Your feedback

1. How do you or your household currently use the park?

Play golf at the golf course, Use the golf driving range, Play sport at Eventfinda Stadium

2. How often do you use the park?

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

Highest use golf course in NZ.

Why not pipe the overflow to Shoal bay or buy the 150 houses rather than using a facility used by thousands.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), Other, please specify: Keep the golf course as is

5. What other type of recreation would you most like to see provided at the park?

None of the above

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Other - please specify: Golf

7. Which Park lease approach would you prefer?

Unsure

Tell us Why

--

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Once lost it can never be replaced.

People will have to drive a long way for an alternative golf course making for even greater traffic congestion.

Cheaper to buy the 150 houses affected!

Your feedback

1. How do you or your household currently use the park?

Play golf at the golf course, Use the golf driving range

2. How often do you use the park?

Once or twice a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

This is one of the few truly accessible golf courses left in Auckland. With golf becoming more expensive at private courses, and limited times available for non members, Takapuna provides easy access for a range of people of all ages

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 12-hole beginner/intermediate golf course (approx. 36-40 par), Driving range, Indoor golf simulators

5. What other type of recreation would you most like to see provided at the park?

Off-leash dog exercise area, Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse range of experiences the whole community can enjoy

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

Council needs to stick to core activities

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I do not support the proposed changes to create water holding as there are better options available which do not take away the golf course. Flooding in the wider area is systemic and it is unlikely to be fixed by implementing this plan without significant investment in other stormwater initiatives in the wider catchment and on-going maintenance of existing poor performing assets

Your feedback

1. How do you or your household currently use the park?

Use the archery club

2. How often do you use the park?

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

Shore Archery club provides diverse activities for my family. We enjoy the sports with the club community. We hope the range will not be occupied or negatively affected by any other projects.

4. What type of golf would you most like to see provided at the park?

12-hole beginner/intermediate golf course (approx. 36-40 par), 9-hole traditional golf course (35-36 par), Pitch and putt golf course, Short-game practice area / putting green

5. What other type of recreation would you most like to see provided at the park?

Archery, Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Nature play / playground, Off-leash dog exercise area, Outdoor sports courts (e.g. basketball, netball, pickleball)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Organised recreation - space for organised sport or clubs, Productive land use - using parts of the park for food growing or other resources, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Half lease & half control can improve the environmental, social and economic sustainability.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Hope it will be more functional, inclusive and engaging.

I am currently in my first year running a Coaching Archery business and coach at Shore Archery, am the head coach at Takapuna Grammar School and am in active discussions with 2x other schools on the Shore. I also have pupils who are going to be competing in National Competitions starting in 2 weeks, with plans to represent NZ in the next 2 years. I have also coached schools for NCEA, taken Have a Go lessons with schools and also coach a Neurodivergent school for Term 2. I have plans to expand and continue the archery journey to others.

4. What type of golf would you most like to see provided at the park?

Pitch and putt golf course

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Please ensure any changes to A F Thomas Park will not affect Shore Archery Club facilities. Here is why I think it's important to keep this Archery club:

- We are an active growing target archery club - our membership has grown from approximately 50 in 2019 to over 200 in September 2025;
- We have a member age range of 8 to 84 years and are also a multicultural club;
- We are actively encouraging progress within the sport - with archer and coaching development plans in place;
- We are involved in teaching archery in schools - eg Takapuna Grammar, Rutherford College - with plans to expand to include other schools;
- We offer "Have a Go" and corporate shoots, for community participation;
- We are the only Olympic style target archery club north of the bridge;
- Our outdoor range can be accessed 7 days a week - unlike the other Auckland target clubs;
- We host Auckland-wide and also National competitions, with plans for that to expand;
- We play an active role in supporting Archery NZ's development pathway by identifying, training, and mentoring talented young archers who go on to represent New Zealand in international competitions.
- Mountain Green Archery Club is already experiencing loss of grounds - Auckland cannot afford to lose a second of three archery ranges.

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

Providing a facility for multiple sports and recreational activities gives more options for people to get outdoors, interact with others and support the community.

4. What type of golf would you most like to see provided at the park?

12-hole beginner/intermediate golf course (approx. 36-40 par), Driving range

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Leasing land to community groups will allow faster creation of infrastructure with buy-in from community groups and ability to cater to their activity.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Canoe Polo is a sport that has shown as popular in other areas of NZ with the most successful in Hawkes Bay where a 4 court facility was constructed. This allows youth to participate in a team sport requiring skill and teamwork in a safe environment. Auckland Canoe Polo is working on developing the sport in Auckland and an accessible facility close to existing player base etc would greatly assist this. With limited pool facility availability in Auckland this could assist greatly.

A balanced mix of golf and other recreation uses

Tell us Why

Golf is the incumbent activity here, so even though I don't play, I believe that it is only fair that golf remains a core activity. This should also be balanced with the needs of the rest of the community who could use this space for running/walking etc.

4. What type of golf would you most like to see provided at the park?

To strike a balance between financial sustainability, while still retaining some control over the use of the park and ensuring that the entire community can benefit from it, not just a select few.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

This would be a great area for a decent gravel running/walking track around the perimeter of the park. It could even be suitable for a parkrun event which would also benefit local businesses by enticing hundreds of runners/customers to the area every week.

There are other golf locations within Auckland that are usable. Having this more open to more people would be much better than having 1 activity for so few Aucklanders.

4. What type of golf would you most like to see provided at the park?

Selling off of assets is always a quick sugar hit that we end up paying much more for in the long term. We need to get back to long term thinking and not quick sugar hits of money.

2. How often do you use the park?

Less than once a month

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

It's the home of public golf on the north shore and highly used by the low level golfer and those looking to try the sport out. There are limited places like this and of this quality open to everyone

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 9-hole traditional golf course (35-36 par), Driving range

5. What other type of recreation would you most like to see provided at the park?

Archery, Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Organised recreation - space for organised sport or clubs, Other - please specify: Golf. Retain the people employed there now do g what they love for the community

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

It may be practical to have private funding to achieve some of the areas desired needs if public funding is not available

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Retain the focus on golf for all and build around that

This golf course is the busiest in the country and for some the only place they can get on. This course is open to all skill levels and for a lot of people what got them into the golf.

This course is always full and busy so is clearly an asset in Auckland being well used, if it was mostly empty then yes scale it back but it's not.

Golf Warehouse has put forward a plan for the full area which also includes other recreational activities to be included and is the best plan been put forward to date.

Just because someone doesn't play golf and thinks it's a waste of space is clearly close minded, I don't see any golfer saying close down the netball courts or the rugby field across the road.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Pitch and putt golf course, Indoor golf simulators, Mini golf

5. What other type of recreation would you most like to see provided at the park?

BMX pump track / skate park / other wheeled play, Outdoor sports courts (e.g. basketball, netball, pickleball), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Nature - protecting or enhancing the natural environment for people and wildlife, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

This can mean instead of the council just having this land sit idle that someone could come in and lease the land which in turn means the council is at least making money from the land while someone is providing a service to the public and at the same time maintaining the land.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

People need to look beyond their feels about golf, just because they don't like the sport doesn't mean it isn't providing a service to someone else in the community. Over the many years I've used this resource you see all types of people from the young to old using a shared resource together that is an affordable option for them.

Just be open minded and realise that leaving this resource as a golf course isn't taking anything away from anyone since its been a golf course for many many years, if you take this away you are then actually reforming a resource that is in use.

Golf is an elitist sport very few people can afford to take part in. There are plenty of other golf courses on the Shore and around Auckland they can use instead of.

There are few golf facilities for the general public in the Auckland region, particularly for the northern catchment. I think it is important to retain some type of golf facility to help introduce the game to beginners.

It is important to keep limited land reserves in public hands, particularly in densely populated areas. The majority of the land should be made available for public recreational activities, which are not likely to be things that private organisations will be interested in providing as it will not provide economic returns for them.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I would love to see areas where the public can walk, run, cycle - there are limited flat areas in on the North Shore and this is has an ideal catchment of residents who could make use of flat areas for such activities. I strongly wish to see an off-leash dog recreation area as the North Shore has no such facilities (the only options for safely letting dogs off-leash are a 20 min drive to Paremoremo or 30 min drive to Meola Reef)

The golf course has been around for 70-80 years, serving as the busiest public golf course in the country. Providing enjoyment and a break from life for hundreds of thousands every year.

With multiple other viable and better options than the council's proposal, the course should be staying - this has been proven to be cheaper and better than the council's proposal.

The council's proposal is terrible, to create a damp, ugly swamp dump ground.

Because the council shouldn't be in control of anything. Their ideas are outdated. Proven not to work. Most eventuate into absolute rubbish and cost us all an absolute fortune. The less Auckland council has control of the better.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Keep our full 18 hole golf course (par 70-72). DO NOT TAKE OUR COURSE!

A couple of clowns come up with this idea and then we have to fight to keep what is already there - few people will enjoy the council's proposal, while hundreds of thousands will suffer the consequences of these under qualified, overpaid ego heads.

Multiple other options where you don't ruin the busiest course in the country. Typical Auckland council...

2. How often do you use the park?

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

It's an absolute travesty that the short sighted planners in the auckland council are taking the approach they have taken. Plenty of suitable options for flood mitigation exist where you can keep the golf course majority in place.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range

5. What other type of recreation would you most like to see provided at the park?

--

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

Because the council has a poor track record of running business and controlling costs. These cost blow outs if it remains in council control will just add to rates bills.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The “wet lands” will look awful in the middle of summer once it sets up during droughts.

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

In general, council/government tend to be bad landlords. Still, it is best to keep the control of the land which, at the end of the day, would belong to the city.

There are only two affordable public access golf courses in Auckland a city with a population of around 1.8 million people.

These two golf courses, A F Thomas Park and Chamberlain Park, are the starting point for thousands of Aucklanders into the sport of golf at an affordable level.

