Bring back Western Springs Speedway - Waikaraka Park is simply inadequate. The long history and premium location that already exists should be Auckland's premium speedway track.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Auckland rate payers should be alleviated of some of the ongoing and constant costs of providing stadiums to various sports (particularly rugby) when and were possible. Rugby is very well appointed in Auckland in terms of stadiums and playing facilities.

The arena proposal means ratepayer dollars can be diverted into projects like improved roading, upgraded sewerage systems and other civil works that impact more people than those interested in rugby or another concert facility similar to Eden Park and Mt Smart.

The Arena proposal is well considered, funded and proposed by an organization that has a track record in sports management and facilities.

Keep Western Springs Speedway where it is. It is a great community focused facility that is open to all, and is keeping with the working class heritage of the area.

Grant a long term lease to a professional speedway promoter, and continue with Ponsonby rugby club's lease, as it is best for the community, community participation, and open access to for all.

Western Springs speedway has been around for 95 years. It is the most well known speedway race track in the southern hemisphere and has attracted many top motorsports drivers from around the world to compete over the years. Some of New Zealand's top motorsports drivers have come through western springs at some point of their life. To see a site that hold some much significance to a sport around the globe would be tragic.

The facility needs to be used for the community according to what the community needs. It can not and should not move into private hands where the community (that is affected by traffic, crowds, road closures etc) is excluded. Personally, I'm a bit over the rich listers thinking they can control everything. Western Springs is host to a great many festivals and concerts, it is iconic, and unique in being situated next to beautiful parklands. Whilst rapid intensification is major in the surrounding areas, the community requires leisure facilities including sporting grounds. You got rid of Speedway, don't remove everything else!

WS is[eedway is an icon..

It is so central, families & many other citizens of Auckland can enjoy this venue,especially for motorsports etc. It has good transport for the area close to the motorway>

It is unique to Aucklanders & there is enough sports fields. But, this iconic speeedway is the only one in the Auckland area that is worthy to be called a speedway venue.

This is one of the world's most prized speedway tracks, Auckland council could if they saw the opportunity grow this sport and venue to being something even more incredible than it already is. We have several ball code facilities across Auckland already nit only ONE Open Wheel Speedway facility- that is Western Springs Speedway since 1929! Fun filled family entertainment for ALL families & Long may it Stay

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Retain the use as a Speedway track. This is a historic site and the track should be maintained for cultural heritage. Investing in the current site so it is multifunctional without losing the historic uses would be best. Ratepayer savings should not be at the cost of losing this site which is iconic a national and international level - bringing the international recognition Auckland deserves.

We have enough stadiums in Auckland, Don't build another stadium.

We don't have much park space, convert western Springs area into one larger park.

Take Chamberlan golf course and convert to park land to cater for the expanding population in this central area.

I support grass roots rugby and the amazing work and legacy of Ponsonby Rugby Club. I support community groups having access to enjoy the venue for a range of cultural, sporting and musical events. I reject elitists trying to limit the stadium's use and manipulate it for their own agendas.

I want Western Springs Speedway to remain at Western Springs. Its an amazing Speedway. Such a shame to remove it. The Speedway is part of Western Springs. As well as the Ponsonby Rugby Club.

I want my children to continue going to the Speedway just as I did as a child. My children and the rest of my family love the Speedway. The Waikaraka option is just not the same.

Hi, I have worked within the Speedway motorsport group all of my life, it is also part of my business building and preparing racing cars for these events for the past 37 years speedway at western springs has been part of my life. My grandfather also did the same for 60 years. This stadium as it is now has been a natural fixture for the community and widely used for many different purposes. It should stay as it is, and go back to when speedway was able to run properly with great promotion, rather than always being hindered by threats of been closed. It is world class venue as it is, please don’t redevelop into another failed Auckland Rugby stadium.

Speedway at Western Springs is an historical community asset which brings huge benefits to Auckland in terms of community participation, volunteers including teenagers and children learning practical skills, huge benefits for local automotive businesses including mechanics, signwriters, panelbeaters, automotive retailers, upholsterers, autoelectricians etc. For nearly 100 years people have supported the speedway and derived a great deal of pleasure in doing so and we have to think of future generations who would like to do the same. It is a valid expression of

culture and this should be taken seriously. My grandparents and parents attended the first ever meeting. This means it is part of my cultural heritage. Please don't walk on this.

