Your feedback

1. How do you or your household currently use the park?

Use the golf driving range, Play sport at Eventfinda Stadium, Attend events at Eventfinda Stadium

2. How often do you use the park?

Other, please specify: Every week during basketball season Highschool. Have previously used every week for intermediate. Most long weekends for harbour basketball plus training

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

I think we shouldn't lose what is already there. It's fantastic to offer a full 18 hole golf course. Event centre needs expanding as the North Shore does not have enough basketball courts for the growing number of athletes. We should have a centre comparable to Bruce Pullman or Baypark.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), Driving range, Short-game practice area / putting green

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Organised recreation - space for organised sport or clubs

7. Which Park lease approach would you prefer?

Unsure

Tell us Why

There are positives and negatives to both

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Your feedback

1. How do you or your household currently use the park?

Walk / run in or around the park, Play golf at the golf course, Use the golf driving range, Play sport at Eventfinda Stadium, Attend events at Eventfinda Stadium

2. How often do you use the park?

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

The North Shore desperately needs basketball courts. It is also great to have a public golf course at our doorstep but there is a priority to provide an indoor space for all court sports.

4. What type of golf would you most like to see provided at the park?

12-hole beginner/intermediate golf course (approx. 36-40 par)

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

2. How often do you use the park?

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

At minimum a 9 hole golf course should be retained given the popularity of this course, and the fact the golf is growing among youth.

4. What type of golf would you most like to see provided at the park?

12-hole beginner/intermediate golf course (approx. 36-40 par), Pitch and putt golf course, Other, please specify: pump track and skatepark

5. What other type of recreation would you most like to see provided at the park?

BMX pump track / skate park / other wheeled play, Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation, Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Leasing land will bring in investment from commercial operators which will result in better facilities for the public. Keeping some council land ensures the open space, and control over the use of the leased space.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Fantastic to see the pump track included in Gold Warehouse's proposal. Adding a skatepark would be even better. Currently there isn't a single skatepark in Takapuna.

Tell us Why

Needs to be a mixture of public and private to obtain the funds needed to develop stadium

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Eventfinda stadium is a highly used and valuable part of the sports community especially basketball. The stadium itself is an old building, and despite the floors being refurbished after the floods, the building still leaks and is prone to flooding.

3. What mix of recreation uses would you like the park to provide once redeveloped?

Tell us Why

The Eventfinda stadium is an important community hub providing opportunities for school-age children and teens to engage in out-of-school sports that would be difficult or impossible to access elsewhere. A project that continues to allow this should be a priority. The current stadium being in a flood zone means future flooding would make the building uninsurable and the sporting facilities would most likely have to close. You can't let that happen. There are other golf fields on the North Shore that people can use. There are no other gymnastics facilities with the space and equipment available at NHGymnastics. The sporting events (professional matches, school leagues) and shows that Eventfinda stadium hosts are also important to our community and provide easy access from all over the Shore (and beyond).

4. What type of golf would you most like to see provided at the park?

Other, please specify: I don't know, I don't care much for golf. Mini golf is nice. But golf is not more important than other sports.

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Outdoor sports courts (e.g. basketball, netball, pickleball), Space to hold events (e.g. community markets, festivals or concerts)

We need a new Eventfinda stadium and NHG Gymnastics facilities in a building that is fully flood-proof.

All great cities have public golf course and find ways to manage water risks and provide recreational facilities without the need to reduce the golf facilities.

Auckland (and specifically the North Shore) is blessed with many reserves and parks and beaches with great walking tracks and open spaces for outdoor leisure.

4. What type of golf would you most like to see provided at the park?

12-hole beginner/intermediate golf course (approx. 36-40 par), 9-hole traditional golf course (35-36 par), Driving range

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Keeping it all under council control means community benefits and value and Maori culture remain the center of the decisions. Leasing brings money and revenue and profit which will dilute the priority of the two items mentioned

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

There is an abundance of parks and sport fields and tracks and beaches on the shore. Please don't cut the great beginner golfers' options further

Because golf is a great sport, it can be played by yourself or bring people together, it is played in nature which is of limited space in the modern world that is close to populations. It teaches young and old lessons and life lessons such as patience and focus, honesty and integrity, how to handle failure gracefully, perseverance and self improvement, emotional control and respect and etiquette. Golf is more than a sport, it is a mirror for life and a fun activity that most can participate in and benefit from.

I don't use the park

2. How often do you use the park?

I don't use the park

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

Sports fields for children's sport are in very high demand in Auckland. Golf uses a lot of space for a relatively small number of mostly adult participants and there are plenty of (admittedly expensive) private golf clubs in Auckland.

This space would be better used for other sports.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par)

5. What other type of recreation would you most like to see provided at the park?

BMX pump track / skate park / other wheeled play, Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Nature play / playground, Outdoor sports courts (e.g. basketball, netball, pickleball), Sports fields (e.g. rugby, soccer, cricket)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Open space - space for free play and relaxation, Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

There is Pupuke good club not too far away which is set in beautiful surroundings with views to Rangitoto Island. There is a lack of basketball courts nationally so additional indoor basketball facility together with ample parking to also support the lack of parking for nearby North harbour netball also needs consideration. It would be great to have a bike/ cycle park, outdoor cafe and playground.

Partly traditional, but also removing any existing facility or sport will affect that sport. It looks like golf is greedy on space (and it could be argued is), but that argument could be used on any open golf space. It is clear that removal of this golf facility will be permanent and will never be able to be replaced in the area. This is not true of other sports that traditionally use less area.

I was looking for the engineering assessments that show how the proposed wetland will work. While not an expert, how will this area become a storage area without massive excavation and where this fill will be used, which does not appear to be shown? How would the proposed wetland have performed in the anniversary floods? Isn't the issue with any flooding drainage and get the water out of the area as quickly as possible? Look at the Los Angeles storm drain system, I believe that is long term flood planning. How could that approach be adapted here.

Develop the stadium to be centre of basketball and netball in NZ. Auckland needs a facility with at least inside 10 basketball courts. At the moment to conduct most basketball weekly comps or long weekend comps requires the use of facilities across sites from Bruce Pullman and Eventfinda stadiums at the same time to handle the volume of kids wanting to play basketball. At a junior level we are playing 2x10 min half's whereas in AU even at a junior level are playing 4x10 min qtrs. This is due to the fact we don't have enough basketball courts available.

Genuinely think about this becoming the home of basketball in NZ with enough courts to cater for the demand right now and into the future. In Bendigo Victoria, their stadium already has 10 courts and is extending at the moment to even more courts.

Auckland currently lacks 73 indoor courts and 1,500 sqm of gymnastics space compared to demand. We urgently need more indoor facilities. This is an excellent opportunity to retain the golf course - with 9 holes and repurpose the additional space to allow for an indoor sports building. Event finder stadium floods and has roofing issues - this needs to be replaced.

Your feedback

1. How do you or your household currently use the park?

Play sport at Eventfinda Stadium

2. How often do you use the park?

Once or twice a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

There is a golf course 5 minutes up the road.

I would like more indoor facilities like basketball and gymnastics, indoor cricket and netball.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Short-game practice area / putting green, Indoor golf simulators

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Open space / picnic area, Outdoor sports courts (e.g. basketball, netball, pickleball), Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Most people can afford to pay part costs associated because the location is in an affluent area. Some control is needed by council to have future flexibility.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Your feedback

1. How do you or your household currently use the park?

Use the golf driving range, Attend events at Eventfinda Stadium

2. How often do you use the park?

Less than once a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

It is great to have public access to affordable golf for those starting golf where they can learn to play without members breathing down their necks as happens in private clubs. I like the golf warehouse plan which seems the perfect balance.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Pitch and putt golf course, Driving range, Mini golf

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Other, please specify:
Pickle ball

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Open space - space for free play and

relaxation, Resilience - supporting flood protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

The proposed wetland needs to be under council control. Private management of other facilities takes burden from taxpayers. Maybe event centre should be council as well.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I support the Holf Warehouse proposal for the AF Thomas Park

2. How often do you use the park?

Every day or most days

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

This is one of few council owned golf courses that doesn't demand membership to play. Golf is already inaccessible to many, particularly Māori and Pasifika Islanders who are marginalised communities. Keeping this golf course will ensure the ongoing inclusion of these communities in the golfing community.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 12-hole beginner/intermediate golf course (approx. 36-40 par)

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Going private will turn this into a profit driven facilities and possibly end up losing the space in the future. Keeping it under council owned will ensure the public can have a say in the future of these venues that are in high demand all throughout the year.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Please consult with the users of the facilities and professionals of the sport before making any changes. They will be the ones best to advise what they need.

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

Personally i don't play much golf. I think reducing the course to 9 holes is the best option. It gives a nice balance of sustainability for the council while still keeping the recreational use for the public.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par)

5. What other type of recreation would you most like to see provided at the park?

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

We need more courts at Event Finder so we don't have to travel as far as Whangarei, Takanini or Pukekohe as often and have play as many late or early games due to the lack of courts.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Organised recreation - space for organised sport or clubs

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

A mixed approach may mean we get better facilities sooner than if we have to rely on council to fund everything. Also can get lease income for council who does not need to be involved in running sports clubs.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

We need more courts at Event Finder so we don't have to travel as far as Whangarei, Takanini or Pukekohe as often and have play as many late or early games due to the lack of courts. Basketball is a fast growing sport and we don't have enough courts to meet demand and its going to get worse unless we do something.

Golf is an amazing game that people of all ages and abilities can play. It encourages exercise, fresh air and socialising in a beautiful setting. My son loves playing too and our first round together was at Takapuna Golf Course. Being a public course gives access to lots of us who cannot afford expensive club memberships.

A nine hole golf course would be good, making room for other options. Including improving Eventfinda Stadium, flood proofing it and creating more indoor courts for the huge basketball community.

4. What type of golf would you most like to see provided at the park?

Once or twice a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

Auckland has heaps of golf courses already. They don't all need to be 18 holes. Other ones should be chopped back too to increase housing capacity.

4. What type of golf would you most like to see provided at the park?

Other, please specify: whatever can fit once hazard reduction, passive recreation and indoor sport is provided for

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Nature play / playground, Off-leash dog exercise area

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse range of experiences the whole community can

enjoy, Heritage - highlighting local Māori culture, Nature - protecting or enhancing the natural environment for people and wildlife, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Gives flexibility for the golf people and Eventfinda Stadium, while maintaining maximum control over the rest of it.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Basketball is one of the fastest growing and most popular sports in New Zealand. As a parent of children in North Harbour Basketball I can say they really scramble to find all-weather space for games for the significant numbers of children who want to participate. It's been really great that so far they have been able to keep travel for basketball relatively local for people on the north shore, and a lot of that has to do with access to Eventfinda stadium. I know it's not ideal where it currently sits but I hope that Council supports the future provision of indoor facilities for basketball. I'm fine with that coming at the expense of yet another 18 hole golf course.

Your feedback

1. How do you or your household currently use the park?

Attend events at Eventfinda Stadium

2. How often do you use the park?

Once or twice a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

It is great to have a public golf course for the occasional golfer. The Shore needs a mix of recreational facilities. The growth of indoor sports, especially basketball, requires bigger and better facilities than the current Eventfinda Stadium. Being able to provide a bigger and better facility for Indoor Sports, Gymnastics and Events should be a priority for this piece of recreational land.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par)

5. What other type of recreation would you most like to see provided at the park?

Archery, BMX pump track / skate park / other wheeled play, Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Lawn bowls, Space to hold events (e.g. community markets, festivals or concerts)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Keep all land under Council control

A better chance of having a global view of the area as well as a keen interest in maintenance of facilities.

2. How often do you use the park?

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

Sports facilities in Auckland and particularly north shore are extremely limited. Indoor sports are exhaustign options to find court space and need all the help they can get. Wairau is a central location for Auckland and the North Shore so an increase in court space is a huge win for basketball and other sports like volleyball, netball, futsal. These sports are also the fastest growing in the country so more courts are needed. Maintaining some use of golf would be great but there are ways to achieve both and there are many other golf courses in the North Shore alone.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Pitch and putt golf course, Driving range, Short-game practice area / putting green

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Nature play / playground, Outdoor sports courts (e.g. basketball, netball, pickleball), Space to hold events (e.g. community markets, festivals or concerts)

Not sure of the intricacies here but having strong operators deliver meaningful recreation/golf experiences to the public makes sense if this is not deliverable (to a high standard) by council.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Recreation complex should be 8 courts +. Golf course minimum 9 holes.

