Local Board: Waitākere Ranges

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Continue to run Speedway events, allowing more meetings to run to increase profitability. Continue to also use for music and cultural events when needed.

They need to leave western springs speedway where it is

It has been there for 97 years so why take it away now

Springs Speedway has historical significance in New Zealand and in some respect the world at Western Springs, it should be retained at Western Springs. Better use of North Harbour Stadium is required. Council need to sort out football/rugby stadiums as they are well over represented in Auckland.

As an Aucklander I have attended speedway all of my life and I met my future husband there. His family had attended speedway for 75 years and his mother and brother have their ashes scattered in the speedway stadium. To us , this area is a sacred urupa , with the spirit of our families contained within. Please don't force speedway to leave its spiritual home - it is more than a sport to most 💔

I've been going to springs speedway since I was a kid, it's a fantastic family environment and one of the few local options to watch and be apart of Motorsport. I don't believe it will be of nearly as much interest if the venue is setup differently, as there is already other local locations that are well established in use for sports and the likes.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

My support remains strong for Western Springs Stadium being used as a Speedway. The stadium is more than just a motorsport venue, it is the cornerstone of Auckland's sporting heritage. For nearly a century the stadium at Western Springs has been a Speedway hub, attracting world-wild recognition, harbouring local and international racing talent and been a contributor to the city's economy.

As a small part in a large motorsport industry, it is still clear that New Zealand breeds some of the worlds best racers in Michael Pickens, Shane van Gisbergen, Scott McLaughlin and Liam Lawson

to name a few. To rid the country of the very place many of these talents credit with their success, is a disservice to the sporting industry.

My key reasons for the use of the Western Springs Stadium to be the operation of Western Springs Speedway;

1. Western Springs Speedway has operated since 1929, making it one of New Zealand's oldest and most iconic motorsport venues. Generations of families have shared experiences there, contributing to Auckland's unique cultural identity. Relocating or closing the Speedway would erase a living piece of our city's history.

2. Speedway events draw thousands of spectators annually, providing a boost to local businesses including hospitality, accommodation, and transport.

3. Efforts in recent years to reduce noise levels, limit event frequency, and manage traffic have shown that motorsport and urban living can coexist when balanced appropriately. With further community engagement and continued adherence to modern noise and safety standards, a workable solution that benefits both residents and Speedway supporters is entirely feasible.

4. Relocating the Speedway involves significant costs and delays. The proposed alternative location of Waikaraka Park, is going to struggle and be costly to replicate the atmosphere, accessibility and history of Western Springs. The unrest in-regards-to this proposed consolidation is widely due to the lack of confidence in the upgrades meeting the needs of the community. There are several factors in the proposed consolidation that have not been considered that I fear will put in jeopardy the state of Speedway in Auckland as a whole.

Western Springs Speedway is a treasured institution, not only for motorsport fans but for all Aucklanders who value community, tradition, and vibrant public venues. I respectfully urge decision-makers to preserve the Speedway at Western Springs Stadium and to recognise its integral role in Auckland's past, present, and future.

Western Springs Speedway has been a part of my entire life. It is a historic place and I believe that speedway should continue to be held there. Drivers come from across NZ and also the world for a chance to race at this historic venue. It holds a special place in the hearts of drivers, crew, and spectators alike.

Retain and Increase motorsport speedway activities at Western Springs. Retain outer field as community sports ground and carpark. Music concerts only in speedway off season. Keep it traditional and basic and 'grassroots' to encourage new participants in speedway. Minimize speedway operating restrictions. Motorsport culture is as important as any other cultural / sporting pursuit and should be encouraged by Auckland Council to flourish.

I am a speedway fan and have been going since 1987. I do not believe that speedway should move due to the heritage of how long it has been there. Concerts have also been held there so spend money on something that is not broken. International driver have been coming to Western Springs and moving it I believe would cause driving classes to leave the sport and move to racing elsewhere due to Waikaraka not being able to run all the classes and their own. The facilities and general friendly atmosphere we be lost.

A community asset is for the community and should never be gifted to a commercial entity to profit from - especially for 100 years. Auckland Council should look to fix problems and not create new ones. Auckland needs a Strategic Stadium Plan which would clearly highlight that a city of our size does not need four stadiums.

Having attended speedway meetings there since 1974 I find it devastating to think that a sport that has a 90 plus year history here would be removed. Western Springs Speedway has a world wide following, known as one of the best facilities in the world for speedway racing. Speedway has packed this stadium many times, the last event was a sight to behold, hardly room to move in the place. It is the home of speedway in Auckland and should remain for many decades to come

Removing Speedway from Western Spring is a disastrous decision.. No only is the track a world renowned open wheel racing facility, it's also the only facility in Auckland.

We also need to preserve our 'built environment' heritage spaces, many of which have been destroyed.

Speedway patrons come from the most diverse demographic of any sport in Auckland.

Council needs to work with Speedway Auckland to enable the facility to operate on more days of the year.

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Because SPEEDWAY needs to stay at this WORLD RENOWN FACILITY, Waikaraka Park does not have the ability to host the same events due to lack of spectator seating now the old grandstand has gone and was never replaced nor does it have the parking space. The mayor wants to sell POA then let him have his soccer stadium where the cloud is, better public transport, bars and restaurants all within walking distance. The people of Akl deserve better than the backhanded democratic behaviour that has been going on.

I have been attending speedway since 1972, its the home of speedway and should remain so - there are other stadiums in the region ghat could be better utilised instead of adding another one to the mix - too many stadiums, not enough patrons - leave speedway at western springs.

Western Springs Speedway is more than just a racetrack—it's a living piece of Auckland's cultural heritage, with over 90 years of history woven into the identity of the city. To see it under threat due to the disproportionate influence of a vocal minority is deeply disappointing. There has been no genuine public consultation involving the wider Auckland community, let alone national or international fans who recognise Western Springs as a world-class motorsport venue. Rather than dismantling this legacy, Auckland Council should explore thoughtful upgrades that enhance the surrounding environment and allow for more event nights. Preserving Western Springs isn't just

about nostalgia—it's about honouring history, supporting sport, and recognising a global attraction that deserves to thrive, not disappear.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Auckland is in dire need of a smaller rectangular stadium for NPC, Super rugby and Football. Eden park is too large and expensive to host most games. Smaller compact stadiums create atmosphere which then generates further interest allowing sporting codes to grow. The central location ensures all aucklanders can easily access it. I woudl also encourage the consortium to investigate safe standing areas. Standing crowds create a much better atmosphere and experience as demonstrated by the post crowd at AFC games. Additonally the incorporation of courts for other sports will ensure regular community and provide auckland youth with options to play sport rather than pursue other less civic activities.

Private investment with little impact to rate payers!!! We have seen the popularity of Auckland FC and their interest in the site will be a true regenerative boost to this white elephant.

"Keeping things as they are" is not evolving with an ever-evolving Auckland. We need to be bold: embrace change and popularity, so the only option is for the Auckland Arena!

I grew up on surrey cres right on the bullock track overlooking western springs stadium, hearing the live music fill the air is truly something special and must be perseved. I've attended endless outdoor concerts and events there and it is by far my favourite event space in all of Auckland. We need to preserve the outdoor concert space at western springs and keep the ponsonby rugby history there alive. Western springs stadium is a special part do Auckland history and we need to keep it as an outdoor space that is unique to all other venues in Auckland!

There's over 100 years of legacy at the grounds. From Rugby to Speedway with great memories with concerts held at the venue. It's part of the wider Auckland community and part of Auckland History.

I fear the community will lose access to Western Springs if it becomes a wholly privately funded Arena. The private company will want to recoup $300m. You don't make back that money by hosting High School events and community clubs

Western Springs needs to stay as an iconic international speedway venue. Its a heritage site that should remain as it is with allowances for more concerts etc to fit in around the Speedway and Rugby club. The councils handling of the process does not even follow its own rules and I have serious concerns on how the mayor and certain council members have conducted themselves.

My children are 3rd generation speedway spectators and once an iconic venue like this is demolished its gone forever and cannot be replicated at Waikaraka Park no matter how much the council tries to sell the idea to the public.

The rugby clubs been there since I was born, when I think of western springs I think of ponsonby rugby(and speedway). Although im not involved with Ponsonby Rugby I have played rugby since as early as I could. I would hate to see my local club relocate without an extremely valid reason. That club will be home to many people. Shouldn't be forced out

Less trusting of a privately owned venue taking control for 50yrs, of a public asset with historical significance.

I am NZ born and we live outside the area however, our family activities being sport, work and family are either at Western Springs or nearby.

Option 1 may look the easy way, but the community will pay either way, be it directly via Option 2, or indirectly via Option 1. It appears that Ali Williams has turned his back on his old club and a

sport that provided him a platform to excel and that 'irks' me. I question why wasn't rugby, including Ponsonby clubrooms, part of their proposal?

As a rate payer, I'd prefer to pay for Option 2 (even with some private investment) where it remains in control of the community, as opposed to us indirectly paying for access to activities proposed under Option 1. Hence my choice of a Public controlled asset over the margin focused private sector, with profits going into the pockets of a small group of financially elite.

Regards

Auckland is losing out on large-scale concert events due to expense and not having appropriate facilities. The transportation to and from Mt. Smart Stadium cause the entire city to become paralyzed if there is a large concert. This is not the case at Western Springs. Although the Outerfields are good, the beauty of the natural amphitheater makes it a sensational space for concerts, local and international. This is the only proposal that retains the natural bowl and enhances the space for generations to come. The past history of large-scale concerts in this space includes the Rolling Stones, Queen, Bob Marley, David Bowie, the Eurythmics, Tina Turner and U2.

This history cannot be replaced. Please respect this history and enhance it for years to come so that it becomes like the Hollywood Bowl, and place that no one would think of changing as it hold so much mana, and so many memories. Let's let our grandchildren have the experience of seeing their idols in the best natural venue in the city.

I've been a member of the ponsonby club since a junior and my family have also played for this club. The support from family, friends and old heads of the club have created an awesome culture and history amongst the club and want to show my support via option 2. Not to mention the awesome festivals that have been held there.

The rugby community lose their home, families and future generations miss out on a community that brings them together. I have also attended concerts there in the past and that was by far the best memories I have. The community loses a big part of the core memories without it.

Auckland FC's initial success will be hard to sustain at My Smart. A bespoke football stadium would be brilliant (with finals at the larger stadiums). If we had football there and test cricket at Vic Park (I realise out of scope, but please!), Auckland would be a genuinely world class city for sports fans.

