Auckland has MANY sports venues that are under used and would meet the capacity Auckland FC needs, their current proposal doesn't make sense capacity wise.

It's best to keep a world class speedway facility where it is and continue to draw international athletes to Auckland boosting international visitors. This should be a Harrogate site and continue to be used for concerts, Ponsonby rugby and Speedway

Yes, the XDL - Buckley Series will drive both International and Local events to the stadium with a ZERO cost to the council that will better serve Auckland and provide inclusive options to keep Ponsonby Rugby, Speedway and Concerts at Western Springs Stadium.

Western Springs should remain the home of speedway due to its rich history and strong connection to Auckland's motorsport community. The stadium has been the site of speedway racing for over 95 years, since 1929, and has hosted many of the sport's champions. Furthermore, it has a unique atmosphere and a legacy that resonates with local and international racing enthusiasts. And it also backs as a great place for concerts and sports events. Besides we already have Spark Arena. Why would we want another like it?

The option to continue speedway must be considered. It is an icon of Auckland city and needs to remain for everyone to enjoy. It has always been the safest place to watch top quality motor sport for the whole family. To remove speedway is a travesty as it is an institution that needs the chance to remain and become profitable if the right people are running the sport like it was prior to the current council objective.

I think speedway at Western Springs is something that should be preserved as it is a key part of the history of the site, ideally I think a combination of the return of speedway with option 2 enhancing the site as a concert facility would be the best option as I have attended both speedway and concerts at Western Springs and can't think of a better venue for both events anywhere in Auckland. A new stadium seems redundant and a waste of the site as we have stadiums that don't get used much such as North Harbour stadium.

Submission in support of keeping Western Springs Speedway at its historic stadium.

I am strongly in favour of the option that allows Western Springs Speedway to remain at its current home — Western Springs Stadium — where it has operated since 1929. The form does not make the options particularly clear, so I want to be explicit: I am voting for the Speedway to stay at Western Springs Stadium.

I have attended Western Springs Speedway for 26 years — my entire life. It has been a core part of my family's weekend traditions, a vital connection to community, and a unique piece of

Auckland's cultural and sporting identity. Speedway is not just an event — it is part of the history and soul of Western Springs.

Western Springs is internationally recognised for its unique atmosphere and iconic venue layout, attracting top-tier drivers and fans from around the world. It is a purpose-built, natural amphitheatre that simply cannot be replicated elsewhere. Removing the Speedway from this venue would be a loss not just for motorsport fans, but for Auckland's rich event heritage.

The stadium was originally built to host Speedway. It has adapted and evolved over nearly a century to support a thriving community of competitors, volunteers, and supporters. Shifting Speedway away would effectively dismantle that legacy and ignore the generational investment thousands of Aucklanders have made in this sport and location.

There is room in our city for a diversity of sports, cultures, and interests. Speedway at Western Springs coexists with other uses and brings vibrancy to the area throughout the summer months. I urge Council to preserve this unique, irreplaceable venue for its intended purpose and keep Western Springs Speedway where it belongs — at home, at Western Springs Stadium.

Western Springs is of historic importance to the NZ motorsport community through its being the spiritual home of Speedway in NZ. I believe that the proposals put forward that cut Speedway out of the picture at Western Springs are motivated by individual agendas by people in a position of power and disregard the opinions and feelings of a significant portion of the Auckland population. The proceedings to date where incorrect and misleading information about Speedway NZ's position on the venue has been presented at meetings are strong indicators of these agendas.

I particularly oppose option 1. Under this option a small group of multi-millionaires appear to have come in, cherry-picked a location that they want to develop for their own personal agendas and want to force out all existing stakeholders. This completely ignores the history of Western Springs

as both a Speedway venue and concert venue that is unique in Auckland with its amphitheatre and has been the site of some of NZ's most famous concerts. Further, development of yet another new stadium will be to the detriment of other council-owned stadiums, including North Harbour Stadium. It seems ridiculous for the council to support and approve a proposal that will further marginalise the viability of and compete against their own existing infrastructure. The consultation document indicates that these millionaires have disregarded Go Stadium and North Harbour Stadium as options for their development - it should be beholden on them to work with the council to provide something that benefits the entire Auckland community (including those on the North Shore and South Auckland, who will be the largest losers) instead of throwing cash around to get their own way.

I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I work or volunteer at Western Springs Stadium or nearby

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Speedway is very important to the community and it would continue to thrive under proper management by people who actually care about the future of the sport and are able to make decisions based on the communities feedback. Unlike how the council and TAU have handled the process.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

If it's not going to be used for speedway, which would be my 1st choice if it were one, then a music venue would be great. Something like the Brookland Bowl in New Plymouth would be cool for Auckland, as long as event organizers sorted out the bathroom situation. There would need to be more options closer to seating than has been at some events in the past. Acts I have seen here before sounded great and the use of a place we grew up watching speedway, to listen to music would be nostalgic.

The Auckland Council have been saying for a long time that we have too many stadiums in Auckland. And now they want another Stadium that will only serve the rich. The council have a stadium that is underutilized being North Harbour Stadium. Why not give Aili Williams and his group half of the rights to the stadium and let them upgrade it. The stadium that they propose will not hold the numbers that currently attend their games. Where Ponsonby Rugby and Speedway have lived together for a number of years along with music concerts. You have a sport that is 96 years old racing at Western Spring and if it was a building it would have a protected status. 18 1/2

million over 50 years is a small drop int the sea on what is wasted on vanity projects by the Auckland Council. Western Spring is owned by the people of Auckland and NOT a group of Rich individuals.

There are very few entertainment events that can be enjoyed at all ages, speedway is a good clean family event that has created positive memories for generations . Other racing venues do not compare with western springs. Also as a person with mobility issues, I can still attend and participate. Keep speedway at Western Springs.

Western springs is too hard to get to. Give the Williams and mowbray consortium north harbour stadium it's a cheaper option for them and it helps the council with costs. Make them work with nz cricket to develop the outer oval into a test ground that way the stadium can be used for football, rugby, rugby league, concerts and cricket. The ground could be used all year round it's common sense, but time and time again you councilors show you have no common sense whatsoever, hopefully you can find some for this decision.

Western springs has a long history and a reputation of entertaining the younger generation I understand that people around the area have been complaining of the noise created by western springs but I say that they have no say in the future of this historic track as when the track was opened there was not a house in sight there is people that have memories of passed others at that track and it can help to give people in the city something else to entertain themselves instead of just leaving the city for things to do

The North Shore has the AUT Millenium Centre which is a well used community hub, including all the sports and medical facilities. Having a stadium that allows for concerts in summer and sport in winter is a win / win. Finally, the lack of need for public funding where council is already stretched and rate rises are increasing benefits a huge amount of ratepayers whether they use the stadium or not. There are other more pressing needs for council funding.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I do not think we need another stadium. Especially in a built up residential area. I do not think the rate payers want another stadium/bill to pay. I think the Auckland Arena sounds appealing as no cost, but noise and infrastructure issues and just another stadium to make other stadiums more redundant. I think the Bowl idea for music is great, but noise and infrastructure issues along with a ratepayer cost. I think more options needs exploring.

the speedway provides a venue for people to connect and participate in an event that is part of Auckland cultural heritage for many years. Also the speedway doesn't disrupt the neighbourhood with the racing and many people would find it difficult to travel to South Auckland.

I have chosen option 3B for a number of reasons; reasons which I have included in a written submission (as a supporting document).

Future use of Western Springs Stadium – Written Submission

I have chosen option 3B - "Neither Option 1 or Option 2 – explore other ideas". I have made this decision for a number of reasons as follows:

1. The Auckland Arena Option is not fit for its intended purpose, does not fit within the surrounding landscape and environment, seeks to benefit more so the private operators than the community it is said to serve, and already discriminates against/displaces minority community user group.
    a. A 12,500 seat stadium is far too small to accommodate Auckland FC, or any other larger scale sports match, defeating the purpose of its construction.
    b. Auckland FC for example reached capacity at Go Media Stadium in October 2024 with 24,492 people attending – double the proposed capacity for Auckland Arena.
    c. From the Tātaki Auckland Unlimited website – "An incredible total of 235,316 people attended 13 Auckland FC home games at Go Media Stadium during the 2024/25 A-League regular season". That's an average of 18,000 people per game, or 50% greater than the proposed Auckland Arena capacity (I number expected to rise as Auckland FC popularity increases).
    d. Go Media Stadium or Mt Eden Stadium are the only plausible stadiums capable of hosting such large crowds, and as such should become the home of Auckland FC in the future.
    e. It will destroy the unique natural green amphitheatre landscape feature of Western Springs which is of historic and unique significance to the area. This amphitheatre has seen the largest concert ever played in New Zealand. David Bowie's Serious Moonlight Tour concert at Western Springs Stadium in Auckland on November 26, 1983 drew an estimated 75,000 fans.
    f. It will decrease greenfield and open air space and amenity in the centre of the city, and replace it with concrete, asphalt and buildings. Incidentally increasing stormwater runoff load on the fragile Western Springs drainage, and increasing heat retention (concrete, asphalt), which are areas of concern in the face of climate change impacts in Auckland city.
    g. While marketed as a community centre, Auckland Arena would be a commercial operation that would prioritise profit and repayment of its investment over the needs of the community. It would mean restricted access, steep hireage fees, limited availability and places uncertainty around community event usage.
    h. A 100 year lease to a commercial operation removes democratic community input over the area for the next 100 years.
    i. Inheriting a stadium and facilities at the end of a 100 year lease, once they have been exhausted by a commercial operation seems more a liability than a benefit.

j. Western Springs Speedway, as a minority community user group with 96 years of history, fostering motorsport legends on the global stage such as Shane van Gisbergen, is unjustly being evicted, potentially with the purpose of constructing Auckland Arena, a commercial operation.
k. The Ponsonby Rugby Club, with 150 years of history, fostering players for the highest level of our national sport, the All Blacks, would be displaced for the purpose of constructing the Auckland Arena, a commercial operation.