Basketball and gymnastics are healthy, growing and youth oriented sports with far fewer facilities available than golf. The interests and future of our rangatahi and tamariki need consideration. This is a significant piece of land that has value for all the community in surrounding suburbs to enable with better access, functionality and usage beyond a single sporting facility. The local government funding model is based on support from government but largely from residents and rates. Having a source of income through leasing ensures it's not a high cost model that only residents have to fund. Private sector capital available to benefit communities is an effective way to support this and enables donations with tax incentives could continue to encourage longterm growth and/or maintenance of the facility.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

There has never been such a sensible considered approach to redeveloping this area previously and it's so encouraging and delightful to see the proposal from the Faesen Kloet family that has significant value and importance to pursue here - from every aspect of resilience, safety, nature preservation and community enjoyment. Please proceed with it.

I think it's also valuable to have an affordable golf course available. Having 2 kids that also play basketball there are not enough basketball facilities in our area so more are needed.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 9-hole traditional golf course (35-36 par), Driving range, Short-game practice area / putting green

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Off-leash dog exercise area, Outdoor sports courts (e.g. basketball, netball, pickleball), Space to hold events (e.g. community markets, festivals or concerts)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Open space - space for free play and relaxation, Organised recreation - space for organised sport or clubs, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

It seems like the best balance of something still cost effective but investment into the development needed for the options I chose such as more basketball facilities.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I like the idea of investment into basketball or more golf facilities while keeping some of the green area.

So there is at least a 9 hole public golf course available to people who do not belong to a private golf course. This is socially important for those people who want to have the opportunity to play golf but cannot afford to pay a membership fee to a private golf course. There are not many public golf courses in Auckland.

I am in favour of a field which can accommodate a number of different sports such as cricket (so a pitch is available to drop in during the summer season) and a winter sport such as soccer. This field could also be designed like the Sunnynook park which can hold water in high rainfall and which will soak away the water.

You have said you do not have the money to develop the park so I assume you have to lease it. The government is paying for the wetland we were told.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Remember this is a project investing in the long term future and so the project should be primarily driven for the public good and short cuts not taken for economic reasons. The areas outside Kaipatiki should be taken into account to recognise what green spaces and sport spaces are needed and where.

I support the option put forward by Golf Warehouse. Their proposal appears to meet all of the key objectives identified in the consultation. It maintains golf activity on the site in a modern and sustainable way while allowing the park to function better during extreme weather events. It also frees up land for other community uses without diminishing the quality of the golfing experience.

In my view this option strikes the right balance between recreational, environmental, and community outcomes. I encourage the council to adopt the Golf Warehouse proposal as the preferred path forward.

The park currently has an association with golf and that shouldn't be overlooked. But being a shared space should be more flexible in its offering for the whole community. There are other golf options on the north shore, whereas other sports don't have a dedicated space. The Events centre has been one of the positive reasons that basketball has grown and participation in gymnastics continues to be well supported. And as I discovered last weekend archery too. So any change should look at existing users to enable their continued use.

Having such a large piece of land so close to the motorway lends itself to being used for multiple sports, activities and events and limiting it runs the risk of those activities going out of fashion or those activities benefitting significantly from this development while excluding others. Suggesting private funding as a method does have benefits but needs to still support the activities and interests of all the residents in the area, not just those with businesses interested enough to spend the money.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

In support of a perimeter track and cycling. There is a massive opportunity to create an approx 3km cycling track around the perimeter of the park. This would be available to public for use at all times. Provide a location to run bike safe events and learning and for families to be able to cycle together safely. It would also provide an event space for cycle racing off the streets. The North shore has 3 bike shops along Barrys Point Road alone- 1km away, along with many other bike shops scattered around the North Shore, so we know there is community use/support of cycling. There are currently 2 local schools who offer cycling as a sport, delivering multiple regional and national titles coming out of those programmes for both teams and individuals. Their only option for training is early morning (5:30am) on the local streets, which causes a number of challenges. On top of this, Auckland (North Shore and City) no longer host regular cycling events as the traffic management cost is prohibitive and getting worse. As a result participation in both cycling as transport the sport suffers. There has previously been a number of events that used to run in the area- such as the racing around the circuit in Takapuna. Currently cyclists (both school age and adults) have to travel to the south of Auckland to compete (on the boundary with Waikato) to find events that are being run and safe. Development of the perimeter of this space would provide an (approx) 3km track around the perimeter of the park would allow cycling to happen in a safe place for learners and families to share and provide a track that could be used for training and to host events during all seasons, with good local facilities and accessible to many being so close to the motorway. It would encourage cycling as a sport, which we know translates to being an excellent mode of transport too, something beneficial to the community from a day to day traffic management perspective, but also for the health of the population. It provides the opportunity to host events at a local, regional and national level for both school level and upwards. This track can also be used by multiple other activities and sports too- dog walking and training, running/jogging, skateboards, scooters, so has far reaching community appeal and options, especially if surrounding other

activities and park space. Being proposed as a perimeter track, would also allow for service vehicles to support the other activities planned for the space and make access clear and out the way of the other uses.

1. How do you or your household currently use the park?

Attend events at Eventfinda Stadium, Other, please specify: I enjoy seeing one of the few green areas on the North Shore.

2. How often do you use the park?

3. What mix of recreation uses would you like the park to provide once redeveloped?

This is the only public golf course on the North Shore and it needs to remain. I fully support The Golf Warehouse proposal as it includes other outdoor facilities I.e. pump track for children etc Also this option is privately funding requiring no likely increase in rates for homeowners.

4. What type of golf would you most like to see provided at the park?

Other, please specify: The Golf Warehouse proposal gets my full support.

5. What other type of recreation would you most like to see provided at the park?

BMX pump track / skate park / other wheeled play, Walking / cycling tracks, Other, please specify: I am absolutely opposed to any dog walking areas as they have access to streets around the city and dog walkers generally do not abide by rules I.e. beach time restrictions .

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Open space - space for free play and relaxation

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

Because council needs to concentrate on key issues of infrastructure i.e water, sewage etc & not get involved on a day to day basis when this could easily be managed more efficiently by private companies & require less employees at the council.

Council take much to long to authorise anything.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

As per councils own admission it could take years before any community facilities are constructed which would be of lesser quality than that of private operators with a huge amount of experience i.e The Golf Warehouse proposal.

Overall I feel this entire area is being used as an experiment on flood mitigation.

Your feedback

1. How do you or your household currently use the park?

Play sport at Eventfinda Stadium

2. How often do you use the park?

Once or twice a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

A great space to share with all sporting activities. There are too few places dedicated to sports on the shore. The population is growing exponentially and the inhabitants of the shore need recreational space for health and wellbeing.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par)

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Nature play / playground, Space to hold events (e.g. community markets, festivals or concerts)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural

environment for people and wildlife, Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Keep access available to everybody, not just those who have money. Keep the commercial operators at bay! Look after those who could make best use of low cost/ free space.

Have things like playground and the walkways etc under council lower cost and inclusive for all in area to use. Things like golf and other facilities can outsource to get more competitive and pricing because more money to start with and goal to make a profit so more likely to push to get built quicker to get money coming in

Tell us Why

I strongly support the restoration of A F Thomas Park into a healthy wetland ecosystem and a stand of native bush, incorporating well-designed walking tracks similar to those at Smiths Bush. This approach would enhance biodiversity, improve ecological resilience, and create an accessible green space that the wider community can enjoy.

While I recognise the value of recreational facilities, I believe these should occupy only a smaller portion of the park. In particular, I do not see golf as a priority use for this land, given the number of nearby golf clubs and an existing driving range that already serve this need. Restoring the area's natural environment offers far greater long-term benefits for both people and wildlife, and aligns more closely with community wellbeing and environmental stewardship.

4. What type of golf would you most like to see provided at the park?

Other, please specify: No facility fo golf

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

I strongly prefer that the land remain under council control. While I understand the appeal of quicker delivery and higher-quality facilities through private operators, leasing public land to independent entities creates a long-term risk. Once land is leased for commercial or semi-commercial use, it can become a slippery slope where community-owned spaces gradually shift into privately controlled assets. Over time this can erode public access, limit flexibility in how the park can be used, and place decision-making power in the hands of operators whose priorities may not align with the wider community's needs or values.

Keeping the land under council control ensures that A F Thomas Park remains a genuinely public space, managed for the benefit of current and future generations. It protects community ownership, maintains transparency and accountability in decision-making, and preserves the ability to adapt the space as the community's needs evolve. I believe that safeguarding public land should be the priority, even if this results in more modest facilities or longer delivery timelines.

2. How often do you use the park?

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

Protecting the future of Basketball facilities is critical for the North Shore moving forward - there are numerous golf courses around Auckland and very little in the way of indoor court facilities.

4. What type of golf would you most like to see provided at the park?

None of the above

5. What other type of recreation would you most like to see provided at the park?

BMX pump track / skate park / other wheeled play, Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Outdoor sports courts (e.g. basketball, netball, pickleball), Sports fields (e.g. rugby, soccer, cricket)

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

Balanced mix allows 9 holes for golf which is enough for golf and other family members can do other activities while there if they don't play golf

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Pitch and putt golf course, Mini golf, Other, please specify: Disc golf

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Outdoor sports courts (e.g. basketball, netball, pickleball), Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks, Other, please specify: Beginner mountain bike circuit/perimeter track, nice and wide, with some banked corners, beginner jumps/mounds

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Other - please specify: Safe and fun bike riding is rare on the north shore... (set the track up to avoid cars, walkers, dogs and golf balls. Make it 1 way or wide enough for 2 way. Make it fun with some beginner jumps/mounds)

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Balanced approach, some facilities will require expensive maintenance, also higher quality courts for example allows you to play proper tournaments there. So lease the part of the land that will be used for those kind of things

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Please provide lots of car park spaces

The land is too flat for a downhill/advanced mountain bike track which is why I suggest a beginner track where you build up some beginner jumps, that way riders can gain confidence and experience before going out to a proper downhill mountain bike track.

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

We have ample golf courses on the North Shore and wider Auckland area. We are lucky to have beaches and a lake within our area as well. But we do not have a lot of green spaces we can use. To create an area where a lot of sport and recreation can be achieved at the same time would be wonderful. Close to transport/schools and Harbour bridge and at some later stage, maybe another Harbour crossing. Also important that it can be used for all ages and stages and not just those with golf clubs and golf carts.

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

I have worked at the golf course for the last 2 years. I see first hand how popular golf has become. It is a booming sport and this is one of the very few entry level, accessible courses in Auckland. There is huge demand for golf with every weekend booked full in advance and a daily wait on the driving range. Therefore the park should be providing as much golf as possible to cope with the demand. Without golf there will be a huge shortage of places for golfers to learn and play. Once the course is gone it will never come back. Continuing to provide 18 holes of golf also upholds the original land owner who gifted the land to council under the condition it would be a golf course.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), Driving range, Short-game practice area / putting green, Other, please specify: A traditional 18 hole golf course should be prioritised as much as possible. It is my understanding that wetland will only reduce flooding by 30%. Therefore it is not a solution. It becomes a trade-off. Another 100 year flood will be

damaging with or without the wetland. It is not worth sacrificing a huge community to reduce flooding risks by a negligible amount more than

None of the above

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

This land is in a unique position. It can be utilised most efficiently under private ownership. Evidence for this is how Simon Ha has transformed the course into one that can be played all year long. The team have invested hugely into improving flood drainage (to the benefit of the whole community). This was done on the assurance that their lease would be extended. It would be truly unfair to force the current leaseholders to leave with nothing to sell despite all their huge investments into improving the park for everyone.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I'd like to say that deciding who to lease to should be considered very carefully. The proposal by Golf Warehouse has been made very clear. However I feel that letting golf warehouse take over the park would be incredibly unfair to the current leaseholders holders. They have been the ones who have invested massively into the park, improving flood risk over the years for everyone. To be kicked out with nothing to sell would be very unfair. Then golf warehouse the mega brand would get to profit off those investments and consolidate their market position in NZ golf. There would need to be very good justification for letting golf warehouse operate a 9 hole over the current leaseholders after all their cooperation and who have created an accessible community. Thank you for your consideration

As the TIC of one of the top basketball schools in Auckland, our players are often playing at late times or far away venues because of the lack of court spaces. With the consistent growth of basketball in the area, more court space seems a no brainer for participation and progress of NZ basketball.