I believe the benefit of having another venue for festivals etc and sporting requirements would best serve our community. The only issue I can see is if local residents combine and start complaining on noise levels and street congestion. Financially I believe this is the best option, however even that could be tweaked more to ensure all community can use the space. I am pleased the speedway is moving to Waikaraka with upgrades as this is a better facility for this type of sport. But festivals especially heavy metal bands etc are likely to be limited in the hours of operation and Dcb levels.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Western Springs with the speedway were great to attend to when I previously lived in Auckland. Shen things are not broke do not try to fix them by making changes.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board)

There are three options to consider

Which option do you prefer? Select one option only.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1 allows the Auckland council to gain a valuable new local asset after the lease period ends, and a huge draw card to the region, for further investment, tourism and growth, with zero funding on the council's part, and savings estimated to be 18.1 million over the next 50 years.

It also allows for growth of other sports that have gained popularity, which is so important for New Zealand as a whole, as the nation has been so focused on Rugby for so long, it's great to see wide interest in other sports taking off, and it is a healthy thing not only for those sports, but for people, too. Not everyone is built for rugby, and while it is a wonderful sport and we love it, we already have so much funding and venues for it. Like all things, it's important to have balance and diversify, and option 1 does this very well.

The proposed venue concept images show a forward thinking venue, that not only retains the original land's shape and feel, but adds modern touches that will bring it into the next 50-100 years. While I hope it budgets for and designs great access for busses to ferry people to and from the venue swiftly onto the St Lukes motorway onramps, it clearly offers so much not only for sports and music, but also to other things like health, and year-round usage. Something many venues lack and is a clear waste of land and resources.

Option 2 pales in comparison, showing no real change, a venue which not only looks like it was designed in 5 minutes on by a rookie, but looks like it will end up costing the rate payer and provide sub par events and not daily use. To choose this would be to kill the location's potential (right next to the motorway leading in all directions of Auckland?! It is a GOLDEN location!) and the region's chance at expanding into sports such as Football, Padel and Basketball, and adding another health facility.

Option 1 is well thought out, and shows clear thought from its' proposers who have real event location management experience. Option 1 takes my vote.

I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I have attended music festivals and concerts there which were really good, so it would be great to have another venue for those sorts of events. My main concern is that Western Springs is really hard to get to and park around. In the past, I have had horrible experiences with having to wait ages to get in and out of the venue, and having to work for ages at night to get out of the area in order to catch ubers or public transport. So this would need to be considered.

Why does it need to change, it seems a pointless and expensive exercise, if Speedway can't get sponsors to help fund the racing and racetrack then perhaps its time is over. Last time I looked it was $50 to attend a race, too much. There is a stadium in Albany which is very easy to get too, turn this into Auckland arena.

It's a bit hard to understand the cost to the rate payer, but if I'm right and the second option will be significantly cheaper for average aucklanders, then that would be my preference. Now just doesn't feel like a good time to be taking money from working people and investing in a nice-to-have stadium. But I wouldn't do nothing either, because local attractions are valuable to have. The middle ground seems sensible.

I strongly believe that Speedway should stay at Western Springs in conjunction with Ponsonby Rugby Club and concert events. Investment should be made into Western Springs to enable this to happen. Western Springs should not be leased to Option A - this will become a paid venue that is out of rate payers control. I do not support this option AT ALL and never will.

The investment for option 1 is too great for our community to bare even with private companies providing equity. I would like to think that the stadium and outer fields remain property of Auckland and that any pro it that is accrued from lease etc will be reinvested in the property rather than go into private hands.

It is time that Auckland starts investing in itself, and that includes the ability to host large sporting and concert events. The existing facilities are... inadequate. I know it costs money, but Auckland (and New Zealand!) have underinvested for decades, and this has to stop.

Chiefly I would like to see further investigation on the possibility of including speedway in future plans. The original decision seemed very rushed and ill-thought out. With factual inaccuracies and an assumption that the existing Western Springs and Waikaraka Park racing can be combined together more easily than I think is the case. I understand a full process could still lead to the end of Speedway at the Springs, but the initial decision appeared to make the choice and then look to justify it.

I also have doubts about the realistic costing of Option 1. What happens if the private investment runs out of money part way into what would be a significant rebuild? The information in the proposal doesn't appear to account for such risks.

I like the idea of a multi purpose venue that will cater to a range of sports, including those that are growing in popularity. I also like that the entertainment option is still part of this plan. Being funded by the group and in the long run making a savings for the council is also attractive. I would like it even more if the Ponsonby Rugby Club could be catered for in this arrangement. While I don't hate option two I just don't think we need another concert venue especially so close to Eden Park now that they are holding more events here.

Speedway has been at Western Springs for 100 years! No one living in the area has a right to complain about that as they knew it was there when they bought their properties.

Council has been underhanded about this - even to the point of not making it plain that Option 3A does NOT mean the continuation of Speedway at the Stadium.

If heaps of people vote for 3A I think they should all be recontacted, have the actual option explained to them, and then get to vote again.

Because it retains the natural amphitheatre, but still creates new opportunities as an outdoor venue. It is a unique concert experience & it's important to retain it. It's nice to see outsiders built on collaboration between different groups with strong community connection. The shorter lease period is more attractive - handing it over to private hands for 100 years is ridiculous. Mostly, it keeps it much the same whole creating better opportunity for local & Auckland wide community yo enjoy.

It's the private investors but mainly their experience and investments with other international arenas.. providing an opportunity for community engagement is attractive. With the rise in popularity both with players and spectators it would groom future ballers into lil NZ stars with Adams involved it feels like an exciting future for Our kiwi kids. Looking at the proposed design I just think a multi level carpark would top it off. Otherwise, I believe the proposal is balanced, thoughtful, not a heavy burden on Aucklanders. We do need a walk of fame for our sports stars and I'd love to see this kind of concept on the pathways. A statue of Adams at the front of bball entrance etc. Plaques should be on the Arena, identifying the contribution of the other private investors.

The larger capacity statuim will attract more traffic and noise into a residential area. I prefer the private investment into the new build. The document does not explain the financial situation regarding the investment so it is unclear whether the private investment will be benifical to the council over a period of time.

I attend events at the stadium or its sports fields

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

auckland arena is useless idea, there are already enough venues like that in the city, another one would be a waste.

I believe if speedwayhas a business case it should be able to remain. Council needs to sort its stadium situation we do not need mt smart, North Harbour, eden park, vector, Waitakere, manukau... all 3 major stadiums are poorly sited and supported by transport, a waterfront option closing the rest makes more sense for the future of Auckland.

I have gone to Western Springs Speedway since I was a baby, I chose option 3B because we need to make sure that key parts of nz culture are protected. Western Springs has 4 years until it is officially protected and trying to get rid of it just shows how much the government does not care about the people of New Zealand.

I want to see speedway back at western springs as I have been going there for over sixty years,my father first went to speedway at western springs in 1936 then went on to become an original tq midget driver in 1951/52 season,he won many races there plus was nz championing 1956,all of our family members have been going to western springs speedway most of their lives and now the grandchildren a d great grandchildren have been attending the speedway.It is more then a sport it's a family tradition with so many different families been attending for years and years and still do,waikaraka park is not the right place for open wheel cars and the place is to small for the crowds we get for speedway,IF speedway doesn't return to western springs it would be the end of a lot of peoples jobs as car builders,spare parts shops,race suit manufacturers etc the list is

rather big,so come on auckland council do the correct thing and return speedway to our summer home western springs speedway.

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

The natural amphitheater, 96 years of history, being one of the worlds best speedway venues is not something our local council should be disregarding. We have rules around how council can treat heritage areas and buildings, so why is this not classified as a heritage venue and therefore cannot be demolished and must be maintained.

I think option 2 is the best option as it upholds the history of Western Springs, keeps the name, and we need a better venue for concerts in Auckland especially as the city grows.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Western springs has always been known for speedway. My family has raced there. A friend of a the family has grown up racing on that track. It has been there for decades. If people don't like the noise of it then they shouldn't move into the area. If you didn't like the beach you wouldn't buy property at the beach would you? They never complain when there's a concert but God forbid the sound of an engine. It's been decades, let the tradition continue. Don't ruin it for the group of people who are too pc for their own good. Let the community enjoy it for what it is and always has been.

If we return Speedway to it's rightful home and keep up arrangements with Ponsonby rugby and have the area available for concerts, festivals, school sports etc, we honour history and contracts as well as catering to a wide variety of Aucklanders, in all probability a majority. It also provides flexibility for years to come rather than restricting the use of Western Springs to niche users.

It should be designated as a historic cultural site for the current use.

"Western Springs Stadium has been used for speedway since 30 November 1929 when motorcycling (broad siding) was introduced. Midget Car racing started in December 1937 with an International race including NZ pioneers Ron Roycroft and Geo Smith. The first full speedway season started in January 1938."

from https://bayparkspeedway.co.nz/about-speedway/history/

Unless you purchased a home in the vicinity before then, you had full knowledge of the current use and no right to object to the impacts from it.

Western springs speedway needs to stay. It is one racing event which is truly a family event. Kids can get up close and interact with their favourite team or driver. It's a part of Auckland culture. I am coming up 60 and have loved watching and growing up around such a fun and exciting sport. We don't all just live and breathe rugby. There is no other track like this for open wheeled racing. It's cental to all aucklanders. The history of our speedway is at western springs. Bring back the bikes too. Easily transforms to a great stadium for concerts too without disrupting speedway events. We have enough under utilized stadiums in north Harbour stadium amongst others which could be used for other events.

What is your connection to Western Springs Stadium? (tick one or all that apply)

Other (please specify):

I attend concerts at Western Springs

There are three options to consider

Which option do you prefer? Select one option only.

Option 3A: Neither Option 1 or Option 2 - keep things as they are and retain current arrangements

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

The venue works well as it is for concerts. The sports ground is adequate for local sports. Bring back the Speedway. Spend the money on a ne Waterfront Stadium.

Option 1 is too much in dream territory I think the chance of it being completed and being a success with purely private funding is too risky.

The moving of speedway from Western Springs to Waikaraka park is proof that the council does not understand the differences between the two very different forms of speedway and the chances of them working together long term will be difficult. It is unfair to the classes that are already based at Waikaraka to forgo a significant amount of race time to allow the classes from the springs to be able to have a reasonable amount of track time. There really is very little comparison between the two stadiums, Western Springs is a world class speedway facility,

according to many international competitors who have raced there, and Waikaraka doesn't come close. Even classes that normally run at Waikaraka Park feel that it has been a privilege to have been able to compete at the Springs occasionally. There has been too many lies been told by TAU including the attendance numbers that attend Speedway, there has visibly been many more than they claim. If Speedway was allowed more meetings at the springs it is likely it would again pay its own way.

There appears to be too much creative accounting to make the numbers suit there biased opinions.

Ponsonby rugby and speedway have coexisted well and that should continue.

Western Springs Stadium is a unique venue and should be maintained as it is, a natural bowl.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1 benefits more Aucklanders, while also reducing the cost to rate payers. Some of the rhetoric around Speedway has, frankly, been untrue, which is a concern. However, this doesn't reduce the overall benefit of Option 1.