Allows for an historic and famous rugby club to remain central to the community, and for music events to be held here which is another fantastic use for the location, that has been a success recently and over the years. We have enough underutilised sports stadiums in Auckland - we don't need another. Particularly when the AFC team novelty wears off in a couple of years time.

This is a no brainer given the fiscal situation at council, especially with the asset moving to TAU after 50 years. I'm all for spending rates on community facilities but why do so when private backers are willing to pay? Indeed, the money saved here could and should be put into other recreation initiatives that otherwise wouldn't be funded.

Keep speedway at Western Springs, why build a new stadium with less capacity when there are other stadiums around that fit those categories. Western springs speedway is a piece of history around the world. The oldest track and yet the best venue the country has to offer for speedway racing.

Also keeping Ponsonby rugby at this home ground. No rugby club wants to share with another club.

I think that Speedway should remain at Western Springs Stadium. Its a great venue as it is for both speedway and concerts and having been to both over a long period of time feel this should be the outcome. I feel for the Ponsonby Rugby Club, one of the oldest in Auckland having been shunted around from Ponsonby over the years and feel they deserve to have a home. I wonder what happened to the Grey Lynn Soccer Club who once used to have their home at Western Springs and their clubrooms across the road - now totally destroyed.

Do we really need to build a concrete jungle at Western Springs, it's such a natural venue as it is, please can we keep it that way and have our local football teams use the outer fields as they do now

We have enough stadiums which are not at capacity as is and the suggestion is to add another one something I do not support. This location has limited public transport links unlike Eden Park which isn't too far. It seems sensible to work out the issues around using it more often as that venue already exists. I do support using the space for the occasional concert/ festival as it is done currently

Additionally I would like to see this land being used for many different things that benifit the community and not just a select group of wealthy/ sports people. I do support the Ponsonby club

in continuing to have access to this space as it is nice to see so many members of our community participating in New Zealand's sport!

The only solution is one that involves bringing back the Speedway, with a mixed facility available for speedway, sports and concerts to use throughout the year in a shared way. It's the best for all parties and the best for Auckland. Why can't we have a world class multi-functional space that accommodates motorsport, football, rugby, and events?

Western springs rugby club and western springs speedway have been significant parts of the Auckland sports and events back drop for several years. Removing both of these arrangements for yet another stadium in a city that has to many sports stadiums feels like a waste of rate payers money and resources.

What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I work or volunteer at Western Springs Stad

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Speedway has a rich history in n Auckland, in particular at western springs. It seems criminal to consider removing speedway from western springs based on our incompetent Mayor who is completely out of touch with Auckland's history.

My preference is for Ponsonby Rugby club to remain as is. I don't think Auckland can afford substantial upgrades at this time albeit a great idea when the economy has recovered

I have been attending western Springs speedway since I was in a baby pram. My Grandfather raced midgets and my father used to build race cars for a living. I live local and love hearing the Speedway from my house on the nights I am unable to attend. So much history taken away if the speedway can't carry on. Western Springs Speedway should be there forever.

I have only attended one speedway event. The last one. It was an incredible experience. Great family entertainment. I enjoyed it and my daughter and her friend. So many talented drivers and families, with mechanics. I loved the vintage section. Brilliant. Wish I had started going years ago. I realised that I had missed out on something special.

Speedway should be considered due to the lack of consultation with concerned parties in previous decision making by the council. The history the sport has at the venue plus the lack of a suitable alternative venue from speedway if it was to be moved need to be considered.

The current stadium design for option 1 is terrible. Loave the idea of other sports around and activities, however the actual design of the stadium is not suitable. Whoever designed the stadium itself has never been to a quality venue. It should be 4 sides fully covered with a 20,000 capacity. This is an opportunity to build a world class stadium but the current stadium design is not fit for purpose.

Allow for upgrades, while retaining the integrity of the area. Building and development of surrounding areas at is an all time high, while infrastructure and surrounding roads have not had the same improvements (how can the motorway on ramp and access get any better if more traffic is being funneled to the fancy new stadium?)

Auckland Council should look to support and develop grassroots level initiatives, and encouraging community spirit. It is not always be about the $

The speedway community should be given the right to remain at their historic venue. This venue has been and still is a world-class Motorsport facility, however, this has been ignored by the Auckland Council, who has been trying to evict speedway for decades due to a lack of understanding and lack of willingness to support Motorsport across the region.

I love the idea of the entertainment in the bowl. It's a great location with an already natural setting. The large concerts brings money to the community and.makes the area popular for visitors.

