massey Local Board Plan 2026?