Auckland does not need another sports stadium. It already has 3 main sporting stadiums. It needs a dedicated event/music space that can be used as an alternative space in between. Rather than the other way around.

There should have been transparent consultation with all stakeholders before now. Western Springs Stadium is a fantastic family and community facility. It is important to me and Auckland and I'd rather see my ratepayer money spent to have speedway at WS than many of the things the Council currently spend the people's money on.

Ponsonby Rugby Club should be allowed to extend their lease at the Western Sprinfs venue because of their deep-rooted connection to the local community and long-standing contribution to Auckland's sporting culture. As one of New Zealand's oldest and most successful rugby clubs, Ponsonby has played a vital role in developing grassroots rugby and fostering youth participation. Extending their lease would ensure continued access to quality facilities for players and supporters, helping preserve both the club's legacy and community engagement in the area.

I support the continued use of Western Springs for primarily Motorsport, Rugby, and Concerts.

Western Springs has operated with the current activities for decades, being successful when the council has let it. In recent years, it's become clear that the council is being very restrictive on how successful the stadium is, particularly with Speedway. With long-term leases for Speedway AND rugby, it can be successful and commercially viable. The move to Waikaraka is not viable in the eyes of the community at Western Springs, as they are receiving a great downgrade in facility

quality, will have to compete with Waikaraka's home classes for dates, and will lose crowd sizes (which will have an effect on sponsorship), among other negative effects.

Some things you can take from other stadiums:

• Eden Park was recently awarded more Concert dates after decades of having to turn away many major international artists. This has given the stadium more power to get more global acts that require multiple nights. For Motorsport at Western Springs, there used to be longer seasons. However, the season was restricted due to noise complaints led by a family that moved into, and now out of the area, in the early 2000s (if I remember correctly). There is no reason that Stadium's Unitary Plan could be updated to extend the season for Speedway like it has been for concerts at Eden Park.

• Mt. Smart Stadium hosts ACE Motorsport Ltd. and LilyWorld Cafe as a permanent part of its multi-use abilities. There is ample space for permanent hospitality businesses around the stadium grounds, like LilyWorld, a very on-theme rental karting facility with the same mobility as ACE Motorsport Ltd. in the newly repaved pits area, and spaces (lockers/ storage) for other clubs to run at Western Springs grounds. This doesn't even touch on various events like the Music in the Parks and Lantern Festival that could also run at Western Springs Stadium (with some events being able to include the park next door).

• Perth Motorplex is the host of the High Limit Sprint Car Series' first International race, attracting many international drivers to face Australia's best. With an expected expansion to more Australian tracks in the coming years, Western Springs' track, facilities, and historical importance to speedway racing has the ability to support the series.

It seems necessary to point out some of the underhanded actions by TAU and the Council during the process. As stakeholders of Western Springs (and wider Auckland), public consultation has been missing until now, and should have been in place before the ROI and surprise vote for speedway consolidation. The secrecy of the whole process, lack of consultation, and the haste to make votes go through have made me feel like a voiceless subaltern. I've lost faith and trust in the council, and the possibility of how many things have gone under our noses like this lingers on my mind, leading up to the elections. There are also concerning rumours of inside deals prior to the ROI, and the mayor being bought out by billionaires behind one of the proposals. These rumours are very concerning to be floating around, let alone if they turn out to be true!

One of the most pushed for options seems to be the AFC-associated stadium. AFC's current home is at Mt. Smart Stadium, where they sell out regularly. They also use North Harbour as their training ground. Nearly all fans I know and have seen online are in the consensus of staying at Mt Smart or upgrading North Harbour to be the home ground, which both have better public transport access. Most people, regardless of support or opposition, are strongly against the destruction of the natural amphitheatre as seen in the public renders.

However, there is a theoretical possibility for both to exist at Western Springs. As the field is big enough for a soccer pitch, one (more unrealistic) option is to level the field to be flat for soccer. However, the Outer Fields section could possibly be developed to be a soccer stadium, leaving the current stadium standing and supporting all options. With options for underground parking under the new stadium and extending public transport access for better all-around access.

The other "community-oriented" option looks like it can already be done at other venues and in Western Springs without kicking out Speedway. Holding bigger games can already be done using the current field and stands (or the plethora of other stadiums that already do this), and concerts are already held here (and can be run more often if support for swapping infrastructure during speedway season breaks is given).

Western Springs Stadium is important to me and to Greater Auckland. It is the crown jewel of NZ Speedway, one of the most famous international speedway tracks, an iconic concert venue where people cause seismic activity (Foo Fighters, 2011), a home to rugby, and the reason I, and many other voters, exist. My wishes are to have my ratepayer money spent to support speedway, rugby, concerts, and other multi-use activities that preserve/ improve Western Springs' facilities, rather than a private soccer pitch or copies of community venues that already exist around Auckland.

Home ground of the formidable Ponsonby Rugby Club. Great pride and honour to be associated with this club. Wonderful venue for summer concerts that I have enjoyed with family. Keep Western Springs Stadium a home of grass roots future All Blacks and celebration of music and joy.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Auckland lacks a good large concert venue. I have worked in the audio business all my life. Spark Arena was designed as a sports venue and has an awful acoustic and puts the audience at such a distance that it would be better to attend an online or film concert. Mt.Smart Stadium is likewise a poorly adapted sport venue. The best concerts of my life have been at the Springs. Freakily good acoustic, room to move around, with the stage on the long side rather than at the narrow end of a rectangle. I have been attending concerts there since 1971. Sadly not lately. As a result of its limited access for concerts I have tried the other two venues (including. the tent at Mt. Smart) and they are shamefully unsophisticated and must be an embarrassment to promoters and a joke to

bands. My attendance at large concerts has dropped to nil. Too hard, always disappointing as a result of the settings. Please reinstate the concert facilities at Western Springs, a unique, naturally attractive site.

Despite the constant promotion of sports in Aotearoa, we are not all possessed of a sports fetish. Please prioritise music and arts and give us a decent planned concert venue without compromise for sport. Sport in surrounding area, sure, concert venue purposed for concerts.

Firstly, oust Wayne Brown and elect a council that understands what Western Springs means to Speedway and concert going people and who won't bend over for the rich who want to tear it down and build a football/basketball only stadium. Explore how speedway and concerts can stay, one minute it's close Mt Smart, then Nth harbour, now it's Western Springs turn to be under threat.

Upgrades to the park for alternate uses will just compete with existing facilities within the city. Speedway should continue to operate there as Waikaraka park is not a like-for-like replacement, and the proposal to relocate is as farcical as the 2018 decision to move the mt wellington go kart track to dale park (which 8 years on is not ready yet, while the old kart track sits vacant)

I am Club President for Carlton Netball and we are affiliated with Ponsonby Rugby Club therefore their clubrooms are our home base. It is so important to retain grassroot sports opportunities in communities. Ponsonby Rugby has been around for such a long time - there is so much history and legacy with it being based at Western Springs. The club wants to continue in this space, look after it, grow it and support the likes of entertainment events as it has done thus far. My children also play for Ponsonby and have been brought up in and around the clubrooms.

This option combines both development needs while protecting and preserving the rights of local communities. This option is geared towards catering to diverse develoment needs. There are several subcomponents or projects that cater to local interests unlike the single arena project (option 1). The third option negates any development effort and is not really a option.

Speedway should remain at Western Springs Stadium. It is an internationally recognised speedway venue that cannot be replicated anywhere else in New Zealand. It has a rich 96 year history that needs to be preserved at Western Springs. I am a 3rd generation participant in the speedway at Western Springs. Removing the speedway from Western Springs will cause irreparable damage to the sport and its fan base. Waikaraka park will never accommodate the fan base or provide the same world class racing that Western Springs does.

keep western spring stadium as the home of speedway as its been for 96 years. why should some rich person come in and buy something that is nearing its 100 years and be allowed to take away something that is watched and supported world wide. I dont trust his agenda for wanting to build a new stadium at no cost to rate payers, there is so much more to this than the public are been told. Western spring speedway and waikarka speedway are 2 very different classes off racing and need different tracks. the 11 million promised wont even cover the whole upgrades at onehunga and the group in charge of this will put there hand out for more money. Keeping speedway at western springs is the cheaper option in the long run for aucklanders. we dont need anymore stadiums

The future of Speedway at Western Springs must be reconsidered. There has been no consultation with the stakeholders (Teams, Owners and sponsors). It cannot be claimed that the most recent promoter has worked in the best interest of the sport as they have been heavily conflicted in any discussions around any proposed relocation of open wheel racing in Auckland. They stand to gain control both financially and contractually which means they could not represent the competitors, teams and sponsors with the Council.

I am a crew chief from one of the high profile racing teams with more than 35 seasons involvement at Western Springs and there has been no consultation or discussion with teams which are the stakeholders (not the promotors)on what has been proposed and decided without and opportunity to feed into these discussions. Western Springs is one of only two open wheel designed and purpose built tracks in New Zealand. The other one is Ruapuna in Christchurch. The process to date has been deeply floored and cannot be considered good governance from a council perspective.

Reading the consultation document both option a

1 and 2 have projected attendance figures which would not stand up to scrutiny. Option 1 states attendance annually of 850,000 people. That is 16,346 people each and every week of the year which I doubt would eventuate. Option 2 states 400,000-750,000 per annum. That is 7,692 - 14,423 people to attend each and every week. Again these figures appear inflated. If you multiply the Council figures of Speedway nightly attendance over 7 nights (one week) that would be 24,781 fans. Clearly speedway has a strong following of the voting public who are currently very unhappy with council and local government processes that have not been followed.

What should be explored is what can be considered alongside speedway events at Western Springs. The most recent promotion had no desire to support racing at Western Springs as they have too much to gain by moving it.

There has been no communication from the promotor or the stockcar and saloon club with the open wheel competitors of Western Springs and what would be need to make racing possible at Waikaraka Park. There have already been comments on social media from stakeholders at Waikaraka that we don't want open wheel there anyway. The proposed amalgamation cannot work as it is as open wheel have not been included in anyway around discussions on the 30 year lease. If Waikaraka was the final location of all speedway in Auckland open wheel must be an equal stakeholder with the stock and saloon car club, not a guest on their terms only.

We have raced at Waikaraka and you cannot run more than 10 Sprint Cars in a race as the track shape and size is not suitable. At Western Springs 20 Sprint Cars can race safely and put on a show that the crown come to see.

Western Springs as a speedway track must be reconsidered as the current proposal by the council has not followed due process and some of the councilors has clearly not engaged with their constituents and voted in their interest.