I am also an avid rugby fan who values tradition and culture. Western Springs is Ponsonby Rugby and Ponsonby Rugby is Western Springs. I love seeing the fields full of our lokal tamariki playing and building connections for life. The club has an incredible way to join a community together. The fact that it also has a fantastic number 1 field with amputheatre seating is just amazing!! We love watching games at Ponsonby!!!

Western Springs bowl is rhe best of both worlds and the only option for our community.

It's the home of Ponsonby Rugby Club and I'd like it to stay. It's an important and long-standing part of the community, even an anchor point for many local whanau, rangatahi and tamariki. Makes sense to keep it as a dual purpose venue for sports and large concerts. I believe this would benefit a lot more people than option one.

Future use of Western Springs Stadium

The area is no longer suitable for large events. Without investment in appropriate alternative transport, the road infrastructure doesn't have capacity and having large events in the middle of suburban neighborhoods, with more noise and bigger crowds is not of these times. Rather investigate the stadium/event hall at the waterfront again. Keep the fields for small community events and change the rest in public park for everyone to enjoy.

Ponsonby rugby club is an iconic sports community that brings together people from all cultural backgrounds towards a common goal. The club is unprecedented in terms of playing numbers and teams and provides significant social, sporting and cultural benefits to the community. Ponsonby rugby club must be retained at its current location. I am surprised that a hybrid option is not being considered which provides a venue for all groups.

There are plenty of options for football games, Go Media Stadium has been working well, we have to keep some traditions, that out last trends. We also need spaces for the alternative activities.

Turning it from a public space to private space will limit the use that the community can enjoy it. Having Ponsonby Rugby using for the winter time and then converting to a concert space makes sense and the Outter Fields need tidying up as they are an absolute mud pit.

Community sports will benefit more to option 2. Look how Eden park is hardly used for everyday use - all professional teams should be using Eden park as their home base and have separate training facilities. Community sports, cultural festivals and concerts will be used everyday. I think AKL council need to seriously look at the grassroots and community engagements.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1 one gives more options for the community to use the facility, and keen to have Auckland FC use it as home ground. Also like that it is not a burden on tax payers.

In an ideal scenario, I like a mix of options 1 and 2 - would be great to have more large scale festivals AND sporting events.

What about an indoor pool?

Auckland doesn't need another seated sports stadium, we have plenty. There is no public transport connections. The intersection outside is very busy for a majority of the day. The locals already complain about noise from the speedway. Regular sports meetings will still attract noise and big crowds.

Ponsonby rugby club is the oldest in Auckland and it deserves a good facility to host other clubs and provide a great family atmosphere.

Moving the club to another site will cause alot of disruption within the club because they will undoubtedly be without a clubrooms for a period of time.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Auckland—and New Zealand as a whole—is facing significant economic challenges. A private investment of $300 million presents a rare and valuable opportunity to inject life into our local economy. An economy that is hurting. The construction sector is in need of projects like this. This is not just funding; it's a catalyst for growth, jobs, and revitalisation.

Aucklanders are known for embracing innovation and ideas that are new —whether it's new restaurants, facilities, or other infrastructure. A world-class boutique stadium and arena won't just draw crowds; it will become a vibrant hub for community, culture, and commerce.

As for Ponsonby Rugby, its legacy isn't defined by location. The club had a proud history before it moved to Western Springs and will carry that legacy forward wherever it goes.

Let’s support a project that benefits all Aucklanders and sets our city up for a stronger future.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

These are disingenuous Options - I want Option 3C which is retain current arrangements and explore other ideas to enhance the area. The Council has underinvested in community infrastructure for years - football/soccer and basketball facilities should have been developed in other areas nearby. Whilst I am an Auckland FC fan I completely disagree with basically privatising this venue for them. We don't need new massive concrete structures to accomodate them when there are other options around the city. I feel TAU has been seduced by the big bucks and lost

objectivity. This is a community facility with a great vibe - lets not turn it into a megatropolis for billionaires to play with!

Western Springs Speedway, is a historical site for motorsports and is specific for speedway.... And covers a space for Ponsonby Rugby and concerts etc - with few spaces available like this and given its historical and world wide significance we have to find resolution to keep it in use with its current participants . If my understanding is correct this use of land was donated / gifted to the city for this use. I think there's better solutions to stadium use and options that are more viable than loosing a world class facility designation for Western Springs

Western Springs Stadium must be a multiuse community facility. It would be a disaster if it became privatised and returning a profit were to become the main motivation. It is too valuable to the wider public as a community asset.

