Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

Increased too much

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

I support these changes because they are fair and help our city work better. Charging for bin exchanges is a good way to cover costs. Expanding the business areas in Kingsland and Onehunga will help local shops grow and improve our town centers. The septic tank plan for rural areas is important for a clean environment. Also, higher parking fees are a good idea to help manage street space more effectively in busy areas.1

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Howick

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
3	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Streets and public spaces – improve streets, parks and public spaces so the city centre is a great place to live and spend time in.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Local Board: Howick

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Property taxes have increased too much, which is unfair to homeowners. The increase has not brought any improvement.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Has the local tax rate ever been reduced?

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Howick

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
3	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support most

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Howick

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
6	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
3	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Annual Plan 2026-2027

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The current cost of living is already high, so I don't really support further increasing various expenses.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Howick

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
5	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
4	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
1	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Economic BoostBecause the current economic environment lacks dynamism, investment is neededto create jobs/innovation and new economic growth drivers.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Better connections – improve links between the city centre, the waterfront and nearby neighbourhoods.,Events and city life – attract people to the city centre through events, culture and a strong sense of place.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Local Board: Howick

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Most people do not support the increase in property taxes because the current cost of living is already high and will put financial pressure on many families.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

The current cost of living is already high, so I don't really support further increasing various expenses.

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Howick

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

council should consider the cost of living pressure, be transparent with the spending to public

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
3	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
2	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

thinks of way on how to build our economy, creating more opportunities to increase the job market

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

1. Watercare has already increased water rates; it's unclear why Auckland Council is still investing so much money. Reducing corruption and unnecessary operating costs should be the top priority.2. The district council is currently budgeting for unnecessary projects, such as transportation roundabouts.3. Annual investments in transportation projects often waste tax money, and the designs are very unreasonable.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

Reduce residential property tax

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Howick

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area

1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
6	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
5	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Without a stable and growing economy, everything else is just empty talk.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.

3	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
4	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
2	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
5	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
6	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.,Supporting businesses – help businesses succeed by making them easier to access by attracting more visitors to the city with well-designed streets and public spaces.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support any

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Maungakiekie-Tāmaki

Maungakiekie-Tāmaki Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Do not support any

Tell us why

2. What do you think about the proposed key areas of additional investment?

A. Environmental initiatives – working alongside mana whenua on restoration projects, expanding food resilience and edible planting programmes, and reinstating deferred environmental education activities.

B. Sport and recreation – providing one-off operational support to local sports clubs and facilities to strengthen participation and collaboration.

C. Libraries and culture – enhancing programming for seniors and increasing investment in creative and cultural activities.

D. Community safety and emergency readiness – exploring additional compliance officer resourcing in areas with limited coverage.

E. Local economy - supporting business associations to continue supporting local businesses and ongoing growth, development and liven-up our town centres.

Tell us why (please be clear which priority you are talking about)

3. What do you think of Onehunga Business Association Inc's proposal to reduce the geographic boundary of the Onehunga Business Improvement District (BID) programme, and amount of targeted rate to be collected?

Tell us why

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
1	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
5	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
2	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
4	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

things that improve the day-to-day for NZ citizens, line safety and transport, not recreation or culture

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Getting around – make it easier to walk, drive, cycle and use public transport in the city centre and from east to west, including better traffic flow.,Safety – a safer and more welcoming city centre, both day and night, for residents, workers and visitors.

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

Pensioners have a hard time.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Howick

Howick Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

I don't know

Tell us why

I'm not sure about the details.

2. What do you think about the proposed local board specific key areas of spend?

A. Explore ways to get the best value from our play spaces so they continue to meet the needs of children and families.

B. Run regular seminars for community groups/organisations on the local grant's application process.

C. Identify what type of indoor/sheltered courts are necessary to support sports play in Flat Bush.

D. Continue advocacy of the Tāmaki estuary on water quality and coastal erosion.

E. Continue to advocate to crime prevention organisations on behalf of the community for ongoing safety initiatives.

F. Continue to support our volunteer groups with resources needed for ecological volunteering, such as stream clean-ups and pest plant weeding.

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

#6362

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Support all

Tell us why

N/A

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?
Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?
(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.

	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

Howick

Howick Local Board Feedback:

1. What do you think of our proposals for your local board area in 2026/2027?

Support most

Tell us why

No major issues around Flatbush as of 2026.

2. What do you think about the proposed local board specific key areas of spend?

A. Explore ways to get the best value from our play spaces so they continue to meet the needs of children and families.

B. Run regular seminars for community groups/organisations on the local grant's application process.

C. Identify what type of indoor/sheltered courts are necessary to support sports play in Flat Bush.

D. Continue advocacy of the Tāmaki estuary on water quality and coastal erosion.

E. Continue to advocate to crime prevention organisations on behalf of the community for ongoing safety initiatives.

F. Continue to support our volunteer groups with resources needed for ecological volunteering, such as stream clean-ups and pest plant weeding.

Tell us why (please be clear which priority you are talking about)

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
2	**Economic development and events –** growing Auckland's economy and supporting events, tourism and creative industries.
4	**Local parks, community and recreation services –** local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
1	**Planning and infrastructure to manage growth –** planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.

6	**Regional parks and environment –** looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
3	**Transport –** roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
5	**Flood resilience –** reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

Economic developments and events. The youth need jobs so a focus on supporting businesses would create more demand for labour hopefully.

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Events and city life | Getting around | Māori identity and culture | Streets and public spaces |

Annual Plan 2026-2027

Local Board: Howick

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

1. Oppose the rate rise. The proposed average increase of 7.9 percent imposes an additional approximately $320 per household on top of a 30 percent real increase since 2022 in rates (in 2022 dollars) while inflation runs higher. Ratepayers cannot sustain this level of rise when core services are already under strain and household budgets are tight.2. Reduce corporate and backroom spending. The Council must reduce expenditure on corporate and backroom office functions across the Council and CCOs. The current structure and running costs are excessive and do not align with the need for prudent affordable local government.3. Curb consultancy and professional services.

The spend on consultants and professional services should be cut rather than expanded. The current model relies heavily on external advice rather than building internal capability and efficiency.4. Cancel the Food Scraps Programme. The Food Scraps Programme costs $36 million per year and emits more carbon than it saves. This is not a good use of ratepayer funds and should be terminated.5. Freeze staffing and reduce payroll costs. Freeze non-essential hiring and reduce payroll costs by not filling vacant roles that are not essential. This measure alone would save at least $17 million immediately.6. Cut Māori-specific spending. I oppose the $10 million per year spent on the 'Maori outcomes' department (Ngā Mātārae) as a function of local government responsibilities. Resources should prioritise statutory and essential services over discretionary programmes.Given the above I support the Ratepayers' Alliance alternative budget approach to cap rate increases at around 3 percent by saving $150 million (2 percent) through personnel restraint consultant caps contract renegotiations and prioritising essential services.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I submit in strong opposition to the proposed average residential rates increase of 7.9% for 2026/27 which equates to about $320 for the average household on top of a long-run climb in rates that far outpaces inflation and population growth.The Council must recognise that the current plan amounts to a 30% real increase since 2022 (in 2022 dollars) while inflation has run about 12%. The 7.9% package is broken down as 2% to maintain existing assets 1.5% for new assets as Auckland grows and 4.4% for CRL operating costs. This is unsustainable for households and it ignores the need to rein in wasteful expenditure.I Agrees the Council should reduce expenditure on corporate

and backroom office functions across the Council and CCOs and cut spend on consultancy and professional services rather than continuing to increase these items. The Auckland Ratepayers' Alliance demonstrates that consultant costs run at about $126 million per year across the Council group with the average consultant earning around $200k. Direct operating expenditure has grown far faster than inflation and payroll and contractor costs are a major driver of living-cost increases for ratepayers.I also agree that the Council should cancel the Food Scraps Programme which costs roughly $36 million per year and emits more carbon than it saves and freeze staffing or reduce payroll costs by not hiring for vacant non-essential rolessaving at least $17 million immediately. In addition I contend that spending on Māori outcomes (Ngā Mātārae) at around $10 million per year should be reconsidered as this is not a core function of local government.Additional concerns: the ongoing cones removal and costly cycleway/bridge projects (e.g. Orakei Taniwha Street in Glen Innes) warrant scrutiny. I want to know the full cost of these projects and their ongoing impact on rates.Closing: I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I oppose the average residential rates increase of 7.9% and urge a route that reduces wasteful spending while maintaining essential local services.1) Rate increase and budget focus- The proposed 7.9% average increase translates to about $320 for the typical household on an already high base of $4069. Since 2010 rates have risen by 85% far exceeding inflation and population growth. A more affordable rate path is essential for households already feeling cost pressures.2) Agreement on reducing expenditure- The Council must reduce expenditure on corporate and backroom office functions across the Council and CCOs.- Spending on consultancy and professional

services should be cut rather than increased.- I support freezing staffing or reducing payroll costs by not hiring for non-essential vacant roles a measure that could save at least $17 million immediately.- I oppose ongoing or expanded discretionary spending that diverts funds from essential services.3) Specific programmes to cut or reassess- Cancel the Food Scraps Programme which costs $36 million per year and emits more carbon than it saves.- Freeze or reduce Māori-specific spending including the $10 million per year allocated to the Māori Outcomes department (Ngā Mātārae) as this is not a core responsibility of local government.4) Alternative budget approach- The Ratepayers' Alliance proposes a $150 million reduction in new Council spending (about 2%) enabling an average residential rates increase of around 3%.- This would come from: $50 million in personnel costs via organisational changes and a hiring freeze; $50 million in reducing consultants; $30 million through contract renegotiations and vendor consolidation; $20 million by prioritising statutory/essential services over discretionary grants.5) Public engagement and process- A more targeted value-for-money approach is required with emphasis on outcomes transparency and accountability.ClosingI do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