Western Springs must be retained as the speedway track, signing the facility over for option one is selling a public owned facility over to some rich listers who will come and go when they get bored.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I am writing to express my profound disappointment regarding the Auckland city councillors' decision to close the Western Springs Speedway. As a long-time attendee of speedway events with my family and friends, I am deeply concerned about the implications of this decision, which appears to prioritize the construction of yet another, ball sports stadium.

Auckland already boasts a significant number of venues catering to football, rugby league, rugby union, basketball, and other ball sports. Given Eden Park's close proximity to public transport and its capacity for large events, it seems a more logical choice for further development. The investment being proposed for Western Springs could instead be directed towards enhancing

Eden Park, perhaps even adding a roof to bring it in line with modern stadiums like the one being built in Christchurch.

Western Springs is Auckland's only dedicated open-wheel speedway and one of only two dirt tracks in the region. The council's plan to relocate the western springs open wheeled speedway to a significantly smaller venue demonstrates a disregard for the many ratepayers who enjoy speedway. This move will inevitably reduce the number of race meetings, reduce the number of competitors and limit spectator attendance.

I also find it perplexing that the council has historically declined to offer long-term leases to speedway promoters while readily offering a 50-year lease to a football club that is less than a year old.

Furthermore, the proposal for a 50,000-capacity "Hollywood Bowl" style concert venue at Western Springs seems redundant, especially when Eden Park is currently underutilized and seeking more opportunities to host large-scale events.

It's worth noting that the Ponsonby Rugby Club currently uses Western Springs without conflict with the speedway operations, and concerts have also been successfully held at the venue alongside speedway events. There seems to be no inherent reason why football could not also be accommodated at Western Springs in a similar harmonious manner, particularly given the underutilization of Eden Park.

I urge you to reconsider your decision, taking into account the significant impact it will have on speedway enthusiasts and the potential for more efficient use of existing sporting infrastructure in Auckland.

• Speedway can be successful with a long-term lease and commercially viable operating conditions.

• Its Possible to change the WS Stadium Unitary Plan for speedway like they did for concerts at Eden Park.

• Speedway can be part of a multi-use situation with concerts and have worked with rugby at the stadium.

• We (stakeholders/fans/the people) were never consulted with before this time and should have been.

• Western Springs Stadium is important to me and Auckland. I'd rather see my ratepayer money spent to have speedway at WS than many of the things the Council currently spend the people's money on.

Western Springs is a world renowned venue for speedway racing with a rich history that has become part of Auckland's rich tapestry, our family has been involved in Speedway at this venue since the 1950's spanning four generations, the misinformation in the media from the Mayor and others, including the over stated cost to the rate payer, is unfortunate to say the least, a great safe family sport that deserves to stay in the home it has been since 1929, my understanding is the venue was gifted to Auckland council and it's ratepayers to be used as a SPEEDWAY

Go Media Stadium should be refurbished with a roof and be the home for League and Football. Auckland FC does not need a separate stadium and up to 15k capacity will soon be considered to small, as experienced with the crowds excessive of 20k during the session. We have a stadium that is getting large crowds, fix that rather than building another stadium.

The Western Springs location is the only current location suitable as a supporter and regular visitor to Speedway events. For both access, viewing and amenities perspective Waikaraka park is not suitable. Plus the track is not suitable from a layout and enhanced experience perspective. Having visited this location for the last 20 years as a family. The loss of the Springs as a venue will be a big blow to Speedway both locally, nationally and internationally. Over a 100 Years of history can't be wrong.

Speedway has been operating successfully at Western Springs for nearly a hundred years. It's immensely popular with generations of families, and will continue to do so if left exactly as it is.

It's also an ideal venue for large concerts, which have also been held there for many years.

Western Springs is part of Auckland history & we need to keep it as is. Why do you need to build the stadium here, build it at Silo Park area where you can catch a train to a game & have a meal at a restaurant beforehand, makes more sense!

1/Give Speedway a long-term lease.

2/Give speedway commercially successful operating conditions.

3/Change the WS Stadium Unitary Plan to help speedway like they did at Eden Park to help concerts.

Speedway can be part of a multi-use situation with concerts can and have worked with rugby at the stadium.

4/We (stakeholders/fans/the people) were never consulted with before this time and should have been.

5/I'd rather see my ratepayer money spent to have speedway at Western Springs Stadium than a lot of the things the Council currently spend the people's money on.

6/I have seen how this issue has been handled and I don't agree with it and have lost faith in the council staff and many councillors.

7/Most Aucklanders I know want the same as me.

Leave Western Springs alone. We love it as it is. The speedway has been there for 90 plus years. Waikaraka does not want the speedway and there is not enough parking! Please tell Ali Williams, Steve Adams to stay with what they do best (back off) and the council 'listen to the public) and check if they have money to propose what they want to do. Listen to your people. Thank you. I presume you will go ahead and do what YOU want, regardless of what we the people want.

I made my choice because I am a huge fan of live music and have go to many concerts around the city and at outer fields. It used to be a legendary concert venue and I've seen footage from those shows that were incredible. I think that auckland would get a lot more big international artists include us in their tours if they knew we had such a great venue. It's an incredible outdoor amphitheater that artists would love to come play at. For the future of live music in Auckland, this would be significant.

I believe that as a competitor/car owner and also a fan of speedway we haven't been able to speak our minds on the situation that's been put into place on re locating to another venue I believe we have a right to speak on that! Also I don't understand why the people of Auckland haven't been able to have there say until now only after the councillors have already voted for us to leave because they think it's in the best interest which isn't correct, speedway has been in that venue 96 years and hundreds of families go for a fun nights entertainment only that only races 12 nights in a year which is honestly nothing and has been co operative with all other parties that use the facilities so I don't see the why we need to changing it

Speedway at western springs has been an integral part of the community and city for decades and should continue. Noise complaints should be considered frivolous considering the sites existence is many decades prior to the vast majority of nearby residents, and noise will have been known and expected by those residents. The Loss of the Speedway would be extremely disappointing for Auckland and the wider community.

This is the only option in which Western Springs speedway stays at western springs and Ponsonby Rugby club can stay there and concerts. The football should go to North Harbour Stadium or stay at Mt Smart. Going to North Harbout stadium would make North Harbour less of a white elephant and there is a huge soccer supporter base over there and it is a better option than replacing a sport with a long international history when the soccer can go to many other places. Also the family that gave western springs to the ratepayers never wanted it to go into private hands for 99 years etc and it wanted the original sports to have life long access and speedway is one and cycling is another. So our councillors are not looking at the history or abding by the wishes of the people that gave it over. If Council is allowed to do this with rate payers public land and facilities

on this one, it opens the gate for a lot more. It is corruption at the highest level and frankly disgusting behaviour by all Councillors who voted for it. Also the mis information by Auckland Council here is unacceptable. You are paid to be open and transparent and not follow the will of a rich few buddies. Western Springs needs to remain as it is a place for families, a public place . Do your job Auckland Council save some money and send the soccer to somewhere like North Harbour stadium and leave Western Springs alone. By the way you have well underestimated the crowd attendance levels for speedway .

Because this speedway has been here longer then we have and must stay as it’s a important part of Auckland’s history

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Speedway has not been given a fair chance to state their case in this matter. The only stakeholders TAU engaged were involved with the promoter who was going to receive a financial gain for his other speedway. That, on top of the falsified letters does not paint Auckland Council and its COO's in a good light.

Speedway had co- existed with Rugby, concerts and cultural events for many, many years. It is councils own restrictions which have been strangling speedway at western springs.

By choosing options 1 and 2, we are narrowing the facilities use and not using it to its full potential.

We also need to consider that option A will require the owners to make $6million profit over 50 years to break even. Auckland Council and TAU know that no stadium makes a profit like that. Billionaires don’t become billionaires by dumping that sort of money into a project with no ROI, so I ask you, what is the bailout / contingency here? Rate payers buy them out once they are “done”?

We have other facilities for concerts and soccer - we have ONE world class open wheel speedway - option 1 an 2 will destroy this 96 year old icon. The way this is going is a complete disservice to the speedway community, who are rate payers in this city.

Mt Smart doesn’t have the same atmosphere and vibe as Carlaw Park did - don’t do the same to Speedway.

Speedway has been there before the proposes of all the fancy ideas were born. It's part of the framework of Auckland. It's far easier to get there by bus than to get to Waikaraka Park.

We are a family who have been involved with western springs racing for generations, and avid spectators ver many years.

I have been attending since I was six weeks old, and now I am waiting for the arrival of my grandchildren to continue a integral part of our family history and share in the delights of this sport (hopefully in this venue)

Western Springs racing is iconic in our part of Auckland. It provides a sense of identity and unites our community. There are plenty of other sites for concerts and football games, but Western Springs provides a facility specified for safe and entertaining sports racing for all Aucklanders to enjoy. Please do not erase a part of our history that is loved by so many. It cannot be replaced or replicated in a different venue.

It is a part of who we are.

The city has no natural amphitheater style venues since the closer of Villa Maria. It's thr type of venue that can be used by a multitude of acts and is a point of difference to the rest of the cities venues. This makes it more attractive to foreign acts who understand the US model of amphitheater. This option also leaves the park accessible to the wider community and existing sports teams. Green sites in the city are a major asset and have wide ranging health benefits for people who live near them. Private spaces by design lock people out and have less value to the wider community.

I like the idea of it being mainly for bespoke sports - concerts may be too loud for the zoo? Especially if concerts and music festivals are the main function of the stadium.

Am concerned about traffic management as that is a very busy piece of roading. For larger events, what is the plan for parking and the promotion of public transport to get to the venue.

Consideration with the zoo and the distress to animals is important (not too worried about the people living around there, to be honest).

Not sure about kicking the rugby club out with my selected proposal. Would like to think they could be included?

Generally, I support bespoke, smaller sporting events (cricket, club football and rugby etc), only a handful of music events and large community facility that dovetails with MOTAT and the zoo, not distracts from them.

I'd much rather see my ratepayer money go towards keeping speedway at Western Springs Stadium than on many of the things the Council currently spends public funds on. Speedway has been part of Western Springs for decades — it's a long-standing tradition. If you move into the area knowing it's there, it's unreasonable to complain about the noise later.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I think it's important to keep the community involved in spaces like this rather than privatising.

As a venue for concerts and festivals I believe Option 2 offers the most beneficial and future-focused use of Western Springs Stadium for both the local community and Auckland more broadly.

This option recognises the iconic role Western Springs has played in Aotearoa's live music and cultural event history. Returning the venue to its roots as a space for concerts and festivals provides an opportunity to re-establish it as a vibrant, outdoor destination that contributes to the city's creative and economic life—particularly in light of the growing need for mid-to-large scale outdoor venues in central Auckland.

Option 2 also aligns with the changing landscape of entertainment preferences and offers flexibility to host a variety of events that bring people together—whether it's large-scale music festivals, community cultural celebrations, or one-off international shows. This vision supports our creative industries, tourism, and hospitality sectors while creating memorable experiences for Aucklanders of all ages.