We need to bring the speedway back to Western Springs, we have adequate concert venues currently so redevelopment doesn't make sense, the belief that private funding will come through is hopelessly optimistic or deliberately hiding knowledge that the council will spend far more than proposed.

The council is broke. We already have too many stadia. We don't need to spend money we don't have on a stadium we don't need. Option 1 doesn't need any public money but it would be good to see Ponsonby Rugby Club stay there with much less public money input over 50 years than option 2.

Future use of Western Springs Stadium

Mine is largely a protest vote as I understand that vested interests, not public interest, are in play here. Speedway in the central city is one of the gems of Auckland and I strongly support it's home at Western Springs. It is another poor show by this council and its horde of overpaid bureaucrats and consultants. Definitely not 'For The People'.

Auckland infrastructure, of all kinds, needs investment. This is a great action plan from a group of people who have the capability of investing directly into sports & entertainment within Auckland, without causing us ratepayers further headache when we need our money to be directed to other higher priority infrastructure. It would be great to see other sports receive a 'home' and for those to be closer to a location with better public transport link options.

I believe that an overall precinct site plan needs to be created. Don't treat the Stadium, Western Springs Park, the Zoo, and MOTAT as separate entities. Can we please have a comprehensive plan to coherently link all four together along with new facilities as required. This is a once in a generation opportunity to do something stunning and enduring.

The venue is well known and loved for being a speedway. The alternative proposed for the speedway appears to be a multi purpose that wouldn't be fit for purpose.

There is very limited acces to public transport for a large concert and cultural precinct.

We already have so many under-utilised sporting venues. I would rather see Western Springs upgraded for a large cultural venue and/or Eden Park, both of which are close to the super train link

Public reserve / gardens / zoo expansion. the venue is too inconvenient to travel to for big events, and creates too much of a disturbance anytime a reasonable sized event is held, usually for a day or two before hand, but with weeks of litter afterwards in nearby areas. Something more eco friendly, and with less of an impact on the area would be best

We need large venues to attract big international acts. This is both an honouring of the history of Western Springs as the place where memorable concerts have happened for over 50 years, and an investment in the cultural vitality that we need as a major global city.

I also don't think that a very small range of team sports -- football, rugby -- are deserving of this kind of investment. They can be played and practiced any number of other places.

I believe this will provide the most benefit to the largest amount of Auckland ratepayers, the local community — and not cost them in the future. The site is currently completely wasted on a few (no offense intended) niche activities in Ponsonby Rugby and the Speedway. I also think Auckland will benefit from a smaller more compact stadium as opposed to other larger current options for AFC and other events that will be 'full' without needing 50,000 people.

It is absolutely disgusting the way that the council lied about their consultation with speedway NZ and pushed through the changes anyway. They should be ashamed of themselves and publicly censured for their behaviour. It is unbecoming of an elected official to behave in such a manner.

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields

There are three options to consider

Which option do you prefer? Select one option only.

I do not have a preference

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I do not have a strong view on the merits of either option, if anything, Option 1, where the prospect of private investment seems preferable.

My feedback relates to finding a suitable location for a boutique test cricket venue and whether a proper cricket oval could be incorporated into Option 1 or 2. I know Western Springs has previously been investigated as a potential test cricket venue, but this does not seem to be a council priority and I know several options have been bounced around but not in a cohesive manner. Eden Park is not and never will be a viable test venue.

Auckland arena is interesting but I do not think another stadium is a good idea. I do like the idea of other facilities mentioned, just not the stadium: high-performance training facilities, the proposers say their design caters to the community (training fields, basketball and padel courts, hospitality concourse and access to the wider park.

There are already multiple options for sports events around the city, whereas options for entertainment events aren't as widespread. Also, there aren't enough surrounding businesses to support sports events (e.g bars, pubs, restaurants that fans go to before/after sports games). Habits for attending concerts or festivals don't require additional external venues to support its activity.

I strongly disagree with turning a beautiful park into a private stadium under 100 year lease. i dont believe the soccer stadium plan has been adequately investigated. build costs will be higher, it wont support 5 restaurants, traffic flow is already terrible, poor access to public transport, terrible parking.

Auckland is in dire need of 50K+ high capacity concert venues and Western Springs seems like one of the rare opportunities to maintain that. I believe this will serve the wider community the best culturally with tangible memories, vs. the very few that would take advantage of the sports-centered arena.

Eden Park is very close and a a perfect venue for sports and concerts.

Parking is limited and public transport is limited to Buses & Ride Share.

