# Proposed fortnightly rubbish collection trial

## Written Feedback

## Weymouth Residents and Ratepayers Inc campaign submissions

November 2025

Weymouth Residents & Ratepayers Incorporated

# WASTE MANAGEMENT SUBMISSION FORM

**#4243**

**Note:** This version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

**Submitter Position:** Opposition to Fortnightly Rubbish Collection Proposal

**Location/Suburb:** Weymouth,Clendon

## Section 1: Understanding Waste Resources

1. **Do most of Auckland's landfill waste comes from commercial and construction sources, not households?**
   Yes

2. **Should Council focus more on reducing commercial waste rather than cutting household services?**
   Strongly agree

## Section 2: Household Waste Realities

3. **How much control do you feel you have over the amount of household rubbish you generate?**
   Some

4. **What are the biggest contributors to your household waste?**
   Fast food containers,Hygiene products (e.g. nappies, wipes)

## Section 3: Collection Frequency

5. **Do you support moving from weekly to fortnightly rubbish collections?**
   Yes

6. **What concerns do you have about fortnightly collections?**
   Hygiene and odour,Pest infestations

## Section 4: Cost and Value

7. **Do you believe there will be $10 million savings that will benefit ratepayers?**
   Yes

8. **Would you prefer to keep weekly collections even if it meant no cost savings?**
   Yes

## Section 5: Climate and Best Practice

9. **Do you believe Auckland's climate (warm, humid) requires weekly rubbish collection to prevent health risks?**
   Neutral

10. **Should Council follow Best Practice of the Day and retain weekly collections?**
    No

**Comment:** ----

# WASTE MANAGEMENT SUBMISSION FORM

**#4245**

**Note:** This version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

**Submitter Position:** Opposition to Fortnightly Rubbish Collection Proposal

**Location/Suburb:** Weymouth

## Section 1: Understanding Waste Resources

1. **Do most of Auckland's landfill waste comes from commercial and construction sources, not households?**
   Yes

2. **Should Council focus more on reducing commercial waste rather than cutting household services?**
   Strongly agree

## Section 2: Household Waste Realities

3. **How much control do you feel you have over the amount of household rubbish you generate?**
   Some

4. **What are the biggest contributors to your household waste?**
   Food packaging,Hygiene products (e.g. nappies, wipes),Paper and mail, Soiled cardboard packaging, plastic lids from containers, soft plastics and anything not covered by recycling or food waste bins.

## Section 3: Collection Frequency

5. **Do you support moving from weekly to fortnightly rubbish collections?**
   No

6. **What concerns do you have about fortnightly collections?**
   Overflowing bins,Hygiene and odour,Pest infestations,Fly-tipping,Missed pickups

## Section 4: Cost and Value

7. **Do you believe there will be $10 million savings that will benefit ratepayers?**
   No

8. **Would you prefer to keep weekly collections even if it meant no cost savings?**
   Yes

## Section 5: Climate and Best Practice

9. **Do you believe Auckland's climate (warm, humid) requires weekly rubbish collection to prevent health risks?**
   Strongly agree

10. **Should Council follow Best Practice of the Day and retain weekly collections?**
    Yes

**Comment:** I strongly oppose the trial of fortnightly rubbish collection in Weymouth. Our community has many large, busy households that already struggle with weekly waste, and reducing collection will cause overflow, health risks, and more illegal dumping. Such trials should be tested first in affluent, low-occupancy areas that naturally produce less waste, not in high-density, marginalized communities like ours. We are tired of being used for social experiments and urge Council to reconsider this unfair approach.

Weymouth Residents & Ratepayers Incorporated

**Note:** This version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

**Submitter Position:** Opposition to Fortnightly Rubbish Collection Proposal

**Location/Suburb:**

## Section 1: Understanding Waste Resources

1. **Do most of Auckland's landfill waste comes from commercial and construction sources, not households?**
   No

2. **Should Council focus more on reducing commercial waste rather than cutting household services?**
   Strongly agree

## Section 2: Household Waste Realities

3. **How much control do you feel you have over the amount of household rubbish you generate?**
   A lot

4. **What are the biggest contributors to your household waste?**
   Food packaging,Fast food containers,Hygiene products (e.g. nappies, wipes),Paper and mail

## Section 3: Collection Frequency

5. **Do you support moving from weekly to fortnightly rubbish collections?**
   No

6. **What concerns do you have about fortnightly collections?**
   Overflowing bins,Hygiene and odour,Pest infestations,Fly-tipping,Missed pickups

## Section 4: Cost and Value

7. **Do you believe there will be $10 million savings that will benefit ratepayers?**
   No

8. **Would you prefer to keep weekly collections even if it meant no cost savings?**
   Yes

## Section 5: Climate and Best Practice

9. **Do you believe Auckland's climate (warm, humid) requires weekly rubbish collection to prevent health risks?**
   Strongly agree

10. **Should Council follow Best Practice of the Day and retain weekly collections?**
    Yes

1. **Do most of Auckland's landfill waste comes from commercial and construction sources, not households?**
   No