Importantly, this option does not require the costly upgrades necessary to maintain it as a sports stadium, making it a more cost-effective and sustainable long-term solution. With careful planning, it can be delivered in a way that balances community needs, noise management, and environmental impact.

In summary, I chose Option 2 because it honours the legacy of Western Springs, meets current cultural needs, and offers a practical, community-enhancing future for the site.

Keep the Speedway. Auckland FC are just fine with Mt Smart being their stadium. The stadium that have proposed have barely any seats to fit our growing fanbase. I won't be content with the idea of a new stadium until the stadium proposed has the same, if not, more seats and NOT THREE STANDS. Three stands at a football field is terrible. Only Oxford United have it at their stadium in England and they get clowned for it across the nation. Keep the Speedway.

Auckland is in desperate need of a purpose built rectangular stadium that can service multiple codes - football, rugby Union and rugby league.

The proposal to develop a facility such of this with minimal requirement of public funding and significant commercial backing is surely the way forward for the area and for the city as a whole.

Western Springs proximity to motorway access makes it prime for development of a transport hub also.

It's brilliant as it is, way more multi purpose than a stadium, and we already have 3 stadiums in the city. Western springs is perfect as it is, and if it's going to be upgraded it should keep the same amphitheatre system.

Western springs is in a state of disrepair, millions needs to be spent on making it look half decent. This money isn't coming anytime soon, we have loads of concerts venues and speedway have no money and expect Auckland council to fund repairs. AFC are not asking for money, need a home to play and this will be an awesome venue, the size of the venue is one Auckland city are missing and other codes can us!

We have plenty of large sporting locations available currently and the lack of a large concert venue, available on a regular basis (not X times per year like Eden Park) will draw more and larger music events to the city.

Additionally, the planned option 1 stadium is not large enough to provide the sort of game day support that Auckland FC has been receiving so far this year.

AucklandFc need a 20k capacity stadium at least. The seats behind one of the ends of the pitch in the concept is so far away from the pitch. Not ideal for viewing. I support the high performance sports centres and ability to host other sports.

It's a large plot of land in Auckland along key bus lines. There are also loads of concert benues in Auckland, most of which have a larger capacity than that is being offered in option B. Option A would not remove the space's ability to be used as a concert benue, however, option B reduces the park's ability to be used as a sporting venue. Think A is the best option of the three presented.

It would be amazing for the area and city of Auckland. As an avid football fan I have always wanted a local stadium to visit regularly and this location corresponding with the surreal beginning of Auckland FC would be a match made in heaven.

Given that the capital and project cost to build these types of facilities is effectively privately funded, makes the fact that this is even up for debate inexplicable.

I am an Auckland FC Supporter and a sports fan in general. The club and Auckland needs a proper home bespoke football facility. Although they should increase the Auckland Arena capacity to 18,000-20,000 in my view, Although the lack of public transport options i.e not close to a train station to move people in and out of that location will likely be an issue from past experience attending events at Western Springs. My two cents.

Should keep the speedway as is, because it is historical. Having a football stadium at western springs is a terrible idea. 1) Public Transport is nonexistent there. Seeing the majority of people who go to Auckland FC games take trains and buses to travel to games, is a big issue, 2) It is well known that the Western Springs residents have complained for decades about the noise the the Speedway makes, so have thousands of AFC fans cheering every second Saturday will be contradictory, 3) the stadium design is not good. I love the surrounding area, training pitches, basketball and paddle courts, etc. but having open end terraces at both end like Mt. Smart, in my opinion, is a bad design choice. It should be closed on 4 side like in Europe, to hold the sound in, to create an atmosphere. Even if the club wants activities at one end, you could make an U shaped

roof like the future stadium of Denver FC in the NWSL. Overall it should be in the city were everyone can access it easily.

The proposed amenities will be something Auckland desperately needs. It will cater to various groups and give Auckland FC a much deserved home ground and all of this with no cost to the ratepayers. Rugby can go to Coxs Bay Reserve as their spectator numbers don't require a stadium like the numbers Auckland FC will guarantee.

I've been coming to Western Springs since the day I was born. It's more than just a speedway to me; it's a part of my family's history. Four generations of my family have grown up attending races here. My great-grandfather, a man I never had the privilege of meeting, even raced here. The roar of the engines, the smell of the fuel, the thrill of the races – these are the things that have shaped my childhood and created a bond with my family that I cherish.

Western Springs is a place where my mind forgets the busy things, and I can just enjoy the moment. The memories I've made here with my cousins, the friends I've met, and the community that has formed around this speedway are irreplaceable. Western Springs isn't just a venue; it's a

place where we come together, share experiences, and create lasting bonds. It's a place filled with 90 years of history. To tear it down for something that lacks this rich heritage would be a disservice to all of us.

We must protect Western Springs Speedway for future generations.

We must protect Western Springs Speedway for future generations.

I love both football and speedway. It is great having the large stadium of Mt smart for Auckland FC and with a great first season the crowd will only get bigger and bigger the planned stadium at western springs will never be able to be big enough. As said I also love speedway. And the history that goes along at the springs. Waikaraka will also never be able to host the numbers that attend the springs. It has needed a birthday. But it still won't be fit for all the racing that happened at the springs. Parking for spectators is also a major problem there. The number of racers will drop which has effects on the local economy (businesses that build engines sell trailers and tow

vehicles advertising on cars etc). Please keep speedway and Auckland FC where they are/were for the good of all Aucklanders

Auckland FC have only been in existence for one year. They are owned by a very wealthy individual with many other sporting and business interests. The history of such individuals involved in owning sports teams is they eventually lose interest and move on to the next thing. It would naive to think this will be any different. It would be an enormous risk and probable mistake to tie the future of an important asset to this flash in the pan based on one year of success. Western Springs is a natural amphitheatre that should be retained and enhanced for concerts and continue to be enjoyed by the community forever. I am also deeply concerned about the birdlife in the

neighbouring park. I am an avid bird photographer and Western Springs lake and the surrounding green space has a higher concentration of bird life than any other place in the region. This must not be disturbed.

Western Springs stadium should be retained for open wheel Speedway. It has a world wide reputation and regard for its rich 96 year history for its racing heritage.

This cannot be replicated elsewhere, including Waikaraka Park.

Retaining Western Springs Speedway still allows and enables access and use for other sports and activities including rugby, football, concerts and festivals.

Speedway has shown it can manage, mitigate and adhere to local community requirements.

Waikaraka Park has poor infrastructure not suitable for supporting the numbers of open wheel race classes, the competitors, spectators and certainly has insufficient parking available on site or nearby.

Demolishing Western Springs Speedway and stadium would be taking away an important and iconic part of the varied tapestry that makes up all that is Auckland, Tamaki Makaurau.

Please don't make the mistake of bowling a significant, important site and feature within our city. Retain this site for use by speedway. There is and never will be, anywhere else like this once it's gone.

Leave things as they are. It's a natural Ampitheatre and so is a great place to host concerts and public events (Pacifica, outdoor trade shows, community events, etc,etc). It means it is also retained as the home of Ponsonby Rugby club, which may or may not be the oldest rugby club in NZ but definitely is a vitally important and historic sports club in our National game producing more All Blacks than any other club in the country, and to retain the current home for them as things are is vitallly important as urban planning restrictions for residential development become less and less and so such a central Auckland area becomes more and more densely developed it's essential to retain a grass roots club and facility like there has always been for young players to participate in and become part of. Theres also the obvious advantage of speedway to be able to

continue to operate under there as it has been for almost a century and means so much to generations of Aucklanders as somewhere Family friendly and oriented where generations of Family go to carry on a Family tradition that been going for almost 100 years and they do so for the find mementoes it brings back of loved ones now past and also to create those same memories with current and future generations. And the amount of investment in Auckland businesses of different types spent by visiting drivers and teams, some of whom stay for the whole season, is underestimated with them each spending many $1000's week in week out over the speedway season and that's if they don't have any accidents on track that require repair or engine failures which then have them spending 10s of $1000's of dollars getting their cars ready to participate the at the following weekends meeting. And it is a world renowned speedway track and facility which is why it attracts so many overseas drivers and teams willing to spend so much money to participate. More importantly for the families who attend it is family friendly and safe (how few arrests have their been over the almost 100 years of it running?? - what other family friendly sport can boast that??) and for the memories, love and emotion that it invokes for those who attend for the reasons outlined above.

I don't think it would work for AFC there because, as an AFC fan, who attended many,many games in their inaugural season, a 12-15k seating capacity would not be enough. The average gate of AFC home matches at Mt Smart was nearer 18,000 and the biggest was 29,000 and those average gates are only going to get bigger as time goes on as there is a growing fan base for soccer in Auckland due to us all getting a taste for it when doing our OE's in the UK.

Western springs speedway is the oldest speedway venue of its type in the world and is nearly 100 years old. It has seen some of the best racers in the world come and compete with the mighty kiwis and deserves to be listed as a heritage site and continue to provide great racing entertainment to the public.

The iconic Western Springs Speedway Stadium has been operating since 1929 and should remain at Western Springs,

Speedway has long been a cherished part of Auckland's sporting and cultural landscape, providing thrilling entertainment to generations of fans. To ensure its continued success, it is imperative that Western Springs Stadium remains its home.

A long-term lease for speedway would provide stability for the sport, allowing it to thrive while contributing to the local economy. Additionally, modifying the Western Springs Stadium Unitary Plan—just as adjustments were made at Eden Park to facilitate concerts—would create commercially viable operating conditions for speedway, securing its future.

Furthermore, Western Springs Stadium has successfully operated as a multi-use venue, accommodating speedway alongside concerts and rugby events. This demonstrates that with effective management, different activities can coexist, enriching Auckland's entertainment offerings.

It is deeply concerning that stakeholders, fans, and the wider public were not consulted before critical decisions regarding speedway's future were made. Given that ratepayer funds are allocated to such decisions, residents should have had the opportunity to voice their perspectives. Many Aucklanders would prefer to see their contributions support speedway rather than be spent on projects that do not reflect the community's interests.

The handling of this issue has led to a loss of trust in the decision-making processes of council staff and elected representatives. Transparency and fairness must be prioritized to restore public confidence in governance.

Ultimately, speedway holds significant cultural and economic value for Auckland, and most residents support its continued presence at Western Springs Stadium. It is now incumbent upon the council to listen to the people and take decisive action to safeguard speedway's future.

Allow more frequent Speedway meetings with less overreaching noise control constraints to let the sport again reach it's full potential. Also allow more frequent use as a concert venue... but this doesnt require wholsale redesign of the space. Western springs has functioned beautifully as a natural concert venue and all that is needed is maintenance and in some cases upgrades of exisitng infrastructure, NOT a redesign. The proposed redesign would in effect reduce capacity which is not a bright idea at all.

