Your feedback

1. **Firstly, we want to find out what you think of the draft Auckland Golf Investment Plan.**

The draft Auckland Golf Investment Plan aims to ensure all Aucklanders benefit from publicly owned golf land. Do you support this goal?
Don't support

Do you have any comments about your response above? It is quite clearly a loaded question designed to facilitate the closure of golf courses.

Objectives

The draft plan sets regional policy for council-owned or managed golf land and has three objectives. Please tell us whether you support each objective.

2. **Increased equity, sport and recreation by opening up publicly owned golf land to all Aucklanders**
Don't support

4. **Best practice in ecosystem management and biodiversity conservation of publicly owned golf land**
Partially support

Do you have any comments about your responses above? Golf is a huge participation sport and private courses are expensive to play at. Ordinary Kiwis need facilities such as Chamberlain Park, and Takapuna. Omaha is on council owned land. Why not convert that to a public park? Too many rich lawyers, perhaps?

Key shift

The draft plan proposes four key shifts for golf courses on public land to benefit all Aucklanders. Please tell us whether you support each key shift.

Again, a loaded question. Closing golf courses will be a minefield. Best of luck with that. Who not close bowls clubs, tennis clubs and the like.

Quite clearly, there is an agenda here. The council would do better to clean up the CBD, finish what it has started and keep rate rises to the bare minimum.

Key focus will be ensuring they remain green spaces and not turned into residential areas. Auckland needs to retain its parks

Do you have any comments about your responses above? While we need natural green spaces, golf course turf is possibly the least ecologically diverse way of providing that. So if fewer people joining the golf world means fewer demand for actual golf turf in the future (and we could still use these spaces naturally but perhaps with more trees/wetlands etc), I would be happy to see demand for golf die out over time.

I think when considering the land we have invested in golf courses for such a limited number of people, it is a fantastic idea to start making this more multi use

The questions are vague and imply that the Council will stop all golf courses for other activities. I do not play golf but I do know people who do and they would be devastated if any of the golf courses they use were to be taken over for other plans.

Your feedback

1. **Firstly, we want to find out what you think of the draft Auckland Golf Investment Plan.**

The draft Auckland Golf Investment Plan aims to ensure all Aucklanders benefit from publicly owned golf land. Do you support this goal?
Don't support

Do you have any comments about your response above? A golf course is for playing golf; not putting people on the course where golf balls are being hit.

Objectives

The draft plan sets regional policy for council-owned or managed golf land and has three objectives. Please tell us whether you support each objective.

2. **Increased equity, sport and recreation by opening up publicly owned golf land to all Aucklanders**
I don't know

3. **Increased equity and participation by providing a broad range of golf experiences that attract and retain participants and services targeted at low participation groups**
Support

4. **Best practice in ecosystem management and biodiversity conservation of publicly owned golf land**
Partially support

Do you have any comments about your responses above? It is open to anyone who wants to join the club.

Either retain the status or close the club completely

Key shift

The draft plan proposes four key shifts for golf courses on public land to benefit all Aucklanders. Please tell us whether you support each key shift.

5. **Shifting to a robust investment framework that is focused on increasing benefits to all Aucklanders**

Do you have any comments about your responses above? I'm not a golfer, but the green space required for golf courses is necessary for improved well being in the community. I would hate to see the green space reduced as sporting clubs build facilities for their members. Safety issues would need to be addressed too; being hit by a high speed golf ball is going to ruin your day.

I'd like to see a greater range of ecosystems encouraged on and around golf courses; golfers could consider it a bit of a challenge.

Do you have any comments about your responses above? The first policy description is a little vague but I support the sentiment in general.

The second policy description suggests the land used for golf would be opened up to other sports which presumably means fewer golf courses.

Without knowing the details of that policy I only partially support it.

I think, given the amount of land involved, the third policy I very much support.

Each course should be looked at individually.