The current golf course is one of the most popular courses in Auckland, and is located perfectly in the centre of the North Shore. I do think there is an opportunity to add more recreational uses as well as a wetland to alleviate flooding issues, but I think the park should primarily focus on keeping its identity as a golf course whether that be through a full 18 or shorter course.

4. What type of golf would you most like to see provided at the park?

I think that this park provides a great opportunity to provide free recreational activities for the public outside of golfing, and leasing the land would go against that as most activities would charge users as mentioned. There are many low cost recreational activities that wouldn't require much funding that could be implemented.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

As a passionate disc golfer, I think there is a great opportunity to create a new course similar to Rosedale parks disc golf course in parts of the wetland as it is sport that takes up little space, and doesn't cost much to implement.

Your feedback

1. How do you or your household currently use the park?

Play golf at the golf course, Use the golf driving range

2. How often do you use the park?

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

I think the course is a great way to get people off their games and outdoors. Golf is becoming increasingly popular for younger generations and it would be a shame to see it removed. I think a 9 hole course along with a wastewater treatment plant would be a good compromise for all.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range

5. What other type of recreation would you most like to see provided at the park?

Nature play / playground, Off-leash dog exercise area

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

As soon as the councils start giving up land it becomes less and less likely it's ever given back or the public is considered.

Tell us Why

With the space being reduced, it would be nice to use the majority of the remaining space, for golf, as there will be a shortage of options.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range, Short-game practice area / putting green, Mini golf

5. What other type of recreation would you most like to see provided at the park?

Nature play / playground, Open space / picnic area, Space to hold events (e.g. community markets, festivals or concerts), Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Connectivity - walking and cycling connections through the park that link with the wider community, Heritage - highlighting local Māori culture, Open space - space for free play and relaxation

7. Which Park lease approach would you prefer?

As a Mum with a full time job, this course has allowed me to get into golf and positively affected my mental health as a result. Having the opportunity to play on a public course that suits all abilities and where there is no pressure is key to this. My 6 year old son has grown up coming along on the cart in between solo rounds or rounds with my partner, or new friends who happened to book the same tee time....he now plays too. There are plenty of other places to go to the park, or YMCA for Basketball but no other course like Takapuna.

Takapuna golf course is the only public golf course remaining on the North Shore, it is accessible to all, especially for young golfers and lower socio-economic households that can't afford private clubs. I enjoyed growing up playing on the golf course as have my children, why ruin it for future generations when the game of golf is gaining in popularity across the world? The park has provided this service for years; there are numerous public beaches and parks across the North Shore already, why do we need another one? There are no other public golf courses, it's a pretty simple answer in my view.

Organised recreation - space for organised sport or clubs, Safety - providing a safe environment for play, sport, and relaxation, Other - please specify: A golf course

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

If independent operators are involved council loses ability to control access for public i.e. any independent needs to make a profit that will limit activities to those focused on profit and make it inaccessible for some.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I believe we will regret turning a large portion of the park into wetland, there are other options to prevent flood risk that were viable and I don't believe these were given enough consideration. Hindsight is a wonderful thing, I wonder what we will be saying in 10 or 20 years.

Takapuna golf course is a wonderful GREEN park, an oasis, amongst a surrounding sea of commercial buildings, motorway asphalt, residential housing, all of which are hard and impermeable surfaces. So that's the environment which prevails and the GREEN oasis park must be preserved for future generations. And then there's the amazing recreational aspect of this park facility that must be retained for people, especially golfers, that provides exercise and outdoors activity that humans need to survive in a big city environment. This GREEN landscape must be preserved, albeit in a modified form, to provide for water run-off in the event of a deluge of rain, to move storm water to Shoal Bay via a spillover canal running beside the motorway from Wairau Valley, as was proposed by Takapuna Golf Club.

4. What type of golf would you most like to see provided at the park?

Driving range, Other, please specify: A normal 18 hole golf course 70 par

5. What other type of recreation would you most like to see provided at the park?

None of the above

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Open space - space for free play and relaxation, Organised recreation - space for organised sport or clubs

7. Which Park lease approach would you prefer?

This GREEN landscape must be preserved for golf, leased to Takapuna Golf Club. Some land must be provided for water run-off in the event of a deluge of rain, to move storm water to Shoal Bay via a spillover canal running beside the motorway from Wairau Valley, as was proposed by Takapuna Golf Club. This canal area of land should be retained under Council's control and management.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The People's voices must be heard. It's seems to me that Auckland Council had a pre-determined plan to do whatever it wanted. I'm sick and tired of unelected bureaucrats making decisions without considering local communities in the decision-making process. I applaud and thank the Board for making this submission possible, to present my local community view as a golfer and local resident on this beautiful recreation oasis in the middle of the City.

The council are short sighted and continuously fail the public. This I feel is a money grab and the council intend to exploit the area for their own financial gain. The current lease holders have gone above and beyond what is expected of them and now they will be pushed aside. I hope the council continues with them

The present model is working well with Council receiving good revenue and the the course management and improvements have been excellent and ongoing for the future of Auckland Super City. IT is affordable to all and is a hub for all people of all races to play and get together.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Yes. Spend the money on keeping the golf course using alternative flood resilience plans now.

The costs are no cheaper than what they are at present. Future costs will naturally increase.

The city needs this golf course for the future 50 to one 100 years, not reactionary fixing solutions.

There are alternatives. Just some stubborn Council engineers who want their solution to be the only course of action. Not good enough for the future of Auckland City.

A number of Auckland's limited number of golf courses have been closed or reduced in size over recent years. This has placed significant burden on the remaining few affordable club courses and making it difficult to get a booking even for members. Most golf players, including myself, learned to play golf at a young age on affordable public owned courses which are virtually nonexistent or under such demand the cant be used regularly. These courses are a great asset to the community meeting a real specific need while also providing open areas for all kinds of other activities and should be preserved. The popularity of golf as a sport has increased immensely over the last 10-15 yrs including women's golf. There are already plenty of facilities available for all the other popular sports and activities.

7. Which Park lease approach would you prefer?

Tell us Why

The land is currently being leased in one form or another to commercial operators and this works particularly well as a golf course and driving range but would not necessarily work for other sports/activities

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

There have been several other options proposed for flood protection that retain the existing golf course and this whole plan appears to be nothing but an excuse to not spend money on proper long-term infrastructure. The council seems to want North Shore to have no suitable sporting venues with the equally unpopular suggestion that NS Stadium should also be torn down when it should actually get finished to the original design.

The current golf course is well run and maintained, they have also raised proposals that allow the 18 hole golf course but allow for the flood water retention. It appears that a decision was made before notification that the wet land project would be done and dusted. The current green area and trees, some of which are many years old would be sacrificed for a wet land that will just become a rubbish collection point.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

The current facility is utilised by a wide range of people. It offers a reasonable priced sporting facility that will be lost. If the new area is contracted out the cost will prohibit a wide range of people whom enjoy the current facility both socially and physically.

Provides access to a large population that may not have access to the more private facilities or golf courses present in Auckland. Golfing in Auckland is very difficult for those under financial pressure or for those who do not have the means to play at other courses. Takapuna is a solution to that and to allow for growth of the game in NZ.

Difficult to understand this as the golf course appears to maintain the condition of the park in general, ensuring the best possible condition with the resources they have for those who use it. If council does or does not have full control, then consideration should be given to ensuring the resourcing is there to maintain a high standard of condition rather than new facilities.

As a proud North Shore resident for over 50 years and a grandmother of seven, I wholeheartedly support Golf Warehouse's proposal to lease this land. The vision of transforming it into multi-sport facilities, including basketball, pickleball, and a smaller, family-friendly golf course, promises immense benefit to our community. It will give our kids the chance to get off their screens, get active, and embrace healthier lifestyles. This project is an investment in the future of sport, community well-being, and the next generation's health. I strongly believe this will be a valuable asset for all of us.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range, Short-game practice area / putting green, Mini golf

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Nature play / playground, Outdoor sports courts (e.g. basketball, netball, pickleball), Sports fields (e.g. rugby, soccer, cricket)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

It would be great to see something similar to the Mitre10 sports park in the Hawkes Bay. Having used this several times for Canoe Polo it was great to see how many different sports could use it and the wider community access. Limiting it to golf significantly reduces the number of people who would use it.

4. What type of golf would you most like to see provided at the park?

Driving range, Indoor golf simulators, Mini golf

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Nature play / playground, Off-leash dog exercise area, Outdoor sports courts (e.g. basketball, netball, pickleball), Other, please specify: A Canoe polo court set up similar to Hawkes Bay would be incredible. The pools are used for the land so it has a double use.

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Given that the land available for recreation will be reduced, I suggest to utilise some land getting it converted into permanent pickleball courts. There's a lot of public interest in this fast growing sport which keeps people of all ages engaged and active. It doesn't require a lot of space (A tennis court = 4 pickleball courts), and pickleball is usually played in doubles, so for the size of a tennis court, 16 individuals can be having fun at the same time playing pickleball. This will make it a very popular spot too. In East Coast Bays Liesure Center, we host pickleball events, and our sessions always run out of spaces in few minutes after posting. We have over 500 players subscribed to our network, and that's only for our network, not across Auckland. There's also constantly new players joining to learn and try the sport, so numbers are on the rise.

I strongly support the Golf Warehouse proposal, I think that it is by far the most comprehensive and actionable proposal by a company who is willing to front up out of its own pocket to achieve it.

It caters to everyone involved and provides a great recreation space for our community

Gymnastics is a core sport that must be included in the long-term plan. North Harbour Gymnastics is one of the largest and most active gymnastics clubs in the region, supporting children from preschool recreation through to competitive national and international pathways. Gymnastics plays a critical role in building children's fundamental movement skills, body awareness, coordination, and confidence — skills that transfer into almost every other sport. Ensuring that gymnastics remains accessible is not just a benefit for gymnasts; it strengthens the wider sporting community and supports healthier, more active young people. For these reasons, gymnastics is not a “nice to have” — it is a foundation sport that must remain supported, prioritised, and included in the planning of future community facilities.