2. The Western Springs Bowl Option, overall a better option than the Auckland Arena, fails to capitalise on the wider economic and community benefits of existing user relationships.
    a. The Ponsonby Rugby Club has co-existed with speedway at Western Springs since 1997 (27 years), and both user groups have an understanding of the systems to continue the relationship for another 30 years.

3. The current public consultation of the "Future of Western Springs" has arisen after a flawed Auckland Council decision making process which voted to relocate Western Springs Speedway to Waikaraka Park; a decision which has since been shown to be fraudulent, mishandled and lacked consultation and insight into the sport and its compatibility with Waikaraka Park.
    a. The design of Waikaraka Park is simply not fit for purpose for Western Springs Speedway race cars; and the decision to combine both racing styles (potentially dangerous consequences for drivers) highlights the utter lack of insight/understanding shown by the Council in its decision making process as the two forms of racing style are non-compatible.
    b. I point Auckland Council councillors to the Western Springs Speedway Association and their serious and valid arguments/evidence to re-examine their eviction from Western Springs.

4. Another option for the "Future of Western Springs" sees the strengthening of current relationships, and further development of the functionality and historical use of Western Springs for multiple community groups.
    a. I suggest the integration of Western Springs speedway into the "Western Springs Bowl" concept, i.e. include Western Springs speedway as a user group alongside The Ponsonby Rugby Club, a community hub, and a music/festival venue operator.

b. Western Springs Speedway has demonstrated over the last 96 years that it can adapt to the environment and demands around it while remaining at its internationally acclaimed home. It has met noise limits imposed by council for example, has co-existed with The Ponsonby Rugby Club for 27 years, and has worked around dozens of large scale concerts held at Western Springs amphitheatre, including the largest concert in New Zealand played by David Bowie in 1983.
c. Through consultation with Western Springs Speedway Association, and appropriate design, a large stage, upgraded stands and other infrastructure can all be built to achieve a permanent music/ festival venue, community hub, and rugby club, all while allowing Western Springs Speedway run.
    i. The artist rendition provided in the consultation document of the "Western Springs Bowl Option" clearly shows the racetrack just covered in grass, showing just how easy it could be to keep the speedway track there permanently.
    ii. A viewing tower for officials and commentators can be included in the stage design.
    iii. The lights can still be used to watch the racing as well as concerts and rugby.
    iv. The race car entry onto and exit off track can be adjusted to suit, under, around or through buildings/stages.
    v. A carpark is all Western Springs Speedway currently use for a pit area and this can be located and modified to suit also.
d. Western Springs Speedway can continue to contribute financially to the operation of the venue and facilities, while the facility can continue to accommodate the Western Springs Speedway racing community.
e. The number of families that currently attend and enjoy Speedway meets, and the number of people who have attended over the 96 years of history of Speedway at Western Springs, is something that should not be underestimated or overlooked.

It is about time the Auckland FC has its own place. Also, the location is well served by transport and is ideal for the venue that Auckland is missing. A full indoor arena might even be better for noise control and weather considerations. But this is a great start.

Why should speedway have to move. It's an international sport venue, that attracts participants from USA, Australia and NZ. But then ACC HATES Al forms of motor sports, and prefers elitist sports for the richer. Rugby and soccer already have a huge selection of venues. Get Williams and his crowd to develop north harbour stadium. Much better venue for soccer. LEAVE WESTERN SPRINGS ALONe.

It appears that both options 1 and 2 would impact other stadiums so nether is ideal from that perspective. I would prefer Option 2 because it preserves natural amphitheatre but large ongoing costs are likely to just grow bigger, not smaller. My choice is Option 1 based on cost to taxpayer.

Western Springs Bowl sounds like it best builds on the role that the site currently fills in the wider Auckland area. The term of a 50 year total lease (vs 100 year) would also appear to be better in that it does not lock down use of the public land to a private interest. While ownership of the built infrastructure is proposed to transfer to TAU at the end of thlease, it seems unlikely that said infrastructure would retain much value at the end of a 100 year period.

As a 78 year old, spent 15 years in the Avondale, New Lynn area and the western Springs Speedway was a regular entertainment venue. The spending a further 13 years with my business in Mt Albert. I could not fathom the protestors of the Speedway noise as most people that complained arrived after the speedway. My heart says option 2, but common sense makes me say option 1 the only thing left out which i think would be need is a railway connection from Morningside to Western Springs that would be included in the private funding. Would be another useful commuter train connection as well to the city

I think it is sad that the speedway was shut down by noise complaints when it was there first. I have fond family memories of attending Speedway and am sad that there is no opportunity for kids today to experience such things. I think a concert venue that is not in Mt Eden or at the waterfront is a good idea, and think Ponsonby Rugby Club should still have access no matter what the option chosen as they have been there for so long. More interested in a music venue than yet another sporting stadium. The one at Upper Harbour is barely used - spread the sport around rather than building yet another sporting facility.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I don't have a direct connection, but I am interested in how the space is used

There are three options to consider

Which option do you prefer? Select one option only.

Option 2: Western Springs Bowl

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

If we can't keep speedway, keep it for the existing sports eg ponsonby rugby.

From what I understand, concert noise at the zoo is incredibly loud so not fun for them.

We also have more than enough stadia with the council already wanting to close North Harbour stadium - paid for by north shore residents. Concerts cannot be held there right beside the bus station

Keep the millionaires out - no to mowbray/Williams stadium. Maybe they'll want to park their helicopter there

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Having been to the Hollywood Bowl for a concert, the venue is iconic and amazing. I have visited Western Springs a number of times for concerts and think it is a great venue but it could become a fantastic, internationally known venue, drawing visitors from abroad as a "go to" place for concerts rather than just another venue.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Seek offers to promote speedway at Western Springs, allow more meetings as there used to be as residents have moved there after Speedway and should have no right of complaint about noise etc, they knew but still bought. Retain concerts, cultural events etc and Ponsonby Rugby Club.

The cost to rate payers is zero. Rate payers still own the land and if at the end of the period the Option 1 is no longer viable financially, or required, the buildings are also owned by the rate payers.

The club itself may not generate as much profit as other organisations but what Ponsonby does offer over any amount of money is the history and the reminder of the sacrifice many men and woman made during the war that were apart of this club. David Gallagher is a Ponsonby man who also fought and died defending New Zealand. Ponsonby is a beacon of tradition, respect and a pillar of hope. I choose option 2

All the options seem to have cost to the ratepayer but no benefit, surely such a valuable piece of ground should be able to generate significant income rather than cost or almost giving it away.

It would be better to return it to wetland and stop the climate change grab on the rates.

Option 2 maintains the current community based feel to Western Springs and is a manageable sized redevelopment. Option 1 is too 'over the top' and risks becoming a white elephant when the crowds don't materialise. Stadiums such as Mt Smart, Eden Park and North Harbour could be enhanced instead of developing a completely new venue.

Both options one and two have merit. It's imperative that the Ponsonby Rugby Club and the concert facilities are retained. Likewise Auckland FC needs a home. Both rugby and football are played on the same-sized pitch. Surely the two codes could work together and come up with a solution that suits everyone: the two clubs and concert promoters. Auckland Council should retain ownership and lease facilities to all the interested parties.

It's the best option from a financial perspective as well as realistic use. It will provide a financially viable alternative to Eden park for Auckland NPC games. Option 2 will never happen and will not attract the big concerts that its business case would need as they concerts will go to Eden Park which has better facilities. Option 3A and 3B are not viable financially.

Cost to ratepayers for a start. The biggest cost to ratepayers - we do not all have a "money tree" in the back yard :(

PLUS - Speedway!! Definitely want this to come back! It's always been a "winner" - SO SAD to see it gone.

Also option 1 "Auckland Arena - why the need for a NEW seating - what's wrong with the current??!

AND option 2 HUGE cost to ratepayers for the most part!

Concerts, Speedway and Cultural Entertainment get the tick from me.