Option 1 is very expensive and would only deliver a small venue that duplicates other venues such a Spark Arena, Event Finder Stadium, Eden Part and Mt Smart.

Option 2 Duplicates Eden Park, Concerts & Rugby

As I previously submitted before in a twelve page document to Auckland Council, Western Springs Speedway should be donated to its neighbor Auckland Zoo and have that area turned into a special African safari/elephant enclosure/theme park. Make the fields out the front a carpark so that Auckland Zoo can build more animal exhibits on its original footprint i.e Asian hinterland/winter forest/giant panda etc

You want to build an all purpose stadium then build it where the Ellerslie Racecourse currently sits, adjacent to main highway, main trunk line, and over dozen public transport routes that run all

the way through central Auckland and all its outer lying suburbs. Shift Ellerslie Racecourse to Avondale Racecourse. Keep Alexandra Park.

Take private investment when it is available.

The glazer family screwed over the local council in Tampa Florida in the USA. You cannot trust/guarantee that ponsonby rugby club will cover rest of the funding and it will be end up being more rate/tax money going into maintenance in the future.

The Glazer family, owners of the Tampa Bay Buccaneers, played a key role in getting the local council (specifically Hillsborough County and the city of Tampa) to pay for the construction of Raymond James Stadium, which opened in 1998. Here's how they did it:

1. Threat of Relocation

Malcolm Glazer bought the Buccaneers in 1995. Soon after, he suggested the team might move if a new stadium wasn't built, citing inadequate revenue and facilities at the old Tampa Stadium. This tactic of suggesting a potential move is a common strategy in U.S. professional sports to pressure cities into funding stadiums.

2. Public Referendum and Sales Tax Hike

The Glazers lobbied for public funding through a proposed half-cent sales tax increase in Hillsborough County to fund the Community Investment Tax (CIT). This tax would not only pay for the stadium but also schools, roads, and other infrastructure.

In September 1996, a countywide referendum was held.

The tax increase barely passed — a critical win for the Glazers.

Roughly $168 million of public funds were allocated toward building the new stadium.

3. Favorable Lease Terms

The lease agreement the Buccaneers secured with the local government was highly favourable to the team:

The Buccaneers keep most of the revenue from games, including concessions, parking, and naming rights (which became “Raymond James Stadium”).

The public owns the stadium, but the team pays little or no rent.

The county assumes maintenance costs, while the team reaps most of the financial benefits.

4. Political and Business Pressure

The Glazers and their allies engaged in extensive lobbying, PR, and business community outreach. The campaign was framed around civic pride, job creation, and long-term economic benefits — all common arguments in stadium funding campaigns.

Summary

The Glazers convinced the local council and public to pay for the stadium primarily by:

Implying a threat to move the team without a new stadium

Backing a sales tax referendum, which narrowly passed

Securing an extremely team-friendly lease that put financial burdens on taxpayers but profits in the team’s hands

This deal has since been heavily criticised as an example of corporate welfare in sports — where wealthy team owners receive public subsidies with questionable public return on investment.

Future use of Western Springs Stadium

Being backed and funded by private sector this option will probably be the quickest built and be able to be used in the near future. Building a WS Bowl that puts more pressure on council funds and ratepayers is not the way to go - it will take years and years to complete with all the council red tape and meetings. Let the Auckland Arena private investors build this one - it will be amazing and support exactly what we need in Auckland

No cost to ratepayer and it will actually happen. Auckland FC needs a permanent home - currently shares with the Warriors so not ideal. Mt Smart also sucks to visit! I could walk and see Auckland FC so this is a selfish vote too. Need some Padel courts over this side of town. I think its great - nothing to lose. We already have Eden Park so we dont need another stadium of that size either. I am so keen for Auckland Arena please let it happen!!

I am keen to see the site get maximum use in a variety of activities. Capital costand ongoing funding is a consequence of any development. Option one - Auckland Arena addresses both through the private sector. It would be advantageous if Ponsonby Rugby Club could be included in the Auckland Arena proposal - along with cricket (although the basin has n Auckland Domain would be ideal as a cricket venue - doubling as a winter option for Ponsonby Rugby Club?).

Overall I am in support of Option 2 although I would like to see more accountability for ongoing maintenance and their associated costs going to the beneficiaries, the lessees. I prefer this Option as I see that Option 1 has more of a potential to lock out local involvement and use by being more costly to users. I also prefer the shorter lease and rollover time period. Option 2 is, in my view, generally more in keeping with historical use and thus I feel is more likely to receive ongoing community support. My one concern that doesn't appear to be addressed by either proposition is car parking - whenever there is a major event there car parking clogs up all the streets around.