4. What type of golf would you most like to see provided at the park?

Other, please specify: Keeping gymnastics included in planning — and securing a safe, stable, flood-resilient home — protects a high-demand sport, supports community wellbeing, and ensures our region remains active, connected, and future-ready.

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Nature play / playground, Space to hold events (e.g. community markets, festivals or concerts)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Lease some land and keep some under Council control

Tell us Why

Leasing some land will enable faster delivery of high quality facilities which the Council does not have to pay for. It's important to keep control of some of the land so the Council can control outdoor space.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Eventfinda Stadium and NH Gymnastics need to be included in planning and future proofing to avoid flooding of the stadium. Gymnastics is proven to have cognitive and emotional benefits (discipline and focus, confidence building, goal setting) in addition to physical benefits (strength and flexibility, coordination and balance, body control). There are also social benefits to having North Harbour Gymnastics at Eventfinda Stadium (teamwork and friendship, respect and sportsmanship). The stadium and club are important parts of this space.

7. Which Park lease approach would you prefer?

Lease all land to commercial operators

Tell us Why

I support continuing to lease the land to North Harbour Gymnastics (NHG) and a golf course within a long-term, council-owned framework — with a commitment to secure a flood-resilient, future-proof facility.

NHG is already a well-established not-for-profit community organisation that has successfully operated on this site for many years. The club delivers programmes to thousands of children of all ages and abilities, employs qualified coaches, and plays a vital role in developing foundational movement skills that benefit participation in many other sports.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

A F Thomas Park should continue to be developed as a vibrant, inclusive, family-centred recreation hub, with gymnastics protected as a foundation sport and a future-proof, flood-resilient facility at its core. This secures long-term community benefit and supports the health, confidence and wellbeing of local children and families for generations.

Tell us Why

There are very few public golf courses in Auckland and Takapuna has always been both accessible and affordable. I'd like that to continue even if it is a 9 hole option.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Pitch and putt golf course, Driving range, Short-game practice area / putting green

There aren't many places for people to learn to play golf on a real course, most golf courses are private and expensive to play. Takapuna golf course is a unique location to allow people to learn playing golf on a real course and also for people who can't afford to play at private courses - it provides facilities for the general public not for only rich people.

Tell us Why

By leasing some land it will provide more commercial opportunities to fund some of the improvements in facilities, without the council having to fund it all - it will likely make things progress quicker.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

There are lots of other council managed recreation facilities around Auckland city, but not many that can be used to grow golf in the community - the park needs to maintain the focus on golf, and it's very well used by the community.

With all the space we could make into a center to help old or young people let us turn into a place of learning where people can learn about nature and clean energy as well help animals. My mission statement is we encourage people to be the best they can be and make a change in the world together we can make the publicly a another step the right way FOR THE FUTURE AND ENVIRONMENT

A.F. Thomas park Propasal

My mission statement

It is time to let go of the golf course. Time has changed which means we have to change. Maybe in the future some one like me will try to change the park because time is change.

Japanese tea place

Let's make the best Japanese tea place with tea around the world.