There are plenty of private golf courses in Auckland. Council should focus on services only it can provide. Eventfinda stadium is a crucial piece of sport infrastructure that needs to be protected and enhanced to maintain diversity of sport activities on the North Shore.

A well-run PPP can ensure that the private sector takes on the risks it manages best. Council should listen to the people on what facilities they want and then use a PPP model to help deliver these. It doesn't have to be a pure lease, council can still subsidise delivery of private sector infrastructure or services to keep them affordable. There are well-established approaches to this globally, including Australia.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The plans should ensure that the functionality currently provided by Eventfinda stadium continues to be provided by the new facilities in a way that better manages the flooding risk of Eventfinda stadium.

an 18-hole golf course must be kept but the potential of the area including the redevelopment of the Eventfinda Stadium, Sunnybrae Bowling Club and Shore Archery Club is a once in a generation opportunity that you cannot afford to get wrong. The park and Eventfinda stadium in particular is such an important centre of sport. There is limited options- following the floods in 2023, North Harbour basketball was a mess trying to find alternative venues for games. I would hate to see this venue removed as it would be a huge loss for youth sport of the North Shore.

Both of my children attend North Harbour gymnastics (NHG) and it is very important to our family that this facility is retained in future plans and future proofed against flooding. My son is in competitive gymnastics and goes there 4 days per week and my daughter is in a gymnastics squad and attends 2 days per week so we travel there most days from our home in Belmont. NHG has been fantastic for our children's resilience and work ethic which has transferred into school work and other aspects of their lives. We cannot imagine not being able to access these facilities in this location.

To be opened up for as many people as possible and providing a wider range of facilities including non-active recreation. And to increase, improve biodiversity for the area, support the urban ngahere - to reduce urban heat island effects and increase resilience to flooding created through extreme (and regular) weather events.

4. What type of golf would you most like to see provided at the park?

Other, please specify: I don't play golf and don't understand the spatial requirements for all the other types. I would be happy for it to be a shared - non-exclusive facility. IF there is a market for golf let the market deliver it where it is not in an area that is needed to protect homes and lives

Finding revenue generation is helpful for Council but should not prohibit access. The wetland should have public access and an educational amenity

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I appreciate the reduction of golf facilities and how it effects the golfing community but the local community and the bigger picture needs to be taken into account. Council should not subsidise golf when there is a private market that can deliver it. Council provide a wide range of amenities that golfers can use for non-golf. Because somebody 'likes' to play golf, doesn't mean it should be provided when there are other needs for the community

Tell us Why

I am of the opinion that should be kept under Council control, if there was continued provision as a golf course. In its current form, the golf course is self funding in regards to upkeep and maintenance. The other options proposed signal both increased costs across capital expenditure and operating expenditure. The other uses proposed are quite heavily available across Auckland, and locally.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

At a time where golf course demand is extremely high, the Council should be looking at the feasibility of developing new courses, and not cutting back on current facilities.

There is a high level of demand, with both public and private courses operating at very high utilisation levels, across all daylight hours, seven days per week. This is not the case with many of the other uses suggested.

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

The park's vast space shouldn't be dominated by golf, as not everyone plays the sport—leaving most residents excluded from enjoying a public resource. Instead, transform it into an inclusive community hub for all ages and interests:

Wetlands and bush walks: Enhance biodiversity, provide serene nature trails for hiking, birdwatching, and education, promoting environmental health over exclusive golf greens.

Off-leash dog parks: Safe areas for pet owners to exercise dogs, fostering social interactions and pet-friendly recreation.

Exercise zones, walking paths, and picnic areas: Open spaces for jogging, yoga, family outings, or casual strolls, encouraging physical activity and community gatherings without barriers like golf fees or restrictions.

Outdoor movie theater or stage: Host free events like film screenings, concerts, or performances, turning the park into a vibrant cultural spot accessible to everyone.

This multi-use approach maximizes public benefit, boosts accessibility, and creates a welcoming space for diverse activities rather than limiting it to a niche group of golfers.

4. What type of golf would you most like to see provided at the park?

None of the above

5. What other type of recreation would you most like to see provided at the park?

Nature play / playground, Off-leash dog exercise area, Open space / picnic area, Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Because then everyone can use the park.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Prioritizing flood protection for the surrounding suburbs should be our foremost concern, given the devastating impact that recent flooding has had on so many residents. With three other golf courses readily available nearby on the North Shore, it's simply unjust to repurpose this park exclusively for golf. Instead, it ought to be accessible to everyone in the community and primarily dedicated to safeguarding against future floods.

The proposal that has been put forward by the owner of Golf Warehouse achieves a number of objectives for a wide variety of sporting activities while maximizing a number of golfing options. It also provides thoughtful use of the land for flood resilience. Investment in this type of project by a private business would minimize Council funding while optimizing future land use for the community.

The golf course has an ongoing role as a public course but can no longer dominate the space entirely. I would like to use the space for walking and relaxation but have not been there for 50 years because it is a golf course. At this time of uncertain climate events and increasing residential intensification, there is a need for part of the park to be utilised for open space and casual recreation for all comers.

The problem of changing the use of leased land is extremely difficult as the current situation has shown. In this time of changing community needs, we need to remain flexible as community and stormwater needs can change quickly.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Dogs should be on a leash.

Prefer not to see outdoor courts or sports fields which are already provided for locally. Should be open space for free play and recreation.

After the floods in 2023, it is important to prevent floods on the area since we have a large containment space and we are able to use. At the same time, the space could be shared for different recreational uses other than just golf. It would be great to have a park on the area to walk dogs, running and cycling.

The game of golf has enormous health benefits and is a sport that continues to grow, especially amongst a younger demographic. Golf is becoming more and more expensive at private clubs, so retaining a course that is affordable and accessible is very important for health and recreational reasons.

As soon as this becomes a profit centre (ie privately leased) it has the danger of losing its affordability.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

It has served the community exceptionally well as a golf course. Why would you change it, especially if the floodwater issue can be solved by drainage. Creating a swamp will create new problems that will devalue the land. Surely floodwaters can be drained away and taken under the motorway as has been suggested. A long-term swamp has no appeal.

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Other - please specify: I hope that the North Shore will maintain its current affordable public golf courses so that residents can enjoy golf without any burden.

7. Which Park lease approach would you prefer?

Other

Tell us Why

I hope the city will continue to manage the land as it is now, operating it as a public golf course so that residents can use it. If private developers are allowed to develop it, the usage fees will go up, which will increase the burden on residents, so I think it's best to keep things the way they are now.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I think it is most reasonable and desirable to maintain the public golf course and practice range as they are now so that local residents can play golf without feeling burdened.

A balanced mix of golf and other recreation uses

Tell us Why

This golf course has been a fundamental part of my upbringing, and I now get the chance to take my own kids around the course. There are few other courses in the suburban area which offer what Takapuna does. I appreciate the need to accommodate a flood area, but would like to see the balance of the land maximised for the greatest number of users. I think the Golf Warehouse proposal looks fantastic and I'd like to see this come to life. I see it as a balanced offering that will serve the greatest number of users.

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Nature - protecting or enhancing the natural environment for people and wildlife, Organised recreation - space for organised sport or clubs, Other - please specify: Maximising the number of users on the land at any point in time. ie intensification of offering (that's why I like the Golf Warehouse concept which can have hundreds of users onsite at any time)

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

The lease can include the outcomes the Council want/need whilst putting the onus on the operator to deliver to meet the terms of their lease. It's a win-win

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I'd like to see the park remain golf-centric. Golf is an inclusive sport for people of all ages. I now play with my 2.5year old, my pregnant wife, 4-8 year old neices/nephews, and my parents (70 years+). I would hate to see this park change and for my kids, and the wider community to not have the same access to these experiences in the future.

There is limited access to affordable golf courses in the region.

It is rare to find a location that is peaceful and not hectic - which means it is one of those venues that a person can truly relax/refresh and rejuvenate for the heavy days ahead. In this mad time in which we live - it is not possible to put a price on what this means.

'Mostly Golf' will achieve the above concept.

Your feedback

1. How do you or your household currently use the park?

Play golf at the golf course, Use the golf driving range

2. How often do you use the park?

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

Great course, one of the few in Auckland that is public and accessible to all. One of the few that are great for learners. Would be a loss for this city if the golf course were not here

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), Driving range

5. What other type of recreation would you most like to see provided at the park?

None of the above

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Organised recreation - space for organised sport or clubs

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

What ever approach will keep the golf course

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The golf course must stay

The land use is appropriate for an area that is liable to flooding during extreme rain fall

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par)

5. What other type of recreation would you most like to see provided at the park?

Off-leash dog exercise area, Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Connectivity - walking and cycling connections through the park that link with the wider community, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Commercial use will inherently pursue different interests than the community

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

An open overflow draining channel into Waitemata harbour with flood gates should cater for extreme weather events to avoid flooding beyond the current golf course area

There are thousands and thousands of basketball players across the region and it's been not d as the single fastest growing sport in New Zealand. Eventfinda stadium is at risk as it is and we cannot compete across Auckland with the likes of Baypark Arena in Mt Maunganui to host major regional and national tournaments. If Auckland is to truely be a world class city and lead New Zealand, we need to take this opportunity to truely look at what serves the majority.... Golf is not that.

Council has shown they cannot properly own and operate world class facilities. Retain control over essential services and let experts take the reins. But do so in a way that protects costs and overheads so community sports do not get priced out

Golf is single-handedly the largest waste of space when there are under-served major youth and community (not to mention high performing) sports that need better resources.

Golf Warehouse steps forward with Takapuna golf course solution

Channel Mag's Aidan Bennett chats to Dane and Eric Faesen Kloet about their \$20m proposal

By Aidan Bennett

A \$20 million proposal from locally owned and operated business, Golf Warehouse, looks set to provide a win-win for the community in relation to the future of the Takapuna golf course, located on the A F Thomas Park site adjacent to the northern motorway.

The proposal represents two years' work by the Faesen Kloet family, owners of the Golf Warehouse, New Zealand's premier golf retailer and operator. They have over 30 years of expertise and 15 sites nationwide – including four automated driving ranges, two nine-hole golf courses, mini-golf facilities, and a unique

adventure tourism golf hole. The business serves over 25,000 golfers weekly, totalling 1.3 million annual visits. Golf Warehouse operates New Zealand's largest golf membership and runs high-volume, low-cost practise facilities in Auckland, Wellington and Christchurch. Being the New Zealand distributor for many of golf's biggest brands allows Golf Warehouse access to new technology and trends.

The A F Thomas Park site – which includes the Takapuna public golf course – has a long history of both golf and flooding. Originally a low-lying flood plain and wetland, it was first converted into a golf

course in 1912. In the late 1950s, when the motorway was built, the North Shore Golf Club was bought out by the North Shore City Council and relocated to Albany. Since this time, the park has remained as council-owned recreation land with various leases for golf and other recreation facilities. A fragment of the historic wetland remained in the north-east corner of the site until the 1970s, when it was incrementally drained and filled over time. There is currently a small constructed wetland in this area, and the historic wetland extent is regularly inundated during rain events.

"We are very proud to provide our proposal and a very workable solution that represents two years of work by our family and members of our Golf Warehouse team. Of course, to realise our vision thorough site investigations still need to be undertaken to establish its viability," said development manager Dane Faesen Kloet, when I met with him and his father, Eric, to discuss their proposal during October. "Our proposal allows for the redevelopment of A F Thomas Park alongside Healthy Waters' new permanent wetland that forms part of a master plan to manage flooding in the Wairau Valley and Milford areas.