1) Rate increases and spending controls- I oppose increasing average residential rates by at least 7.9% (about $320 for the average household) when real household costs have already risen substantially since 2022. The current rate bill is $4069 with a real increase of 30% since 2022 far outpacing cumulative inflation.- The proposed breakdown shows 4.4% for CRL operating costs alongside allocations for maintaining existing assets and funding new assets. This justifies seeking meaningful savings elsewhere first rather than layering more cost onto ratepayers.2) Reducing wasteful expenditure- I support reducing expenditure on corporate and backroom office functions

across the Council and CCOs.- I support cutting spend on consultancy and professional services rather than permitting continued growth in these areas.- I support freezing staffing and/or reducing payroll costs by not hiring for vacant non-essential roles a measure that would save at least $17 million immediately.- I support capping or reforming contract spend and pursuing vendor consolidation to achieve cost-effective procurement.3) Specific program and equity considerations- I oppose continuing the Food Scraps Programme which costs $36 million per year and reportedly emits more carbon than it saves.- I oppose allocating funds to the Maori outcomes department (Ngā Mātārae). The $10 million per year for Māori outcomes is not a core local government function and resources could be redirected to statutory and essential services.- The Council's overall personnel costs and non-payroll expenses have risen substantially; a more stringent review is warranted to avoid unnecessary growth in headcount and non-essential costs.4) Alternative budget approach- The Auckland Ratepayers' Alliance proposes reducing new Council spending by $150 million (2%) capping the rate increase at 3% through targeted savings: $50 million from personnel costs $50 million from consultants $30 million from contracts and $20 million from prioritising essential services over discretionary grants.I did vote for Wayne Brown to fix Auckland and curb wastage; I expected no rate hikes yet the opposite has occurred.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I oppose the proposed rate rise of 7.9 percent and call for limiting rates increases to align with inflation not to exceed it. The current trajectory shows a real-terms burden on households with rates up 30 percent in real terms since 2022 (vs. 12 percent overall inflation). Instead I support the Auckland Ratepayers' Alliance's plan to cap the average residential rates increase at about 3 percent by making targeted savings.I agree that the Council must reduce expenditure on corporate and backroom office functions across the Council and CCOs and cut the spend on consultancy and professional services. Annual consultant cost is about $126 million across the group with the

average consultant earning roughly $200000 and overheads in staff time and procurement not yielding commensurate value. Reducing these costs is a direct practical way to protect ratepayers.I also support cancelling the Food Scraps Programme which costs about $36 million per year and as claimed emits more carbon than it saves. This aligns with prioritising essential statutory services over discretionary programmes.I support freezing staffing or reducing payroll costs by not hiring for vacant non-essential roles which could save at least $17 million immediately. In addition I support reducing Māori-specific spending such as the $10 million per year spent on the Māori Outcomes department (Ngā Mātārae) to ensure local government focus remains on core accountable activities.If adopted the Ratepayers' Alliance Alternative Budgetreducing new spending by $150 million (2%)could cap rates increases around 3 percent through these measures: personnel efficiencies capping consultants renegotiations and vendor consolidation and prioritising essential services.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**

Organisation: N/A

Local Board: Howick

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I oppose the 7.9% increase. The current average residential rates bill is $4069 up from $2781 in 2022 and the real increase since 2022 is 30% (in 2022 dollars) against 12% cumulative inflation. The proposed 7.9% breakdown includes 4.4% for CRL operating costs which compounds concerns about how assets and services are funded. Rates growth that outpaces inflation without clear necessary benefits to residents is unacceptable.I also urge the Council to pursue meaningful cost reductions in line with the Auckland Ratepayers' Alliance plan. The Council should reduce expenditure on corporate and backroom functions across the Council and CCOs and cut spend on consultancy and

professional services rather than continuing to increase these items. There is clear potential to reallocate funds toward essential services by pursuing efficiency gains.Specific measures I support include:- Cancel the Food Scraps Programme which costs $36 million per year and reportedly emits more carbon than it saves.- Freeze staffing and/or reduce payroll costs by not hiring for vacant non-essential roles which could save at least $17 million immediately.- Cap and reduce Māori-specific spending including the $10 million per year on the Māori outcomes department (Ngā Mātārae) which I believe is not a duty of local government.- Implement the Ratepayers' Alliance Alternative Budget: reduce new Council spending by $150 million (2% cap) to achieve a 3% rate rise through targeted actions such as limiting personnel costs capping consultants renegotiating contracts and prioritising statutory services over discretionary grants.Additional points- The historical context matters: since 2010 rates have risen 85% well above inflation and population growth. A leaner organisation with a focus on core municipal services is warranted.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

My address is {address redacted}.I oppose the proposed average residential rates increase of 7.9% and urge Council to cap rate increases at or near 3% by reducing wasteful and non-core spending. The current average residential rates bill is about $4069 and since 2022 rates have effectively risen 30% in real terms well above general inflation. The proposed 7.9% increase comprises 2% for maintaining existing assets 1.5% for new assets as Auckland grows and 4.4% for CRL operating costs. This structure places an ongoing burden on households while we see substantial growth in corporate and backroom spending.I support the Auckland Ratepayers' Alliance plan to reduce new

Council spending by $150 million (a 2% reduction) to achieve a 3% cap. Specific measures I favour include:- Reducing personnel costs through organisational change and a hiring freeze on non-essential roles saving $50 million.- Capping spending on consultants and professional services at $50 million.- Renegotiating contracts and consolidating vendors to save $30 million.- Prioritising statutory and essential services over discretionary grants saving $20 million.I also advocate for cancelling the Food Scraps Programme which costs $36 million per year and reportedly emits more carbon than it saves. The Council should freeze staffing and payroll costs by not filling vacant non-essential roles which would save at least $17 million immediately. Additionally I contest ongoing Māori-specific spending such as the $10 million per year for the Māori outcomes department (Ngā Mātārae) on the basis that this is not a core local-government function.Beyond the numbers I ask Council to review how much of current expenditure is directed toward consultants corporate functions and back-office overhead. Direct operating expenditure has grown well ahead of inflation and alignment toward essential services must be a priority.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Local Board: Howick

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I submit this formal comment on the proposed 2026/27 annual plan with a constructive and solution-focused tone.1. Opposition to rate increaseI oppose the proposed average residential rates increase of 7.9% which equates to about $320 for the average household. Rates have risen 85% since 2010 far outpacing inflation and population growth. The Council should not pursue further rate growth beyond inflation while wasteful spending remains entrenched.2. Spending reductions and efficiencyThe Alliance shows substantial opportunities to cut non-essential spend. I support reducing expenditure on corporate and backroom office functions across the Council and CCOs and

cutting spend on consultancy and professional services rather than allowing these costs to rise further. Direct operating expenditure and personnel costs have grown far faster than inflation and a more disciplined approach is long overdue.3. Specific overrides to wasteful programmesI support cancelling the Food Scraps Programme which costs about $36 million per year and appears to emit more carbon than it saves. Redirecting those funds to essential services would be prudent and more impactful for ratepayers.4. Staffing and payroll controlsI support freezing staffing and/or reducing payroll costs by not hiring for vacant non-essential roles which the Alliance estimates could save at least $17 million immediately. Containing payroll is a straightforward way to protect ratepayers from unaffordable increases.5. Prioritisation of statutory services over discretionary spendI advocate prioritising statutory and essential services over discretionary grants. I also support reducing Māori-specific spending including the $10 million per year allocated to the Ngā Mātārae (Māori outcomes) department on the basis that this is not a core municipal function.6. Budget frameworkA more prudent budget would cap rate increases at or near 3% by reducing new Council spending by about $150 million (2%) aligned to the measures above: personnel cost controls consultant spend caps contract renegotiations and vendor consolidation.ClosingI do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The current average residential rates bill is about $4069 up from $2781 in 2022 with a real increase of 30% since 2022 and cumulative inflation near 12%. A 7.9% uplift is well above inflation and ignores the need for prudent belt-tightening and prioritisation of core services.Structure and key positions1) Expenditure reduction to enable a sustainable rate position- Agree: reduce expenditure on corporate and backroom functions across the Council and CCOs.- Agree: reduce spend on consultancy and professional services rather than allowing these items to grow.- The Council's current cost driversconsultants ($126m across the group) payroll ($1.3b) and six-figure salaries