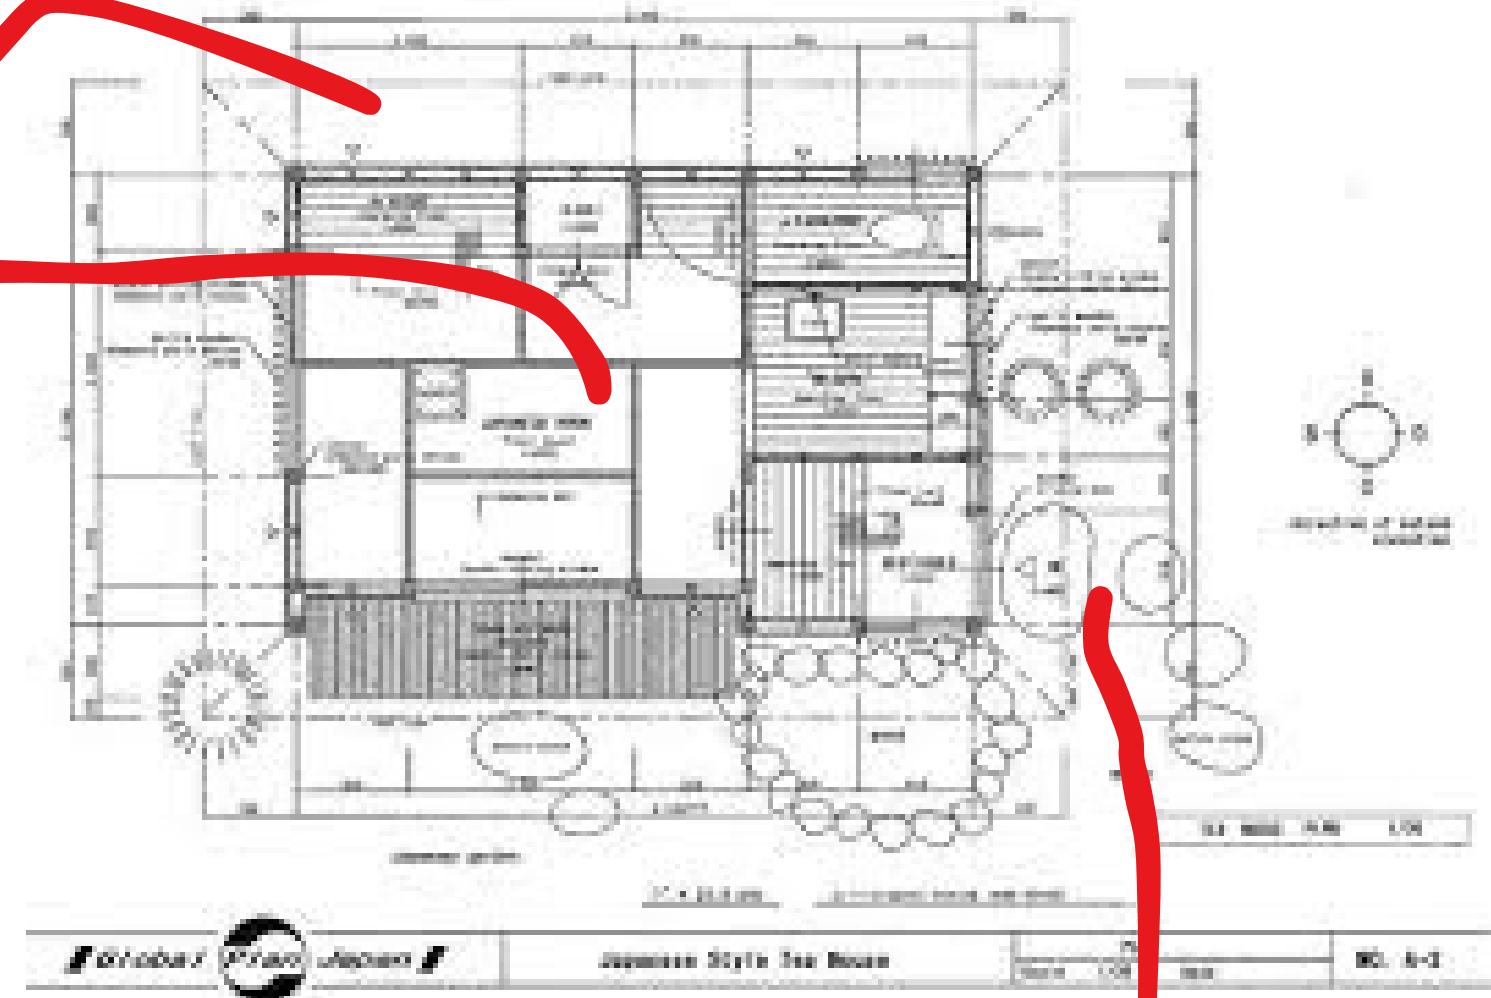

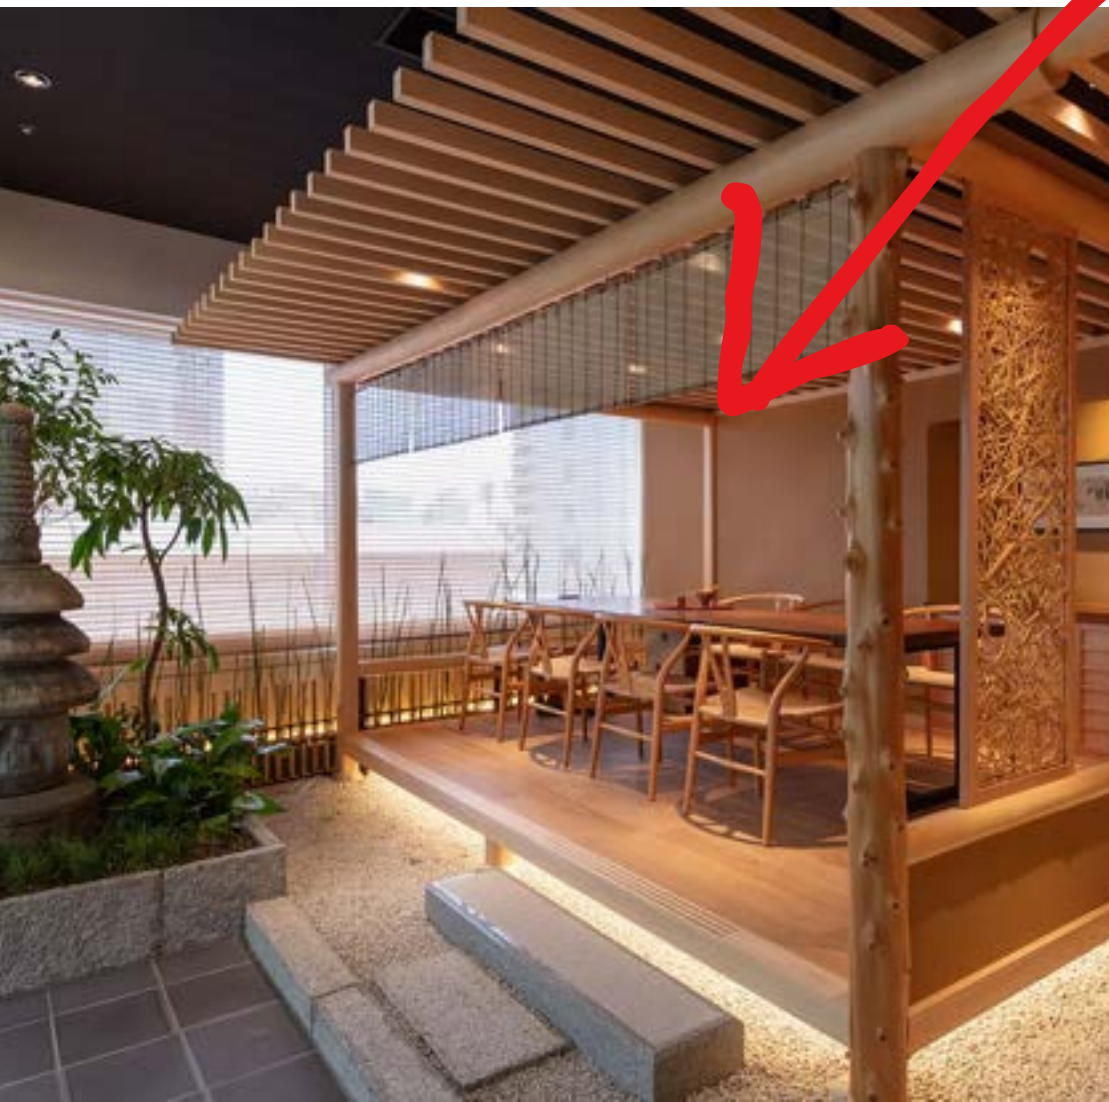

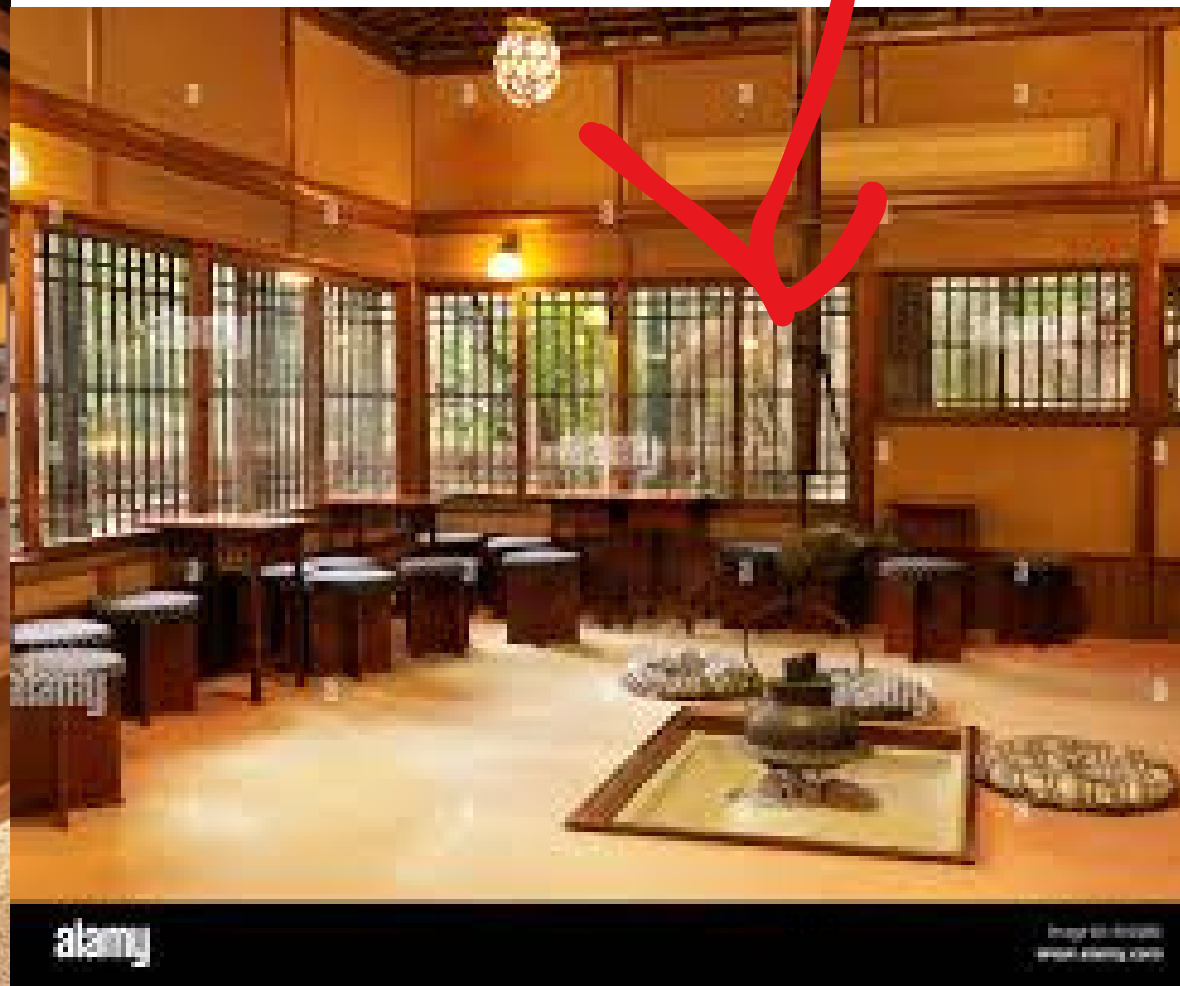

I think that it is a good idea because you have a nice walk then you favorite tea. The amazing details of the tea place is the walls and roof and windows which make it very calming. A tea house would enable the community to bound and learn about other cultures that you might not even herd of. Let's help people learn and expand there taste as well as just have tea. 308

This is just a context for
what it would be.

To help you understand
my art my vision

Frisbee golf course

Let's make the best frisbee golf course of all time

Frisbee golf is a very healthy activity that all ages can play at as long as you don't have an injury. It would be very easy to plant the signs because the golf holes are where the goals should be at. Playing Frisbee enable you to bond with friends and family or meet someone new and share an interest in fact it happened to me. Let's give someone else the opportunity to develop a new friendship

This is a what I think that it
should be if you will
choose my idea that is.

Time is change .

Thank you for giving me the chance to show you what I have to offer I hope you
chose my ideas thank you and good by.

2. How often do you use the park?

Once or twice a week

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly other recreation uses with limited golf facilities

Tell us Why

Golf is a sport that is hard to get into, (high cost) and takes up lots of space. I think other recreational facilities will yielded much better use from the community. The space should be for everyone!

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Nature play / playground, Open space / picnic area, Outdoor sports courts (e.g. basketball, netball, pickleball), Space to hold events (e.g. community markets, festivals or concerts)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Heritage - highlighting local Māori culture, Nature - protecting or enhancing the natural environment for people and wildlife, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Golf should be primary focus. Because it will retain natural environment. There are lot of other recreational facilities on the shore for other sports. There can be collaboration schools regarding use of their existing facilities for community rather than creating one. That will give schools more funding as well to maintain those facilities.

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Resilience - supporting flood protection and climate adaptation, Other - please specify: Here's the use of the word resilience as a guise to cover up council's past planning mistakes

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

There are very few full length 18 hole public golf courses but green spaces and flood protection can be achieved in tandem. Not resilience it's about managing existing land uses while planning for future climate scenarios. Let's be honest about what this project is really trying to achieve. The council has already destroyed Chaberslain Park GC and is about to do the same for Takapuna GC. Shameful and poor planning!

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Submission on the Wairau Flood Resilience Project

I strongly object to the proposal to remove or reduce the Takapuna Golf Course and driving range at AF Thomas Park, Northcote, as part of the so-called "Wairau Flood Resilience Project."

The use of the word resilience is misleading. True resilience means planning and developing land in the right places, with the right mitigations for future climate scenarios. This proposal feels like a way to cover up past planning mistakes rather than a genuine effort to build climate resilience.

1. The wrong solution to the right problem

Flooding in the Wairau catchment is a serious issue, but destroying an 18-hole public golf course and driving range is not the answer. Sustainable golf courses already act as green-blue infrastructure: they absorb stormwater, provide open permeable land, support biodiversity, and contribute to cooling and amenity in urban areas.

Instead of removing the course, Council should invest in integrated design that achieves both outcomes — retaining the full 18-hole layout and driving range while enhancing flood resilience through wetland creation, swales, improved drainage, and native planting.

2. Loss of valuable public recreation space

Takapuna Golf Course and its driving range are among the few remaining affordable, publicly accessible golf facilities in Auckland. They are used by people of all ages, backgrounds, and abilities — from beginners to community groups, schools, and senior players.

The proposal to remove the driving range and nine holes, or to convert the course to a par-three layout, is short-sighted and inequitable. It reduces public access to recreation and community wellbeing opportunities. A resilient city values recreation and green space as much as infrastructure.

3. Past planning failures should not justify new ones

One of the root causes of flooding in this area is Council's historic approval of intensive development on known flood-prone land in nearby Northcote. These decisions have increased runoff and reduced the land's natural flood absorption capacity.

Now, under the banner of “resilience,” the same Council proposes to destroy existing green space to compensate for its earlier mistakes. This is not climate adaptation — it’s retrospective damage control. Accountability should mean better future planning, not further loss of public open space.

4. A better path forward

Takapuna Golf Course could become a model example of how Auckland can combine flood management, recreation, and biodiversity. Many modern golf courses internationally integrate wetlands, stormwater storage, and riparian planting into their design while retaining full playability.