2. **Should Council focus more on reducing commercial waste rather than cutting household services?**
   Disagree

## Section 2: Household Waste Realities

3. **How much control do you feel you have over the amount of household rubbish you generate?**
   Some

4. **What are the biggest contributors to your household waste?**
   Food packaging,Fast food containers,Paper and mail

## Section 3: Collection Frequency

5. **Do you support moving from weekly to fortnightly rubbish collections?**
   No

6. **What concerns do you have about fortnightly collections?**
   Overflowing bins,Hygiene and odour,Pest infestations

## Section 4: Cost and Value

7. **Do you believe there will be $10 million savings that will benefit ratepayers?**
   No

8. **Would you prefer to keep weekly collections even if it meant no cost savings?**
   Yes

## Section 5: Climate and Best Practice

9. **Do you believe Auckland's climate (warm, humid) requires weekly rubbish collection to prevent health risks?**
   Strongly agree

10. **Should Council follow Best Practice of the Day and retain weekly collections?**
    No

10. **Should Council follow Best Practice of the Day and retain weekly collections?**
    Yes

**Comment:** I have 2 babies in nappies. We go through 80-88 nappies per week, this as is already over flows one bin alone. Another issue for my household is I have one person on home dialysis, 12 hours per night every night each night around to 2 x 8-10KG of liquid waste, 2x 1 litre by 60 litres high is a lot . Very hazardest waste! This is my confirmation that I DOT NOT consent to the fortnightly rubbish collections

   Overflowing bins,Hygiene and odour,Pest infestations,Fly-tipping,Missed pickups

## Section 4: Cost and Value

7. **Do you believe there will be $10 million savings that will benefit ratepayers?**
   Unsure

8. **Would you prefer to keep weekly collections even if it meant no cost savings?**
   Yes

## Section 5: Climate and Best Practice

9. **Do you believe Auckland's climate (warm, humid) requires weekly rubbish collection to prevent health risks?**
   Strongly agree

10. **Should Council follow Best Practice of the Day and retain weekly collections?**
    Yes

**Comment:** It's hard enough to manage fortnightly recycling. If you're going to do fortnightly waste, change to weekly recyling

## Section 1: Understanding Waste Resources

1. **Do most of Auckland's landfill waste comes from commercial and construction sources, not households?**
   Yes

2. **Should Council focus more on reducing commercial waste rather than cutting household services?**
   Strongly agree

## Section 2: Household Waste Realities

3. **How much control do you feel you have over the amount of household rubbish you generate?**
   A lot

4. **What are the biggest contributors to your household waste?**
   Food packaging,Fast food containers,Hygiene products (e.g. nappies, wipes),Paper and mail

## Section 3: Collection Frequency

5. **Do you support moving from weekly to fortnightly rubbish collections?**
   Yes

6. **What concerns do you have about fortnightly collections?**
   Overflowing bins,Hygiene and odour,Pest infestations,Fly-tipping,Missed pickups

## Section 4: Cost and Value

7. **Do you believe there will be $10 million savings that will benefit ratepayers?**
   No

8. **Would you prefer to keep weekly collections even if it meant no cost savings?**
   Yes

## Section 5: Climate and Best Practice

9. **Do you believe Auckland's climate (warm, humid) requires weekly rubbish collection to prevent health risks?**
   Strongly agree

10. **Should Council follow Best Practice of the Day and retain weekly collections?**
    Yes

**Comment:** Weekly pickup would be highly recommended

**#4746**

**Note:** This version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

**Submitter Position:** Opposition to Fortnightly Rubbish Collection Proposal

**Location/Suburb:** Weymouth

## Section 1: Understanding Waste Resources

1. **Do most of Auckland's landfill waste comes from commercial and construction sources, not households?**
   Yes

2. **Should Council focus more on reducing commercial waste rather than cutting household services?**
   Strongly agree

## Section 2: Household Waste Realities

3. **How much control do you feel you have over the amount of household rubbish you generate?**
   Some

4. **What are the biggest contributors to your household waste?**
   Food packaging,Fast food containers,Hygiene products (e.g. nappies, wipes)

## Section 3: Collection Frequency

5. **Do you support moving from weekly to fortnightly rubbish collections?**
   No

6. **What concerns do you have about fortnightly collections?**
   Overflowing bins,Hygiene and odour,Pest infestations,Fly-tipping, Rubbish being dumped.

## Section 4: Cost and Value

7. **Do you believe there will be $10 million savings that will benefit ratepayers?**
   No

8. **Would you prefer to keep weekly collections even if it meant no cost savings?**
   Yes

## Section 5: Climate and Best Practice

9. **Do you believe Auckland's climate (warm, humid) requires weekly rubbish collection to prevent health risks?**
   Strongly agree

10. **Should Council follow Best Practice of the Day and retain weekly collections?**
    Yes

**Comment:** I understand re the environment aspect. However, council always good at cutting services first it was the public rubbish bins in areas, now our weekly collections are at risk.