I like Option 1 for not requiring Rate payer funds but would really prefer Option 2 to enhance the existing site, however don't want any further drain on rater payers. That only leaves option 3b, explore other ideas.

Actually my answer is both 1 and 2 equally -- developing it will be good for our city. I dont want it to stay as it is. We are a rich modern country, we should have the facilities of one.

Above all please listen to guidance of Iwi. Tangata Whenua knows best, lets be honest. Been doing it for the longest too ay. ♡

This is a great idea, as described it will accumulate more events and activities in this arena starting with sports and concerts and adding further more. Statement includes multi-purpose venue that combines sport, culture and entertainment which sounds very interesting and promising! Hopefully, it won't take forever and bring up great results for the community and the city. Thanks

Surely the speedway can stay using the track... it's a world class setup which attracts the best drivers in the world.

There is enough space for the venue to be occupied by more than one user. There are other fields suitable for football games, but only one decent speedway track in Auckland. Waikaraka Park is not up to standard, and definitely not up to housing up to 10,000 speedway fans in one night.

Auckland FC has shown it has a large fan base. By providing an official home stadium for them it will allow the Auckland FC team to grow further and develop football in NZ. It will also bring in a lot of revenue to the suburbs through people attending events at the stadium. I would attend the Auckland FC games if they were held there. I don't attend purely because it's at Mount smart stadium and that's a NIGHTMARE to get to and from.

I like how it also allows community use and development of other sports. We need more sporting facilities in Auckland. I would like to see something to do with cricket though, we are missing that.

Western Springs and Ponsonby Rugby Club represents an integral part of the local community's identity and culture. It serves as a hub for local pride, where people of all ages come together to support their team, and often has generations of families involved. Replacing such a club with a stadium could erode the area's rich sporting history, stripping away local heritage.

The integration of a stadium typically attracts more noise pollution, traffic congestion, and other logistical challenges that could disturb the surrounding neighbourhood.

Western Springs is not just a home of a deeply-enriched Rugby club but which allows people from all walks of life to engage with the sport, and recreation regardless of their economic background. Western Springs Park versatility plays a crucial role in the community, not only as a venue for winter sports but also as a site for festivals and other events. Replacing the club with a stadium could lead to increased inflated prices and an experience that is less personal and more focused on profitability.

It is a currently a wonderful natural area, in essence a park, that provides an open area in a city that gets more packed as each week goes by. It is home to a long serving Rugby union club for a very long time, that has many licenses and facilities that would be hard to replace. With it's natural seating it could be used from time to time, as has been the case in the past, for shows. It is best that the facility should be retained for the citizens of Auckland and not made available to or sold to interests that want to turn it into a facility to make money and profits for them, rather than retain it for the public of Auckland and surrounds

Space for a large concert venue would be awesome - we don't get many big acts in NZ and this is at least partially due to a lack of venues. Eden park is far more residential and not really suited for concerts. Going to laneway festival at western Springs was great- but it would have been better if infrastructure was better and it didn't get rained off (the ground gets really soggy!).

Also I like the idea of it as a community venue, I am part of a choir and concert band, and both groups struggle to find places to practise.

Also, I don't know what padel is and don't really care about more commercial options - we already have St Luke's mall and Ponsonby nearby for that. I feel like there are many places indoor sports could be (and are) facilitated anyway

The location of Western Springs, in particular access to and from is not really suitable for crowds of 50,000 people on a regular basis - so I don't believe Opt 2 is very feasible (though it would be fabulous for Auckland to have a more purpose build outdoor concert/festival area). Opt 1 is a good idea, but I would not want it to turn Spark Arena into a white elephant... it would need to work along side that. I like the idea of a more purpose basketball location as I don't believe Auckland has that... maybe keep it as a sporting area - and the concerts at Eden Park/Spark Arena?

It's a very close call between the two main options, but I'm leaning towards the Arena option purely for reducing some ongoing financial burden on ratepayers. But I'm worried about losing the vibrancy that music festivals bring to the area, and suggest their planned built environment is rigorously challenged to ensure it is as "festival friendly" as possible, requiring design changes as festival-experts may recommend, and that the operators are somehow contractually obliged to host a minimum number of festivals or concerts per summer season. Six? Ten?

Think auckland needs additional large scale options for concerts, festivals and other events - beyond just eden park & mt smart... think western springs location would make it a good option for a similar use of space.