I much prefer to keep things as they are. It would be a real shame to lose a historic venue and all that speedway history along with it. I'm all for moving with the times and improving our city that is Auckland, but at the cost of historic places like Western springs should be off limits and left as they are. After all places like this is what makes Auckland a great city and part of our history that should be cherished and enjoyed as they are and always intended to be. We have already lost Pukekohe and losing western springs speedway as well would be devastating. The memories and experiences will die with this generation and be lost forever if things aren't kept as they are for future generations to enjoy and experience. We don't really know what the future holds for this type of motorsports, there may come a time when technology no longer allows for it but I would

rather keep it going as it is and let it run its corse, let's not be in a rush to change things before there expiry date and enjoy what we have while we still have it!

We need private investment to build a new sports arena. Otherwise ratepayers will need to fund it and priorities should be infrastructure.

Western springs should continue as a world class speedway facility, as it has done successfully for nearly a century. This facility is a jewel in the crown of Auckland and is well known and respected internationally. It works be an embarresment and failure to let this facility be lost to the people and families of Auckland forever.

I believe Auckland Coucil and Aucklanders need to keep a greater degree of control over the venue than is envisiaged in option 1. I am concerned the length of lease proposed in option 1.

I consider option 2 allows use of the venue by a wide cross-section of Aucklanders and is considerably more flexible if needs or circumstances change. I believe the cost to ratepayers when considered on an annual basis per ratepayer quite modest.

Keep things as they are. NZ is in recession and the last thing we need is a stadium. The North Harbour one, built with such great ambition, is struggling, which is sad to see. Perhaps another option can be explored, like making it into a technology park or one where RF toys can be raced etc.

Auckland does not need a stadium, not here, not anywhere. Private funding is quite risky and things collapse etc leaving an even bigger mess behind for taxpayers to pick up. Western Springs Bowl - theoretically ok, but in reality these set ups don't go anywhere. Keep it as is for now and can revisit it in the next plan. A smaller speedway or maybe one with electric racing cars can return there, which will reduce noise/pollution but give entertainment?

Speedway at western springs is an iconic location for many generations of Aucklanders. My grandparents used to sell the herald there, my parents would take me, I have taken my children. There wouldn't be many that haven't at least once attended a meeting over the years, even those that are not motorsports fans, it's just an iconic location/ event that you have to try at least once. I feel all efforts should be used to preserve, upgrade and expand speedway at western springs. It is well known internationally as the home of speedway in Auckland and liked by international drivers, upgrading and expanding the facility will only draw more international drivers and events that will draw in bigger crowds. Keep Speedway At Western Springs!!!

Pros

1. this option would reduce costs on ratepayers and Auckland Council.

2. this provides a mid-tier option for concerts (25,000+ range) with Spark arena capacity at 12,000 and Eden Park substantially bigger at 50,000.

3. a new home for Football would be good for Auckland but also enabling the venue to be multifunctional

4. may encourage more musicians/artist to come to Auckland and New Zealand instead of skipping us all together

5. This option still provides community facilities and would benefit the community

Cons/other comments

1. i think there needs to be a regional strategy for sport and concert venues - Council has reinforced eden park as its main stadium. But what will be done with North Harbour Stadium and Mt Smart Stadium (i know this used for NRL)? Auckland FC could use one of these stadiums and they are closer to the Rapid Transit Network. Do we really need four stadiums in a city of our size?

2. Noise on local residents from concerts may be an issue like it is for Eden Park and may be a constraint on the number of events that can be held at this new venue

No cost to ratepayers but will provide a great venue for AFC and concerts. We need a modern stadium of this size in Auckland. Hopefully more uses for the stadium will develop as

time moves on. What about a cricket ground that can host test cricket?

I personally love the idea of developing Western Springs as a larger concert/festival venue. Having attended events at the stadium before, I enjoyed the ease of transport to the venue, and the size of the space makes it a great candidate for hosting larger concerts and festivals. As Auckland is currently limited with regards to its ability to host larger music festivals and concert events, I feel that transforming Western Springs into a venue with a 50,000-head capacity would increase the number of entertainment events in Auckland, bringing much-needed income to our economy and setting up Auckland to be a premier entertainment city.

the option 1 and 2 are more about the option to profit from sport shops resterants corpateboxes than the game or production itself it also centralises venues rather than sadding value to other areas in the city such as the northshore why does everything have to be on the Auckland side of the bridge as we already have Edan park, mt smart, Go Media, Spark areana, Western springs Alexander park Ellerslie Racecourse ect ect lets invest in other areas Yes the North Harbour stadium with great access via car and bus and is a perfect size for todays Sports

Take the best of both Options 1 & 2 and combine together. Eden Park is already delivering as a large capacity venue for concerts and major sports events and so does Mt Smart.

Go for an option to cater for intimate concerts (like the Hollywood Bowl which is a 17,500 capacity amphitheater servicing a population of 4m people!) and a decent sports stadium. Auckland FC won't stick around with a 12-15,000 seat capacity. That's not progressive thinking!! Go for 25-30,000.

There is no point in having a stadium that seats between 5,000 and 15,000 when Auckland already has Spark Arena which holds 13,000 plus. Also Auckland is not a large city by world standards even if you want it to be, so how many stadiums do we actually need. Also I've enjoyed concerts and even speedway, especially watching young ones learning their sport.

Private development would mean up to 100 years of all the profits going to private developers, otherwise why would they do it? They could then charge what they like which would most likely end up excluding very many locals and just cater for those who are wealthier. Would like to see all of the locals feeling that they can participate in some way in almost everything held there.

I don't have a direct connection, but I am interested in how the space is used

There are three options to consider

Which option do you prefer? Select one option only.

Option 1: Auckland Arena

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Little or no cost to the Auckland ratepayer initially although the proposal seems to good to be true. A boutique sports field which could be used for other sports would be great but we do need a purpose built cricket venue. The option 1 covers most of what Auckland needs and a better accessed venue than Mt Smart. No good having concerts here as the neighbours will complain so lets go with this....minimal cost and good reward.

I would like to see speedway remain at western springs, it has been in Auckland for 96 years and is a speedway like no other in the world and cannot be replaced. I have attended speedway at western springs for 20 years and it has a great family atmosphere. Auckland already has 3 other rugby/football stadiums. Mount smart is a perfect home for Auckland FC

1. Offers realistic future-proofing for fast growing surrounding suburbs.

2. 100% private sector investment means no public/ratepayer costs incurred over the 50 yrs

3. The bespoke 15,000 cap of venue will realistically guarantee fully-booked seats for all. sport/music/entertainment events 12 months of year.

4. Padel courts, martial arts. basketball etc realising a younger demographic and is thoughtfully considering all community sports activities.

5. Hospitality options will be inclusive to all events accommodating the non-corporate and corporate.

Western Springs Stadium is a rightfully treasured part of our city's cultural history. Few Aucklanders will have grown up in this city without accruing memories of events at Western Springs - be they festivals, concerts, playing sport, or watching the speedway.

It should NEVER be handed over to private investors.

Both Options A and B effectively transfer ownership of one of our city's taonga and a key public asset to private groups for periods beyond most of our lifetimes - beyond our childrens' lifetimes in the case of Option A!

In addition, neither Option A or B in any way addresses Western Springs' fundamental flaw as a venue for large events - critical to the underlying business models for both proposals - which is its significant isolation from the city's transport infrastructure. Eden Park and Mount Smart are both adjacent to the rail network. North Harbour Stadium is within easy walk of the Northern Busway. Western Springs has no parking facilities and adjacent only to the perma-traffic-jam that is the Great North Road/St Lukes Road intersection. For clarity on how bad the parking situation is, you only have to consider the Zoo or MOTAT on a weekend: neither venue is attracting a fraction the number of attendees that a large event at a new stadium would attract, and yet parking overflows for literal kilometres into the adjacent streets.

The investment from Council to resolve the transport network deficiencies is noticeably absent from the comparison of the three options.

Council should be focussing its stadium investments on the existing venues that are actually integrated into its transport network. As a North Shore resident it will always be easier to attend an event at Mt Smart or Eden Park (or North Harbour Stadium obviously!) than it would be to physically get to Western Springs. This will be true for pretty much anyone who lives outside the stadium's immediate area.

One of the reasons given during the dubious removal of speedway was that the area has bad public transport connections, if that is the case then how is increasing the capacity a sensible idea? Was this merely an excuse so council could achieve her aims of having the stadium developed?

Option 1 - Auckland does not need another stadium when the ones we currently have are under utilised and this would directly compete with ratepayer owned assets. This includes the likes of the Trusts Arena, Barfoot and Thompson Stadium and the Spark Arena all of which are under utilised now.

You say its zero cost but it isn't really as the ratepayers lose the use of a substantial asset, so what is the cost of that? What are the opportunity costs of giving up Council control of Western Springs? Where is that in this consultation document?