With smart design, Auckland can have both:

A thriving 18-hole public golf course and driving range that remain accessible to the community; and

Enhanced flood storage, water quality, and ecological benefits that improve resilience across the catchment.

5. Recommendations

Retain the full 18-hole course and driving range at AF Thomas Park.

Integrate flood management and green-blue infrastructure improvements into the existing course layout.

Review and learn from past planning decisions that allowed development on flood-prone land.

Develop a transparent city-wide strategy for balancing climate adaptation, recreation, and urban growth.

Conclusion

The Wairau Flood Resilience Project should be an opportunity to show how Auckland can adapt to climate change without losing its remaining public green spaces. Destroying or downsizing Takapuna Golf Course and its driving range is short-sighted, inequitable, and unnecessary.

Council must take an integrated, future-focused approach — one that protects recreation, enhances flood resilience, and acknowledges past planning failures rather than repeating them.

This site has been the main golf course for recreational players who do not wish to join a club for over 50 years. It is the busiest course in NZ and to lose it to any other sports would be disappointing at the very least to the thousands of people who use it.

Plan a way to have the water storage built into the current course.

Add in drains between the fairways that would allow the water to come in as necessary

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Yes, keep it as it is. There was a proposal to install pipes to take excess water to Shoal Bay.

Or consider how often a flood actually happens as bad as the Jan 2023 floods.

After nearly 60 years living on the North Shore I know that was the first time I had ever seen any floods that bad.

The issue Auckland has is there are too many golfers when compared to golf clubs. If you take away Takapuna 18 hole golf course you harm other surrounding golfing ecosystems. Systems that can barely withstand the current demand for golf. This would be a major loss for the community. On a personal note I have always dreamt of taken my children over Takapuna to learn how to play golf and the current proposed changes will not only dishearten my family and me, but also other families like us.

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Organised recreation - space for organised sport or clubs, Other - please specify: I want to see a golf course

7. Which Park lease approach would you prefer?

Unsure

Tell us Why

On one hand the council have shown that they respect and under the need to maintain a golf course. However, they have surprisingly out of nowhere decided that they want to improve the wet lands. However, a golf course offers a good land source to allow for wetlands. I also don't want to vote for someone like golf warehouse to take ownership of the land.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Yes I think you need to keep an 18 hole golf course there. You can't have anything less than that because you'll put too much strain on the current eco system of golf clubs in Auckland. You have already lost Golf Harbour in the area and nothing has replaced that.

Basketball is one of the fastest growing sports in the country. Both Me and My brother have played basketball at this stadium. I played in the harbour championship there. By killing the other recreational sports held there, you will severely limit the access to good gymnastics and basketball courts, in favour of a lesser popular sport primarily played among the elderly. This creates a massive gap in terms of access to sports for the younger generations who tend to prefer high speed or explosive moment sports, along with shifting a more global focus of getting our youth to play sports towards them not doing anything due to a general lack of available and well maintained courts/ facilities.

4. What type of golf would you most like to see provided at the park?

By leasing the land out, you can cause external struggles that conflict with public opinion, and can cause an increase in price. Keeping it under council control can cause another situation like this in the future, with an ever lower chance of protecting the facilities currently there.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Golf is a sport for primarily the wealthy. As such this area should not be used for this purpose, but instead be used for cheaper sports that require very little equipment and can be played with a larger population (E.G. younger people, teenagers, adults, and the elderly), Rather than the elderly who tend to be more drawn to this sport.

Takapuna Golf course is the most busy course in nz. There already is a shortage of good facility in Auckland. A good option would be the Golf Warehouse proposal for full 9 or 12 hole course, plus 9 hole par 3 course, golf range and mini golf course. This covers a wide range of needs for beginners and families etc. also leaves room for other facility

A balanced mix of golf and other recreation uses

Tell us Why

My children both train competitive gymnastics several nights a week at Eventfinda Stadium and have for the past 5 years. There are limited clubs in Auckland that can train at this level and only one on the North Shore. In my gymnastics must be one of the sports that is included in this plan. The gymnastics club occupies half of Eventfinda stadium and this building MUST be included in the chosen plan to provide the kids with access to the sports it houses.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

The Eventfinda Stadium is governed by The North Shore Events Centre Trust Board. The facility has been under the stewardship of this board ever since the North Shore City Council sold the venue to the Trust. This is a great example of how a mixed model can work very successfully. Our mission is clear and unwavering: "To create spaces, places and experiences that foster and enhance the mana of our communities"

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

We need to make sure that people have the opportunity to access this space while maintaining the access for the sports currently using the space.

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

If the size of the existing golf course is diminished, it is unlikely there will be any opportunity for it to be reinstated in future. It need to stay as a full 18 hole golf course with driving range.

4. What type of golf would you most like to see provided at the park?

Other, please specify: Retain the affordable existing 18-hole traditional golf course, and look for other wetlands/stormwater options. for

5. What other type of recreation would you most like to see provided at the park?

Other, please specify: Leave it as a golf course, if people want to walk they can play golf

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Organised recreation - space for organised sport or clubs, Other - please specify: One of the outstanding features of the affordable golf course at AF Thomas Park is that every time you go to play golf you may meet up with complete strangers of diverse backgrounds who are all linked by a passion for golf, for whom golf is a common denominator and conversation starter. Golf provides community for so many.

7. Which Park lease approach would you prefer?

Keep all land under Council control

It may not be the most salubrious golf course in the country, but Takapuna Golf Course is public, it is affordable, it provides what is becoming an increasingly unique recreation opportunity that will never be recovered if it is compromised by reduction in size and purpose. It should remain in Council hands for continuity of care and management.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I strongly believe the best recreational use for AF Thomas Park is to remain as the home of Takapuna Golf Course in its current form. Being a public course, countless numbers of golfers from all backgrounds and abilities have been able to (and continue to) experience the joys/woes of the game, within the framework of an affordable and well managed community facility. If the course is reduced, it will be a tragedy that will be impossible to redress.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Retain the full 18 hole golf course at all costs.

The flood prone land in Milford and Wairau valley needs to be repurposed and no longer used for housing. The would mean making the changes proposed are not required as water can be dispersed over the new open land that is reclaimed when the unsuitable uses for flood plains (e.g. housing) are removed.

I grew up playing golf at the Takapuna Golf Course and its known as the easiest course to start learning the game. The area for me will always remind me of Golf and anything else would be an upset to thousands if not more that use the facilities there.

It would be good if GW comes in and offers top notch facilities to help NZ golfers advance in this sport by providing practise facilities, training from pro NZPGA golfers etc. This will help us make another Lydia Ko for NZ.

Once it's gone it's gone. You never want it to be used for any other purpose and lost to the community.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

It's an oasis in a concrete jungle. Do not allow it to be used for anything that doesn't allow the community to use it in a recreational sense.

Auckland is in dire need of more indoor courts - for basketball and volleyball. Basketball is the fastest-growing sport in NZ and at the moment, we have small kids playing at 8pm because there are so many teams and not enough courts! Let's look ahead to the future and use this opportunity to create more capacity for kids to play indoor sports like basketball, volleyball and gymnastics at a central location

Basketball is way more popular than golf, and Auckland has barely any good high quality basketball courts. The biggest arena we have is Bruce pullman, but that's an hours drive away, cities like Tauranga, palmy, and Wellington all have way bigger stadiums, some even council run

More indoor stadium (use).

Indoor sports (etc basketball and volleyball) have had massive growth. Currently Harbour Basketball is at capacity for venue space meaning some kids at schools are unfortunately having to miss out. The North Shore deserves better facilities given the number of schools and children in the region.

You're wanting to transform the park into a facility for people to enjoy, a space for families to come together, when both NHG gymnastics and the stadium next door already do that. There are other golf fields, why strip kids of the only place that offers gymnastics on the shore, and has consistently sold out their recreational classes for the past five years?

As for the competitive rhythmic gymnastics club there, there is no other indoor centre which can provide the height of a building they in order to train properly. During a routine, they incorporate risks (or throws) with the apparatus, and perform a series of rotations (such as walkovers, illusions, forward rolls, cartwheels), usually 2-4 rotations under the risk, which the height of the building is crucial to let them train their skills and routines efficiently. These are gymnasts which represent NZ internationally.

4. What type of golf would you most like to see provided at the park?

Other, please specify: A compromise of the 18 holes they now have, to something the more traditional golfers can still enjoy but also gives space for what the council proposes

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Other, please specify: How about just keep the current centre rather than rebuilding another 'Indoor Sports Centre'

Basketball has exploded in popularity in recent years, and I am having to play my senior mens basketball at 9.15pm on a work night, half-a-dozen times a season. We desperately need more than the 4 courts Eventfinder Stadium provides. Perhaps 6 - 8 courts minimum would be great.

I dont really see the appeal for it to be a golf course, and though it would cut cost and just be easier for people to just sell it to some rich person who would want a really big golf course, I really like already as I have some of the best memories in the stadium and I know alot of other people who do as well.

Due to changes of weather in last years, with lot of rain, I believe more indoor facilities to play sports are more realistic. Also create facilities for different sports(basketball) to give more youths chances to play and stay active. Schools find hard to schedule games because of lack of spaces due to increase numbers of requirements each year.

This is the most used golf course in New Zealand and provides affordable access to all. This includes those use it as a park for general recreation. Keep the 72 hole course and find better ways to incorporate the wetland/stormwater to fit within the course structure. i.e. a world class water based course. The fact you are suggesting to add more concrete/buildings through indoor sports is ridiculous.

You need to continue to provide the community an affordable venue like Eventfinda Stadium that supports smaller events and minority sports like basketball and gymnastics to have a home that they can afford to keep these sports accessible to children. The stadium also supports/hosts smaller events that are by their nature more accessible for small business to 'show at' and support growing the local economy.