Retaining the status quo in terms of design of the space is the best route... if different style concerts and events are planned then these can be run concurrently wiith the speedway season and modular pop up design options are a much better way to go.

Thus retaining interoperability and flexibilty and realising the most out of the space over the long run for the people of Auckland.

Above all... NZ speedway should be retained. Speedway has been an institution at the springs for nearly 100 years. Our heritage should be celebeated and respected, not ignored and sidelined for the sake of wealthy stakeholders. If the council purports to protect our city's heritage and uniqueness then speedway should be no exception to that. KEEP SPEEDWAY WHERE IT BELONGS - AT WESTERN SPRINGS!

My family have been going to speedway for its entire existence. My brother drove sprintercars for years and it is a huge part of my life. I understand the family that bequeathed the land to Auckland city with a condition it remained a speedway. Why do money hungry people think they can throw their weight/money around at the expense of something in the name of 'progress' to boost their own egos. Not everything needs 'progress'. WS is an amazing natural amphitheater, concerts there are fabulous, it needs to be allowed to remain as it is. It is world renowned. The speedway season needs to go back to a full season, Oct to March. It brings people to Auckland and they spend money when they come. Mowbray, Ali, Brown, pick on another project and leave Western Springs to cars and rugby.

Rock n Roll!!!! Ridiculous to even think of getting rid of NZ's premiere stadium venue. No other stadium sized venue in NZ has a vibe like this. Also the soccer team want to build a 12,000 cap stadium? Why? Seems weird when they regularly sell out twice that amount.

Western Springs has such a rich history of music, it would be misguided to put a stop to that legacy.

It is part of our history and we as motor sport participants or fans have the right to continue to enjoy this venue and its history. You have already taken part of the sole of Auckland in terms of Pukekohe, what more do you want.

If Western Springs was a building you would not be able to take it as a historic building.

We as Aucklanders are sick of rich idiots getting what they want when the working class pay for it.

Let us continue to enjoy our history in the correct venue and not some make shift and unsafe venue that does not work.

Motorsport has an important part to play in New Zealand history. Western Springs is part of our DNA

Western Springs has been an Auckland institution my entire life. I have witnessed the best drivers in the world race there. Ivan Mauger let me sit on his gold plated bike. Barry Butterworth let me sit in his car. I would ask how different is it from the war memorial museum?

Should we pull that down and build a hotel or a resort. That would get rid of the asbestos issue, but wait, there is little noise created at the museum, externally.

Let The Springs at least have 100 hundred years. Auckland owes it to them.

My disabled son feels safe when at Speedway. It's accessible. Mobility parking is awesome. Speedway us an Auckland icon. It's local and I've been going there for over 50 years. It's a world renound track and attracts a lot of overseas talent. You cant run two completely different types of motor racing on the same track

I have been going to speedway since 6 years old when there was an angle embankment and speedway had those early homemade race cars plus speedway bikes and stock cars. Thus circut has so much history it needs to be retained for those who can't travel long distances. In the last meeting I sat next to a guy coming from Rotorua for years, Protect the speed way , allow some concerts there and let see the fun.

To help make it pay have more concerts , but speedway is to be king. Protect it it's a real entertainment, and if it was cheaper entry , the crowds would be like it was before Council or is it those Tau fellows whoever raises prices. Makes it hard for a family. Here is a shot of me in Tracy's

car I’m now 78 years young, don’t take this away from the coming generations in an arena with history.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Cricket should be incorporated into the plans. We already have a suitable stadium for football in Mt Smart, that is desperate for development.

I'm passionate about keeping public spaces for my children to enjoy and remember that their enjoyed these venues that build their character, These parks and venues are disappearing so only the more affluent members of society and pick and choose what's best for them and gaining wealth and ignore the ordinary people,,,please be kind

KEEP SPEEDWAY - There should be a clear choice here to vote to retain speedway as the existing long term interest. I have been a supporter of speedway for 40 years. It is one of the most iconic and brilliant spectacles in auckland, and around the world as it is an iconic international speedway attraction. You can put tens of thousands of spectators in a race meeting without any police presence as it is such a fantastic family vibe, both adult and child friendly. Keep speedway and support it better, I have never seen much in the way of council promotion which is very disappointing. There is plenty of scope for others to use the stadium and have them work around

speedway meetings. Increase the meetings by a half a dozen extra meetings each year and you will not be disappointed with the teams and drivers commitment to respect and make excellent use of this amazing speedway facility. This includes international and nationwide competitors, along with the associated business sponsorships.

The stadium has been there my whole life and enjoyed by myself and my friends and now their kids growing up. I want it to be enjoyed by my kids and their kids going to speedway and also going to concerts. And sports on the weekends. I think there is a big problem with society if a couple of people can change the coarse of what has been tradition for for generations just because they don't like it. Western springs is a great outlet for a lot of people. Been a path to the world stage for many and should continue to do so. We need to retain this as part or our community and our heritage so our kids grand kids and great grand kids have a chance to race and get on the world stage to. Or to just go and enjoy some weekend viewing of a school mate racing or a concert.

I agree with Option 1 as part of the wider plan of speedway moving to Waikaraka park, Ponsonby rugby moving to Cox's Bay. The new facilities at Western Springs should be run as much as possible as a civic asset with community in mind.

Use as a specific music concert venue (with permanent stage that can be extended for larger production shows)and sports in the middle but also allow Speedway to come back to Western Springs - which is where it belongs. Speedway is too classy for Waicrappa Park in Onehunga. You can put lipstick on a pig, but waicrappa Park will still be a pig!

Concerts at western springs are great - much better than Go Media Stadium and concerts here needed as an alternative venue to the others available. On top of that it’s the cheaper option of the two so a no brainer really.

We don't need another half-baked sports stadium that has narrow use. We need a Western Springs Bowl - a venue that will enhance and encourage our local and international arts scene and nurture the community that rely on access to this important part of Auckland's cultural history and its future.

Local Board: Waitākere Ranges

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I attend events at the stadium or its sports fields

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Many more Aucklanders will benefit from this option rather than an Arena.

I attend events at the stadium or its sports fields

There are three options to consider

Which option do you prefer? Select one option only.

Option 3A: Neither Option 1 or Option 2 - keep things as they are and retain current arrangements

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Western Springs is an iconic Auckland venue for Speedway, concerts and events. In terms of Speedway it is a part of Auckland's heritage. Having lived in Auckland most of my life, I was disgusted that Speedway (in particular) be stopped there. LEAVE THINGS AS THEYHAVE BEEN FOR THE BENEFIT OF ALL AUCKLANDERS!!

Western springs is my favourite outdoor venue..it has a long history of concerts ..speedway and good times for New Zealand ers.. the proposed bowl will enhance its natural Amphitheatre and keep some of Aucklands soul intact!

Continue to develop Western Springs Stadium as a premier entertainment venue. Central location for the music and sports communities.

This is the home of Ponsonby Rugby Club and would help in continuing to grow the sport and expand its sports programmes such as basketball, netball and touch. The grounds can be developed to assist families if you have family members playing rugby and netball at the same time - one place to be rather than having families split to go to different events.

Maintain the status quo, particularly Speedway - it is a treasure, and perfectly suited to the current infrastructure. Save the 10s of millions and spend elsewhere. I am a member of the Speedway Association. How are you going to improve on 10,000 plus people attending every week over summer for the speedway alone, while still allowing other large open air events and sports?

There is no need to move speedway or ponsonby rugby clubs there is so much history there and world wide recognition to remove them would be a mistake and possibly one of the biggest the council could ever make

Speedway is part of NZ history and should be for many years to come. We have enough stadiums in Auckland that Ali and the AFC can use to play soccer like true arena field is there just build the stand's around it and they will have a home

I believe that Western Springs should remain a public facility and not be largely privatised.

Ponsonby Rugby Club is an Auckland institution and they do a fantastic job developing our youth through team sports, namely rugby and netball.

The proposals do not adequately deal with options for Ponsonby Rugby Club. AC have suggested they relocate to Cox's Bay. Cox's Bay is too small and previous attempts to relocate PRC there have failed.

The ability to continue having larger concerts in the Bowl is very important, as it is an iconic space and to lose it to a smaller stadium built within the bowl does not make sense and would be a travesty. Public events which use the bowl and the Outer Fields are a wonderful aspect of Auckland community life, and should continue.

If Auckland Council want to become involved in a PPP to create a homeground for AFC, it should happen elsewhere without displacing an already existing homeground for rugby

I think Western Springs is a unique venue for concerts and fantastic opportunity to promote tourism to Auckland and encourage world class acts to come and perform. Ponsonby Rugby is an Auckland icon and it is a bonus that they can continue to call western Springs home.

The Speedway can head to Waikaraka Park, a purpose built facility with less impact on the neighbouring suburbs as it is in an industrial area.

This is iconic nearly 100 years of Motorsport it's a fun evening out as a family event and is well known as a great speedway.

Why should this be moved from complaints of a very few that have moved into this area to complain.

There is a very few fun octane great atmosphere family events left in central Auckland leave it alone.

It’s time this Council stopped stripping Auckland of its heritage in all fields from Art to Family friendly Speedway.. the heart of the city that makes Auckland an international destination must cater for all

I disagree and am disappointed about the way council has handled this matter. I do not have faith in the council. As a stakeholder I was never consulted. Western Springs is an iconic and important part of the varied tapestry that makes up all that is in Auckland. It has an international reputation for open wheel speedway and a rich 96 year history for it's racing heritage and should remain as Western Springs Speedway. Waikaraka Park has poor infrastructure and cannot support the numbers of open wheel race classes, competitors, spectators and insufficient parking on site or nearby. Waikaraka Park is not a viable option and should not be considered. Retain this site for

Speedway. There is and never will be anywhere else like this ever. Please save our Speedway
Thank you

Keep the Speedway there. In the last 30 plus years I have only missed one meeting due to a funeral. If you try to move it it will die. The program at Waikaraka park has already dropped one of the classes and only has ten nights.

If the council set it up a hundred years ago then it has already paid itself off by the people at the time and is effectively freehold in spirit.

If the number of meetings were increased then the ticket prices would be lower and the crowd would always be full. It's limitations were unfairly placed on it. There are dozens and dozens of

local parks that don't pay their way in the slightest and none of those can get the crowd and atmosphere of the Speedway on a Saturday night during summer at Western Springs speedway.

There is almost 100 years of history with the these type of events, speedway. cycling etc that need to be retained .

Very central location for weekly family well attended events during the summer months leaving options for all the other types of events for the public to attend. Isn't variety the Spice of Life.

Speedway can be successful with a long-term lease and commercially viable operating conditions. It's possible to change the WS Stadium Unitary Plan for speedway like they did for concerts at Eden Park.