"We will work with Auckland Council and Healthy Waters to establish a world-class golfing and sporting facility, while allowing the very important flood prevention plan to be implemented. That plan will save lives, homes and businesses in the future."

"Our proposal involves creating a truly modern mix of golf facilities for golfers of all ages and abilities," adds Eric, the chairman and founder of the Golf Warehouse. "Should our proposal gain the support of the community and the Kaipātiki Local Board, we will then work with

Auckland Council and Healthy Waters to establish a world-class golfing and sporting facility, while allowing the very important flood prevention plan to be implemented. That plan will save lives, homes and businesses in the future."

The Faesen Kloets say that as part of reimagining the possibilities of A F Thomas Park, their plan looks beyond a strictly golf-focused lens and includes accommodating a range of activities on the site. Their proposal includes an investment of \$20 million in developing a totally new 'inland links-type' nine-hole community golf course; the addition of another nine-hole par three family-friendly and floodlit golf course; a new modern-style mini golf course; a new XXL putting green; a brand new 100-bay automated and high tech golf driving range – double the size of the existing 48-bay range. A new architecturally

designed clubhouse will be built, featuring hospitality and golf retail. Also included is a golf training and talent development facility, along with space for Golf New Zealand – the national body, which has expressed an interest in having a base there.

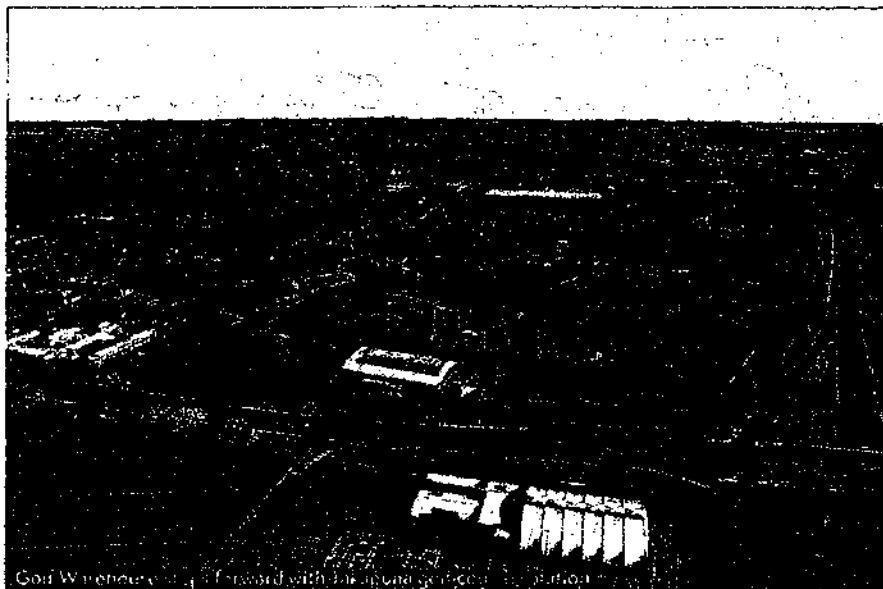

Additionally, the Golf Warehouse proposal also allows for many other activities to be on the A F Thomas Park site. Eventfinda Stadium – which was badly flooded in the January floods of 2023 – would be replaced with a new stadium on a specially raised platform site. There's a site for Auckland's first pickleball-specific indoor facility (12 courts). There is also a space for a new pump track for the youngsters. The site will continue to include the Shore Archery Club and Sunnybrae Bowling Club.

This proposal will see A F Thomas Park become a multi-sport, community-focused, and environmentally sustainable hub. Nearly

29 hectares will be allocated for recreation, resilience, and community benefit following extensive earthworks that will reshape the park's landscape. Nearly 15 hectares (one-third of the site) will be used by Healthy Waters for permanent wetland flood storage.

"This proposal ticks many boxes and will provide huge benefits for the community. Our vision unites flood resilience, world-class facilities, and inclusive community spaces."

The Healthy Waters project involves 600,000m³ of earthworks, raising ground levels by up to 10 metres on the existing golf course and removing most non-perimeter trees, creating a unique opportunity to redesign and reshape the park.

"The plan we have put forward to council involved two years of consultation with stakeholders – including Eventfinda Stadium, North Harbour Basketball, North Harbour Gymnastics, Golf New Zealand, Pickleball North Harbour, Awataha Marae, The Nineteenth Group and Healthy Waters," explains Dane.

"This proposal ticks many boxes and will provide huge benefits for the community. Our vision unites flood resilience, world-class facilities, and inclusive community spaces. At the same time, it addresses some of North Shore's evolving recreational and environmental needs."

Golf Warehouse estimates the golf components – including a nine-hole course, par-three course, driving range, mini golf, clubhouse, Golf New Zealand base, and practice green – will cost approximately \$20 million. This will be fully funded by Golf Warehouse, with no public funds needed for the development of these golf facilities. The wider precinct development, which includes the Eventfinda Stadium redevelopment, pickleball facility, pump track, and additional parking, would be funded separately.

Eric explains that Golf Warehouse is seeking a 30-year lease with annual CPI adjustments to ensure a viable payback on their investment.

"We are proposing to lease about 60% of the current tenants' area. We guarantee higher rental returns to Auckland council, maximising value through efficient land use."

"For us, offering to make this major investment that will benefit the community goes beyond business," adds Eric. "The North Shore is our home patch. We love it. As a family, we are keen to play our part in helping the community find an upside to these 'golf versus the flooding' problems. Being New Zealand's premier golf retailer and practice facility operator means we are in a position to play a part in providing a solution that we believe is a win-win. We are committed to a legacy that balances sport, nature and community – a park Auckland will cherish for generations. If the public is behind this proposal we will certainly make it happen!"

Have your say on the future recreational use of AF Thomas Park: The Kaipātiki Local Board's public consultation is open for submissions until 23 November 2025.

THE PROPOSAL AT A GLANCE

This proposal transforms AF Thomas Park into a world-class, inclusive, and sustainable recreation hub. Replacing an outdated facility, it delivers:

HIGHLIGHTS

- New nine-hole golf course in an 'old-fashioned links' style
- New nine-hole par-three 'floodlit' 'contemporary' short course
- New 100m-long floodlit golf driving range (high to 11, 250m long with high nets)
- 18-hole floodlit mini golf course – modern version that replicates a real course
- New multi-purpose community clubhouse with established hospitality provider
- HQ for Golf New Zealand for its entry-level participation and talent development programme
- New XXL practice putting green
- 6,000m² (approx) of additional car parking capacity
- Land on a raised building platform allocated to Eventfinda Stadium for future expansion
- Land allocated for Pickleball North Harbour to construct a purpose-built 12-court indoor facility
- Land allocated for a new pump track – for bikes, scooters and skateboards

ENVIRONMENTAL OUTCOMES

- Flood resilience and environmental restoration through wetlands and native planting
- Private funding and higher council returns ensuring no public cost
- Enhance stormwater management with detention and integrated ponds
- Partner with Pest Free Kaipātiki for smart-trap pest control (stoats, rats, possums)
- Extensive regenerating native planting to boost biodiversity

Your feedback

1. How do you or your household currently use the park?

I don't use the park

2. How often do you use the park?

I don't use the park

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

Golfers probably still want some use but it would be nice to have other options open to the public

4. What type of golf would you most like to see provided at the park?

Driving range

5. What other type of recreation would you most like to see provided at the park?

Archery, Nature play / playground, Open space / picnic area, Outdoor sports courts (e.g. basketball, netball, pickleball), Sports fields (e.g. rugby, soccer, cricket)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Unsure

The new plan was obviously a council grab of land to use. The wetland and stormwater could easily be incorporated into the area WITHOUT removing the golf course. The planners had an objective in mind, which did NOT include keeping the golf course. You need to get unbiased, competent people to look at this.

The Takapuna Golf Course is one of only 2 public courses remaining in Auckland. It is an essential local and national asset and should remain as the prime use as a golf course with limited rain water retention. Drainage of the area is essential but relies also on the surrounding creeks, drains etc to be kept clear and developed as necessary.

No development by private developer or users - reconfigure to make it both a storm water retention area and a Golf course - if it floods don't use it - it's a 1 in 200 year event - in 40 years living in Auckland the January 2023 event only happened once and the course could have dealt with the overflow

Your feedback

1. How do you or your household currently use the park?

Play golf at the golf course, Use the golf driving range, Play sport at Eventfinda Stadium, Attend events at Eventfinda Stadium

2. How often do you use the park?

Once or twice a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

Currently facilities are affordable and cater to all age groups. If you remove golf, this will limit access to many due to cost, travel and availability at other courses. The facilities are also great for school sports and conveniently located.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), Driving range, Short-game practice area / putting green

5. What other type of recreation would you most like to see provided at the park?

Archery, Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Outdoor sports courts (e.g. basketball, netball, pickleball), Space to hold events (e.g. community markets, festivals or concerts), Sports fields (e.g. rugby, soccer, cricket)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural environment for people and wildlife, Organised recreation - space for organised sport or clubs, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Balance to ensure good mix of facilities that are affordable and kept well maintained

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Living in Nile Road and experiencing the horrific flood waters of 2023 there needs to be change. It makes sense that a storm water system that was developed in the 1960s using concrete based on the US model is clearly in need of a change. I fully support the use of the golf course as a wet land - returning it to what historically - it was

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par)

5. What other type of recreation would you most like to see provided at the park?

Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Heritage - highlighting local Māori culture, Nature - protecting or enhancing the

natural environment for people and wildlife, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Keep all land under Council control

The main area of Thomas Park has always been a golf course. It was the original sight of The North Shore Golf Club. In the main now servicing people who are unable to afford to pay for other golf club fees in Auckland.. The Takapuna Golf Club have a huge amount of participation winter and summer involving young and old with recreation and fellowship.

Part of the answer for water retention might simply be to dig the hole deeper instead of wide and shallow.

Golf only as it is currently enjoyed. We need this 18 hole golf course with other nearby golf clubs having long waiting lists for those who want to join. Also we need competitive priced golf. If other operators take charge, you can guarantee prices will increase. Take the driving for instance. This range is cheaper than Fred Thomas. Where will the prices go if Fred Thomas driving range takes over. Finally, the proposed wetlands will not change anything if we experience the same type of storm we had in January 2023. Common sense is need here!

Council must retain ownership and continue the lease to the golf club operator who continue with competitive pricing. The current operator is proven, why change?

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

DO NOT CONTINUE WITH THE FOOLISH NOTION OF CREATING WETLAND THAT WILL NOT WORK! ALL IT WILL DO IS RESTRICT THE AVAILABILITY TO PLAY GOLF ON THE SHORE ESPECIALLY WITH LONG WAITING LISTS AT OTHER CLUBS.

Because it's a very well used and well loved golf course and it should stay that way. If extra flood capacity is needed, please refer to the Takapuna Golf Course proposal which turns part of the golf course into a dry basin. Many facilities around on the north shore for people to walk or take part in other recreation. However there is NO other facility on the north shore to easily partake in golf unless you are a paid up member of a golf club (which is unaffordable for most of us). 8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I am a long-time member and current player at Takapuna District Cricket Club. Although it does not seem to be a formal part of this consultation, the future of the playing facilities at TDCC is also uncertain due to upcoming council leases, and the grounds themselves are sub-standard due to drainage issues, proximity to Smiths Bush and limited size. I believe there is opportunity to relocate TDCC in the medium term to AF Thomas Park, as part of which making use of multi-functional community oriented clubrooms rather than the current dedicated poor quality one

Golf courses particularly in Auckland almost all at full membership. This is particularly true of courses near Takapuna which have extensive waiting lists for membership. Tee bookings for members let alone non-members are very hard to get. This points to the growth of golf participation particularly amongst less traditional demographics such as women. Having a dedicated 18-hole public course is vital to allow access to the game which in my view cannot be served to the same extent as a smaller course and supporting facilities. I am entirely unconvinced that other recreational uses will result in the level of utilization provided by the golf course. At any one point there are upwards of 100 people playing golf on a full course. During COVID with courses closed, but recreational use soaring due to lockdown and distancing, my local course was available purely for recreational non-golf purposes but seldom would have had more than 20 people on it at maximum. Golf is a maximum use recreation pursuit for the area.