Option 2 would seem to be a waste of time as Eden Park is quite capable of staging large scale concerts while the Spark Arean is able to host small indoor events. Why build another at ratepayer expense??

There seems no reason to invest anything into this area and it could simply be left as it is until a genuine need is identified.

I want Western Springs to remain as a venue for speedway. Speedway is a great family event with a history worth preserving and an enviable international reputation. This can not be replicated in Waikaraka Park is certainly not a viable alternative. Speedway has a strong public following which was demonstrated on the last night of the season.

I live in the area (Waitematā or Albert-Eden local board),I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I don't have a direct connection, but I am interested in how the space is used

There are three options to consider

Which option do you prefer? Select one option only.

Option 3A: Neither Option 1 or Option 2 - keep things as they are and retain current arrangements

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Western Springs Speedway has been around for many years and I personally think it should stay that way, it's an affordable event where many families gather to watch the races.

Of the options presented I think this is the best one, it provides broad use of space for a wide range of the community including much needed music/festival space close to the city centre and good public transport options. The option for the larger stadium feels undercooked and not large enough to cater for the scale of events that a new stadium should be able to.

I've been going to Western Springs Speedway for 57 years now. My Father started taking me at 5 years old, he is in his 80's now and never misses a meeting. He abolsutely lives for it, always has, and now attends with my son.

Three generations sitting together in the stands watching some of the best racing in the world with true international competition. I see many families sitting around me that are just the same, it's a family sport unlike any other that I have experienced on a Saturday night.

Many international visitors come here each year, but with online streaming it is now opened up for global viewing.

The history at Western Springs speedway is nothing short of amazing, the names of drivers that have driven there in the last 96 years is spectacular in itself.

Western Springs MUST remain a Speedway!

I would like to keep Speedway at Western Springs Stadium. It's a fantastic family sports that attracts high loyal numbers and the stadium can easily be shared with festivals, concerts and other events. It also works nicely with Ponsonby Rugby Club that I would like to still see it as its home all well.

I know I share this with a very high number of people so I am surprised this continually has been ignored and very disappointing.

I think a hybrid of options 2 and 3a comes with the best outcome. A venue with personality which can be tailored for specific event needs - has a reputation like the Hollywood Bowl, but keep it within Tataki Auckland Unlimited for revenue purposes for them.

This has the opportunity to be seen as a venue in competition with Eden Park, allowing more potential for a 24/7 city with increased event activity. Giving more opportunities for residents to enjoy events in a variety of spaces with character. With a Hollywood Bowl look, it will look like a proper stadium and venue fit for purpose and Tataki Auckland Unlimited can continue to use this to attract events into the city like they do with other venues they operate. With the right sales approach, this has the potential to attract concerts into Auckland and generate revenue for the

council and Tataki Auckland Unlimited. Currently feels like a field being used every so often, this approach opens up doors for more use and potential higher revenue opportunities. New venue look means new opportunities for a bigger and better city.

If Tataki Auckland Unlimited already operates this venues, lets give it a face lift and allow them to continue to attract more events in with a new space they already know.

Look in all honesty this seems to me as an average Joe fan EXTREMELY upsetting.

A little background, my father used to be pit crew for a guy called frank wig back in Barry Butterworth Day. Because of that I used to go when I was young, the passion died out, buy I started attending events again last year, and was mind blown that I ever stopped attending. Started training my daughter (6) how to drive oval dirt truck on my racing Sim only for her to get good aaaand western springs is seemingly no more. Its so much more than just a speedway track.

This is unfair to not only me, my father, my daughter, NY mates, but every person I've interested with at each event. This is ridiculous

The activities at Western Springs drive a multitude of industries and tourism in the area.

Under a single management structure more events could be organised and run to the benefit of the community, tourism, sport and business. The way the venue has been run and handled over the past 20 years has been restrictive. Having a group to manage and run the facility including sports, concerts, speedway and local community events will see benefits to all involved and no require for additional funding or spending

With the ongoing success of Auckland Zoo, I would like an option to explore the Zoo taking over this site and expanding the Zoo site. They have had success with big projects and these have driven visitation. The options for Auckland Zoo to expand to become an even bigger visitor attraction, while also helping community connection with nature and conservation and education, are limited. This could provide a way for the Zoo to expand and become an even larger community facility and even better Zoo.

Leave it as it is including speedway. Open wheelers will not work at Waikaraka Park. Trying to fit two different forms of speedway at one place. Like trying to get road bikes and mountain bikes on same track. Racers are going to get seriously hurt.

Allow the use of the stadium for speedway to remain with an increase in the number of meetings allowed so that the promotor can be in a position to make a return on funds invested. Upgrade the existing clubrooms so that both rugby, speedway and other parties have a better facility for holding functions. Speedway has been an intraguild part of the stadium for 96 years and is known worldwide with it's amphitheater atmosphere. Trying to combine Open Wheel Speedway with the Stockcars at Waikaraka Park is a compromise that won't really work as the nature of the different divisions require different styles of track layout and safety but Waikaraka Park does require an upgrade.

Speedway and Rugby have worked well together over the years at the venue along with the use for concerts and festivals which has keep it as a great cheap community area for good family entertainment.

Option 1 will achieve similar outcomes to option 2. Option 1 would also assist in creating more job opportunities which is much needed at this current stage of our economy. It may also attract more overseas investments into our country and more skilled workers either to return back to NZ or be attracted to come and work here. We are losing far too many skilled workers which has a long term impact on NZ's ability to design and build major infrastructure locally. Option 2 seems far too costly with the current state of NZ's economy and the typical taxpayers are already struggling as it is.

Ideally I prefer a combination of Options 1 & 2. Maintaining a 50000 capacity concert venue, but with other hospitality options when concerts not being held. I don't know much about Ponsonby Rugby Club, but it seems odd to me that they have such a big home at the moment. That seems like an underutilisation of resources. I would also like some facility for public transport options for major events-like a bus hub for those travelling from the suburbs. Or an enormous carpark!

Nostalgia, history and identity are key factors as to why I'd like things explored more. I personally am not a speedway person but I know so many people who love it and on the few occasions I have attended, very much enjoyed the open air spectacle. As has been the case with events held over the years including music and festivals. These all have held a strong place for Western Springs and many people of Auckland over the years.

I believe there should be an option which allows these iconic events to continue and as a ratepayer, from the North Shore, I'm more than happy to have it as a special place in our city.

I recognise the historic value of Western Springs operating as a Speedway with it being one of the oldest and most internationally recognized venues in the motorsport world. As an historically recognised family orientated motorsport venue, to be able to frequent the events in a safe environment where there is a common love and passion for motorsport competition, this is becoming less available and should remain. This is a truly spectacular venue that continues to create unforgettable family memories.

While it appears that there is an ability for those controlling these public assets to create further duplicate venues for more mainstream sports, I respectfully request that the motorsport

community is not ignored in its wish to remain at Western Springs to continue the story of world recognised motorsport achievements NZ has been an integral part of on the world stage.

While those pulling the strings so to speak may consider that the motorsport community is a fringe collective, it is well to remember that there is a wide slice of Auckland ratepayers that have a connection to the motorsport world either nationally and/or globally that consider what the mayoralty and council members are publicly considering is to some degree an undemocratic process and not one that will benefit the city or its officials long term.

Auckland has not had a "dedicated home venue" for soccer (football) since Newmarket Park collapsed in a landslide about 50 years ago. Whilst the Black Knights are currently based at Mt Smart Stadium sharing the field soon after a Warriors game means the standard of play is affected by the damage to the pitch and the confusing line marking between the two codes.

Its time Auckland gave soccer a real home base and this can be done without burden to the ratepayers for both infrastructure and ongoing maintenance for the first 50 years.

No brainer guys

This option sounded what Auckland needs. The proposed stadium for Auckland FC is ridiculous they have way more fans coming to the games than would fit in Western Springs. A place for concerts would be great. and the sharing with the rugby club sounds like it is well used.

Give Speedway a long-term lease.

Give speedway commercially successful operating conditions.

Change the WS Stadium Unitary Plan to help speedway like they did at Eden Park to help concerts.

Speedway can be part of a multi-use situation with concerts can and have worked with rugby at the stadium.

We (stakeholders/fans/the people) were never consulted with before this time and should have been.

I have been attending speedway for 70+ years, it is the only activity in Auckland that a family can attend with youngest 3 months through to 72. 4 generations have sat on these terraces without it there will be no dedicated Speedway tracks in NZ. All others are stockcars or combined which doesnt work. Without western springs auckland will lose many tourists from USA and out of towners that come each year. Our family will lose contact with friends that we meet there each year. I will see far less of my extended family within a year as on most saturdays nights up to 11 family members attend (children, grandchildren, siblings, uncles, aunt) where else in Auckland can this happen. Not everyone likes ball sports. Living in a retirement village I look forward to the

first weekend in Nov and opening night as its along winter waiting. I will not attend waikaraka as im not a stockcar person. My husband, son-in-laws and a grandson have all crewed on cars there at times, learning skills they could also use within their jobs. Keep the speedway at western springs it is FAMILY!!!

