The draft Auckland Golf Investment Plan aims to ensure all Aucklanders benefit from publicly owned golf land. Do you support this goal?
Support

Do you have any comments about your response above? These important public open spaces need to be open to a wider range of people and activities, but especially casual active recreation - walking and cycling, PLUS provide off-street connectivity across or around the land.

Objectives

The draft plan sets regional policy for council-owned or managed golf land and has three objectives. Please tell us whether you support each objective.

Partially support

4. **Best practice in ecosystem management and biodiversity conservation of publicly owned golf land**
Support

Do you have any comments about your responses above? Active NZ data shows overwhelmingly that casual walking, running and cycling are far more accessible and popular forms of active recreation than golf - providing landscape scale connectivity to maximise these activities must be high priority.

Key shift

The draft plan proposes four key shifts for golf courses on public land to benefit all Aucklanders. Please tell us whether you support each key shift.

Do you have any comments about the draft Auckland Golf Investment Plan or this survey?
The Plan is long overdue - provision of public land for golfing is a highly inequitable use of public space at a landscape scale. Unfortunately some golfing enthusiasts are distorting the main message of the plan - claiming that council is seeking to sell off public land. It is important in the plan to have a strong message about retention of the land and examples of how a much wider range of rereation will be supported.

The draft Auckland Golf Investment Plan aims to ensure all Aucklanders benefit from publicly owned golf land. Do you support this goal?
Partially support

Do you have any comments about your response above? All Aucklanders currently benefit from golf courses in that no one is excluded from joining them...any one can join if they wish. I partially support that there may be surplus golf land that can be better utilised.

Auckland is fast loosing it's greenery, so wouldn't support any plan where housing is built on golf land. There should be a mixture of 18 and maybe the odd 9 hole courses plus a mixture of public and private courses.

Just another so called public participation before you carve up Chamberlain Park for the non existing cyclists. I used to drive past the park twice a day for work - there were always people playing golf, whatever the weather. It will just be another under used play way. There is a futsal course outside the Old community centre in Massey. I have never seen anyone on it. When the Library was there I visited frequently. Perhaps the Council should follow up on their useless plans for young people. I don't play golf

Do you have any comments about your response above? Golf courses used privately are a huge waste of space in urban areas where infrastructure and housing could be built. Golf courses are seen as only for the 1% elite and the general public get no benefit whatsoever from them.

I am all for the land being diversified and more equitable. What I do not want to see us any council land being sold off for housing. Open green spaces should be protected at all costs.