4. What type of golf would you most like to see provided at the park?

5. What other type of recreation would you most like to see provided at the park?

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Organised recreation - space for organised sport or clubs, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

Leasing all the land to commercial operators, even at a nominal rate, is a provided model across Auckland that results in a viable sports club with the grounds maintained to a significantly higher standard of care than direct council supported facilities. This can be done in a way which still preserves other public use in a shared space model. For example, this is done effectively with a high level of local public buy in and support at Waitemata Golf Club.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Please keep this as a dedicated 18 hole golf course, which should be possible with flood mitigation and even allowing some other recreation uses.

Golf for golfers who cannot join a club for various reasons, must be catered for by the council. Spaces for casual players at club courses are limited and the clubs would not be able to cater for the casual players if there were no public courses available. My club restricts the number of times you can book per week as it is. Due to the subscriptions paid for by the club golfer, you cannot expect the club golfer to give up times he can book, to allow casual golfers to play.

4. What type of golf would you most like to see provided at the park?

I believe that the golf course can be run by the present company once the course has been set up like it is now. Also, I believe that there are other sports that have facilities on the park and the land they use could also be leased to them.

There are very limited facilities in Auckland that are affordable for many members of the public who like or would like the opportunity to play golf. There is increased interest in golf as a sport since covid and it is a great sport for a wide range of age groups to play, providing physical and mental health benefits through exercise and socialisation etc. Losing Takapuna as an accessible golf facility to the public would be a huge loss to the Auckland community.

4. What type of golf would you most like to see provided at the park?

The golf course forms part of areas history. I have worked there as a student and enjoyed many rounds of golf there when I was younger. As a result of the enjoyment from playing there I have joined Helensville Golf course. I think it would be a shame for others to not have that same opportunity to enjoy playing golf with friends no matter their skill level.

It is an important part of North Shore. It should be kept for use be community similar to current usage.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I would say two things:

Are the current flood mitigation assets currently providing maximum mitigation or have they not yet been fully repaired or recommissioned. Is Sunnynook Park fully utilised.

We in all liklihood will never see another rain event like Auckland floods. Before we carve up this wonderful facility lets make sure that we need to.

I know flood measures are important, but also think how keeping people active and healthy is also important for all ages. I can see a lot of old people use the golf club, this keeps them healthy. Without the golf, old people become lonely and this leads to feeling sick and need more medical attention. This will add more pressure on the already crowded health system in Auckland and cost the government more.

Options to play golf at affordable prices for people learning to play are very limited and Takapuna Golf course and driving range is a very important golfing facility. Since Covid golf has become very popular but belonging to a private golf club is very expensive and when you are just learning can be very daunting. The Takapuna Golf club and driving range provides a wonderful opportunity for all ages of the public to learn and experience a great healthy outdoor sporting experience, helping with general fitness and mental wellbeing. It is a valuable asset for the wider community.

2. How often do you use the park?

Less than once a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

There are an abundance of golf facilities in Auckland and the north shore specifically

Golf has a high barrier to entry and is exclusive

Golf takes up a lot of space

Golf courses are a poor use of public land, do not help with drainage when wet and use inordinate amounts of water when dry

4. What type of golf would you most like to see provided at the park?

None of the above

5. What other type of recreation would you most like to see provided at the park?

Very frustrating dealing with Council. They do not look after parks well. But don't want others to have total control as they put limits on the land, eg access. Can also be a huge burden to land users if they are not a corporate business in terms of funds to maintain.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I think the golf course works well as mentioned previously, there are not enough public courses in Auckland. Council can find a better way to sort water flow. Panic after the floods because Council did not maintain current water management areas well BEFORE the floods. And how are they going to maintain a wetland when they don't maintain other parks and green areas well. Across the road at the netball courts. Only clean out drains when prompted and carpark always floods as trees dump leaves and clog drains. Council never have a regular maintenance schedule. Wetland will become a rubbish dump and will cost millions to maintain.

This decision should not be just about solving a problem developers and the council have created in building near streams. This decision is not about the now but how we need to think about the open space Auckland will need in 50 years with access to open spaces to cope with increasing property density ensuring quality sports opportunities for all. These should be front of mind, When you take these away they will never come back and yet again another sports facility is lost. Also, what is the metric of accessible sports and recreation (outside beaches) on the north shore visavis central Auckland south. These all need to be considered to maintain a vibrant city.

It's important to have a golf facility that is affordable and convenient for encouraging a wide range of people to learn to play - from children through to older people - casual golf locations like Takapuna are rare in a large city. It's inclusive where a private golf course is for more committed members.

Having a walking, running, cycling track around the perimeter would encourage locals and non golfers to use the facility too.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 12-hole beginner/intermediate golf course (approx. 36-40 par), 9-hole traditional golf course (35-36 par), Pitch and putt golf course

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Lawn bowls, Outdoor sports courts (e.g. basketball, netball, pickleball), Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural environment for people and wildlife, Organised recreation - space for organised sport or clubs

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

It's important to get the flooding problem solved which is expensive for council and rate payers but also important to get the facilities up and running as quickly as possible and to a good standard - hence leasing to commercial operators is the most logical choice

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Having read the proposal that The Golf Warehouse has created seems to be a great opportunity to involve a commercial operator to become involved in developing the whole area for the whole community to use!

Golf is inaccessible to many in Auckland due to cost and lack of capacity at all but 2 courses.

There are only 2 true public courses in Auckland.

Wetlands, whilst a good idea in principle are typically not maintained well and end up full of litter and other detritus. They often end up smelly unsightly bogs in cities. The existing areas around Link drive are a good example of this albeit on a small scale.

If small scale wet areas can't be maintained, what hope is there for much larger areas.

Walkers and runners and cyclists are well catered for in Auckland already, but the same can't be said for a multitude of other sports including Golf and Basketball two of the most played sports in NZ. Reducing capacity of these facilities in the NZ's largest city is braindead.

The root cause of excess stormwater should be addressed. Impermeable space in the Wairau area and surrounding suburbs is being continuously reduced. Huge carparks and warehouses

couples with higher density housing developments increase the load on the already inadequate stormwater infrastructure.

Resource consent for these developments clearly does not consider the impact on stormwater catchment and dispersion properly.

Large businesses and facilities such as the hospitals have huge impermeable areas and little to zero stormwater management or retention.

Increasing the wetland is nothing but a possible temporary fix. As housing density increases and commercial development continues to increase its footprint more and more stormwater will be channelled into the failing system. A giant litter filled bog will eventually fail and we will be back to square one and millions lighter in the pocket.

Make big businesses (many off shore owned) more accountable. Make housing developers more accountable.

Do not reduce options for Aucklanders to get out and get active or we will need even bigger hospitals putting even more load on stormwater infrastructure, let alone healthcare which is also failing in NZ.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Pitch and putt golf course, Driving range, Short-game practice area / putting green

5. What other type of recreation would you most like to see provided at the park?

Archery, BMX pump track / skate park / other wheeled play, Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Outdoor sports courts (e.g. basketball, netball, pickleball), Space to hold events (e.g. community markets, festivals or concerts)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Heritage - highlighting local Māori culture, Resilience - supporting flood protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

The council can't fund anything properly as things stand.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The Golf Warehouse concept should be seriously considered. It is a no brainer.

Golf is a hugely popular sport across NZ - public golf courses are in the minority yet probably have the greatest golf foot traffic, compared to the other local golf clubs on the North Shore. I and many others grew up learning to play golf on this course - we continue to do so - to take it away or even diminish it would be a travesty - do you have an alternative, golf facility, for all the people that you are going to affect by doing this. This course is used every day - it's not like it sits empty. Common sense needs to prevail.

There are only 2 major public golf courses in the Auckland area - you could double that, and they would still be busy - don't make the mistake of halving it. Golf is a sport like any other sport - I don't see rugby or cricket grounds being converted to "parks" so why this - there was a proposal to retain 18 holes and have a flood area - re-consider this!!

It is one of the few public golf courses for people who do not have the funds to join a golf club at average \$1000+ a year. NZ has a great history of golf and you are taking away the one way normal people can experience it and leaving it as the domain of the wealthy. You're taking away a facility that is well used and loved because of the Auckland Councils lack of management in allowing development without the infrastructure being put in place beforehand. Punishing normal people for the mistakes of incompetent officials. It's very sad.

4. What type of golf would you most like to see provided at the park?

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Multiple interest holders will limit the ability to use the land. Dividing it up for multiple activities reduces the ability to provide a well structured golf course. There are plenty of other areas hosting the other suggested activities, but only one public golf course.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

My son and husband do play golf but as an activity, it is out of reach for many New Zealanders and to have so much precious recreational land tied up by something that only few can enjoy does not seem right. The area is crying out for more things for our young people to do and places to safely run and walk.

4. What type of golf would you most like to see provided at the park?

There is a long history of golf here, I learnt to play here back in the early 90's and I am playing here again now after a 20 year hiatus due to family commitments. As a female golfer there are not many places in Auckland where you feel comfortable to learn to play. It is considered an 'easy' course but that is what also makes it an approachable course that doesn't scare you off. We have a regular round of 9 holes of golf tee every week with up to 12 women. We all wouldn't play if we had to play somewhere else. The other courses are either too hilly, too difficult, or too booked up...

Tell us Why

As a highly used public golf-course with traditional perspectives, it is not convincing that providing other alternatives, or increasing private business opportunities, is better for the local community. As per today, it is highly likely the area will be dry most of the time, unless there is cynical engineering to install a permanent wet area: why would a project, ostensibly to improve drainage, install a lake?

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 9-hole traditional golf course (35-36 par), Other, please specify: Golf with NO additional private enterprise, or nonsense like pickle-ball.

5. What other type of recreation would you most like to see provided at the park?

Walking / cycling tracks, Other, please specify: GOLF!!!

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Nature - protecting or enhancing the natural environment for people and wildlife, Other - please specify: Protecting our open spaces from Council incompetence and idiocy

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

Even though the council is incompetent, giving rights to commercial operators effectively privatises the assets. The proposed equation is that the public loses a 18 hole golf course to profits for private enterprise, with a high probability the overall solution won't work anyway. Surely a big drain to the ocean alongside the motorway makes more sense. That's as far down as water can flow, wetland or not.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The green, open space is valuable: we do NOT NEED additional commercially operated fields or buildings or courts or markets or similar.

Every day or most days

3. What mix of recreation uses would you like the park to provide once redeveloped?

Other

Tell us Why

I support a recreation mix that prioritises community use over traditional golf, given the reduced land area and the need to maximise the wetland and stormwater benefits. The biggest value for local residents comes from creating a resilient, multi-use space with walking paths, open green areas, family-friendly play zones, and low-impact leisure activities. These types of uses are accessible to a far wider range of people than golf and make the park feel welcoming and well-integrated into the neighbourhood.

Limited or small-scale golf features (such as a short practice area or putting greens) could still be included if they don't compromise the wetland function or the usability of the park. But the priority should be recreation that supports everyday community life, encourages active travel, and increases the park's contribution to flood mitigation — all of which directly improve the wellbeing and long-term safety of the surrounding suburbs.

4. What type of golf would you most like to see provided at the park?

Short-game practice area / putting green, Mini golf, Other, please specify: Smaller-scale golf options (pitch and putt, practice area, mini golf) provide recreational value without occupying

excessive space. They are more family-friendly, accessible for beginners, and compatible with the park's future stormwater and wetland constraints.

5. What other type of recreation would you most like to see provided at the park?

Nature play / playground, Off-leash dog exercise area, Walking / cycling tracks, Other, please specify: I prioritised recreation options that benefit a wide range of residents: playgrounds for families, dog exercise areas, walking/cycling tracks, and open space for relaxation. These options provide the greatest community value and encourage everyday use, not just occasional use by specific groups.

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Connectivity - walking and cycling connections through the park that link with the wider community, Nature - protecting or enhancing the natural environment for people and wildlife, Resilience - supporting flood protection and climate adaptation, Other - please specify: My family and I value affordability, strong walking and cycling connections, and protecting the natural environment. Open space and resilience are also essential, especially considering climate change and increased rainfall events. These choices support a park that is accessible, future-proof, and improves wellbeing for current and future residents.