(over 6000 staff with 72 staff paid more than the mayor)are unsustainable at current growth rates.- The Council should freeze non-essential vacancies and halt hiring for non-critical roles to save at least $17m immediately.2) Targeted programme and Māori spend- Agree: cancel the Food Scraps Programme costing $36m/year and judged to emit more carbon than it saves.- Agree: cut Māori-specific spending such as the $10m/year allocated to the Ngā Mātārae/Māori Outcomes function recognising that this is not a core local government duty.3) Alternative budget and rate setting- Propose an Alternative Budget that reduces new Council spending by $150m (a 2% reduction) capping the average rate increase to around 3%.- Allocation priorities: prioritise statutory and essential services with restraint on discretionary grants and non-core projects.4) Oversight and governance- Demand stronger contractual renegotiations and vendor consolidation to achieve further savings beyond personnel and consultancy reductions.ClosingI urge Auckland Council to adopt a disciplined transparent approach to spending focusing on essential services and value-for-money initiatives. The proposed 7.9% increase is not justified while significant savings are within reach through organisational efficiency consultancy reductions and programme cancellations.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I write with a personal and sincere concern for my household and for the broader city regarding the proposed 7.9% average residential rates increase for 2026/27.I oppose the proposed 7.9% increase. The current average residential rates bill is $4069 and real increases since 2022 have reached about 30% far outpacing cumulative inflation. With the plan breaking down as 2% for maintaining existing assets 1.5% for new assets and 4.4% for CRL operating costs the total burden on households is not sustainable. Ratepayers deserve a plan that matches inflation and delivers essential services without a continued hike in backroom or discretionary expenses.I support a stronger focus on

cutting wasteful expenditure. The Auckland Ratepayers' Alliance briefing highlights substantial costs in consultants ($126 million per year across the Council group) and high payroll and backroom operations. I urge the Council to reduce corporate and backroom spending across both the Council and CCOs and to curb consultancy and professional services spend rather than permitting further increases.I support cancelling the Food Scraps Programme which costs $36 million per year and according to the briefing emits more carbon than it saves. I also support freezing staffing and reducing payroll costs by not filling vacant non-essential roles an immediate saving of at least $17 million.I oppose continuing or expanding Māori-specific spend such as the $10 million per year on the Maori outcomes department (Ngā Mātārae). Local government should prioritise statutory and essential services over discretionary grants.To deliver a more affordable plan I propose an alternative budget approach: reduce new Council spending by $150 million (2%) to cap rates at around 3% funded by $50 million in personnel cost reductions via organisational change and hiring freezes $50 million saving from capping consulting $30 million from renegotiations and vendor consolidation and $20 million from prioritising statutory services over discretionary grants.Thank you for considering these points as you prepare the draft annual plan.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Submitter details:

Organisation: N/A

Local Board: Howick

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I submit my strong opposition to the proposed average 7.9 percent residential rates increase and urge a substantial reduction in wasteful Council spending. The proposed rise would represent a real burden on households already stretched by inflation and slower wage growth.Key points:1) The 7.9% increase is not affordable. The current average residential bill is about $4069 with a 2022 real increase of 30% since then far outstripping cumulative inflation. The breakdown shows 4.4% targeted at CRL operating costs plus 2% to maintain existing assets and 1.5% for growth. A 7.9% rise compounds these pressures on ratepayers.2) Reduce wasteful and backroom spending. Council

group spending on consultants is $126 million per year with the average consultant around $200k. Personnel costs and other expenses have risen faster than inflation; payroll and contractor costs drive a large portion of the rate increase.3) Implement the Ratepayers' Alliance Alternative Budget. Cap average residential rates increase at 3% by cutting new spending by $150 million (2% overall): freeze non-essential hires cap consultancy spend renegotiate contracts and prioritise statutory services over discretionary grants.4) Targeted savings drafted from the Alliance plan:- Freeze staffing or reduce payroll by not hiring for vacant non-essential roles (safely saving at least $17 million immediately).- Reduce consultants and professional services by $50 million.- Renegotiate contracts and consolidate vendors for $30 million.- Reprioritise essential statutory services over discretionary programs saving $20 million.Additional notes:I oppose ongoing spend on Maori outcomes at Ngā Mātārae and I question the rationale for certain climate and environmental rate targets that add cost without clear local benefit. I request transparent quarterly reporting of any savings achieved through these proposed reductions.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Organisation: N/A

Local Board: Howick

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I submit in strong opposition to the proposed 7.9 percent average residential rates increase and in support of substantial reductions in wasteful council spending and backroom costs.1) Oppose the average residential rates increase of 7.9%. The plan amounts to roughly $320 more per average household while real rate increases since 2022 run at about 30 percent in 2022 dollars against 12 percent inflation. This is unaffordable for households and not justified by the scale of ongoing operating costs.2) Reduce expenditure on corporate and backroom office functions across the Council and CCOs. Spending on consultants and six-figure salaries has grown significantly with

consultants costing about $126 million per year across the group and a typical contractor earning around $200000. The payroll and related overheads are ballooning and there is clear scope to trim non-essential functions.3) Reduce spend on consultancy and professional services. The continued rise in external advisory costs is not matched by commensurate gains in service delivery or outcomes. A tighter cap on consultancy would directly lower the rate rise burden.4) Cancel the Food Scraps Programme. It costs about $36 million per year and according to independent assessments emits more carbon than it saves. The programme should be halted or redirected to more cost-effective lower-emission waste strategies.5) Freeze staffing and/or reduce payroll costs. Not hiring for vacant non-essential roles as a immediate measure would save at least $17 million right away and help bring the rate rise back toward affordable levels.6) Cut Māori-specific spending such as the Maori outcomes department (Ngā Mātārae). I oppose funding directed to a dedicated Maori outcomes unit as a local government function; these funds should be redirected to essential statutory services.I urge the Council to adopt the Ratepayers' Alliance alternative budget approach reducing new Council spending by $150 million to cap the rate increase at around 3 percent via personnel controls contractor caps contract renegotiations and prioritising statutory services over discretionary grants.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Local Board: Howick

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I submit my concerns regarding the proposed 2026/27 annual plan and the anticipated average residential rates increase of 7.9%.I oppose the 7.9% increase and urge Council to acknowledge that rates increases should align with inflation and genuine service needs. The current plan allocates 4.4% of the rise to CRL operating costs with 2% for existing asset maintenance and 1.5% for new assets tied to growth. The cumulative effect since 2010 has been an 85% rise in rates far outpacing inflation and population growth. I request a thorough rebalancing toward core services and more prudent Council spending.The Auckland Ratepayers' Alliance alternative budget shows that

reducing new Council spending by $150 million (a 2% reduction) can cap the average residential rates increase at around 3%. I support this approach including:- Reducing personnel costs via organisational change and a hiring freeze for non-essential roles saving at least $50 million.- Capping spending on consultants and professional services at $50 million.- Renegotiating contracts and consolidating vendors for $30 million.- Prioritising statutory and essential services over discretionary grants for $20 million.I also request urgent attention to wasteful expenditure:- Freeze or reduce payroll costs by not filling vacant non-essential roles which could save at least $17 million immediately.- Cancel the Food Scraps Programme which costs about $36 million per year and emits more carbon than it saves.- Cut Māori-specific spending such as the $10 million per year allocated to the 'Maori outcomes' department (Ngā Mātārae) which I believe is outside the core responsibilities of local government.- Reassess consultant and contractor spend currently a significant drain on ratepayers' funds and consolidate functions where possible.- Review footpath repairs and maintenance to ensure value-for-money in all public works.I intend to participate in the process but do not wish to present at hearings. I appreciate your consideration of these points and respectfully urge a more targeted fiscally responsible path for Auckland's future.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland’s longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces

work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Submitter details:

Organisation: N/A

Local Board: Howick

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I oppose the average residential rates rise of 7.9 percent. The current average bill is $4069 with real increases since 2022 of about 30 percent far above inflation. The proposed breakdown2% for maintaining assets 1.5% for growth and 4.4% for CRL operating costsadds up to a level of spend that is not justified by outcomes for residents. Rate increases have far outpaced population growth and inflation since the Super City amalgamation.The Council must curb wasteful expenditure. Spending on consultants is excessive at $126 million per year across the Council group with the average consultant earning around $200k. Personnel costs and 'other expenses' have risen twice

the rate of inflation between 2022 and 2025 while direct operating expenditure grew 78% from 2013 to 2023. I support reducing corporate and backroom functions across the Council and CCOs and cutting spending on consultancy and professional services.I also call for cancelling the Food Scraps Programme which costs about $36 million per year and reportedly emits more carbon than it saves. Freeze staffing and reduce payroll costs by not hiring for vacant non-essential roles which could save at least $17 million immediately. I further oppose a blanket increase in Māori-specific spending such as the $10 million/year on the Māori outcomes department (Ngā Mātārae); this is not a core local government function and should be reassessed.I support the Ratepayers' Alliance plan to reduce new Council spending by $150 million (2%) capping the rate rise to about 3 percent. This would be achieved by (i) reducing personnel costs through organisational change and a hiring freeze (ii) capping consultants (iii) renegotiating contracts and consolidating vendors and (iv) prioritising statutory and essential services over discretionary grants.In closing I would like the opportunity to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The current trajectory of rate rises is unsustainable for households and must be resisted in favour of substantial spending restraint and reform.I oppose the average residential rates increase by at least 7.9%. With the current average bill at $4069 and a real increase of about 30 percent since 2022 (over inflation) further rate hikes far above inflation place an undue burden on households. The proposed 7.9% split2% for existing assets 1.5% for new assets and 4.4% for CRL operating costshighlights a structural dependency on higher charges rather than prudent cost control.The Council needs to reduce expenditure on corporate and backroom office functions across the Council

and CCOs and reduce spend on consultancy and professional services. The current consultancy and contractor spend$590 million across the Council group with $126 million annually by the group and $60 million by the Auckland Council parentindicates an unsustainable reliance on external advisers. A freeze on non-essential staff and a cap on consultant spend are essential steps.I support canceling the Food Scraps Programme which costs $36 million per year and emits more carbon than it saves. I also support freezing staffing and/or reducing payroll costs by not hiring for vacant non-essential roles a move that would save at least $17 million immediately. Additionally I oppose ongoing Māori-specific spending such as the $10 million per year allocated to the Maori outcomes department (Ngā Mātārae) on the basis that local government should prioritise statutory and essential services over discretionary programmes.I endorse the Ratepayers' Alliance Alternative Budget: reduce new Council spending by $150 million (2% cap on rate increases) through: $50 million by personnel cost reductions $50 million by capping consultant spend $30 million via contract renegotiations and vendor consolidation and $20 million by prioritising statutory services over discretionary grants.Reduce bureaucratic overhead; refocus on core statutory services to protect households from excessive rates increases.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I write as a ratepayer concerned about the proposed 7.9 percent average residential rates increase and the overall direction of council spending. I understand the council faces growing costs but I believe a prudent value-for-money approach is necessary to protect households while continuing essential services.1) I support reducing wasteful and backroom spending. In particular I urge tighter controls on corporate and backroom office functions across the Council and CCOs. The current expense profile shows significant spend on consultants and other professional services that could be trimmed through organisational change and hiring controls.2) I call for freezing staffing and

reducing payroll where non-essential roles are vacant. The agreed measure of saving at least $17 million immediately by not filling non-essential positions aligns with responsible budgeting and would directly ease ratepayer burdens.3) I urge capping or redirecting consultant spend and pursuing contract renegotiations and vendor consolidation. The current level of external contracting represents a substantial ongoing cost that could be reduced without compromising core services.4) I request prioritising statutory and essential services over discretionary grants. This would ensure a leaner more accountable budget that focuses on outcomes that councils are legally required to deliver.Additional points I support from the Auckland Ratepayers' Alliance: reducing overall personnel costs cutting Māori-specific spending such as the proposed Ngā Mātārae programme and eliminating or re-scoping projects like the Food Scraps Programme which costs around $36 million per year and emits more carbon than it saves. A revised budget proposal such as the Alliance's plan to reduce new Council spending by $150 million (about 2 percent) and cap average rate increases at around 3 percent should be used as a baseline. This would be achieved through the measures above and would better reflect inflation and household affordability.I would welcome the opportunity to speak at hearings but I am submitting this for consideration regardless.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**

Organisation: N/A

Local Board: Howick

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I oppose the proposed 7.9% rates rise. The council has already lifted rates by 85% since the 2010 Super City amalgamation vastly outpacing inflation and population growth. Given current cost pressures across households a rate increase well above inflation is not appropriate. If possible I urge the council to pursue significant savings rather than new spending commitments.I support a clear focus on reducing wasteful Council expenditure especially in corporate and backroom office functions across the Council and CCOs. I also call for a reduction in the spend on consultancy and professional services rather than continued growth in these items. The council should cancel non-

essential programmes with questionable value such as the Food Scraps Programme which costs about $36 million per year and appears to emit more carbon than it saves.I additionally support freezing staffing or reducing payroll costs by not hiring for vacant non-essential roles which could save at least $17 million immediately. It is essential to examine personnel costs and avoid further cost escalations in a period of rising living costs for households. In line with this I propose cutting Māori-specific spending such as the roughly $10 million per year allocated to the Māori Outcomes department (Ngā Mātārae) as this should be a function of core local government responsibilities.Aligned with the Auckland Ratepayers' Alliance Alternative Budget I advocate for reducing new council spending by $150 million (2%) which would cap the average residential rates increase at around 3% through targeted measures including:- Reducing personnel costs via organisational change and a hiring freeze- Capping consultancy spending- Renegotiating contracts and consolidating vendors- Keeping statutory and essential services as priorities over discretionary grantsClosing: I request that the council seriously consider these savings given the burden on households and the need to improve efficiency.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Local Board: Howick

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The suggested 7.9% average rise with an approximate $320 increase for the average household is outpasted by the reality that rates have risen 85% since the 2010 Super City reform far ahead of both inflation (34%) and population growth (22%). The breakdown shows 2% for existing assets 1.5% for new assets as Auckland grows and 4.4% for CRL operating costs. This pattern is unsustainable for households particularly when inflation and living costs are weighed against utility.I agree with the need to reduce expenditure on corporate and backroom office functions across the Council and CCOs and to curb spending on consultancy and professional services. The

Council should implement a Zero-based approach to non-essential spending including a reduction in personnel costs through sensible organisational change and a hiring freeze for vacant non-essential roles. On this basis freezing or reducing payroll could deliver immediate savings and I request that this be examined as a matter of priority.I also call for the cancellation of the Food Scraps Programme which costs $36 million per year and according to the Alliance briefing emits more carbon than it saves. Reducing or eliminating this programme would contribute to a lower rates bill and align with sound environmental and budgetary stewardship.Additionally I support capping or reducing Māori-specific spending such as the $10 million per year allocated to the Māori outcomes department (Ngā Mātārae). While community well-being is important this area falls outside core local government responsibilities and should be re-prioritised to essential statutory services.I support the Ratepayers' Alliance Alternative Budget which proposes reducing new Council spending by $150 million (2%) to cap rates at around 3% achieved through personnel expenditure controls consultant reductions contract renegotiations and prioritising statutory services.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I submit in a constructive solution-focused manner to oppose the proposed average residential rates increase of 7.9% and to advocate for prudent reductions in Council spending to protect households.Key positions- Oppose the 7.9% average residential rates rise. With the current average bill standing at $4069 and real increases since 2022 of around 30% the proposed rise is not sustainable for ratepayers.- Reduce expenditure on corporate and backroom office functions across the Council and CCOs and slow the growth of consultancy and professional services.- Cancel the Food Scraps Programme which costs $36 million per year and appears to emit more carbon than it

saves.- Freeze staffing or reduce payroll costs by not hiring for vacant non-essential roles which could deliver immediate savings of at least $17 million.- Cut Māori-specific spending including the $10 million/year allocated to the 'Māori outcomes' department (Ngā Mātārae) arguing that this is not a function of local government.- Support a fiscally responsible alternative budget: reduce new Council spending by $150 million (2%) capping the rate increase at around 3% by prioritising statutory and essential services over discretionary grants.Rationale and context- Since 2010 rates have risen by 85% far exceeding inflation and population growth. The 7.9% uplift with 4.4% for CRL operating costs and 2% for existing assets concentrates cost on households while not addressing underlying efficiency concerns.- The Council's heavy reliance on consultants and backroom functions is evident with around $126 million annually on consultants and $868.4 million in direct expenditure on corporate and business support functions. Reducing these costs would lessen the pressure on ratepayers.- The proposed savings strategy should prioritise essential services procurement reform and personnel controls. Implementing a hiring freeze for non-essential roles and renegotiating contracts could yield meaningful immediate relief.ClosingI request the opportunity to present at hearings to discuss these concerns further. I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The current average residential rates bill is $4069 up from $2781 in 2022 with a real increase since 2022 of about 30%. The proposed breakdown shows 4.4% for CRL operating costs 2% for maintaining existing assets and 1.5% for new assets. This level of growth exceeds inflation and is not acceptable to many households.To align this plan with prudent stewardship of public funds I urge the Council to implement a substantial reduction in expenditure on corporate and backroom office functions across the Council and CCOs and to reduce spending on consultancy and professional services. The Council should cancel the Food Scraps Programme which costs about