The current utilisation with golf, eventfinda, team and individual sports in and around the park are excellent. There shouldn't be major change to the use of the land.

Amending for floods is fine - but ensure the areas where flooding and control are located can still be utilised as multi purpose

With the growing popularity of basketball the North Shore is seriously under supplied in court space. A lot of current indoor sport space now having to be utilized is old and prone to leaks and moisture through the winter months. This is the only public 18 hole golf course on the North Shore. Where do you think people are going to go to learn to play golf? There is enough unused land on the golf course that could quite easily incorporate flood planes without destroying the golf course. The council have already taken enough land from the original Golf course.

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

This is a one in a lifetime opportunity to use the AF Thomas Park land to alleviate flooding become the new home of EventFinda stadium whilst still accommodating golf and also providing much needed spaces for other sports.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range, Short-game practice area / putting green, Indoor golf simulators

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Outdoor sports courts (e.g. basketball, netball, pickleball), Other, please specify: Relocate eventfinda stadium to this land

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Organised recreation - space for organised sport or clubs, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

So we can actually get some new facilities built quickly. If we wait for council funding it will never happen

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Very keen to see eventfinda stadium relocated to AF Thomas Park. It can't stay where it is due to flooding

1. How do you or your household currently use the park?

Play sport at Eventfinda Stadium, Attend events at Eventfinda Stadium, Other, please specify:
Attend North Harbour Gymnastics several times a week

2. How often do you use the park?

Every day or most days

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

I want to see a balanced mix of recreation, but the absolute priority must be protecting and securing a permanent, flood-resilient home for North Harbour Gymnastics and the wider Eventfinda Stadium community. As a mum, I've watched my kids spend countless hours here, learning discipline, courage, and joy through gymnastics. This stadium is not just a sports hall; it's the heart of our community.

North Harbour Gymnastics is Australasia's largest club, serving over 6,000 North Shore residents every week. That's 3,000 families plus schools, dance groups, holiday programmes, and diverse-needs programmes who rely on this facility daily. Alongside gymnastics, the stadium is a hub for basketball, bowls, archery, school events, cultural celebrations, and fundraisers. It needs to stay that way.

I still see a place for golf in the redeveloped park, but we must be realistic. With wetland and stormwater works reducing available land, a traditional 18-hole course won't fit. Alternative golf options (short-course, driving range, or family-friendly mini-golf) could be provided in the space available.

The right mix is one that protects what we already have: a thriving, multi-sport, multi-event hub that serves thousands every week, while adding recreation options that fit the new landscape. If we don't secure Eventfinda Stadium, the North Shore risks losing its only large-scale venue for sport and community connection.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par)

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Organised recreation - space for organised sport or clubs, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

I believe the land should remain under council control. This ensures North Harbour Gymnastics and other community groups have a safe, flood-resilient, and permanent home. Council control guarantees affordability, inclusivity, and flexibility for future generations, aligning with Kaipātiki's priorities for wellbeing and resilience.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I'm 48 years old, I live here on the Shore, and like so many families, my life has been shaped by the hours spent inside Eventfinda Stadium. It's not just a building to me, it's where my kids learned resilience through gymnastics, where neighbours cheer each other on in basketball, and where our community comes together for bowls, archery, school events, fundraisers, and cultural celebrations. It's our gym, our gathering place, our heartbeat.

That's why the final recreation plan must include provision for a new, elevated, flood-resilient Eventfinda Stadium. We have a practical solution right in front of us: use the earth already being moved for wetland works to build a raised platform, and set aside part of the recreation area so this project can go ahead.

This approach isn't just emotional, it's smart:

- It reuses material already being shifted for flood protection.
- It safeguards critical community infrastructure instead of forcing us to rebuild later at greater cost.
- It secures a permanent home for North Harbour Gymnastics, Harbour Basketball, and all the other groups who rely on this site.

If we don't protect this stadium, we risk losing the North Shore's only large-scale multi-sport and event venue. That means no safe home for our kids' competitions, no space for schools to gather, no place for the fundraisers and celebrations that knit us together.

By integrating a raised, flood-resilient stadium into the A.F. Thomas Park plan, Council has the chance to secure recreation for generations, and to show that Kaipātiki values its people, its wellbeing, and its resilience.

Please, save our gym. Save our stadium. Save the heart of our community.

3. What mix of recreation uses would you like the park to provide once redeveloped?

A balanced mix of golf and other recreation uses

Tell us Why

As a father, I want to see a balanced mix of recreation in the park, but the most important thing is protecting and securing a permanent, flood-resilient home for North Harbour Gymnastics and Eventfinda Stadium. My children have trained in gymnastics here, played basketball with their friends, and attended school and community events in the stadium. This venue is not just a sports hall, it's where kids learn resilience, teamwork, and confidence, and where families come together.

North Harbour Gymnastics alone serves over 6,000 North Shore residents every week, alongside basketball, bowls, archery, school events, cultural celebrations, and fundraisers. It must remain the heart of our community.

I still see a place for golf in the redeveloped park, but with wetlands and stormwater works reducing available land, a traditional 18-hole course won't fit. Smaller, family-friendly options like a short course, driving range, or mini-golf would work better.

The right mix is one that protects what we already have (a thriving, multi-sport, multi-event hub) while adding new recreation options. If we don't secure Eventfinda Stadium, the North Shore risks losing its only large-scale venue for sport and community connection, and families like mine will lose the place where our children have grown, played, and dreamed.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Pitch and putt golf course, Driving range, Mini golf

5. What other type of recreation would you most like to see provided at the park?

Indoor sports courts (e.g. basketball, netball, badminton, gymnastics), Open space / picnic area, Sports fields (e.g. rugby, soccer, cricket), Walking / cycling tracks, Other, please specify: NHG Gymnastics (an even larger facility)

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse range of experiences the whole community can enjoy, Open space - space for free play and relaxation, Organised recreation - space for organised sport or clubs, Safety - providing a safe environment for play, sport, and relaxation

7. Which Park lease approach would you prefer?

Keep all land under Council control

Tell us Why

The land must remain under Council control. It's the only way to guarantee that North Harbour Gymnastics and all the other groups who rely on this place have a safe, flood-resilient, and permanent home. Council stewardship ensures affordability, inclusivity, and flexibility so that future generations (our kids and their kids) can keep using this space without barriers.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

My daughter has a bright future in gymnastics. She proudly represented North Harbour last year and again this year as the youngest female athlete. For her, and for so many other young athletes, North Harbour Gymnastics is more than just a training space, it's where dreams are built.

If Eventfinda Stadium is not raised and protected from flooding, those dreams are at risk. Losing this venue would be like tearing away the foundation of her future and the futures of thousands of children who train, compete, and grow here every week.

We need a secure safe, flood-resilient, and permanent home for North Harbour Gymnastics and the wider stadium community. Please don't take this away from her, or from the generations of

young athletes who will follow. Give them a safe home where they can keep striving, competing, and representing our community with pride.

I've used Eventfinda Stadium for basketball games, school events, and community activities. My sister spends almost every day here training gymnastics, this place is like her second home. If you take it away or don't protect it from flooding, it would be so painful for her. She's worked so hard, and she has a bright future in gymnastics. Losing the stadium would feel like ripping away her dreams, and it would hurt so many other kids too.

I think the park should have a mix of recreation, but the most important thing is keeping North Harbour Gymnastics and Eventfinda Stadium safe and permanent. Thousands of kids and families use it every week for gymnastics, basketball, bowls, archery, school events, and celebrations. It's the heart of our community.

Golf can still have a place.

The right mix is one that protects what we already have, a stadium that gives kids like my sister a safe home to train, compete, and dream, while adding new activities that fit the space. Without it, the North Shore would lose its only big venue for sport and community connection, and my sister and so many others would lose the place that means everything to them. Maybe a bike track so I can ride my bike while she trains.

4. What type of golf would you most like to see provided at the park?

I'm only a teenager so I don't really know much about how all this works, but I do know that places like Eventfinda Stadium and North Harbour Gymnastics need to stay affordable so kids like me and my sister can keep using them. If the land stays under Council control, it feels like the best option because it means more families can afford to come here, not just the ones with lots of money.

My sister spends huge amounts of time training gymnastics, and I play basketball and go to events at the stadium. If it wasn't affordable, we wouldn't be able to do these things. So even if I don't understand everything, I think Council control makes the most sense, it keeps it fair, safe, and open for everyone.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I love playing football and futsal, and I'd really like to see spaces for those sports in the park, as well as safe tracks for riding my bike. But more importantly, the gym has to be raised and protected. My sister spends huge amounts of time training gymnastics there, and I've seen how much it means to her and to so many other kids.

When the flooding happened, I saw the devastation and the impact it had on families and athletes. It was heartbreaking. If the stadium isn't made flood-resilient, we could lose the only place that gives thousands of kids a safe home to train, play, and dream.

The right mix of recreation uses should include football, futsal, biking, and other activities, but the top priority must be securing North Harbour Gymnastics and Eventfinda Stadium. Without it, we risk losing the heart of our community and the future of young athletes like my sister.

I'm 10 years old and North Harbour Gymnastics is like my second home. I go there all the time, and it's where I've learned to be brave, to keep trying when I fall, and to feel proud when I finally get something right. My friends are there, my coaches are there, and it's where we cheer each other on.

If we lose Eventfinda Stadium, it would feel like someone ripped the heart out of young athletes like me. It's not just a building, it's where thousands of kids and families come together every week for gymnastics, basketball, bowls, archery, school events, and celebrations. It's where we grow up, where we make memories, and where we feel part of something bigger.

I think the park should still have golf, but it doesn't need to be the big 18-hole course anymore. There are fun options like mini-golf or a driving range that would fit better with the new wetlands. What matters most is keeping our stadium safe and permanent, so kids like me don't lose the place that makes us feel strong, connected, and alive.

The right mix of recreation is one that protects our stadium first, because without it, the North Shore would lose its heart, and so would we.