Leave as is, it's a great facility for the community as is. Bring back the Speedway, this should never have gone.

Eden Park is just around the corner, if a bigger concert / event venue is needed.

Western Springs Stadium has unique value as a green urban space in close proximity to major cultural institutions like MOTAT, Auckland Zoo, and the Western Springs Park. I believe a more balanced and future-focused option should be explored — one that prioritises community access, passive recreation, and ecological integration, while still allowing for flexible use for local events.

Rather than a large commercial arena or a full-scale stadium, I support the idea of transforming the space into a multi-purpose community-focused green precinct — preserving heritage, minimising environmental impact, and supporting local well-being.

This vision aligns better with the needs of residents, future urban planning, and climate resilience.

Western Springs Future Vision

Submitted by

- Preserve Western Springs as a green, cultural precinct
- Enable flexible event use without permanent large-scale infrastructure
- Enhance walkability and ecological restoration
- Encourage local family, arts, and educational activities

This is an important community facility, with numerous use cases and deep, long established ties to a diverse range of groups. Handing it over to private/corporate interests is a short sighted compromise that will no doubt end up with rate payers footing the bill in years to come - so let's do it right the first time, and keep the community serviced as they deserve to be serviced.

Using Western Springs Bowl as a premier entertainment venue while maintaining its status as an iconic music and community sports facility would deliver a Hollywood Bowl type concert and festival venue, with a 50,000-person capacity and new permanent staging. This would take advantage of the existing natural amphitheatre and outer fields.

This is the optimum proposal as it would see Ponsonby Rugby Club renew its current lease and explore options to expand its operations across other sports. The new facilities would create an opportunity for a 5,000-8,000-seat boutique stadium to allow the facility to host a broad range of sport.

Turning the space into a boutique stadium seems incredibly short-sighted, especially given that we are about to build a new stadium in the CBD, or invest a huge chunk into Eden Park. AFC are already pulling crowds that exceed the proposed stadium capacity, and we do not need another 'rectangle sport' stadium in the suburbs (particularly one as poorly connected to public transport as this one would be). If it HAD to be turned into a sport stadium, one designed for cricket would be better suited to the unique natural bowl environment, fill a critical need (Eden park is hilariously unsuited for cricket) — AND still work for Ponsonby Rugby Club, and as a venue for

music. Christchurch's Hagley Field is a prime example of what would be a great fit for Western Springs.

The speedway has been there for over 100 years!!

Extremely popular and seems to by the 1 % against it scenario? Let Auckland's central residents have their say as well as the 25,000 supporters of the speedway's continued enjoyment.

Yes it needs a better stadium and more up to date facilities - but change shouldn't occur just by 100 complaints and some rich people want to capitalise for their own returns!!

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Some of the major reasons we moved into the area was for speedway as we've been going for 42 years, we're seen numerous artists and bands play there as it like out very own Hollywood bowl. We're attended Pacifica events so it suits us and gives us an opportunity to meet family and friends at these events is just awesome and great for our mental health. It's sad the way all of those has come about as a result of money and not the experience of what western springs offers to everyone... not a privileged few

Greater utilization of the land for a neutral ratepayer impact. It would be interesting to see whether AT think they could handle increased utilization on that site. Congestion in that area is already quite bad at various times during the day.

Enabling significant private investment while also reducing ongoing costs to ratepayers. The venue would be well connected to a future North West Busway station, enabling it to sustainability transport larger crowds. Having a multi-purpose venue that can cater to both concerts and sports is great.

My only reservation is this involves construction on a flood plain, however I assume that the design of the venue would take this into account.

There is no need for change as the speedway has been there for nearly 100 years and we've enjoyed it the whole way through along with concerts and cultural experiences plus the Rugby so I think it's terrible that people come into the area and complain about the noise complain about this complain about that they bought knowing what was going on at the spring so the speedway and everything else needs to stay.

I believe that community interests are greater than billionaire investor interests. Ponsonby Rugby Club has become an important part of my family's life, and is woven into the heritage of the local area. And because of its rich lineage with the All Blacks, it is woven into the heritage of New Zealand more broadly. Option 2 therefore represents a more culturally significant and sensitive option, and I would like the council to look through the financial goals of the private investors. Personal profit should never trump culture, heritage and equitable access to important land. Thank you.

We need a live amphitheatre for central Auckland, no need for another new stadium. If they want to put Auckland FC in a new stadium send them to Eden park. Let Auckland have live music from the biggest artists at a venue less than 15mins in a uber / bus from the city. Look at what festivals are doing to the Domain, let that be Western Springs.