$36 million per year and appears to emit more carbon than it saves. In addition freeze staffing or reduce payroll costs by not hiring for vacant non-essential roles a move that could save at least $17 million immediately. I also urge cutting Māori-specific spending such as the roughly $10 million per year spent on the Maori outcomes department (Ngā Mātārae) as this is not a core function of local government.The submitted alternative budget from the Auckland Ratepayers' Alliance proposes reducing new Council spending by $150 million (a 2% reduction) capping the rate increase to around 3% and funding essential services first. I support this direction and encourage the Council to pursue similar measures including capping consultants at sensible levels and renegotiating contracts to achieve meaningful savings.I request that the Council work sensibly with the Auckland Transport group to sort expenditure cut unjustified roles and hold remaining staff accountable for delivering essential services at reasonable costs. These steps are necessary to restore public trust and ensure affordable local government.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I submit in strong opposition to the proposed 7.9 percent average residential rates increase and in support of urgent cuts to wasteful Council spending.1) Rates and fairness- The proposed average 7.9% increase equates to about $320 extra per average household on a current average bill of $4069. Since 2022 rates have risen by 30% in real terms outpacing a 12% general inflation. This is unaffordable for households already stretched by cost pressures.2) Expenditure priorities and waste reduction- The Council must reduce expenditure on corporate and backroom office functions across the Council and CCOs.- Spending on consultancy and professional services should be

curtailed; freezing or reducing external advice will save substantial funds.- Cancel the Food Scraps Programme which costs $36 million per year and emits more carbon than it saves.- Freeze staffing or reduce payroll by not filling vacant non-essential roles; this could save at least $17 million immediately.- Cut Māori-specific spending such as the $10 million per year on the Māori outcomes department (Ngā Mātārae) acknowledging that this is not a core local government role.3) Alternative budget approach- I support the Auckland Ratepayers' Alliance proposal to reduce new Council spending by $150 million (a 2% reduction) to cap the average residential rates increase at 3%. This would be achieved through: a) reducing personnel costs via organisational changes and a hiring freeze; b) capping consultancy spend; c) renegotiating contracts and consolidating vendors; d) prioritising statutory and essential services over discretionary grants.Closing- I urge the Council to adopt these cost-control measures and to refrain from further rate increases beyond modest inflation-aligned adjustments. These steps are necessary to maintain affordability for households while delivering essential services.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I oppose the proposed rates increase and support a plan to reduce non-essential Council expenditure to hold rates to a more affordable level. The current proposal would raise the average residential bill by about $320 delivering a real burden on households already facing higher costs of living. Since 2010 rates have increased by 85 percent outpacing inflation and population growth. I urge the Council to pause further growth in operating costs and focus on efficiency.I support applying the Ratepayers' Alliance alternative budget to cap the rates increase at approximately 3 percent by cutting wasteful spending including:- Reducing personnel costs through organisational

reform and a hiring freeze on non-essential roles saving around $50 million.- Capping spending on consultants and professional services at $50 million.- Renegotiating contracts and consolidating vendors to save $30 million.- Prioritising statutory and essential services over discretionary grants saving $20 million.These measures align with the need to reduce spend on corporate and backroom office functions across the Council and CCOs and to curb the growth in consultancy and professional services which currently contributes significantly to operating expenditure.Specific programmatic questions:- The $36 million/year Food Scraps Programme should be reviewed and if its carbon savings do not justify the cost cancelled.- Maori-specific spending including the Ngā Mātārae 'Māori outcomes' portfolio totals about $10 million annually. I believe local government should prioritise statutory and essential services over such targeted spending.- Payroll and staff costs have risen sharply; freezing vacancies and limiting non-essential hires would deliver immediate savings.With increasing poverty and rising food and fuel prices households should not bear further rate increases. I urge the Council to implement this restraint and focus on delivering core services efficiently.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I am writing in a personal and sincere tone based on careful consideration of Council spending and the impact on households.1) Rates and affordability. I oppose the average residential rates increase of 7.9% (approximately $320 for the average household). Since 2022 the real increase in rates is 30% in today's dollars well above inflation and well beyond community capacity to absorb such growth.2) Wasteful expenditure and backroom costs. The Council should reduce expenditure on corporate and backroom office functions across the Council and CCOs and slow the rise in consultancy and professional services. The current spend on consultants is excessive and erodes

the value delivered to residents.3) Specific spending reductions. Cancel the Food Scraps Programme which costs about $36 million per year and emits more carbon than it saves. Freeze staffing and/or reduce payroll costs by not hiring for vacant non-essential roles which the analysis suggests could save at least $17 million immediately.4) Māori-specific spending. I support focusing on essential services and statutory obligations but I oppose ongoing high spending on Māori outcomes such as the Ngā Mātārae department (about $10 million per year) arguing that this is not a core local government function.5) Alternative budget approach. I support reducing new Council spending by $150 million (2% cap on the rate increase) to keep rates closer to community tolerance. This can be achieved by: $50 million from personnel cost reductions $50 million from capping consultants $30 million from contract renegotiations and vendor consolidation and $20 million prioritising statutory services over discretionary grants. Stop the gravy train; plan carefully not with consultants and private firms making a quick buck. We need quality not quantity.I request to speak at hearings: I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Local Board: Howick

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I oppose the average 7.9% rise and support the Auckland Ratepayers' Alliance plan to cap rate increases at around 3% by reducing non-essential expenditure. The current proposed increase comprises 2% to maintain assets 1.5% for growth in new assets and 4.4% for CRL operating costs. Since 2010 rates have risen 85% far outstripping inflation and population growth. This is unsustainable for households already facing cost of living pressures.I urge the Council to prioritise core statutory and essential services and to reduce expenditure on corporate and backroom functions across the Council and CCOs. I also call for a reduction in consultancy and professional

services spend replacing costly external advice with internal capability where appropriate. The current level of consultant spend is excessive with an average consultant receiving around $200k.I support freezing staffing growth and reducing payroll costs by not hiring for vacant non-essential roles a measure that could save at least $17 million immediately. I further request the Council to cancel non-core programmes such as the Food Scraps Programme which costs $36 million per year and reportedly emits more carbon than it saves.Additionally I oppose expenditure on Maori-focused programmes that are not a core local government responsibility. Specifically I seek a review of the $10 million per year allocated to the 'Maori outcomes' department (Ngā Mātārae) with consideration given to reassigning funds to essential services.I would also highlight inefficiencies in targeted projects such as the Merton Road/Felton Mathew roundabout modification which appears to have worsened traffic flow and trucking conditions. Taxpayers should not bear the cost of projects that degrade transport outcomes.In summary Please adopt the Ratepayers' Alliance alternative budget to reduce new spending by $150 million delivering a 3% cap on rates through personnel reductions caps on consultancy renegotiated contracts and prioritising statutory services.I would like the opportunity to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I submit in formal opposition to the proposed average 7.9 percent residential rates increase for 2026/27 and to advocate for reduced wasteful Council spending and better value for ratepayers.The proposed 7.9% increase is not affordable for households already facing substantial cost pressures. The current average residential rates bill is $4069 with real increases since 2022 of 30 percent far outstripping cumulative inflation. The plan allocates 4.4% for CRL operating costs on top of 2% for maintaining existing assets and 1.5% for new assets as Auckland grows. A more restrained approach is necessary.Agreed positions:- Oppose the average residential rates rise by at least 7.9%.- The