.

WSS is a fantastic venue for both sports and music. There is no similar or comparable music venue anywhere in Auckland, probably in New Zealand. Furthermore, Ponsonby Rugby Club is one of the oldest and most iconic rugby clubs in New Zealand. Ponsonby has produced more All Blacks than any other club in the country. Countless kids and adults lives have been positively impacted by being members of this outstanding organisation. Do not destroy it by kicking them out.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Option 1 is the most future-focused option available. It includes upgrades to the stadium and new features that will enhance the stadium positively. "Auckland Arena" is the most ambitious plan for Western Springs and will future-proof the stadium more than the "Western Springs Bowl" option. Option 1 would make Western Springs a world-class venue and a better asset for Auckland. Another consideration is that "Auckland Arena" requires no ratepayer funding and is already being touted as a 'home venue' for Auckland FC. My only concern, however, is how the proposers intend to profit and gain a return from their large investment. Western Springs must remain open and accessible to the community, regardless of the option that has been chosen.

The Auckland Council have been saying for a long time that we have too many stadiums in Auckland. And now they want another Stadium that will only serve the rich. The council have a stadium that is underutilized being North Harbour Stadium. Why not give Ali Williams and his group half of the rights to that stadium and let them upgrade it. The stadium that they propose will not hold the numbers that currently attend their games. Where Ponsonby Rugby and Speedway have lived together for a number of years along with music concerts. You have a sport

that is 96 years old racing at Western Spring and if it was a building it would have a protected status. 18 1/2 million over 50 years is a small drop in the ocean on what is wasted on vanity projects by the Auckland Council. Western Spring is owned by the people of Auckland and NOT a group of Rich individuals.

Western Springs Stadium is a globally renowned Speedway venue. Speedway should be given the opportunity to flourish at Western Springs Stadium with a long-term lease and operating conditions that would allow for its long-term commercial success.

The decision to evict Speedway from its home of almost 100 years is a decision I vehemently oppose. In recent years, Speedway at Western Springs has been stifled by increasingly unfeasible operating restrictions; the sport and community in New Zealand have suffered as a result.

The step to remove Speedway from Western Springs altogether is a move to suffocate the sport and shun one of Auckland's most welcoming, passionate, and supportive sporting communities. The atmosphere, level of infrastructure, and standard of Speedway held at Western Springs Stadium is unparalleled to that of any other Auckland venue.

The world-class Speedway facilities and the international reputation of racing at Western Springs Speedway should be cherished and celebrated as a point of pride for Auckland.

Western Springs Stadium should be a multi-purpose venue - with Speedway INCLUDED as one of the residents. The nature of Speedway as a sport allows it to sit well alongside numerous other uses of the stadium, such as other sport(s), festivals, and concerts. This would allow the stadium to be enjoyed by a diverse and inclusive range of Auckland communities and ensure that the venue is utilized to its maximum potential 365 days of the year.

As an Aucklander who attended every one of the Speedway meetings in the 2024-25 season at Western Springs, I was never presented with any opportunity to be consulted before the council decided to move Speedway. After observing how the Speedway community has been treated throughout the decision process, I am appalled by the actions of Auckland councillors.

Speedway is just as deserving as any other sport or community to be given every opportunity to thrive at Western Springs Stadium.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Western Springs Stadium is the home of Speedway in Auckland. I've attended Speedway at numerous other venues across New Zealand, and the high-quality Speedway facilities at Western Springs are unmatched and should be protected. The decision to move Speedway from Western Springs is a massive loss for the whole of Auckland.

The Western Springs Stadium Unitary Plan should be changed to allow Speedway to operate at Western Springs in a way that allows for the sport to be commercially successful. Speedway can be commercially successful at Western Springs if it's given a long-term lease and allowed operating conditions that provide stakeholders with the certainty to invest and grow Western Springs Speedway into an asset for Auckland.

As a long-time active member of the Speedway community, I am very disappointed with how Auckland Council has treated my community throughout the 'future of Western Springs Stadium' decision-making process. I'd rather see my ratepayer money spent to have Speedway at Western Springs than spent on many other areas the council currently spends on.

Keeping the large capacity open area concert venue and upgrading it is more of a benefit as it could attract more international artists to tour here. And I think we already have plenty of 15-25 thousand seat stadiums, such as Mt Smart and North Harbour

I would like to see speedway stay at Western Springs and a new agreement for an on-going period to host speedway at this venue, be entered into. Speedway is part of Auckland's history and the venue is iconic. So many people and their families attend meetings every year and the venue (particularly pre-Covid and flood damage) attracts large crowds. There is also a large contingency of drivers and families who compete who's sport will be significantly impacted if speedway does not stay at Western Springs.

Western Springs should continue to operate as a WORLD CLASS SPEEDWAY facility for numerous reasons:

- Western Springs has successfully operated as a Speedway facility for 96 years is revered the world over and should be protected for its heritage status alone

- Speedway is one of the last great summer nights out in Auckland where parents can feel safe to take their kids without fear of violence and unruly behaviour

- Speedway can operate successfully with a long-term lease and commercially viable operating conditions

- Auckland already has enough stadiums in place for ball sports which are already under utilised (North Harbour stadium) meaning building anymore is a pointless exercise

-Western Springs is a flood plane, there are not many other sports or operations better suited to being in a flood plane than speedway

- There has been no consultation with either the competitors or fans of WesternSprings speedway. The process to have the speedway removed has been done behind closed doors often in a deceitful manner

- TAU has proven time and time again that they are incapable of managing and operating Auckland's stadiums effectively and are out of touch with the needs and wants of Aucklanders

The stadium area is much better suited to a sports/concert arena than the old speedway.

The sports arena seems to have a number of sports considered which will cover a wide rand of groups and communities.

I think the stadium should be slightly larger (15-18k) and have roofing where possible.

Public transport options should be strongly considered, at the moment it would be difficult to get to. But I hope with the WX buses/CRL something can be done.

This is best for sports. A sporting facility that is more central based and doesn't have as big a capacity as Eden park for costs

There is currently no rectangle stadium for smaller events in Auckland that can hold an atmosphere consistently. This provides a more sustainable venue fit for football and rugby rather than an empty Eden park or mediocre mt smart where supply > demand. create demand with pack crowds that revitalise kiwi sport close to the centre of Auckland.

Because a 50,000 capacity bowl is a waste of money, it will almost never be at capacity and be empty and out of use most of the time. A stadium is much better as it is multi purpose.

For a number of reasons. The first is the cost, it is to be footed by the group building it, and maintenance costs, makes sense from a taxpayer point of view not having to pay for it.

Further football needs a dedicated home in Auckland, this stadium is the right size for potential decrease in crowds but also seems to be able to be scaled up as well in the need for more seats. It also caters to not just football but a range of sports with the additional facilities. While the indoor courts are basketball focused there's no reason why these couldn't also be used for sports such as Futsal etc. central Auckland is in need of an indoor community sporting facility and this works towards that.

I wholeheartedly support Western Springs Stadium continuing as the home of Western Springs Speedway. As someone who's been part of the speedway community for over 20 years, and who has attended races with my family since I was a child, I can confidently say that I'm a huge fan of speedway racing.

In my opinion, this is the best venue in Auckland for speedway. It holds a rich history that no other venue can match. Having attended speedways all over New Zealand, I've yet to find one that

compares to what we have at Western Springs. The venue's unique natural landform makes it a one-of-a-kind location for speedway events.

The speedway has built a loyal and passionate fan base, drawing racing drivers, teams, and fans from overseas who all agree—Western Springs is unlike any other speedway venue in the world.

The history of speedway at Western Springs is truly special, and it would be a tremendous loss for Auckland to lose this iconic site. It's disheartening to watch our city lose its rich history and character in the face of unnecessary development and the pursuit of short-term revenue.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

My family has been attending speedway events at Western Springs for generations, and for many families like mine, it's a special place. The venue is, without a doubt, the best for speedway events, and it would be a great loss for Auckland to see it go.

Over the years, I've also developed personal connections with speedway drivers, even having my name sign-written on a race car as a sponsor when I was younger. That kind of family involvement and the unique atmosphere it creates is something you simply don't find at other speedway venues.

The history of Western Springs Speedway is what gives it its special, irreplaceable character—an atmosphere that can’t be recreated in a new venue. I believe it’s important to continue hosting speedway events at Western Springs, not only to honor the rich history of the venue, but also to ensure future generations of families, like mine, can continue to enjoy this incredible stadium and the speedway it hosts

Auckland could do with a smaller scale stadium for Football and Rugby. Although I would up the capacity towards 20,000.

Speedway is, and has been a massive part of the community and culture of the area for decades. Losing this resource would be hugely detrimental to the community and local business. I support looking at ways to increase the profile of speedway through the summer months, and explore options whereby the stadium could be developed to support high level winter sports (league, rugby, etc) to ensure this amazing venue can become a multi sport year round venue.