95 successful years of speedway. Sound of summer. Brilliant when that noise starts. Hate ponsonby rugby but they are a community club doing volunteer work for the community. Let the billionaires buy their own groin. The council, meanwhile, should invest in upgrading the springs. Best speedway track in the world

Having the ability to have larger concerts gives more sense of inclusion and community than a limited space stadium in option 1. More green space in an historic wetland is more sensitive to the landscape than a large building in option 1.

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

If we were ranking options I think the WS Bowl is the best idea, as I really believe it would make the most vibrant and community focused outcome. It keeps a lot of different groups in the community engaged in using and caring for Western Springs, and it would make an amazing concert and events venue - there is nothing else so special in Auckland as this beautiful open air space. I also think that retaining public ownership is a really important factor, even considering the extra costs to taxpayers. I believe the Bowl is the best of the three options presented but if we were ranking options I would list doing nothing but exploring other options as the second best

choice (Option 3B) and then doing nothing and keeping current arrangements (Option 3A) as preferable to the Auckland Arena plan. And I say this as a ground floor, every-home-game Auckland FC fan - I just don't think Western Springs will be a good fit for Auckland FC and I would love to see them exploring other options instead (at the waterfront or upgrading Mt Smart). And even as an Auckland FC fan, I don't think private management is the right thing for Western Springs.

I firmly believe the Western Springs Bowl choice preserves the 'heart and soul' of Western Springs - the unique aspects the community has always loved about it for concerts, club sport and community use - while bringing it into the modern era. I also firmly believe those backing the proposal have the best interests of the Western Springs community, and the Albert-Eden area it feeds into beyond that, at heart, and respect what has always made Western Springs a popular destination for use.

Be used more often. - has some community usage - ie: health centre and fitness facilities- better for the area. And no increase in rates.

I would like to see a fitness facilities/ centre to the pinlic. / maybe a cafe / restaurant.

Parking and transport has to be seriously considered and noise etc as this area is already heavy traffic use from zoo / motat and westen springs park where people all come at the weekend with kids. Parking must considered (possible underground parking? At this location?) better transport links. Smaller buses / trams to and from city to new lynn ?

What is your connection to Western Springs Stadium? (tick one or all that apply)

I live in the area (Waitematā or Albert-Eden local board),I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs)

There are three options to consider

Which option do you prefer? Select one option only.

Option 3A: Neither Option 1 or Option 2 - keep things as they are and retain current arrangements

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Both my children played for Ponsonby Rugby club and it would be a real shame to see such a great part of our community taken away as it is the oldest rugby club in Auckland and especially just to be replaced by a team which has only been around for a year.

Western Springs Stadium is an institution worth preserving. Racing has been held there for over 100 years. I absolutely love that thousands of petrol heads have a home base in Auckland City, in the same way as Eden Park is the home of rugby. And the venue provides a crazy old school music venue. I have lived in Kingsland and now live in Point Chev, and the roar of the cars and the concerts make me feel part of a vibrant community with a huge range of entertainment options. Anyone who has moved into the area has done so in the knowledge the stadium would hold noisy events, so if they didn't like that idea, they could chose to live elsewhere. I'm also happy with the

current use of the fields as a dual sport and (sometimes) music venue. Don't spoil the fun of thousands by moving speedway out of the stadium.

Modern version of the old amphitheatre - would be great for sit down concerts

Best thing for the community overall. Plus there are other arena options near enough that provide arena size venues, whereas western springs is perfect for something different being the bowl style. It's also an iconic venue for outdoor concerts in Auckland and home of an iconic rugby club integral to the community. Don't turn it into an arena

Saves the taxpayers money, allows Auckland Council and TAU to put money in the LTP to other areas, hopefully in sport. Allows for a state of the art function/sports centre to be built for use by so many in the community.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1: I don't feel that this space will get enough use, and potentially a lot of the extras (padel courts, health facility) will end up in a state of disrepair.

Option 2: Again I don't feel that this space will be used enough.

Eden park is nearby and isn't used very often, why would a new stadium get more use? Any of the activities at this new stadium could be done at Eden Park.

A better option could be to alter the space in a smaller way, and have more outdoor padel courts, fields for playing rugby, football, cricket, basketball ball court, tennis courts, a swimming pool.

More community use areas which could be used everyday, are more accessible, and not shaded by an enormous stadium.