Council must reduce expenditure on corporate and backroom office functions across the Council and CCOs.- The Council must reduce spend on consultancy and professional services rather than continuing to increase these items.- Cancel the Food Scraps Programme which costs about $36 million per year and emits more carbon than it saves.- Freeze staffing and/or reduce payroll costs by not hiring for vacant non-essential roles which could save at least $17 million immediately.- Cut Māori-specific spending such as the $10 million per year spent on the Māori outcomes department (Ngā Mātārae) as this is not a core local government function.I note the public briefing's figures: total consultant spend of about $126 million annually across the Council group payroll of roughly $1.3 billion and 6123 staff on six-figure salaries. The proposed savings by reducing new Council spending by $150 million (a 2% reduction) would cap the rate increase at around 3 percentachievable only if non-essential and wasteful expenditure is reined in. The alternative budget approachprioritising statutory and essential services over discretionary grants and reviewing vendor contractsshould be supported.I respectfully request that the Council undertake a comprehensive review of discretionary and back-office costs implement a hiring freeze on non-essential roles renegotiate contracts and prioritise essential services to protect ratepayers from excessive increases.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I oppose the average residential rates increase of at least 7.9 percent. The proposed increase equates to about $320 for the average household on top of a real rates rise since 2022 that has already reached 30 percent (in 2022 dollars) far outpacing cumulative inflation. The breakdown indicates 2% for maintaining existing assets 1.5% for new assets as Auckland grows and 4.4% for CRL operating costs all contributing to unaffordable bills for many ratepayers.The Auckland Ratepayers' Alliance proposes a more prudent path: reduce new Council spending by $150 million (2%) capping the average rate rise at around 3 percent. This requires: (1) reducing personnel costs

through organisational change and a hiring freeze saving $50 million; (2) capping spending on consultants saving $50 million; (3) renegotiating contracts and consolidating vendors saving $30 million; (4) prioritising statutory and essential services over discretionary grants saving $20 million. These steps recognise that staff costs and backroom functions have grown disproportionately with payroll and consultant expenditure driving much of the spend.I also urge consideration of the Alliance's other cost-saving measures: cancel the Food Scraps Programme which costs $36 million per year and according to the Alliance yields greater carbon emissions than savings; freeze vacancies and non-essential roles to save at least $17 million immediately; and reconsider Māori-specific expenditure such as the $10 million per year spent on the Māori outcomes department (Ngā Mātārae) arguing that this is not a core local government role.In sum a responsible approach is to curb wasteful spending prioritise essential services and deliver a fairer rate outcome for households. I request your consideration of the Alliance alternative budget and a lower rate path consistent with these savings.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Submitter details:

Organisation: N/A

Local Board: Howick

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

1. Rates and affordability- The proposed 7.9% increase is excessive and unaffordable for households already bearing a 30% real rates rise since 2022 (in 2022 dollars) while inflation has run around 12%. The impact is a further squeeze on household budgets.2. Expenditure and waste reduction- The Council must urgently reduce expenditure on corporate and backroom office functions across the Council and CCOs.- Spending on consultancy and professional services should be capped or reduced rather than continually increasing.- The Food Scraps Programme should be cancelled. It costs about $36 million per year and based on available inputs emits more carbon than it saves.-

Freeze staffing and/or reduce payroll costs by not hiring for vacant non-essential roles. This measure alone could save at least $17 million immediately.- Cut Māori-specific spending such as the $10 million per year on the Māori outcomes department (Ngā Mātārae). Local government should prioritise statutory and essential services over discretionary programmes.3. Alternative budget and outcomes- The Ratepayers' Alliance alternative budget proposes reducing new Council spending by $150 million (2% reduction) enabling a cap of average residential rates increases to about 3%. This includes: - $50 million from personnel cost reductions and a hiring freeze - $50 million from capping consultants - $30 million from contract renegotiations and vendor consolidation - $20 million by prioritising statutory services over discretionary grants4. Additional governance concerns- Since the 2010 amalgamation rates have risen by 85% while population growth and inflation outpace or lag behind. This pattern signals inefficiency and wasteful spending that must be corrected.I urge the Council to adopt a prudent efficiency-first approach align spending with statutory duties and present a rate path that recognises affordability for Auckland households.Closing: I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Howick

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I write to formally oppose the proposed average residential rates increase of 7.9% for 2026/27 and to advocate for reducing wasteful Council spending to protect households from unaffordable bills.The proposed 7.9% increase equates to about $320 extra per average household on top of a current average bill of $4069. Since 2010 rates have risen by 85%well ahead of both inflation (34%) and population growth (22%). The breakdown shows 2% for maintaining existing assets 1.5% for growth-related assets and 4.4% for CRL operating costs; this is not sustainable for ratepayers who are already stretched. I support a stance aligned with the Auckland Ratepayers' Alliance proposal

to cap rates growth at around 3% by reducing non-essential expenditure.I agree that the Council must cut expenditure on corporate and backroom office functions across the Council and CCOs and reduce spend on consultancy and professional services. The briefing highlights $126 million per year in consultancy costs across the Council group and $590 million spent on consultants and contractors with a significant payroll and other expenses burden. I also support freezing staffing and/or reducing payroll costs by not hiring for vacant non-essential roles which could save at least $17 million immediately.I oppose the Food Scraps Programme which costs $36 million per year and is claimed to emit more carbon than it saves. I also oppose expanding Māori-specific spending beyond what is necessary for core local government functions; specifically the $10 million per year on the Māori outcomes department (Ngā Mātārae) is not a role of local government and reducing such spend would help bring rates back in line with inflation.In sum reduce new spending by at least $150 million (2%) prioritise statutory and essential services and focus on fiscal restraint rather than further rate hikes. These steps would help achieve a fairer rate path for residents while maintaining core services.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

My views are based on the current rate rise (about $320 extra for the average household) and the broader context of Council expenditure.Key concerns- The proposed 7.9% increase appears not to reflect the economic pressures faced by households. I oppose an increase of this magnitude and urge the Council to hold the line closer to inflation and real needs.- There is substantial spend on corporate and backroom functions across the Council and CCOs that should be reduced. Streamlining central administration can deliver tangible savings without compromising essential services.- Spending on consultancy and professional services has risen and should be restrained.

Reducing reliance on external advisers will help lower the rates burden on residents.- I support cancelling the Food Scraps Programme which costs about $36 million per year and based on my understanding emits more carbon than it saves. Prioritising proven low-cost waste reduction and recycling measures would be more prudent.- Freeze staffing or reduce payroll by not filling vacant non-essential roles. This measure alone could save at least $17 million immediately.- I oppose expenditure on Māori-specific programmes such as Ngā Mātārae (Maori Outcomes) amounting to around $10 million per year as I believe this is not a core local government function and should be re-evaluated within statutory and essential service priorities.Alternative budget perspective- To cap the rate increase at or near 3% the Ratepayers' Alliance proposal suggests a $150 million reduction in new Council spending (2%) achieved through: $50 million from personnel costs $50 million from consultants $30 million from contract renegotiations and vendor consolidation and $20 million prioritising statutory services over discretionary grants. This approach reflects a prudent rebalancing of priorities.ClosingThis council and especially the Mayor needs to read the room and act decisively to protect ratepayers during a challenging economic period. I urge a lower rates outcome and meaningful cuts to wasteful spending.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I submit in strong opposition to the proposed average 7.9 percent residential rates increase and to the current trajectory of spending growth across Council and CCOs.Key points- Oppose the average residential rates increase of 7.9 percent. The proposed rise would add approximately $320 to the average household bill on top of a real rates increase of about 30 percent since 2022 far exceeding general inflation.- The Council must reduce expenditure on corporate and backroom office functions across the Council and CCOs. When combined with high payroll and extensive consultant spend this drives rates beyond what households can sustain.- The spend on consultancy and

professional services should be reduced rather than continually rising. The current level of external expertise is excessive for a local government that should prioritise core statutory responsibilities.- Cancel the Food Scraps Programme which costs about $36 million per year and emits more carbon than it saves.- Freeze staffing and/or reduce payroll costs by not hiring for vacant non-essential roles. Such a freeze would save at least $17 million immediately.- Cut Māori-specific spending including the approximately $10 million per year on the Māori outcomes department (Ngā Mātārae). This is not a core function of local government and should be redirected to essential services.Budget alternativesThe Auckland Ratepayers' Alliance Alternative Budget proposes reducing new Council spending by $150 million (2 percent) capping average residential rates increases at 3 percent. This would be achieved by:- Reducing personnel costs through organisational change and a hiring freeze: $50 million- Capping spending on consultants: $50 million- Contract renegotiations and vendor consolidation: $30 million- Prioritising statutory and essential services over discretionary grants: $20 millionConclusionGiven historic spending trendssignificant increases in payroll consultants and support functionsfrequently outpacing inflation a 7.9 percent rise is untenable. I urge Council to adopt the proposed savings reject unwarranted new spending and set a more affordable rates path for ratepayers.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