Chamberlain Park, Pupuke, Waitemata, Takapuna, and GWHDR, should be converted to medium rise apartments on their northern side, with parking underneath. The rest converted into parkland depending on the needs

Do you have any comments about your responses above? As a former sports coordinator across the whole gamut of sport and recreation opportunities available to New Zealanders, I am qualified to answer this from experience. Like many pastimes such as scuba diving, skiing and hang-gliding, golf will only ever attract a small minority of participants from any population.

ratepayers' money is better directed towards activities that can be enjoyed by everyone regardless of age, ability, disability, ethnicity. There is only one pastime that encompasses that, which is aquatics - swimming, water play, walking, aquafitness and a myriad of water sports such as underwater hockey, water polo, artistic swimming, diving etc. There is no barrier to participation except access.

To try to fit a square peg into a round hole by attempting to entice increased participation in golf pursuits, is a waste of ratepayers' money.

In support of retaining some of the land devoted to golf courses and opening this to the general public (how is that achievable whilst games are underway?), there is the invaluable visual amenity that such green spaces afford built

environments, and together with the opportunity for all to recreate outdoors in green space, would achieve other Council wellbeing goals.

I worry that the council will take away open space.

Dread car racing, motorbike tracks. Some sports are not suitable to be operated next to a Golf Club

Now we have a few questions about you and golf. Which, if any, of the following golf formats do you play?

Mini golf	Yes
Starting New at Golf	
Driving ranges	Yes
Golf simulators	
Introductory golf	Yes
Short and fast golf	
Development golf	
Advanced golf	
High performance golf	
None of the above but I would like to play golf	
None of the above	
I don't know	

Other (please specify):

How often do you play golf? I don't know

What, if anything, stops you from playing golf?

The cost / it's too expensive	
I don't have anyone else to do it with	
I don't have enough time / it takes too long	
I don't know where or how to start	
I don't feel like the golf experiences offered are relevant to me	
I don't have the equipment	
It's at an inconvenient time for me	

I feel intimidated / I don't feel welcome	
Transport issues / the facilities are too far away	
None of the above	
I don't know

Do you have any comments about the draft Auckland Golf Investment Plan or this survey?
Please don't take away our green spaces. Agreed we should include running tracks or push bike tracks on the boundary but golf balls at high speed is a deadly mix. So it would require fencing. Crazy golf for kids and family's, and encouraging kids to play

Do you have any comments about your responses above? · €œOpening up ... to all€ is too broad. I think all, including children above a certain age, should have free access to a track around the outside of the golf course - like Hobsonville (I think, maybe Whenuapai) used to - wide enough to include human-powered bicycles. It could begin and end at the same or different places on a public road where less than a dozen cars can park for a suitable time (1 hour?). No dogs, even on a short leash.

· A good initiative; make sure the whole area owned or managed by Council remains open space (including a lot of trees), and is not sold, even partially, to developers.

· €œA world-class city€ requires a wide range of green space accessible to everyone,

Your feedback

1. **Firstly, we want to find out what you think of the draft Auckland Golf Investment Plan.**

The draft Auckland Golf Investment Plan aims to ensure all Aucklanders benefit from publicly owned golf land. Do you support this goal?

Objectives

The draft plan sets regional policy for council-owned or managed golf land and has three objectives. Please tell us whether you support each objective.

2. **Increased equity, sport and recreation by opening up publicly owned golf land to all Aucklanders**
Support

3. **Increased equity and participation by providing a broad range of golf experiences that attract and retain participants and services targeted at low participation groups**
Don't support

4. **Best practice in ecosystem management and biodiversity conservation of publicly owned golf land**
Support

Do you have any comments about your responses above? Seems to me that Golf is a sport of people who have money for it - promoting golf is unlikely to attract those on lower incomes - for this reason I do not support it. That is, the aim in itself is not equitable.

Key shift

The draft plan proposes four key shifts for golf courses on public land to benefit all Aucklanders. Please tell us whether you support each key shift.

5. **Shifting to a robust investment framework that is focused on increasing benefits to all Aucklanders**
Partially support

6. **Shifting to sport and recreation for all Aucklanders**
Support

7. **Shifting to a broad golf service offering across the network that appeals to a wider group of people**

Don't support

8. **Shifting to best practice in ecosystem management and biodiversity conservation that meets clearly defined target**

Do you have any comments about the draft Auckland Golf Investment Plan or this survey?
It is good to survey, but are there not bigger questions, like what IS the council really doing to manage land use in the wider Auckland area? Every time I travel in the area I see more developments which are taking over productive land and which are NOT