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

A mixed approach balances community needs with financial reality. Council-controlled areas ensure open access and affordability, while leasing limited areas to reputable operators could help deliver higher-quality facilities without relying fully on ratepayer funding. This approach keeps the park flexible, accessible, and financially sustainable

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

AF Thomas Park has the potential to become a major recreational asset for the Milford and North Shore community. Future development should prioritise inclusiveness, everyday usability, nature protection, and safe walking/cycling links. Smaller-scale golf facilities are acceptable, but the focus should be on activities that serve the widest group of people. Keeping the park affordable and accessible is essential. A well-designed park will enhance community wellbeing and support long-term property and neighbourhood value.

I don't use the park

2. How often do you use the park?

I don't use the park

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

We have avoided the park due to the golf usage. I believe a conversion to a mixed use recreational park will attract more use and provide amenities to more Aucklanders. I could see the space used for outdoor events / shows etc as well. Large open green spaces are a luxury which should not be reserved solely for the few golf players. They have access to a lot of paid clubs and since a full game can take hours they should be more inclined to travel for it. A mixed use park will accommodate more people and diversity.

(If golf wasn't so inherently dangerous I would be fine with it as the main activity, but currently you cannot and wouldn't take a family or go for a wander through a golf game!)

Lastly with future plans for Auckland to intensify housing with high-density near main transport hubs. Outdoor open public spaces will be essential for Auckland's future and to stay as a desirable location.

4. What type of golf would you most like to see provided at the park?

Driving range, Short-game practice area / putting green, Mini golf, Other, please specify: I would favour high intensity golf functions, mini golf etc. a driving range could also be designed to utilise part of the space in a contained manner.

5. What other type of recreation would you most like to see provided at the park?

Nature play / playground, Open space / picnic area, Outdoor sports courts (e.g. basketball, netball, pickleball), Space to hold events (e.g. community markets, festivals or concerts), Other, please specify: Archery can be conducted in controlled ways where the space can be mixed use when the range is not being used.

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Without knowing the economics behind it all, some leased spaces could allow for higher quality spaces, courts, clubs etc. They would need to control to ensure they give back and provide amenities to the area.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I think it is critical the land be maintained as a green space. Great urban design and city planning relies on accessible green space. Once an area is lost it's impossible to get back. We need to ensure we provide green spaces and natural amenities for future generations. This is even more critical with sustainable intensification. The Northshore homes in 30+ years will not have the luxury of the grassed kiwi backyard!

Golf takes up a lot of land, it creates a natural dessert to wildlife and plants. We should be utilising the space to better serve the larger community, not the "precious" few. Leasing some land would allow for more immediate development of community options, but this needs to prioritise diversity in use. I am bordering on the choice of keep all land under Council control, as that means community ownership and less commercial activity = the latter does not fit that well with green open space.

Your feedback

1. How do you or your household currently use the park?

I don't use the park

2. How often do you use the park?

I don't use the park

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

The park is an important public facility but obviously to alleviate stormwater issues the park will have to be repurposed.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range, Short-game practice area / putting green, Mini golf

5. What other type of recreation would you most like to see provided at the park?

Archery, Nature play / playground, Space to hold events (e.g. community markets, festivals or concerts), Sports fields (e.g. rugby, soccer, cricket), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse range of experiences the whole community can

enjoy, Open space - space for free play and relaxation, Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

An independent operator could deliver a quality facility with no funding requirements from council / ratepayers.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

No Comment.

We could thin of the opportunity to reconsider the use of the park as a positive resulting from the devastating flood events. An opportunity that we might not have had, at least in the short to medium term, were it not for the floods.

There is an undeniable desire for golf to be part of the solution, but given the reducing green space per capita, I think the park should be developed to appeal to a more diverse group of people than just golf players. Sure, they might prefer an 18 hole course, but there is a whole other group of people that would actually prefer 9 holes, or a more sophisticated driving range, or mini golf and so on.

Private operators have the investment and will probably produce and operate a better product. Council should focus on Council priorities, not running recreational businesses. Private operators need to be charged a market lease cost, not a peppercorn rent.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Critical that the North Shore Events centre is retained a flood protected. There is a huge number of children visiting this venue every week and that is not something we should put at risk.

There is not a big enough facility to accommodate the basketball and gymnastics childrens interests. We have to travel a lot in peak traffic to get our children to these activities sometimes travelling an hour or more each direction if at other venues which

Often happens when eventfinda cant facilitate all the games. Some older primary students are playong very late in the evenings so they can fit all games in. This

Negatively affects their school day the next day.

A facility that provides swimming would also be ideal. There are never enough slots at the takapuna

Pools to Accomodate the number of kids learning to swim. The lanes are always packed and it is a very small and outdated facility with limited parking.

The demand for a full 18 hole golf course available to the general public (both members and non members of affiliated golf clubs) is very strong. Other activities (Bowls, archery, Eventfinda) already cater for other activities. I do not believe a wetland in itself will be an attractive well visited amenity. The alternative proposal of redirecting stormwater via new culvert out to the bottom of Esmonde Rd should be given greater consideration.

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

Agree that a commercial enterprise should manage the course and other golfing facilities. Council needs to focus on storm water from source (upper Glenfield basin) to removal via Esmonde Rd upper harbour. Improvement to the capacity of the existing lower Milford Wairau stream would also be beneficial. There is a high concentration of commercial buildings feeding stormwater into the lower Wairau valley. Holding tanks on commercial properties would provide a temporary holding storage to mitigate flooding. My experience of a wetland in Shore Rd/Portland Rd, Remuera is that they become non draining silted smelly unpleasant cess ponds. This particular area has had major drainage , landscaping work recently to provide better flow of stormwater from the Portland Rd valley. Man made wetlands do not provide a total solution.

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

It's a much loved and used public golf course and as the north shore has few amenities it would be terrible to dismantle it.

The Council could have purchased Smales Farm and given the north shore a decent sized park but they didn't. Council keeps selling off our assets rather than adding to them and as the north shore grows and becomes more densely populated we need a large park, such as Cornwall Park, but not on this golf course.

I'm sure the golf course can be redesigned to include the wetland land.

If walking parks etc are required on the shore Council can purchase the land for any activities which to me is obvious. An increase in population requires an increase in sports and activities, not a decrease!!

After all, more properties, more rate payers, more revenue.

Something like Centennial Park in Sydney or Cornwall Park where people can walk, run, use pushchairs, skate etc, the pathway to be as wide as a road for all users.

The north shores town planning needs sorting!!

4. What type of golf would you most like to see provided at the park?

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

As per previous comment I recommend the Council buy additional land to increase the size of the land enabling both existing golf course and wetland.

Can the golf course redesign be done so that if there is a flood the waters go onto the golf course? Then the golf course would only be out of use when there is bad weather. And once the water subsides the golf course is back in use.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

1. Keep the golf course.
2. Redesign the Wairau stormwater to the golf course
3. Redesign the golf course so it can take the water if there's a flood/storm
4. If there isn't enough land then buy properties abutting the golf course to increase it.

1. How do you or your household currently use the park?

Play golf at the golf course, Attend events at Eventfinda Stadium

2. How often do you use the park?

Once or twice a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

As a public course it provides an affordable facility for North Shore golfers who struggle to find \$1500 - \$2000 for membership in other clubs.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par)

5. What other type of recreation would you most like to see provided at the park?

Off-leash dog exercise area, Open space / picnic area, Space to hold events (e.g. community markets, festivals or concerts)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural environment for people and wildlife, Resilience - supporting

flood protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

I don't like monopolistic interest in ANYTHING

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

Simon Ha at TGC has shown how successful a single operator can be for Golf and the Community. Why change such a model. Income assured, no maintenance cost, affordable for the ordinary person and profit put back into the facility

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Emotional attachment really, I use the golf course, as does my husband, both my sons play there, my father played there (RIP), and now my grandchildren. A sense of history, priceless memories

A public golf course is an important asset in any suburban area. Golf is a very popular pastime for many people with various health, social and wellness benefits.

It would be a travesty to lose this facility. I believe that alternative ways are possible to mitigate flood damage and retain the 18 hole golf course. We don't need other recreation options on this site. They are available in many other locations.

The council should fully investigate the other flood mitigation options available. Leave the golf course alone.

Flood mitigation must be a priority This can be done with mixed use and golfers who specifically want an eighteen-hole course have other options quite close by. It is good to have an affordable public course but does not have to be eighteen holes.

4. What type of golf would you most like to see provided at the park?

I think if you do council or commercial land, you really need to lock in and keep it focused on what it should be, then let the funding show up to the table, private or otherwise. There should be stipulations to any deal that keep it focused on golf, sports, and a recreational area for the community. Not housing developments or a supermarket.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

It could really set the stage for what a community area could be, if done properly. I like to walk and bike, and play golf. It should be an area for all kinds of people to enjoy, everyone should have a space.

1. How do you or your household currently use the park?

Walk / run in or around the park, Play golf at the golf course, Use the golf driving range, Use the archery club

2. How often do you use the park?

Once or twice a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

One of the most accessible golf facilities in Auckland. As a country passionate about golf, fast growing in subscriptions and rounds played (Reference GOLFNZ STATS) this is a critical golf location. Golf is an approachable sport that is great for all ages and abilities - Social and competitive. Takapuna is where I learned to play and practice still - and so do my friends who are learning. Its a safe place and if not there the cost of golf due to under supply and increasing demand will increase across Auckland. I wouldn't be engaged with the sport without Takapuna Golf facilities and I love the idea of a redevelopment into more of a learning/practice course

I think its too soft and fluffy to imagine everyone can get what they want here. It is currently busy as can be and its all golf! Keep it mostly golf! Eskdale is amazing for dogs and walking etc. We have beaches and parks nearby..

As much as its very commercial - I would love to see the Golf Warehouse proposal come to fruition as it would ultimately offer the best outcome

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par),Driving range,Short-game practice area / putting green,Indoor golf simulators

5. What other type of recreation would you most like to see provided at the park?

None of the above

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Equity/Inclusion - a diverse range of experiences the whole community can enjoy,Organised recreation - space for organised sport or clubs,Resilience - supporting flood protection and climate adaptation,Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

I think the commercial side should be limited.. Its a slippery slope. But ultimately the council have no chance managing a good golf club so let an operator like GW do it

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

No - thank you.

With more dwellings expected for Milford & busway stations there is a need for more open space and recreation areas - there is a particular need for a replacement for Eventfinda Stadium which will still be in flood zone unless there is a solution. I feel strongly that council is doing the right thing, people and homes come first. But I also understand that it is hard on the golf community and the people who have worked hard to make it a great public course. So I believe it is fair to do both if possible, create a wetland as necessary and use whatever is available for golf, a small course is fine.

Green space and affordable recreation activity close to a large population area. Without this there are few other options to enjoy green outdoor activities on the North Shore.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

We need to think more expansively about spaces for people which can help to manage the risk of weather events and break up the concrete jungle of housing intensification. Improve the golf course and make it a place for the public to enjoy side-by-side with golfers.

Takapuna Golf Course is a regional asset and only 1 of 2 affordable public golf courses left in Auckland.

Auckland council are following an ideological strategy to follow a nature based approach to flood mitigation called the Blue Green Network. This relies on detaining flood water in a number of ponds and other recreational parks. The most common stormwater engineering strategy around the world is to drain the water away.

Having the open sea only a few hundred metres away where water could easily and cost effectively be piped makes the destruction of the Takapuna Golf Course wonton vandalism driven solely by ideology.

This golf course has been there for decades, is the cheapest in Auckland, has wide fairways and is where most people on the Shore and other parts of Auckland learn how to play golf. It is the busiest course in NZ and there is absolutely now way that Pupuke and Waitemata courses could take even a fraction of the current users.

There are other parks where a lot of the other activities mentioned in this document could be built, but once this invaluable 18 hole course is gone, it is gone forever. Also gone and killed will be 1,600 trees and native bushes and all of the current wildlife including moreporks, ducks, pukekos, and all of the other birds that are being driven out of the suburbs by intensification.