Speedway can be part of a multi-use situation with concerts and have worked with rugby at the stadium. We (fans/the people) were never consulted with before this time and should have been. Western Springs Stadium is important to me and Auckland. I'd rather see my ratepayer money spent to have speedway at WS than many of the things the Council currently spend the people's money on. I have seen how this issue has been handled and I don't agree with the process and

have lost faith in the council staff and many councillors. Most Aucklanders I know want the same as me.

I adore live music gigs at Western Springs, especially iconic larger events and festivals, I think Ponsonby Rugby is an iconic tenant and have a long history as club physio in the past, I like the idea of increased access for multiple sports facilities and improved access through to Western Springs lakeside, Zoo and Motat

The Auckland FC needs a larger stadium than what is being proposed in option 1 anyway.

It feels like the community access and wider range of use is improved in option 2

I understand that there has been lots of media coverage promoting option 1, probably partially as they are incredibly wealthy and can afford the advertising but it's been in advance of public submissions and decisions at council level and does not seem to be a fair process.

In option 2 I think it's important that Ponsonby Rugby do allow wider community access though plus require improved facilities to be truly comprehensive such as onsite medical facilities eg sports medicine and rehab gym

My family and I have been dedicated supporters of Speedway at Western Springs for many years. It is more than just an event — it is a cornerstone of Auckland's sporting culture and a long-standing community tradition that brings together thousands of people every season.

We strongly oppose any plans that would see Speedway removed from Western Springs. This venue has been its spiritual home for generations, and relocating it would irreparably damage the sport's connection to its fanbase and its place in Auckland's identity. The unique natural amphitheatre of Western Springs, its central location, and its accessibility are vital to the Speedway experience.

Removing Speedway from Western Springs to make way for other developments, without proper consideration of what would be lost, would be a short-sighted decision. Western Springs is one of the very few venues in Auckland capable of hosting Speedway, and its removal would not only affect fans but also competitors, support crews, and local businesses that rely on event nights.

We want Speedway to stay at Western Springs. Rather than replace it, the focus should be on maintaining and improving the current facilities to support its continued success. This venue should remain a home for motorsport, not be handed over to private developers or repurposed at the cost of such a significant and beloved part of Auckland's culture.

Please prioritise preserving and supporting Speedway at Western Springs.

I want the speedway to return to Western Springs Stadium.

Western Springs Stadium has been used for speedway since 30 November 1929 as well as other 'noisy' events and concerts. The habitants in the surrounding area are well aware of the noise and traffic (both vehicular and human) created when they choose to live there, it's part of the area's special character. They cannot and should not expect it to move because it's too noisy.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Speedway is a longstanding, family friendly, culturally significant event in Auckland that should continue, alongside different stadium events such as concerts and festivals. It is outrageous western springs was closed without proper public consultation to begin with.

Dear Auckland Council,

I am submitting this feedback as I am very concerned Speedway at Western Springs won't be able to continue. I am disappointed that proper consultation was not done before this time, as it should have been with the speedway competitors, associated businesses, like race car manufacturers and fabricators, racing part suppliers, Auckland Speedway Driver Associations and many of the loyal and supportive fans. While the Council did consult with the most recent Promoter of the speedway, Palmerston North Speedway Limited, directed by Andrew Bruce Robertson, however I note that they are a Palmerston North based company and have little or no

knowledge of the 96-year history of Western Springs Speedway. I understand that Palmerston North Speedway Limited did not submit a proposal during the submission period, however this was purely a business decision by them and it does not reflect the sentiment of all the speedway classes which race at Western Springs, nor all the fans and supporters.

The council need to change their ruling and give Speedway a long-term lease and allow speedway to have commercially successful operating conditions. That is, ensure there are enough meetings throughout the summer at regular intervals. This will help attract overseas race car drivers and allow the promoter to continue to put-on world-class events for Auckland City. Furthermore, it will mean Western Springs Speedway will be able to celebrate its centenary in 2029. The council can change the Western Springs Stadium Unitary Plan to help speedway like they did at Eden Park to allow concerts to be promoted.

Speedway can be part of a multi-use situation at the stadium working in with concert promotions and can continue to work with rugby at the stadium, like they have done in the past with the Ponsonby Rugby Club. Historically Speedway has always cooperated with other promoters to allow them to run their events at the stadium, for example removing the safety fencing for the large rock concerts like the Big Day Out, Six – 60, the Foo Fighters and most recently the Laneway Music Festival.

I'd rather see my ratepayer money spent to keep it as a multiuse venue with the ability to continue to host large concerts with crowds of 55,000 people. As this is the only green space in Auckland which can hold these types of events. I note the other 3 options for the stadium tend to give control of Western Springs to private enterprise and in doing that the multi-use factor may disappear.

Finally Western Springs is a very unique venue so close to the heart of Auckland City, let's keep it that way and embrace it.

Speedway can be viable with a long term lease. Unitary plans can always be altered as Eden Parks was for concerts. Speedway has operated well at WS for almost a century. The consultation process was flawed.

I enjoy watching motor sport especially when we bring the International teams and driver in to race here. It is also somewhere I have been to many concerts, from Deep Purple, Pink Floyd ZZ Top amongst others. It's proximity to Highway 16 is a great bonus as well. Which is why so many other people are trying to subvert the wishes of the motor sport community, it is well placed for access, it just needs more public transport options. Like full size trains. Well that's my opinion anyway. There have been 2 large developments put in out at Kumeu and Huapai, why not set something up out there as there is very little out here and our kids neds sports grounds and infrastructure to promote better (healthier) living.

Western Springs Speedway and the nearby facilities - Zoo, park etc - are some of the best family oriented places in Auckland. We do not want it taken over by local millionaires who will make it financially unobtainable for mid-low income earners & will likely want to land their helicopters there as well. We have attended speedway for many years and it is always fun entertainment for our extended family at a reasonable cost.

Western springs has for a very long time been part of community sport, it should stay this way. There are already declining numbers in rugby. Making an iconic club like ponsonby move would contribute more to this.

I have been going to Western Springs since the early 80's. As a teenager I've attended Speedway with my brother for many years and also cousins, friends and now my wife and children. I have attended some of the biggest concerts ever held in New Zealand and supported our son playing rugby at the stadium. Also attended many cultural events at Western Springs. As a motor sport enthusiast, I am very passionate and attend many types of motorsport throughout the country and also overseas. I've also worked on many race cars and supported many of my friends who race, including some at Western Springs Speedway. All around the world I have seen speedway

and various types of motorsport facilities demolished and turned into malls or carparks and I don't want to see Speedway go the same way. This is an iconic venue that far exceeds what we appreciate in New Zealand. It is world recognised and is a truly unique venue that people travel from around the world to attend. The destruction of this incredible natural amphitheater and conversion into a cheap concrete palace for the rich and self indulgent famous is a slap in the face to everyone who appreciate the history of this venue. It is time for councilors to actually listen to its constituents and not just do things as a monument to the current regime. One way or another you will be remembered for what you do now. Do the right thing and keep Ponsonby Rugby, Speedway and concerts & events going for future generations.

Historical importance, a place for family and community, well loved and used as it is, Open space in the city, central to those supporting ponsonby rugby and the race way. Great multiuse space already and doesn't compete with other spaces, actually provides more choice for those sports. Great for whanau days and cultural events.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

It fits best with the heritage of the stadium as it's truely a cultural icon of the city hosting historical musicians and events as well as the speedway. Its proximity to central Auckland the western springs park, the zoo and the oldest rugby club in New Zealand producing multiple Allblacks the most of any club in NZ. Its preservation is important to the city's cultural identity.

If it were to be privatised and corporatised revenue would only flow back into the pockets of those investors whom are claiming their option 1 comes at no cost to the city council and ratepayers,

events would then be curated by those corporate bodies which only represent a narrow portion of Aucklanders. As a Super Bowl revenue from events will flow back into the Auckland council and ratepayer pockets and would keep the space a more open minded diverse venue for all to enjoy.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

We desperately need a new stadium in auckland that can cater for all sports but has a smaller capacity than neighboring eden park and Mt smart. We need to future proof our city for events and stadiums and this option best suits this.

I have had the privilege as an Auckland Rugby Referee of officiating numerous games at this ground. It is unique among our community sports facilities and should be retained for community related activities as well as a Large Summer Music venue. The number of green spaces availalbe to Community Sport and events is ever diminishing and to see this one be lost to a commercial professional football team would be disappointing.

Eden Park is restricted in the number of Large Music events that are held there and Western Springs offers a large and again Unique environment for these.

In Option 1 the seating capacity for entertainment is akin to Spark Arena on the waterfront so we don't really gain anythign different from another medium sized venue as that proposes.

AFC Fans like to travel en Mass as seen this year in their first season, currently they have about 1km from Penrose train station to GoMedia to travel through Commerical Industrial area, the nearest station to Western Springs is Baldwin Ave which is approx 2kms through residential areas so is not as convenient for either fans or residents, and is likely to be regularly disruptive during the Football season when AFC has home games.

For too long Auckland Council has failed to protect the historical landmarks around Auckland. When you look at the inadequacy of the council to protect Western Spring speedway through strong bylaws that prevented wealthy "NEW" residents to the area complaining about noise. How long before they complain about concert and crowd noise and increased traffic. Not to mention poor connection to public transport to get 50,000 people to and from the venue. Status quo with better bylaws to protect the speedway from missing neighbours who knowingly brought next to the speedway is the only way forward for the venue.

I live in West Auckland and I have seen/heard the passion by those wanting speedway to return to Western Springs. I have friends who live in the area and I think building something bigger and brighter will affect their sense of peace - parking, quantity of people being around - having a venue that is used more frequentlly with bigger crowds will impact on them. Keeping status quo - during a financial, social and politically uncertain time is worth it. We don't need increase in rates either.

I would like to see more open public consultation about the status quo usage especially when Eden Park'S usage is being changed to include concerts that were historically at western springs (like David Bowie with 80k).

I would also like to note that I suggest the residents that have been publicly complaining have a motive as there was pre existing noise when they moved in.

Speedway, Ponsonby Rugby and Concerts.

Speedway has not been given a fair chance to state their case in this matter. The only stakeholders TAU engaged were involved with the promoter who was going to receive a financial gain for his other speedway. That, on top of the falsified letters does not paint Auckland Council and its COO's in a good light.

Speedway had co- existed with Rugby, concerts and cultural events for many, many years. It is councils own restrictions which have been strangling speedway at western springs.

By choosing options 1 and 2, we are narrowing the facilities use and not using it to its full potential.

We also need to consider that option A will require the owners to make $6million profit over 50 years to break even. Auckland Council and TAU know that no stadium makes a profit like that. Billionaires don't become billionaires by dumping that sort of money into a project with no ROI, so I ask you, what is the bailout / contingency here? Rate payers buy them out once they are "done"?