Speedway has had a place in Aucklanders lives for 96 years, hosting top international drivers who have excelled in their field, and we have developed young drivers who have gone on to having huge international careers.

Why would you take away and Auckland icon that causes no trouble, never has the police in attendance, unlike every other sports event in the country.

I have been going to speedway since I was 3 months old. I am now 51. I have attended every race night every year, not missing one. I have crewed for a lot of National and International Midget and Sprintcars. My daughter is 11 and she is excited to be able to attend every race night and be involved with the race teams like I was when I was a kid.

You can not take away such a wonderful family night out. The track is 100 years old in its own right so it should be classed as a historic site.

I am a car owner and sponsor of other cars at Western Springs Speedway.

We were blown away at the number of local and NZ wide business that not only supported Speedway but contributed to supply chain and therefore taxes and employment directly related to Speedway operations.

In just the short time we've been involved we've seen probably close to 100 international drivers along with their families racing at Western Springs Speedway. The Economic benefit the Speedway contributes to Auckland and NZ is a lot larger than what the general public is led to believe.

Another stadium just doesn't make sense. This will be a project for a few millionaires to turn a nice profit by selling a stadium in a few years with a nice long lease.

While Speedway may not bring in huge amounts of revenue to Auckland City Rate payers it DOES bring in revenue and could bring in more if supported with a longer lease.

As an Auckland Business owner I'd like to see not only Speedway stay, but supported further by Auckland Council.

I like the Western Springs Bowl concept because Auckland is missing a scaleable venue like this and I think it's important that there's still free public access to the outer fields and access for community groups.

Speedway has long been a cherished part of Auckland's sporting and cultural landscape, providing thrilling entertainment and fostering a strong sense of community. To ensure its continued success, it is imperative that Western Springs Stadium remains its home.

A long-term lease for speedway would provide stability for the sport, allowing it to thrive while contributing to the local economy. Additionally, modifying the Western Springs Stadium Unitary Plan—just as adjustments were made at Eden Park to facilitate concerts—would create commercially viable operating conditions for speedway, securing its future.

Western Springs Stadium has successfully operated as a multi-use venue, accommodating speedway alongside concerts and rugby events. This demonstrates that with effective management, different activities can coexist, enriching Auckland’s entertainment offerings.

Beyond the cultural and economic significance of speedway, its closure would eliminate a valuable tradition for families. Speedway is more than just a sport—it is an event that brings generations together, creating lasting memories and strengthening community ties. Parents and children bond over race nights, cheering for their favorite drivers and enjoying the electrifying atmosphere. Losing speedway would mean fewer opportunities for quality family time and social engagement, diminishing an experience that has played a vital role in Auckland’s recreational life.

Additionally, speedway serves as an inspiration for young fans who dream of becoming drivers, engineers, or motorsport professionals. The absence of this experience could limit future generations' exposure to the sport, making it harder for aspiring talent to develop a passion for motorsports.

Its closure would also have far-reaching economic consequences. Many local businesses, including hospitality venues, automotive suppliers, merchandise vendors, and tourism-related services, rely on the patronage generated by speedway events. Restaurants, bars, and accommodation providers benefit from increased foot traffic on race nights, particularly from fans traveling from other parts of Auckland and beyond. Moreover, speedway supports a network of mechanics, engineers, and parts suppliers who specialize in servicing race vehicles. The sudden loss of speedway would jeopardize these businesses, putting jobs and livelihoods at risk.

Speedway contributes to employment opportunities, including event staff, security personnel, and media professionals. A shutdown would lead to job losses and reduced economic activity, weakening Auckland’s reputation as a city that fosters vibrant sporting events. The council must recognize that speedway is not just an entertainment spectacle—it is an economic and social driver that benefits multiple industries and communities. Removing it from Western Springs could lead to long-term financial losses for local businesses, weaken family traditions, and erode the city's recreational landscape.

It is deeply concerning that stakeholders, fans, and the wider public were not consulted before critical decisions regarding speedway’s future were made. Given that ratepayer funds are allocated to such decisions, residents should have had the opportunity to voice their perspectives. Many Aucklanders would prefer to see their contributions support speedway rather than be spent on projects that do not reflect the community’s interests.

The handling of this issue has led to a loss of trust in the decision-making processes of council staff and elected representatives. Transparency and fairness must be prioritized to restore public confidence in governance.

Ultimately, speedway holds significant cultural, social, and economic value for Auckland, and most residents support its continued presence at Western Springs Stadium. It is now incumbent upon the council to listen to the people and take decisive action to safeguard speedway’s future.

The Council has not undertaken a fulsome and transparent review of the options for the beautiful Western Springs facility. Western Springs speedway is an international icon and should be part of any solution developed. Including Speedway in the solution does not preclude the facility being used for rugby or concerts etc.

Auckland already has stadiums of various sizes, all underutilized and with various flaws. Building yet another seems pointless.

Would like to see the bowl still used for large music concerts/ festivals.

Could the area be used for cricket as Auckland still does not have an appropriate cricket arena. With drop in pitches could this be shared with Ponsonby Rugby? Auckland cricket could then move to Western Springs as well freeing up land at Eden Park number 2

Because Speedway and Western Springs Speedway a key to the community in New Zealand on a national stage and after nearly 100 years the Speedway should be allowed to stay at the Western Springs we would be losing so much history around the sport and family values and heritage worldwide

I live near North Harbour Stadium. The current proposal for North Harbour is to likely spend $33 Million over 10 years to refurbish and maintain the stadium.

It seems to me to be a no brainer to do a deal with Auckland FC (who already train there) rather than build a new stadium that will likely end up costing rate payers or best case, we lose valuable land to a private entity.

Speedway should stay, give a long term lease so a promoter can invest in the infrastructure to support rugby and concerts.

Sports, community, well-being. All for the future of us, our children and Auckland. Especially Auckland football club, which I had the pleasure to play with a couple of weekends ago and regretfully forgot how much of a community sports brings to not only the whanau, but the children of us and our next generation.

I passed the area when there was an event and it's definitely not ideal in terms of traffic and parking space. Unless you develop wider road and provide more parking space then any ideas which result in gathering large crowd in the area are bad idea.

When I was a teenager I did the mail run around the area of the stadium and people who lived there had no problem with the noise from the speedway it was only when people found out the value of the run down houses who moved in and decided they didn't like the noise of the speedway because it devalued their property prices are the only ones that complained. They new before moving in that the speedway was their they could have purchased any where else in Auckland to avoid something they new was there for years before them. So if they didn't like the noise why buy there?

I enjoy going to the speedway and concerts. Auckland does not need another sports ground especially a limited seated one, we already have Eden Park, Go Media Stadium and North Harbour Stadium. Why on earth would we need a 12,500 seated Stadium as well? That's not enough seats for anything major and too many for club sports. Thus makes no sense at all.

because it is fine the way that it has been , with speedway running . The springs is in a upper league than waikarka park , even with a proposed fit out , there is a ready to use track that has been running for a the last 90 + years .There are multiple stadiums around Auckland - north harbor for one , that goes unused that could be used for the future soccer plans . Also concerts have been great at western springs , it is a good venue and can hold many people . Why wreck a good thing ?

Speedway is a part of the heart & soul of New Zealand Motorsport & is an essential part of our youths future development in the sport. Without Western Springs, options become little to non-existent and there is nowhere else in NZ that supports the fans in the way Western Springs does. Western Springs is what keeps the heart of speedway beating, don't take that away.

To shut down Western Springs speedway after 96 years is extremely short sighted.

Speedway in Auckland is an institution and moving it to Waikaraka is an insult to all that have been and are connected to speedway at Western Springs.

The $11 million allocated to that dump of a place waikaraka is not going to make it an acceptable stadium.

I have attended speedway at WS since I was about 8 years of age, being a competitor and a huge fan all these years, I am now 71

WS on a summers night is the best entertainment in town and the crowd is the most loyal of any sport in NZ

It is so safe the police are not even in attendance.

Unlike football games violence has never been an issue and the crowd does not leave the stadium full of alcohol and cause disruptions.

The billionaires that want WS can have North Harbour stadium but leave our Historic Western Springs alone to continue what it has done for 96 years.

Auckland has longed for a football team in the A-Leagues for nearly 20 years now and now that we have one we need to make sure they are here to stay. Football is the world's game so let's make sure we are a part of that world and represent them. Plus the Warriors might get upset that someone else is winning trophies on their turf. Up the Port!

Western Springs Speedway should continue operation at Western Springs Speedway. Western Springs Speedway has been a cornerstone of Auckland's motorsport community since 1929, and its continued presence at Western Springs Stadium is vital for preserving the rich heritage and cultural significance it holds for the city. Auckland has a large focus on maintaining cultural and heritage value in so many areas of the city and I can't understand why the same principle isn't applied to Speedway History in Auckland.