The expected impact is an unaffordable burden on households already stretched by inflation and the long-run rise in rates since 2010. The Alliance calculations show a 7.9% rise equates to about $320 more per average household on top of a current average bill of $4069. The real increase since 2022 is 30% in 2022 dollars well above cumulative inflation. I oppose this rate rise and support a targeted reduction in non-essential Council spending to keep rates in line with inflation and essential services.I support the following positions and actions:1) Reduce expenditure on corporate and backroom office functions across the Council and CCOs.2) Reduce spend on consultancy and

professional services rather than allowing these items to grow.3) Cancel the Food Scraps Programme (costs $36 million/year) on the basis that it emits more carbon than it saves.4) Freeze staffing and/or reduce payroll costs by not hiring for vacant non-essential roles which could save at least $17 million immediately.5) Cut Māori-specific spending such as the $10 million/year on the 'Maori outcomes' department (Ngā Mātārae) noting that this is not a core local government function.Rationale and context:- The 7.9% increase is broken down as 2% for maintaining existing assets 1.5% for new assets to accommodate growth and 4.4% for CRL operating costs. This allocation reinforces the need to reassess discretionary spending before imposing higher rates on households.- Total payroll and related costs consultants and external contracts have risen substantially since 2022 while essential service delivery pressures should take priority. The Council's own spending patterns indicate opportunities for prudent savings without compromising core services.I request a transparent public review of the proposed budget with a focus on achieving affordability for residents.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I submit in formal opposition to the proposed average residential rates increase of 7.9% for 2026/27 and urge a reduction in wasteful council spending. The current rate burden on households is significant and the proposed rise would push rates beyond inflation and the ongoing cost of living pressures families face.1) Oppose the 7.9% average residential rates increase. The rate rise should be limited to a level that keeps pace with or below general inflation and population-driven needs. The proposed 7.9% equates to about $320 per average household on top of a 30% real increase since 2022 in Auckland's rates in 2022 dollars while population growth has not kept pace with such

expense.2) Reduce spending on corporate and backroom functions and consultants. Council spending on consultants averages $126 million per year across the group with the Council's own input around $60 million and consultant pay averaging $200000. Direct operating expenditure has risen well beyond inflation. I support reducing these lines of spend to deliver lower rate increases.3) Cancel the Food Scraps Programme. The programme costs about $36 million per year and appears to emit more carbon than it saves. Abandoning this project would free funds for essential services and rate relief.4) Cut Maori-specific spending including the Ngā Mātārae 'Maori outcomes' department. The Alliance highlights about $10 million per year on Maori outcomes; as a local government body this function should be prioritised within statutory and essential services not treated as discretionary spend.5) Additional: reconsider non-essential infrastructure elements such as bus stops on the road that disrupt traffic flow. Removing such locations could improve efficiency and reduce capital/operational costs.I propose the Council reduce new spending by $150 million (2%) via: a) cap on personnel costs; b) cap consultancy spend; c) renegotiate contracts and consolidate vendors; d) prioritise statutory and essential services over discretionary grants.Closing: I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Note: This simplified version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed, and handwritten submissions have been transcribed.

Submitter details:

Organisation: N/A

Local Board: Howick

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I write to oppose the proposed average 7.9 percent residential rates increase and to urge visible action to curb wasteful Council spending while protecting essential services.The draft plan proposes a 7.9% raise about $320 extra for the average household on top of a current average bill of $4069. Since 2022 rates have risen by about 30% in real terms well above cumulative inflation of around 12%. The breakdown shows 2% for maintaining existing assets 1.5% for new assets as Auckland grows and 4.4% for CRL operating costs. In short ratepayers are asked to fund not only core services but significant new spending and project costs while household budgets remain

stretched.Agrees: I oppose the 7.9% rise and urge a reset to keep rates closer to inflation. The Auckland Ratepayers' Alliance proposes an alternative budget that reduces new Council spending by $150 million (about 2%) capping the rate increase to around 3%. This would be achieved by:- Reducing personnel costs via organisational changes and a hiring freeze of non-essential roles ($50 million).- Capping spending on consultants ($50 million).- Renegotiating contracts and consolidating vendors ($30 million).- Prioritising statutory and essential services over discretionary grants ($20 million).Disagrees: I support reining in non-essential backroom functions and shifting spending toward core community needs not expanding the corporate footprint or external consultancy spend.Additional points: The Food Scraps Programme costs about $36 million per year and emits more carbon than it saves warranting cancellation. Freezing staffing and avoiding hires for vacant non-essential roles would save at least $17 million immediately. There is a strong case to cut Māori-specific spending such as the $10 million per year on the Māori Outcomes department (Ngā Mātārae) as this is not a core local government function.Get your spending under control Auckland City Council. Get back to basics. People are struggling out here and you are not helping!I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces

work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Annual Plan 2026-2027

Local Board: Howick

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I oppose the proposed average residential rates increase of 7.9% and urge a comprehensive review of council discretionary spending to protect households from unacceptable cost pressures.Key points- The proposed 7.9% increase equates to about $320 for the average household on top of a current average bill of $4069. Since 2012 rates have risen by 85% in real terms far above inflation and population growth. This level of increase is unsustainable for many households.- The rate rise is driven in part by CRL operating costs (4.4%) asset maintenance (2%) and new asset costs (1.5). I believe a targeted review of operating costs and capital programmes is necessary before any further

rate burden is accepted.- The Council should reduce expenditure on corporate and backroom functions and curb consultancy and professional services. The Alliance's analysis shows $126 million per year in consultancy spend across the Council group with the average consultant earning about $200k.- Cancel the Food Scraps Programme which costs $36 million per year and appears to emit more carbon than it saves.- Freeze staffing and/or reduce payroll by not hiring for vacant non-essential roles a measure that could save at least $17 million immediately.- Curb Māori-specific spending such as the $10 million/year allocated to the Māori Outcomes department (Ngā Mātārae) arguing that this is not a statutory requirement of local government.Alternative Budget and responsible stewardship- I support the Ratepayers' Alliance's plan to reduce new Council spending by $150 million (2%) thereby capping the average residential rate rise to around 3%. This includes: - $50 million from personnel cost reductions and a hiring freeze for non-essential roles - $50 million from capping consultancy and professional services - $30 million from contract renegotiations and vendor consolidation - $20 million from prioritising statutory and essential services over discretionary grantsClosingI urge the Council to pursue these cost-saving measures before approving a higher rate increase ensuring essential services are protected while delivering fair value to ratepayers.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?

Your feedback:

Question 1: Our overall plan and proposed increases to rates

Our Annual Plan 2026/2027 builds on the first two years of our Long-term Plan 2024-2034 (LTP). It focuses on continuing to strengthen our finances and Auckland's physical resilience, while investing where it is needed most to meet the needs of our growing communities.

In 2026/2027 that includes prioritising investment in:

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I submit in strong opposition to the proposed average residential rates increase of 7.9% for 2026/27 and I urge the Council to adopt significant efficiency measures instead of expanding rates burden on households.Key concerns and positions1) Rate increase and affordability- Oppose the average residential rates increase by at least 7.9%. This rise equating to about $320 for the average household is excessive given the real rate of increase since 2022 and ongoing inflation. Rates have risen 85% since the Super City amalgamation well above inflation and population growth.2) Expenditure reform across the Council and CCOs- The Council must reduce expenditure on

corporate and backroom office functions and curb consultancy and professional services. Current data show consultants cost approximately $126 million per year across the Council group with average consultants earning substantial sums; payroll and related costs are rising faster than inflation.3) Specific program and payroll reforms- Cancel the Food Scraps Programme which costs $36 million per year and reportedly emits more carbon than it saves.- Freeze staffing and/or reduce payroll costs by not filling vacant non-essential roles which could save at least $17 million immediately.- Cut Māori-specific spending including the $10 million per year allocated to the Maori Outcomes department (Ngā Mātārae) arguing this is not a function of local government and should be prioritised elsewhere.4) Alternative budgeting and rate relief- Implement the Ratepayers' Alliance alternative budget: reduce new Council spending by $150 million (2%) capping average residential rates increase at around 3% through targeted savings in personnel consultants contract renegotiations and vendor consolidation while prioritising statutory and essential services over discretionary grants.ClosingI urge the Council to prioritise value for money transparency and restraint in spending before increases are passed to ratepayers. I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I submit this to oppose Auckland Council's proposed average residential rates increase of 7.9% and to advocate for significant reductions in wasteful Council spending with a focus on tightening personnel costs and non-core expenditure.Position and reasoning1) Oppose the average residential rates increase of at least 7.9%. The current average residential bill is $4069 with a real increase since 2022 of around 30% (vs. 12% cumulative inflation). A further 7.9% lift compounds the financial pressure on households already struggling under high living costs.2) Targeted spending reductions are essential. The Council should reduce expenditure on corporate and backroom office functions