We have other facilities for concerts and soccer - we have ONE world class open wheel speedway - option 1 an 2 will destroy this 96 year old icon. The way this is going is a complete disservice to the speedway community, who are rate payers in this city.

Mt Smart doesn't have the same atmosphere and vibe as Carlaw Park did - don't do the same to Speedway.

I am an AFC football supporter and I do not want to move from Mt Smart.

In the current economic climate it is foolish to spend money on this type of investment when Eden Park is down the road, Mt Smart is suitable for many events and countless other areas around the region including the North Shore stadiums. Noted that there is some proposed mixed funding from private/public but ultimately it comes back to public. The Auckland region has many infrastructure and transport issues - the CRL will not solve them all, should it ever start. Already it's been publicly acknowledged that the benefits of the CRL will not be out West - the largest commuting population - because of a lack of funding to remove barrier arms.

Council executive and, yes that includes the mayor and councillors, need to prioritise the basics first. The pressing cohort of private investors could be encouraged to invest in the basics if they truly wish to be part of raising Auckland up to greatness.

Because the who discussion making process has been lead by false statements and major backroom deals even the options listed and written in a leading manner not stating facts and options openly. Only option 3b offer any option for speedway to return to west springs as option 3a leave things as they are only includes the rugby club and music concerts as the speedway contact has finished. This is very deceptive and indicative of the whole consultation process. The complete contempt shown the Wayne Brown over the initial speaking rights to the councillors in the initial meeting was appalling. The people(the ratepayers) who employ the major and councillors took time out off there lives and even the councillors weren't allow to speak. This is

why 3b is the only democratic option to let the people have there say in the future of there space. We the people will remember the Mayors actions and the supporting councillors who are involved in this deceptive process. Voting is coming up

We have been taking my kids our kids to speedway at western springs since they were toddlers and it's become an enjoyable and safe family tradition for us (myself and the kids were born in the UK and we immigrated to NZ where my husband is originally from not long after the kids were born. We absolutely love the speedway and want western springs to be continued to be made available to future promoters to run seasons speedway seasons there. So many people attend and never any trouble. And it's one of the last things our kids still want to do with us now they are older teenagers - and not a device in sight! PLEASE don't take speedway away from our family

I support Option 3A because Western Springs is already a well-loved space for passive recreation, nature, and heritage, and I believe any major development could risk over-commercialising the area and disrupting its current balance. Let's improve maintenance and access without changing its core character.

It's a historic venue for speed way, hosting international events that has put New Zealand on the map. The racing at western springs is professional exciting open wheel dirt racing with family's teams and drivers putting everything they have into there race cars to make it one of the best shows on dirt in the country. I have grown up going to these events with my parents, grandparents, auntie's, uncles, cousins and friends, also supporting friends and family competing in the events. I think it needs to stay it is successful and historic I thought government and councils were trying to protect places and events that have history

It caters not only rugby but another sport - racing speedway. It has history there. It caters for more as it is than changing it.

Killing a sport to cater for another when other areas already do it. But speedway and other things can't go anywhere else.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I am a season ticket holder for Auckland FC and last season showed that there is a big demand and fan base to watch this new A league team and they need a venue that they can call home. With a 15,000 seat capacity Auckland FC could very likely sell out every game and create a ground with an amazing home atmosphere that would be a big advantage when hosting teams from the A league and maximise the use of this stadium. This option would also retain this venue for large concerts and cultural events and public training facilities so an ideal mixture of future uses with a big benefit to the local and wider Auckland community.

Western Springs Stadium is a massive part of Auckland and New Zealand history that needs to remain simply as it has been for almost 100 years. My family has always been associated with Western Springs - both in racing and with major music events. There is nowhere else in the country like it & if we loose it, we'll NEVER get it back. It is known & revered worldwide. Council should be working for its people - not against. There are more suitable places for yet another sports stadium - but NOWHERE else suitable for racing, cultural or musical events that even

comes close to Western Springs. It is a true jewel in our tatty crown - a place of heritage and memories and should remain as it is for the future. LISTEN TO YOUR PROPLE and leave it alone.

I understand that there was considerable concern including by Local Board members and by Speedway members about the way that the process was handled in making the decision to move Speedway from its established venue. A hasty decision pushed through will only perpetuate resentment

I strongly feel that the process has to be more thoroughtly discussed making allowance to ensure all points of view and concerns are heard.; and that the best and most flexible plan is produced, after full discussion with all potential users, that accommodates as many uses as practicable. This may mean more ratepayer investment in the short term, but in return there is a retention of control and ownership

While the proposal for another mega stadium privately funded, sounds good in terms of dollars, one has to ask why this particular venue is exclusively desired by private interests, what the commercial returns and commercial pressures on council will be from a large private developer, and what the long term effect will be on locking it up for up to 100 years, - which is as long as or longer than Speedway has currently been on site, 100 years is a long time, after which tired buildings may require considerable refurbishment, and once the costs of building have been recouped by the developer one has to ask what ratepayers will actuaally be left with.

There isalso the question of any access to other sports, or change of mind, as effectively the developers will have a controlling interest as lesses.

Thorough discussion required before committing to a decision,

Future use of Western Springs Stadium

What is your connection to Western Springs Stadium? (tick one or all that apply)

I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I feel it's important to keep public assets like Western Springs under Council control so they're not privatised.

It answers a need, doesnt/won't cost the rate payers, and is forward looking, rather than clinging onto the past. This city seems incapable of actually building anything world class in this space, Let's actually try and do the best thing here, rather than half arsing it.

I want Speedway to continue at Western Springs along with concerts and any other community event that has been held there in the past. This is the home of Speedway stop trying to undermine it and it's financial ability. Absolutely disgusted by our elected officials and how deceitful and underhanded they have been. Heads should roll for the corrupt behavior!!

I believe Western Springs Stadium should be retained as the world renowned Speedway venue that it has been for the last 96 years, with the outer fields utilised for the Ponsonby Rugby Club, as well the all the community events and music festivals/concerts it is currently used for.

When it is in the right hands, there is nothing better than speedway at Western Springs - the number of high profile international drivers that have raced there is a testament in itself.

My father raced at speedway, meaning I grew up there. I met my partner there when he was racing and my kids now attend every meeting with us. Ours is just one of many that show the true family roots that speedway has been built on.

It is a heritage area and should be protected in the same way MOTAT, Auckland Zoo and Western Springs Park should be protected.

Keep the Speedway. This has been an Auckland Family tradition to attend for nearly 100 years. Moving it to Waikaraka Park will not work. It's too small, there is not sufficient parking for the fans and trying to work two different classes of car racing on the same track would not work. How will both Speedway and Stockcars be able to hold their meetings if they are at the same stadium. Waikaraka Park holds nowhere near the number of people that Western springs does, why would you even consider changing it. Look for other places to hold these other events. Do not destroy speedway in Auckland.

As a long time attendee of the speedway our family are devastated that this historical and awesome event has been pushed out of Western Springs. My father is 92 and has been attending the speedway since he was a boy... as have my brother and I. Our annual pilgrimage to the dirt has been a highlight of our summers forever.. and it just will never be the same. The Springs speedway track and facilities will never be able to be replicated elsewhere.. and it is a gem that Auckland cannot afford to lose. Please let Western Springs Speedway return and continue to create joy and fun to future Aucklanders.

Speedway should STAY! It hold SOOO much historical value within the community. So many people view speedway as a tradition and special memory making event/outing for the family. Overall bring the community together for a fun, special, historically supported event.

I want the speedway and concerts to remain at Western Springs as it has for the past 100 years. I have a rich family history of Speedway as both my uncles uncle Doug Anderson and Keith Anderson were both successful racers in the 40s and 50s. it actually disgusts me that you want to get rid of the speedway as it is part of our heritage. there is nothing like it anywhere else in New Zealand is also an awesome concert venue.

In a city with purpose built centres for rugby, cricket, league, basketball, badminton, tennis ... we need to provide a proper Football Soccer stadium. Football is the highest participation sport in the city and country and to help the city bring more events like the FIFA Women's World Cup to us we need infrastructure like this.

I don't think it's a good idea to continue intensifying usage in a green space like this one. Parking and traffic in the area are already a nightmare as it is, and public transport is insufficient. Go somewhere else

The western springs speedway is an amazing place to go to, my parents went when they were young as did I and now my own kids go there to watch the race cars, there are so many other places to put a sports stadium, western springs speedway should be treated as an historic part of Auckland and left alone.

Please keep Speedway at Western Springs, it is an Auckland icon, in fact it is a National Icon. All the ********** that's going on in the world and our council wants to get rid of something that is family magnificent. Put that Auckland football team at Waikaraka Park. What gives you and that Auckland football team the right to kick Speedway out. Speedway has been there longer than any council member has been alive. It is Historic and you are making a monumental mistake.

Shayne Harris

I suggest keeping the stadium area as is and bringing back motorsport (speedway). This is/was a globally iconic speedway venue. Unpopular decision to shut down and consolidate speedway under the veil of saving money. Option B in your own proposals requires significant public investment.Option A seems to be bending the knee to vested interests wanting to move Auckland FC to the new stadium when the club already has other stadiums to use. Are there other monetary conflicts of interests we are unaware of? What is the real reason for pushing for Option A?Where is

the guarantee that potential future private losses will not need to be subsidised/bailed out by ratepayers?

I reject Option 1in its entirety. Whilst I can appreciate the large financial input of private investors in this option it cannot sway my objection to it. For me this option carries a history of deceit and subterfuge. I am not a speedway supporter although I have attended meetings there in my younger years. I consider the establishment of the Auckland F.C football club has inspired persons within council whom have held the power of influence ,to promote decisions in favour of one party being the aforementioned club without proper consultation or at best, poor consultation with other stakeholders. This in my opinion borders on corruption. A very strong word to use.

However this is what the Council has opened itself up to and a proposed project of this magnitude cannot proceed under these circumstances

I also have difficulty with Councils decision to support the upgrade of Eden Park as opposed to private developers input to a new stadium in the waterfront area. How can the reason for not developing a new stadium here based on immediate and future need immediately be overturned in favour of this project.

What is the true cost to ratepayers? The statement that this project could save $18 .1 million dollars over the next fifty years is not a reason to sway my support for this option. This equates to $362.00 thousand dollars per year over fifty years. That is totally ridiculous. To lease this land for fifty years and two further terms of 25 years is an abuse of ratepayers assets and needs to be halted.

I strongly oppose this option.

Option 3 - This option is my preference. However there are aspects of option 2 that I think are worthy of further investigation. A 55 000 concert venue would be a great asset to the community. however it would attract further historical complaints of noise. How could this be overcome?

Option 3 provides time to better evaluate the future of Western Springs Extending Ponsonby rugby’s lease until 2027 will provide time for them to perhaps consider further proposals on any future lease conditions.