The continuation of Western Springs Speedway at its historic location is essential for preserving Auckland's motorsport heritage, supporting the local economy, and maintaining the cultural

fabric of the community. It is imperative that Auckland Council and relevant stakeholders work with the speedway community to find sustainable solutions that allow the sport to thrive at Western Springs Stadium.

Western Springs Stadium is the proud home of Western Springs Speedway, a true icon in the motorsport community, both in New Zealand and internationally. With its rich history spanning nearly a century, it holds a special place in Auckland's identity and is a vital part of New Zealand's cultural and sporting heritage.

Prominent figures within the motorsport community have consistently expressed strong support for keeping the speedway at this historic venue. Their voices reflect the deep respect for what Western Springs represents and the important role it plays in the wider racing landscape.

The speedway draws a diverse and passionate audience, contributing to the local economy. Events at Western Springs also generate valuable employment and sponsorship opportunities while fostering a strong sense of community engagement and pride.

What sets Western Springs Speedway apart is the uniquely inclusive and welcoming atmosphere it offers. It is a family friendly environment that draws generations of fans together, creating cherished memories and a strong community bond. It’s also one of the rare large scale events in Auckland that does not require a police presence—testament to the respectful, community focused nature of its attendees. The central location further enhances accessibility, making it a convenient and enjoyable activity for families across the city.

To lose Western Springs as the home of speedway would be to lose far more than just a venue it would mean dismantling a culture that has taken generations to build. Moving the speedway would fundamentally alter the experience, energy, and atmosphere that make Western Springs so special.

Preserving Western Springs Speedway at its original location is about more than just tradition it's about protecting a piece of Auckland’s soul.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Western Springs Speedway has operated continuously at Western Springs Stadium for over 95 years. This long-standing history has fostered a deep connection between the speedway and the local community, making it an integral part of Auckland's identity. The stadium's location within a natural amphitheatre provides a unique and intimate setting for spectators, enhancing the overall experience of attending events. Relocation of this sport creates issues such as reduced crowd capacity, parking issues, and a loss of regular patrons and sponsorships. These factors could pose significant financial challenges and impact the long-term viability of the sport in Auckland.

Speedway should continue at Western Springs Speedway to preserve the history of motorsport in Auckland.

I think it is important that Auckland Football Club have their own location. As Football and Rugby League seasons overlap and AFC and their reserves are not able to play at their home ground. Football has grown immensely in the last few years following the Women's Football World Cup. Mt Smart have done well, to manage both league and Football. But is this sustainable long term. We need to consider crowd numbers and provide for this In the future. I'm not sure whether AFC will be too big long term for a Western Springs location. This might be something you need to consider. We did enjoy attending live games and have been to all AKL based games in 24/25

season with intention to continue going forward. Also think about transport links and parking which are also huge issues in this area already with the Western Springs Park and the Zoo.

As long as the speedway remains at Western Springs, other sports and events could be accommodated around this. It’s an iconic venue that should not be lost to Aucklander’s. Speedway at Western Springs is highly respected worldwide. It is not on,ly a meeting place for family and friends but also for ex-competitors and their families who get together and reminisce about the old days there and enjoy the racing.

Continuing as is enabling speedway to continue - rates have increased and services to the community should remain - the comment re funding to maintain - why should developers be given the opportunity to change the venue to what they want because they will fund it - options 1 & 2. Do what the people have already requested - keep speedway and find private sector finance to support it - If council wants to honour the peoples vote they will find a way instead of the manipulative biased dialogue above

I would like western springs speedway to remain at Western Springs as is has been for almost 100 years. Our family has been brought up at the speedway as so many others have been and generations of our family are fans abd supporters of the sport in its historic home. I would hate to lose this iconic place and hope it remains in its home at Western Springs for future generations and families to enjoy. I would hate to see Auckland city lose such an internationally respected and loved venue for speedway. It would be a huge loss for Auckland city for speedway to be moved elsewhere or relocated to any other venue. The history of the hallowed turf is the place where

plenty of speedway drivers over the years have chosen for their ashes to be scattered. There is a rich and long history here which must be protected and respected.

We need live music infrastructure to help attract and reduce costs for international touring artists. The alternatives require extension temp infrastructure which pushes costs of touring up and in many case too high to justify touring here.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

• Speedway can be successful with a long-term lease and commercially viable operating conditions.

• Its Possible to change the WS Stadium Unitary Plan for speedway like they did for concerts at Eden Park.

• Speedway can be part of a multi-use situation with concerts and have worked with rugby at the stadium.

• We (stakeholders/fans/the people) were never consulted with before this time and should have been.

• Western Springs Stadium is important to me and Auckland. I'd rather see my ratepayer money spent to have speedway at WS than many of the things the Council currently spend the people's money on.

• I have seen how this issue has been handled and I don't agree with the process and have lost faith in the council staff and many councillors.

• Most Aucklanders I know want the same as me.

Bring Open Wheeled Speedway cars back to the Springs. The other facility needs far too much upkeep to ensure all classes can run SAFELY! Western Springs is the only track where the risks of this exciting sport csn be mitigated properly.

I have previously raced at Western Springs Speedway and still attend nearly every meeting, and believe it is important that Speedway remains at the the stadium.

This is a very strongly family oriented sport and there are many families that have been involved or supported speedway at Western Springs for many generations.

It plays a big part in many people's summer entertainment and is often called one of the best Speedway venues in the world by the visiting international drivers and teams

I chose that option because I realise change is inevitable. But I also want to be able to go and enjoy whatever history I can extract from the venue. And besides.. Is some of the most enjoyable racing to watch and oh so close and accessible.

I would like to see the continued use of Western Springs, including the retention of Speedway.

The Speedway could potentially cover its own costs and return a small profit back to the Council, while at the same time allowing the Ponsonby Rugby Club to continue to use the facility and possibly an occassional concert.

Speedway is sport in its own right, and unique to stock cars which run at Waikereaka Park, the cars requiring a different track to race on to stock cars.

Over the years, 95 in fact, the Speedway has been a home to a sport I love, I have raced at the track, and has been a venue the has provided sound entertainment on a Saturday night during the summer months to thousands of people, as well as attracting sums of money and investment and business for many car enthusiasts and motorsport fans, nringing tourists from overseas every year who make the pilgramage just to watchor participate in the Speedway.

The venue has proven to be multiuse, Ponsonby Rugby Club using the area, cricket and even concerts and similar events have been held at the Springs.

Why throwout a tried and proven activity just to provide a stadium for a sport its backers currently support, only to find in a few years that it is not a better option.

We a Westie I frequent Western Springs Speedway, and have attended the Springs for other activities.

The Council will be killing of a sport in the hope of providing funding for Waikeraka Park. Perhaps you need to invest in the Park anyway, not try to wreak a sport by shifting the activity that has made the areas name.

I say Option 3B - not Option 1 or 2 and explore other ideas.

I would like to speak to my submission

I have a number of close friends and family who have devoted their lives to Western springs speedway, adding to the Auckland events scene and diverse culture. I support Speedway returning to Western Springs Stadium. With a long-term lease and appropriate changes to the Unitary Plan, Speedway can be a viable and sustainable part of a shared, multi-use venue alongside concerts and Ponsonby Rugby. Speedway at Western Springs holds a unique place in Auckland's diverse cultural and recreational landscape, and it makes sense to continue using this existing facility particularly with the historical significance that spans 96 years. As a ratepayer, I would prefer my contributions go toward maintaining and enhancing a venue that has deep generational ties within the community. Speedway is well known for its family-friendly environment, and that welcoming

atmosphere should be encouraged and preserved for future generations. I do not support the venue being passed into Private ownership for 50 to 100 years. We already have many stadiums around Auckland catering for ball sports - why have another at the expense of Speedway which is world renowned.

Western spring stadium is a unique venue that has historically been used for a variety of events. This must continue, Most of Auckland is aware of the importance of this history and the significant events that have taken place at the venue. Speedway at western springs and music concerts at the stadium are part of aucklands make up ,past and present. The land was gifted to the people of auckland for the purpose that it has been used for up until now.

Western Springs should be used for speedway.

Speedway should stay at Western Springs.

I have been going to speedway at Western Springs regularly since I was 8 years old (I'm now 61)

Speedway at Western Springs is a fantastic family event I have missed very few speedway meetings in the last 30 years. My father took me when I was a boy, then for many gears I went with my girlfriend, then my wife and then we took our children. So many families enjoy speedway at Western Springs. We have met & become friends with others through speedway, including many of

the drivers & crew. Western Springs speedway is a world class event & it’s loved by international drivers, crews & fans. Speedway should be allowed to stay at western Springs.

Western springs has always been a speedway.

I've been there many times to watch speedway and concerts.there is enough seating for both arrangements.speedway doesn't operate year round it's only one night a week for a few weeks.

If local residents can move to the immediate area then complain about the noise knowing the speedway is there it's their choice to put up with it and enjoy it.we live close to Auckland airforce base and we had to sign an agreement to not complain about the airport noise which we were happy to do so as we were moving right next to it knowing it's been there for decades.

after reading this please keep the speedway and heritage going

Because our family has attended Speedway most Saturday nights and we have owned (and i have driven T Q No 77 in races at the springs) since 1956.

