

Dog policy, bylaw, regional and local dog access rules consultation engagement events

Come speak to us at one of the 23 engagement and information sessions being held across the region as part of this consultation.

The in-person and online events are a chance for you to find out more on the proposals (at a 'Drop-in' session) or chat to members of the Governing Body panel or the local board (at a 'Have Your Say' session).

Some sessions will be held in person, and some online.

You can see the full list of events below.

Type of session	Description of session
Information / Drop-in • Dog Policy and Bylaw (including Regional Parks) review • Local dog access rules review	Drop-in and ask staff questions on the proposed changes to the dog policy and bylaw and local dog access rules. This includes proposed changes to dog access at regional parks as well as local parks and beaches. As this is a drop-in session, you can come and go as you please. There will be no presentation. No need to register.
Have Your Say (HYS) • Dog Policy and Bylaw (including Regional Parks) review • Local dog access rules review	The 'Have Your Say' session is an opportunity to talk to members of the relevant panel on the proposals, whether this be the Governing Body panel for the dog policy, bylaw and regional parks review or local board members for the local dog access rules review. You will be given a 7-10 minute timeslot to discuss your thoughts with the elected members, and they will then have 5 minutes to ask you some questions too. You must register to attend this event. You are required to register at least three business days prior to the consultation event you wish to attend. You can attend online or in-person (please state your preference at the time of registering). If you have not registered, you will not be able to participate.