across the Council and CCOs and curb consultancy and professional services rather than allowing these items to grow. The Council's payroll and related costs including consultants and contractors have risen markedly contributing to unsustainable rate burdens.3) Freeze or reduce payroll by prioritising essential roles. I support freezing staffing and/or reducing payroll costs by not hiring for vacant non-essential roles a measure that could save at least $17 million immediately.4) Reallocate and prioritise statutory services. Prioritise essential statutory functions over discretionary grants and non-core programmes including reducing non-essential spending that does not directly benefit residents' core services.5) Scale back non-core spending including targeted program reforms. I support reductions in corporate and backroom functions and a comprehensive review of vendor contracts to drive savings.Additional pointsThere are observable inefficiencies in some council operations locally. Ground-level staff and roading/maintenance resources should be assessed for value-for-money and productivity. I urge a transparent efficiency audit of local delivery to ensure funds are directed to home owners and essential services.ClosingI would appreciate the opportunity to present at hearings and to emphasise the need for a more affordable rates path and tightened spending.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I submit my opposition to the proposed 7.9% average residential rates increase and urge a reset of council spending towards essential services and rigorous cost-control.1) Rates and spending reform- I oppose the average residential rates increase of 7.9% and expect rates to be aligned with inflation or less in line with the Council's own duty to use ratepayer funds prudently.- The Council must reduce expenditure on corporate and backroom office functions across the Council and CCOs and cut spend on consultancy and professional services rather than continuing to grow these items.- Implement a real enforceable cap on payroll growth: freeze staffing and/or reduce payroll

costs by not hiring for vacant non-essential roles which would save at least $17 million immediately.- Reprioritise funding away from discretionary programmes toward statutory and essential services.2) Specific programme cuts and fiscal discipline- Cancel the Food Scraps Programme reported to cost $36 million per year and to emit more carbon than it saves.- Freeze or significantly reduce Māori-specific spending such as the $10 million per year allocated to the Māori outcomes department (Ngā Mātārae) given concerns about scope and local government role.- Implement the Ratepayer Alliance Alternative Budget: reduce new Council spending by $150 million (2% reduction) to cap rates increases at around 3%: - $50 million through personnel costs and hiring constraints - $50 million by capping consultants - $30 million via contract renegotiations and vendor consolidation - $20 million by prioritising statutory/essential services over discretionary grants3) Transparency and accountability- Expenditure growth has outpaced inflation and population growth since 2010; a robust transparent review of all major cost drivers is overdue.ClosingI respectfully request that the Council prioritise ratepayer relief implement the proposed expenditure reductions and deliver a more affordable value-for-money Auckland.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

I submit in strong opposition to the proposed average 7.9 percent residential rates increase for 2026/27 and in favour of meaningful reductions in wasteful Council spending.1. Rates increase and core service focus- The proposed 7.9% average rise is not acceptable. There is absolutely no justification to raise rates beyond the current inflation rate. The community needs a focus on maintaining and delivering essential services not funding expansive 'frilly' initiatives that do not benefit the majority of ratepayers.2. Reducing backroom and consultancy spend- The Alliance briefing shows annual consultant spend of about $126 million across the Council group with the

average consultant around $200k. Payroll and personnel costs have risen sharply while direct operating expenditure and six-figure salaries have grown disproportionately. I urge the Council to curtail corporate and backroom functions cap consultancy and professional services and pursue more cost-effective in-house delivery where possible.3. Specific savings and budgetary priorities- Cancel the Food Scraps Programme which costs $36 million per year and emits more carbon than it saves.- Freeze staffing or reduce payroll costs by not hiring for vacant non‘essential roles a measure that could save at least $17 million immediately.- Freeze or cut Māori-specific spending such as the Ngā Mātārae (Māori Outcomes) department which currently amounts to about $10 million per year acknowledging that this is not a core local government function.4. Proposed alternative budget approach- I support the Ratepayers' Alliance proposal to reduce new Council spending by $150 million (about 2%) aiming to cap residential rate increases at 3% through: $50 million saved from personnel costs $50 million from consultancy caps $30 million from contract renegotiations and vendor consolidation and $20 million from prioritising statutory/essential services over discretionary grants.5. Additional points- Keep focus on basic services that benefit most Aucklanders and halt projects that benefit only a small vocal segment of the community.I request consideration of these points and a revised plan that aligns rates with inflation prioritises core services and achieves meaningful savings.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

- **Transport**
- **Water**
- **Helping local boards respond to the needs of their communities.**

This annual plan also proposes how we will pay for services and investments, including a 7.9 per cent rates increase for an average-value residential property. The increase in rates is mainly due to the $235 million yearly cost to run and own the City Rail Link, the bulk of which is interest and depreciation costs for the council's share of CRL.

Individual rates increase will vary by property type and value. Use our online rates guide to find out the proposed rates for your property.

Q1: What do you think of the proposed annual plan?

Do not support most

Tell us why

1. Ratepayer impact and fairness- The proposed 7.9% average increase equates to about $320 for the average household on top of a 30% real rates increase since 2022 (versus 12% inflation). Rates are already high and rising faster than inflation and population growth. I oppose any increase beyond inflation and request Council to target affordability for households.2. Expenditure reductions to justify rate relief- I support reducing spend on corporate and backroom functions across the Council and CCOs.- I support capping and reducing consultancy and professional services rather than continuing to grow these lines.- I support freezing staffing and/or reducing payroll costs

by not filling vacant non-essential roles which could save at least $17 million immediately.3. Specific program savings and policy shifts- I oppose continuing the Food Scraps Programme which costs $36 million per year and emits more carbon than it saves.- I oppose ongoing spend on Māori outcomes as currently framed (the Ngā Mātārae/'Māori outcomes' department) noting the department's $10 million/year cost as not a core local government function.- I support significant reform of escalation areas driven by 'intensification building' and the associated rate pressure where rates would otherwise be outpacing household capacity.4. Additional concerns- Resource consents costs are excessive and contribute to overall cost of living pressure for households and businesses.Alternative budget alignment- I endorse the Ratepayers' Alliance proposed approach: reduce new Council spending by $150 million (2% cap) targeting personnel costs consultants contract renegotiations and prioritising statutory/essential services over discretionary grants.ClosingI request that Auckland Council consider these reductions to cap the rate rise at or near 3% by re-prioritising expenditure and eliminating non-essential programs.I do not wish to speak to my submission at a hearing.

Question 2: Changes to other rates, fees and charges

Besides the 7.9 per cent rates increase for an average-value residential property, the annual plan includes changes to a range of other rates, fees and charges. These include:

- **Introduction of a refuse bin/bag exchange fee**
- **Changes to the Kingsland and Onehunga Business Improvement District (BID) programme areas**
- **Waitākere Rural Sewerage Scheme**
- **An Auckland Transport proposal to increase residential parking permit fees in specific areas.**

Q2: What do you think about these proposed changes?

N/A

Question 3: Local board priorities

Q3: Which local board(s) would you like to provide feedback on?

N/A

Question 4: Other feedback

Q4: Do you have any other comments on the Annual Plan 2026/2027?

Including the Tūpuna Maunga Authority Operational Plan 2026/2027 (Section 3 of Consultation document)

N/A

Question 5: Looking further ahead / shaping Auckland's longer-term future

We also want your feedback on longer-term priorities that will help shape the city over time.

We are planning some discussions for next year that will inform plans and strategies that will shape Auckland's future. These plans and strategies include (but are not limited to):

- **Regional transport plans**
- **Water service strategies**
- **Auckland's spatial plan**
- **Our 2027–2037 long-term plan, which will set funding priorities for regional and local priorities listed below.**

We will continue to invest and deliver in all our investment areas, but we want to understand your priorities.

Q5: Which areas are most important to you over the long term?

(Please use the boxes to rank in order of importance, with 1 being the most important and 6 being the least important.)

Rank	Area
	Economic development and events – growing Auckland's economy and supporting events, tourism and creative industries.
	Local parks, community and recreation services – local parks, sports fields and other physical recreation services, libraries, community centres and services, and funding community-led initiatives.
	Planning and infrastructure to manage growth – planning how and where Auckland grows, rebuilding urban centres, improving infrastructure, and coordinating land-use with public services.
	Regional parks and environment – looking after Auckland's natural areas, streams, coastal zones and cultural heritage, reducing waste, and supporting community-led environmental projects
	Transport – roads, public transport, walking and cycling, and making it easier, safer and more sustainable for people to move around
	Flood resilience – reducing flood risks, upgrading stormwater systems and protecting waterways.

Q5 Comment: What specific council activities or services do you most want us to prioritise, and why?

N/A

Question 6: City centre

Auckland's City Centre is the economic heart of our region. Overall, the city centre accounts for about a fifth of everything produced in Auckland's economy. We want to make public spaces work better for people, get more value from major investments in transport, and make sure council helps the city centre thrive as a place to live, work, study, and visit.

Q6: What improvements do you think we should prioritise in the city centre?