What the Local Board should be doing is telling the Auckland Council that cost of the sacrifice is far too high, especially when there is an alternative, and they should revisit their decision based on input from outside of Healthy Water which is has been fixated on a wetland per se from the beginning.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), Driving range

5. What other type of recreation would you most like to see provided at the park?

Archery, Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Lawn bowls

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Nature - protecting or enhancing the natural environment for people and wildlife

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

Currently, all of A F Thomas park is leased to operators and work well. Council is not in the business of running activities.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Council is allowing a group of officers driven by the Blue Green Network strategy to destroy an irreplaceable regional asset based purely on ideology.

This is totally wrong and will go down in the history of the Shore as one of the worst decisions ever made.

Most people are apathetic, but when they wake up after the bulldozers rev up, they'll be apoplectic.

The students at Summit Point School in Takapuna have created proposals with their ideas for the park. They would like some of the park to be used to encourage youth to exercise and socialise there. Attached are 12 documents from the students.

Comments from Attachment:

Introduction A F Thomas Park is boring for the younger generation. The reason that it's boring is because it's only golf right now but if you use my idea younger people will like it more.

Facilities There are a few small things we need in the park. We need bridges for the wetlands to go over the water. The park will need to include toilets and could have some food stands around a bunch of seats and picnic tables around and some water fountains and an undercover cooking area.

Dog Park The reason why we should have a dog park is because a dog park is a way for dogs to run around with no leash and other dogs. There are a few things that will be required in the dog park. The park will obviously have fences and also a training area where you can train your dog.

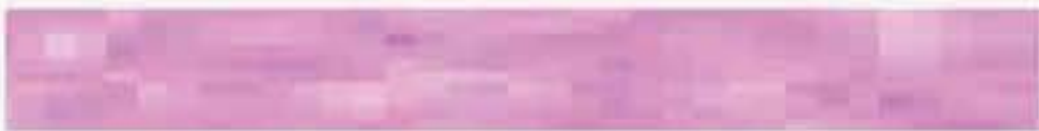

Playground The main reason why we should have a big playground and a few other playgrounds for little kids on AF Thomas Park is because there are not many good playgrounds around this area.

Playground Equipment The playground will have a bunch of big slides and climbing areas and swings and a life size hamster wheel and a flying fox. You're probably wondering why there's no rugby fields or courts. It's because there's a netball court nearby and a rugby field too.

Splash Pad The reason why we should have some splash pads is because on a hot summer day it's a way to cool down. People would come and use the park if it had this fun feature.

Bike Riding Pathways Bikes should be available for the people that don't have bikes so you can ride round the pathways. The left side of the paths is for bikes and running, and the right side is for people and animals.

A F Thomas Park is boring for the younger generation.

The reason that it's boring is because it's only golf right now but if you use my idea younger people will like it more.

Facilities

There are a few small things we need in the park. We need bridges for the wetlands to go over the water. The park will need to include toilets and could have some food stands around a bunch of seats and picnic tables around and some water fountains and an undercover cooking area.

Dog Park

The reason why we should have a dog park is because a dog park is a way for dogs to run around with no leash and other dogs. There are a few things that will be required in the dog park. The park will obviously have fences and also a training area where you can train your dog.

Playground

The main reason why we should have a big playground and a few other playgrounds for little kids on AF Thomas Park is because there are not many good playgrounds around this area.

Playground Equipment

The playground will have a bunch of big slides and climbing areas and swings and a life size hamster wheel and a flying fox. You're probably wondering why there's no rugby fields or courts. It's because there's a netball court nearby and a rugby field too.