To the Mayor and Auckland City Councillor's.

I have been a Crew Member, Car Owner, and Spectator at Western Springs Speedway for nigh on 60 years. My Wife (*One of the first Woman to drive at Western Springs*) also has attended the same amount of years.

It is a place the whole family can go and enjoy safely, at a reasonable price, which thousands of family's have done over the 96 years it has been running. You can not compare Western Springs Track with Waikaraka Park, as Western Springs is a natural Amphy Theatre with great views close to the Track and gathers water off the banks that helps to make a good Track for Speed cars.

The best Drivers and Riders in the World have come to Western Springs for years and say the place is Unique.

The Council is complaing about the small amount of revenue it gets from Western Springs. It is their fault, firstly they cut the noise down so Speedway Car Owners put Mufflers on, they then cut the hours it could run down, then they cut the No. of Meetings down from 22-25 a season to 6-10 and they wonder why the Income is down.

I beg Council to think hard about this decision and listen to the Voter's, not the Richie's.

Thank you in anticipation of another 4 years = 100 in total, and many more to come.

[redacted].

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I attend events at the stadium or its sports fields

There are three options to consider

Which option do you prefer? Select one option only.

Option 3B: Neither Option 1 or Option 2 - explore other ideas

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I would like to see Speedway reinstated to an international level at Western Springs as it has been an iconic part of Auckland and provides great family entertainment which is easily accessible to so many people.

Western springs was a place my parents took me, I took my kids and my kids have taken their kids for speedway and events. It is deeply embedded in our hearts and the community that gather there for various reasons. It works great as it was. It has been there serving our community longer than most people alive can remember.

Western Springs is as iconic to Auckland and NZ as the Hollywood Bowl - where it provides a venue for multiple entertainment/sporting activities including the Speedway. It was there before most if not all of the current residents. So noise etc as a "dosturbance" to the residents should not be considered. They purchased in the area knowing what was there.

Western Springs Speedway has been a cornerstone of Auckland's sporting and cultural life for generations. My family has been attending events there since the 1940s, and we are just one of many Auckland families for whom the speedway holds deep significance. It is far more than a motorsport venue — it is a place of shared memories, community connection, and tradition.

There is every reason to believe that speedway can remain a long-term tenant at Western Springs under fair lease terms and practical operating conditions. With a collaborative approach, it can coexist successfully alongside other uses of the venue, such as rugby and concerts. These are not mutually exclusive activities — they can complement one another if planned properly.

What concerns me deeply is the way this issue has been managed. I do not believe the public has been properly informed or consulted throughout the process. There is a clear sense among many community members — myself included — that decisions are being made without adequate engagement or transparency.

I strongly urge those responsible to recognise the enduring value of the speedway to Auckland and to ensure its future at Western Springs is given a fair, balanced, and community-informed consideration.

It's the only option that would allow the continuation of Speedway to be considered. I am outraged that the council is not protecting established uses (Speedway and Ponsonby Rugby Club), both with 90+ years of history.

I have been attending speedway at western springs since I was a child. The speedway has such a rich and long standing history at this track.It is not only world class but recognized around the worl as one of the best stadiums for this type of motorsport., Racing here out dates many races around the world. This council has so under handed in the way they have delt with this consultation. Western Springs speedway should have been granted heritage status long ago so no the site could not be significantly redeveloped. Putting a 12000 seat stadium would be waste of resources and time.. I strongly oppose any redevelopment of the stadium beyond that necessary

to support both Ponsonby rugby and Speedway on the site.. Keeping speedway running ar western springs would be bothered the right and sensible thing to do.

Speedway is a huge part of Auckland culture and many families have been enjoying this throughout their lives. To quote a cliché "if it ain't broke, don't fix it" - why take something away that so many kiwis love and enjoy, and introduces many to a new sport or hobby?

Football & Rugby on the grass, speedway on the track around the field, don't put a stand up, when there are terraces behind it, it would be a waste and ultimatly reduce capacity (reducing revenue potential in future). WS should challenge Mount Eden for concerts, Mount Eden should not have a monopoly.

It's incredible that private investors want to do this and take the stadium to the highest level, something at the TAU would never have the financial ability to do. This means Auckland finally have a world class facility for sports, culture and entertainment. It is short sighted not to take up this incredible offer and the Auckland rate payers don't have to pay. Auckland and the rate payer can't afford to make this stadium state of the art so be grateful and welcome this opportunity with open arms.

There are little music venues in Auckland considering the size of the city. Western Springs has a proud heritage for music - Led Zeppelin, Deep Purple, Bob Marley, ZZ Top, Bruce Springsteen, David Bowie.... Sports gets far too much money and opportunity in our culture. This is out of balance of what creates a sophisticated and well rounded culture. Music is incredibly important for mental heath - especially live music.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

I believe that the venue is a world class speedway facility that the city should be proud of. Speedway has been present at the venue for almost 100 years, and it should be allowed to continue.

I definitely dont want option 1, and option 2 still seems to contain some private ownership. I personally very much enjoy going to the speedway so would like to see that remain as it is an Auckland cultural institution. One of very few which remained, and now we seem to have lost.

I love live events at Western Springs! This development would be great for the broader Tamaki region economically and for our cultural offerings in sport, art and music. This would deliver a 'Hollywood Bowl' style live music concert and festival venue, with 50,000-person capacity and new permanent staging infrastructure.

Auckland badly needs a central small sports venue. Eden Park is not suitable for football of any code nor cricket. It is too expensive to run and maintain and has devoured millions of council funds over the years with more to come!

Auckland FC's proposal is a no-brainer. Minimal cost to ratepayers.

I chose the stadium because the Auckland FC is a widely loved and recognized football club across the entirety of Aotearoa. For them to have their own stadium would be amazing for the growth of the team, the growth of their following, and the support for the team and the Western Springs area through bringing in many fans.

I also believe that a 'Hollywood Bowl' type venue bringing in a potential capacity of 50,000 far exceeds the limit of people that that particular area of Auckland can handle. Even now, with the current sizes of events hosted at Western Springs, there is a massive struggle to effectively

manage and accommodate the sheer volume of people. Auckland just is not equipped to handle that volume of people in that area.

Western Springs is a community asset. To effectively hand it over to option 1 billionaires who will absolutely set about recouping their investment, plus their return on investment, will spell disaster down the road. Sadly, that will only be recognized once it's too late. The idea that somehow we save money because we don't pay upfront costs is disingenuous. The ROI has to come from somewhere, and it will be shouldered by the community, in the form of eye-watering costs for everything associated with the new development.

Secondly, the unique amphitheatre layout of the space should be retained and enhanced for the future, which option 2 allows for. Auckland simply doesn't need another hulking concrete stadium

built in an inappropriate place. That will forever destroy a unique asset that we should be recognizing and celebrating.

Please act as visionaries, not vandals. Choose option 2.

Your feedback

What is your connection to Western Springs Stadium? (tick one or all that apply)

I attend events at the stadium or its sports fields,I participate in nearby activities (e.g. community sports, performances, MOTAT, Zoo, Western Springs),I don't have a direct connection, but I am interested in how the space is used

There are three options to consider

Which option do you prefer? Select one option only.

Option 3A: Neither Option 1 or Option 2 - keep things as they are and retain current arrangements

Tell us why you made your choice.

Please help us by explaining why you chose the option you did.

If you want other ideas to be explored, let us know if you have any suggestions for the future use of Western Springs Stadium and the outer fields.

Speedway has been there long before the residents complaining about the noise.

Speedway & concerts fit nicely into this amhphitheatre.

Multiple use venue. Animal (Zoo) welfare. Auckland has 3 other major concert sized venues already. Local noise concerns. Auckland FC and Ponsonby rugby catered. Traffic / train issues. Beautification and use of a historic park and wetland needs to continue.

This is a good use for the land. The natural amphitheater is ideal for music and is a rare facility. There are other stadiums thst can be used for football...eg Noryh Harbour. This land should not be blocked off for exclusive use.

Speedway is an iconic part of Auckland's history and should have never been moved from its home premise. To consider other tenancy options that do not meet the considerations that had the Speedway removed in the first place is unethical.

Auckland doesn't have a good live music venue that can hold a lot of people or outdoor festivals. This would be a great addition. We already have heaps of sports stadiums.

I believe Option 2 delivers the best solution of an accessible, community-strengthening multi-use venue, which both enhances and improves on the existing strengths of the location, without destroying the unique elements of the space. This option will provide a much more effective solution for making the most of the infrastructure, and ensuring the venue is able to be accessed by a wide range of citizens for multiple purposes, thereby promoting social cohesion & reciprocity. I have no link to the backers of this Option (I do not know them), but between them I can see they have extensive expertise in putting on local and national events, and I believe are the best placed group to lead this exciting evolvement of the Western Springs Stadium.