7. Which Park lease approach would you prefer?

It's really important to me that our gym stays safe and doesn't get flooded, because it feels like home. If the land stays with the Council, it means kids like me can keep coming here without it costing too much, and everyone can join in no matter who they are.

Council control means our gym, and all the other sports and community groups, can stay here forever. It makes sure the stadium is strong, fair, and ready for the future, so kids now and kids later will always have somewhere to play, learn, and belong.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Gymnastics is my dream. If the stadium floods and we lose it, I won't have a safe place to train. It would feel like someone took away my future.

This is where I grow. Every time I practice, I get stronger, braver, and more confident. Without the stadium, I wouldn't have the chance to keep improving.

It's where my friends are. Gymnastics isn't just about sport, it's about friendship. Losing the stadium means losing the place where we cheer each other on and celebrate together.

It's our heart. Eventfinda Stadium is more than a building. It's the heart of our community. If it's not raised up and protected, it's like ripping the heart out of young athletes like me.

We need it for the future. I want to keep training, competing, and maybe even represent New Zealand one day. Without this stadium, kids like me won't have the chance to chase those dreams.

Attached is me competing at this year's New Zealand Nationals as the youngest female gymnast representing North Harbour. Don't take this away from me.

There are so few opportunities to create a purpose-built multi-sport facility in such a convenient location. We should be making this facility available to as many sporting codes as possible. 7. Which Park lease approach would you prefer?

Amateur sports clubs should be able to apply for community licences to deliver their sports at AF Thomas Reserve without having to factor in the costs of a commercial lease when encouraging members of the public to get involved in their sport. This approach would also allow sharing of sports facilities on a non-exclusive basis where it is practicable to do so, ensuring accessibility to the widest segment of the population possible. In some cases, a lease of small areas of land might be most appropriate.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

We would like to see the development of a purpose-built canoe polo facility, similar to the one located at the Mitre 10 Sports Park in Hastings: <http://www.canoepolohb.co.nz/CanoePoloAquaticFacility>

Our NZ women are world champions. Hawke's Bay has hundreds of school teams playing canoe polo while Auckland has only a handful of youth players due to the absence of a suitable facility. The facility would require 5,000-7,000m² of playing area (including refereeing pontoons) depending whether it is a four-court or six-court venue (each canoe polo court is 35m x 23m). Auckland would then be able to host regional, national and even world class canoe polo tournaments as well as introduce generations of new players to our sport. The facility could potentially be built in conjunction with the planned stormwater improvements, making use of the planned wet areas. This would require a minimum depth of 900 (preferably 1.2 to 2m deep). Alternatively (and preferably), it could be built separately in the recreational area and potentially used for irrigation of other sports fields, as is the case in Hastings. This would provide a more feasible way to access canoe polo in Tāmaki Makarau than would be the case with building another indoor aquatic facility to accommodate us.

I strongly support including a permanent, elevated, flood-proof home for North Harbour Gymnastics in the A.F. Thomas Park plan. NHG is a major community sport provider on the North Shore, and the current Eventfinda Stadium site is no longer viable due to ongoing flooding.

Gymnastics can't simply move into any hall — it requires specialised space, and without a new facility the long-term future of the club, and the opportunities it provides for thousands of children, is at real risk.

A.F. Thomas Park is the best chance to secure a safe, future-proofed home for gymnastics alongside other indoor sports. Please prioritise NHG in the final plan so future generations can continue to train, compete, and belong.

Alternative measures to mitigate the flooding in the Wairau valley resulting from the long term council negligence and failure to invest in adequate stormwater infrastructure have been tabled. Most of these result in the same outcome for Wairau but without the need for the major impact to the current state of A F Thomas park. Regardless of the options, council appear to be running to an alternative and concealed agenda. This short term fix, rezoning and restructure opens the door for the move from a public park onto a multi development area, including development of high density housing in the near future.

What other sport can be played together by people of any age, culture, gender or ability.

A 5 year old can play with/against a 95 year old. A professional can play with/against a beginner etc etc. Participants can socialise whilst competing, and complete strangers can play with each other. Golf has become and should continue to be affordable. Authorities should be looking at ways of expanding and not shrinking these opportunities. There are important health, social and environmental benefits associated with playing golf. It also gives wildlife a place and opportunity to thrive.

Golf is an incredible sport for the well being of individuals. It provides a sporting option and competitive outlet for older (35+ yo) sportspeople who can no longer play as they did in younger days. As we get older its important to maintain a level of fitness for our physical wellbeing. Sitting on the couch should not be an option after you finish your younger sports.

The Covid lock down proved to NZ how important golf is. People realised how important it is to get outside for 4-5 hours in the fresh air for recreation, just a time to get away from it all and the social aspects. Golf provides all of this. Golf participation has flourished since Covid, because people now see its benefits and importance to personal health.

Takapuna Golf has provided a gateway to the sport for many Aucklanders over a long period of time. It helps get people into a sport that lasts a lifetime. With golf at Auckland's only other municipal course, Chamberlain Park, reducing, Takapuna Golf becomes even more important. If Auckland considers itself a positive modern city we must retain and even grow our recreational spaces. For a city like Auckland having only 1.5 municipal golf courses is poor. If

we lose Thomas Park to Housing or wetlands we will never get it back for recreation. Auckland needs to build on NZ's green image by developing MORE recreational parks, not losing them, and the best way to do that is retain what we have..

Keep it full golf. Wetland and stormwater works should be replanned to fit in a space that does not impinge on the golf course. It's a great green space for the North Shore and allows access to a full 18 hole golf course for those who can't afford the exorbitant fees charged by private clubs. Golf is great exercise and doesn't put too much strain on the body - an excellent choice for young people, especially recovering from other sports injuries and also older folks. It's a good social interaction with players getting to know strangers

Golf in Auckland is reserved for the rich and privileged. Although as a council you think golfers can just go to other courses they actually can't. They are all full or too ***** expensive.

4. What type of golf would you most like to see provided at the park?

9-hole traditional golf course (35-36 par), Driving range, Other, please specify: I believe a 9 hole and driving range would be good. But you must let the current people who run and look after the land continue to do so as they have looked after it for so long.

The golf course is the most affordable in Auckland and is well looked after by a very pleasant organisation. The popularity of the course, particularly with young golfers and older folk is an obvious indication of its value. Close a quarter million people use this course each year, this would out weigh any other potential usage of the area. The course have offered a drainage proposal that appears to provide the same level of stormwater protection that the proposed wetland would accommodate. The golf course would also maintain their proposed drainage system, whereas past performances would suggest that Council are unlikely to provide effective management of a wetland.

It would seem that Council have already made up their mind that a wetland is the only way forward, whereas this should not be the case.

It would seem have yet to see or read why Council believe that the Golf Corse drainage option is not a a viable solution!

Tell us Why

Eventfinda Stadium is an important place for families like ours who regularly attend youth basketball games and community events. Having access to additional space at the stadium would greatly benefit our community by creating more opportunities for sporting and recreational activities.

Expanding its use would not only support our children's development and encourage healthy, active lifestyles, but it would also help attract a wider range of events to the Shore. This would bring more visitors, increase local participation, and generate additional revenue for nearby businesses. In short, opening more space at the stadium would strengthen community engagement while providing positive economic benefits for the area.

Tell us Why

If it is all under Council control then it is all under the watchful eye of the public as well.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

We have a real opportunity to turn this wet land into an international standard ecosystem which could also increase tourism to the area. The elite, separatist game of golf and its players can afford to shift, but with the increase of high density living and commercial properties the natural environment needs to be thought about. We have already seen the effects of the flooding, the flooding which wouldn't have happened if the water had somewhere to go.

this golf course is the most popular course in the whole of New Zealand.

it is a place where all ages can play a game especially as this is an opportunity to play casually without having to join a club where fees are expensive if one is unable to play weekly to justify the annual outlay. It is still an area for exercising dogs and for walkers if they keep in mind their safety and respect for players.

3. What mix of recreation uses would you like the park to provide once redeveloped?

Mostly golf with limited other recreation uses

Tell us Why

Takapuna golf course provides a very rare entry level course and cost to anyone wanting to try golf, play socially and take their children to experience golf. Once this asset is lost as a golf course there will be no chance at recovering it. Whilst I appreciate other recreation facilities and value their importance, a lot of other types of recreation can be accommodated easily and such able to find other areas for them to be provided

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par)

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Certainly keep ownership of land in council hands as such a vital piece of land for the community. A hybrid approach of council concealed and commercial lease could help achieve both options benefits

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

There are very few public golf courses in Auckland and this is the only one on the North Shore that I am aware of. It should be kept available in some form for public use.

4. What type of golf would you most like to see provided at the park?

12-hole beginner/intermediate golf course (approx. 36-40 par), 9-hole traditional golf course (35-36 par), Driving range

This is the only public golf course of any note left in Auckland. You should take into account the significance and history of this course. By destroying its 18 hole ability you are denying current and future generations the pleasure this facility offers the general public. There are alternatives, you should be seriously considering these. This is a good example of the bad governance we are seeing in this country. When the next flood comes and your scheme does not work what will be your excuse.

The current lease holders seem to be making a good living . The facility is well used.

The golf course attracts a number of players, the other courses around this area are either too expensive to play or too hilly for a non regular /beginner/casual golfer. It's important to maintain the facility. BUT at the same time if it can be reframed (potentially a short course) and incorporate other outdoor activities using the parkland then that's a win.

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

I don't want to pay extra in rates for a facility that I will rarely use and I think that corporates and organisations should be able to purchase a share in the land and develop it potentially for members or visitors. They would gain by getting membership fees, the council would gain from being able to utilise some of the land for flood control and ordinary people can still use the land.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Would hate to see it become another suburb, that would be the worst use of the land. Make it flood control with walking tracks or something but no new suburb.