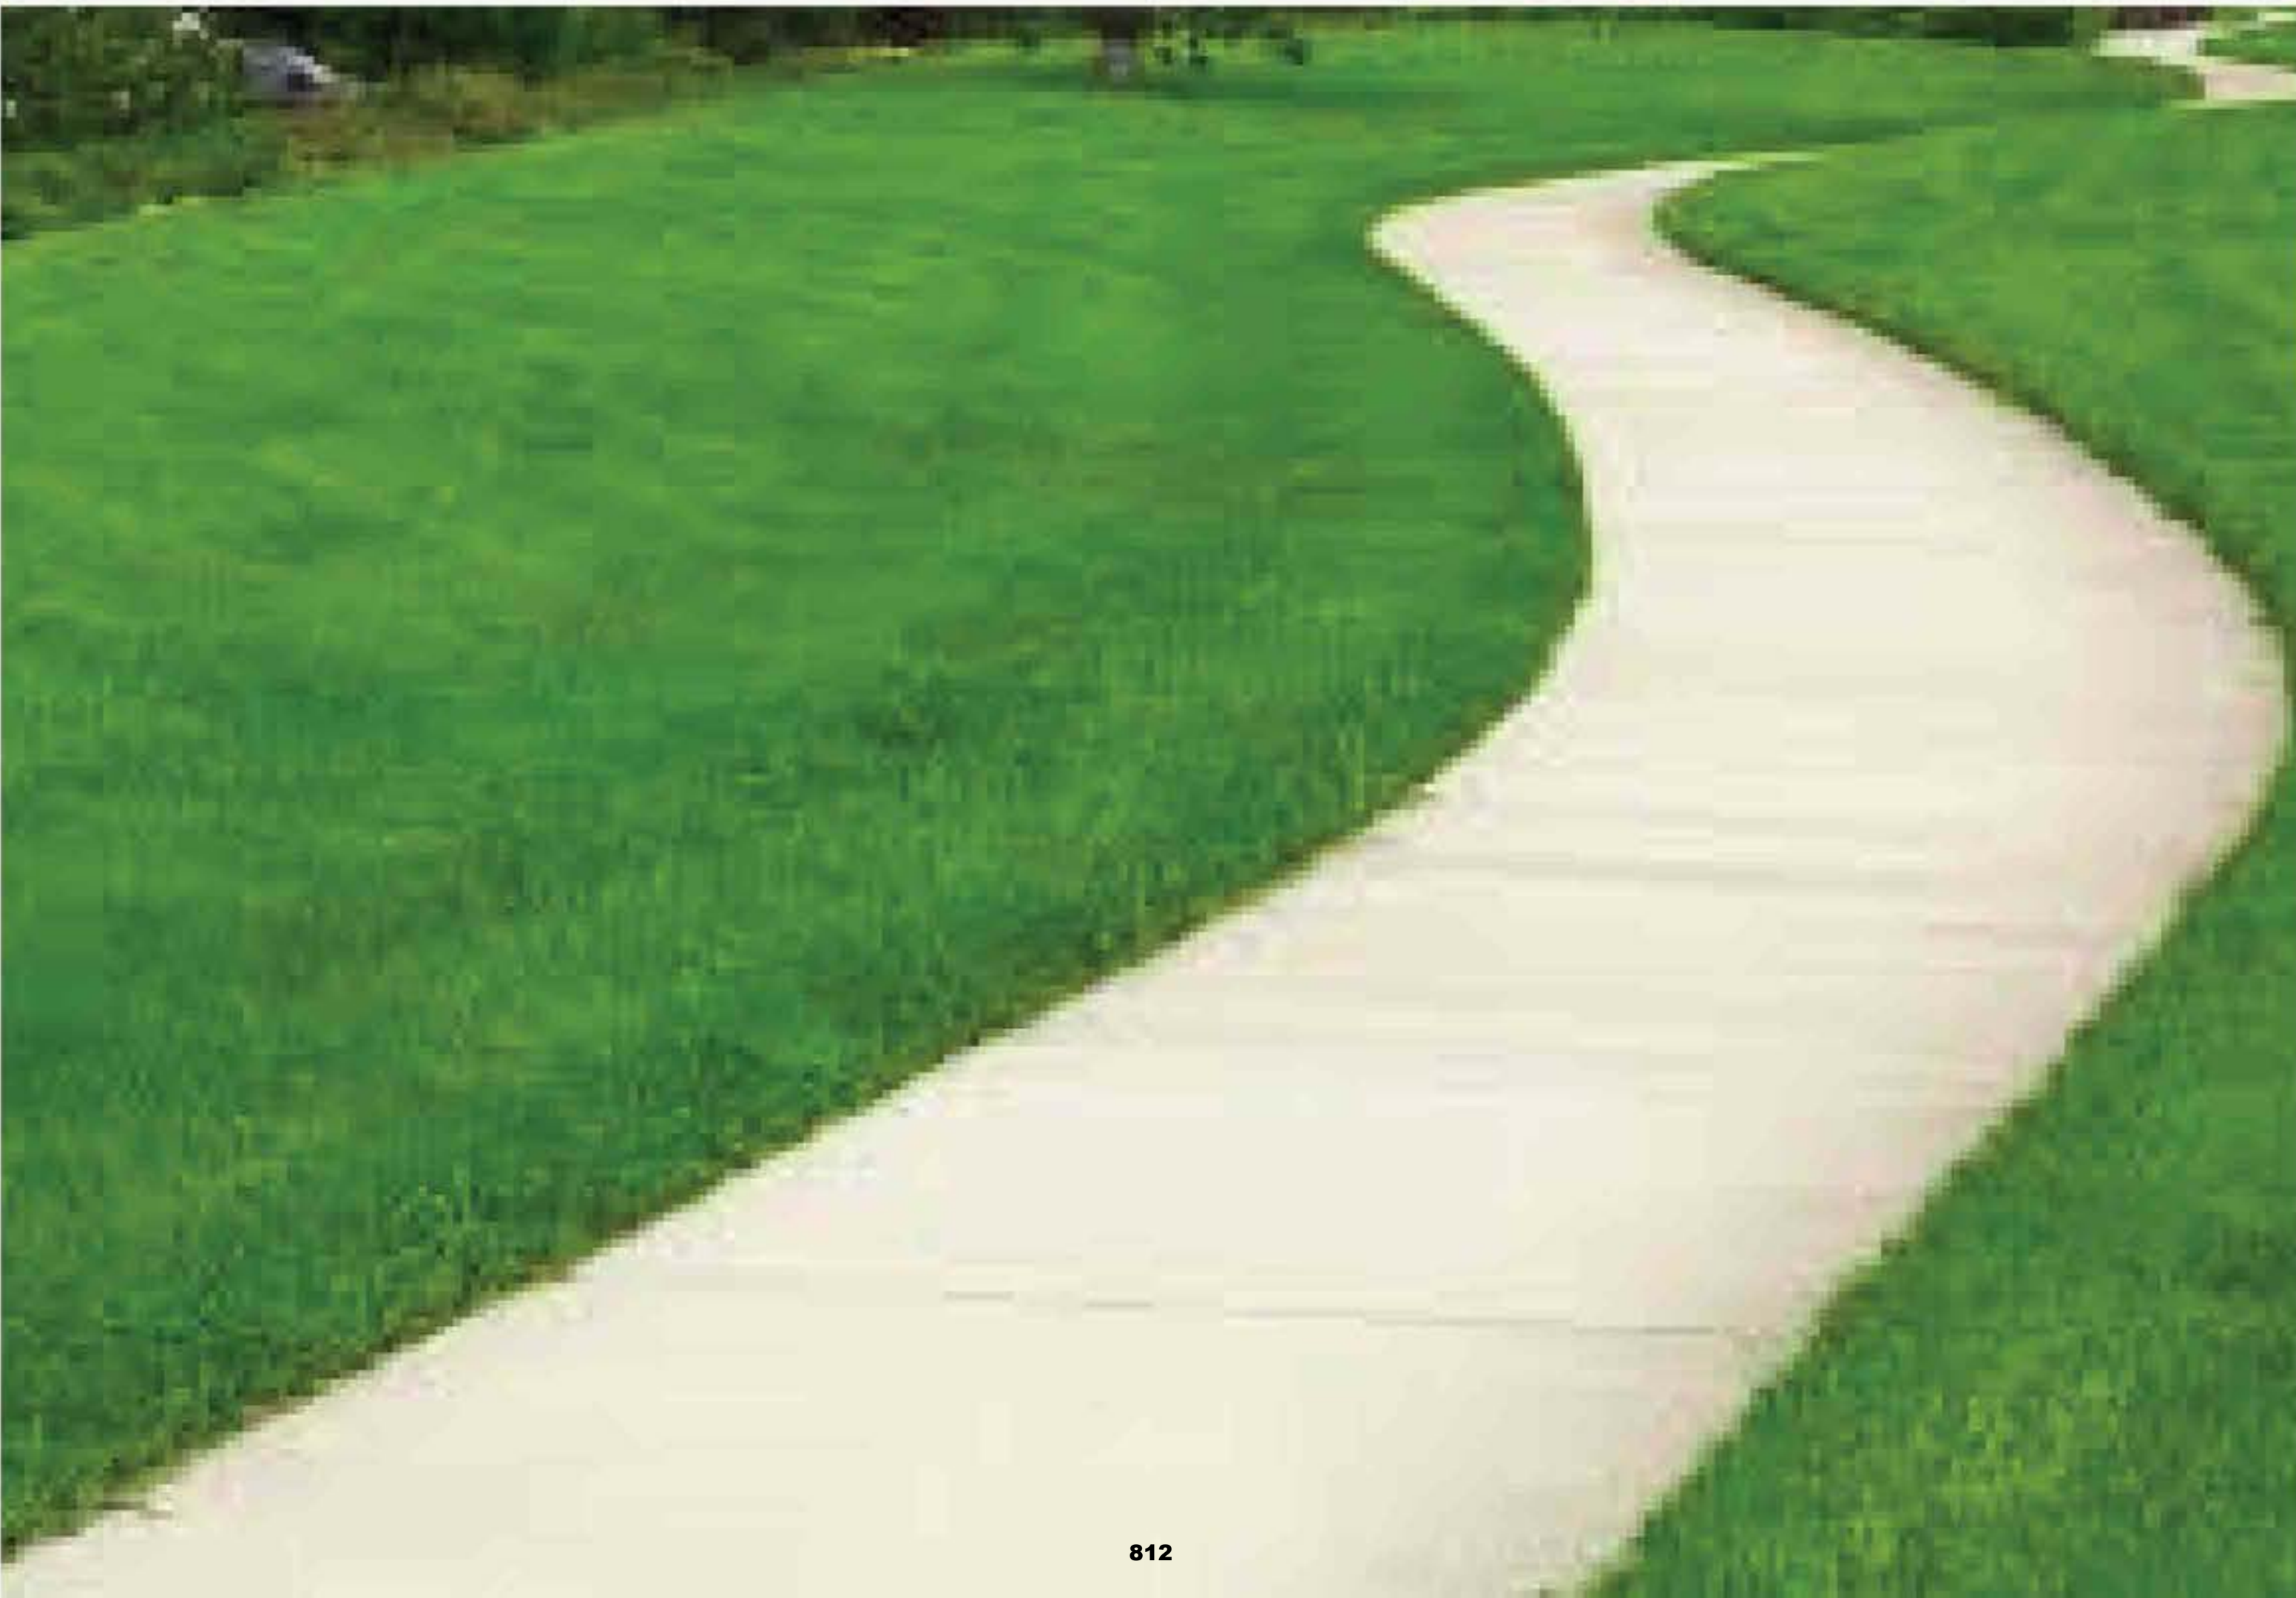

Splash Pad

The reason why we should have some splash pads is because on a hot summer day it's a way to cool down. People would come and use the park if it had this fun feature.

Bike Riding Pathways

Bikes should be available for the people that don't have bikes so you can ride round the pathways. The left side of the paths is for bikes and running, and the right side is for people and animals.

Tell us Why

The public course allows the hundreds of people who play golf there every week an affordable course to enjoy golf, get exercise, fresh air and connect socially. There is no other public course available in the area and losing this course would deny many players access to the sport

4. What type of golf would you most like to see provided at the park?

The current lease holders as I understand it have come up with an affordable plan to keep an 18 hole course and allow for flood requirements. I want this plan to be accepted by the council.

I don't play golf but acknowledge that many people do, and enjoy the existing facilities. I think the council is doing the right thing in planning for better storm water management, and personally believe golf should take second place to that.

4. What type of golf would you most like to see provided at the park?

7. Which Park lease approach would you prefer?

Tell us Why

I believe some low cost recreational facilities are appropriately delivered by the Council, but appreciate the argument for commercial involvement. A split would allow for some of each and could be mutually beneficial - paying customers can be made aware of the free facilities and those using no-cost recreation may be tempted to indulge in other things on offer.

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

Our archery club provides a safe, well-managed, low-impact recreational activity that serves a wide range of people in the local community, including youth, families, and older residents. It is one of the few sports that is genuinely inclusive regardless of age, fitness level, or physical ability. Losing our training space would have a serious negative impact not only on club members but also on the surrounding neighbourhoods.

If the archery range cannot be preserved, there would be no equivalent facility available nearby. Many members would be forced to travel long distances, increasing traffic pressure, transport emissions, and barriers to participation. The loss of this club would also mean the end of a positive, structured, supervised environment where local youth can develop discipline, confidence, and focus.

Our presence in the park is safe, quiet, and extremely low-impact compared with many other recreation uses. The club has always operated responsibly, maintained strict safety standards, and contributed positively to the community. Retaining the archery facilities is essential to preserving recreational diversity and ensuring neighbourhoods continue to have access to an affordable, healthy, and inclusive sport.

I'm worried that using it for flooding will end up just like the link drive pond. My grandchildren and I have watched pūkeko walk across the water from one side to the other, which makes me wonder who does the upkeep of cleaning out the silt buildup. I have never seen any clearing in there. Maybe if it had been looked after the flooding may not have been as disastrous. I have lived on the Shore for over 50 years and in Takapuna for 30 years of that and I am saddened that the keeping the Shore clean and tidy is now left to some residents. I would love to go away from the Super City which seems to have been when Auckland went backwards from its clean and green look and back to local Councils.

- Includes provision for a future new, elevated, flood-resilient Eventfinda Stadium,
- Utilises earth from the wetland earthworks to create a raised platform, and
- Allocates a portion of the recreation area to enable this development to proceed in future stages.

This approach:

- Reuses existing earthworks to reduce cost and environmental impact;
- Protects vital community infrastructure before loss occurs; and
- Supports continuity for thousands of local participants, volunteers, and staff.

Future Recreational Use of A. F. Thomas Park: Shore Archery Club #4458

Goal:

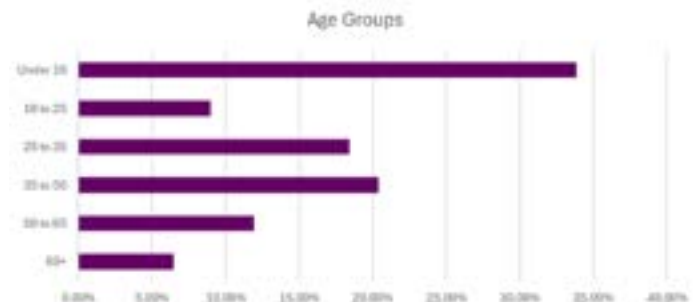

To stay on our current land in the park and increase our space to include a currently unutilized area

Who We Are:

- Founded in 1960
- Over 60 years as part of the local North Shore community
- Situated on the A.F Thomas Park next to the Sunnybrae Bowling Club
- We support novice and hobby archers as well as develop and provide pathways to competitive success.
- Previous competitive successes includes archers who have attended the Olympics, Master Games, World Championships and Trans Tasman Challenge
- Supports community through school partnerships and charity shoots

175% growth increase in five years

Ages range from 8 to 84 with strong youth participation

Historical Distribution of Shore Archery Club Members:
2019 to 2025

Why we are important to Auckland:

- One of only three Archery New Zealand affiliated target archery clubs in the region
- The only club located north of the Harbour Bridge
- Serving archers from across the North Shore, Rodney, and as far as Warkworth and Orewa
- Unique within Auckland: 24/7 access to an outdoor range
- Host major tournaments for NZ archers to achieve ranking scores
- Support Archery NZ and ADAA in training and development
- Support schools such as Takapuna Grammar and Rutherford College

Goals and Aspirations:

- To stay on our current piece of land (in purple on the picture) and secure another long term lease after our current lease expires in 2030.
- To increase the land of the lease to include the currently unused pink area.
- Build a new club house that would better facilitate storage and para-archers needs.
- Build an indoor range to facilitate all weather shooting.
- Improve drainage on the field
- Develop our coaches and archers further to better support archers in achieving their goals.

Some important things to note: Current artistic drawings of the plan cut the club off at the target line and exclude our over shoot (which is currently included in our lease.) We need our full 90m range plus our overshoot to be able to operate competitively and safely. Some artistic drawings also include a walking path alongside the range and behind the targets. This would also not be ideal as it would create an additional hazard and we would have to block access to the path when we are using the range.

Wet lands wild life park with walking tracks or board walks . Maybe some sort of connecti9n to smiths bush via an arch bridge. The golf course should never have been built in the first place. I already had my wind screen wiper smashed off my car by a golf ball, as I was driving along the motor way

When I went to see the management about it ,they didn't want to know and couldn't have cared less if they had tried! .

Not the reason for getting rid of the golf course objection but an objection to council over the years draining everything in water looked wet lands , for construction.

Eh Wairau valley and Nile Roadcare Milford. We actually lost a house because of poorly maintained drainage canals and drainage waterways.

As a child I saw repeated flooding along Wairau Valley and Nile Road. Incredulous that devopment was allowed. Even te Milford Marina adds to the dam affect and free drainage from

heavy rainfall. But hey. I know the elected council won't listen to my opinion. Money rules and a bit of the 'old boy,' network in part too???

4. What type of golf would you most like to see provided at the park?

None of the above

5. What other type of recreation would you most like to see provided at the park?

Affordability - providing low-cost or free activities, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Resilience - supporting flood protection and climate adaptation, Other - please specify: Wild life support VERY important

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

At least with total council control the public can access records and meeting minutes etc. The council would be held accountable for major transgressions (hopefully)

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Why do people feel that 'empty space' has to be filled with construction. Playground equipment ,sports facilities ,cycle tracks ,.

etc etc etc.. Space ,bush etc be enjoyed as nature intended. Just like the Milford Track, Tongoriro Crossing , Heaphy track, parks don't need to be grand epic ones like in the tourist brochures ,but just smaller local 'wild untamed ' parks where birds, reptiles, fish and insects can thrive without being manicured like normal parks with lawns and roses etc. Great places to educate the young generations of the future.

2. How often do you use the park?

Less than once a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

Golf is a popular sport and we need the full public courses for people who cannot afford to or don't have the time to make joining a club worthwhile. We also need the driving range and putting green which enable people to practice. The green space is also an asset - if it is let go there will be little chance of replacing the facility.

4. What type of golf would you most like to see provided at the park?

Driving range, Short-game practice area / putting green, Other, please specify: Full 18 hole golf course

5. What other type of recreation would you most like to see provided at the park?

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Other - please specify: It should remain a golf course.

7. Which Park lease approach would you prefer?

Unsure

Tell us Why

Not sure what the present arrangements are. They seem to work well so could continue. Provision could be made for the course to be flooded if need be without having areas retaining water all the time. There could be walks around the perimeter if there were nets in appropriate places.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

With housing intensification we need more green space and should not pretend we are providing it by taking away something that already exists.

Attend gymnastics at North Harbour at Eventfinda Stadium

2. How often do you use the park?

Every day or most days

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

Having the park focused on golf recreation limits the persons able to use the space by economic wealth and a number of people (due to the nature of golfing). Golf also consumes a large amount of space, limiting it for other activities.

Creating a park with more green space, flexible outdoor recreational activities, playgrounds, walking trails, art installations, Eventfinda Stadium and North Harbour Gymnastics, with less golf maximizes the flexibility of the space, bringing the community closer together. This also makes the space a family destination for more than sporting events at Eventfinda.

4. What type of golf would you most like to see provided at the park?

None of the above

5. What other type of recreation would you most like to see provided at the park?

Nature play / playground, Open space / picnic area, Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks, Other, please specify: Due to the area

being highly flood-prone, it is important that facilities put in place be flood-ready. Large infrastructure projects that require high level of maintenance following flooding should be limited.

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Heritage - highlighting local Māori culture, Resilience - supporting flood protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?