5. What other type of recreation would you most like to see provided at the park?

Lawn bowls, Nature play / playground, Off-leash dog exercise area, Open space / picnic area, Walking / cycling tracks

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Connectivity - walking and cycling connections through the park that link with the wider community, Equity/Inclusion - a diverse

range of experiences the whole community can enjoy, Nature - protecting or enhancing the natural environment for people and wildlife, Open space - space for free play and relaxation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

Council maintaining some reasonable control is crucial, I believe. Other uses could contribute reasonable fees to assist with maintenance costs - that would include golfers, of course

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I believe that the current golf course should be retained as is. Once the proposed land take for storage of water is taken it can't be returned to its current layout. I think there should be a delay of at least 5 years to see if there is flooding like the extra ordinary flooding in 2023. If there is then the proposal put forward by the Warehouse should proceed

Tell us Why

My answer is a mix of "mostly golf" and spans into "balanced use". The rationale is that the primary objective of this exercise was for flood mitigation and buydown of risk. It should not be an opportunity to unilaterally repurpose the entire area, Also given that the council relies heavily on funds from its current tenants, that should remain a key (and critical decision). Whilst we could sit here and create a wish list of "all the things"... these would likely no longer be a "must have" for the community if a user pays model is required. Similarly would be the case if corporations were invited in and branding showed up everywhere.

The current set up where this is a natural beautiful greenbelt (with minimum building and infrastructure) has retained the beauty of NZ in an urban environment. Whilst the Auckland council is *****-bent on building us out into oblivion (with all the urban intensification mandates), it is absolutely critical that we protect these gorgeous havens of natural beauty and nature whenever we can. Whilst 'golf' appears to have a bad reputation for some.. I personally love seeing these these gorgeous well maintained, well cared for greenbelts. You can see they genuinely care about maintaining a standard, and they tend to the land and all that surrounds it. I truly hope that whatever happens... this is maintained for the North Shore.

Its Councils responsibility to provide a flood retention area to reduce flooding in the Wairau Valley area. I also think the old Abilities site (that was burnt down) into another flood soak park as this is at the foot of the "old@ Wairau river. More areas in the Wairau Valley should be developed like this. There is too many hard services and the culverts need to be improved to modern standards - never been done since I've lived / worked in the area since 1961.

AF Thomas Park reclamation is only part of the bigger flood prevention picture. Congratulations to AC for tackling this problem.

Mostly golf with limited other recreation uses

Tell us Why

Golf is becoming more and more popular and this has been an iconic golf venue serving the public for decades. It provides a cheap option for casual and beginner golfers. Whilst the documentation states there are two private courses nearby that is the very point. They are private courses which are expensive to join. There are no other public opportunities on the North Shore. If the land is required as an emergency flood overflow that is fine. It can serve as both whilst still retain the existing 18 holes. It just means some will be out of action while the water clears. Not a permanent elimination. Otherwise, the Council should develop an alternative full 18 holes course available to the public to replace what currently exists. This situation has arisen due to poor town planning so it is Council responsibility to remedy the situation without eliminating existing facilities and opportunities.

4. What type of golf would you most like to see provided at the park?

18-hole beginner/intermediate golf course (approx. 54-60 par), 12-hole beginner/intermediate golf course (approx. 36-40 par), 9-hole traditional golf course (35-36 par), Driving range

5. What other type of recreation would you most like to see provided at the park?

Lawn bowls

6. Whether you currently use the park or not, what do you value most when thinking about the park's future?

Affordability - providing low-cost or free activities, Open space - space for free play and relaxation, Resilience - supporting flood protection and climate adaptation

7. Which Park lease approach would you prefer?

Lease some land and keep some under Council control

Tell us Why

A commercial lease will ensure the land is managed well for sporting activities. Council ownership will ensure rates remain affordable.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Keep it as it is with provision for certain holes tyo flood and be out of action during that flood and draining period.

There are a very limited number of Public Golf Courses in AK that you can walk on to play at reasonable cost. Other courses are expensive to join/play at; and there memberships can be full already. Chamberland Park is similar, and faced a similar proposal and we know how that went for the council proponents.

The Council is the best to operate the land as per the current model' this makes it an affordable option for golf even though it is operated as commercial facility.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

I would like to see it retained as an 18 Hole Course, but with reconfiguration of the certain areas for excess water management. The RNZAF Golf Course on the airfield is a good example of this e.g. mostly dry attenuation ponds. I think the objective here is to be able to hold for slow distribution into the stormwater system excess rainfall is the best option i.e. not creating wetlands where available water retention capacity is already utilised for aesthetic reasons. I think we need to remember, whilst acknowledging climate change and more weather events, this is in a significant part a problem of the Council's own making i.e. in the surrounding Wairau and Glenfield area allowing housing and commercial development that has significantly reduced the amount of permeable land.

It is calculated that 11.5% of NZ adults over 16 have played golf in the last 12 months. Converting the park to other uses is therefore likely to provide amenity for more than 11.5% of adults. There is still 2 other golf courses on the shore for golfers to use.

I believe the golf course is in good use across a wide range of days and times by people in the community and they should not have to lose all of their land due to flooding, it would be a nice opportunity to get others involved in the park's use as a recreational area as well. I am a strong supporter for maintaining the shore Archery range and fully endorse this area not be hindered as the facility is used by many people across different ages and cultures to connect with each other and engage in a sport that encourages outdoor exercise.

Council does a good job at communicating with people already in use of the park and I hope they continue to do this in future.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Please consider keeping the Shore Archery range for those people that spend their own time and money enjoying and maintaining the facilities that are already there. The club is a connector to other parts of Auckland and must continue to remain that way, the council should see this as a great opportunity for people in the broader community to be encouraged to engage in the parks use.

I don't know what sort of projects would be developed on leased out land but there is less and less green areas in Auckland North Shore. Would be nice to keep some large natural habitat areas. If the leased land protects/encourages this then that would be fine. Otherwise, I don't know if more stadiums or the like are necessary.

Mostly other recreation uses with limited golf facilities

Tell us Why

There are already plenty of golf on the North Shore, and we really don't need another golf facility in the middle of the business park. It would take up a lot of land while only serving a very small number of users. Meanwhile, a new flood-free indoor gymnastics and sports facility would serve a much wider part of the community.

North Harbour Gymnastics has been a vital part of our family life. My son loves gymnastics and has made many friends there. I really hope that council can do something to use the earth to raise the platform so that NHG won't be flooded again. Last time when it was flooded, my son missed three months of training and lost his brand new leotard there... Securing NHG also means securing the staff, community and development in sports.

My son first stepped into North Harbour Gymnastics at just four years old, full of curiosity and wonder. Now, at nine and a half, it's incredible to see how much he has grown—not only in skill, but in confidence and joy. North Harbour Gymnastics has been at the heart of our family's life for years. My son absolutely loves gymnastics, and through NHG he has not only grown in skill but also built lasting friendships. That's why it was heartbreaking when the facility flooded—he missed three months of training and even lost his brand-new leotard. For children like him, and for the dedicated staff and wider community, NHG is more than a gym; it's a place of growth, resilience, and belonging. Securing NHG means safeguarding the future of our young athletes, supporting the staff who nurture them, and protecting the development of sport in our community. I truly hope the council can take action, such as raising the platform with earth, to ensure NHG is never flooded again

Public reserves should first and foremost serve the community, not commercial interests. For that reason, I do not believe the land should be handed over to operators whose main goal is to maximise profit from public space. These areas should remain accessible, affordable, and focused on public benefit.

In contrast, the current operators have already proven that they can deliver exactly that. They have maintained an affordable, publicly accessible golf facility for many years and have done so without requiring any financial support from ratepayers. Their model provides recreational value while keeping costs off the community, which is a rare and important balance.

For these reasons, I would like to see the park land continue to be leased to the existing operators, who have demonstrated genuine commitment to serving the public.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

There is also a misconception that golf at Takapuna is an elite sport. In reality, the course is used by more than 200,000 people each year, many of whom rely on this affordable public facility. If these players are displaced and forced to join private clubs—which are already full and far more expensive—most will simply be priced out. This would effectively turn golf into a sport only the wealthy can access, which goes against the principles of equity and community recreation.

- This is one of only two public golf courses in Auckland, so it's crucial to maintain reasonable rates so everyone can play.
- Private golf course memberships are too expensive.

I believe it would be best for this property to remain leased to the current operator.

The current operator has a long and excellent track record of providing affordable, accessible public golf facilities. This arrangement does not burden local residents and eliminates the need for RatePay to incur additional costs in building and operating recreational facilities.

I also oppose public parks being used solely for the sole purpose of generating significant profits for a select few commercial operators. Public lands should be spaces for the entire community, and I believe the current operation best serves that purpose.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

- You can't learn golf properly from a driving range or a pitch-and-putt course alone, just as you can't learn the game from just playing tennis. To continue producing world-class golfers, accessible and affordable courses are essential, and Takapuna Golf Course offers just that.

8. Do you have any other feedback about the future recreational use of AF Thomas Park?

Compared with Australia, I feel sun protection (especially with the hole in our ozone layer in NZ) is often forgotten when any new playgrounds and outdoor facilities are built.

This is truly the only public 18 hole course in North Shore. A great place for the beginner and those who want to start learning golf.

A 18 holes course would keep it as a complete course.

As a golfer, we are already short of playable courses with the increasing amount of golfers joining in

I strongly support keeping NHG Gymnastics at AF Thomas Park. I have been living in Northcote area for 45 years.

My daughter attends to club, it is a valued community facility, and any redevelopment of the park should include a flood-resilient home for the gym.

I support the proposal to use soil from the wetlands project to create a raised platform for a new stadium and gym.

This would protect the club from flooding and ensure it can continue serving thousands of local participants, families.

I ask that the final plan:

- Includes a new, flood-proof Eventfinda Stadium
- Uses wetland soil to raise the gym site
- Reserves space for this development to happen in future stages

NHG Gymnastics is an important part of the North Shore community, and it is vital that its future is secured.
